§ 14.65 *Rules in other parts applicable.* (a) The rules relating to station authorizations set forth in the rules and regulations governing stations in the maritime services (Subparts C of Parts 7 and 8 of this chapter) shall, except paragraphs (b) and (c) of § 7.72 and subparagraphs (1) and (2) of § 7.63 (b), apply to stations of these services in the Alaska area so far as they are consistent with this part. Further, with respect to the use of telegraphy on frequencies exclusively within the band 156.25–157.05 Mc, by limited coast stations in the Alaska area, the provisions of §§ 7.351, 7.352, 7.354, and 7.355 of this chapter shall apply to such operation, and the provisions of §§ 7.203, 7.204, and 7.205 shall not apply thereto.

(b) So far as they are consistent with this part, the following rule sections contained in Subpart C of Part 7 of this chapter shall apply to stations of the fixed service subject to this part: §§ 7.61, 7.62, 7.64, 7.66, 7.67, 7.69, 7.70, 7.71 (a), and (b) and 7.73. Section 7.63, except subparagraphs (1) and (2) of paragraph (b), shall apply to stations of the fixed service subject to this part.

SUBPART D—STATION AND OPERATING REQUIREMENTS

§ 14.101 *Priority of distress and other signals.* (a) Stations operating in the fixed service or the maritime mobile service in the Alaska area shall, at all times, give absolute priority to radio communications or signals relating to any ship or aircraft in distress. When any distress signal or communication is anticipated or intercepted by any station, it shall cease all transmission on any frequency or frequencies which may interfere with any station hearing such radio communication or signal of distress except when engaged in answering or aiding the ship or aircraft in distress, and shall assist the vessel or aircraft in distress, so far as possible, by complying with its instructions.

(b) Stations of the maritime mobile service shall observe priority of communications in accordance with the requirements of §§ 7.180, 7.181, 8.176 and 8.177 of this chapter. Alaska public fixed stations, when operating on an assigned frequency which is used also by the maritime mobile service, shall, at all times, give priority on such frequency to distress signals or communications as set forth in paragraph (a) of this section, and to urgent or safety signals, or any communication preceded by one of these signals.

NOTE: The type of signals to which reference is made in § 14.101 are defined in §§ 7.7 (d), (e), (f) and (g) and 8.6 (d), (e), (f) and (g) of this chapter.

§ 14.102 *Practices concerning transmission of public correspondence.* (a) Pending Commission implementation of the tariff filing requirements of section 203 of the Communications Act and Part 61 of this chapter with respect to common carriers in Alaska, any charges made by an Alaskan public fixed station, or any public coast station or public ship station in the Alaska area, for interstate or foreign communication service, should conform to the applicable regulations and tariffs issued by the Alaska Communication System. Information regarding charges of any such station or any changes therein should be furnished promptly to the Tariff Manager of the Alaska Communication System, Seattle, Washington.

(b) Except in event of an emergency concerning the immediate safety of life or property, no Alaska-public fixed station, public ship station, or public coast station in the Alaska area shall transmit any communication in behalf of any person other than the licensee to any other station licensed by the Commission under circumstances wherein such telecommunication can be transmitted effectively by, or to, readily available facilities of the Alaska Communication System which are open to public correspondence and are capable of effectively forwarding (via connecting facilities if and when required) such telecommunication to the designated recipient.

§ 14.103 *Hours of service of fixed stations.* (a) The hours of service of each Alaska-public fixed station shall, within the scope of its normal operations, be such as to adequately meet the requirements of the particular region served by the station and, unless otherwise specified by the Commission for individual stations, shall be determined by the station licensee subject to such applicable conditions and limitations as are imposed by the rules of the Commission.

(b) Each Alaska-public fixed station whose hours of service are not continuous shall not suspend operation before having concluded, when possible within the scope of its normal operations, all communications of an emergency nature.

(c) The Commission, as public interest, convenience, or necessity requires, may order, at any time, the licensee of an Alaska-public fixed station not authorized for continuous hours of service to increase the hours of service of such station as may, in the discretion of the Commission, be required to provide adequate public service: *Provided*, That such requirement shall not be prescribed without the consent of the station licensee unless, after hearing, the Commission shall determine that such requirement will promote public convenience or interest or will serve public necessity, or the provisions of the Communications Act will be more fully complied with.

NOTE: The hours of service of public coast stations and ship stations are regulated by §§ 7.186 and 8.183 of this chapter.

§ 14.104 *Coast station facilities for 2182 kc.* Each public coast station in the Alaska area licensed to transmit by telephony on any radio-channel within the band 1600 kc to 3500 kc shall be capable of transmitting and receiving (and shall be licensed to transmit) class A3 emission (modulation by voice frequencies) on the radio-channel of which 2182 kc is the authorized carrier frequency with antenna power not less than the maximum antenna power which it is capable of using for transmission by telephony on any other authorized radio frequency in this band; except that in any event the required antenna power on 2182 kc need not be more than 100 watts when no modulation is present.

§ 14.105 *Fixed and coast station operating arrangements.* (a) The requirements of § 7.106 (a), (b), (c), (d), and (e) (2) of this chapter, applicable to coast stations and providing for certain operating controls to expedite communication and conserve the use of frequencies, shall apply to Alaska-public fixed stations and coast stations subject to this part: *Provided*, That for these stations the date of required compliance with paragraphs (c) and (d) and (e) (2) of that section shall be not later than May 1, 1957.

(b) The requirements of § 7.106 (e) (1), (f), (g) and (h) of this chapter concerning certain operating controls shall apply to coast stations subject to this part: *Provided*, That the date of required compliance with paragraph (g) (1) of that section shall be not later than May 1, 1957.

(c) The radio equipment of each station subject to this part must be capable of permitting reception of the class or classes of emission on the frequency or frequencies used in accordance with the provisions of this part for the service carried on by the particular station. The technical arrangement of the station apparatus shall be such that the necessary reception of emissions can be readily effected prior to the transmission of any signals or communications by the station.

§ 14.106 *Documents required for fixed stations.* (a) Each Alaska-public fixed station shall be provided with the following documents:

(1) A valid station license, available in accordance with the provisions of § 7.102 (a) and (b) of this chapter;

(2) The necessary operator license or licenses, available in accordance with § 7.155 of this chapter;

(3) The station log as designated in § 14.109;

(4) This part and Part 7 of this chapter.

(b) These documents shall be continuously and readily available to the licensed operator on duty during the hours of service of the station.

§ 14.107 *Documents required for coast stations.* (a) Each public coast station in the Alaska area using telegraphy shall be provided with this part and the documents prescribed in § 7.213 (a) of this chapter: *Provided*, That in public coast stations authorized to use telegraphy on frequencies solely within the band 1605–5000 kc, the following documents may be substituted in lieu of the documents specified by paragraph (a) (4), (5) and (6) of § 7.213 of this chapter:

(1) A complete list of coast stations (including call signs) located in the Alaska area (including coast stations of the ACS), open to public correspondence, and authorized to transmit on frequencies within the band 1605–5000 kc;

(2) A list, as complete as is practicable, of ship stations (including call signs) known to operate regularly in the Alaska area and authorized to transmit on frequencies within the band 1605–5000 kc;

(b) Each limited coast station in the Alaska area authorized to use telegraphy on a frequency or frequencies below 30 Mc shall be provided with this part and the documents prescribed in § 7.213 (b) of this chapter.

(c) Each public coast station in the Alaska area using telephony shall be provided with this part and the documents prescribed in § 7.313 of this chapter: *Provided*, That in Class II public coast stations that do not provide communication with ocean-going vessels, the documents specified in paragraph (a) (1) and (2) of this section may be substituted in lieu of the international "Alphabetical List of Call Signs" and the international "List of Coast Stations and Ship Stations."

(d) Each limited coast station in the Alaska area using telephony on any authorized frequency, and/or authorized to use telegraphy on frequencies solely above 30 Mc, shall be provided with this part and with the documents prescribed in § 7.369 of this chapter.

(e) The documents prescribed in this section shall be continuously and readily available to the licensed operator on duty during the hours of service of the station.

§ 14.108 *Documents required for ship stations.* (a) Each ship station in the Alaska area using telegraphy shall be provided with this part and the documents listed in § 8.329 of this chapter; except that in any ship station using telegraphy and located on board a vessel not compulsorily fitted with a radiotelegraph installation while in the Alaska area or while engaged on voyages solely between Alaska and other places on the Pacific seaboard of the continental United States or Canada:

(1) The following documents may be substituted in lieu of those specified in paragraph (a) (4) and (5) of § 8.329 of this chapter if the ship station uses telegraphy on frequencies solely within the band 1605–5000 kc, or solely within the latter band and the band 156.35–156.95 Mc:

(i) A complete list of coast stations (including call signs) which are authorized to transmit on frequencies within the band 1605–5000 kc, which are open to public correspondence, or which maintain watch on 2182 kc or 2091 kc and are located in the Alaska area (including coast stations of ACS) and on the Pacific seaboard of the continental United States and Canada;

(ii) A list, as complete as is practicable, of ship stations (including call signs) known to operate regularly in the Alaska area and/or on voyages between Alaska and other places on the Pacific seaboard of the continental United States or Canada, and authorized to transmit on frequencies within the band 1605–5000 kc;

(2) The documents specified in paragraph (a) (4) and (5) of § 8.329 of this chapter or the substitutes therefor specified in subparagraph (1) of this paragraph need not be provided if the ship station uses telegraphy on frequencies solely within the band 156.35–156.95 Mc.

(b) Each ship station in the Alaska area using telephony only (except telegraphy for calling and operating signals incidental to the use of telephony) shall be provided with this part and the documents set forth in § 8.367 of this chapter: *Provided*, That ship stations on vessels engaged on international voyages solely between Alaska and other places on the Pacific seaboard of the continental United States and Canada (either within or outside inland waters of the United States or Canada) must, if they operate on frequencies within the band 1605–5000 kc, be provided with the documents specified in paragraph (a) (1) (iv) and (v) of § 8.367 of this chapter or in lieu thereof the documents prescribed in subparagraph (1) of paragraph (a) of this section.

(c) The documents prescribed in this section shall be continuously and readily available to the licensed operator on duty during the hours of service of the station.

§ 14.109 *Fixed and coast station records.* (a) Each Alaska-public fixed station and each public coast station in the Alaska area shall maintain an accurate radiotelegraph and/or radiotelephone log as required for public coast stations by §§ 7.214 (a) and 7.314, respectively, of this chapter: *Provided*, That coast stations, with respect to operation on frequencies within the bands 1605–5000 kc and 156.35–162.05 Mc, and all Alaska-public fixed stations, may express the time of making each log entry in local standard time in the same manner as is permitted by those sections for coast stations which communicate exclusively with vessels on inland waters of the United States.

(b) Each limited coast station in the Alaska area shall maintain an accurate radiotelegraph and/or radiotelephone log as required by §§ 7.214 (b) and 7.370, respectively, of this chapter.

§ 14.110 *Ship station records.* Each ship station in the Alaska area shall maintain an accurate radiotelegraph and/or radiotelephone log as required by §§ 8.330 and 8.711 for telegraphy, and 8.368 for telephony, of this chapter: *Provided*, That with respect to operation on frequencies within the bands 1605–5000 kc and 156.25–157.45 Mc,

ship stations in the Alaska area and on board vessels engaged on voyages solely between Alaska and other places on the Pacific seaboard of the continental United States or Canada may express the time of making each log entry in local standard time in the same manner as is permitted by §§ 8.330 (d) and 8.368 of this chapter for ship stations navigated on inland waters of the United States.

§ 14.111 *Coast station communication.* (a) Except as otherwise stated in paragraphs (b) and (c) of this section, the provisions of § 7.302 of this chapter shall apply to public coast stations subject to this part.

(b) In lieu of the provisions set forth in § 7.302 (a) (3) and (4) of this chapter, public coast stations in the Alaska area using telephony are authorized to communicate with public ship stations, government ship stations, aeronautical public service stations on board aircraft, and government aircraft stations for the transmission or reception of public correspondence when the mobile station uses telephony on a radio-channel below 5000 kc designated in this part for ship-shore public correspondence by means of telephony and used by the coast station with which it communicates. Under this condition, the mobile station and the coast station transmit alternately on the same radio-channel.

(c) In lieu of the requirement of § 7.302 (b) (2) (i) of this chapter, the station with which communication is carried on shall transmit to the coast station on a radio-channel below 5000 kc designated in this part for ship-shore public correspondence by means of telephony and used by the coast station with which it communicates. Under this condition, the fixed station and the coast station transmit alternately on the same radio-channel.

§ 14.112 *Coast station working frequency required.* Coast stations in the Alaska area using telephony shall be regarded as complying with § 7.104 (c) (1) of this chapter when the particular coast station is capable also of transmitting and receiving (and is licensed to transmit) class A3 emission (modulation by voice frequencies) on at least one other radio-channel authorized for working with ship stations in the band 1605 to 3500 kc in lieu of the band 2000 to 35000 kc.

§ 14.113 *Suspension of coast station watch.* If, for any reason, a watch on 500 kc or 2182 kc maintained by a coast station, licensed for continuous or definite hours of service, is suspended, impaired, or discontinued during the regular season of operation of that station, notification thereof shall be given at the earliest practicable time by the station licensee to the nearest station or office of the U. S. Coast Guard or the Alaska Communication System that can be contacted via available channels of communication (preferably by wire or radio) and to the Commission's engineer in charge at Anchorage, Alaska. This notification shall include a statement of any estimated time of resumption of such watch if it has been suspended only, and shall state the reason for suspension, impairment, or discontinuance of the watch. When such watch is resumed after being suspended, or when impairment thereof no longer exists, notification of this fact likewise shall be given at the earliest practicable time. The provisions of this section shall apply to coast stations in the Alaska area in lieu of the provisions of §§ 7.74 and 7.75 of this chapter.

§ 14.114 *Use of developmental fixed stations.* (a) Developmental fixed stations subject to this part shall be constructed and used in such manner as to conform with all applicable technical and operating requirements contained in this part, unless deviation therefrom is specifically provided in the station authorization.

NOTE: Such requirements are those applicable to the corresponding established class of station including provisions relating to operator requirements, station records, station documents, assignment of call signs.

(b) Communication with any station of a country other than the United States is prohibited unless specifically authorized by the terms of the station authorization.

(c) The operation of a developmental station is subject to the condition that harmful interference is not caused to the operation of stations licensed in an established service under any part of the Commission's rules.

NOTE: The rules applicable to developmental coast stations and developmental stations on board ship are contained in Subpart M of Part 7 and Subpart Q of Part 8, respectively, of this chapter.

§ 14.115 *Rules in other parts applicable.* (a) The rules relating to station and operating requirements and other rules set forth in the rules and regulations governing stations in the maritime services (Subpart D and Subparts F through P of Part 7 of this chapter, and Subpart D and Subparts F through V of Part 8 of this chapter) shall, except as otherwise specifically provided in this part, apply to stations of these services in the Alaska area so far as they are consistent with this part.

(b) So far as they are consistent with this part, the following rule sections contained in Subparts D, F, G, H, I, M, O and P of Part 7 of this chapter shall apply to stations of the fixed service subject to this part:

7.101	7.155	7.310
7.102 (a) (b)	7.171	7.311
7.107 (a)	7.173	7.501
7.108	7.174	7.502
7.109	7.175	7.503 (a)
7.110	7.179 (e)	7.505
7.111	7.190	7.506
7.115	7.191	7.507
7.116	7.192	7.551
7.151	7.209	7.552
7.152	7.210	7.601
7.154	7.211	7.602

SUBPART E—STANDARD TECHNICAL REQUIREMENTS

§ 14.151 *Authorized frequency tolerance.* (a) Unless the particular station authorization specifically provides otherwise, the frequency tolerance authorized for coast stations and fixed stations subject to this part shall be as prescribed in paragraphs (b) and (c) of this section. This section shall apply to coast stations subject to this part, in lieu of § 7.131 of this chapter except as to coast station operation within any frequency band not designated in this section.

(b) Authorized frequency tolerances:

Assigned frequencies	Class of station	Percent tolerance
From 50 to 515 kc	Fixed or coast	0.02
From 1605 to 3400 kc	do	.01
On frequencies within the band from 5000 to 9000 kc.	Fixed	.01
On frequencies within the band from 4000 to 9000 kc.	Coast	.005
From 156.35 to 162.05 Mc	do	.005

NOTE: The authorized frequency tolerances applicable to ship stations are set forth in § 8.131 of this chapter.

(c) Fixed stations which, in exceptional cases are authorized to use plate (anode) input power in excess of the respective value specified below shall, when using such higher power, maintain the respective frequency tolerance designated below:

Class of emission in use	Class of radio frequency amplifier used in last stage of transmitter	Plate (anode) input power in use	Frequency band	Percent tolerance
A0, A1, A2, A2a, A2b	Any class for telegraphy	More than 300 watts	1605-3400 kc	0.005
		More than 750 watts	5000-9000 kc	.003
	Class C; plate, or plate and screen-grid modulated.	More than 300 watts	1605-3400 kc	.005
		More than 750 watts	5000-9000 kc	.003
	Class C; control, screen, or suppressor-grid modulated.	More than 600 watts	1605-3400 kc	.005
		More than 1,500 watts	5000-9000 kc	.003
A2, A2a, A2b, A3, A3a, A3b; also A0 or A1 as produced by the unmodulated carrier or by the keyed unmodulated carrier, respectively.	Class C; cathode modulated	More than 480 watts	1605-3400 kc	.005
		More than 1,200 watts	5000-9000 kc	.003
	Class B; linear	More than 600 watts	1605-3400 kc	.005
		More than 1,500 watts	5000-9000 kc	.003
	Class BC; high efficiency	More than 360 watts	1605-3400 kc	.005
		More than 900 watts	5000-9000 kc	.003
	Other classes; primarily for telephony.	As specified in the station authorization.	1605-3400 kc	.005
			5000-9000 kc	.003

NOTE: See § 7.8 (hh) of this chapter for definition of plate (anode) input power.

§ 14.152 *Authorized classes of emission.* (a) Unless the particular station authorization specifically provides otherwise, the classes of emission authorized for coast stations and fixed stations subject to this part and ship stations when in the Alaska area shall, with respect solely to frequencies within the following limits assigned in this part for use by such stations, be as set forth in the following paragraphs of this section. This section shall, solely in reference to such frequencies as are duly assigned in this part, apply to coast stations subject to this part in lieu of § 7.132 of this chapter and to ship stations in the Alaska area in lieu of § 8.132 of this chapter.

(b) For stations authorized by this part to use telegraphy on a frequency or frequencies within the respective frequency ranges designated in this paragraph the authorized classes of emission for telegraphy on such frequencies shall be as follows:

Class of station	Frequency range	Class of emission
Fixed	From 50 to 200 kc and on 1606.5 to 1800 kc (except 1666 kc)	A-1, and for brief testing A-0.
	From 200 to 2065 kc	A-1, and for brief testing A-0; A-2 until Jan. 1, 1957, only.
	From 2107 to 3400 kc	
	From 5000 to 9000 kc	
	From 415 to 490 kc	A-1 and for brief testing A-0, A-2, A-2a, A-2b for brief testing and listening, urgency and safety signals, or any communication preceded by one of these signals.
Coast	From 490 to 515 kc	A-1, A-2, A-2a, A-2b, and for brief testing A-0.
Ship	From 415 to 515 kc	A-1, A-2, A-2a, A-2b and for brief testing A-0.
	From 1605 to 1800 kc	
	From 2065 to 2107 kc	
Coast and ship	From 2107 to 3400 kc	A-1, and for brief testing A-0; A-2 until Jan. 1, 1957, only.
	From 5000 to 9000 kc	
Coast and ship	From 2065 to 2107 kc	A-1, and for brief testing A-0.
Coast and ship	On 156.4, 156.5, 156.7 and 156.9 Mc	F-1, F-2, and for brief testing F-0.

(c) For stations authorized by this part to use telephony on a frequency or frequencies within the respective frequency ranges designated in this paragraph the authorized classes of emission for telephony on such frequencies shall be as follows:

Class of station	Frequency range	Class of emission
Fixed	From 1605 to 1800 kc	A-3, A-3a, A-3b, and for brief testing A-0; also for brief operating signals A-1, A-2, A-2a, A-2b.
	From 2065 to 2065 kc	
	From 2107 to 3400 kc	
	From 5000 to 9000 kc	
Coast and ship	From 1605 to 1800 kc	A-3, A-3a, A-3b, and for brief testing A-0; also for brief operating signals A-1, A-2, A-2a, A-2b.
	From 2065 to 2065 kc	
	From 2107 to 3400 kc	
	From 5000 to 9000 kc	
Do	From 156.25 to 162.05 Mc	F-3, and for brief operating signals F-1 and F-2; also for brief testing F-0.

(d) As used in paragraphs (b) and (c) of this section, the letter "a" following class "A2" or "A3" emission means the emission of a single side band, with reduced carrier. The letter "b" following class "A2" or "A3" emission means the emission of two independent side bands, with reduced carrier. For radiotelegraph communication, the use of class A2, A2a, or A2b emission is permissible only when the modulated emission is keyed. In telegraph communication, keying only the modulating audio frequency is not authorized except when used in connection with radiotelephone communication solely for transmitting brief operating signals. On assigned frequencies from 1605 kc to 9000 kc, any form of A2 emission for radiotelegraph communication shall not be permissible after May 1, 1957.

(e) Classes of emission not authorized in paragraphs (b) and (c) of this section may be authorized by the Commission in special circumstances, subsequent to a satisfactory showing by the applicant of a need therefor and provided harmful interference will not result from the use thereof. Each application requesting such special authorization shall fully describe the emission desired to be used, shall indicate the emission-bandwidth required for effective operation, and shall state the purpose for which such emission is required.

NOTE: For information regarding the classification of emissions and the calculation of the bandwidth, reference should be made to Part 2, and to Subparts E of Parts 7 and 8 of this chapter.

§ 14.153 *Authorized transmitter power.* (a) Each fixed station and each coast station subject to this part, and each ship station when in the Alaska area, may use such antenna power as is necessary to carry on the service for which the station is licensed, on condition that the respective maximum authorized transmitter power as set forth herein shall not be exceeded (subject to the provisions of §§ 7.110 (a) and 8.110 (a) of this chapter and the provisions of paragraph (b) of this section) when transmitting on any frequency, assigned by this part for use by such station, which is within any frequency band set forth herein. The maximum authorized transmitter power for this purpose is designated in column 5 of the following table in relation to the respective controlling elements designated in columns 1, 2, 3 and 4:

1	2	3	4	5
Class of emission in use	Class of radio frequency amplifier used in the last radio stage of transmitter	Frequency band	Class of station	Maximum authorized transmitter power
A0, A1	Any class for telegraphy	From 50 to 200 kc	Fixed	500 watts.
		From 400 to 515 kc	Coast or ship	265 watts, with or without modulation.
A0, A1, A2, A2a, A2b	Any class for telegraphy	From 1605 kc to 9000 kc	Fixed, coast or ship	150 watts when or without modulation.
A2, A2a, A2b, A3, A3a, A3b; also A0 or A1 as provided the amplitude of the carrier shall not exceed its effective amplitude as used for telephony with the class of amplifier specified.	Class C—plate, or plate and screen-grid modulated.			150 watts when no modulation is present. 300 watts when no modulation is present.
	Class C—control, screen or suppressor-grid modulated.			240 watts when no modulation is present. 360 watts when no modulation is present.
	Class C—cathode modulated.			
	Class B—linear	From 1605 kc to 9000 kc.	Fixed, coast or ship.	180 watts when no modulation is present. As specified in the station authorization.
	Class BC—high efficiency.			
	Other classes: primarily for telephony.			
F0, F1, F2, F3	Any class for frequency-modulated transmission.	From 156.25 to 157.45 Mc.	Ship	100 watts. (Limited—50 watts.)
			Coast	1,000 watts.
		From 161.85 to 162.05 Mc.	Public coast	1,000 watts.

NOTE: As used in this part the terms "last radio stage", "plate (anode) input power", "antenna power", and "authorized transmitter power" are defined in Subparts A of Parts 7 and 8 of this chapter. See §§ 7.8 (gg), (hh), (ll), (kk), and 8.7 (ee), (ff), (gg), and (ii).

(b) The limitations governing the maximum authorized transmitter power set forth in paragraph (a) of this section may be exceeded when necessary:

(1) By a ship or coast station to expedite communication concerning a ship or aircraft in distress;

(2) To enable a ship station using a radio installation required for safety purposes by treaty or statute to satisfy the applicable transmitter power or communication range (distance) stipulated by such treaty or statute; or

(3) To provide effective communication, under exceptional conditions, on an assigned frequency or frequencies within the band 1605 kc to 6000 kc between an Alaska-public fixed station and one or more fixed stations of the Alaska Communication System. Such exceptional power, however, must be specifically requested in each case by the applicant or licensee and, before being used must be specifically authorized by the Commission. Except as may be otherwise determined by the Commission, such authorization will not be granted unless concurred in by the ACS. Each request for such authority must show at least that the local representative of the ACS has been fully informed thereof, and that technical means are available and can be used to reduce the power to not more than that permitted by paragraph (a) of this section when operating on assigned frequencies which would not be covered by such exceptional authorization.

(c) Unless the station license specifically provides otherwise, ship stations in the Alaska area shall, in addition to the provisions of this section, be subject to § 8.134 (c) (2) of this chapter in respect to minimum authorized transmitter

power on frequencies between 2000 kc and 25000 kc authorized for telephony, only when transmitted by telephony to a public coast station which is providing a direct electrical connection between the ship-shore radio channel in use and a public land-telephone system.

§ 14.154 *Modulation limiter for fixed and coast stations.* Except for transmitters used solely for developmental stations, each radiotelephone transmitter licensed for use and operation on a frequency or frequencies below 30 Mc in a fixed or coast station subject to this part shall, at the earliest practicable date and in no event later than May 1, 1957, always be used with a device that will automatically prevent modulation in excess of 100 percent. With respect to operation on frequencies below 30 Mc only, this section shall apply to coast stations located in the Alaska area in lieu of § 7.137 (a) of this chapter.

NOTE: For a similar requirement applicable to ship stations, reference is made to § 8.137 (a) of this chapter.

§ 14.155 *Rules in other parts applicable.* (a) The rules relating to standard technical requirements set forth in the rules and regulations governing stations in the maritime services (Subparts E of Parts 7 and 8 of this chapter) shall, except § 7.137 (a), apply to stations of these services in the Alaska area so far as they are consistent with this part.

(b) So far as they are consistent with this part, §§ 7.133 and 7.136 of this chapter shall apply to stations of the fixed service subject to this part.

SUBPART F—ASSIGNMENT AND USE OF FIXED SERVICE FREQUENCIES

§ 14.201 *Cooperative use of frequency assignments.* Unless provided otherwise by this part, or by the particular station authorization, each radio-channel authorized for use by a fixed station subject to this part is available for use on a shared basis only and shall not be construed as available for the exclusive use of any one station or any one station licensee. All station licensees shall cooperate in the use of their respective frequency assignment in order to minimize interference and obtain the most effective use of the authorized radio-channels.

§ 14.202 *Protection of government services.* Notwithstanding other provisions of this part, the assignment and use of any of the frequencies designated in this subpart shall be subject to the express condition that any individual assigned frequency may not be authorized for transmission by a fixed station at any specific location in the Alaska area where its use could cause harmful interference to a United States Government radio service which, in the discretion of the Commission, must be protected from such interference.

§ 14.203 *Alternate transmission on same radio-channel.* Except for communication between licensed fixed stations and fixed stations of the Alaska Communication System as hereinafter specifically designated in this Subpart, all transmission, on each radio-channel assigned by this subpart, by two or more stations engaged in any one exchange of signals or communications with each other, shall take place on only one radio-channel. For this purpose, the stations communicating with each other shall transmit and receive on the same radio-channel: *Provided,* That this requirement is waived in an emergency affecting the safety of life or property when, by reason of interference or limitation of equipment, this method of single-channel communication cannot be used.

§ 14.204 *Frequencies assigned for use in all zones.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use by Alaska-public fixed stations in accordance with Subpart E of this part. These frequencies are authorized for use by stations located in any zone of the Alaska area, for communication with other licensed Alaska-public fixed stations located in any zone of the Alaska area:

(1) 149.6 for telegraphy only; the use of this frequency by non-government stations shall be shared with government stations of the ACS in accordance with §§ 14.201 and 14.206.

(2) 1622 for telegraphy and/or telephony; available (on a shared basis with maritime mobile service) for fixed service until not later than January 1, 1957, only to fixed stations licensed to transmit on this frequency before the effective date of this section: *Provided,* That after September 15, 1955, at each location where the use of this frequency by a fixed station causes harmful interference to the maritime mobile service, the fixed station shall, except in an emergency involving the immediate safety of life or property, limit its transmissions to such periods of time as will not cause such interference.

(3) 2118 for telegraphy and/or telephony; available on a shared basis with maritime mobile service. The use of this frequency by fixed stations shall be coordinated with ship-to-shore communication on 2134 kc in the Alaska area so as to avoid harmful interference.

(4) 2382 for telegraphy and/or telephony; available (on a shared basis with maritime mobile service) for fixed service until not later than January 1, 1957, only to fixed stations licensed to transmit on this frequency before the effective date of this section: *Provided,* That after September 15, 1955, at each location where the use of this frequency by a fixed station causes harmful interference to the maritime mobile service, the fixed station shall, except in an emergency involving the immediate safety of life or property, limit its transmissions to such periods of time as will not cause such interference.

(5) 3201 for telegraphy and/or telephony; in so far as is practicable, fixed stations shall limit their use of this frequency to communication over distances which cannot be effectively covered by the use of a frequency below 2700 kc or above 70 Mc.

(6) [Reserved]

(7) 5167.5 for telegraphy and/or telephony; to be used exclusively for communication over distances of not less than 50 miles and only during the hours from 6:00 a. m. to 9:00 p. m. local standard time.

(8) 8070 for telegraphy and/or telephony; to be used exclusively for communication over distances of not less than 200 miles and only during the hours from 6:00 a. m. to 6:00 p. m. local standard time, except in zone 4 west of 165 degrees west longitude where the hours of its use shall not be limited.

§ 14.205 *Frequencies assigned for use in particular zones.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use by Alaska-public fixed stations employing telegraphy and/or telephony in accordance with Subpart E, of this part. These frequencies are authorized for use (on a shared basis—except 1660 kc—with stations of the maritime mobile service) exclusively by stations located in the zone or zones designated herein opposite the respective frequency; for use, subject to the specific conditions and limitations designated herein by identifying reference placed opposite the respective frequency in each column, for communication with other Alaska-public fixed stations. In so far as is practicable, each station, when transmitting on any of these frequencies, shall communicate only with a station or stations located in in its own zone or in a contiguous zone.

Zones in which transmission on the particular frequency is authorized subject to the limiting conditions specified by references to following paragraphs of this section:

Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6
1646	1652	1708	1646 1660 (b) 1708	1652 1712 (c)	1646 1660 (b)
1712 2066 (d) (e) 2422		2422			
	2430 (k) (e)	2450 (e) (f) 2482 (e) (k) (g)	2430 (e) 2450 (f) 2482 (e) (g)	2430 (e)	2450 (f) 2482 (e) (g)
2512	2512 2538	2512 2538	2512	2506 (h)	2506 (h)
2566 (e) 2616 (d) (e) (i) 3261 (j)			2566 3261 (j)	2566 3261 (j)	

(b) Use of the frequency 1660 kc shall be coordinated as necessary with use of the frequency 1666 kc by other fixed stations in the Alaska area so as to avoid harmful interference.

(c) To minimize interference to the service of stations in zone 4 operating on 1708 kc, use of the frequency 1712 kc in zone 5 is authorized only for stations located north of 62 degrees north latitude.

(d) To minimize interference to or from the operation of stations outside the Alaska area or United States Government stations within Alaska, each of the frequencies listed in paragraph (a) of this section, to which this paragraph designator (d) is applied, is authorized for use annually in the respective zone only during the hours from 7:00 a. m. to 11:00 p. m. local standard time from May 15 to September 15 inclusive; and from 8:00 a. m. to 9:00 p. m. local standard time from April 1 to May 14 inclusive and from September 16 to October 31 inclusive.

(e) To provide for the most effective use of assigned frequencies available under this part and to minimize interference to or from the operation of stations outside the Alaska area, each of the frequencies listed in paragraph (a) of this section, to which this paragraph designator (e) is applied is authorized for use in the respective zone for fixed service, exclusively by coast station licensees who operate a public coast station at the same location and on the same frequency for maritime mobile service; and, in order to serve adequately an industry in Alaska, have an established requirement for a radio-communication system of fixed service and maritime mobile service on a radio-channel common to both of these services.

(f) Use of the frequency 2450 kc shall be coordinated as necessary with use of the frequency 2466 kc by other fixed stations in the Alaska area as authorized in § 14.206, so as to avoid harmful interference.

(g) Use of the frequency 2482 kc shall be coordinated as necessary with use of the frequencies 2466 kc and 2474 kc by other fixed stations in the Alaska area as authorized in § 14.206, so as to avoid harmful interference.

(h) Use of the frequency 2506 kc for fixed service in the Alaska area is authorized on condition that harmful interference shall not be caused to the service of any coast station located in the vicinity of San Francisco or Eureka, California, to which this frequency is assigned as a carrier frequency for transmission.

(i) Use of the frequency 2616 kc shall be coordinated as necessary with use of the frequency 2632 kc by other fixed stations in the Alaska area as authorized in § 14.206, so as to avoid harmful interference.

(j) In so far as is practicable, fixed stations shall limit their use of the frequency 3261 kc to communication over distances which cannot be effectively covered by the use of a frequency below 2700 kc or above 70 Mc.

(k) To minimize interference to or from the operation of stations outside the Alaska area, each of the frequencies listed in paragraph (a) of this section, to which this paragraph designator (k) is applied, is authorized for use annually in the respective zone only during the hours from 6:00 a. m. to 11:00 p. m. local standard time, from April 1 to September 30 inclusive.

(l) To provide for continuance of existing fixed service in the Alaska area for a temporary period in which necessary changes in the frequency assignments of certain stations may be effected, any fixed station at any authorized location in Alaska, which, before June 20, 1955, was licensed to transmit on one or more of the frequencies listed in paragraph (a) of this section for communication with any other fixed station in Alaska, may continue to transmit on such frequency or frequencies for the same purpose (without regard to the specific limitations and requirements set forth in paragraphs (a) through (k) of this section) until January 1, 1957. After that date, such station shall operate only in conformity with the provisions of those paragraphs: *Provided,* That after September 15, 1955, at each station location where such operation at variance with any of the provisions of paragraphs (a) through (k) causes harmful interference to the service of a licensed station operating in conformity with those paragraphs, or to any authorized government service, the station which is operating not in conformity with those paragraphs shall, except in an emergency involving the immediate safety of life or property, limit its transmissions to such periods of time as will not cause such interference.

NOTE: The frequencies designated in paragraph (a) of § 14.205 are additionally available (except 1660 kc) for maritime mobile service as provided in Subpart G of this part. This dual allocation is primarily for the purpose of providing a group of frequencies for radio station licensees in the Alaska area whose industrial operations require an integrated system of point-to-point and ship-shore communication.

§ 14.206 *Frequencies for communication with ACS.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use by Alaska-public fixed stations in accordance with Subpart E of this part, for communication with fixed stations of the Alaska Communication System which are located in the Alaska area and are open to public correspondence: *Provided,* That to assure necessary coordination each Alaska-public fixed station when communicating with a fixed station of the ACS shall transmit only on a frequency listed in this section which is specifically designated for such use by that station in a written notification to the respective station licensee from the ACS in response to a written request therefor received by the ACS from that licensee. Likewise, the periods of time during which the licensed station may transmit on such frequency shall be those which are designated in such notification from the ACS. The particular ACS station(s) with which the licensed station may communicate and the specific ACS frequency or frequencies to be used for transmitting to the licensed station are designated by the ACS in its written notice to the station licensee:

(1) 149.6 for telegraphy only; normally for use at any appropriate location in the Alaska area.

NOTE: The frequency 149.6 kc may be used also for transmission by ACS fixed stations to public fixed stations.

(2) 1666 for telegraphy only; normally for communication with ACS stations located at Ketchikan and Naknek. The use of this frequency shall be coordinated as necessary with use of the frequency 1660 kc by other fixed stations in the Alaska area so as to avoid harmful interference.

NOTE: The frequency 1666 kc may be used also for transmission by ACS fixed stations to public fixed stations.

(3) 2256 for telegraphy and/or telephony; for communication with ACS stations located at Anchorage and Ketchikan.

(4) 2466 for telegraphy and/or telephony; normally for communication with ACS stations located at Wrangell, Petersburg, Naknek and Kotzebue. The use of this frequency shall be coordinated as necessary with use of the frequencies 2450 kc, 2474 kc and 2482 kc by other stations in the Alaska area so as to avoid harmful interference.

(5) 2474 kc for telegraphy and/or telephony; normally for communication with ACS stations located at Sitka, Kodiak, Nome and Barrow. The use of this frequency shall be coordinated as necessary with use of the frequencies 2466 kc and 2482 kc by other stations in the Alaska area so as to avoid harmful interference.

(6) 2632 for telegraphy and/or telephony; normally for communication with ACS stations located at Cordova, Fairbanks, Bethel and Unalaska. The use of this frequency shall be coordinated as necessary with use of the frequency 2616 kc by other stations in the Alaska area so as to avoid harmful interference.

(7) 2694 for telegraphy and/or telephony; for communication with ACS stations located at Juneau and Cold Bay.

(8) 2776 for telegraphy and/or telephony; for communication with ACS station located at Ketchikan.

(9) 3357 for telegraphy and/or telephony; for communication with ACS stations located at Fairbanks, Anchorage, and Juneau. The use of this frequency for communication with Anchorage shall be coordinated as necessary with use of the frequency 3353 kc by United States Government stations so as to avoid harmful interference to the latter. The use of 3357 kc for communication with Juneau, Fairbanks and Anchorage shall be coordinated as necessary with the use of the frequency 3365 kc by other fixed stations in the Alaska area so as to avoid harmful interference.

NOTE: The ACS station at Anchorage will act as coordinator between the non-Government stations transmitting to Anchorage on 3357 kc and the Government stations operating on 3353 kc.

(10) 3365 for telegraphy and/or telephony; for communication with ACS station located at Unalaska. The use of this frequency shall be coordinated as necessary with use of the frequency 3357 kc by other fixed stations in the Alaska area so as to avoid harmful interference.

(11) 5137.5 for telegraphy and/or telephony; normally for communication with ACS stations located at Anchorage and Ketchikan. The use of this frequency shall be limited to the hours from 6:00 a. m. to 9:00 p. m. local standard time.

(12) 5207.5 for telegraphy and/or telephony; normally for communication with ACS stations located at Juneau, Fairbanks and Kodiak. The use of this frequency (except in zone 4 west of 165 degrees west longitude) shall be limited to the hours from 6:00 a. m. to 9:00 p. m. local standard time.

(13) Frequencies shown herein which are designated for transmission to particular ACS stations shall be utilized only for transmission to those stations except with respect to the frequencies 2466, 2474, 2632, 5137.5 and 5207.5 kc. In the case of these five frequencies, the ACS may designate other station locations depending upon operational requirements.

(b) When transmitting to any ACS fixed station on any frequency above 2000 kc authorized in paragraph (a) of this section, each Alaska-public fixed station shall use any class of emission permissible under applicable provisions of § 14.152 which is designated by the ACS; when such designation is not made by the ACS, the station licensee shall select the class of emission to be used in accordance with the provisions of § 14.152. In so far as is practicable when transmitting by means of telegraphy on any of these frequencies above 2000 kc, and subject to designation by the ACS as herein provided, class A1 emission only shall be used; after January 1, 1957, the use of class A2 emission for telegraphy on these frequencies above 2000 kc, under the provisions of § 14.152, is not permissible.

§ 14.207 *Use of United States Government frequencies.* Frequencies assigned to Federal Government radio stations under Executive order of the President may be authorized for use by Alaska-public fixed stations when such assignment is necessary for inter-communication with Federal Government stations or required for coordination with activities of the Federal Government provided the Commission determines, after consultation with the appropriate Government agency or agencies, that such assignment is in the public interest.

§ 14.208 *Extended interim use of conditional fixed service frequencies.* With respect to each assigned frequency authorized by this subpart to be used by certain fixed stations until not later than January 1, 1957, those stations may, if the respective station licensee has made proper application not later than January 1, 1957 for renewal of the respective fixed station license, continue to transmit on such frequency for fixed service until the date on which the licensee receives the renewed license, or pending Commission action on the respective application until May 1, 1957, whichever date first occurs.

§ 14.209 *Temporary frequencies for treaty implementation.* In addition to the frequencies specifically assigned in this subpart, other frequencies may be authorized temporarily for the purpose of facilitating the implementation of the Agreement concluded at the Extraordinary Administrative Radio Conference, Geneva, 1951.

SUBPART G—ASSIGNMENT AND USE OF MARITIME SERVICE FREQUENCIES

§ 14.251 *Cooperative use of frequency assignments.* Unless provided otherwise by this part, or by the particular station authorization, each radio-channel authorized for use by a ship or coast station subject to this part is available for use on a shared basis only and shall not be construed as available for the exclusive use of any one station or any one station licensee. All station licensees shall cooperate in the use of their respective frequency assignment in order to minimize interference and obtain the most effective use of the authorized radio-channels.

§ 14.252 *Protection of government services.* Notwithstanding other provisions of this part, the assignment and use of any of the frequencies designated in this subpart shall be subject to the express condition that any individual assigned frequency may not be authorized for transmission by a ship or coast station at any specific location in the Alaska area where its use could cause harmful interference to a United States Government radio service which, in the discretion of the Commission, must be protected from such interference.

§ 14.253 *Alternate transmission on same radio-channel.* Except for communication between coast stations of the Alaska Communication System and licensed ship stations as hereinafter specifically designated in this subpart, all transmission, on each radio channel within the frequency-band 1605 kc–2035 kc, 2107 kc–9000 kc, or 156.25 Mc–157.25 Mc assigned by this subpart, by two or more stations engaged in any one exchange of signals or communications with each other, shall take place on only one radio-channel. For this purpose the stations communicating with each other shall transmit and receive on the same radio-channel: *Provided,* That this requirement is waived in an emergency affecting the safety of life or property when, by reason of interference or limitation of equipment, this method of single-channel communication cannot be used.

§ 14.254 *Frequencies to be used for distress signals.* (a) In case of distress in the maritime service, the frequency to be used shall be the international radiotelegraph distress frequency 500 kc with maximum power obtainable; the class of emission to be used if possible shall be A2. Stations which cannot transmit on 500 kc or use A2 emission shall, if possible, use their normal calling frequency and normal class of emission with maximum power obtainable.

(b) The frequency 2182 kc is the international radiotelephone distress frequency for the maritime mobile service. It may be used for this purpose by ship or aircraft stations employing telephony in the band 1605 to 2850 kc when requesting assistance from the maritime services.

(c) No provision of the International Radio Regulations shall prevent a mobile station in distress from using any means available to it for drawing attention, signaling its position, and obtaining help. No provision of this part shall prevent a mobile station in distress from using any frequency assigned by this part for the transmission of distress signals or distress communications in the event it is impossible, impracticable, or ineffective for such station to use the frequency 500 kc or 2182 kc to draw attention, signal its position and obtain help.

NOTE: To determine the detailed procedure to follow in case of distress in the maritime mobile service, refer to Subpart J of Part 8 and § 7.187 of this chapter.

§ 14.255 *Ship station frequencies for use in all zones for telegraphy only.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use by ship stations in any zone of the Alaska area when transmitting by means of telegraphy, in accordance with Subpart E of this part, for communication with other stations of the maritime mobile service using telegraphy:

500—for calling and distress as provided in §14.254 of this subpart and in Subparts J and N of Part 8 of this chapter.

425, 448, 454, 468, 480—for working as provided in Subpart N of Part 8 of this chapter.

410—for maritime radionavigation service (radio direction-finding) as provided in Subpart P of Part 8 of this chapter. In addition to the transmission of specific signals for direction-finding, this frequency may be used for communication by telegraphy with direction-finding stations in connection with established international operating procedure relative to radiolocation by means of direction-finding.

444—exclusively for communication with United States Government stations; the use of this frequency for any other communication (except distress) is not authorized. The use of this frequency shall not cause harmful interference to the service of any coast station.

(b) (1) The frequency 2091 kc is the Region 2 (including the Alaska area) international calling frequency for ship stations using telegraphy within the band 2065–2107 kc. This frequency shall be used for call, reply and signals preparatory to traffic by all ship stations using telegraphy to establish communication with other ship stations operating in the band 2065–2107 kc or with coast stations using telegraphy and operating within the band 2035–2065 kc. Additionally in the Alaska area, this frequency may be used as a calling frequency to establish communication with ship or coast stations using telegraphy and operating within the band 1605–2035 kc or 2107–3400 kc. Transmission by ship stations for the purposes herein set forth on any calling frequency within the band 2088.5–2093.5 kc is permissible as a practical operating procedure to minimize interference, in lieu of transmission on the frequency 2091 kc. (These alternative calling frequencies are 2089, 2089.5, 2090, 2090.5, 2091.5, 2092, 2092.5 and 2093 kc.) The use of the frequency 2091 kc or any other calling frequency within the band 2088.5–2093.5 kc by ship stations for purposes other than those set forth herein (except for distress traffic) is not authorized. A ship station, after establishing communication on a calling frequency within this band, shall change to an authorized telegraph working frequency for the transmission of message traffic by means of telegraphy.

(2) Working frequencies within the band 2065–2107 kc designated in Subpart N of Part 8 of this chapter for use by ship stations employing telegraphy are authorized for use as assigned frequencies by ship stations using telegraphy in the Alaska area in accordance with the applicable provisions of Part 8 of this chapter: *Provided,* That the authorized class of emission and the authorized transmitter power shall, with respect to ship stations in the Alaska area, be in conformity with Subpart E of this part.

(c) Assigned calling and working frequencies below 405 kc and within the band 4000–25000 kc designated in Subpart N of Part 8 of this chapter for use by ship stations employing telegraphy are available for use by ship stations in the Alaska area using telegraphy and operating in accordance with applicable provisions of Part 8 of this chapter, including provisions therein governing the class of emission and the authorized transmitter power.

§ 14.256 *Coast station frequencies for use in all zones for telegraphy only.* Each of the following frequencies in kilocycles is authorized as an assigned frequency for use by public coast stations in all zones of the Alaska area when transmitting by means of telegraphy, in accordance with Subpart E of this part, for communication with ship and aircraft stations, and with other public coast stations using telegraphy in the Alaska area, in accordance with § 7.202 of this chapter:

500—for calling and distress as provided in §§ 7.187, 7.207 (a), 7.208 (b), and 7.212 of this chapter.

416 and 438—for working as provided in Subpart H of Part 7 of this chapter.

2052.5—calling and working frequency for communication with ship stations when such stations are using telegraphy within the band 2065–2107 kc.

§ 14.257 *Safety frequencies for ship and coast stations in all zones using telephony.* Each of the following frequencies is authorized as an assigned frequency for telephony for use by ship and coast stations in all zones of the Alaska area in accordance with the provisions of Subparts I and J of Part 7 and Subpart O of Part 8 of this chapter: *Provided,* That the authorized class of emission and the authorized transmitter power shall be in conformity with the provisions of Subpart E of this part:

2182—for distress, calling and safety purposes; ship-shore and ship-to-ship;

156.8 Mc—primarily for calling and safety purposes; ship-shore and ship-to-ship;

156.7 Mc—primarily for communication between ship stations and limited coast stations for the exchange of information essential to maritime radiolocation service.

§ 14.258 *Frequencies for ship-to-ship communication in all zones by telephony.* (a) The assigned frequencies 2638 kc and 2738 kc designated in Subpart O of Part 8 of this chapter for ship-to-ship communication by means of telephony are available for use by ship stations on board any class of vessel in all zones of the Alaska area using telephony and operating in accordance with applicable provisions of Part 8 of this chapter: *Provided,* That the authorized class of emission and the authorized transmitter power shall be governed by Subpart E of this part in lieu of the particular provisions of Part 8 of this chapter relative to emission and power authorized for these two frequencies.

NOTE: Except for test purposes, the frequency 2738 kc may not be used or assigned unless certification regarding attenuation of emission on the related second harmonic frequency (5476 kc) has been submitted to the Commission's office at Washington, D. C., as required by applicable provisions of Part 8 of this chapter.

(b) The assigned frequency 156.3 Mc designated in Subpart O of Part 8 of this chapter for ship-to-ship communication by means of telephony is available for use by ship stations on board any class of vessel in all zones of the Alaska area using telephony and operating in accordance with the applicable provisions of Part 8 of this chapter: *Provided,* That the authorized class of emission and the authorized transmitter power shall, with respect to ship stations in the Alaska area, be in conformity with Subpart E of this part.

§ 14.259 *Frequencies for ship-shore and ship-to-ship communication by telegraphy or telephony in all zones.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use, in accordance with Subpart E of this part, by coast and ship stations in all zones of the Alaska area, as designated herewith:

(1) For communication by telegraphy and/or telephony between public coast stations and public ship stations on board any type of vessel—1622, 2382.

(2) For ship-to-ship communication (for business, operational and safety purposes) by telegraphy and/or telephony—1622 and 2382, except that after September 15, 1955, the use of these frequencies shall be—

(i) Between ship stations on board vessels of less than 500 gross tons—1622 only; and

(ii) Between ship stations on board vessels of 500 gross tons or more—2382 only.

(3) (i) Primarily for communication by telephony between public coast stations and public ship stations on board any type of vessel, during the hours from 6:00 a. m. to 9:00 p. m. local standard time only—4386.2;

(ii) Additionally the frequency 4386.2 kc may be used on a secondary basis for communication by telephony, during the hours from 6:00 a. m. to 9:00 p. m. local standard time only—

(*a*) Between public coast stations, separated not less than 50 miles, for the exchange of public correspondence under conditions which make it necessary to use this frequency for this purpose in lieu of an assigned frequency specifically designated in Subpart F of this part for fixed service; on condition that ship-shore communication shall be given priority at all times;

(*b*) Between ship stations on board any type of vessel for business, operational and safety purposes, on condition that harmful interference shall not be caused to the service of any coast station using telephony. In so far as is practicable, the use of this frequency of this purpose shall be limited to the relatively longer distances over which the use of frequencies below 3400 kc or above 156 Mc would not be effective.

§ 14.260 *Frequencies for ship-shore public telephone service in all zones.* (a) The frequency 2134 kc is authorized as an assigned frequency for use in all zones of the Alaska area by public ship stations, in accordance with Subpart E of this part, for communication exclusively with coast stations of the Alaska Communication System which are located in the Alaska area and are open to public correspondence. When transmitting on this frequency to any ACS coast station, ship stations normally shall employ class A3 emission for telephony; they may employ telegraphy if desired, with class of emission designated by the ACS, when the particular ACS coast station is capable of using telegraphy. The associated frequency to be used for transmission from the coast station to the ship station shall be within the frequency-band 1605–3400 kc and shall be designated for each location by the ACS.

NOTE: The ACS coast station transmitting frequency and the hours of service of each ACS coast station at the respective locations in the Alaska area at which this service is available may be obtained upon request made to the ACS or to the Commission's Engineer in Charge at Anchorage, Alaska, or Seattle, Washington. These frequencies are listed herewith as of April 6, 1955, for the information of ship station licensees.

ACS coast station location:	Respective transmitting frequency (kc)
Anchorage	2312
Barrow	2312
Cold Bay	2312
Cordova	2300
Craig	2312
Juneau	2784
Ketchikan	2300
Kodiak	2784

Whittier	2312
Wrangell	2312

(b) (1) The provisions of this paragraph shall apply to public coast stations in the Alaska area in lieu of the provisions of §§ 7.307 and 7.308 of this chapter, and to ship stations when communicating with public coast stations in the Alaska area in lieu of § 8.356 of this chapter.

(2) Each of the following frequencies in megacycles is authorized for use as an assigned frequency, in accordance with Subpart E of this part, for the exchange of public correspondence by means of

telephony between public coast stations and ship stations, in all zones of the Alaska area, as designated herewith:

For coast station transmission: 161.9; for ship station transmission: 157.4. These two frequencies comprise one radio telephone circuit.

For coast station transmission: 162.0; for ship station transmission: 157.3. These two frequencies comprise one radio telephone circuit.

When alternate transmission by the coast station and the ship station on the same assigned frequency is required, either 157.4 Mc or 157.3 Mc shall be used by each class of station.

(3) At locations where one public ship-shore radiotelephone circuit in this frequency-band is sufficient to provide satisfactory public telephone service, the frequencies 161.9 Mc and 157.4 Mc for a two-frequency circuit or the frequency 157.4 Mc for a single-frequency circuit shall be used.

(4) The assigned frequency 162.0 Mc or 157.3 Mc normally may be authorized for use by a public coast station only when a satisfactory showing is made by the applicant for such authorization that such station under its outstanding license is utilizing the frequency 161.9 Mc or 157.4 Mc at maximum capacity to provide public ship-shore telephone service and there is a need by that station for an additional circuit to adequately serve users or prospective users of the station's service.

(c) Frequencies within the band 4000 kc–30 Mc designated in §§ 8.354 and 8.355 of this chapter for use by ship stations employing telephony for communication with public coast stations located in the vicinity of specified geographic locations (outside the Alaska area) are available for use by ship stations, at sea in the Alaska area, using telephony and operating in accordance with applicable provisions of Part 8 of this chapter, including provisions therein governing the class of emission and the authorized transmitter power.

§ 14.261 *Frequencies above 156 Mc for business and operational purposes.* (a) The provisions of this section shall, in respect to use of the assigned frequencies 156.4, 156.5, 156.6, 156.7, 156.9 and 157.0 Mc for business and operational purposes, apply to limited coast stations in the Alaska area in lieu of related provisions of §§ 7.356 and 7.361 of this chapter and to ship stations in the Alaska area in lieu of related provisions of § 8.360 of this chapter.

(b) Each of the following frequencies in megacycles is authorized as an assigned frequency for communication, in accordance with Subpart E of this part, between ship stations and limited coast stations and between ship stations in all zones of the Alaska area to serve the business and operational needs of ships, subject to the conditions herein set forth. These frequencies are not authorized for the handling of public correspondence, nor for communication of a personal nature not relative to safety or the business or operational needs of ships.

(1) (i) 156.4, 156.5 and 156.9—for telegraphy and/or telephony. The use of these frequencies by ship stations shall be limited to such stations on board commercial transport vessels, vessels of municipal governments in Alaska, and vessels of the territorial government of Alaska.

(ii) Additionally, limited coast stations authorized to transmit on one or more of these frequencies may communicate thereon with other limited coast stations in any zone of the Alaska area as may be necessary to facilitate the business or operation of ships in the Alaska area, or for transmission of any emergency messages relating to the safety of life or property.

(2) 156.7—for the same use and purposes and under the same conditions as are prescribed for 156.4, 156.5 and 156.9 Mc in subparagraph (1) of this paragraph; upon the express condition that its use, at the particular location and at the particular time, is not required for any maritime radio-location service as provided in §§ 7.356 (a) (1) and 8.359 (f) (1) of this chapter.

(3) 156.6—for telephony only; for communication solely in connection with harbor or port operations, including docking, lighterage, pilotage, dredging, towing, ship repair, port development, maintenance of navigable channels, and for communication concerning the passage of vessels through locks under governmental control. This frequency may be used for such purposes by limited coast stations and by ship stations on board any class of vessel.

(c) The frequency 157.0 Mc is authorized as an assigned frequency exclusively for use by ship stations in all zones of the Alaska area for ship-to-ship communication by means of telephony in accordance with Subpart E of this part; on condition that such ship stations are capable of transmitting and receiving (and are authorized to transmit) on the ship-to-ship frequency 156.3 Mc also. This frequency shall be used only by ship stations on board commercial transport vessels, vessels of municipal governments in Alaska, and vessels of the territorial government of Alaska, to serve the business and operational needs of such vessels. This frequency is not authorized for the handling of public correspondence, nor for communication of a personal nature not relative to safety or the business or operational needs of ships.

NOTE: The term "commercial transport vessel" is defined in § 8.2 (o) (3) of this chapter.

§ 14.262 *Use of marine utility stations.* Licensed marine-utility stations are authorized to be used on land and on board ship in all zones of the Alaska area on each of the frequencies 156.3, 156.4, 156.5, 156.6, 156.7, 156.8, 156.9 and 157.0 Mc, in conformity with the provisions of this part which are applicable to the use of these frequencies in the Alaska area, and subject further to such provisions of Parts 7 and 8 of this chapter that apply to this class of station which are not inconsistent with the applicable provisions of this part.

§ 14.263 *Frequencies for temporary use in all zones.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use, in accordance with Subpart E of this part, temporarily for a limited period as designated herewith; for public coast stations in Alaska and for ship stations in Alaskan waters employing primarily telephony (telegraphy also is permissible) for ship-shore and ship-to-ship communication upon the condition that no interference will result to other services:

(1) 1660 and 3201—available for maritime mobile service (on a shared basis with fixed service) under the respective provisions of subparagraphs (2) and (3) of this paragraph until not later than January 1, 1957, only to ship and coast stations licensed to transmit on the respective frequency before June 20, 1955;

(2) Use of the frequency 1660 kc shall be coordinated as necessary with use of the frequency 1666 kc by fixed stations in the Alaska area so as to avoid harmful interference;

(3) At locations where use of the frequency 1660 kc or 3201 kc for maritime mobile service after September 15, 1955, causes harmful interference to the service of a licensed fixed station or stations operating in accordance with applicable provisions of this part, or to any authorized government service, the station using either of these frequencies for maritime mobile service shall, except in an emergency involving the immediate safety of life or property, limit its transmissions to such periods of time as will not cause such interference.

§ 14.264 *Frequencies assigned for use in particular zones.* (a) Each of the following frequencies in kilocycles is authorized as an assigned frequency for use by public coast stations and ship stations employing telegraphy and/or telephony in accordance with Subpart E of this part: *Provided,* That telephony only shall be employed on the frequencies 4406.9 and 4434.5 kc. With respect to the operation of coast stations, these frequencies are authorized for use (below 3400 kc on a shared basis with Alaska-public fixed stations) by coast stations located only in the zone or zones designated herein opposite the respective frequency; and for use in accordance with paragraph (l) of this section, subject to the specific conditions and limitations designated herein by identifying reference placed opposite the respective frequency in each column.

Zones in which transmission on the particular frequency is authorized subject to the limiting conditions specified by references to following paragraphs of this section, including paragraph (l) in reference to each frequency:

Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6
1646	1652	1708	1646 1708	1652	1646.
1712 (b)				1712 (b)	
2065 (d)					
	2118 (m)		2118 (m)		
2422		2422			
	2430 (c) (n)		2430	2430	
		2450 (f)	2450 (f)		2450 (f).
		2482 (n) (g)	2482 (g)		2482 (g).
				2506 (h)	2506 (h).
2512	2512 2538 (c)	2512 2538 (c)	2512		
2566			2566	2590	
3201 (j) (i)			3261 (j)	3261 (j)	
4406.9 (k)	4406.9 (k)	4406.9 (k)			
			4434.5 (k)	4434.5 (k)	4434.5 (k).

(b) To minimize interference to the service of stations in zone 3 or 4 operating on 1708 kc, ship stations in zone 1 shall not transmit on 1712 kc when west of 138 degrees west longitude, nor in zone 5 when south of 62 degrees north latitude; also coast stations in zone 5 south of that latitude shall not transmit on 1712 kc.

(c) To minimize interference to the service of ship stations transmitting on 2430 kc to any public coast station in the vicinity of Seattle, Washington, ship stations in zone 2 shall not transmit on 2430 kc when south of 59 degrees north latitude.

(d) To minimize interference to or from the operation of stations outside the Alaska area or United States Government stations within Alaska, each of the frequencies listed in paragraph (a) of this section, to which this paragraph designator (d) is applied, is authorized for use annually in the respective zone only during the hours from 7:00 a. m. to 11:00 p. m. local standard time from May 15 to September 15 inclusive, and from 8:00 a. m. to 9:00 p. m. local standard time from April 1 to May 14 inclusive and from September 16 to October 31 inclusive.

(e) To minimize interference to or from the service of any coast station transmitting on 2538 kc and located in the vicinity of Vancouver, British Columbia, ship stations in zones 2 and 3 shall not transmit on 2538 kc when south of 56 degrees north latitude.

(f) Use of the frequency 2450 kc shall be coordinated as necessary with use of the frequency 2466 kc by fixed stations in the Alaska area as authorized in § 14.206, so as to avoid harmful interference.

(g) Use of the frequency 2482 kc shall be coordinated as necessary with use of the frequencies 2466 kc and 2474 kc by fixed stations in the Alaska area as authorized in § 14.206, so as to avoid harmful interference.

(h) Use of the frequency 2506 kc for maritime mobile service in the Alaska area is authorized on condition that harmful interference shall not be caused to the service of any coast station located in the vicinity of San Francisco or Eureka, California, to which this frequency is assigned as a carrier frequency for transmission.

(i) Use of the frequency 2616 kc shall be coordinated as necessary with use of the frequency 2632 kc by fixed stations in the Alaska area as authorized in § 14.206, so as to avoid harmful interference.

(j) In so far as is practicable, ship and coast stations shall limit their use of the frequency 3261 kc to communication over distances which cannot be effectively covered by the use of a frequency below 2700 kc or above 156 Mc.

(k) (1) The frequencies 4406.9 and 4434.5 kc are authorized for telephony exclusively; for use during the hours from 6:00 a. m. to 9:00 p. m. local standard time only. Such use of the frequency 4434.5 kc is authorized on condition that harmful interference shall not be caused to the service of any coast station located in the Great Lakes area to which this frequency is assigned as a carrier frequency for transmission.

(2) Additionally, public coast stations may communicate, on a secondary basis, during the hours from 6:00 a. m. to 9:00 p. m. local standard time only, on 4406.9 kc or 4434.5 kc for the exchange of public correspondence with other public coast stations within not less than 50 miles; under conditions which make it necessary to use either of these frequencies for this purpose in lieu of an assigned frequency specifically designated in Subpart F of this part for fixed service; and on condition that priority shall be given at all times to ship-shore communication.

(l) (1) When operating on any frequency designated in paragraph (a) of this section, a ship station shall transmit only on an assigned frequentcy which is specifically authorized by that paragraph for transmission in the zone in which the ship station then is located: *Provided,* That for communication with a ship or coast station located in a contiguous zone which uses a frequency in accordance with paragraph (a) but not designated by that paragraph for use in the zone in which the ship station then is located, such ship station may transmit on the contiguous zone frequency when, by reason of conditions not under its control, such operation becomes necessary.

(2) Ship stations are authorized generally to communicate on each frequency designated in this section with public coast stations using the same frequency, in accordance with § 14.253. A ship station may communicate on any of these frequencies with another ship station only when requested to do so by a public coast station which operates on the same frequency in accordance with paragraph (a) of this section and is within communication range of the ship station.

(m) Use of the frequency 2118 kc for maritime mobile service is subject to interference from transmission by ship stations on frequencies within the band 2065 to 2107 kc. Use of 2118 kc shall be coordinated as necessary with use of the frequency 2134 kc as authorized in § 14.260 (a) so as to avoid harmful interference.

(n) To minimize interference to or from the operation of stations outside the Alaska area, each of the frequencies listed in paragraph (a) of this section, to which this paragraph designator (n) is applied, is authorized for use annually in the respective zone only during the hours from 6:00 a. m. to 11:00 p. m. local standard time, from April 1 to September 30 inclusive.

(o) To provide for continuance of existing maritime mobile service in the Alaska area for a temporary period in which necessary changes in the frequency assignments of certain stations may be effected, any coast or ship station at any authorized location in Alaska, which, before June 20, 1955, was licensed to transmit on one or more of the frequencies listed in paragraph (a) of this section for communication with stations of the maritime mobile service in Alaska, may continue to transmit on such frequency or frequencies for the same purpose (without regard to the specific limitations and requirements set forth in paragraphs (a) through (n) of this section) until January 1, 1957. After that date, the station shall operate only in conformity with the provisions of those paragraphs: *Provided,* That after September 15, 1955, at each station location where such operation at variance with any of the provisions of paragraphs (a) through (n) causes harmful interference to the service of a licensed station operating in conformity with those paragraphs or to any authorized government service, the station which is operating not in conformity with those paragraphs shall, except in an emergency involving the immediate safety of life or property, limit its transmissions to such periods of time as will not cause such interference.

NOTE: The frequencies designated in paragraph (a) of § 14.264 are additionally available (except 4406.9 and 4434.5 kc) for Alaska-public fixed stations as provided in Subpart F of this part. This dual allocation is primarily for the purpose of providing a group of frequencies for radio station licensees in the Alaska area whose industrial operations require an integrated system of ship-shore and point-to-point communication.

§ 14.265 *Rules in other parts applicable.* The rules relating to the assignment and use of frequencies for ship, aircraft, marine-utility, and coast station operating in the maritime mobile service and for stations operating in the maritime radiolocation service which are set forth in Parts 7 and 8 of this chapter (except §§ 7.307, 7.308 and 8.356) shall, except as otherwise specifically provided in this part, apply to stations of these services (including developmental stations) in the Alaska area so far as they are consistent with this part.

§ 14.266 *Extended interim use of conditional maritime service frequencies.* With respect to each assigned frequency authorized by this subpart to be used by certain coast and ship stations until not later than January 1, 1957, coast stations may, if the licensee thereof has made proper application not later than January 1, 1957 for renewal of the respective coast station license, continue to transmit on such frequency for maritime mobile service until the date on which the licensee receives the renewed license, or, pending Commission action on the respective application, until May 1, 1957, whichever date first occurs. Ship stations may so continue until May 1, 1957.

§ 14.267 *Temporary frequencies for treaty implementation.* In addition to the frequencies specifically assigned in this subpart, other assigned frequencies may be authorized temporarily for the purpose of facilitating the implementation of the Agreement concluded at the Extraordinary Administrative Radio Conference, Geneva, 1951.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6506]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

PREMIER KNITTING CO., INC., ET AL.

Subpart—*Misbranding or mislabeling:* §13.1190 *Composition:* Wool Products Labeling Act. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Wool Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* Wool Products Labeling Act; § 13.1900 *Source or origin:* Wool Products Labeling Act: *Maker or seller, etc.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68 (c)) [Cease and desist order, Premier Knitting Co., Inc., et al., New York, New York, Docket 6506, August 2, 1956]

In the Matter of Premier Knitting Company, Inc., a Corporation, and Arnold A. Saltzman, Individually and as an Officer of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its responsible officer with violating the Wool Products Labeling Act through labeling as "Pure Cashmere" and "Pure Imported Cashmere" ladies' sweaters which were a blend of hair from the Cashmere goat and sheep's wool; through failing to label certain of the sweaters with the name or registration number of the manufacturer, etc.; and through removing stamps, tags, etc., containing the information required by the act—and an agreement between the parties containing consent order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became on August 2, the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent Premier Knitting Company, Inc., a corporation, and its officers, and respondent Arnold A. Saltzman, individually and as an officer of said corporation, and respondents' respective representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of ladies' sweaters or other wool products, as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain or in any way are represented as containing wool, as that term is defined in said act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein.

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such product exclusive of ornamentation not exceeding five per centum of said total weight of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five per centum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product of any non-fibrous loading, filling or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939: *And provided further,* That nothing contained in this order shall be construed as limiting any applicable provision of said act or the rules and regulations promulgated thereunder.

It is further ordered, That respondent Premier Knitting Company, Inc., a corporation, and its officers and respondent Arnold A. Saltzman, individually and as an officer of said corporation, and respondents' respective representatives, agents and employees, directly or through any corporate or other device, in connection with the purchase, offering for sale, sale, or distribution of wearing apparel or any other "wool products", as such products are defined in and subject to the Wool Products Labeling Act of 1939, do forthwith cease and desist from causing or participating in the removal or mutilation of any stamp, tag, label, or other means of identification affixed to any such "wool product" pursuant to the Wool Products Labeling Act, with intent to violate the provisions of said act, and which stamp, tag, label, or other means of identification purports to contain all or any part of the information required by said act.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 2, 1956.

By the Commission.

[SEAL] JOHN R. HEIM, *Acting Secretary.*

[Docket 6508]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

GLOVE CITY CHAMOIS CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.20 *Comparative data or merits;* § 13.110 *Indorsements, approval and testimonials;* § 13.130 *Manufacture or preparation;* § 13.135 *Nature:* Product or service. Subpart—*Claiming or using indorsements or testimonials falsely or misleadingly:* § 13.330 *Claiming or using indorsements or testimonials falsely or misleadingly.* Subpart—*Misbranding or mislabeling:* § 13.1255 *Manufacture or preparation;* § 13.1260 *Nature.* Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1685 *Nature.* Subpart—*Using misleading name*—Vendor: § 13.2450 *Products.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Glove City Chamois Co., Inc., et al., Gloversville, N. Y., Docket 6508, August 2, 1956]

In the Matter of Glove City Chamois Company, Inc., a Corporation, and Catherine Hauser, Individually and as an Officer of Said Corporation, and Benjamin Kaplan, Individually and as General Manager of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with place of business in Gloversville, N. Y., with representing falsely through labeling and branding and through use of the word "Chamois" in their corporate name and on letterheads, circulars, and other advertising, that certain of their leather products were genuine chamois and oil tanned; that their product labeled "Deerskin Chamois" was a type of chamois, was oil tanned, superior to genuine chamois, and was approved and endorsed by the New York State Weights and Measures and the Federal Trade Commission—and an agreement betwen the parties containing a consent order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on August 2, the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That Respondent Glove City Chamois Company, Inc., a corporation, and its officers, and Respondents Catherine Hauser, individually and as an officer of said corporation, and Benjamin Kaplan, individually and as general manager of said corporation, and said Respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with offering for sale, sale or distribution of leather products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Branding or labeling such products as "Chamois" or "Chamois Type", or in any other manner representing that such products are "Chamois" or "Chamois Type" or are made from "Chamois" unless such products are made—

(a) From the skin of the Alpine Antelope, commonly known and referred to as Chamois, or

(b) From the fleshers or undersplits of sheep skin which have been tanned in oil after splitting.

2. Using the name "Chamois" in any corporate or trade name in connection with the sale and distribution of leather products unless and until such leather products are composed and made of "Chamois" as set forth in paragraph 1 hereof.

3. Representing, directly or indirectly, that their products are superior to Chamois.

4. Representing, directly or indirectly, that their products are oil tanned.

5. Representing, directly or indirectly, that any of their products are approved or endorsed by the Federal Trade Commission or the New York State Weights and Measures.

6. Representing, directly or indirectly, that any of their products are approved or endorsed by any governmental agency, when such is not the fact.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Glove City Chamois Company, Inc., a corporation, and Catherine Hauser, individually and as an officer of said corporation, and Benjamin Kaplan, individually and as general manager of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission.

Issued: August 2, 1956.

[Docket 6525]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

UNITED CIGAR-WHELAN STORES CORP. AND PRODUCT ADVERTISING CORP.

Subpart—*Discriminating in price under section 5, Federal Trade Commission Act:* § 13.892 *Knowingly inducing or receiving discriminating payments.*[1]

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, United Cigar-Whelan Stores Corporation et al., Brooklyn, N. Y., Docket 6525, July 31, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a Brooklyn corporate operator of a chain of some 1350 retail drugstores and tobacco shops throughout the United States, and its wholly owned advertising agency, with violating Sec. 5 of the Federal Trade Commission Act, through inducing many of their suppliers to enter into contracts for participation in their television programs known variously as "Whelan's Playhouse", "Whelan's Film Playhouse", or "Whelan's Cavalcade of Stars", providing that respondents would advertise the suppliers' products and that such suppliers contribute toward the cost of the program, with result that in the year 1954 such contributions of 57 suppliers aggregated more than $363,000, while the suppliers did not offer to all their other customers competing with United-Whelan any similar payments on proportionally equal terms—and an agreement between counsel containing a consent order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became on July 31 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent United Cigar-Whelan Stores Corporation, a corporation, and respondent Product Advertising Corporation, a corporation, and their respective officers, employees, agents and representatives, directly or through any corporate or other device in or in connection with the purchase in commerce (as "commerce" is defined in the Federal Trade Commission Act) of drug, cosmetic, or tobacco products or other merchandise, do forthwith cease and desist from: Knowingly inducing or receiving, or contracting for the receipt of, any payment or other consideration from any supplier of United Cigar-

[1] New.

Whelan Stores Corporation for or in connection with television or radio programs which are sponsored by United Cigar-Whelan Stores Corporation or which advertise or promote United Cigar-Whelan Stores Corporation, when such payment or other consideration is not affirmatively offered or otherwise made available by such supplier on proportionally equal terms to all other customers competing with United Cigar-Whelan Stores Corporation in the sale and distribution of the supplier's products:

Provided, however, That this order shall not be construed to prohibit respondent Product Advertising Corporation from selling to other persons, corporations or firms, including suppliers of United Cigar-Whelan Stores Corporation, advertising time on television or radio programs which are not sponsored by respondent United Cigar-Whelan Stores Corporation and which do not advertise or promote United Cigar-Whelan Stores Corporation.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents United Cigar-Whelan Stores Corporation, a corporation; and Product Advertising Corporation, a corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission.

Issued: July 31, 1956.

[SEAL] JOHN R. HEIM,
Acting Secretary.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; Sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, N. L. Kaplan, Inc., et al., Buffalo, N. Y., Docket 6530, August 2, 1956]

In the Matter of N. L. Kaplan, Inc., a Corporation, and Nathan L. Kaplan and Ann R. Kaplan, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with place of business in Buffalo, N. Y., with violating the Fur Products Labeling Act through (a) failing to set forth on labels on fur products, and in proper form, the information required by the act; (b) invoicing certain products falsely; and (c) in advertising, failing to show the names of animals that produced certain fur, and representing prices as reduced and the products as of greater value than the sale price, without maintaining adequate records as basis for such claims—and an agreement between the parties containing a consent order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist which, on August 2, 1956, became the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents N. L. Kaplan, Inc., a corporation, and its officers, and Ann R. Kaplan, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device in connection with the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product, or in connection with the sale, advertising, offering for sale, transportation or distribution of any fur product which is made in whole or in part of fur which has been shipped or received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is a fact;

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product.

2. Setting forth on labels attached to fur products:

(a) Required information in abbreviated form or in handwriting;

(b) Non-required information mingled with required information.

3. Failing to set forth on labels attached to fur products an item number or mark assigned to such products.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is a fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported fur contained in a fur product.

2. Setting forth required information in abbreviated form.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which fails to show the name or names of the animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations.

D. Making price claims or representations in advertisements respecting the wholesale prices, manufacturers' cost, reduced prices, comparative prices, percentage savings, value or quality of fur or fur products, unless there is maintained by respondents an adequate record disclosing the facts upon which such claims or representations are based.

It is further ordered, That the complaint be, and it hereby is dismissed as to respondent Nathan L. Kaplan.

By "Decision of the Commission," etc., report of compliance was required as follows:

It is ordered, That the respondent N. L. Kaplan, Inc., a corporation, and its officers, and Ann R. Kaplan, individually and as an officer of said corporation, shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which

they have complied with the order to cease and desist.

Issued: August 2, 1956.

By the Commission.

[SEAL] JOHN R. HEIM,
Acting Secretary.

[F. R. Doc. 56-6600; Filed, Aug. 15, 1956; 8:50 a. m.]

[Docket 6466]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MINUTE MAID CORP.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment for services or facilities for processing or sale under 2 (d): § 13.824 *Advertising expenses.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Minute Maid Corporation, New York, N. Y., Docket 6466, July 27, 1956.]

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging the Minute Maid Corporation with violating section 2 (d) of the Clayton Act through paying $5,750 to the Food Fair Stores, Inc., of Philadelphia, Pa., and $250 to the Giant Food Shopping Center, Inc., of Washington, D. C., as compensation for advertising furnished by them in connection with the sale of its "Minute Maid" and "Snow Crop" frozen foods, while not offering such allowances on proportionally equal terms to all other customers competing with Food Fair and Giant in the sale of its products—and an agreement between the parties providing for the entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became on July 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Minute Maid Corporation, a corporation, its officers, employees, agents and representatives, directly or through any corporate or other device, in or in connection with the sale of frozen food products in commerce, as "commerce" is defined in the Clayton Act, as amended, do forthwith cease and desist from: Making or contracting to make, to or for the benefit of any customer, any payment of anything of value as compensation or in consideration for any advertising or other service or facilities furnished by or through such customer, in connection with the handling, offering for sale, or resale of products sold to him by respondent, unless such payment is affirmatively offered or otherwise made available to all competing customers on proportionally equal terms.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: July 27, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Department of Health, Education, and Welfare

[Regs. 4, further amended]

PART 404—FEDERAL OLD-AGE AND SURVIVORS INSURANCE (1950 ——)

COVERAGE OF EMPLOYEES OF STATE AND LOCAL GOVERNMENTS; FILING OF SINGLE WAGE REPORT WHERE INDIVIDUAL IS JOINTLY EMPLOYED BY MORE THAN ONE EMPLOYEE

Regulations No. 4, as amended (20 CFR 404.1201 et seq.) is further amended as follows:

Section 404.1250 is further amended by adding a new paragraph (d) reading as follows:

(d) *Filing of single wage report where individual is jointly employed by more than one employer.* Where the State and any of its political subdivisions or any two or more political subdivisions jointly employ any individuals to perform services in employment, the aggregate wages paid to such individuals by the State and any of its political subdivisions, or by any two or more political subdivisions, as the case may be, may, upon request by the State and with the approval of such request by the Secretary, be reported by an agent duly appointed to file such reports if—

(1) There is included in the agreement each of the coverage groups of employees of the State and its political subdivisions, or of two or more political subdivisions, as the case may be, of which such individuals are members;

(2) There is uniformity with respect to such coverage groups in the effective dates of coverage and both in the services covered and the services excluded from coverage;

(3) There is filed by such agent one wage report for each calendar quarter on Form OAR–S3, which includes the aggregate of the wages paid to such individuals as employees of the State and as employees of any of its political subdivisions, or as employees of any two or more political subdivisions, as the case may be. In computing the aggregate wages to be reported, there shall be included in the wage report the wages (not in excess of $4,200 paid in any calendar year subsequent to 1954) paid by or caused to be paid by the State and the wages (not in excess of $4,200 paid in any calendar year subsequent to 1954) paid by or caused to be paid by each political subdivision of the State, or, if the individual is not employed by the State, the wages (not in excess of $4,200 paid in any calendar year subsequent to 1954) paid by or caused to be paid by each political subdivision of the State by which such individual is employed. For provisions relating to the furnishing of wage statements to employees, see § 404.1230.)

(4) There is included on the wage report (Form OAR–S3) the name and identification number of the State and of each political subdivision of the State, by which the individual is employed, or, if the individual is not employed by the State, the name and identification number of each such political subdivision, and the name and address and the identification number of the agent by which the wage reports are filed.

(Secs. 205, 1102, 49 Stat. 624, as amended, 647, as amended, sec. 218, 64 Stat. 514; 42 U. S. C. 405, 418, 1302.)

[SEAL] W. L. MITCHELL,
Acting Commissioner of Social Security.

Approved: August 9, 1956.

HAROLD C. HUNT,
Acting Secretary of Health, Education, and Welfare.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

[T. D. 6198]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

EXCLUSION OF UNINCORPORATED ORGANIZATION FROM TREATMENT AS PARTNERSHIP

In order to clarify the requirements for exclusion of an unincorporated organization from treatment as a partnership under subchapter K of chapter I of the Internal Revenue Code of 1954, the regulations issued under section 761 of the Internal Revenue Code of 1954 as Treasury Decision 6175 (21 F. R. 3500), approved May 23, 1956, are amended by striking subparagraph (2) of § 1.761–1 (a) and inserting in lieu thereof the following:

(2) *Exclusion of certain partnerships from provisions of subchapter K*—(i) *In general.* Under conditions set forth in this paragraph, an unincorporated organization described in subdivision (ii) or (iii) of this subparagraph may be excluded from the application of all or a part of the provisions of subchapter K. Such organization must be availed of for investment purposes only and not for the active conduct of a business, or for the joint production, extraction, or use of property, but not for the purpose of selling services or property produced or extracted. The members of such organization must be able to compute their income without the necessity of computing partnership taxable income. Any syndicate, group, pool, or joint venture which is classifiable as an association, or any group operating under an agreement which creates an organization classifiable as an association, does not fall within these provisions.

(ii) *Investing partnership.* Where the participants in the joint purchase, retention, sale, or exchange of investment property—

(*a*) Own the property as coowners,

(*b*) Reserve the right separately to take or dispose of their shares of any property acquired or retained, and

(*c*) Do not actively conduct business or irrevocably authorize some person or persons acting in a representative capacity to purchase, sell, or exchange such investment property, although each separate participant may delegate authority to purchase, sell, or exchange his share of any such investment property for the time being for his account, but not for a period of more than a year, then

such group may be excluded from the application of the provisions of subchapter K under the rules set forth in subdivision (iv) of this subparagraph.

(iii) *Operating agreements.* Where the participants in the joint production, extraction, or use of property—

(*a*) Own the property as coowners, either in fee or under lease or other form of contract granting exclusive operating rights, and

(*b*) Reserve the right separately to take in kind or dispose of their shares of any property produced, extracted, or used, and

(*c*) Do not jointly sell services or the property produced or extracted, although each separate participant may delegate authority to sell his share of the property produced or extracted for the time being for his account, but not for a period of time in excess of the minimum needs of the industry, and in no event for more than one year, then

such group may be excluded from the application of the provisions of subchapter K under the rules set forth in subdivision (iv) of this subparagraph. However, the preceding sentence does not apply to any uincorporated organization one of whose principal purposes is cycling, manufacturing, or processing for persons who are not members of the organization.

(iv) *Method of election*—(*a*) *Complete exclusion from subchapter K.* Any unincorporated organization described in subdivisions (i) and (ii) or (iii) of this subparagraph which wishes to be excluded from all of subchapter K must make the election provided in section 761 (a) in a statement attached to a properly executed partnership return, Form 1065, which shall contain the information required in this subdivision. Such return shall be filed with the district director for the district in which the organization has its principal office or place of business. For the purpose of determining the district in which the organization has its principal office or place of business, the principal office or place of business of the operator shall be considered the principal office or place of business of the organization, unless the person filing for the organization is not the operator, in which case, the principal office or place of business of the person filing the return shall be considered the principal office or place of business of the organization. For the first year with respect to which such unincorporated organization wishes to be excluded from subchapter K, its partnership return shall contain, in lieu of the information required by Form 1065 and by the instructions relating thereto, only the name or other identification and the address of the organization. The statement attached to the return shall include the names and addresses of all the members of the organization; a statement that the organization qualifies under subdivisions (i) and either (ii) or (iii) of this subparagraph, a statement that all of the members of the organization elect that it be excluded from all of subchapter K; and a statement indicating where a copy of the agreement under which the organization operates is available (or if the agreement is oral, from whom the provisions of the agreement may be obtained). Unless within 90 days after the formation of the organization (or by October 15, 1956, whichever is later) any member of the organization notifies the Commissioner that the member desires subchapter K to apply to such organization, and also advises the Commissioner that he has so notified all other members of the organization by registered or certified mail, the election to be excluded will be effective. Such election is irrevocable as long as the organization remains qualified under subdivisions (i) and either (ii) or (iii) of this subparagraph, or unless approval of revocation of the election is secured from the Commissioner. Application for permission to revoke the election must be submitted to the Commissioner of Internal Revenue, Attention: T:R, Washington, D. C., no later than 30 days after the beginning of the first taxable year to which the revocation is to apply. An unincorporated organization need not file an election to be excluded under section 761 for the first year of its existence but may do so at the time of filing the return for any taxable year for which exclusion from subchapter K is desired. Such unincorporated organization shall file a partnership return for the first taxable year in which the participants by a formal agreement undertake to engage in joint operations, or in the absence of a formal agreement for the first taxable year in which the participants with respect to the joint use of property jointly make or incur any expenditures treated as deductions for Federal income tax purposes, whether or not electing to be excluded from the provisions of subchapter K. Where no annual accounting period has been adopted by such unincorporated organization, its taxable year shall be the calendar year in accordance with section 441 (g).

(*b*) *Partial exclusion from subchapter K.* An unincorporated organization which wishes to be excluded from only certain sections of subchapter K must submit to the Commissioner, not later than 90 days after the beginning of the first taxable year for which partial exclusion is desired, a request for permission to be excluded from certain provisions of subchapter K. The request shall set forth the sections of subchapter K from which exclusion is sought and shall state that such organization qualifies under subdivisions (i) and either (ii) or (iii) of this subparagraph, and that the members of the organization elect to be excluded to the extent indicated. Such exclusion shall be effective only upon approval of the election by the Commissioner and subject to the conditions he may impose.

(v) *Information to be filed by organizations excluded under section 761.* (*a*) An organization which elects under subdivision (iv) (*a*) of this subparagraph to be excluded from all of subchapter K shall file the following:

(*1*) For the first taxable year for which it wishes to be excluded: a partnership return, as provided in subdivision (iv) (*a*) of this subparagraph;

(*2*) For each subsequent taxable year for which it is excluded: Form 1096 for the organization and a Form 1099 for each person who was a member of the organization during any part of the calendar year. Form 1099 shall show the name and address of the organization (under "By Whom Paid"). In lieu of "Kind and Amount of Income Paid", each Form 1099 shall state "Filed under section 761 (a)" and the principal activity of the organization. Forms 1096 and 1099 shall be filed with the Commissioner of Internal Revenue, Midwest Service Center, Kansas City, Missouri.

(*b*) Organizations partially excluded from subchapter K shall file partnership returns containing such information as the Commissioner may require upon the granting of the partial exclusion under section 761 (a).

Because the amendment made by this Treasury decision clarifies the requirements for excluding an unincorporated organization from the application of all or part of subchapter K of chapter I of the Internal Revenue Code of 1954 and clarifies the requirements for filing returns or other information by such unincorporated organizations, it is found unnecessary to issue this Treasury decision with notice of public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section (4) (c) of that act.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805)

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

Approved: August 10, 1956.

DAN THROOP SMITH,
Special Assistant to the Secretary in Charge of Tax Policy.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 17—LIST OF AREAS

PART 31—PACIFIC REGION

SUBPART—RED ROCK LAKES MIGRATORY WATERFOWL REFUGE, MONTANA

MISCELLANEOUS AMENDMENTS

Basis and purpose. (1) Heretofore the Red Rock Lakes Migratory Waterfowl Refuge has been erroneously designated as the Red Rock Lakes National Wildlife Refuge. Corrections are therefore required to show the proper designation in the title of the subpart in Part 31 and in §§ 17.3, 31.281, and 31.282.

(2) On the basis of observations and reports of representatives of the Fish and Wildlife Service, it has been determined that additional fishing privileges can be authorized without interfering with the primary purpose for which the refuge was established.

Inasmuch as the following regulation is a relaxation of existing restrictions applicable to the Red Rock Lakes Migratory Waterfowl Refuge, notice and public procedure are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, § 31.287 is revised to read as follows:

§ 31.287 *Fishing permitted.* Sport fishing is permitted in accordance with State laws and regulations on those waters located within the boundaries of the Red Rock Lakes Migratory Waterfowl Refuge described specifically as follows: Culver Pond, Odell Creek, Red Rock Creek, Elk Springs Creek, Culver Springs Creek, and Shambo Pond, subject to the requirements and conditions of §§ 31.288 to 31.290, inclusive.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

Dated: August 10, 1956.

JOHN L. FARLEY,
Director.

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

NEW PROCEDURE FOR RETURN AND PAYMENT OF TAX WITHHELD UNDER CHAPTER 3 OF THE INTERNAL REVENUE CODE OF 1954 AND FOR EXCHANGE OF INFORMATION UNDER INCOME TAX CONVENTIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 6041, 6042, and 7805 of the Internal Revenue Code of 1954 (68A Stat. 745, 746, and 917; 26 U. S. C. 6041, 6042, and 7805).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

In order to provide a new procedure for the return and payment of tax withheld under chapter 3 (relating to withholding of tax on nonresident aliens and foreign corporations and tax-free covenant bonds) of the Internal Revenue Code of 1954 and for the exchange of information under the income tax conventions, the Income Tax Regulations (26 CFR Part 1) are hereby amended as follows:

PARAGRAPH 1. Section 1.1461–1 is amended as follows:

(A) By inserting at the end of paragraph (d) thereof the following new sentences: "In the case of ownership certificates filed with the withholding agent after December 31, 1956, the certificate shall also show the amount of tax withheld; or, if the certificate has been used under a tax treaty regulation to claim a release of tax withheld, then it shall show both the amount of tax withheld, if any, and also the amount of tax released. After December 31, 1956, this paragraph shall apply to all special variations of Form 1001 referred to in paragraph (i) of this section."

(B) By striking out the period at the end of paragraph (f) (3) thereof and inserting in lieu thereof the following: "; except that on and after January 1, 1957, such statement shall be forwarded to the Director of International Operations, Internal Revenue Service, Washington 25, D. C., with the annual return on Form 1042."

(C) By inserting at the end of paragraph (h) thereof the following new sentence: "Duplicate copies of Form 1000 are not required."

(D) By striking out the period at the end of paragraph (i) thereof and inserting in lieu thereof the following: "and paragraph (d) of this section. In the case of payments of income made before January 1, 1957, duplicate copies of Form 1001 are not required; on and after that date Form 1001 shall be filed in duplicate whenever the form is required by this section. The special variations of Form 1001 shall be filed in duplicate, as required by the applicable tax treaty regulation."

(E) By inserting at the end thereof the following new paragraph:

(k) *Inconsistent regulations.* All regulations inconsistent with the provisions of this section shall be deemed to have been modified accordingly.

PAR. 2. The regulations under section 1461 are amended by inserting immediately after § 1.1461–1 the following new section:

§ 1.1461–2 *Return and payment of tax withheld on and after January 1, 1957—*(a) *Effective date.* This section shall apply only with respect to payments of income made on and after January 1, 1957. For provisions relating to payments made before that date, see § 1.1461–3.

(b) *Form 1042—*(1) *Filing requirement.* Every withholding agent shall make on or before March 15 an annual return on Form 1042 of the tax withheld under chapter 3 upon all the items of income to which that chapter applies. Form 1042 shall be filed with the Director of International Operations, Internal Revenue Service, Washington 25, D. C. The return shall be prepared in duplicate and shall show in summary form the tax required to be withheld under chapter 3 during the previous calendar year and to be shown on Forms 1000, 1001, 1042S, and on all special variations of Form 1001 referred to in paragraph (i) of § 1.1461–1. The duplicate copy of Form 1042 shall be retained by the withholding agent.

(2) *Summary of accompanying forms.* Form 1042 shall be accompanied by the original and duplicate copies of all Forms 1000, 1001, 1042S, and all special variations of Form 1001 referred to in paragraph (i) of § 1.1461–1, which were filed with, or prepared by, the withholding agent during the previous calendar year, including such forms upon which income exempt from tax is reported. The various forms so forwarded with Form 1042 are not required to be listed thereon, but they shall be summarized on Form 1042 by showing in the manner prescribed thereon the total number of each form submitted and, with respect to that particular form, the gross amount of income paid and the rates of tax applicable thereto, the gross amount of exempt income paid, the amount of tax withheld at the various applicable rates, and the amount of tax withheld but released or refunded by the withholding agent. The information so given with respect to Form 1042S shall be arranged on a per-country basis as to payees with addresses in the various foreign countries which have entered into an income tax convention with the United States and on a combined basis as to payees with addresses in all other countries. This per-country arrangement is not required in the case of the other forms forwarded with Form 1042. The exemption and reduced rate certificates, such as Form 1001A–D or Form 1001A–J, referred to in paragraph (g) (2) of § 1.1461–1 are not required to accompany, or to be summarized on, Form 1042.

(3) *Modification of Form 1042.* If Form 1000 is modified in accordance with paragraph (h) of § 1.1461–1 to show the name and address of a fiscal or paying agent in the United States, Form 1042 shall be likewise modified.

(c) *Form 1042S—*(1) *Filing requirement.* Every withholding agent shall make on or before March 15 an annual return on Form 1042S of all items of fixed or determinable annual or periodical income (and amounts described in section 402 (a) (2), section 631 (b) and (c), and section 1235, which are considered to be gains from the sale or exchange of capital assets) derived from sources within the United States and paid during the previous calendar year to nonresident alien individuals, nonresident partnerships composed in whole or in part of nonresident alien individuals, and nonresident foreign corporations, including such items of income upon which, under the authority of any Treasury regulation or ruling of the Commissioner of Internal Revenue, no withholding of tax is required or in respect of which the tax, though required to be withheld, has been released or refunded to the payee. Income paid to such persons and required to be shown on Form W–2, Form 1001, or on any special variation of Form 1001 referred to in paragraph (i) of § 1.1461–1, or the substitute thereof, is not, however, required to be returned on Form 1042S. The original and duplicate copies of Form 1042S shall accompany Form 1042 and shall be filed with the Director of International Operations, Internal Revenue Service, Washington 25, D. C.

(2) *Information to be furnished.* (i) Form 1042S shall show the name and address of the payee of the income, of the withholding agent, of the agent for the withholding agent, and of the payer of the income if the payer is not the same as the withholding agent. It shall also show the nature of the item of income paid, the gross amount of the item, and, if withholding upon that item is required under chapter 3, the rate of tax applicable thereto and the amount of tax withheld. If any part of the tax required to be withheld has been released or refunded to the payee, Form 1042S shall show the amount of tax so released or refunded.

(ii) If a Form 1042S is prepared in respect of an item of income upon which tax has not been withheld under chapter 3, a brief statement as to the authority for such failure to withhold shall be made upon the form itself. If necessary, however, a separate statement as to such authority may be attached to the original copy of the Form 1042S.

(iii) If a Form 1042S is prepared in respect of compensation from which the personal exemption is deducted in accordance with paragraph (e) of § 1.1441–3, the amount of the compensation allocable to labor or personal services performed within the United States, together with the amount of the deduction for the prorated personal exemption, shall be shown on a separate statement attached to the original copy of that form.

(3) *Manner of preparing Form 1042S.* (i) Form 1042S shall be prepared in quadruplicate with respect to each separate payment of any item of income made during the calendar year, except that, at the option of the withholding agent, one form may be used to show the total amount of any item paid during the calendar year to the same payee. Items different in kind may not be combined on one Form 1042S. Thus, if three dividends on the same stock are paid to the same payee during the calendar year, the three payments may be entered on three separate Forms 1042S or in total amount on one Form 1042S. On the other hand, a payment of interest, dividends, and rents may not be shown on the same Form 1042S. Payment of an item of income to a nominee or representative for the benefit of other persons in respect of whom Forms 1042S are required may not be shown on a single Form 1042S but must be identified with the ultimate recipients of the income if such information is known to the withholding agent.

(ii) The Forms 1042S prepared by any withholding agent shall be arranged alphabetically both as to the name of the payee and the name of the country in which the payee has an address. Separate adding machine tapes shall then be prepared for each such country which has entered into an income tax convention with the United States, showing as to that country the gross amount of exempt income paid and, as to each separate applicable rate of tax, the gross amount of income paid and the amount of tax withheld. Another adding machine tape showing the same information shall then be prepared with respect to the combined number of all other countries. These adding machine tapes shall be properly identified with the respective groups of forms to which they apply, and the totals thereon used as a basis for making the summary on Form 1042 prescribed by paragraph (b) (2) of this section. If circumstances warrant, the withholding agent may use any other appropriate method, in lieu of adding machine tapes, for presenting the information required by this subdivision.

(iii) The triplicate copy of Form 1042S shall be furnished to the payee indicated thereon, and the quadruplicate shall be retained by the withholding agent.

(4) *Alternative methods.* To the extent that the withholding agent's system of record keeping makes impractical the use of Form 1042S in the manner prescribed by subparagraph (3) of this paragraph, he may devise and submit for the prior approval of the Commissioner a variation of Form 1042S which will include the information required by subparagraph (2) of this paragraph and which will substantially comply with the requirements of subparagraph (3) of this paragraph. Request for such approval shall be accompanied by an explanation as to why such variation is necessary.

(d) *Information to be furnished by Commissioner.* If a foreign country has entered into an income tax convention with the United States which provides for the mutual exchange of information, the Commissioner of Internal Revenue shall, as soon as practicable after the close of a calendar year during which the convention is in effect, transmit to the appropriate authority designated in the convention with that country all the duplicate copies of the following forms which have been filed pursuant to this section for that year in respect of payees with addresses in that country, namely, Form 1001, Form 1042S, and the special variation of Form 1001 referred to in paragraph (i) of § 1.1461–1 which is applicable to that country.

(e) *Inconsistent regulations.* All regulations inconsistent with the provisions of this section shall be deemed to have been modified accordingly.

PAR. 3. Section 1.1461–2 is amended as follows:

(A) By striking out the period at the end of paragraph (a) (1) thereof and inserting in lieu thereof the following: "; except that on and after January 1, 1957, such return shall be filed with the Director of International Operations, Internal Revenue Service, Washington 25, D. C."

(B) By striking out the period at the end of the second sentence of paragraph (b) (1) thereof and inserting in lieu thereof the following: "; except that on and after January 1, 1957, such return shall be filed with the Director of International Operations, Internal Revenue Service, Washington 25, D. C."

(C) By striking out the period at the end of the first sentence of paragraph (c) thereof and inserting in lieu thereof the following: "; except that on and after January 1, 1957, such tax shall be paid to the Director of International Operations, Internal Revenue Service, Washington 25, D. C."

(D) By striking out so much thereof as precedes paragraph (a) (1) thereof and inserting in lieu thereof the following:

§ 1.1461–3 *Return and payment of tax withheld before January 1, 1957—*(a) *Effective date.* This section shall apply only with respect to payments of income made before January 1, 1957. For provisions relating to payments made on and after that date, see § 1.1461–2.

(b) *Interest on certain bonds—*

(E) By redesignating paragraphs (b), (c), and (d) thereof as paragraphs (c), (d), and (e), respectively.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 924]

[Docket No. AO–225–A7]

HANDLING OF MILK IN DETROIT, MICHIGAN, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Detroit, Michigan, on February 28 through March 7, 1956, pursuant to notice thereof which was issued on February 7, 1956 (21 F. R. 953).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on June 5, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in the proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on June 8, 1956 (21 F. R. 3936).

The material issues, the findings and conclusions, and the general findings of the recommended decision (21 F. R. 3936; F. R. Doc. 56–4519) are hereby approved and adopted as the material issues, the findings and conclusions, and the general findings of this decision as if set forth in full herein, subject to the following revisions:

1. On page 3937, in the paragraph continued at the top of column 1, change the phrase "months of August through January" to read "months of September through February"; change the phrase "months of February through July" to read "months of March through August"; and change the phrase "August 1, 1956" to read "September 1, 1956".

2. On page 3939 delete the last complete paragraph in column 3 and substitute therefor the following:

The point was made in the filed exceptions that the primary purpose of the transfer amendment can be accomplished without having it apply in all months of the year. It appears appropriate to continue to assign transferred milk first to any Class I use during the months of July through March, but to assign it first to any Class II uses at the nonpool plant during the flush production months of April, May, and June.

During these three months supplies are greatest in relation to sales both in Detroit and in adjacent markets. Accordingly, there is least likelihood of a nonpool plant depending upon milk transferred from Detroit for bottling purposes. In July and August, however, there are substantial demands for Class I milk in the resort areas of the State. Data presented at the hearing for the years 1954 and 1955 show that there were much larger quantities of milk transferred to nonpool plants having bottling operations in July than in June. The months following the resort season are those of lowest production, and demands for milk for bottling purposes would be substantial.

It is concluded that the transfer provisions adopted November 1, 1955, and requiring that any pool milk transferred to a nonpool plant be assigned first to Class I should continue to apply during the months of July through March. However, during April, May, and June such milk should be assigned first to any Class II utilization at the nonpool plant.

3. Delete in its entirety topic numbered 5, "Class I price", starting at the bottom of column 3, page 3939, and substitute therefor the following:

5. *Class I price.* A seasonal change of 40 cents per hundredweight should be introduced in the stated Class I differential. The new differentials would be $1.63 for the months of August through January and $1.23 for the months of February through July instead of the present differential of $1.43 in all months. Also, the schedule of standard percentages used in computing the Class I supply-demand adjustment should be revised to reflect a supply of producer milk equal to 124 percent of Class I sales for November instead of the present percentage of 120 percent. Proportionate changes should be made in the standard percentages for the other months. The supply-demand adjustment should change at the rate of 3 cents for each point of indicated oversupply or undersupply instead of changing only at 5-point intervals in the amount of 15 cents.

The increase in the normal or standard supply percentage reflects operating experience in the market since the major handlers have adopted six-day instead of seven-day operation of their bottling plants. This major change in operations is so recent that its final effect on market organization is not yet fully established. It is sufficiently extensive to limit severely the value of previous experience in supply-demand relationships. It is clear, however, that bottling plant operators now call for greatly increased quantities of milk late in the week for sale on Friday and Saturday. On Sunday when no bottling occurs, the plants receive as little milk from farmers or country plants as possible. The result is that unless adequate holding tank facilities can be provided at country and city plants, a larger total supply is necessary to meet these uneven demands during the week.

In November 1955, market supplies of producer milk were equal to 123.9 percent of Class I sales. It was testified that during this month supplies were barely adequate to meet Class I needs on days of maximum demand. In fact these demands were met only by maximum use of all available holding facilities, including the milk tank trucks ordinarily employed to ship milk from country stations to the city bottling plants. To meet bottling needs, it was also necessary to allocate milk away from handlers who might have liked to have had the milk for Class II purposes but did not actually need it for bottling, to other handlers who could use the milk for Class I purposes.

In raising the standard percentages, the monetary effects of the supply-demand adjustment should also be revised. The present order provides price changes of 15 cents when supplies depart from normal by from 5 to 10 percent, a 30-cent change for supply variations for 10 to 15 percent and a 45-cent change when supplies are more than 15 percent away from normal. For many months in 1955 and early 1956, supplies were, in fact, a few percentage points above normal. In most months, the oversupply was less than 5 percent so no supply-demand adjustment resulted. However, in December 1955 and February and March 1956

the indicated supplies were slightly more than 5 percent above normal and price adjustments of minus 15 cents were in effect. The result is that with only minor changes in supplies a rather sizeable adjustment of 15 cents affected Class I prices in these three months. It appears clearly preferable that the supply-demand adjustment should be at the rate of 3 cents for each point of indicated over or undersupply. Since November 1, 1955, the date of the last previous amendment to the order, the supply-demand adjustment provided herein would have been minus 3 cents in November and December 1955, zero in January 1956, minus 6 cents in February, minus 9 cents in March, plus 3 cents in April, plus 6 cents in May, plus 9 cents in June, and plus 12 cents in July. (Official notice is taken of market receipts and Class I sales for the months of February through June 1956.) For this nine-month period the adjustment would have averaged plus 1 cent instead of the minus 5 cents provided by the present order.

Producers contended that milk production could not long be maintained at the order prices which have prevailed in recent years. They cited data to the effect that farm wage rates and other production costs were particularly high in the Detroit region. However, it must be recognized that large quantities of manufacturing grade milk are still produced in Michigan at the same general level of prices as prevails elsewhere in the United States for milk of similar grade. In fact, several of the Detroit receiving stations are operated in close proximity to or in conjunction with such plants. Moreover, the Class I differentials under the Detroit order have been fully adequate to increase supplies sufficiently to care for the growth in Class I sales. The supply-demand adjustment can provide considerable additional increase in price if supplies begin to fall behind. Finally, Detroit order prices are fully as high as those in the most directly competitive Federal order markets. In 1955, for example, the Detroit Class I price for milk delivered to city plants averaged $4.40 as compared with a Toledo price of $4.30. There is direct competition between distributors at these prices and there is also some competition with Detroit handlers having a sixteen-cent location differential. Competition between the Detroit and Cleveland markets is in the procurement of milk from farms rather than in sales of the bottled product. The Cleveland blend price at Coldwater, Michigan, averaged $3.71 during 1955 as compared with a Detroit blend at nearby location (Hillsdale and Litchfield, Michigan) of $3.86.

A moderate seasonal change in the Class I differential should be adopted. The Detroit market has previously relied exclusively on the base-rating plan as a means of encouraging level production. Under this plan farmers have maximized their production during the fall in order to establish as high a base as possible for the following year. By having a lower Class I differential in the spring than in the fall months, the difference between the base and excess prices will be narrowed, and the effect of the base plan will be somewhat lessened. However, the seasonal differential will provide additional money to farmers during the fall months when costs are highest. The net effect on farmers' seasonal plans may not be greatly affected, although it is difficult to predict the amount of price change which may be necessary to offset the change in the base plan incentive.

A basic reason for adopting a seasonal change in the Class I differentials is to have the Detroit Class I price conform more closely to out-of-area prices. Sales competition with the Toledo market and other Federal order areas where the Class I prices vary seasonally are described in more detail in connection with issue number 12. In markets not under Federal orders, it is common for prices to be lower in the flush production season and higher in the season of lowest production.

4. On page 3940, change the first sentence in the last paragraph beginning in column 3 to read as follows: "However, the differentials to handlers should move in amounts of one-tenth cent."

5. On page 3941 insert after the partial paragraph at the top of column 1, the following: "The Butterfat differential to producers should be computed at the same rate as the differential to handlers, namely 0.113 times the market price of butter. However, the result should be rounded to the nearest half cent instead of the nearest one-tenth of a cent in order to facilitate computing the amounts due to the thousands of producers to whom payment must be made each month."

6. On page 3941 delete the last two sentences of the third complete paragraph in column 1 and substitute therefor the following: "In the recommended decision it was concluded that the location adjustments should be reduced both by lowering the rate in the 34–50 mile zone from 14 to 12 cents per hundredweight and by halving the rate per mile in the more distant zones. However, exception was taken that the resulting reductions would be too great, especially in relation to the increases in wage rates and other costs which had already occurred at the time of the hearing and the further increases which were in prospect. In view of these factors, it is concluded that the rate in the first zone should be retained at the present level of 14 cents and that the rate for additional mileage should be halved, to 1 cent per 20 miles or fraction thereof."

Rulings. Within the period reserved for filing exceptions to the recommended decision, exceptions were submitted on behalf of interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

Determination of representative period. The month of May 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of amendments to the order regulating the handling of milk in the Detroit, Michigan, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in Detroit, Michigan, Marketing Area", and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 10th day of August 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Detroit, Michigan, Marketing Area

§ 924.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisons of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Detroit, Michigan, on February 28 through March 7, 1956, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Detroit, Michigan, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as set forth below:

1. Revise § 924.5 to read as follows:

§ 924.5 *Detroit, Michigan, marketing area.* "Detroit, Michigan, marketing area," hereinafter referred to as the "marketing area," means all territory, including incorporated municipalities, within the outer boundaries of the townships of Burtchville, Grant, Greenwood, Kenockee, Wales, Clyde, Fort Gratiot, Kimball, Port Huron, St. Clair, China, East China, Ira, Cottrellville and Clay in St. Clair County, the townships of Chesterfield, Sterling, Clinton, Harrison, Warren, Erin, and Lake in Macomb County, the townships of White Lake, Waterford, Pontiac, Avon, Commerce, West Bloomfield, Bloomfield, Troy, Novi, Farmington, Southfield, and Royal Oak in Oakland County, the townships of Salem, Northfield, Webster, Scio, Ann Arbor, Superior, Ypsilanti, Pittsfield, Lodi, Saline, York, and Augusta in Washtenaw County, the townships of Ash and Berlin in Monroe County and all of Wayne County, all in the State of Michigan.

2. In § 924.16 (b) delete from the proviso the phrase, "during each of the months of November 1955 through January 1956 and, in subsequent years".

3. Revise § 924.43 (b) to read as follows:

(b) Skim milk and butterfat disposed of by a handler from a pool plant to a nonpool plant in the form of milk or skim milk shall be Class I utilization if so reported by the handler, or unless the market administrator is permitted to audit the records of receipts and utilization at such nonpool plant, in which case the classificaton of all skim milk and butterfat at such nonpool plant shall be determined and the skim milk and butterfat transferred from the pool plant shall be allocated to the lowest use during the months of April, May, or June and to the highest use during any other month. If all or a portion of the milk so transferred is retransferred to a second nonpool plant, the same conditions of audit, classification, and allocation shall apply.

4. Delete § 924.46 (b) and substitute therefor the following:

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk other than that to be subtracted pursuant to paragraph (c) of this section;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

5. In §924.46 change the designation of paragraph "(c)", "(d)", and "(e)", to "(d)", "(e)", and "(f)", respectively.

6. Revise § 924.51 to read as follows:

§ 924.51 *Class I milk prices.* (a) Subject to the adjustment provided in paragraph (b) of this section, the minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations, during the month, which is classified as Class I utilization shall be the basic formula price plus $1.23 during the months of February through July and plus $1.63 in all other months.

(b) The percentage which total receipts of producer milk by all handlers during the next two preceding months is of total Class I utilization at all pool plants, exclusive of variation in inventory during such period shall be computed each month by the market administrator and for the month in which the computation is made the Class I price shall be decreased by 3 cents for each percentage point that such percentage is above the average of the percentages for the corresponding months in the following schedule (rounding the difference to the nearest full percentage) and increased by 3 cents for each percentage point that such percentage is below the average of the percentages for the corresponding months in the following schedule (rounding the difference to the nearest full percentage):

Month:	*Percentages*
January	129.8
February	130.3
March	134.7
April	142.0
May	151.7
June	157.5
July	143.1
August	140.9
September	131.0
October	125.7
November	124.0
December	129.9

Provided, That in no event shall the Class I price be increased or decreased pursuant to this paragraph by more than 45 cents.

7. Revise § 924.52 to read as follows:

§ 924.52 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month which is classified as Class II utilization shall be as follows:

(a) In the months of February through September the higher of: (1) The price per hundredweight as described in § 954.50 (c), or (2) the price per hundredweight described in § 924.50 (b), less 18.3 cents.

(b) In the months of October, November, December, and January add 20 cents per hundredweight to the price determined in paragraph (a) of this section.

8. Revise § 924.53 to read as follows:

§ 924.53 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to §§ 924.51 and 924.52, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month multiplied by 0.113 and the result rounded to the nearest one-tenth of a cent.

9. In § 924.60 (b) change the phrase, "other source milk is allocated to Class I pursuant to §§ 924.46 and 924.47" to read, "other source milk is allocated to Class I pursuant to § 924.46 (b) and the corresponding step of § 924.47."

10. In § 924.60 (c), change the tabulation of road distances and rates per hundredweight to read as follows:

Shortest road distance from Detroit City Hall:	*Rate per hundredweight*
More than 34 miles but not more than 50 miles	$0.14
More than 50 miles but not more than 70 miles	.15
Add 1 cent for each 20 miles or fraction thereof over 70 miles.	

11. At the end of § 924.71 (c) change the phrase "may retain his base without loss for six months." to read "may retain his base without loss for twelve months."

12. Change § 924.82 to read as follows:

§ 924.82 *Producer butterfat differential.* In making payments pursuant to § 924.80, the base price and excess price or the uniform price shall be increased or decreased for each one-tenth of one percent of butterfat content in the milk received from each producer or a cooperative association above or below 3.5 percent, as the case may be, by an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month multiplied by 0.113 and the result rounded to the nearest one-half cent.

[F. R. Doc. 56-6583; Filed, Aug. 15, 1956; 8:45 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 941]

[Docket No. AO–101–A22]

Handling of Milk in Chicago, Illinois, Marketing Area

Decision With Respect to Proposed Marketing Agreement and Proposed Order Amending the Order, as Amended

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Chicago, Illinois, on June 4, 6, and 7, 1956, pursuant to notice thereof which was issued on May 16, 1956 (21 F. R. 3327).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on July 20, 1956 (21 F. R. 5590), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision with respect to certain issues on the record of the hearing, and notice of opportunity to file written exception thereto.

The material issues on the record of the hearing related to:

1. The price level for Class I milk, including the supply-demand adjustment.
2. Revision of the definition of "pool plant" with respect to performance of plants and other qualifications; "reload point" as a type of pool plant; and accounting and payments for nonpool milk received at a pool plant.
3. Elimination of the special price applied in September, October and November to Class I and Class II milk moved in bulk to points outside the surplus milk manufacturing area.
4. Revision of price differentials to producers in nearby zones.
5. Changes in the method of accounting for milk, including use of a skim milk and butterfat system of accounting, and a special classification and accounting plan for skim milk and butterfat used in ice cream.
6. Expansion of the surplus milk manufacturing area.
7. Classification of malted milk.

In addition to the issues here listed, certain other matters were referred to in proposals included in the hearing notice, but were either abandoned or not specifically mentioned at the hearing. These matters included the price level for Class II milk, expansion of the marketing area to include all of Lake County, Illinois, advance payments to producers, new producer bases, and accounting for own-farm production. It is concluded that no action with respect to these matters should be taken on this record.

A request was made on the record that early action be taken on Issues No. 2 and No. 3, so that any resulting changes in the order could be made effective September 1, 1956. The recommended decision of the Acting Deputy Administrator issued July 20, 1956, dealt only with Issues No. 2 and No. 3, and this decision deals with these same issues. Issues No. 1 and Nos. 4 through 7 are reserved for a further decision on this record.

Findings and conclusions. The following findings and conclusions on the material issues covered in this decision are based on the evidence contained in the record of the hearing:

Pool plants. The order requirements with respect to the qualifications to be met by plants for participation in the market-wide pool should be modified. The eligibility of supply plants for pooling should be based on the actual delivery of milk in the current month, or actual delivery in the months of September, October and November preceding, to plants processing and distributing Class I milk products or any Chicago inspected Class II milk product in the marketing area.

Present order provisions establish three categories of plants. The first category includes all plants which process and package any Class I milk product which is disposed of in the marketing area for consumption in fluid form. A second category is comprised of those supply plants which are not on the approved list of the Board of Health of Chicago, Illinois, and which are suppliers of plants from which Class I milk is distributed in the segment of the marketing area which lies outside the city limits of Chicago. Such supply plants are eligible for pooling on the basis of shipments of not less than 50 percent of the butterfat received from producers in fluid form as milk or cream. Any such plant fulfilling these requirements for each of the months of September, October and November, may remain in the pool through August of the following year. A third category of plants, the largest group, is comprised of those supply plants which are under the approval of the Board of Health of Chicago. These plants are automatically included in the pool on the basis of such approval but are subject to suspension from the pool during the months of March through July if they have not met certain requirements in the previous September, October and November. These requirements are, essentially, that such plants must make at least 50 percent of their producer milk available to the market during the fall months, either through actual shipment or by offers to sell to other pool plants. (In meeting the 50 percent requirement, however, allowance is made for Class I and Class II disposition within the surplus milk manufacturing area other than to pool plants.) Shipments in the form of milk, skim milk, concentrated milk, condensed skim milk, and fluid cream are given credit toward qualification under this requirement. The total requirement for all such types of disposition or offers, is 50 percent of the pounds of butterfat in milk received from producers at the plant, or 50 percent of the pounds of whole milk received from producers.

A proposal was made by a producer organization to alter substantially the requirements for pool participation by country supply plants. With respect to all country supply plants, the proposal would terminate credit toward pool qualification based on offers to sell milk to plants processing and distributing Class I milk products in the marketing area. In the future pool qualification would be based on actual shipments from the supply plant to plants which process and package any Class I milk product or any Class II milk product required to be made from inspected milk. The requirement that a supply plant would have to meet, under the proposal, would be the shipment in such manner of at least 50 percent of the butterfat in milk received from producers. Proponent requested also that milk delivered to "receiving stations" which supply the market indirectly through shipments to other supply (pool) plants should also be permitted to qualify for pooling. In determining whether milk at such a receiving station qualifies, the receipts of both plants would be added together and the shipments from the intermediate plants would need to include at least 50 percent of the butterfat in the total receipts of both the receiving station(s) and the intermediate plant. The proposal also would provide that any plant meeting the above requirements during each of the months of September, October and November could remain a "pool plant" until the following September, unless the particular plant is voluntarily withdrawn from the pool through advance notice to the market administrator. An additional feature of the proposal is that the operator of a pool plant would be credited at the uniform price for any milk (which does not violate health requirements) received from a plant not meeting the requirements for pool participation.

The proposal to base the qualification of supply plants for pooling on actual shipments was supported by handler representatives. A request was made, however, that the order not be changed with respect to the forms of milk products allowed for credit toward qualification, i. e., that the privilege of shipping either 50 percent of butterfat in producer milk receipts, or the equivalent of 50 percent of producer milk receipts as milk or skim milk (fluid or condensed), be continued.

Opposition by a producer group to the proposed change in the pool plant requirements, as set forth in their brief, stressed the possibilities that the new requirements would eliminate a number of plants from the pool, result in uneconomical shipments of milk to the market, and benefit nearby producers at the expense of more distant producers. This producer group also objected to basing the pool requirement for supply plants solely on butterfat shipments.

Record data on the percentages of pool milk used for Class I and Class II uses in such fall months show that the average utilization in these classes has been well above 50 percent of total producer milk receipts. In the fall of 1955, the combined percentages for these classes were as follows: September, 86.8 percent; October, 80.2 percent; and November, 78.2 percent.

On the assumption that in these months milk received at pool plants in zones 1 and 2 was completely available for Class I and Class II uses, then of the milk received at plants in the remaining zones, most of which would be delivered

by producers to supply plants rather than to distributing plants, at least 74 percent in September 1955, 63 percent in October, and 61 percent in November would have been required to fulfill total Class I and Class II needs.

In the fall of 1953, the total supply of pool milk was unusually large in relation to Class I and Class II needs. If plants in zones 1 and 2 are likewise assumed to have received milk directly from farms and to have achieved utilization of all such milk in Class I and Class II at that time, the remaining plants would have had average utilization in these classes of 55 percent in September, 60 percent in October, and 46 percent in November. The need for milk to supply Class I and Class II utilization from plants in zones 3–22 would be still higher, of course, if, as is likely, bottling plants in the first two zones could not achieve full utilization in Class I and Class II of direct-shipped milk. Higher levels of utilization prevailed in the fall months of 1951, 1952, and 1954.

A plant which may be considered an integral part of the market supply should be able to attain an average utilization of at least 50 percent of its milk in Class I and Class II in the fall months under foreseeable circumstances. It is recognized that the total utilization in Classes I and II in these months, as referred to above, included bulk milk sales to distant points outside the surplus milk manufacturing area, but elimination of these sales from the computation would leave sufficient Class I and Class II milk to result in average utilization significantly greater than 50 percent at plants beyond the first two zones under the conditions outlined.

It is inappropriate to include in the pool, to receive the benefit of uniform prices, those plants which are not a regular and dependable part of the market supply. This may occur under the present provisions which allow plants to qualify on the basis of offers rather than actual shipments. Plants in which the principal operation is the manufacture of milk products may be attracted to the pool primarily to participate in the higher utilization of the fluid milk market without acceptance of responsibility for making supplies available to meet the higher-valued Class I and Class II requirements of the market when supplies may be urgently needed. Although trial of the present provisions has produced some beneficial effect in arresting plants which find the pool attractive for such purpose, difficulties in securing adequate market supplies have not been eliminated. Because of the foregoing considerations it is desirable to base participation of supply plants in the pool on a specified percentage of supplies shipped to the market.

The types of shipments allowed for qualification credit, i. e., milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form, should remain as presently provided in the order. Also, there is no substantial reason for continuing to make distinction between the requirements applicable to Chicago approved supply plants and those concerned only with the suburban portion of the marketing area.

Proponents of the new pool plant provisions objected to the allowance of qualification credit on skim milk items shipped to market. This objection was based on the proposition that under the present "milk equivalent of butterfat" accounting method no price differential over the manufacturing price level is realized by producers from skim milk in Class II milk. Skim milk, however, is frequently needed by bottling plants for Class I disposition in the marketing area in such forms as "standardized" bottled milk, buttermilk and milk drinks, and skim milk, condensed or whole, is used at plants in the marketing area for Class II disposition as cottage cheese, ice cream and related products, all of which require substantial quantities of skim milk from inspected sources. Accordingly, shipments of these milk products, as well as the butterfat in milk or cream, should be considered as necessary to fulfill the total need for supplies for all Class I and Class II uses. For this particular purpose, it is not material that the present accounting plan does not provide a price differential on skim milk in Class II uses.

In the recommended decision it was concluded that a plant could qualify as a pool plant for the months of December through the following August if, during each of the immediately preceding months of September, October and November, the sum of its shipments to regulated plants of milk or butterfat in the specified forms equaled at least 50 percent of the volume of producer milk received at the plant during the month. In exceptions, some producers and handlers requested that the percentage requirement be an average for the three-month period, so as to make allowance for irregularities in receipts and market requirements. It is so provided in the amending language. To qualify for pool status on this basis, however, the plant should maintain a substantial connection with the market in each of the three months. A plant should not acquire pool status for the balance of the year if it fails in any one of the three months to ship at least 30 percent of its receipts in the manner prescribed.

It is appropriate to use the months of September, October and November as a basis for qualifying a plant for participation in the pool for the remainder of the year, since these have tended to be the months of shortest supply. Some plants supplying the market during these months may need to move only a small part, or perhaps none, of their milk to the market in the spring months, but the fact that a plant ships a substantial portion of its supply during the months of shortest production justifies its participation in the pool as part of the supply system throughout the year. Furthermore, it would be uneconomical to require such plants to ship to the market during the remainder of the year the same percentage of their receipts as is required during the fall months to insure a sufficient supply.

Plants which do not meet the 50-percent delivery performance requirement in the September–November period should be required to meet such standard each month until the plant has demonstrated a firm association with the market in the short production season. In this connection it should be noted that relaxation of the delivery standard for any such plant, particularly for the months when production is approaching the seasonal high, would increase the attractiveness of the pool to milk which is surplus to a plant's fluid operations outside the Chicago marketing area, thus increasing the burden of seasonal surpluses carried by established Chicago producers. Such a plant should have a substantial, and continuing, outlet for milk in the marketing area to attain equal status with established suppliers of the market.

As mentioned previously herein, the proposal would allow a supply plant to qualify by shipments of milk to another supply plant, provided the latter plant shipped sufficient milk to distributing plants to qualify both plants. It was testified that to this extent flexibility in the provisions is needed to accommodate existing "feeder-plant" systems for assembling milk for movement to market. On reasonable balance between total producer (pool) receipts and Class I and Class II uses, a handler operating such a system of plants doubtless would need milk from all such plants in the September-November period, and thus would be able to qualify all plants in the system for the remainder of a twelve-month period.

On the other hand the order should not allow a handler to add a plant to his system without specific delivery performance during the months of December through August if such plant did not qualify for pool status in the prior September-November period as part of the handler's system on the basis of the 50 percent shipment standard. Such a limitation is desirable, since the provision for qualifying a system of supply plants as pool plants should not provide greater encouragement to handlers to add plants to the pool in months when additional milk is definitely not needed than to those plant operators looking to the market for the first time.

Some producer organizations requested that plants be protected against loss of pool status because of labor disputes. Such a provision is included in the amending language. This provision would exclude from the computation as to pool plant qualification, for the months of September, October and November, the receipts and shipments on the days affected by the labor dispute.

A corollary proposal of producer proponents is to allow the handler credit at the uniform price (adjusted for location) for milk received at pool plants from plants not having pool status in the computation of the handler's obligation for milk. The total value of the handler's milk receipts, including a value for "other source milk" received from plants not having pool status, would be computed at the class prices provided in the order. Against this aggregate value the handler would be credited at the market-wide uniform price for the amount of such other source milk received at a pool plant. Thus, milk received at a pool plant from a non-pool plant (except milk received in violation

of health requirements) would be valued to the handler at a price per hundredweight equal to the average market price to all producers. Any remaining milk in a non-pool plant would receive a return based on its use or disposition to outlets other than pool plants and would not be dependent in any way upon pricing or valuation under the order. In the major segments of the Chicago milkshed, the uniform price to producers computed under the order reasonably reflects the prevailing (or alternative outlet) value for milk of Grade A quality during several months of the year.

However, in the months of March, April, May and June, the uniform price sometimes declines below the price for Class IV milk in the most distant zones of the milkshed, and the alternative use value of inspected milk at such times approximates the Class IV price. Thus, the pricing of other source milk to the handler on the basis of its utilization, and a credit to the handler at the uniform price in the July-February period, and at the Class IV price in the months of March through June, together with complementary provisions for allocation, will prevent any displacement of producer milk in higher-valued uses and preserve the integrity of the classified-price plan. Although it would be possible for some other source milk, on which credit at the uniform price is applied, to be delivered to market and utilized in Class III or Class IV milk, any advantages to be gained by sending milk to pool plants for such uses are limited by the locations of plants and consequent adjustment of the uniform price credit based on pool plant location. In the event efforts are made to gain price advantage through use of nearby producer milk in the lower-valued classes and the substitution of other source milk from more distant locations in Class I and Class II uses, it would be appropriate to reconsider the amount of the credit allowed. When milk is transferred from a non-pool plant to a pool plant solely for manufacturing, credit to the pool plant at the uniform price on such milk would result in disadvantage to producers. In the latter instance credit at the Class IV price is appropriate and is so provided.

Price for Class I and Class II milk sold outside the surplus milk manufacturing area. The provisions for special (higher) prices for Class I and Class II milk moved in bulk to points outside the surplus milk manufacturing area during September, October, and November should be eliminated.

Elimination of the special price differential on milk and cream moved to distant markets in fall months was proposed by several producer organizations. This proposal was supported on the record primarily by incorporating by reference testimony and exhibits from previous hearings. The producer proponents of the revised pool plant qualification provisions suggested that the out-of-market price differential would no longer be appropriate if its pool plant proposal were adopted.

Prior testimony in support of the continuance of the special price provisions was based on the contentions that: (1) Some such provisions were needed to make milk available in the marketing area during the short production season for Class I and Class II requirements, and (2) the additional 70 cents per hundredweight to be paid by handlers during fall months on sales outside the surplus milk manufacturing area would compensate the market pool for the attendant surplus in other months due to the tendency for out-of-market sales to be seasonal. Opposition testimony in the prior hearings alleged that the special price provisions hinder the sale of milk to other markets for Class I and Class II use, and consequently reduce the value of pool utilization below what it otherwise would be.

The 70-cent price differential added in case of Class I and Class II milk sold outside the surplus milk manufacturing area was first included in the order on July 1, 1951, at the time when the orders for Chicago and the suburban area were consolidated. The special price differential was adopted for the short production months of September, October, and November.

These provisions have been subject to modification and suspension from time to time with respect to whether the differential would apply in certain months or to particular shipments. Effective July 3, 1954, an amendment was adopted which made the application of the 70-cent differential in the fall months dependent on utilization in the market pool in the third preceding month. This amendment was based on a hearing in August 1953 from which it was concluded that the special price would not be appropriate in months when there was an ample supply of milk for both the Chicago marketing area and the outside fluid markets customarily served. On October 1, 1955, the price provisions on sales to other markets were amended so that the 70-cent differential would not apply to shipments made on any Friday or Saturday in view of the fact that marketing area demand for fluid requirements are low on these days as compared with other days in the week.

The application of the 70-cent differential on out-of-market sales has also been suspended several times. The suspension orders were supported by the industry generally on the basis that the price differential was inappropriate under the conditions which prevailed at the particular time.

At the June 1956 hearing, handlers and producers who, in previous hearings, had been principal supporters of continuance of the special 70-cent differential on out-of-market sales, as well as previous opponents of the provision, suggested its elimination at this time on the basis that the proposed new provisions for pool plants would operate to make more milk available to the marketing area in the fall season and would render the out-of-market price differential unnecessary. Inasmuch as the amendments to the pool plant provisions recommended herein are designed to achieve generally the objectives of the special price provisions, it is concluded that the latter provisions should be eliminated.

General findings. (a) The tentative marketing agreement and the order, as amended and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interests; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Ruling on exceptions. In arriving at the findings and conclusions included in this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

Order of the Secretary Directing That a Referendum Be Conducted; Determination of a Representative Period; and Designation of an Agent To Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area) who, during the month of April 1956, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order as amended, to determine whether such producers favor the issuance of the order amending the order, as amended, which is filed herewith.

The month of April 1956 is hereby determined to be the representative period for the conduct of such referendum.

J. L. Cook is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 15th day from the date this decision is filed.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

Issued at Washington, D. C., this 13th day of August 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area*

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effecuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Amend § 941.8 by eliminating the word "or" at the end of paragraph (c), substituting a comma for the period at the end of paragraph (d), adding the word "or" following the comma and adding a new paragraph (e) as follows:

(e) Operates a nonpool plant qualified to supply Class I milk to the marketing area from which milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form, is shipped to a regulated plant.

2. Amend § 941.45 by deleting paragraphs (e), (f), (g), (h), (i), and (j) and substituting therefor the following:

(e) Subtract, in the case of other source milk received in the form of a product named in Class III milk, Class III (a) milk, or Class IV milk, the pounds of such other source milk used in Class I milk and Class II milk, respectively, from the remaining pounds in the class of use unless such other source milk is in violation of the applicable health requirements;

(f) Subtract from the remaining pounds of milk in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk which is not approved by the applicable health authority for distribution in the marketing area as any Class I milk product or as any Class II milk product required to be made from inspected milk;

(g) Subtract from the remaining pounds of milk in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk received at a pool plant which is not engaged in processing and packaging any Class I milk product specified in § 941.41(a)(1) or any Class II milk product required to be made from inspected milk by any health authority having jurisdiction in the marketing area, all or a part of which Class I or Class II milk product is disposed of in the marketing area;

(h) Subtract from the remaining pounds of milk in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk not deducted pursuant to paragraphs (e), (f) and (g) of this section;

(i) Subtract from the remaining pounds in each class in series beginning with the lowest-priced class, the pounds of overrun;

(j) If deductions have been made pursuant to paragraphs (e), (f), (g) or (h) of this section, and the remaining amount of Class I milk plus the 18 percent cream equivalent of butterfat remaining in the pounds in Class II, III, III (a) and IV milk are greater than the amount of milk received from producers, the difference shall be considered as other source milk and subtracted from the remaining amount of Class I milk; and

3. Amend § 941.52 by deleting the following:

a. The phrase "except as set forth in subparagraph (3) of this paragraph," from paragraphs (a) (1), (2), (b) (1) and (2),

b. Paragraphs (a) (3) and (b) (3), and

c. Paragraph (e).

4. Delete § 941.61 and substitute therefor the following:

§ 941.61 *Obligation for other source milk.* The market administrator, in computing the net pool obligation for each handler pursuant to § 941.70, shall:

(a) Add an amount determined by multiplying the pounds of other source milk allocated to Class I milk and Class II milk pursuant to § 941.45 (f) by the difference between the appropriate class price and the lowest announced class price per hundredweight applicable for the delivery period;

(b) For the delivery periods March through June, inclusive, add an amount computed as follows:

(1) Multiply the pounds of other source milk which is allocated to Class I milk or Class II milk pursuant to paragraphs (g), (h) and (j) of § 941.45, by the difference between the appropriate class price and the lowest announced class price per hundredweight applicable for the delivery period, and

(2) Subtract therefrom the value obtained by multiplying such Class I milk and the 36 percent cream equivalent of the butterfat in such Class II milk by the rates of location adjustment credit set forth in paragraphs (a) and (b), respectively, of § 941.53.

(c) For the delivery periods July through February, inclusive, add or subtract, as the case may be, an amount computed as follows:

(1) Multiply the pounds of other source milk allocated to Class I and Class II milk pursuant to paragraphs (g), (h) and (j) of § 941.45, and to Class III, Class III (a) and Class IV milk pursuant to paragraph (h) of that section by the appropriate class prices, and add together the resulting amounts.

(2) Subtract therefrom the values obtained by multiplying (i) the pounds of other source milk allocated to Class I milk pursuant to paragraphs (g) and (j) of § 941.45, and the pounds of other source milk received as milk or skim milk in fluid form at a plant which processes and packages any Class I milk specified in § 941.41 (a) (1) or any Class II milk product required to be made from inspected milk by a health authority having jurisdiction in the marketing area by the rate(s) of location adjustment credit set forth in § 941.53 (a), and (ii) the pounds of 36 percent cream equivalent of

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

the butterfat in other source milk allocated to Class II milk pursuant to paragraph (g) of § 941.45, and the other source milk received as cream in fluid form at a plant which processes and packages any Class I milk specified in § 941.41 (a), or any Class II milk product required to be made from inspected milk by a health authority having jurisdiction in the marketing area by the rate(s) of location adjustment credit set forth in § 941.53 (b).

(3) Multiply the total pounds of milk used in computing the value in subparagraph (1) of this paragraph by the uniform price applicable to milk received from producers during the delivery period, adjusted by the rate(s) of location adjustment specified in § 941.81.

(4) Subtract the value obtained in subparagraph (3) of this paragraph from the value remaining in subparagraph (2) of this paragraph and any plus difference shall be added to, and any minus difference shall be subtracted from, the handler's net pool obligation.

5. Delete § 941.66 and substitute therefor the following:

§ 941.66 *Pool plant.* "Pool plant" means any plant or reload point which receives milk from dairy farmers and which:

(a) Processes and packages any Class I milk product specified in § 941.41 (a) (1) or any Class II milk product required to be made from inspected milk by a health authority having jurisdiction in the marketing area, all or a part of which Class I or Class II milk product is disposed of in the marketing area, or;

(b) Ships during the delivery period at least 50 percent of the pounds of butterfat in, or at least 50 percent of the volume of, milk received from dairy farmers at such plant, as milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form to (and is physically received in) a plant(s) which operates in the manner described in paragraph (a) of this section, irrespective of whether or not such plant(s) receives milk from dairy farmers: *Provided*, That:

(1) In computing the percentages of milk, skim milk and cream on a product pounds basis, any shipments of concentrated milk or condensed skim milk to such a plant shall be based upon the quantity of milk or skim milk used in its production rather than upon the quantity of concentrated milk or condensed skim milk shipped;

(2) If, during September, October or November, a plant other than one which performs the functions described in paragraph (a) of this section receives milk, skim milk, concentrated milk, condensed skim milk or cream in fluid form from another plant, any shipments by the receiving plant under the foregoing conditions set forth in this paragraph, which are in excess of the minimum quantity which qualified it as a pool plant shall be credited to the supplying plant toward its pool qualification, but such credit shall not exceed the quantity of butterfat or milk shipped from the supplying plant to the receiving plant. In the event the plant which has qualified as a pool plant under this paragraph receives butterfat or milk in any of the forms described in this subparagraph from more than one plant, any credit to be extended to the respective supplying plants (subject to the limitation above specified) shall be allocated to such plants in direct ratio to the quantity of butterfat or milk which each shipped to the receiving plant;

(3) If, during September, October, or November, a handler notifies the market administrator in writing that a plant is unable to meet the requirements set forth herein because of a work stoppage due to a labor dispute between employer and employees, the market administrator, upon vertification of the handler's claim, shall not include the receipts and utilization of milk at such plant for those days from the date of notification through the last day of the work stoppage in determining the percentage of milk or butterfat shipped pursuant to this paragraph; and

(4) Any plant which, during the three-month period of September, October and November, ships, or is credited (pursuant to subparagraph (2) of this paragraph) with shipments of, at least 50 percent of the pounds of butterfat in, or at least 50 percent of the volume of, milk received from dairy farmers at such plant, as milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form to (and is physically received in) a plant(s) which operates in the manner described in paragraph (a) of this section, irrespective of whether or not such plant(s) receives milk from dairy farmers, shall be a pool plant beginning with December of the same year and continuing through August of the following year, unless the milk received by the plant does not continue to be qualified for use in Grade A Class I milk products in the marketing area, or the plant operator notifies the market administrator that the plant should be withdrawn from the pool; in the event such notification is given the plant will no longer be a pool plant starting with the beginning of the delivery period following receipt of the notification by the market administrator, except during any delivery period(s) in which the pool plant requirements under this paragraph are fulfilled: *Provided*, That no plant shall acquire pool plant status pursuant to this subparagraph if it fails to ship (or be credited with shipments of) in any one of the months of September, October and November, at least 30 percent of the pounds of butterfat in, or at least 30 percent of the volume of, milk received from dairy farmers at such plant, in the forms and in the manner specified in this subparagraph to a plant(s) which operates in the manner described in paragraph (a) of this section.

6. Delete § 941.67 and substitute therefor the following:

§ 941.67 *Handlers who operate nonpool plants.* No provision of this order shall apply to the milk received at a nonpool plant from which some milk, skim milk, concentrated milk, condensed skim milk or cream in fluid form, meeting the requirements of an applicable health authority in the marketing area, is shipped to a regulated plant, except that the handler operating such nonpool plant shall make reports to the market administrator at such time and in such manner as the market administrator may request.

7. Amend § 941.70 (b) by inserting after the word "Add" the following phrase: "or subtract, as the case may be,".

8. Amend § 941.86 by deleting the words following "other source milk" and substituting therefor the following: "used in the computations made pursuant to § 941.61".

[7 CFR Part 964]

[Docket No. AO 258- A 1]

HANDLING OF DRIED FIGS PRODUCED IN CALIFORNIA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), (hereinafter referred to as the "act"), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Fresno, California, on June 11, 1956 upon proposed amendments to Marketing Agreement No. 123 and Order No. 64 (20 F. R. 1685), regulating the handling of dried figs produced in California. Said marketing agreement and order are effective pursuant to the provisions of the act.

Upon the basis of the evidence adduced at the aforementioned hearing and the record thereof, the Deputy Administrator, Marketing Services, United States Department of Agriculture, on July 12, 1956, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. Notice of such recommended decision, and opportunity to file written exceptions with respect thereto, was published in the FEDERAL REGISTER (21 F. R. 5376) on July 18, 1956. No exception to said recommended decision was filed.

Findings and conclusions. The material issues and the findings and conclusions of the aforesaid recommended decision (F. R. Doc. 56-5718; 21 F. R. 5376) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein, except for the corrections which are set forth below.

The corrections are as follows: In the issue numbered 4 (in the seventh line from the bottom of the third column on page 5376) change the word "provisions" to "provision;" and in the issue numbered 5 (in the sixth line of the second column on page 5377) change "necssary" to "necessary."

Amendments to the marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Agreement Amending the Marketing Agreement Regulating the Handling of Dried Figs Produced in California" and "Order Amending the Order Regulating the Handling of Dried Figs Produced in California," which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision except the attached agreement amending the marketing agreement be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement amending the marketing agreement are identical with those contained in the attached order amending the order, which will be published with this decision.

Order[1] *Amending the Order Regulating the Handling of Dried Figs Produced in California*

§ 964.0 *Findings and determinations.* The findings hereinafter set forth are supplementary, and in addition, to the findings and determinations which were previously made in connection with the original issuance (20 F. R. 1685) of this marketing order, and all of said previous findings and determinations are hereby ratified and confirmed except insofar as such findings and determinations may be in conflict with the findings set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Fresno, California, on June 11, 1956, upon proposed amendments of Marketing Agreement No. 123 and Order No. 64 (7 CFR Part 964; 20 F. R. 1685), regulating the handling of dried figs produced in California. Upon the basis of the evidence adduced at such hearing, and the record thereof, it is found that:

(1) The said marketing order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The marketing order, as hereby proposed to be amended, will be applicable only to persons in the respective classes of industrial and commercial activities specified or necessarily included in the proposals upon which the amendment hearing has been held; and

(3) There are no differences in the production and marketing of dried figs in the production area covered by this marketing order, as hereby proposed to be amended, which make necessary different terms applicable to different parts of such area.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing orders have been met.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of dried figs produced in California shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as hereby amended as follows:

1. Delete the provisions of § 964.21 (a) and substitute for existing paragraph (a) the provisions of paragraph (c) of that section, relettered as paragraph (a), and amended to read as follows:

§ 964.21 *Selection and term of office of members of the committee*—(a) *Selection of members.* Selection of the 10 members of the committee, and their respective alternates, shall be made by the Secretary, for the producer and handler groups from the nominations submitted for that purpose by those groups, or from among other qualified persons, in the discretion of the Secretary, but such selections shall be made upon the basis of the representation provided for in §§ 964.22, 964.23 and 964.25.

2. Amend the provisions of § 964.21 (b) to read as follows:

(b) *Term of office of members.* The 10 members and their respective alternates shall be selected annually by the Secretary for a term of one year beginning June 1 and shall serve until their respective successors shall be selected and shall qualify; and in the event the committee shall nominate an eleventh member he may be selected by the Secretary to serve for one year beginning July 1.

3. Amend the provisions of § 964.24 (a) to read as follows:

§ 964.24 *Nomination of producer members of the committee*—(a) *Nomination meetings.* Nominations for producer members and alternate producer members of the committee shall be made at a meeting or meetings of producers held in each of the foregoing districts. Such meetings shall be called by the committee at such times and at such places within such districts as the committee shall designate, prior to May 1 of each year. The producers at each of such meetings shall select a chairman and secretary therefor. After nominations have been made, the committee shall transmit forthwith to the Secretary its certificate showing the name of each person for whom votes have been cast, whether as a member or as alternate for a member, and the number of votes received by each such person.

4. Amend the provisions of § 964.26 to read as follows:

§ 964.26 *Nomination of handler members.* The committee shall cause to be held each year prior to May 1, a meeting or meetings of handlers affected by this part for the purpose of obtaining nominations of persons to serve as handler members and alternate members of the committee.

5. Amend the provisions of paragraph (c) of § 964.34 to read as follows:

(c) *Voting requirements.* No action shall be taken by the committee at an assembled meeting including the nomination of an eleventh member unless a quorum is present and a concurring vote of not less than three producer members and three handler members, or alternate members acting in the place and stead of members, is obtained; *Provided however*, That any recommendation to establish volume regulation under § 964.55 shall require the concurring vote of not less than four handler members and four producer members, or alternate members acting in the place and stead of members. The committee may vote by mail or telegraph, when there is no assembled meeting, but any proposition to be so voted upon first shall be explained accurately, fully and identically by mail or telegraph to all members. A unanimous vote of all members or alternates acting in the place and stead of members shall be required to reach a decision on a mail or telegraphic vote. Failure to receive a vote from any member or from his alternate acting in his place and stead, within a prescribed time, shall be held to be a dissenting vote. No action to establish volume regulation under § 964.55 can be taken on the basis of a mail or telegraphic vote.

6. Amend the provisions of subparagraph (2) of paragraph (c) of § 964.90 to read as follows:

(2) For dried figs being prepared as fig paste, or sliced dried figs being prepared as fig paste, or sliced dried figs being prepared for disposition as sliced dried figs: (i) Total defective figs shall not exceed 10 percent including not more than 5 percent of insect infested dried figs, and (ii) no sliced dried figs or fig paste shall contain more than 13 insect heads per 100 grams.

Order Directing That a Referendum Be Conducted; Designating Agents To Conduct Such Referendum; and Determining the Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the producers who during the period August 1, 1955 through July 31, 1956 (which is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the State of California, in the production, for market, of dried figs to determine whether such producers approve or favor the issuance of an order amending the order regulating the handling of dried figs produced in California, which order is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith.

W. Allmendinger, W. B. Blackburn, T. R. Sturdevant, F. M. Grasberger, and Hugh Ross, of the Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, are hereby designated agents of the Secretary of Agriculture to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended (15 F. R. 5176; 19 F. R. 35)", except that the

definition of "producer" in paragraph a (1) is hereby amended by adding, at the end thereof, the following sentence: "This definition shall apply only to producers of figs who dry the same, either personally or through others on a fee basis, and to dry yard operators and other dehydrators who dry figs which they own."

Copies of the aforesaid annexed order, of the aforesaid referendum procedure, and of this order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C.

Ballots and other necessary forms and instructions for use in the referendum, also copies of the order amending the marketing order may be obtained from W. Allmendinger, Oakland Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 1515 Clay Street, 6th Floor, Oakland 12, California, or O. C. Fuqua, Fresno Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, 3529 East Tulare Street, Fresno 2, California.

Dated: August 13, 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Commodity Exchange Authority

[17 CFR Part 6]

SPECIAL PROVISIONS APPLICABLE TO POTATOES AND ONIONS

REPORTS BY ONION SHIPPERS, MERCHANDISERS, PROCESSORS, AND DEALERS WITH ONION FUTURES OPEN CONTRACTS OF SPECIFIED SIZE

Notice is hereby given, pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), that the Secretary of Agriculture is considering the issuance of regulations under the Commodity Exchange Act, to be designated §§ 6.16 to 6.19, inclusive, of Part 6, Chapter I, Title 17, Code of Federal Regulations (17 CFR Part 6), and the amendment of § 6.21 thereof (17 CFR 6.21), to read substantially as follows:

FORM 604

§ 6.16 *Shippers, merchandisers, processors, and dealers holding or controlling open contracts of specified size in onion futures to report weekly on Form 604.* Every person who is engaged in shipping, merchandising, processing, or dealing in onions or onion products and who holds or controls open contracts in any one onion future on any contract market which equal or exceed the amount fixed in § 6.21, shall report to the Commodity Exchange Authority on Form 604, which report shall be rendered as of the close of business on Friday of each week unless otherwise authorized in writing by the Commodity Exchange Authority upon good cause shown.

§ 6.17 *Information shown in reports on Form 604.* Reports made by any person on Form 604 shall be prepared in accordance with the instructions appearing on Form 604 and shall contain the following information:

(a) The makeup of the cash-onion position held or controlled by such person showing the amount of

(1) Onions being raised or expected to be raised in the ensuing 12 months, including the acreage in each State,

(2) Inventory (stocks) of onions in storage (other than cold storage) and in cold storage,

(3) Onions in transit, by railroad (including cars on track), and by truck,

(4) Unfilled fixed-price purchase commitments,

(5) Unfilled fixed-price sales commitments,

(6) Onion products, including unfilled fixed-price purchase and sales commitments; and

(b) The amount of open contracts held or controlled by such person in all onion futures on all boards of trade (exchanges) in the United States and elsewhere.

§ 6.18 *Cash-onion position; how determined.* (a) In determining the cash-onion position of any person reporting on Form 604, such person shall use such standards and such conversion factors as are usual and common to the business in which he is engaged. If, in determining the cash-onion position of such person for hedging purposes, it be his practice regularly to exclude certain products, such products shall be excluded in reporting such cash-onion position on Form 604.

(b) Such person shall upon request furnish the Commodity Exchange Authority with detailed information concerning the kind and amount of each product included in computing his cash-onion position and the conversion factor used for each such product.

§ 6.19 *Time of filing reports on Form 604.* Unless otherwise authorized in writing by the Commodity Exchange Authority upon good cause shown, reports required on Form 604 shall be filed with the Commodity Exchange Authority not later than the next business day following the day covered by the report: *Provided*, That reports may be transmitted by mail in accordance with instructions furnished by the Commodity Exchange Authority. Reports received by mail will be considered duly filed if postmarked not later than midnight of the last day allowed for filing.

§ 6.21 *Amount fixed for reporting on Forms 603 and 604.* For the purpose of §§ 6.10, 6.14, and 6.16, the amount fixed by the Secretary of Agriculture, under authority of section 4i (2) of the Commodity Exchange Act, for reporting on Form 603 and Form 604 is 25 carlots.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed regulations should file the same with the Administrator, Commodity Exchange Authority, United States Department of Agriculture, Washington 25, D. C., not later than September 4, 1956.

Issued: August 13, 1956.

[SEAL] RODGER R. KAUFFMAN,
Administrator,
Commodity Exchange Authority.

[F. R. Doc. 56-6636; Filed, Aug. 15, 1956; 8:57 a. m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

MINIMUM WAGE DETERMINATIONS

BATTERY INDUSTRY

This matter is before the Secretary of Labor for initial decision on a determination of prevailing minimum wages for the battery industry on the record of a hearing at which a hearing officer presided.

1. *Definition.* The notice of hearing defined the battery industry as follows: The battery industry is that industry which manufactures or furnishes all types of electric batteries, including lead-acid storage batteries or plates therefor; dry primary batteries; all other batteries or parts therefor except glass containers and porcelain covers for wet primary batteries.

No comments or objections as to the adequacy of the definition having been received, and after full consideration of the record, I find that the definition as stated in the notice is appropriate for this industry.

2. *Product differentials.* Evidence in the record indicates that there is a considerable difference in the procedures involved in manufacturing different types of batteries.

The manufacture of dry primary batteries is largely light assembly work, whereas the production of lead acid and other batteries is heavy work which requires more training. The record further indicates that the different types of batteries are made in different plants or departments and that there is a difference in skill requirements, end product, materials used, weight of the product and hazards involved in the manufacture of the different types of batteries.

The data compiled by the Bureau of Labor Statistics indicate significant differences in the average hourly earnings of workers making the different types of batteries. For example, median rates were $1.84 for lead-acid storage batteries, $1.42 for dry primary batteries, and $1.70 for other batteries. The proportions of workers receiving rates below certain levels also differed considerably. Bureau of Labor Statistics Table No. 2 indicates that 6.8 percent of the lead acid storage battery workers (except beginners and apprentices) received less than $1.35 compared with 42.2 percent for dry primary batteries and 14.2 percent for other batteries.

Based upon the above considerations, I find that the determination should provide separate minimum wage rates for the three branches of the industry.

3. *Marketing and competitive factors.* Marketing information presented by the Government shows that during the calendar year 1954 Government agencies awarded 168 battery contracts valued at $39,701,000 which were subject to the Walsh-Healey Public Contracts Act. Of this total, 84 contracts valued at $16,049,000 were for lead-acid storage batteries, 59 contracts valued at $15,811,000 were for dry primary batteries, and 25 contracts valued at $7,841,000 were for other batteries.

Dry primary batteries. The Signal Corps (the largest government procurement agency for dry primary batteries), acts as a centralized procurement agency for the Department of Defense. I take official notice that it is the practice of the Signal Corps to award contracts for the manufacture and supply of dry primary batteries upon the basis of low bidder f. o. b. factory, as the delivery points of the purchased batteries are not known at the time of the award. Shipping instructions are sent to the successful bidders after the awards; the batteries are shipped over Government Bills of Lading.

Government Exhibit No. 11 shows the place of manufacture of dry primary batteries as reported on seven invitations to bid for dry primary contracts to be awarded by the Signal Corps for the fiscal year 1955. The exhibit further shows that for six out of the seven invitations to bid listed on the exhibit, the places of manufacture indicated by the bidders were scattered among all five regions shown on the exhibit (New England, Middle Atlantic, Southeast, Great Lakes and Middle West). The places of manufacture indicated by those receiving contracts were distributed among all five regions on four out of the seven invitations to bid, and in no case were there less than three regions represented on any single invitation.

It is apparent from the foregoing that no geographic limitations are feasible in this branch of the industry. The area of competition is industry-wide. On any particular invitation, bids are received and contracts awarded to firms located throughout the United States. As the contracting agency does not know prior to issuing an invitation to bid where the particular batteries are to be shipped and contracts are awarded to the lowest bidder f. o. b. factory rather than f. o. b. destination point, procurement officers can anticipate receiving bids from firms located throughout the country, and it is impossible to predict where any particular contract materials will be manufactured when bids are invited.

For these reasons, I find that the locality in which dry primary batteries are to be manufactured or furnished under Government contracts extends to all of that area in which the dry primary branch of the industry has its plants, and that geographic differentials cannot be adopted for this branch of the industry without defeating the purpose of the Public Contracts Act.

Lead-acid storage batteries and other batteries. In order to show the marketing and competitive aspects of the lead-acid storage battery branch and the other battery branch of the battery industry, the Government introduced various exhibits based on statistics compiled from the General Services Administration and the Army Ordnance Command, two of the larger Government buyers of lead-acid storage batteries and other batteries.

The General Services Administration divides its storage battery procurement into two separate classifications—automotive type and heavy duty electric storage batteries. This latter group also encompasses the type of battery we have classified for purposes of this determination as other batteries. For each classification of batteries, General Services Administration publishes a Federal Supply Schedule. Use of these schedules is mandatory upon all departments and establishments in the Executive Branch of the Government, except the Department of Defense.

In compiling its supply schedule for the purchase of heavy duty electric storage batteries, it is the practice of the General Services Administration to issue an invitation to bid for contracts to be awarded for a forthcoming fiscal year. I hereby take official notice of the General Services Administartion Invitation for Bids, which indicates awards are made to the "bidder offering the lowest cost per ampere-hour capacity at rate requested for the respective items, f. o. b. factory". The firm submitting the lowest bid per ampere-hour for a particular battery is then listed on the Federal Supply Schedule, and is the only manufacturer from whom the particular battery may be purchased for the year in which the Schedule is in force.

In compiling its automotive storage battery procurement schedule for a forthcoming year, the General Services Administration issues invitations to bid based on delivered price to particular defined areas. Evidence in the record indicates that bids are received from many firms located outside these delivery areas. The record further indicates that firms manufacturing this type of battery are located throughout the United States.

The Army Ordnance Tank Command, Detroit, Michigan, purchases a large proportion of all lead-acid and other storage batteries for use by the Department of Defense. Unlike General Services Administration, the Ordnance Tank Command does not differentiate between types of storage batteries, but generally procures all lead-acid storage batteries and other batteries in the same way. The Ordnance Tank Command uses only one bidder's list (Government Exhibit No. 10) for procuring lead-acid and other batteries. The Command acts in the capacity of a centralized purchasing agency, and I take official notice of the fact that generally it does not know at the time of an award to what destination the purchased batteries will be shipped. This being the case, contracts are awarded f. o. b. factory, and shipping instructions are sent to the successful contractor at a later date. The batteries are generally shipped over Government bills of lading.

Government Exhibit No. 10, which is the only bidder's list used by the Army Ordnance Command in soliciting bids for all lead-acid and other batteries, indicates that the firms from which bids are solicited are located throughout the United States. The record further indicates that on any particular invitation to bid, as many as 20 firms appearing on this list can reasonably be expected to submit a bid.

To further supplement the evidence bearing on the marketing and competitive aspects of this industry, the Wage and Hour Division of the Department sent inquiries to the firms appearing on the Government Award List and asked them to submit information relating to the distribution of batteries manufactured in their individual plants. These firms were asked, specifically, whether a battery produced in a specific plant was only distributed in a limited geographic area. The responses were tabulated and appear in this evidence as Government Exhibit No. 7. This exhibit indicates that firms supplying 83 percent of the dollar value of lead-acid batteries and 100 percent of the dollar value of the other batteries distribute their batteries nationwide.

From the foregoing, it is apparent that no geographic limitations are feasible in the lead-acid storage battery branch and the other battery branch of this industry. The area of competition in each branch is industry-wide. Due to the fact that these types of batteries are generally procured f. o. b. factory, a procurement officer can anticipate receiving bids from firms located throughout the country, and it would be impossible to predict where any particular contract materials will be manufactured when bids are received.

Even in situations where procurement agencies (GSA-automotive storage batteries) have solicited bids for delivery to specified areas, bids are received and contracts are awarded to manufacturers located outside the specific areas. It is officially noticed that automotive storage batteries account for only approximately 10 percent of all Government lead-acid storage battery procurement.

For these reasons, I find that the locality in which lead-acid storage batteries and other batteries are to be manufactured or furnished under Government contracts extends to all that area in which the lead-acid battery branch of the industry, and the other battery branch of the industry have their plants, and that geographic differentials cannot be adopted without defeating the purposes of the Public Contracts Act.

4. *Locality.* At the hearing and in post hearing briefs arguments were presented by representatives of both labor and management with regard to whether recognition of a single industry-wide rate would be consistent with the statutory language and intent of the Public Contracts Act. It was argued by counsel representing a dry primary battery manufacturer that section 1 (b) of the act requires that minimum rates be established for each small geographic area in which dry primary batteries are manufactured, and that the act cannot be construed as authorizing industry-wide rates. In accordance with this interpretation, counsel urged the Secretary to establish prevailing minimum wage rates for (1) "cities wherein the population is in excess of 50,000; next the Secretary should fix a differential

for those manufacturers located in towns under 50,000 population," or (2) "use an area definition which will specify that a rate is applicable to all manufacturers located in metropolitan areas, such as Chicago, and to all adjoining and contiguous counties, with a lesser rate applicable to all other counties in the state."

Labor representatives at the hearing presented arguments to show that the statutory language and the purpose of the Public Contracts Act require a construction which would permit recognition of an industry-wide minimum, and that the factors present in the Battery Industry require that a single industry-wide minimum be recognized in this case.

Counsel's argument that section 1 (b) of the act requires that minimum rates be established for each small geographic area in which dry primary batteries are manufactured, and that the act cannot be construed as authorizing industry-wide rates, is without merit. The United States Court of Appeals for the District of Columbia in Mitchell v. Covington Mills, 229 F. 2d 506, certiorari denied, 76 S. Ct. 546, has recently confirmed the Secretary's long-standing interpretation of the act, holding that an industry-wide determination is authorized, if not required, where the competition is industry-wide. The court further stated that to fix separate minima according to the wages that prevail in each separate community would freeze the competitive advantage of concerns operating in low wage communities and defeat the purpose of the act.

Counsel's suggestion to determine prevailing minimum wages based upon population or upon metropolitan and rural areas, where the competition is industry-wide, as here, would have the effect of freezing the competitive advantages of manufacturers operating in low wage communities, and must be rejected.

5. *Nature and adequacy of wage data.* The wage data presented at the hearing consist primarily of a survey of the battery industry conducted and prepared by the Bureau of Labor Statistics (hereinafter referred to as BLS). This survey included all establishments and separate departments of establishments primarily engaged in the manufacture of batteries and employing five or more workers. The survey includes separate tabulations for the manufacture of lead acid storage batteries, dry primary batteries, and other batteries.

Of the plants and departments studied, the Bureau of Labor Statistics survey includes 171 of an estimated total of 176 lead acid storage battery establishments, 28 of an estimated total of 28 dry primary establishments, and 10 of an estimated total of 11 other battery establishments studied. These establishments account for 99.8 percent of the 10,207 covered workers in the lead acid storage battery establishments, and 98.4 percent of the 1,284 covered workers in the other battery establishments.

A review of the survey and the evidence adduced at the hearing indicated a need for a supplemental tabulation showing the lowest rate paid to all covered workers irrespective of work experience. In order to correct the situation and in accordance with section 7 (d) of the Administrative Procedure Act, I hereby take official notice and make part of the record Supplemental Government Exhibit Table 8 (hereinafter referred to as BLS Table 8) prepared by the Bureau of Labor Statistics. This table is composed of a combination of the data contained in Tables 3 and 3–A which indicate the wages paid to experienced workers (excluding apprentices and beginners) and beginners, and which were included in the survey prepared by the Bureau of Labor Statistics accepted into evidence at the hearing. Additional copies of Supplemental Government Exhibit Table 8 are available and will be furnished interested parties upon request.

In addition to the above survey, the record contains exhibits introduced by labor representatives indicating minimum job rates in plants with which they have contracts, wage increases in these plants which have been negotiated and are in effect since the Bureau of Labor Statistics survey, and the estimated cost of selected fringe benefits in effect in various plants with which they have contracts.

The only wage data presented by management representatives consisted of a comparison of straight-time hourly rates for telephone operators in Freeport and Chicago, Illinois, and wage information for various manufacturing industries taken from the Daily Labor Reporter of April 27, 1955.

Upon a review of the entire record, I find that the evidence of record is sufficient to determine the prevailing minimum wage for the Battery Industry.

6. *Recommendations on prevailing minimum wages.* A minimum rate of not more than $1.00 per hour was recommended by the management representatives who testified at the hearing. The proposal was based on the Fair Labor Standards Act minimum of $1.00 per hour effective March 1, 1956, as well as data included in the Bureau of Labor Statistics survey. Management representatives contended that Bureau of Labor Statistics Table 6 presented the only pertinent wage data as the other tabulations reported average hourly earnings, including incentive payments.

The AFL and IBEW proposed a minimum of $1.24 for the dry primary battery branch, $1.51 for the lead acid storage branch, and $1.33 for the other battery branch of the industry. These proposals were based upon an analysis of Bureau of Labor Statistics Tables 2, 2A, 2C, 5, 5A, and 5B and the inclusion of an estimated 6 cent increase since the date of the survey, based upon Bureau of Labor Statistics Earnings and Hours data and changes in union contract rates. They also recommended that these rates be adjusted to include any additional increases occurring before the date of the determination.

The IUE (CIO) proposed a minimum of at least $1.50 per hour for lead acid storage batteries and based their proposal upon data shown in Bureau of Labor Statistics Tables 2, 3, 4A, and 5 and an estimated 7-cent increase since November 1954 based upon Bureau of Labor Statistics monthly wage data reports. Reference was also made to contract rates in IUE (CIO) plants. This union has no contracts in dry primary battery plants but suggested a minimum of at least $1.25 per hour for dry primary batteries. They also proposed that plants making other batteries be classified as storage or primary and included in the respective branches.

The UAW (CIO) recommended a minimum of at least $1.50 per hour for lead acid storage batteries and $1.24 per hour for dry primary batteries with fringe benefits to be added. They proposed that plants in the other batteries be separated into storage and dry primary batteries and combined with the respective groups. The $1.50 per hour minimum proposed for lead-acid storage batteries was justified on three bases: (1) Union contract minimum rates; (2) the cluster theory applied to Bureau of Labor Statistics data; and (3) the lowest rate paid by about half of the establishments with about half of the workers, as shown in Bureau of Labor Statistics Tables 3 and 5. A 7-cent increase since November 1954 was included in the above proposed $1.50 rate, based upon Bureau of Labor Statistics monthly data (November 1954–July 1955) and on the basis of wage increases reflected in union contracts which have become effective and also those which will become effective before the date of the determination. The $1.24 rate proposed for dry primary batteries was based upon data shown in BLS Tables 2 and 5A and includes a 6-cent increase since November 1954, based upon BLS Earnings and Hours data.

7. *Lead acid storage batteries branch—Analysis of wage data.* The labor representatives contended that BLS Table 3 justifies a finding of $1.43 and $1.45 as the prevailing minimum wage rates for the lead-acid storage batteries branch. However, Table 8 shows that only about 38 percent of the establishments in this branch paid a minimum wage to covered workers of as much as $1.43 per hour. Their contention also finds no support in the evidence as to the lowest job rates and the lowest hiring rates in the plants reporting each type. Lowest established job rates of $1.43 or more were shown by only 44.7 percent of the 114 establishments reporting such rates (BLS Table 4A), and lowest established hiring rates of $1.43 or more per hour in only 27 percent of the 122 plants reporting hiring rates (BLS Table 4).

On the other hand, 51.7 percent of the 176 lead-acid storage battery plants in this branch employing 77 percent of all the covered workers in the branch (exclusive of beginners and apprentices) paid all of their covered workers at least $1.35 per hour in November 1954 (BLS Table 5).

Bureau of Labor Statistics Table 3A indicates that only 25 percent of the 176 lead-acid storage battery plants employed beginners. Fifty-two percent of these 44 plants, employing 58 percent of the 2,243 covered workers in such plants, paid all beginners more than $1.35.

Consideration has also been give to the lowest established job rates in lead-acid storage battery plants, although some reported rates may not have been paid recently. Fifty-two percent of the establishments having established job rates reported rates of $1.35 per hour or more (BLS Table 4A). Of the 8,666 covered workers employed in these 114 establishments, 77 percent are employed in establishments reporting rates of $1.35 per hour or more.

Fifty-nine percent of the 7,523 covered workers employed in the 122 plants reporting established hiring rates for beginners, were employed in establishments with hiring rates of $1.35 or more (BLS Table 4).

IBEW Exhibit No. 1 shows that only one of the 12 plants having agreements with this union had a minimum hiring rate in November 1954 below $1.35, the others ranging from $1.49 to $1.59 per hour. Minimum job rates in the 12 establishments varied from $1.40 to $1.69. Of the 19 establishments for which minimum hourly rates are shown in UAW Exhibit G, only one had a non-incentive rate below $1.35 per hour, and that rate applied to a janitor in a plant with approximately 10 workers. The record indicates that all except one of the plants with IUE contracts had lowest job rates in excess of $1.50 in November 1954; and three plants had hiring rates below $1.50.

Further evidence of the prevalence of the $1.35 per hour minimum rate is shown by BLS Table 8, which indicates the minimum wages paid to all employees, irrespective of work experience. This table shows that 48.3 percent of the lead-acid storage battery plants which employ approximately 74 percent of all the covered workers in the Branch pay no worker, regardless of work experience, less than $1.35 per hour. Bureau of Labor Statistics Tables 2, 2B and 7 show that 92.4 percent of the covered workers received straight-time average hourly earnings of $1.35 per hour or more in November 1954.

The evidence submitted by the Labor representatives further strengthens the conclusion that the prevailing minimum wage rate for the manufacture of lead-acid storage batteries is not less than $1.35 per hour. The union contract data seem to justify an increase of at least six cents (since the date of the survey) for plants having union contracts, but very limited information appears in the record with reference to wage increases in other plants. This being the case, and since the number of plants represented by the unions is a relatively small proportion of the total of 176 establishments, I conclude that these data are inadequate for determining the amount of change in hourly wage rates since November 1954, the date of the survey.

The Labor representatives also used as the basis of their recommendations the BLS Earnings and Hours data published monthly, pointing out that these data also indicate a six-cent increase in gross hourly earnings since the date of the survey. A change in gross hourly earnings, however, does not necessarily reflect a change in minimum wages or even of wage rates exclusively, but may also result from variations in hours worked, employment, and shift premiums. For these reasons, I find that these data are also inadequate for determining what change, if any, has taken place in hourly wage rates since November 1954, the date of the survey.

Accordingly, based upon substantial evidence of record I find that the prevailing minimum wage in the lead-acid storage battery branch of the industry is $1.35 per hour.

8. *Dry primary batteries branch—Analysis of wage data.* The prevailing minimum rate of $1.18 per hour in November of 1954 as proposed by the labor representatives for employees working in dry primary battery plants is not supported by the BLS survey. Only 7 of the 28 establishments employing 28 percent of the covered workers paid all covered workers (exclusive of beginners and apprentices) $1.18 per hour or more (BLS tables 3). In addition, lowest established job rates of $1.18 per hour or more were reported by only 6 of the 28 plants (BLS Table 4A), and lowest established hiring rates of $1.18 or more, by only 3 of the 16 establishments reporting such rates (BLS Table 4). The contention of the labor representatives is not supported by substantial evidence.

The record indicates beginners are not widely employed in this branch of the industry, or substantially at wages below those paid experienced workers. BLS Table 8 shows the lowest wage rate actually paid all workers in this branch of the industry irrespective of work experience. This table shows that 53.6 percent of the plants employing 59 percent of the workers pay no worker, irrespective of work experience, less than $1.08 per hour.

Evidence submitted by the labor representatives of changes in hourly earnings occuring since the time of the survey may not be considered for the same reasons stated above in the discussion of the prevailing minimum wage rate for the lead-acid storage battery branch of the industry.

Accordingly, based upon substantial evidence of record, I find that the prevailing minimum wage in the dry primary battery branch of the industry is $1.08 per hour.

9. *Other batteries branch—analysis of wage data.* Five (45.5 percent) of the 11 plants in this branch of the industry with 75.9 percent of the covered workers (excluding beginners and apprentices) paid all such workers $1.34 per hour or more in November 1954. Fifty percent of the 8 establishments reporting lowest established job rates reported rates also of $1.34 per hour or more (BLS Table 4A). These establishments accounted for 86.1 percent of the employment in the plants reporting lowest established job rates in this branch of the industry.

It is apparent from the record, that although beginners are not widely employed in this branch of the industry, those that are employed at wages considerably less than those paid experienced workers. This being the case and in order not to impose undue hardship upon the plants employing beginners at wages lower than those paid to experienced workers, a tolerance from the prevailing minimum rate for the employment of beginners is indicated.

A beginner for purposes of the BLS survey was defined as "a new plant employee hired at a rate lower than that established for a specific job during the period of time required to receive orientation or initial training for that job".

BLS Table 3A indicates that 4 out of the 11 plants in the other batteries branch-employed beginners. Three (75 percent) of these plants paid no beginners less than $1.15 per hour.

Table 4B is a tabulation showing the time required for beginners hired at the lowest hiring rate to reach the rate level of the lowest established job rate, by product. This table indicates that only four plants reported differentials between the lowest established hiring rate and the lowest established job rate. This table further indicates that in these four plants it took six months for the beginner to reach the level of the job rate. As the new worker experiences no such delay at all in reaching the established rate in the remainder of this branch of the industry, it appears that a three-month tolerance for beginners would be the determination which would be least disruptive to employment practice in any part of this branch of the industry.

Accordingly, based upon substantial evidence of record I find that the prevailing minimum wage in the other battery branch of the industry for experienced workers is $1.34 per hour and I conclude, also, that the employment of beginners at subminimum rates should be authorized, and that a wage rate of $1.15 an hour, arrived at either on a time or incentive basis, for a period not to exceed three months, is appropriate and shall be permitted for beginners in the other battery branch of the battery industry.

Apprentices. The record indicates that there is no extensive employment of apprentices in this industry. However, it has consistently been the policy of the Department to encourage the training of workers in the skilled trades, and it appears appropriate and desirable to permit employment of bona fide apprentices at rates lower than $1.35 per hour in the lead-acid storage battery branch, $1.08 per hour in the dry primary battery branch, and $1.34 per hour in the other battery branch provided their employment is in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

10. *Proposed determination.* Accordingly, upon the findings and conclusions stated herein, and pursuant to authority under the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. sec. 35 et seq.), and in accordance with the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 237), notice is hereby given that I propose to amend Title 41 of the Code of Federal Regulations, Part 202, by the addition of § 202.54 (41 CFR Part 202) to read as follows:

§ 202.54 *Battery industry*—(a) *Definition.* (1) The lead-acid storage battery branch of the battery industry is defined as that industry which manufactures or furnishes lead-acid storage batteries or parts therefor.

(2) The dry primary battery branch of the battery industry is defined as that

industry which manufactures or furnishes dry primary batteries.

(3) The other battery branch of the battery industry is defined as that industry which manufactures or furnishes all batteries and parts therefor, other than (i) lead-acid storage batteries and dry primary batteries, and their parts, and (ii) glass containers and porcelain covers for wet primary batteries.

(b) *Minimum wages.* (1) The minimum wage for persons employed in the manufacture or furnishing of products of the lead-acid storage battery branch of the battery industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.35 per hour arrived at either on a time or piece rate basis.

(2) The minimum wage for persons employed in the manufacture or furnishing of products of the dry primary battery branch of the battery industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.08 per hour arrived at either on a time or piece rate basis.

(3) The minimum wage for persons employed in the manufacture or furnishing of products of the other battery branch of the battery industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.34 per hour arrived at either on a time or piece rate basis.

(c) *Tolerances.* (1) Beginners as defined in this paragraph may be employed in the other battery branch of the battery industry at wages of not less than $1.15 per hour, arrived at either on a time or piece rate basis. A beginner for the purpose of this section is a person who has had less than three months' experience in the plant in which he is employed.

(2) Apprentices may be employed at wages less than $1.35 per hour in the lead-acid storage battery branch, $1.08 per hour in the dry primary battery branch, and $1.34 per hour in the other battery branch, upon the same terms and conditions as are prescribed for the employment of apprentices by the regulations of the Administrator of the Wage and Hour Division of the United States Department of Labor (29 CFR Part 521), under section 14 of the Fair Labor Standards Act. The Administrator of the Public Contracts Division is authorized to issue cerificates under the Public Contracts Act for the employment of apprentices in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

Within thirty days from the date of the publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed actions above described. Exceptions should be addressed to the Secretary of Labor, United States Department of Labor, Washington 25, D. C.

Signed at Washington, D. C., this 9th day of August 1956.

JAMES P. MITCHELL,
Secretary of Labor.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 231, 239, 271, 274]

COMMISSION'S STATEMENT OF POLICY WITH RESPECT TO USE, FORM AND CONTENT OF SALES LITERATURE EMPLOYED IN SALE OF INVESTMENT COMPANY SECURITIES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposed revision of the Statement of Policy adopted by the Commission August 11, 1950, and effective January 31, 1955 (20 F. R. 791), and that a public hearing on the proposed revision will be held in Room 193 at its office, 425 Second Street NW., Washington, D. C., on November 15, 1956, at 10:00 a. m.

The Statement of Policy sets forth the respects in which the Commission considers that literature used in connection with the sale of investment company shares may be misleading and violate the standards of the securities acts which, generally speaking, provide that it shall be unlawful to offer or sell securities by means of any untrue statement or omission of a material fact or by any fraudulent or deceitful practice or device.

Since the amendments to the Statement of Policy adopted on January 31, 1955, the Commission has received requests from representatives of the National Association of Securities Dealers, Inc. and other investment company businesses to revise the Statement in a manner which would permit greater latitude in the preparation of illustrative charts and tables. The Commission has considered the various suggestions received and has concluded it would not be appropriate to adopt these proposals at this time.

The Commission has reviewed sales literature used in the sale of the securities of investment companies since the revision of the Statement of Policy on January 31, 1955. As a result of its study, the Commission has decided to propose certain revisions to the Statement of Policy which it is believed would eliminate many of the problems which presently exist. The proposed revisions relate to the manner of presentation in chart or tabular form of the results of an assumed investment in the shares of an investment company.

One of the underlying purposes of the Statement of Policy is to prevent the practice of combining investment income, securities profits and changes in asset value of shares for the purpose of portraying a purported overall result, in terms of a rate of return or a percentage yield on the original investment. Thus, the Statement of Policy declares that it is misleading to combine into any one amount distributions from net investment income with distributions from any other source. The Commission believes the suggested revisions should reinforce these principles by requiring that charts or tables show separately the three elements involved in investment company performance—namely, investment income, capital gains distributions and asset value reflecting unrealized appreciation or depreciation.

Briefly stated, the proposed revision would restate paragraph (j) of the Statement of Policy so as to require that any chart or table depicting the record of an assumed investment shall show separately, and not in any combination, changes in net asset value of the original investment at year-ends, amounts of dividends from net investment income and amounts of distributions from capital gains paid in any year. The Statement of Policy as presently in effect permits use of a chart showing the cumulative amount of distributions from capital gains as an addition to, and thus in combination with, the line showing changes in net asset value of the original investment. The proposed revision requires that such distributions be shown only in a separate bar chart in the same manner as distributions from net investment income.

The proposed revision also requires that any chart or table showing either the record of an assumed investment or of a company shall be prepared on a basis which does not assume reinvestment of investment income or capital gains distributions. The restriction presently in the Statement of Policy limiting charts or tables to a period of not more than ten years would be eliminated. The rate of return represented by the dividends from net investments income paid during each period will be required to be shown in prospectuses and in sales literature as a percentage of the average monthly offering price for that period.

In addition, the Commission proposes to eliminate the provisions of paragraph (n) (4) of the Statement of Policy, which presently permits use of summary tables showing the results of a plan under which dividends from investment income are assumed to be reinvested.

The Commission has also proposed a new paragraph (s) of the Statement of Policy which would require investment companies to point out that capital gains distributions are taxable to stockholders, whether received in cash or reinvested in additional shares of the investment company, and that such distributions may represent a return of capital and not a gain in or increase over the capital investment made by the stockholder in the shares of the investment company.

In connection with the foregoing proposed revision, the Commission is also considering a proposed revision and consolidation of Forms N-8B-2 and N-8B-3 (§§ 274.12 and 274.13) and a proposed revision of Form S-6 (§ 239.16) under the Securities Act of 1933 as amended.

1. Paragraph (j) of the Statement of Policy as proposed to be revised will read as follows:

(j) (1) To use any chart designed to depict the record of an assumed investment in the shares of an investment company over a specific period of time unless it is prepared in accordance with the following:

(i) Such chart shall be drawn to scale which shall be shown on the left-hand side of the chart and the same scale shall be used for all segments of the chart. The period covered by the chart shall be the life of the company or the immediately preceding ten years, provided that periods longer than ten years may be used if such additional periods are in multiples of five years and provided that a portion of the current year may be added to the period ended with the last fiscal or calendar year.

(ii) The initial asset value and the maximum selling commission currently in effect shall be shown separately in a single bar, drawn to scale, at the left side of the chart together with the total cost of the investment. In addition a line showing the amount of the total investment shall be drawn across the face of the chart.

(iii) Figures shall be placed on the chart giving the net asset values at each year-end.

(iv) Dividends from investment income for each year depicted and the total thereof shall be shown on a non-reinvested basis in a separate bar chart drawn to the same scale used in showing net asset value. The percentage rate of return computed as prescribed in paragraph (a) (1) hereof shall also be shown for each year covered by the chart or table.

(v) Distributions from profits realized upon the sale of securities or other realized capital gains for each year depicted and the total thereof shall be shown on a non-reinvested basis in a separate bar chart drawn to the same scale used in showing net asset value.

(vi) The text and graphic detail shall be as shown on Sample Chart A,[1] except that any reasonable paraphrase may be used. Such chart, however, shall not be captioned or characterized as the record of the fund. Charts may be set up in amounts other than the $10,000 shown on the sample chart, or on a per share basis. Appropriate footnotes may be used to show that the selling commission on single purchases over certain figures is less than the gross selling commission shown in the bar on the left side of the chart.

Any table containing the same information and covering the same period of time as set forth above as to charts may also be used. Any table designed to depict a continuous investment program shall be prepared on a basis which does not assume reinvestment of investment income or capital gains distributions, shall be based on the actual offering prices of the shares of a particular investment company and shall show the total cumulative payments at each year end, the asset value at year end, annual amounts of investment income and capital gains distributions and the aggregate amount of each for the entire period.

(2) To use any chart or table depicting the record of an investment company (as distinguished from charts or tables depicting assumed investment experience covered in (j) (1) above) over a specific period of time other than the following:

(i) A single chart as shown in Sample Chart B[1] depicting the net asset value per share at year ends (either calendar or fiscal). Such a chart may cover the life of the company or periods of ten years or longer provided such additional periods are in multiples of five years and provided that a portion of the current year may be added to the period ended with the last fiscal or calendar year. Such a chart shall show annual distributions per share from net investment income and from capital gains on a non-cumulative and non-reinvested basis in tabular form beneath the base line of the chart.

(ii) A statistical table covering the life of the company or periods of ten years or longer, provided such periods are in multiples of five years, which shows the following information as of each year-end or for each year (either calendar or fiscal) covered for a share outstanding throughout the year: net asset value at beginning of year, effect of changes in realized and unrealized gains (or losses) on portfolio securities during year, distributions of capital gains, net investment income, dividends from net investment income, net asset value at end of year, shares outstanding at end of year, and may include the number of shares outstanding, number of shareholders and total net assets at end of year.

Such chart or table shall also show for each year covered the percentage rate of return from dividends from net investment income computed as prescribed in paragraph (a) (1) hereof.

(3) To use any chart or table in which investment income payments or capital gains distributions are shown on a reinvested basis.

2. Paragraph (s) as proposed will read as follows:

(s) To discuss or refer to capital gains, securities profits or other capital distributions without pointing out—

(1) That such distributions are taxable to the security holder whether received in cash or property or reinvested in additional stock of the investment company; and

(2) That such distributions may represent a return of capital and not a gain in or increase over the capital investment made by the stockholder in the shares of the investment company and that such distributions are taxable to the stockholder even though they represent a return of capital.

Any person interested in presenting his views on the proposed revision of the Statement of Policy at the public hearing should, not later than 5:30 p. m., on November 12, 1956, submit to the Commission, in writing, a statement of his intention to appear at the hearing, together with a written statement of his views, and should limit his request for time to make oral presentation so as to provide an opportunity for all interested persons to be heard.

In addition all other interested persons are invited to submit their views and comments on the proposed revision, in writing, to the Securities and Exchange Commission, Washington 25, D. C., on or before October 31, 1956. Except where it is requested that such communications not be disclosed, they will be considered available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

AUGUST 8, 1956.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 1705-6]

AIRFREIGHT RATE CASE

NOTICE OF HEARING

In the matter of minimum rates for airfreight forwarders.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 403, 404, and 1002 of said act, that a public hearing in the above-entitled proceeding will be held September 5, 1956, at 10 a. m., e. d. s. t., in room No. 5132, Commerce Building, Constitution Avenue between Fourteenth and Fifteenth Streets NW., Washington, D. C., before Examiner Herbert K. Bryan.

Without limiting the scope of the issues, particular attention will be directed to the following matters:

1. Whether the existing minimum rates and charges for transportation of airfreight as provided in order No. E-1639, as amended, should be prescribed for airfreight forwarders, and

2. If existing minimum rates and charges for the transportation of airfreight should not be made applicable to airfreight forwarders, what are the fair and reasonable minimum rates and charges for transportation of airfreight by airfreight forwarders?

Notice is further given that any interested person, other than parties of record, desiring to be heard regarding

[1] Filed as part of the original document.

the issues consolidated in this proceeding must file with the Civil Aeronautics Board on or before September 5, 1956, a statement setting forth the matters of fact or law upon which he desires to be heard.

Dated at Washington, D. C., August 13, 1956.

[SEAL] THOMAS L. WRENN,
Acting Chief Examiner.

[F. R. Doc. 56-6639; Filed, Aug. 15, 1956; 8:57 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[60471]

UTAH

POWER SITE RESERVE NO. 7 ADJUSTMENT

AUGUST 10, 1956.

The land description in Power Site Reserve No. 7, which was created by Executive order of July 2, 1910, so far as it affects the lands described in sections 18, 19, and 30, T. 3 S., R. 21 E., S. L. M., Utah, is hereby conformed to existing plats of survey to read as follows:

SALT LAKE MERIDIAN

T. 3 S., R. 21 E.,
Sec. 18, lots 1, 2, 3, and 4;
Sec. 19, lots 1, 2, 3, and 4;
Sec. 30, lots 5, 6, 7, 8, 9, 15, NW¼NE¼, NE¼SW¼.

The areas described aggregate 501.88 acres.

EARL J. THOMAS,
Acting Director.

[F. R. Doc. 56-6587; Filed, Aug. 15, 1956; 8:47 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

Bureau of Land Management has filed an application, Serial No. Fairbanks 012558, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining laws but excluding the mineral leasing laws and the disposal of materials under the Materials Act. The applicant desires the land for camping, picnicking and other public recreational purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SLIME CREEK AREA

An area surrounding a portion of Slime Creek at approximately mile 9 of the McKinley Park-Cantwell Road as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and more particularly described as follows:

Beginning at a point in the center of the McKinley Park-Cantwell Road at approximate latitude 63°30'36" N., longitude 148° 48'44" W. as shown on the 1952 edition of the U. S. G. S. topographic quadrangle Healy (C–4) Alaska, approximately one chain northerly of the intersection of said road with Slime Creek; thence 15 chains southerly along the centerline of said road; thence east 8 chains; thence northerly parallel to the centerline of said road 15 chains; thence west 8 chains to the center of said road and the point of beginning.

Aggregating approximately 12 acres.

TWO-TOM OR TWIN LAKES

An area situated between the Two-Tom or Twin Lakes which are located at about mile 7.5 of the Denali Highway as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and more particularly described as follows:

Beginning at a point on the north shore of the southernmost of the two lakes at approximate latitude 63°23'45" N., longitude 148°40'0" W., where the longitudinal bearing intersects the shoreline of the said lake and as shown on the 1951 edition of the U. S. G. S. topographic quadrangle designated Healy (B–4), Alaska; thence westerly along the edge of this lake 15 chains; thence north approximately 15 chains to the south shore of the northernmost of the two lakes; thence easterly along the south shore of the said lake approximately 15 chains to a point directly north of the point of beginning; thence south approximately 10 chains to the point of beginning.

Containing approximately 18.7 acres.

UNNAMED CREEK AT MILE 14.75

An area surrounding the crossing of an unnamed creek by the Denali Highway at approximately mile 14.75 as measured from the intersection of the McKinley Park-Summit-Denali Highway roads more particularly described as follows:

Beginning at a point in the center of the Denali Highway where it crosses an unnamed creek at approximate latitude 63°23'02" N., longitude 148°25'56" W., and as shown on the 1952 edition of the U. S. G. S. topographic quadrangle designated Healy (B–3), Alaska; thence southerly along the west bank of the creek 5 chains; thence westerly parallel with the centerline of the Denali Highway 5 chains; thence north 5 chains to the centerline of the Denali Highway; thence north 5 chains; thence easterly parallel with the centerline of the Denali Highway 5 chains; thence south 5 chains to the centerline of the Denali Highway and the point of beginning.

Containing approximately 5 acres.

LILLY CREEK AREA

An area bordering Lilly Creek and a small tributary thereof where they are crossed by the Denali Highway at approximately mile 23 as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and more particularly described as follows:

Beginning at a point on the centerline of the Denali Highway where it crosses Lilly Creek at approximate latitude 63°20'07" N., longitude 148°16'11" W., and as shown on the 1952 edition of the U. S. G. S. topographic quadrangle designated Healy (B–3), Alaska; thence northwesterly along the centerline of the Denali Highway approximately 10 chains to its intersection with the tributary of Lilly Creek; thence northeasterly downstream along the southern bank of said tributary to its confluence with Lilly Creek; thence southeasterly upstream along the southern bank of Lilly Creek to its crossing by the Denali Highway and the point of beginning.

Containing approximately 2.5 acres.

SEATTLE CREEK AREA

An area abutting the Denali Highway at Seattle Creek at approximate mile 24 as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and more particularly described as follows:

Beginning at a point on the centerline of the Denali Highway where it crosses Seattle Creek at approximate latitude 63°19'31" N., longitude 148°14'48" W., and as shown on the 1952 edition of the U. S. G. S. topographic quadrangle designated Healy (B–3), Alaska; thence northwesterly along the centerline of the Denali Highway 5 chains; thence north 60° E. 5 chains; thence southeasterly parallel to the centerline of the Denali Highway 24 chains; thence south 60° W. approximately 5 chains to a point on the centerline of the Denali Highway; thence northwesterly along said centerline approximately 19 chains to the point of beginning.

Containing approximately 12 acres.

BRUSHKANA CREEK

An area situated on the west side of Brushkana Creek and north side of the Denali Highway at the highway crossing which is located approximately mile 30.5 as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and more particularly described as follows:

Beginning at a point on the centerline of the Denali Highway on the west bank of Brushkana Creek at the Highway bridge crossing situated at approximately latitude 63°17'22" N., longitude 148°03'45" W., and as shown on the 1952 edition of the U. S. G. S. Topographic Quadrangle designated Healy (B–3), Alaska; thence northwesterly along the centerline of the Denali Highway 10 chains; thence N. 18°30' E. 41 chains approximately to a point on the west bank of the Brushkana Creek; thence southwesterly upstream along said west banks approximately 65 chains to the centerline of the Denali Highway at the bridge crossing and the point of beginning.

Containing approximately 65 acres.

CANYON CREEK AREA

An area adjoining the south side of the Denali Highway at its crossing of Canyon Creek approximately at mile 40.5 as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and more particularly described as follows:

Beginning at a point on the centerline of the Denali Highway where it intersects Canyon Creek at approximate latitude 63°14'46" N., longitude 147°48'04" W., as shown on the 1952 edition of the U. S. G. S. topographic quadrangle Healy (A–2), Alaska; thence southerly along the centerline of said Highway 10 chains; thence west to a point situated on the west side of Canyon Creek, 5 chains; thence northerly parallel to the centerline of the Denali Highway, 10 chains; thence east approximately 5 chains to the centerline of the Highway and the point of beginning.

Containing approximately 5 acres.

CONSTANCE CREEK AREA

An area adjoining the south side of the Denali Highway at its crossing of a stream locally known as Constance Creek at approximate mile 107 as measured from the intersection of the McKinley Park-Summit-Denali Highway roads and about 3.5 miles west of the Tangle Lakes Bridge and more particularly described as follows:

Beginning at a point on the centerline of the Denali Highway where it intersects the west bank of Constance Creek at approximate latitude 63°04'15" N., longitude 146°06'12" W., as shown on the 1952 edition of the U. S. G. S. topographic quadrangle Mount Hayes (A–5), Alaska; thence southerly meandering the west bank of said creek 12 chains; thence north 45° W. and approximately parallel with the Highway 20 chains; thence north 45° E. 8 chains approximately to a point on the centerline of the said Highway; thence approximately south 45° E. along the centerline of the Highway approximately 11 chains to the point of beginning.

Containing 12.4 acres.

Aggregating in total 8 sites containing approximately 132.60 acres.

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

Territorial Department of Lands has filed an application, Serial No. Anchorage 032306, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including mining and mineral leasing laws. The applicant desires the land for its archaeological and historical values and the preservation thereof.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

YUKON ISLAND

Beginning at a point situated at mean high tide on the west side of Yukon Island in Kachemak Bay, Alaska, at approximate latitude 59°31'45" N., longitude 151°30'15" W., thence S. 70° E., 25 chains; thence S. 20° W. 30 chains; thence N. 70° W. 23 chains, approximately to the line of mean high tide; thence northerly along the line of mean high tide approximately 35 chains to the point of beginning.

Containing approximately 57 acres.

ROGER R. ROBINSON,
Operations Supervisor.

ALASKA

REVOCATION OF ORDERS OPENING LANDS UNDER FOREST HOMESTEAD ACT

AUGUST 8, 1956.

Upon request of the Department of Agriculture and pursuant to the authority delegated by Departmental Order No. 2583, section 2.22 (a) of August 16, 1950, it is ordered as follows:

Subject to valid existing rights the orders described below opening lands in the Tongass National Forest for entry under the act of June 11, 1906 (34 Stat. 233; 16 U. S. C. 506–509) as amended, are hereby revoked as to the lands hereinafter described:

LIST NO. 8–16; DATE OF ORDER OF OPENING, JUNE 9, 1922

Lands described in Homestead Entry Survey No. 164, containing 66.03 acres.

LIST NO. 8–100; DATE OF ORDER OF OPENING, OCTOBER 22, 1926

Beginning at Corner H–1, M. C., which is identical with F. S. M. located at line of mean high tide on east bank of large stream flowing into Tenakee Inlet, approximate latitude 57° 54' N., longitude 135° 44' W., thence
N. 59° W., 33.50 chains to Corner H–2;
S. 74° 30' W., 11.30 chains to Corner H–3;
S. 56° 30' W., 29.90 chains to Corner H–4;
S. 58° 30' E., 34.50 chains to Corner H–5, M. C.; thence by meander along N. W. bank of aforesaid stream
N. 0° 45' E., 16.20 chains;
N. 81° E., 16.00 chains;
S. 70° E., 14.60 chains;
N. 41° E., 8.70 chains to Corner H–1, the place of beginning.

The area described contains 102.09 acres.

LIST NO. 6–2074; DATE OF ORDER OF OPENING, SEPTEMBER 9, 1919

Beginning at Corner No. 1, identical with Forest Service Monument, consisting of a hewn post marked FSMH/1, situated on a knoll on the west bank of creek opposite a wooded point in Snook Bay, Baranof Island, Alaska, approximate latitude 57°24' N., longitude 135°12' W., thence
S. 88° W., 17.38 chains;
S. 34° 30' E., 26.60 chains;
S. 17.50° E., 11.16 chains;
N. 67° E., 7.68 chains;

thence meandering along west bank of creek.

N. 36° E., 5.75 chains;
N. 4° 30' W., 4.67 chains;
N. 18° 30' W., 3.63 chains;
N. 23° W., 2.75 chains;
N. 24° 30' W., 2.34 chains;
N. 32° W., 4.28 chains;
N. 35° 30' W., 2.75 chains;
N. 50° W., 3.29 chains;
N. 24° W., 3.79 chains to the place of beginning.

The area described contains 45.92 acres.

EARL J. THOMAS,
Acting Director.

Bureau of Reclamation

AMERICAN RIVER DIVISION, CENTRAL VALLEY PROJECT, CALIFORNIA

ORDER OF REVOCATION

NOVEMBER 10, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of September 14, 1942, insofar as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

MOUNT DIABLO MERIDIAN, CALIFORNIA

T. 10 N., R. 9 E.,
Sec. 10, NW¼NE¼.

The above area aggregates 40 acres.

E. G. NIELSEN,
Assistant Commissioner.

[70171]

AUGUST 10, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

1. The lands are grazing lands in the north central portion of Sonoma County, California.

2. No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

3. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m., on September 15, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., on December 15, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 15, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

5. The lands have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on December 15, 1956.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

EARL J. THOMAS,
Acting Director,
Bureau of Land Management.

FEDERAL POWER COMMISSION

[Docket No. E-6702]

SOUTHERN NEVADA POWER CO.

NOTICE OF APPLICATION

AUGUST 13, 1956.

Take notice that on August 9, 1956, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Southern Nevada Power Co. ("Applicant"), a corporation organized under the laws of the State of Nevada and doing business in said State, with its principal business office at Las Vegas, Nevada, seeking an order authorizing the issuance and sale by competitive bidding $4,000,000 principal amount of its First Mortgage Bonds, Series C due 1986. Applicant also proposes to issue First Mortgage Bonds, 4¾ Percent Series due 1983 and 4¼ Percent Series B due 1984 in exchange for and in all respects identical in terms with its First Mortgage Bonds, 4¾ Percent Series due 1983 and First Mortgage Bonds, 4¼ Percent Series B due 1984, respectively, outstanding except to the extent that the outstanding First Mortgage Bonds shall be changed by the execution of the Second Supplemental Indenture. Applicant will give holders of its outstanding First Mortgage Bonds notice of the proposed changes, but does not presently propose any exchange of physical certificates evidencing bonds. Applicant believes the proposed issue of 4¾ Percent Series Bonds due 1983 and the 4¼ Percent Series B Bonds due 1984 constitutes an issuance pro rata to existing holders of its First Mortgage Bonds pursuant to a reorganization. The proceeds from the proposed issuance and sale of its First Mortgage, Series C due 1986, applicant states, will provide funds for its construction program for the year 1956.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 29th day of August, 1956, file with the Federal Power Commission's Rules of Practice and Procedure. The application is on file and available for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-10564]

N. B. HUNT

ORDER AMENDING ORDER SUSPENDING PROPOSED CHANGES IN RATES

N. B. Hunt (Applicant), on May 14, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges were contained in the following designated filings which were proposed to be made effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date

Contract dated March 6, 1956, Supplemental Agreements dated August 1, 1952, January 26, 1954, and April 15, 1955; notice of change, dated May 14, 1956; Texas-Illinois Natural Gas Pipeline Co.; Applicant's FPC Gas Rate Schedule No. 8[1] and Supplements 1, 2, 3, and 4; June 14, 1956.

By order issued herein on June 13, 1956, the Commission suspended the above-designated rate schedule and supplements and deferred the use thereof until November 14, 1956, and such further time as they are made effective in the manner prescribed by the Natural Gas Act. In its said order the Commission provided, among other things, that neither the Rate Schedule nor the Supplements thereby suspended should be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission. On July 9, 1956, Applicant, pursuant to the above-stated proviso, filed a "Request For Permission To Amend Notice Of Change" wherein Applicant requested permission to substitute its "Amended Notice of Change" filed also on July 9, 1956, and designated by the Commission as Supplement No. 5 to Applicant's FPC Gas Rate Schedule No. 8, for the "Notice of Change" designated as Supplement No. 4 to the same rate schedule and theretofore filed on May 14, 1956.

The Commission finds: Good cause exists to permit the substitution of Supplement No. 5 for Supplement No. 4 to Applicant's FPC Gas Rate Schedule No. 8: *Provided, however,* That the said Supplement No. 5 be suspended and the use thereof deferred in the same manner and to the same extent as provided by the order issued herein on June 13, 1956 with respect to Supplement No. 4 to Applicant's said rate schedule.

The Commission orders:

(A) The "Amended Notice of Change" filed herein by Applicant on July 9, 1956, and designated as Supplement No. 5 to Applicant's FPC Gas Rate Schedule No. 8, be and it is hereby accepted for filing in substitution for Supplement No. 4 to the said rate schedule. Said Supplement No. 4 is hereby superseded.

(B) Supplement No. 5 to Applicant's FPC Gas Rate Schedule No. 8 be and it hereby is suspended and the use thereof deferred until November 14, 1956, and until such further time as it may be made effective in the manner prescribed by the Natural Gas Act.

(C) Except as hereby amended, the Order Suspending Proposed Changes In Rates, issued herein on June 13, 1956, shall remain in full force and effect.

Issued: August 9, 1956.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56-6595; Filed, Aug. 15, 1956; 8:48 a. m.]

[Docket No. G-10876]

SKELLY OIL CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

On July 16, 1956, Skelly Oil Company (Skelly) tendered for filing Supplements Nos. 2 and 3 to its FPC Gas Rate Schedule No. 89, applicable to its sales of natural gas to Permian Basin Pipeline Company for resale.

Under the present contract between Skelly and Permian, gas from the Lovington Gasoline plant in Lea County, New Mexico, is sold to Permian at a contract price of 10.5124 cents per Mcf measured at a pressure base of 15.025 psia.

Skelly states that both parties to the contract agreed that if Skelly would extend its gathering lines of its Lovington Plant and would purchase the additional casinghead gas thereby made available, and sell the residue gas therefrom to Permian under the subject rate schedule, the contract measurement pressure base would be reduced from 15.025 psia to 14.65 psia. The effect of such change is to increase the price for gas from 10.5124 cents per Mcf to 10.7815 cents per Mcf measured at the old pressure base of 15.025 psia. Skelly requests that the change in the contract measurement pressure base be made effective July 16, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in the Natural Gas Act, particularly sections 4, 5, 15 and 16 thereof, and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the increased rates and charges proposed; and, pending such hearing and decision thereon, the above-designated supplements are hereby suspended and the use thereof deferred until January 16, 1957, and until such further times as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplements hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: August 10, 1956.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56-6596; Filed, Aug. 15, 1956; 8:49 a. m.]

[Docket No. G-10883]

PHILLIPS PETROLEUM CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Phillips Petroleum Company (Applicant) on July 13, 1956, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Designation; and Effective Date[1]

Notice of change dated July 10, 1956; Panhandle Eastern Pipeline Company; Supplement No. 22 to Applicant's FPC Gas Rate Schedule No. 5; August 13, 1956.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until September 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: August 10, 1956.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 112]

COLORADO

DECLARATION OF DISASTER AREA

Whereas it has been reported that from July 26, 1956, through July 29, 1956, because of the disastrous effects of floods, damage resulted to residences and business property located in certain areas in the State of Colorado:

Whereas the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) (1) of the Small Business Act of 1953, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in the following counties (including any areas adjacent to the counties below named) suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of Denver, Jefferson, Arapahoe, and Morgan.

Small Business Administration Regional Office, New Customhouse, Room 235, 19th and Stout Streets, Denver 2, Colorado.

2. No special field office will be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to February 28, 1957.

Dated: August 2, 1956.

[SEAL] WENDELL B. BARNES,
Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 59-88; 59-9; 54-173]

PHILADELPHIA CO.

ORDER PURSUANT TO SECTIONS 1081 THROUGH 1083, AND 4382 (b) OF INTERNAL REVENUE CODE

AUGUST 10, 1956.

Philadelphia Company ("Philadelphia") is a registered holding company under the Public Utility Holding Company Act of 1935 ("act") and a subsidiary of Standard Gas and Electric Company and Standard Shares Inc. (the latter being formerly known as Standard Power and Light Corporation), both of which are also registered holding companies.

On June 1, 1948, the Commission issued its Findings, Opinion and Order, pursuant to sections 11 (b) (1) and 11 (b) (2) of the act, directing, among other things, the liquidation and dissolution of Philadelphia. Thereafter Philadelphia effectuated various steps toward compliance with the Commission's order and on August 3, 1956, advised the Commission, pursuant to Rule U-44 (c) promulgated under the act, that it proposes to sell non-utility property, consisting of a parking lot at 609 Grant Street, Pittsburgh, Pa., to a non-affiliated purchaser for a cash consideration of $167,000.

Philadelphia proposes to apply the proceeds of the sale, or an amount equal thereto, to the payment and retirement of a like principal amount of a note or notes then owing to Mellon National Bank and Trust Company, which bank loan is presently represented by a note of Philadelphia in the principal amount of $1,000,000 maturing August 21, 1956.

Philadelphia has requested the Commission to enter an order herein effective forthwith, containing the recitals required by sections 1081 through 1083 and section 4382 (b) (2) of the Internal Revenue Code.

The Commission having considered the request of Philadelphia and deeming it appropriate that an order, as requested, should issue:

It is ordered, That this order become effective upon issuance.

It is further ordered and recited, That the transfers, conveyances, sales, expenditures, investments and receipts hereinafter described and recited in subparagraphs I and II below, are hereby authorized and approved, and are necessary and appropriate to the integration and simplification of the holding company system of which Philadelphia is a member, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and the orders of the Commission previously entered thereunder, all in accordance with the meaning and requirements of sections 1081 through 1083 of the Internal Revenue Code and section 4382 (b) (2) thereof, the stock and securities and other property to be transferred, conveyed, sold or received upon such transactions, and the expenditures and investments to be made, being specified and itemized as follows:

I. The sale by Philadelphia of the real property owned by it, located at 609 Grant Street, Pittsburgh, Pa., and recently used as a parking lot, for $167,000 in cash, and the transfer and conveyance of said property to the purchaser pursuant to said sale and the receipt by Philadelphia of the purchase price therefor.

II. The payment and expenditure by Philadelphia of the entire $167,000 to be received by it upon the sale specified in subparagraph I above, or an amount equal thereto, in and for the redemption, retirement and cancellation of a like principal amount of the note or notes then representing Philadelphia's bank loan from Mellon National Bank and Trust Company, which bank loan is presently represented by a note of Philadelphia in the principal amount of $1,000,000 maturing August 21, 1956.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 24D-1396]

URANIUM OXIDE PRODUCERS, INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 9, 1956.

I. Uranium Oxide Producers, Inc., a Delaware corporation with its principal office located at 11 West 42nd Street, New York 36, New York, having filed with the Commission on August 24, 1954, a notification on Form 1-A and an offering circular relating to an offering of 4,500,000 shares of its 1 cent par value common stock, such stock to be offered at 5 cents per share for an aggregate of $225,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file reports on Form 2-A required by Rule 224 under Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this Order of Suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 24D-1874]

DIX URANIUM CORP.

NOTICE OF AND ORDER FOR HEARING

AUGUST 9, 1956.

Dix Uranium Corporation, Provo, Utah, having filed with the Commission on August 10, 1955, a notification on Form 1-A and an offering circular relating to a proposed public offering of 6,000,000 shares of 5 cents par value common stock at 5 cents per share, and having filed certain amendments thereto, for the purpose of obtaining an exemption from the registration provisions of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

The Commission, on June 25, 1956, having issued an order pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933 temporarily suspending the exemption under Regulation A and affording to any person having any interest therein an opportunity to request a hearing pursuant to said Rule 223, and a written request for a hearing having been received by the Commission on August 3, 1956, from the corporation; and

The Commission deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption:

It is hereby ordered, That a hearing under the applicable provisions of the Securities Act of 1933 and the rules of the Commission be held on August 17, 1956, at 10:00 a. m., m. s. t., at the Denver Regional Office of the Commission, at Room 573, New Customhouse, 19th and Stout Streets, Denver, Colorado, with respect to the following specified matters and questions, without prejudice, however, to the specification of additional issues which may be present in these proceedings:

1. Whether the terms and conditions of Regulation A have been complied with by Dix Uranium Corporation.

2. Whether the notification and offering circular are false and misleading in naming Weber Investment Company as the principal underwriters; in omitting to state that Ruth J. Rains was intended to act as the principal underwriter; and in omitting to state that Ruth J. Rains was not registered with the Commission as a broker-dealer.

3. Whether the offering circular is false and misleading in stating, "The Underwriter agrees to use its best efforts to sell such stock directly and through securities dealers registered in Nevada and such other states wherein this offer-

ing has been registered and cleared for sale," and in omitting to state that the State of Nevada does not register securities dealers or securities being offered for sale in such state.

4. Whether the offering circular is false and misleading in omitting to state that Weber Investment Company, named as underwriters therein, ceased its underwriting business in July 1955, and withdrew its registration with the Commission as a broker-dealer effective November 23, 1955.

5. Whether the issuer has failed to file a report on Form 2–A of sales of securities being offered, as required by Rule 224.

6. Whether the order dated June 25, 1956, suspending the exemption under Regulation A with respect to Dix Uranium Corporation should be vacated or made permanent.

It is further ordered, That Maurice Miller or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing, and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 19 (b), 21 and 22 (c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That any person who desires to be heard or otherwise wishes to participate in such hearing shall file with the Secretary of the Commission on or before August 15, 1956, a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–3493]

COLUMBIA GAS SYSTEM, INC., AND COLUMBIA GAS SYSTEM SERVICE CORP.

ORDER AUTHORIZING OPEN-ACCOUNT ADVANCES BY PARENT TO SUBSIDIARY FOR CONSTRUCTION OF OFFICE BUILDING

AUGUST 10, 1956.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its wholly-owned subsidiary service company Columbia Gas System Service Corporation ("Service") have filed a joint declaration and an amendment thereto pursuant to section 12 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-45 thereunder, with respect to the following proposed transaction:

Columbia will advance to Service, on open account as required, not to exceed $1,500,000 for the construction of an office building at Marble Cliff, near Columbus, Ohio. Each several advance will bear interest from the date advanced at 3¾ percent per annum.

The building will be erected for the purpose of consolidating in suitable quarters at one location the departments of Service located in Columbus, Ohio. Upon completion of the building, Service plans either (i) to sell the building to a non-affiliate and lease it back on a long-term contract, or (ii) to finance the building on a long-term basis through the sale of securities to Columbia; at which time Service will repay to Columbia the open-account loan proposed herein together with $95,000 heretofore advanced on open-account by Columbia for the purchase of the building site. It is stated that, to the extent that the Commission has jurisdiction over the final transaction, applications relating thereto will be filed with the Commission.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56–6608; Filed, Aug. 15, 1956; 8:51 a. m.]

[File No. 70–3496]

APPALACHIAN ELECTRIC POWER CO.

ORDER GRANTING APPLICATION REGARDING ISSUANCE AND SALE OF NOTES TO BANKS

AUGUST 9, 1956.

Appalachian Electric Power Company ("Appalachian"), a public utility subsidiary of American Gas and Electric Company ("American"), a registered holding company, has filed an application, and an amendment thereto, with this Commission pursuant to the first and second sentence of section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transactions:

Appalachian has orally established a line of credit with each of the following banking institutions under which it proposes to borrow from time to time, prior to June 30, 1957, not in excess of $26,000,000:

Irving Trust Co., New York, N. Y.	$5,000,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	5,000,000
First National City Bank of New York, New York, N. Y.	5,000,000
Manufacturers Trust Co., New York, N. Y.	5,000,000
Guaranty Trust Co. of New York, New York, N. Y.	3,000,000
Bankers Trust Co., New York, N. Y.	2,200,000
The Hanover Bank, New York, N. Y.	800,000
Total	26,000,000

Of the $26,000,000 proposed to be borrowed Appalachian has, at June 30, 1956, borrowed $10,000,000 from such banks and has issued notes in evidence thereof. This amount and additional borrowings of $6,000,000 are stated to be exempt from section 6 (a) of the act by the first sentence of section 6 (b) thereof.

Appalachian now requests approval for additional borrowings under the above line of credit in an amount not to exceed $10,000,000, such borrowings to be evidenced by Notes to be dated as of the date of the borrowings and to mature not more than 270 days after the date of issuance. The Notes are to bear interest from the date thereof at the then current prime rate, which is presently 3¾ percent per annum, and may be prepaid from time to time, in whole or in part, without premium.

According to the filing, Appalachian's outstanding notes payable to banks at the time of its next permanent financing will be paid off from the proceeds of such financing which is expected to occur prior to April 30, 1957.

The proceeds from the notes will be used by Appalachian to pay part of the costs of its construction program estimated to amount to $38,534,000 in 1956 and $55,444,000 in 1957.

The expenses to be incurred by Appalachian are estimated at not in excess of $500. No fees, commissions or other expenses are to be paid except that routine services incident to the proposed transactions will be performed by the service company for the American system.

The Virginia State Corporation Commission has issued an order authorizing the proposed transactions. It is represented that no other State commission or Federal agency, other than this Commission, has jurisdiction over the proposed transactions.

Notice of the filing of the application having been duly given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing having been requested of or ordered by the Commission; and

It appearing that the fees and expenses to be incurred in connection with the proposed transactions are not unreasonable if they do not exceed the estimates set forth above; and the Commission observing no basis for adverse findings, or for the imposition of terms and conditions, other than those contained in Rule U-24, and finding that the applicable provisions of the act and of the rules thereunder are satisfied, and deeming it appropriate in the public interest and the interest of investors and consumers that the application as amended be granted forthwith:

It is ordered, Pursuant to section 6 (b) of the act and Rule U-23 thereunder, that the application as amended be, and it hereby is, granted forthwith, so that the borrowing permitted by the first and second sentences of section 6 (b) is hereby increased to $26,000,000, the authorization for such increase to terminate on April 30, 1957.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order SA–84]

PRECISION TOOL AND MACHINE CO., LTD.

In re: Debt owing to the Precision Tool and Machine Company, Ltd., (Praecisios Szerszam es Gepgyar Rt.), also known as Precision Tool Factory (Precizios Keziszerszamgyar). F–34–239.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363) and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York 15, New York, arising out of an account entitled, "Mr. George J. Binet, Special Account, Brimfield, Massachusetts," maintained by the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the Precision Tool and Machine Company, Ltd., (Praecisios Szerszam es Gepgyar Rt.), also known as Precision Tool Factory (Precizios Keziszerszamgyar), Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

FIRST HUNGARIAN GENERAL ASSURANCE CO.

In re: Debt owing to the First Hungarian General Assurance Company, also known as Erste Ungarische Allgemeine Assecuranz Gesellschaft. F-34-1018.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National City Bank of New York, 55 Wall Street, New York 15, New York, arising out of an account entitled, "Erste Ungarische Allgemeine Assecuranz Gesellschaft," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is and as of September 15, 1947, was, owned directly or indirectly by the First Hungarian General Assurance Company, also known as Erste Ungarische Allgemeine Assecuranz Gesellschaft, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

[SEAL] HERBERT BROWNELL, Jr.,
Attorney General.

[Vesting Order SA-89]

GELDINSTITUTS-ZENTRALE

In re: Securities owned by Geldinstituts-Zentrale. F34-1682; F62-478.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955, (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows:

a. Two thousand eight hundred and thirty-nine (2,839) Uniform Certificates of Deposit for Kreuger & Toll Company (Aktiebolaget Kreuger & Toll) 5 percent Secured Sinking Fund Gold Debentures (Depositary—Guaranty Trust Company of New York) bearing the numbers UNRM 8319, 16860, 17034/71035, 17497, 23546/23555, 24004, 24469/24478, 24488/24500, 24501/24506, 24546/24562, 24594/24634, 24702/24711, 24767/24773, 24775/24779, 24790/24797, 24780/24789, 24988/25012, 25115/25117, 25686/25691, 25789/25791, 25934, 26030/26032, 26243, 26376/26380, 26461/26463, 26469/26470, 26519, 26501/26518, 25723/25772, 27505/27510, 28160, 28505, 28764/28818, 28834/28899, 28972/28981, 29126/29138, 29266/29271, 29333/29343, 29358/29382, 29395/29402, 29462/29495, 29528, 29637/30343, 30344/30599, 30745/30994, 32076/32100, 32106/32114, 32234, 32241/32365, 32421/2, 32504/32513, 32789/ 32796, 32486/32498, 32910/32916, 33402/33403, 33407/33412, 33475/33487, 33517/33518, 33617/33619, 33651, 33786/33788, 33190/33219, 33228/33246, 33252, 33255/33259, 33261/33269, 33281/33299, 33315/33316, 33342/33343, 33345/33353, 33384/33386, 33401, 33068/33087, 33103/33162, 33170/33189, 32433/32434, 32852/32883, 33002/33067, 32884/32899, 32917/32984, 33092/33096, 33168, 32423/32432, 33794, 33801, 33853, 33857/8, 33860/33954, 34470 at $1,000; UNRD 6499/6509, 6659/6672, 6677/6692, 6698/6699, 6957/7113, 7114/7136, 7163/7184, 6859/60, 7224/5, 7242/7243, 7265/7268, 7288/7309, 7323/7387, 7429/7434, 7581/7582, 7589/7590, 7631/7640, 7645/7652, 7766/7769, 7780/7791, 7794/7799, 7803/7804 at $500, said certificates registered in the name of and presently in the custody of J. & W. Seligman & Co. in an account entitled "Skandinaviska Banken Aktiebolag, Stockholm, Sweden Blocked Account," together with any and all rights thereunder and thereto,

b. Forty-five (45) Class A Certificates of Deposit for Kreuger & Toll Company (Aktiebolaget Kreuger & Toll) 5 Percent Secured Sinking Fund Gold Debentures (Depositary—Guaranty Trust Company of New York) at $1,000 each bearing the numbers AM 29061/29065, 29150, 29279/29286, 28819/28833, 29040/29049, 28524/28529, registered in the name of and presently in the custody of J. & W. Seligman & Co. in an account entitled "Skandinaviska Banken Aktiebolag, Stockholm, Sweden Blocked Account," together with any and all rights thereunder and thereto,

c. One hundred and seventy-eight (178) Certificates of Deposit for Kreuger & Toll Company 5 Percent Secured Sinking Fund Gold Debentures dated March 1, 1929 (Depositary—Title Guarantee and Trust Company) bearing the numbers 1857/1878, 1882/1942, 1944/5, 1947 2034, 2041/2 at $1,000; 1881, 2036 and 2043 at $500, registered in the name of and presently in the custody of J. & W. Seligman & Co. in an account entitled "Skandinaviska Banken Aktiebolag, Stockholm, Sweden Blocked Account," together with any and all rights thereunder and thereto,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Geldinstituts-Zentrale, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

NATIONAL BANK OF ROUMANIA

In re: Debt owing to National Bank of Roumania, also known as Banque Nationale de Roumanie and as Banca Nationale a Roumaniei. F-57-85; F-27-6440.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Agency of The Royal Bank of Canada, 68 William Street, New York 5, New York arising out of an account entitled, "Banque de Paris et des Pays Bas, Amsterdam, Netherlands," maintained at the aforesaid bank, together with any and all rights to demand enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned by the National Bank of Roumania, also known as Banque Nationale de Roumanie and as Banca Nationale a Roumaniei, Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

[SEAL] HERBERT BROWNELL, Jr.,
Attorney General.

NATIONAL BANK OF ROUMANIA

In re: Debt owing to National Bank of Roumania, also known as Banque Nationale de Roumanie and as Banca Nationale a Roumaniei. F-57-85; F-27-6440.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The Hanover Bank, 70 Broadway, New York 15, New York, in the sum of $893.22, being a portion of an account entitled, "The Banque de Paris et des Pays Bas, Amsterdam, Holland," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the National Bank of Roumania, also known as Banque Nationale de Roumanie and as Banca Nationale a Roumanici, Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

> Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

Washington, Friday, August 17, 1956

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lime Order 3, Amdt. 2]

PART 1001—LIMES GROWN IN FLORIDA

QUALITY AND SIZE REGULATION

Findings. 1. Pursuant to the marketing agreement and Order No. 101 (7 CFR Part 1001) regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this regulation relieves restriction on the handling of limes.

It is, therefore, ordered, That the provisions in subparagraph (2) (ii) of paragraph (b) of § 1001.303 (Lime Order 3, as amended; 21 F. R. 5033, 5821) are hereby amended to read as follows:

(ii) Any container of limes grown in the State of Florida, except the area west of the Suwannee River, of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) unless the limes in such container grade at least U. S. Combination Turning, and are of a size not smaller than 1⅝ inches in diameter: *Provided,* That, not to exceed 5 percent, by count, of the limes in any container may be smaller than 1⅝ inches in diameter; or

Effective time. The provisions of this amendment shall become effective at 12:01 a. m., e. s. t., August 18, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 15, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter IV—Foreign-Trade Zones Board

[Order 42]

PART 400—GENERAL REGULATIONS GOVERNING FOREIGN-TRADE ZONES IN THE UNITED STATES, WITH RULES OF PROCEDURE

ORGANIZATION OF BOARD

Pursuant to the provisions of section 8 of the Foreign-Trade Zones Act of June 18, 1934 (48 Stat. 1000; 19 U. S. C. 81h), the General Regulations Governing Foreign-Trade Zones in the United States, with rules of procedure (15 CFR Part 400), are hereby amended as follows:

Amend § 400.1301 to read as follows:

§ 400.1301 *Organization of the Board.* The Secretary, as Chairman of the Board, shall designate an Executive Secretary of the Foreign-Trade Zones Board. The duties of the Executive Secretary shall be to arrange meetings of the Board, to keep accurate minutes of the Board's deliberations, to direct the execution of the orders of the Board, to initiate recommendations to the Board for uniform procedures and practices in the several zones, to make periodic inspections of the zones, and to perform such other duties as are required by the Secretary of Commerce as Executive Officer of the Board, and as the Board may direct. The Executive Secretary is au-

thorized to appoint staff members, including an Assistant Executive Secretary who will assist him generally and act for him in his absence. All records of the Board will be maintained in the office of the Executive Secretary.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1003) is unnecessary in connection with the issuance of this order, because its application is restricted to the administrative functions of the Foreign-Trade Zones Board, and is of a nature that it imposes no burden on the parties of interest. The effective date of this order is, therefore, upon publication in the FEDERAL REGISTER.

(Sec. 8, 48 Stat. 1000; 19 U. S. C. 81h)

Signed at Washington, D. C. this 10th day of August 1956.

FOREIGN-TRADE ZONES BOARD,
[SEAL] SINCLAIR WEEKS,
Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Attest:
JOSEPH M. MARRONE,
Executive Secretary.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1956 CCC Cotton Bulletin 1, Amdt. 3]

PART 427—COTTON

SUBPART—1956 COTTON LOAN PROGRAM

SCHEDULE OF EFFECTIVE MINIMUM LOAN RATES FOR ELIGIBLE QUALITIES OF 1956-CROP EXTRA LONG STAPLE COTTON

In order to provide for increased loan rates on 1956-crop extra long staple cotton because the parity price for extra long staple cotton as of the beginning of the marketing year (August 1, 1956) is higher than the parity price used to compute the loan rates heretofore published, § 427.732 (b) of the regulations issued by Commodity Credit Corporation and the Commodity Stabilization Service, published in 21 F. R. 3856 and containing the instructions and requirements with respect to the 1956 Cotton Loan Program, is hereby amended to read as follows:

(b) *Schedule of minimum loan rates (in cents per pound net weight) for eligible qualities of 1956-crop extra long staple cotton*—(1) *American-Egyptian cotton.*

Grade	(Staple length (inches))					
	1⅜		1⅜₁₆		1½ and longer	
	Arizona and California	New Mexico and Texas	Arizona and California	New Mexico and Texas	Arizona and California	New Mexico and Texas
1	56.97	57.37	60.02	60.42	61.37	61.77
2	55.97	56.37	59.12	59.52	60.52	60.92
3	54.42	54.82	57.47	57.87	59.37	59.77
4	50.42	50.82	53.87	54.27	55.82	56.22

PART 427—COTTON

SUBPART—1956 COTTON LOAN PROGRAM

SCHEDULE OF BASE LOAN RATES BY COUNTIES FOR FARM-STORED UPLAND COTTON

The 1956 Cotton Loan Bulletin (1956 CCC Cotton Bulletin 1) is hereby amended by adding § 427.734 to read as follows:

§ 427.734 *Basic loan rates for farm-stored upland cotton.* The base loan rates applicable to Middling White 1-inch upland cotton, under Commodity Credit Corporation's 1956 Cotton Loan Program, are as follows:

[All rates expressed in cents per pound, gross weight, basis Middling White 1-inch cotton]

ALABAMA

In all counties east of De Kalb, Marshall, Blount, St. Clair, Shelby, Coosa, Elmore, Macon, Bullock, and Barbour — 33.44

ALABAMA—Continued

In the counties of De Kalb, Marshall, Blount, St. Clair, Shelby, Coosa, Elmore, Macon, Bullock, and Barbour — 33.34
In the counties of Madison, Jackson, Morgan, Cullman, Jefferson, Bibb, Chilton, Autauga, Montgomery, Pike, Coffee, Dale, Henry, Geneva, and Houston — 33.24
In the counties of Limestone, Lawrence, Winston, Walker, Fayette, Tuscaloosa, Hale, Perry, Dallas, Lowndes, Butler, Crenshaw, and Covington — 33.14
In the counties of Lauderdale, Colbert, Franklin, Marion, Lamar, Pickens, Greene, Sumter, Marengo, Choctaw, Wilcox, Monroe, Clarke, Washington, Escambia, and Conecuh — 33.04
In the counties of Mobile and Baldwin — 32.96

ARIZONA

In the county of Greenlee — 32.17
In the counties of Cochise and Graham — 32.07
In all counties not listed above — 31.90

ARKANSAS

In the counties of Craighead, Crittenden, Cross, Greene, Lee, Mississippi, Monroe, Poinsett, St. Francis, and Woodruff — 32.84
In the county of Phillips — 32.83
In the counties of Arkansas, Clay, Cleveland, Desha, Jackson, Jefferson, Lawrence, Lincoln, Lonoke, Prairie, Pulaski, and White — 32.82
In the county of Chicot — 32.81
In all counties not listed above — 32.79

CALIFORNIA

In all counties — 31.90

FLORIDA

In all counties east of Jackson, Liberty, and Franklin — 33.34
In the counties of Bay, Calhoun, Franklin, Gulf, Holmes, Jackson, Liberty, and Washington — 33.24
In the county of Walton — 33.14
In the county of Okaloosa — 33.04
In the counties of Santa Rosa and Escambia — 32.96

GEORGIA

In all counties east of Union, Lumpkin, Dawson, Forsyth, Gwinnett, Walton, Morgan, Putnam, Hancock, Jefferson, Glascock, and Burke — 33.64
In all counties except Dade and counties having a rate of 33.64 north of Stewart, Webster, Sumter, Dooly, Wilcox, Telfair, Wheeler, Montgomery, Toombs, Tattnall, Evans, and Bryan — 33.54
In the county of Dade and all counties south of Chattahoochee, Marion, Schley, Macon, Houston, Pulaski, Dodge, Laurens, Treutlen, Emanuel, Candler, Bulloch, Effingham, and Chatham, and north of Quitman, Randolph, Calhoun, Baker, Mitchell, Colquitt, Cook, Berrien, Atkinson, Ware, Pierce, Brantley, and Glynn — 33.44
In all counties south of Stewart, Webster, Terrell, Dougherty, Worth, Tift, Irwin, Coffee, Bacon, Appling, Wayne, and McIntosh — 33.34

Subchapter D—Regulations Under Soil Bank Act

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

The regulations contained herein govern the 1957 acreage reserve part of the Soil Bank Program.

Sec.

485.201 Definitions.
485.202 Purpose of the acreage reserve program.
485.203 Administration.
485.204 Availability.
485.205 Eligible commodities.
485.206 "New farm allotments"; "new producers" not eligible.
485.207 National acreage reserve goals.
485.208 State and county allocations of funds.
485.209 Limits on extent of participation.
485.210 Acreage Reserve Agreement.
485.211 Reduction of acreage.
485.212 Designation and use of acreage reserve.
485.213 Compliance with acreage allotments.
485.214 Amount of compensation.
485.215 Rate of compensation per acre.
485.216 Commodity base unit rates.
485.217 Method of determining normal yield.
485.218 Determination of acreage and extent of calculations.
485.219 Division of compensation between landlords, tenants, and sharecroppers.
485.220 Additional provisions relating to tenants and sharecroppers.
485.221 Manner of compensation.
485.222 Time of compensation.
485.223 Set-offs.
485.224 Successors-in-interest.
485.225 Assignments.
485.226 Schemes or devices to defeat purposes of agreement.
485.227 Violations of agreement.
485.228 Penalty for grazing or harvesting.
485.229 Compensation not subject to claims.
485.230 Access to farm and records.
485.231 State Committee approval of determinations of county committees.
485.232 Finality of determinations.
485.233 Effect on acreage allotment and marketing quota programs.

AUTHORITY: §§ 485.201 to 485.233 issued under sec. 124, Pub. Law 540, 84th Cong. Interpret or apply secs. 101-106, 114-123, Pub. Law 540, 84th Cong.

§ 485.201 *Definitions.* As used in §§ 485.201 to 485.233 and in all agreements, forms, documents and procedures in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings:

(a) "Act" means the Soil Bank Act (70 Stat. 188).

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer, employee, or other representative of the United States Department of Agriculture acting in his stead pursuant to delegated authority.

(c) "Administrator" means the Administrator, Commodity Stabilization Service, United States Department of Agriculture.

(d) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(e) "Director" means the Director, or Acting Director, of the Soil Bank Division, Commodity Stabilization Service, United States Department of Agriculture.

(f) "State" means any one of the continental United States.

(g) "County" means county or parish. The extra long staple cotton producing areas located in the northern part of Puerto Rico shall be considered a county, and the extra long staple cotton producing areas located in the southern part of Puerto Rico shall be considered a county.

(h) "Community committee" means the group of persons elected within a community as the community committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees.

(i) "County committee" means the group of persons elected within a county as the county committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county committees. In Puerto Rico, "county committee" means the ASC Caribbean Area Committee.

(j) "State committee" means the group of persons designated for a State by the Secretary as the Agricultural Stabilization and Conservation State Committee. In Puerto Rico, "State committee" means the ASC Caribbean Area Committee.

(k) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, or any agency thereof. The term "person" shall include two or more persons having joint or common interest.

(l) "Cash tenant," "standing-rent tenant," or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a fixed amount of a commodity to be paid as rent.

(m) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crop or the proceeds thereof.

(n) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(o) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(p) "Producer" means any person who is an owner or a landlord, cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, sharecropper, or a person who furnishes water for a share of the crop.

(q) "Farm" means all adjacent or nearby farm or rangeland under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or rangeland which the county committee determines is operated by the same person as a part of the same unit in producing range livestock, or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(r) "Cropland" means farmland which in 1956 was tilled or was in regular crop rotation, including also land which was established in permanent vegetative cover, other than trees, since 1953, and which was classified as cropland at the time of seeding, but excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable non-crop open pasture, and (3) any land which constitutes or will constitute if tillage is continued, an erosion hazard to the community.

(s) "Commercial corn-producing area" means the area designated by the Secretary for the 1957 crop of corn pursuant to section 301 (b) (4) of the Agricultural Adjustment Act of 1938, as amended.

(t) "Commercial wheat-producing area" means all areas except the area designated by the Secretary (21 F. R. 3305) pursuant to section 335 (e) of the Agricultural Adjustment Act of 1938, as amended.

(u) "Corn" means field corn, including sweet corn which is produced for feed or silage, planted alone or interplanted with other crops.

(v) "Cotton" means upland cotton and extra long staple cotton.

(w) "Commodity" means any one of the commodities listed in § 485.205.

(x) "Allotment" means the 1957 acreage allotment established for a farm for a particular commodity pursuant to the Agricultural Adjustment Act of 1938, as amended.

(y) "Soil Bank corn base" means the base acreage for 1957-crop corn established for a farm pursuant to section 103 (b) of the act.

(z) "Acreage reserve" means the tract or tracts of cropland designated in an acreage reserve agreement for a farm as being withdrawn from the production of a particular commodity.

(aa) "Agreement" means Form CSS-800-1 (Soil Bank—1957), "Soil Bank Acreage Reserve Agreement 1957."

§ 485.202 *Purpose of the acreage reserve program.* The purpose of the acreage reserve program is to assist producers to divert a portion of their cropland from the production of excessive supplies of agricultural commodities by compensating them for reducing their acreage below their allotment, or in the case of corn, their Soil Bank corn base or allotment, whichever is in effect.

§ 485.203 *Administration.* The 1957 acreage reserve program will be administered by the Commodity Stabilization Service under the general direction and supervision of the Administrator. In the field, the program will be carried out by State and county committees. Members of county committees are hereby authorized to sign agreements on behalf of the Secretary. State and county committees do not have authority to modify or waive any of the provisions of any agreement. Any authority herein delegated to the Administrator may also be exercised by the Deputy Administrator.

§ 485.204 *Area of availability.* The acreage reserve program will be available in the continental United States, and in the Commonwealth of Puerto Rico with respect to cotton.

§ 485.205 *Eligible Commodities.* The acreage reserve program provided for in §§ 485.201 to 485.233 shall apply to the 1957 crops of cotton, corn produced in the commercial corn-producing area, wheat produced in the commercial wheat-producing area, peanuts, rice, flue-cured tobacco, burley tobacco, Maryland tobacco, dark air-cured tobacco, fire-cured tobacco, Virginia sun-cured tobacco, cigar binder tobacco, types 51, 52, 54, and 55, and Ohio Cigar filler tobacco types 42, 43, and 44.

§ 485.206 *"New farm allotments"; "new producers" not eligible.* Producers on farms which receive allotments or Soil Bank corn bases as "new farms" under regulations governing the establishment of acreage allotments or Soil Bank corn bases for the 1957 crops, shall not be eligible for participation in the acreage reserve program with respect to such "new farm" allotments or Soil Bank corn bases. In the case of rice, producers who receive allotments as "new producers" under regulations governing the establishment of allotments for the 1957 crop of rice shall not be eligible to participate with respect to such rice allotments.

§ 485.207 *National acreage reserve goals.* (a) There is hereby established a national acreage reserve goal for wheat of 15,000,000 acres.

(b) National acreage reserve goals for commodities other than wheat will be established by the Secretary at a later date.

§ 485.208 *State and county allocations of funds.* (a) To give producers a fair and equitable opportunity to participate in the acreage reserve programs, State and county allocations of amounts which may be obligated for each commodity shall be established to govern the extent of participation by producers in each State and county.

(b) The State allocations, determined after taking into consideration the State acreage allotments, normal yields, the estimated extent of participation in the program by farmers, the supply and demand conditions for different classes, grades and quality of the commodity produced in several States, are specified in Appendix 1 set forth below. Any portion of the allocation for any State may be reapportioned by the Administrator to any one or more other States if it is determined by him that such action is necessary to achieve the national acreage goal or to give producers a fair and equitable opportunity to participate.

(c) County allocations shall be determined by the State committee, taking into consideration the same factors as provided in paragraph (b) of this section for State allocations. Any portion of the allocation for any county may be reapportioned by the State committee to any one or more other counties if it is determined by the State committee that such action is necessary to achieve the national acreage goal or to give producers a fair and equitable opportunity to participate.

§ 485.209 *Limits on extent of participation*—(a) *Maximum acreage.* The acreage for any commodity which may be placed in the acreage reserve for a farm may not exceed the allotment for the commodity, or in the case of corn, the Soil Bank corn base or allotment, whichever is in effect. Within such limitation, the acreage which may be placed in the acreage reserve may not exceed the following:

(1) *Wheat.* (i) Except as provided in subdivision (ii) of this subparagraph, the maximum acreage for wheat shall be (*a*) 50 acres, or (*b*) 50 percent of the allotment, whichever is larger. To the extent of the allocation to the county, agreements covering not more than such maximum acreage shall be entered into on a "first-come, first served" basis, i. e., in the order in which they are filed with the county committee.

(ii) In the event that allocations to the county are in an amount in excess of that required to cover all agreements filed with the county committee for an acreage not in excess of the maximum acreage specified in subdivision (i) of this subparagraph, producers who have indicated on the agreement a desire to place more than such maximum acreage in the program will be permitted to place additional acreage in the program, to such extent as may hereafter be authorized.

(2) *Commodities other than wheat.* The maximum acreage for commodities other than wheat will be specified in regulations to be issued at a later date.

(b) *Minimum acreage.* (1) The minimum acreage for wheat which may be placed in the acreage reserve for a farm shall be (i) three acres, or (ii) the allotment, whichever is smaller.

(2) The minimum acreage for commodities other than wheat will be specified in regulations to be issued at a later date.

§ 485.210 *Acreage Reserve Agreement.* (a) In order for producers on a farm to participate in the program, a Soil Bank Acreage Reserve Agreement 1957, Form CSS–800–1 (Soil Bank) must be entered into by the operator. In addition, if the operator is a share-tenant, the agreement must be signed by each person who as owner or landlord has control of the land on which the acreage reserve is located or the land on which the acreage of the commodity is being reduced, or who is to receive any compensation under the agreement.

(b) In the event that wheat is planted on a farm in the fall of 1956 and the producers wish to participate in the 1957 acreage reserve program for wheat, the agreement, signed by all producers on the farm who are required under paragraph (a) of this section to sign the agreement, must be filed with the county committee not later than September 21, 1956, except as provided in paragraph (e) of this section.

(c) In the case of commodities other than wheat, and in the case of wheat where no wheat was planted on the farm in the fall of 1956, an agreement, signed by all producers on the farm who are required under paragraph (a) of this section to sign the agreement, must, except as provided by paragraph (e) of this section, be filed with the county committee before any acreage of the 1957 crop of the commodity is planted on the farm, and not later than a date fixed by the State committee for the county or area in which the farm is located, which date shall be not later than the date planting of the commodity begins generally in the county or area. Information as to the date fixed for the county or area shall be available in the office of the county committee.

(d) In the case of wheat, if the operator has indicated on the agreement filed with the county committee his desire to place in the acreage reserve an additional acreage in excess of the maximum specified in § 485.209 (a), and the allocation made to the county is sufficient to permit additional acreage to be placed in the acreage reserve, the operator shall be notified, as soon as possible after the final date for filing agreements, of the amount of additional acreage which he may place in the acreage reserve. In order to place such additional acreage in the acreage reserve, the producers must sign a new agreement and file it with the county committee not later than ten days after the date that the notice to the operator was postmarked.

(e) If a person in addition to the operator is required to sign the agreement, but is not available for the signing of the agreement on or before the applicable final date specified in the preceding paragraphs of this section, the operator must sign the agreement and deliver a signed copy to the county committee not later than such applicable final date, and must obtain the signature of such other person and furnish the executed agreement to the county committee not later than 30 days after such applicable final date.

§ 485.211 *Reduction of acreage.* (a) The 1957 acreage of a commodity covered by an agreement must be reduced below the allotment, or, in the case of corn, the Soil Bank corn base or allotment, whichever is in effect.

(b) In the case of wheat, the producer shall not be limited with respect to the number of acres which he may plant. However, the producer must agree not to harvest an acreage of wheat which exceeds the allotment less the number of acres which the producer agrees to place in the acreage reserve. The acreage planted to wheat in excess of the number of acres which the producer may harvest must be disposed of in such manner that no part of the crop could be harvested therefrom. Such disposition must be accomplished in a manner which is permitted, and not later than the final disposition date fixed, for compliance with allotments for purposes of marketing quotas and price support: *Provided*, That wheat planted on the acreage reserve may not be cut for hay or otherwise harvested, or grazed, in 1957, except as provided in § 485.212 (e). Information as to the date fixed shall be available in the office of the county committee, and shall be obtained by the farm operator from such office. Failure to so dispose of the excess acreage shall constitute a violation of the agreement. Nothing in this paragraph shall be deemed to authorize the planting of wheat on the acreage reserve unless it is approved by the State and county committees for protective cover in accordance with § 485.212 (d).

(c) Provisions governing the reduction of acreage of commodities other than wheat will be published in regulations to be issued at a later date.

(d) Any producer who knowingly and wilfully harvests any crop from excess acreage in violation of the provisons of paragraph (b) of this section will be subject to the civil penalty specified in § 485.228.

§ 485.212 *Designation and use of acreage reserve.* (a) The tract or tracts of cropland constituting the acreage reserve for each commodity must be specifically designated in the agreement. The tract or tracts constituting the acreage reserve must have been devoted to the production of the commodity during one or more of the years 1952 through 1956, inclusive. The county committee shall have the right to reject the designation of tracts which are of such size or shape as to make it impracticable to determine performance of the agreement. The rates of compensation under the 1958 and 1959 acreage reserve programs shall be such as to provide an incentive for designating as the acreage reserve the same tract of land which is designated under the 1957 program.

(b) No crop shal be harvested from the acreage reserve in 1957: *Provided*, That such restriction shall not apply to a crop which matured and normally would be harvested in 1956 but was not harvested in 1956 due to conditions beyond the control of the operator.

(c) The acreage reserve shall not be grazed in 1957 unless the Secretary, after the Governor of the State in which the farm is located has certified that there is a need for grazing on the acreage reserve, determines that it is necessary to permit grazing thereon in order to alleviate damage, hardship or suffering caused by severe drought, flood, or other natural disaster and gives written consent to such grazing.

(d) No crop shall be planted on the acreage reserve in 1957 except (1) crops planted in the fall of 1957 for harvest in 1958 in areas where such crops would normally be planted in the fall of 1957 for harvest in 1958, and (2) crops approved by the State and county committees for protective cover. A crop approved for protective cover shall not be harvested after December 31, 1956. If a crop approved for protective cover, other than grasses, legumes, Sudan, broomcorn, or sweet sorghums, would mature as grain or seed in 1957, such crop shall be disposed of in such manner that no part of the crop can be harvested. Such disposition must be made not later than 15 days before harvesting of the crop begins in the area. If a grass, legume, Sudan, broomcorn, or sweet sorghums, approved for protective cover would mature as grain or seed in 1957 and would be in such condition that it could be harvested after December 31, 1957, such crop shall be disposed of in such manner that no part of the crop could be harvested. Such disposition must be made not later than the date fixed by the State committee for the area, which date shall not be later than November 30, 1957. Information as to crops approved for protective cover and the disposition dates, if any, for such crops shall be available in the office of the county committee, and shall be obtained by the farm operator from such office.

(e) In the event that, at the time the agreement is signed and filed with the county committee, there is growing on the acreage reserve any crop, such crop shall not be harvested and must be disposed of in such manner that no part of the crop can be harvested: *Provided*, That the foregoing shall not apply to (1) a crop which will be harvested, or under normal conditions would be harvested, before December 31, 1956, (2) an approved cover crop which need not be disposed of under the provisions of paragraph (d) of this section. Disposition must be made not later than the date fixed by the State committee for the area, which date shall be not later than 15 days before harvesting of the crop begins in the area, except that in the case of grasses, legumes, Sudan, broomcorn, and sweet sorghums, approved for protective cover, such date shall be not later than November 30, 1956. Information as to the crops required to be disposed of, and the disposition dates for such crops, shall be available in the office of the county committee and shall be obtained by the farm operator from such office.

(f) The producer shall, without reimbursement under the agreement take such steps as may be prescribed by the county committee to prevent the acreage reserve from becoming a source of spreading noxious weeds designated by the State committee. A list of such noxious weeds shall be available in the office of the county committee, and shall be obtained by the farm operator from that office.

(g) The acreage reserve shall be in addition to any acreage in the conservation reserve program.

§ 485.213 *Compliance with acreage allotments.* No person shall be eligible for compensation under the acreage reserve program with respect to any farm on which (a) the 1957 acreage of cotton, rice, or tobacco (including cigar binder tobacco, type 53) exceeds the allotment, or (b) the 1957 acreage of wheat, in the case of a farm in the commercial wheat-producing area, exceeds the larger of the allotment or 15 acres; or (c) the 1957 acreage of corn, in the case of a farm in the commercial corn-producing area, exceeds the Soil Bank corn base or allotment, whichever is in effect; or (d) the 1957 acreage of peanuts exceeds the larger of the allotment or one acre. For purposes of this provision, such acreage limitations shall not be deemed to have been exceeded unless under the rules and regulations governing eligibility for price support for such commodity such acreage limitations would be determined to have been knowingly exceeded.

§ 485.214 *Amount of compensation.* The amount of compensation payable for each commodity in the event there has been no violation of the agreement shall be determined by multiplying the rate of compensation per acre for the commodity, determined in accordance with § 485.215, by (a) the number of acres in the acreage reserve, or the number of acres which the producer has agreed to place in the acreage reserve, whichever is the smaller, less (b) the number of acres of new land brought into production on the farm: *Provided*, That no compensation will be paid for the particular commodity if the acreage so determined is below the minimum acreage which may be placed in the acreage reserve.

§ 485.215 *Rate of compensation per acre.* The rate of compensation per acre for the commodity shall be determined by multiplying the base unit rate for the commodity by the normal yield for the farm unless the county committee determines that the normal yield for the tract of land designated as the acreage reserve is less than the normal yield for the farm, in which case the rate of compensation shall be determined by multiplying the base unit rate for the commodity by the normal yield for the tract of land designated as the acreage reserve.

§ 485.216 *Commodity base unit rates.* The base unit rates for wheat are specified in Appendix 2 set forth below. The base unit rates for other commodities will be specified in regulations to be issued at a later date.

§ 485.217 *Method of determining normal yield.* (a) County normal yields for wheat shall be determined by the Administrator on the basis of the county average yields for wheat during the years 1945 through 1954, inclusive, adjusted for drought, flood, or other abnormal conditions. Community check yields for wheat shall be established by the county committee for communities or areas of the county as deemed necessary to reflect significant variations in the wheat yields between such communities or areas. Where reliable records of the actual average yield per acre for all of the ten years 1946 through 1955, inclusive, are presented by the farmer or are available to the county committee, the normal yield per acre of wheat for the farm shall be determined to be the average of such yields, adjusted for drought, flood, or other abnormal conditions, and trends in yields. If for any year of such 10-year period records of the actual average yield are not available, or there was no actual yield, the normal yield per acre of wheat for the farm shall be appraised by the county committee, taking into consideration drought, flood, or other abnormal conditions, the normal yield for the county (or community check yield if one is established), the yield in years for which data is available, the productivity of the land on the farm normally devoted to the production of wheat, and the farming practices of the operator. The wheat normal yield so established for the farm shall be subject to such adjustment as is necessary in order that wheat normal yields for all farms in the county, weighted by the wheat allotments, will not exceed the county normal yield for wheat.

(b) For commodities other than wheat, the normal yield for the farm will be determined in accordance with regulations to be issued at a later date.

(c) The normal yield for the tract of land designated as the acreage reserve shall be determined by the county committee on the basis of (1) the normal yield for the farm, and (2) any factors affecting yield which indicate that the productivity of the tract of land designated as the acreage reserve varies significantly from the productivity of the land on the form normally devoted to the commodity.

§ 485.218 *Determination of acreage and extent of calculations.* (a) The number of acres in the acreage reserve and the acreage by which the commodity is reduced below the allotment, or in the case of corn, the Soil Bank corn base or allotment, whichever is in effect, shall be determined in the same manner as acreage is determined in connection with allotment and marketing quota programs.

(b) The extent of calculations shall be as follows:

(1) The acreage of each type of tobacco shall be expressed in hundredths of an aere and fractions of less than a hundredth of an acre shall be dropped.

(2) The acreages of crops other than tobacco shall be expressed in tenths of an acre and fractions of less than one-tenth of an acre shall be dropped.

(c) In determining the acreage reserve for a commodity, the method of calculation set forth in paragraph (b) of this section for the commodity shall be followed.

§ 485.219 *Division of compensation between landlords, tenants, and sharecroppers.* The agreement entered into with the producers shall specify the basis

on which the landlords, tenants, and sharecroppers are to share in the compensation payable thereunder. The basis on which the tenants and sharecroppers share in such compensation must be approved by the county committee as being fair and equitable. In considering whether the tenants and sharecroppers will share in the compensation on a fair and equitable basis, the county committee shall give consideration to the respective contributions which would have been made by the landlord, tenants, and sharecroppers in the production of the crops which would have been produced on the acreage diverted from production under the agreement and the basis on which they would have shared in such crops or the proceeds thereof. In general, the basis for sharing compensation may be approved by the county committee if:

(a) The total compensation is allocated among the shares of the allotment or Soil Bank corn base for the commodity, which in the absence of participation in the acreage reserve program would be farmed by (1) a landowner, cash-tenant, or fixed-rent tenant, with his own labor or with hired labor other than sharecroppers, or (2) a share-tenant without the aid of any sharecropper, or (3) a sharecropper, in proportion to the number of acres contributed from each such share of the allotment or Soil Bank corn base to the acreage diverted from production under the agreement; and

(b) The share of the landlord, and operator, if other than the landlord, in the compensation allocated to any share of the allotment or Soil Bank corn base farmed by a tenant or sharecropper does not result in the landlord and operator receiving substantially in excess of the return they would have received if they were not participating in the acreage reserve program for furnishing the land and farm management less any savings in cost to them which result from not producing a crop on the acreage diverted from production and less the amount of any enhancement in value of the land diverted from production as a result of conservation practices carried out on such land.

§ 485.220 *Additional provisions relating to tenants and sharecroppers.* (a) No agreement with respect to any commodity shall be entered into with a producer if it shall appear:

(1) That the landlord or operator has not afforded his tenants and sharecroppers an opportunity to participate under the agreement in proportion to the number of acres in the respective shares of the allotment or Soil Bank corn base made available to such tenants or sharecroppers; or

(2) That the landlord or operator has, as a result of participation in the Soil Bank program, reduced the number of tenants and sharecroppers on the farm, or the shares of the allotment or Soil Bank corn base made available to such tenants or sharecroppers;

(3) That there exists between the operator or landlord and any tenant or sharecropper any lease, contract, agreement, or understanding, unfairly exacted or required by the operator or landlord and entered into in contemplation of the signing of any agreement hereunder, the effect or purpose of which is:

(i) To cause the tenant or sharecropper to pay over to the landlord or operator any compensation to be paid to him under the agreement; or

(ii) To change the status of any tenant or sharecropper in order to deprive him of any part of the compensation or any other right or privilege of his under the agreement to which his actual status with respect to the land prior thereto would have entitled him; or

(iii) To reduce the size of the tenant's or sharecropper's share of the allotment or Soil Bank corn base in contemplation of the signing of the agreement; or

(iv) To increase the rent to be paid by the tenant or decrease the share of the crop or its proceeds to be received by the sharecropper.

(4) That the operator or landlord has adopted any device or scheme of any sort whatever for the purpose of depriving any tenant or any sharecropper of his compensation or any other right under the agreement.

(b) The agreement shall be deemed to have been violated if any of the conditions set forth in paragraph (a) of this section are discovered after the signing of the agreement, or if, after the signing of the agreement, the producer enters into any lease, contract, agreement, or understanding with any tenant or sharecropper of the nature prohibited by paragraph (a) (3) of this section or adopts any scheme or device prohibited by paragraph (a) (4) of this section.

§ 485.221 *Manner of compensation.* Compensation will be paid to each producer entitled thereto through the issuance to such producer of negotiable certificates, redeemable by Commodity Credit Corporation. Such certificates will be redeemable in cash upon presentation by the producer to whom issued or any holder in due course at the Federal Reserve Bank or Branch Bank designated thereon. Such presentation should be made through regular banking channels. The designated Federal Reserve Bank or Branch will accept the certificates as cash items for immediate credit. In the case of certificates issued with respect to wheat, rice, and corn, the producer to whom the certificate is issued (but not any other person) may obtain redemption of such certificates in grain to the extent provided in regulations to be issued by the Secretary. Commodities delivered to producers in redemption of certificates shall not be eligible for tender to CCC under the price support program.

§ 485.222 *Time of compensation.* Certificates shall be issued to the producer or producers entitled thereto upon determination by the county committee that there has been compliance with the acreage reduction requirements of the program.

§ 485.223 *Set-offs.* If any producer to whom compensation is payable under the acreage reserve program is indebted to the United States Department of Agriculture, or any agency thereof including Commodity Credit Corporation, or is indebted to any other agency of the United States and such indebtedness to such other agency is listed on the county debt register, the compensation due such producer shall be set-off against such indebtedness. Indebtedness owing to the Department of Agriculture, or any agency thereof, shall be given first consideration. Set-offs made pursuant to this section shall not deprive the producer of any right to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 485.224 *Successors-in-interest.* (a) In case any producer who is entitled to any compensation under any agreement, dies, becomes incompetent or disappears before receiving such compensation, the compensation shall be made to his successor, as determined in accordance with the regulations issued by the Secretary (7 CFR Part 1108), or any amendments thereto, for payments made pursuant to section 8 of the Soil Conservation and Domestic Allotment Act, as amended.

(b) In the event of the sale or transfer of the farm, other than by death or incompetency, after the agreement is signed, but before compensation is paid thereunder, compensation will be paid to the original signer of the agreement, if he retains the interest in the crop with respect to which the compensation is to be paid. If the interest in the crop with respect to which the compensation is to be paid is transferred to the buyer or other person succeeding the original signer of the agreement, and the county committee is notified in writing of such sale or transfer before compensation has been paid, compensation shall be paid to the buyer or successor, provided he becomes a party to the agreement by executing a form prescribed by the Secretary for such purpose.

(c) If there is a change in a tenant or sharecropper after the agreement is signed, but before compensation is paid thereunder, compensation shall be paid to the original tenant or sharecropper if he retains the interest in the crop with respect to which compensation is to be paid. If the successor tenant or sharecropper succeeds to the interest in the crop with respect to which the compensation is to be paid, and the county committee is so notified in writing before compensation is paid, the compensation shall be paid to the successor tenant or sharecropper, provided, in the case of a tenant-operator, that the tenant-operator becomes a party to the agreement by executing a form prescribed by the Secretary for such purpose.

§ 485.225 *Assignments.* Any person who may be entitled to any compensation under the acreage reserve program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a 1957 crop, including the carrying out of soil, water, forest and wildlife conserving practices. No assignment will be recognized unless it is made in writing on a form prescribed by the Secretary and, insofar as applicable, in accordance with regulations issued by the Secretary for assignment of payments under the Soil Conservation and Domestic Allotment Act (7 CFR Part 1110), which are available in the offices of the State and county committees.

§ 485.226 *Schemes or devices to defeat purposes of agreement.* No producer entering into an agreement with the Secretary hereunder shall employ any scheme or device which would tend to defeat the purpose of the agreement.

§ 485.227 *Violations of agreement.* (a) In the event the Secretary determines that there has been a violation of any agreement and that such violation is of such a substantial nature as to warrant termination of the agreement all rights to compensation under the agreement shall be forfeited and all compensation paid shall be refunded. The producers who sign the agreement will be obligated to refund all compensation received not only by them but also by any tenant or sharecropper. The tenant or sharecropper shall also be obligated to refund any compensation received by him. In the event that any of the certificates issued as compensation cannot be returned, the face amount of such certificates, plus interest at the rate of six percent per annum, shall be paid to the United States.

(b) In the event the Secretary determines that there has been a violation of any agreement but that the violation is of such a nature as not to warrant termination of the agreement, rights to compensation under the agreement shall be adjusted, forfeited and refunded as the Secretary determines to be appropriate. The producers signing the agreement will be obligated to accept such adjustments in compensation, forfeit such benefits, and make such refunds to the United States of compensation received not only by them but also by any tenant or sharecropper as the Secretary determines to be appropriate. The tenant or sharecropper will also be obligated to refund, forfeit, and accept such adjustment in compensation paid or otherwise payable to him as the Secretary determines to be appropriate. In the event that any of the certificates issued as compensation cannot be returned in accordance with the determination of the Secretary, the face amount of such certificates, plus interest at the rate of six percent per annum shall be paid to the United States. In the event that a refund of less than the face amount of a certificate is required, interest at the rate of six percent per annum on the amount required to be refunded shall be paid to the United States.

(c) Regulations prescribing the rules and procedure for determining whether a violation has occurred, and whether the violation is of such a nature as to warrant termination of the agreement, and the amount of any adjustment, forfeiture or refund which shall be made if the violation is of such a nature as not to warrant termination of the agreement, and the rules and procedure for review of such determinations will be published separately at a later date.

§ 485.228 *Penalty for grazing or harvesting.* Section 123 of the act imposes a civil penalty upon any producer who knowingly and willfully grazes or harvests any crop from any acreage in violation of an agreement equal to 50 per centum of the compensation payable for compliance with such agreement. Such penalty is in addition to any amounts required to be forfeited or refunded under the provisions of the agreement.

§ 485.229 *Compensation not subject to claims.* Any compensation due any person hereunder shall be determined and allowed without regard to questions of title under State law, and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 485.230 *Access to farm and records.* The county committeemen or their representatives, or any authorized representative of the Secretary, for the purposes of ascertaining the accuracy of the representations made in or in connection with any agreement entered into hereunder and the performance of the terms and conditions of the agreement, shall have the right to enter the farm at any reasonable time in order to measure the acreage or determine the production of any agricultural commodity on the farm, and to examine any records pertaining to the farm or to the acreage, production, or sale or any such agricultural commodity, and the landlord or operator shall furnish such information relating to the farm as may be requested by the county committeemen or their representatives or authorized representatives of the secretary.

§ 485.231 *State Committee approval of determinations of county committees.* The State Committee may revise or require revision of any determination made by the county committee in connection with the acreage reserve program.

§ 485.232 *Finality of determinations.* The facts constituting the basis for any compensation, or the amount thereof, under any agreement when officially determined in conformity with §§ 485.201 to 485.233, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Government, except that the act provides for judicial review in the case of the termination of an agreement.

§ 485.233 *Effect on acreage allotment and marketing quota programs.* (a) The acreage on any farm which is diverted from the production of any commodity in order to carry out an agreement shall be considered as acreage devoted to the commodity for the purposes of establishing future State, county and farm acreage allotments and Soil Bank corn bases.

(b) In applying the provisions of paragraph (6) of Public Law 74, Seventy-seventh Congress (7 U. S. C. 1340 (6)), and section 326 (b) and 356 (g) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1326 (b), 1356 (g)) relating to reduction of the storage amounts of wheat and rice, the acreage on any farm which is diverted from the production of wheat or rice in order to carry out an agreement, shall be considered as wheat acreage or rice acreage, as the case may be, on the farm.

Issued at Washington, D. C., this 13th day of August, 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

APPENDIX 1—STATE ALLOCATIONS OF AMOUNTS WHICH MAY BE OBLIGATED FOR WHEAT

1957 ACREAGE RESERVE PROGRAM

State:	*Allocation (thousand dollars)*

TITLE 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 126-56]

PART 21—WITNESS FEES

USE OF TABLE OF DISTANCES IN COMPUTATION OF MILEAGE

By virtue of the authority vested in me by section 1821 of title 28 of the United States Code, as amended by the act of August 1, 1956, 70 Stat. 798, I hereby amend Part 21, Chapter I, Title 28 of the Code of Federal Regulations by adding thereto a new section numbered and reading as follows:

§ 21.4 *Use of table of distances.* Regardless of the mode of travel actually employed, mileage payable to witnesses under section 1821 of title 28 of the United States Code, as amended by the act of August 1, 1956, 70 Stat. 798, shall be computed on the basis of highway distances as stated in any generally accepted highway mileage guide which contains a short-line nation-wide table of distances and which is designated by the Administrative Assistant Attorney General for such purpose: *Provided*, That with respect to travel in areas for which no such highway mileage guide exists, mileage payable under the said section 1821 shall be computed on the basis (a) of the mode of travel actually employed, (b) of a usually-traveled route, and (c) of distances as generally accepted in the locality.

This order shall be effective as of August 1, 1956. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date is impracticable and contrary to the public interest in this instance, for the reason that such compliance would unduly delay and impede the implementation of the act of August 1, 1956, 70 Stat. 798.

(Sec. 1, 62 Stat. 950, as amended; 28 U. S. C. 1823. Interprets or applies sec. 45, 68 Stat. 1242, as amended, Pub. Law 875, 84th Cong.; 28 U. S. C. 1821)

Dated: August 13, 1956.

HERBERT BROWNELL, Jr.,
Attorney General.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 208]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport, authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance; facility to airport	Minimum altitude over facility on final approach course (ft.)	Condition	Ceiling and visibility minimums: 2 engines or less: 65 knots or less	Ceiling and visibility minimums: 2 engines or less: More than 65 knots	Ceiling and visibility minimums: More than 2 engines; more than 65 knots	If visual contact not established at authorized minimums after passing facility within distance specified, or if landing not accomplished
1	2	7	6	8	9	10	11	12
AKRON, COLO. Akron Muni Field, 4,585'. SBM-LFR-2PTW. Procedure No. 1. Amendment Original. Effective date: September 8, 1956. Heavy aircraft use with caution. Not authorized for air carrier use.

2. The very high frequency omnirange (VOR) procedures prescribed in § 609.9 are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, courses, and radials are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance; facility to airport	Condition	Ceiling and visibility minimums: 2 engines or less: 65 knots or less	Ceiling and visibility minimums: 2 engines or less: More than 65 knots	Ceiling and visibility minimums: More than 2 engines; more than 65 knots	If visual contact not established at authorized minimums after passing facility within distance specified or if landing not accomplished

CAUTION: 4,482' mean sea level tower 1.7 miles S of airport and 4,021' mean sea level tower 3 miles SW of airport. *Night operation authorized only on SW/SE runway.

3. The instrument landing system procedures prescribed in § 609.11 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

When ILS instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date.	Transition to ILS				Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude at glide slope interception inbound (ft.) TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 165—CERTAIN CHEMICAL DERIVATIVES OF SUBSTANCES NAMED IN SECTION 502 (d) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT DESIGNATED AS HABIT FORMING

FINAL ORDER REFUSING TO AMEND REGULATIONS

In the matter of amending the regulations designating certain chemical derivatives of substances named in section 502 (d) of the Federal Food, Drug, and Cosmetic Act as habit forming by removing acetylcarbromal and bromural from the list of habit-forming chemical derivatives of carbromal:

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 502 (d), 701, 52 Stat. 1050, 1055, 53 Stat. 854; 21 U. S. C. 352 (d), 371 (e)), upon the basis of the whole record made at the public hearing held pursuant to the notice published in the FEDERAL REGISTER on May 7, 1955 (20 F. R. 3113), and after consideration of the petition to reopen the hearing filed subsequently to the proposed order published in the FEDERAL REGISTER on March 27, 1956 (21 F. R. 1866), which petition is disallowed by order published this date in the FEDERAL REGISTER, the following order is hereby promulgated:

FINDINGS OF FACT [1]

1. Under section 502 (d) of the Federal Food, Drug, and Cosmetic Act, the Secretary of Health, Education, and Welfare may designate by regulations, after investigation, habit-forming chemical derivatives of a number of substances, including carbromal. Derivatives that have been so designated are required to bear the label statement "Warning—May be habit forming." In 1942, on the basis of evidence received at a public hearing, regulations were promulgated designating the drugs acetylcarbromal and bromural as habit-forming chemical derivatives of carbromal. A petition has now been filed to remove the drugs acetylcarbromal and bromural from the list of drugs designated as habit forming. If removed from the list, drugs containing acetylcarbromal or bromural will no longer be required to bear the legend "Warning—May be habit forming." (Ex. 1).

[1] The citation following each finding of fact refer to the pages of the transcript of the testimony and the exhibits received in evidence at the hearing.

2. Evidence received at the hearing on the petition included a study of the medical literature relating to the drugs acetylcarbromal and bromural. In all but two of the sources referred to in the study, no mention is made of the tendencies of the drugs to cause addiction or habit formation. One reference stated that habituation to bromural may be induced under certain circumstances and one other reference stated that a compound containing carbromal (the parent substance of acetylcarbromal and bromural) and bromural was not habit forming. With these two exceptions, the information contained in this study was negative as to the habit-forming nature of the drugs acetylcarbromal and bromural. Such a study is only informative in evaluating the habit-forming tendency of a drug if substantiated by adequate clinical investigations. (R. 20–21, 147; Ex. 3)

3. Also included in the evidence was an affidavit of a medical practitioner describing the administration of a drug containing acetylcarbromal and bromural to 37 patients for varying periods of time, up to 22 weeks. The author of the affidavit concluded that the drug used was not habit forming and that its components, acetylcarbromal and bromural, would also not be habit forming. The affidavit does not, however, contain reference to the criteria applied by the author to determine the existence of habit-forming tendencies. In addition, it cannot be determined from the affidavit the nature of the observations from which it was concluded that the drugs were not habit forming or the manner in which control was exerted over the subjects to insure that they took the drug as directed and that no other drugs having similar physiological effect were taken during the test period. Without knowledge of these facts, a study conducted for the purpose of determining the existence of habit forming tendencies in a drug cannot be evaluated. (R. 155–156, 160, 164–167; Ex. 2)

4. Other evidence of record related to use of a drug containing a mixture of acetylcarbromal and bromural in a clinical study involving 40 subjects. It is impossible to determine the length of this study, since there is a discrepancy in the dates of the final interviews of some of the subjects as shown in Exhibit 4A and the date of the completion of the study as shown in Exhibit 4. As described in the evidence, this clinical study had certain defects. These include:

a. The criteria utilized for the determination of the existence of habit-forming tendencies were not appropriate for that purpose.

b. The study was conducted on ambulatory patients. The use of such patients is not satisfactory in a clinical study dealing with habit-forming tendencies of a drug, since control of the intake of the drug under study, as well as drugs having similar physiological effect, is almost impossible with ambulatory patients.

c. The study, as originally reported, made only ambiguous references to prior use of sedative drugs by the subjects, an important factor in determining the tendency of a drug to habit formation. Subsequently, Exhibit 4A was prepared and submitted in evidence. This additional exhibit does not contain information in sufficient detail to permit the evaluation of the habit-forming tendency of the drugs upon which the study was conducted.

d. Observations for withdrawal symptoms were not begun until 1 week after the termination of administration of the drug under study. It is possible that withdrawal symptoms might have begun and ended before the first observation, after termination of administration was made.

Because of the presence of these deficiencies in the study as reported, it does not determine whether or not acetylcarbromal and bromural have habit-forming tendencies. (R. Ex. 4, 4a, 120–126, 153–155, 164–167, 169–170)

5. The record included expert medical testimony that sedatives such as the drugs acetylcarbromal and bromural or a combination of them are or may be habit forming and that their label should bear a statement to that effect. (R. 69–71, 151)

Conclusion. It is concluded that the whole record does not warrant the removal of the drugs acetylcarbromal and bromural from the list of drugs that are required to bear the label statement "Warning—May be habit forming": *Therefore, it is ordered,* That Part 165—Certain Chemical Derivatives of Substances Named in Section 502 (d) of the Federal Food, Drug, and Cosmetic Act Designated as Habit Forming, not be amended.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 502, 52 Stat. 1050, as amended; 21 U. S. C. 352)

Dated: August 13, 1956.

[SEAL] HEROLD C. HUNT,
Acting Secretary.

[F R. Doc. 56-6650; Filed, Aug. 16, 1956; 8:47 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 862—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

INSTITUTIONAL PHASE

In Part 862, §§ 862.1 to 862.19 are rescinded and the following substituted therefor:

Sec.
862.1 Policy.
862.2 Mission.
862.3 Purpose and objectives.
862.4 Definitions.
862.5 Organization.
862.6 Establishment and disestablishment.
862.7 Eligibility requirements.
862.8 Completion of courses.
862.9 Categories of advanced course cadets.
862.10 Additional requirements.
862.11 Waivers for enrollment.
862.12 Conditional enrollment.
862.13 Informally enrolled cadets.
862.14 Credit for previous military training.
862.15 Concurrent membership in Reserve component.
862.16 Compression, curtailment, or concurrent pursuit of courses.
862.17 Transfer.
862.18 Discharge.
862.19 Appointment as Reserves of the Air Force.
862.20 Certificate of entitlement.

AUTHORITY: §§ 862.1 to 862.20 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended, 5 U. S. C. 22, 171a. Interpret or apply secs. 40-47, 39 Stat. 191-192, as amended 10 U. S. C. 381-390.

DERIVATION: AFR 45-48, April 16, 1956.

§ 862.1 *Policy.* (a) The Air Force Reserve Officer Training Corps (AFROTC) program is confined to accredited, four year, degree granting institutions, and the military phase coincides with the normal academic program leading to a baccalaureate degree. The Department of the Air Force does not extend this program downwards to the secondary school level.

(b) The Department of the Air Force interposes no objections to recruiting visits to educational institutions having AFROTC units by representatives of other services. However, basic course cadets who have executed a deferment agreement and advanced course cadets will not be eligible for procurement programs of those services unless they have the written concurrence of the professor of air science (PAS).

§ 862.2 *Mission.* The mission of the AFROTC is to select and prepare cadets through a permanent program of instruction at civilian institutions, to serve as officers in the Reserve and Regular components of the Air Force, and to assist in discharging, where necessary, any institutional obligations to offer military training.

§ 862.3 *Purpose and objectives.* The AFROTC program is a major source of officers for the Air Force. The purpose and specific objectives of the program are:

(a) To develop in the cadet by precept, example, and participation the attributes of character, personality, and leadership which are essential to every officer of the Air Force.

(b) To develop in the cadet an interest in the Air Force and an understanding of its missions, organization, problems, and techniques.

(c) To provide the cadet with a course of military education which, with his academic curriculum, will quality him to discharge the duties and responsibilities required of him as an officer of the Air Force.

(d) To develop in the cadet the desire to make a career as an officer in a component of the Air Force.

(e) To motivate the cadet to obtain an aeronautical rating in the Air Force upon graduation.

§ 862.4 *Definitions.* For the purpose of §§ 862.1 to 862.20, the following definitions will apply:

(a) *Detachment.* Air Force personnel assigned to Headquarters Air Force ROTC with duty station at a civilian institution.

(b) *Unit.* The organization which includes the detachment and AFROTC cadets at an institution.

(1) *Standard unit.* The principal AFROTC unit at an institution.

(2) *Subunit.* That portion of a standard unit located at a subdivision of an institution which is physically separated from the parent campus.

(c) *Department of air science.* The integral academic subdivision of an educational institution which includes all AFROTC activities conducted at the institution as stipulated in the contract with the Air Force.

(d) *Air science.* The official designation of the AFROTC program of instruction.

(e) *Basic course.* The first- and second-year program of instruction in air science.

(f) *Advanced course.* The third- and fourth-year program of instruction in air science.

(g) *AFROTC summer training.* A period of training for the advanced course cadets conducted at an Air Force installation. In the Air Force, this training is the camp for practical instruction authorized by section 47a, National Defense Act, as amended.

(h) *Professor of air science.* The senior commissioned officer of the Air Force assigned to duty with a standard unit of the AFROTC.

(i) *Institutional phase.* That portion of the entire AFROTC program conducted at civilian educational institutions, as distinguished from the AFROTC summer training phase.

(j) *Academic year.* The period that begins September 1, and ends August 31, the following year, except for the University of Puerto Rico, where the period begins the opening date of registration in August and ends the day before August registration the following year.

(k) *Formally enrolled cadet.* A student who has been admitted to full membership in the AFROTC and is entitled to all benefits authorized by law and regulations pertaining thereto.

(l) *Informally enrolled cadet.* A student who is not a member of the AFROTC but is permitted to pursue the institutional phase of the AFROTC course for academic credit only, and who is not a candidate for appointment on the basis of the completion of the AFROTC program.

(m) *Conditionally enrolled cadet.* A student who is tentatively accepted and enrolled in the advanced course pending determination of his eligibility for formal enrollment.

(n) *Category.* A classification of cadets based on flight aptitude, interest, academic background, and prior military service.

(o) *AFROTC graduate.* A formally enrolled cadet who has successfully completed the AFROTC program prescribed by law and regulations, including the prescribed AFROTC summer training, and has been awarded a baccalaureate degree.

(p) *Graduating class.* Consists of formally enrolled cadets who initially qualify for appointment during the period of May 1, of any particular year through April 30, of the following year.

(q) *On-board year.* Fiscal year in which the commissioned members of the graduating class, as defined in paragraph (p) of this section, are brought on active duty. For example, the graduating class of 1955 is made up of cadets appointed during the period of May 1, 1955 through April 30, 1956. They are brought on active duty during FY 1956 (July 1, 1955 through June 30, 1956), which is the on-board year for that graduating class.

§ 862.5 *Organization.* The AFROTC is organized as a subordinate command of the Air University with the procedural functions and responsibilities of a numbered air force. It is composed of a headquarters, standard units, and certain sub-units. By Federal statutes, a senior division and a junior division of the ROTC are authorized. The Air Force establishes and maintains ROTC units of the senior division only.

§ 862.6 *Establishment and disestablishment.* An AFROTC unit will not be established or disestablished without the approval of the Secretary of the Air Force.

§ 862.7 *Eligibility requirements*—(a) *Statutory.* Eligibility for formal enrollment is limited by law to students at institutions where AFROTC units are established who are:

(1) Citizens of the United States.

(2) Not less than 14 years of age.

(3) Physically qualified for military service, or will be so on arrival at military age.

(b) *Character.* Good moral character is a prerequisite for enrollment and continuance in the AFROTC.

(1) A student who has been convicted by a court-martial or by a civil court for any offense other than a minor traffic violation will not be certified for Selective Service deferment as a basic student nor will he be enrolled initially or continued in the advanced course unless such offense is waived by competent authority. The Commander, Air University, is authorized to waive nonrecurrent minor violations considered not prejudicial to performance of duty as an officer of the Air Force nor indicative of unacceptable traits of character.

(2) Persons eliminated from a service academy or from any officer training program of the Army, Navy, or Air Force for military inaptitude, indifference, or undesirable traits of character will not be formally enrolled or permitted to wear the AFROTC uniform. This restriction applies to persons who resign in the face of impending charges as well as those eliminated by official action. However, persons who have been eliminated for academic inaptitude may apply for enrollment in the AFROTC. Such applications will be referred to the Commandant AFROTC for review and approval prior to formal enrollment of these persons.

(3) Persons eliminated for disciplinary reasons from a service academy or from one of the officer training programs of the Army, Navy, or Air Force will neither be certified for Selective Service deferment as basic students nor formally

enrolled in the advanced course, unless a waiver is granted by the Commander, Air University.

(c) *Loyalty.* (1) A student who does not sign the following certificate which will be a part of his record, will not be formally enrolled in the basic course: "I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign or domestic; that I will bear true faith and allegiance to the same; and that I take this obligation freely, without any mental reservation or purpose of evasion; so help me God."

(2) If an advanced course applicant fails or refuses after instruction to fill out DD Form 98, "Loyalty Certificate for Personnel of the Armed Forces," in its entirety, the professor of air science will deny his formal enrollment in the advanced course. If an applicant completes DD Form 98 with qualification or makes entries thereon which provide reason for believing that his enrollment is not clearly consistent with the interest of national security, the professor of air science will withhold his formal enrollment. The professor of air science will forward all pertinent information, including DD Form 98, to Director of Personnel Procurement and Training, Headquarters USAF, Washington 25, D. C., Attention: AFROTC Branch, for action and decision.

(3) At his discretion and that of institution authorities, the professor of air science may accept such persons, whom the institution may require or permit to take military training and who are not accepted for formal enrollment, for instruction in the AFROTC basic course as informally enrolled cadets.

(4) A National Agency Check must be completed with favorable results on each applicant prior to tendering an appointment in the Air Force Reserve.

(d) *Age.* A student will not be enrolled initially or be allowed to reenroll in the AFROTC after a period of nonparticipation in AFROTC training, if his age is such that he will be unable to complete all requirements for appointment as a Reserve of the Air Force prior to reaching his 28th birthday.

§ 862.8 *Completion of courses.* The AFROTC program is composed of two separate and distinct courses, a 2-year basic course and a 2-year advanced course. Completion of the basic course does not quarantee acceptance into the advanced course. As stipulated in the agreement between the institution and the Air Force, each cadet who has enrolled in either course must complete that course as a prerequisite to his graduation from the institution. This obligation may be waived under policies prescribed by the Secretary of the Air Force.

§ 862.9 *Categories of advanced course cadets.* Four categories are open to advanced course enrollees. Qualified students may be enrolled in the appropriate category in such number as deemed necessary to fulfill, but not to exceed, quotas set by Headquarters USAF, and suballotted by the Commandant, AFROTC, for the graduating class in which they will be appointed.

(a) *Category I.* Consists of cadets who qualify for flying training. They must meet the required physical, measured aptitude, and interest qualifications, and desire entry in this category. Cadets accepted in this category who have no active duty obligation under existing law but are commissioned upon completion of the AFROTC program and graduation will be required to serve the same active duty tour as that required of cadets who have an active duty obligation by law. For reporting purposes, Category I is divided into two subcategories, I for pilot candidates, and IA for observer candidates. AF Form 1056, "Category I Agreement for Certain Members of the Air Force Reserve Officers Training Corps," will be used for enrollment of cadets in this category.

(b) *Category II.* Consists of service-obligated cadets enrolled in college programs leading to baccalaureate degrees, with majors in prescribed engineering and scientific fields of study, who meet physical standards for an Air Force commission and are selected for the advanced course. AF Form 1056a, "Category II Agreement for Certain Members of the Air Force Reserve Officers Training Corps," will be used for enrollment of cadets in this category.

(c) *Category III.* Consists of service-obligated cadets enrolled in college programs leading to baccalaureate degrees, with majors in other than engineering and scientific fields of study, who meet physical standards for an Air Force commission and are selected for the advanced course. AF Form 1056b, "Category III Agreement for Certain Members of the Air Force Reserve Officers Training Corps," will be used for enrollment of cadets in this category.

(d) *Category IV.* Consists of service-exempt cadets, other than those accepted in Category I, selected for the advanced course. Cadets who have served on active duty for training, as provided in the Reserve Forces Act of 1955 (P. L. 305), (69 Stat. 598) will not be enrolled in Category IV. AF Form 1056c, "Category IV Agreement for Certain Members of the Air Force Reserve Officers Training Corps," will be used for enrollment of cadets in this category.

§ 862.10 *Additional requirements.* (a) Each cadet accepted for enrollment in the advanced course:

(1) Must have completed the basic course or must have received credit for it.

(2) Must meet prescribed physical requirements.

(3) Must have successfully completed such general survey or screening tests as may be prescribed for entrance into each of the categories.

(4) Must sign a deferment agreement, unless otherwise exempt by prior service.

(b) Normally, entrance into the advanced course will be phased so that completion of the advanced course and the awarding of the degree will coincide. Exceptions may be made under policies prescribed by the Commandant, AFROTC.

(c) Graduate students may be enrolled in the advanced course provided that:

(1) Their selection is within category quotas.

(2) Selection is in competition with undergraduate students.

(3) The provisions of paragraph (a) (1) of this section are fulfilled.

§ 862.11 *Waivers for enrollment.* Waivers to permit enrollment of cadets in the advanced course are discouraged.

§ 862.12 *Conditional enrollment.* (a) The purpose of conditional enrollment is to enable the professor of air science to accept, tentatively, a cadet for enrollment in the advanced course pending determination of his eligibility or notification of enrollment quotas.

(b) The Commandant AFROTC will prescribe specific policy governing conditional enrollment of cadets. Before conditional enrollment, each cadet will sign the following:

I understand and agree that no rights or benefits will be made available to me, or in my behalf, unless and until it is determined by proper authority that I am fully qualified and selected for formal enrollment in the advanced course of the AFROTC; that, upon such determination being made by proper authority, I will be entitled to receive all rights and benefits I would have earned and accrued but for the conditional nature of my enrollment from the date upon which I began work of the advanced course under the terms of this agreement. I further understand and agree that, if I am found to be not fully qualified and selected for such enrollment, I will be considered as not having been an advanced course cadet and will not be entitled to any rights or benefits under the terms of this agreement.

(c) Cadets accepted for conditional enrollment are authorized deferment as outlined in §§ 862.76 to 862.83.

§ 862.13 *Informally enrolled cadets.* (a) When authorized by institutional authorities and the professor of air science, persons who for any reason cannot be formally or conditionally enrolled may be permitted to pursue the advanced course informally. Additional personnel will not be assigned for the purpose of conducting instruction for informally enrolled cadets. Such cadets will not be charged against enrollment quotas. Students accepted under this section are not entitled to commutation of subsistence or Government uniforms, or uniform allowance, but may use arms and equipment issued for instructional purposes. Arms and equipment will not be procured for the benefit of such cadets.

(b) Such cadets will be required to sign the following statement:

I ----------, do hereby
(Name)
agree and understand that, as an informally enrolled cadet, I am not a member of the AFROTC, that notwithstanding the fact that I am permitted to pursue the AFROTC course for academic credit, I am not qualified for, nor will the Air Force tender me, a commission as a Reserve of the Air Force based upon my successful completion of the institutional phase of the advanced course, nor will I be permitted to attend the summer training.

(c) Category I and IA cadets who have been discharged from formal enrollment in the advanced course because of failure to maintain physical standards for these categories may be permitted to pursue the rest of the course for academic credit only. These cadets will sign the statement in paragraph (b) of this section upon informal enrollment; however, the final words, "nor will I be permitted to attend the summer training," will be deleted from their agreements. Such cadets may be awarded Certificates of Entitlement in conformance with the policies of Headquarters, USAF.

(d) Female students are not eligible for formal enrollment in the AFROTC; however, they may be permitted to pursue the AFROTC course of instruction for academic credit only.

§ 862.14 *Credit for previous military training.* (a) An AFROTC cadet who transfers to another institution at which an AFROTC unit is also maintained will be given credit for that part of the AFROTC course which he successfully completed at the losing institution, as evidenced by the AFROTC cadet record form.

(b) On the basis of previous honorable active service in the Air Force, Army, Navy, Marine Corps, or Coast Guard, a cadet may request a waiver of the basic course, or any portion thereof, as a requirement for entrance into the advanced course. The professor of air science may then waive so much of the basic course as he considers equivalent to the active service training: *Provided,* That he does not waive any portion which the cadet can complete prior to entrance into the advanced course. To satisfy entrance requirements for the advanced course, veterans entering an institution at freshmen or sophomore level who desire a commission through AFROTC will be required to take in phase with non-veteran contemporaries the portion of the basic program which remains.

(c) The professor of air science may waive on a year-for-year basis so much of the AFROTC program as he considers equivalent to previous training at the United States Air Force Academy, United States Military Academy, United States Naval Academy, United States Coast Guard Academy, or in the Senior Division of the Army ROTC or Naval ROTC, for students eligible and accepted for formal enrollment.

(d) Advanced standing will not be granted for training received prior to the student's 14th birthday; nor for training received as a member of the Civil Air Patrol; nor for training received as a member of a Reserve component of any of the Armed Forces of the United States when not in the active military service; nor for training received at an institution at which no commission officer of the active military forces is detailed by orders of the appropriate department as professor of military science and tactics, professor of naval science, or professor of air science; nor for training received as a member of the Junior Division Army ROTC.

§ 862.15 *Concurrent membership in Reserve component.* (a) Present and former commissioned officers of any component of the Army, Navy, Air Force, Marine Corps, or Coast Guard, and officers or former officers of the Public Health Service may not be enrolled in the AFROTC.

(b) Members of any component of the Armed Forces who are on active military duty may not be enrolled in the AFROTC.

(1) *Basic course.* Membership in an Armed Force Reserve will not preclude enrollment and continuance in the basic course.

(2) *Advanced course.* Members of an Armed Force Reserve component, other than the Air Force Reserve, will not be enrolled in the advanced course. Such Air Force Reserve members may be assigned to the Non-affiliated Reserve Section, Ineligible Reserve Section, or the Inactive Status List Reserve Section only, and may not be selectively assigned to a position within mobilization requirements.

(i) Air Force Reserve members who are assigned to programs other than those specified in paragraphs (a), (b), (c), and (d) of this section or who are selectively assigned may be conditionally enrolled pending release from such assignment. Subsequent to release, they may participate concurrently in Air Force Reserve point-earning activities as members of the Non-affiliated Reserve Section in either a training attachment or in USAF Extension Course Institute correspondence courses. A professor of air science will comply with §§ 864.31 to 864.39 of this subchapter if he has Air Force Reserve airmen enrolled.

(ii) Members of other Armed Forces Reserve components must gain discharge from their reserve components or transfer to the Air Force Reserve to become eligible for enrollment in the advanced course. The provisions of §§ 864.31 to 864.39 of this subchapter will apply.

§ 862.16 *Compression, curtailment, or concurrent pursuit of courses.* Under Federal statute, the basic course may not be compressed or curtailed into less than 2 academic years. The combined basic and advanced courses are expected to cover 4 full academic years. However, the Commandant, AFROTC, may permit reduction of the entire institutional phase into not less than 3 full academic years, through concurrent enrollment in both basic and advanced courses, or similar advanced course compression, under the following circumstances.

(a) For cadets enrolled in an academic program involving less than 4 years of resident study for the degree.

(b) For cadets with outstanding leadership qualities who would otherwise be unable to complete the entire AFROTC course of study prior to the award of a degree.

(c) The academic phase of the AFROTC course of study will not be curtailed.

§ 862.17 *Transfer.* Interservice transfer of AFROTC cadets is authorized under the Statements of Joint ROTC Policies.

§ 862.18 *Discharge*—(a) *From basic course.* With the concurrence of the institutional authorities, the professor of air science may discharge a basic cadet from the AFROTC. Such discharge relieves the institution of its obligation to require the cadet concerned to complete the basic course as a prerequisite for graduation.

(b) *From advanced course.* (1) The professor of air science may discharge a cadet from the advanced course. Each such discharge must receive the concurrence of the head of the institution or his designated representative.

(2) A cadet will be discharged from the advanced course for the "convenience of the Government." A refund of commutation of subsistence paid the cadet will not be required.

(3) A cadet who, for any reason, is unable to continue regular enrollment in the institution, will be discharged from the advanced course. Such cadet may be reenrolled in the advance course upon his return to an institution having an AFROTC unit.

(4) A cadet who, under competitive criteria, falls below acceptable retention standards will be discharged from the advanced course. Such cadet may be reenrolled only upon approval of the Commandant, Air Force ROTC.

(5) The professor of air science may discharge a cadet because of inaptitude, indifference to training, incompatibility, willfully evading the terms of his advanced course agreement, for disciplinary reasons, or for reasons involving undesirable traits of character. A cadet so discharged will not be reenrolled in the advanced course.

(6) The professor of air science will establish such board or boards as required to consider the cases of cadets recommended for discharge for reasons stated in subparagraph (5) of this paragraph. The board will be composed of at least three Air Force officers. The institution will be invited to provide a representative for board membership.

(c) *With prejudice.* A cadet whose conduct is or has been such as to bring dishonor on the corps and upon himself may be discharged "with prejudice" subject to approval of the head of the institution and the Commandant AFROTC. A cadet discharged "with prejudice" is not eligible for enrollment in an Air Force officer procurement program or for appointment in any component of the Air Force.

§ 862.19 *Appointment as Reserves of the Air Force.* A member of the advanced course, AFROTC, accrues no vested right to a commission in any component of the Air Force by virtue of such membership. Air Force ROTC graduates may be appointed second lieutenants in the Reserve of the Air Force upon successful completion of the military training prescribed by law and regulations and upon being awarded a baccalaureate degree from an accredited educational institution.

§ 862.20 *Certificate of entitlement.* Category I and IA cadets, who are certified medically disqualified for flying duty subsequent to formal enrollment in their final year of AFROTC training and who continue the AFROTC program as informally enrolled cadets for academic credit only, will be given a letter certificate, provided the following requirements are met:

(a) Are medically qualified for general service.

(b) Have completed the entire Air Force ROTC program, including the summer training phase.

(c) Have received a baccalaureate degree.

(d) Are recommended for such a certificate by the professor of air science.

This certificate will entitle them to a special two-year enlistment in the Air Force and an appointment in the Reserve of the Air Force following fulfillment of their National Service obligation, provided they are still otherwise qualified.

[SEAL] E. E. TORO,
Colonel, U. S. Air Force,
Air Adjutant General.

[F. R. Doc. 56-6640; Filed, Aug. 16, 1956; 8:45 a. m.]

PART 862—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

DEFERMENT OF AIR FORCE RESERVE OFFICERS'

In Part 862, §§ 862.76 to 862.87 are rescinded and the following substituted therefor:

Sec.
862.76 Purpose.
862.77 Policy.
862.78 Definitions.
862.79 Selection for deferment.
862.80 Obligations.
862.81 Length of deferment.
862.82 Enrollment for members of the reserve.
862.83 Transfers.

AUTHORITY: §§ 862.76 to 862.83 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply secs. 3, 6, 12, 62 Stat. 605, 609, 622 as amended; 50 U. S. C. App., 453, 456, 462.

DERIVATION: AFR 45-52, June 21, 1956.

§ 862.76 *Purpose.* Sections 862.76 to 862.83 prescribe the procedure by which cadets of the Air Force Reserve Officers Training Corps (AFROTC) may be deferred from induction under the Universal Military Training and Service Act, (62 Stat. 604-622, as amended, 50 U. S. C. App., 451-462).

§ 862.77 *Policy.* The Air Force ROTC deferment procedure is designed solely to enable selected cadets of the Air Force ROTC to qualify for appointment as commissioned officers of a component of the Air Force through uninterrupted completion of academic and military courses. The Air Force will not select for deferment a cadet who cannot ultimately qualify for a commission through enrollment and training afforded by the Air Force ROTC or who evidences lack of desire to become an officer of the Air Force.

§ 862.78 *Definitions.* For definitions of terms not explained in §§ 862.76 to 862.83 see §§ 862.1 to 862.20.

§ 862.79 *Selection for deferment.* To be deferred from induction under section 6 (d) (1) of the Universal Military Training and Service Act, (50 U. S. C. App., 456 (d) (1)), a cadet must be selected by his Professor of Air Science. Informally enrolled cadets are not eligible for deferment under that section.

(a) Fall enrollees in Air Science I will not be deferred before February 16. Midyear enrollees in Air Science I will not be deferred until after the completion of one academic semester or quarter at the institution. Deferments will not be granted until it has been determined that the enrollee is in good standing in the institution and in the Air Force ROTC. A cadet is "in good standing" if he meets or exceeds the minimum standards of the institution in which he is enrolled and is so certified by the registrar.

(b) Cadets whose deferments have been cancelled are not again eligible for deferment under §§ 862.76 to 862.83 without the approval of the Commandant, Air Force ROTC. He is an officer subordinate to the Commander, Air University, and is responsible for the field activities of the Air Force ROTC program. The Commandant may delegate redeferment authority to Professors of Air Science.

§ 862.80 *Obligations.* To be deferred from induction, those selected for enrollment or continuance in the Air Force ROTC program must sign AF Form 1041, "Deferment Agreement," which states, in part:

I, ----------, hereby agree to complete the basic course, if enrolled therein; to enroll in and complete the advanced course at the proper time, if accepted therefor; upon completion or termination of the course of instruction therein, to accept a commission, if tendered; to serve on active duty in the Air Force for a period of not less than 2 years after receipt of such commission, subject to call by the Secretary of the Air Force; and to remain a member of a Regular or Reserve component of the Air Force until the sixth anniversary of the receipt of my commission; or, if the Air Force does not require my service on active duty for 2 years in fulfillment of my obligation, to serve on active duty for training with the Air Force for a period of 6 months after receipt of my commission and thereafter to remain a member of an appropriate Reserve unit until the eighth anniversary of the receipt of my commission.

(a) The Professor of Air Science or his officer representative will explain to Air Force ROTC cadets the obligations they assume as a result of signing a deferment agreement. Specifically, he will explain that:

(1) Registrants who are continued in a deferred status under section 6, Universal Military Training and Service Act (50 U. S. C. App., 456 (b)) remain liable for training and service in the Armed Forces until their 35th birthday.

(i) The deferment of an individual will cease when he enters on extended active duty under the 6-year obligation, and the individual will then be exempt from induction while serving on extended active duty under section 6 (a), Universal Military Training and Service Act. On completing his required tour of extended active duty an individual will be exempt from induction under section 6 (b) (3), Universal Military Training and Service Act.

(ii) Those individuals who enter on active duty for training and incur the 8-year obligation will continue in a deferred status. After an individual completes the required tour of active duty for training, his deferment will be continued as long as he participates satisfactorily in a Ready reserve unit or mobilization assignment position. After he has completed a total period of 8 years of required active duty for training and satisfactory participation in a Ready reserve training program his deferred status will cease and he will then be exempt from induction.

(2) Upon being commissioned, the cadet will assume either a six- or eight-year obligation, as stated in the agreement. That obligation is distinct from any total-service obligation that he may have incurred under other provisions of law, and the partial or entire discharge of that other obligation does not affect the one resulting from the AFROTC appointment.

(3) Air Force ROTC cadets who have been granted deferment by the Selective Service System and have reached their eighteenth but not their twenty-sixth birthday are not excused from registration and must register under section 3 of the Universal Military Training and Service Act on the day or days proclaimed by the President (50 U. S. C. App., 453).

(b) All cadets accepted for enrollment in the Air Force ROTC course must complete AF Form 1041 before signing an advanced course contract, unless, because of prior active military service, they are not liable for induction under the Universal Military Training and Service Act.

(c) A cadet who voluntarily signs AF Form 1041 while otherwise liable for induction is bound by the provisions of his deferment agreement and, upon failure or refusal to fulfill it, may be subject to the penalties prescribed in section 12 of the Universal Military Training and Service Act (50 U. S. C. App., 462).

§ 862.81 *Length of deferment.* Selected cadets may be deferred from induction under the Universal Military Training and Service Act until they have completed both the Air Force ROTC course and the academic course required for a commission.

(a) To qualify for continued deferment, cadets must satisfy all Air Force ROTC standards, including the following:

(1) They must remain in good standing in academic courses.

(2) Their attendance must be continuous, except for the following periods of authorized absence:

(i) Regularly scheduled vacation periods.

(ii) Periods of sick leave authorized by the PAS.

(iii) Periods of leave from the military course of instruction that are authorized by the Commandant, Air Force ROTC.

(iv) Periods of regularly scheduled on-the-job training under a cooperative plan.

(v) Periods after completion of the Air Force ROTC program and before completion of the academic course, when authorized by the Commandant, Air Force ROTC.

(vi) They must graduate within twelve months after completing Air Science IV (including Air Force ROTC summer training).

(b) Cadets who have postponed their Air Force ROTC summer training by authority of the Commandant, Air Force ROTC, will be deferred until they complete it. If they do not complete it during the summer following graduation, however, their deferment will be cancelled.

(c) The deferment of a cadet who transfers from a 5-year course to a 4-year course may be cancelled if he has not earned his degree at the end of four years of study.

(d) Deferment of a cadet under section 6 (d) (1) of the Universal Military Training and Service Act (50 U. S. C. App., 456) will also be cancelled if he

(1) Ceases to be a formally enrolled Air Force ROTC cadet.

(2) Fails to accept an appointment as a commissioned officer.

(3) Is not among the quota of graduating cadets who are offered a commission. In this instance, his deferment will be cancelled within 60 days after graduation.

(e) The deferment of cadets who do not reenroll during the fall or spring semester will be cancelled not later than October 15, and March 15, respectively.

§ 862.82 *Enrollment for members of the reserve.* (a) Students who are enlisted members or warrant officers of the National Guard of the United States, Air National Guard of the United States, Army Reserve, Naval Reserve, Marine Corps Reserve, Air Force Reserve, or Coast Guard Reserve may be enrolled in the basic course of the Air Force ROTC on the same basis as any other student, provided they are otherwise qualified and are not on active duty. They are not exempt under other provisions of law, however, from call to active military service as members of a Reserve component.

(b) Students who are members of Reserve components of the other services or of the Air National Guard of the United States must be discharged from those components or transferred to the Air Force Reserve before they may be formally enrolled in the advanced course of the Air Force ROTC or selected for deferment under §§ 862.76 to 862.83. Provisions governing the transfer of such person are contained in §§ 864.31 to 864.43.

§ 862.83 *Transfers.* When an Air Force ROTC cadet intends to transfer to another institution which has an Air Force ROTC unit, he must notify the Professor of Air Science of the losing unit. As soon as the cadet has enrolled in the appropriate Air Science course at the new institution, his new Professor of Air Science will advise the former one that the cadet has enrolled and that a new DD Form 44 has been sent to the local Selective Service System board. The losing Professor of Air Science will then drop the cadet from accountability and send a revised DD Form 44 to the former Selective Service Board to rescind the one he had previously submitted. On the new form, he will identify the Air Force ROTC unit to which the cadet transferred.

[SEAL] E. E. TORO,
Colonel, U. S. Air Force,
Air Adjutant General.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 202—ANCHORAGE REGULATIONS

PART 203—BRIDGE REGULATIONS

SAN JOAQUIN RIVER, CALIF., AND MANATEE RIVER, FLA.

1. Pursuant to the provisions of section 7 of the River and Harbor Act of March 4, 1915 (38 Stat. 1053; 33 U. S. C. 471), § 202.224 establishing and governing the use of anchorage grounds in San Francisco Bay and tributary waters, California, is hereby amended with respect to paragraph (e) (2) revoking General Anchorage No. 29, as follows:

§ 202.224 *San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, Calif.* * * *

(e) San Joaquin River, Calif. * * *

(2) *Anchorage 29 (General).* [Revoked.]

[Regs., August 1, 1956, 800.212 (San Joaquin River, Calif.)—ENGWO] (Sec. 7, 38 Stat. 1053; 33 U. S. C. 471)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), the following special regulations are prescribed to govern the operation of the State Road Department of Florida bridge across Manatee River near Bradenton, Florida, as follows:

§ 203.463 *Manatee River, Fla.; State Road Department of Florida bridge near Bradenton.* (a) Between 7 a. m. and 9 a. m. and between 4 p. m. and 6 p. m., the draw need not be opened for the passage of vessels, except as provided in paragraph (b) of this section.

(b) The draw shall be opened promptly on signal for the passage of (1) Government owned or operated vessels, (2) any vessel during the existence of a hurricane alert issued by the United States Weather Bureau and affecting the area, and (3) any vessel in an emergency involving danger of life or property. An emergency shall be indicated by four blasts of a whistle, horn, or megaphone blown on the vessel.

(c) At times other than those specified in paragraph (a) of this section, and in all other respects the regulations contained in § 203.240 shall govern the operation of this bridge.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both sides of the bridge, in such manner that it can easily be read at any time, a copy of the regulations of this section.

[Regs., July 31, 1956, 823.01 (Manatee River, Fla.)—ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

MISCELLANEOUS AMENDMENTS

1. In Part 21, immediately above the centerhead "Appeals", add the headnote "Subpart A—Servicemen's Readjustment Act of 1944 and the Vocational Rehabilitation Acts (Public Laws 16, 78th Congress, as Amended, and 894, 81st Congress, as Amended)".

2. In Part 21, delete the headnote "Veterans' Readjustment Assistance Act of 1952" and add the headnote "Subpart B—Veterans' Readjustment Assistance Act of 1952".

3. In Part 21, Subpart C is added to read as follows:

Subpart C—War Orphans' Educational Assistance Act of 1956

Sec.
21.3000 Statement of policy.
21.3005 Definitions.

ELIGIBILITY AND ENTITLEMENT

21.3010 Entitlement to educational assistance.
21.3014 Duration of eligible person's entitlement.
21.3016 Age limitations.
21.3017 Election of benefits.
21.3018 Charges against and exhaustion of entitlement.
21.3030 Applications.

PROGRAM OF EDUCATION (TITLE III)

21.3031 Development of educational program and final approval of application.
21.3032 Change of program.
21.3033 Courses precluded.
21.3034 Discontinuance for unsatisfactory conduct or progress.
21.3035 Reentrance after discontinuance.
21.3036 Period of operation for approval.
21.3037 Institutions listed by Attorney General.
21.3051 Conditions governing payment of educational assistance allowance.
21.3052 Rates of educational assistance allowances.
21.3054 Effective beginning dates of entrance or reentrance into training and for payment of educational assistance allowance.
21.3055 Effective closing dates of an authorization of educational assistance allowance.
21.3056 Effective date of change or discontinuance of educational assistance allowance.
21.3057 Duplication of benefits.
21.3063 Apportionments of educational assistance allowance.
21.3066 Measurement of full- or part-time courses.
21.3067 Overcharges by educational institutions.
21.3151 Approval of courses.

Sec.
21.3208 Disapproval of courses and discontinuance of educational assistance allowances under Public Law 634, 84th Congress.
21.3210 Reports by institutions.

SPECIAL RESTORATIVE TRAINING (TITLE IV)

21.3224 Cross references.
21.3225 General.
21.3226 Need for special restorative training.
21.3227 Extent of training.
21.3228 Conditions governing payment of special training allowance.
21.3229 Rates of special training allowances.
21.3231 Effective beginning dates of entrance or reentrance into special restorative training for the payment of a special training allowance.
21.3232 Effective ending dates of an authorization of a special training allowance.
21.3233 Status "interrupted."
21.3234 Reentrance after interruption.
21.3236 Authority to make agreements.
21.3237 Supervision of the eligible person during special restorative training.

MISCELLANEOUS PROVISIONS

21.3300 Educational and vocational counseling.
21.3301 Control by agencies of the United States.
21.3302 Conflicting interests.
21.3304 Liability of educational institutions on account of overpayments of educational assistance allowance, section 506, Public Law 634, 84th Congress.
21.3305 Overpayments of education and training and other Veterans Administration benefits.
21.3306 Examination of records.
21.3307 False or misleading statements.
21.3308 Criminal penalties and forfeiture of rights.
21.3309 Appeals.
21.3310 Waiver of recovery of overpayments.
21.3311 Application of other laws.

AUTHORITY: §§ 21.3000 to 21.3311 issued under sec. 501, P. L. 634, 84th Cong.

SUBPART C—WAR ORPHANS EDUCATIONAL ASSISTANCE ACT OF 1956

§ 21.3000 *Statement of policy.* The statement of policy as contained in Title I of the War Orphans' Educational Assistance Act of 1956 (Public Law 634, 84th Congress) is as follows:

The Congress hereby declares that the educational program established by this act is for the purpose of providing opportunities for education to children whose education would otherwise be impeded or interrupted by reason of the death of a parent from a disease or injury incurred or aggravated in the Armed Forces during World War I, World War II, or the Korean conflict, and for the purpose of aiding such children in attaining the educational status which they might normally have aspired to and obtained but for the death of such parent.

§ 21.3005 *Definitions.* (a) For the purposes of Public Law 634, 84th Congress, the following definitions apply:

(1) The term "World War I" means the period beginning on April 6, 1917, and ending on November 11, 1918.

(2) The term "World War II" means the period beginning on December 7, 1941, and ending on December 31, 1946.

(3) The term "Korean conflict" means the period beginning on June 27, 1950, and ending on January 31, 1955.

(4) The term "eligible person" means a child of a person who died of a disease or injury incurred or aggravated in line of duty in the active service in the Armed Forces during World War I, World War II, or the Korean conflict, but only if such service did not terminate under dishonorable conditions. The standards and criteria for determining incurrence or aggravation of a disease or injury in line of duty shall be those applicable under disability compensation laws administered by the Veterans Administration.

(5) The term "child" means a legitimate or legally adopted child, a stepchild if he was a member of the household of the parent from whom eligibility is derived, or an illegitimate child if it is shown by evidence satisfactory to the Administrator that the person from eligibility is derived was the parent.

(6) The term "Armed Forces" means the Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States.

(7) The term "duty with the Armed Forces" as used in § 21.3016 (b) (2) and in the last sentence of § 21.3010 (a) means (i) full-time duty in the active military or naval service, other than for training purposes, (ii) full-time active duty for training for a period of six or more consecutive months by a member of a reserve component (including the National Guard), or (iii) active duty for training required by section 262 (c) (1) of the Armed Forces Reserve Act of 1952 (Public Law 476, 82d Congress) as amended by Public Law 305, 84th Congress, i. e., a period of active duty for training of not less than 3 months nor more than 6 months, as required by that act.

(8) The term "parent or guardian" means a father, a mother, a father through adoption, a mother through adoption, a fiduciary legally appointed by a court of competent jurisdiction, or any person who is determined by the Administrator in accordance with section 21 of the World War Veterans' Act, 1924, as amended (38 U. S. C. 450) to be otherwise legally vested with the care of the eligible person. (As used throughout the regulations for this law, the term "parent or guardian" has reference to a legal custodian recognized pursuant to section 21 supra and § 13.207 of this chapter as the person legally vested with the care of the eligible person or his estate.)

(9) The term "program of education" means any curriculum or any combination of unit courses or subjects pursued at an educational institution which is generally accepted as necessary to fulfill the requirements for the attainment of a predetermined and identified educational, professional, or vocational objective.

(10) The term "educational institution" means any public or private secondary school, vocational school, business school, junior college, teachers' college, college, normal school, professional school, university, or scientific or technical institution, or any other institution if it furnishes education at the secondary school level or above.

(11) The term "State" means each of the several States, Territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

(12) The term "Administrator" means the Administrator of Veterans Affairs.

(13) The term "special restorative training" means training furnished under Title IV.

(14) The term "law" wherever it appears in §§ 21.3000 through 21.3311 means Public Law 634, 84th Congress, approved June 29, 1956.

(15) The term "ending eligibility date" means the final date for expiration of all educational assistance under the law on behalf of an eligible person.

(16) The terms "enroll" and "reenroll", whatever their form or reference, mean the actual commencement or recommencement of and the active pursuit of the program of education or special restorative training under the provisions of the law.

(17) The term "completion of secondary school education" means the completion of a curriculum offered by a public or private school which satisfies the requirements for a high school diploma or its equivalent—usually completion of the 12th grade in the public school system.

(b) If an eligible person has attained his majority under the laws applicable in his State of residence as shown on his application and is under no known legal disability all references in the regulations under this law to the "parent or guardian" shall refer to the eligible person himself.

ELIGIBILITY AND ENTITLEMENT

§ 21.3010 *Entitlement to educational assistance.* (a) Under the conditions and within the limitations hereinafter specified, each person shall be entitled to receive educational assistance (including special restorative training when needed) who is a child of a person who died of a disease or injury incurred or aggravated in line of duty in the active service in the Armed Forces during World War I, World War II, or the Korean conflict and such service did not terminate under dishonorable conditions; except that if the person himself served with the Armed Forces, his discharge or release from each period of such service must have been under conditions other than dishonorable. No educational assistance may be provided an otherwise eligible person during any period he is on duty with the Armed Forces.

(b) The provisions of §§ 4.14 (c), 4.15 (b), and 4.15a (b) of this chapter are governing as to determination of relationship of a "child," except that for the purpose of this law, the married or unmarried status of a child is not for consideration.

(c) Active service in the Armed Forces means active service in the U. S. Army, the U. S. Navy, the U. S. Air Force, the U. S. Marine Corps, or the U. S. Coast Guard at any time during World War I, World War II, or the Korean conflict (§ 21.3005 (a) (1), (2), or (3)), including members of the Commissioned Corps of the U. S. Public Health Service who performed active duty during one of these periods, under detail by proper authority, with the Army, the Navy, the Air Force, the Marine Corps, or the Coast Guard of the United States.

(d) The determination as to whether death was due to a disease or injury incurred in or aggravated during service in World War I, World War II, or the Korean conflict, in line of duty, as required by paragraph (a) of this section, shall be made in accordance with the standards and criteria for determining incurrence or aggravation of a disease or injury in line of duty under applicable Veterans Administration regulations relating to disability compensation laws. The determination will be made by adjudicating personnel to whom authority has been delegated to make such determinations for the purposes of compensation for disability or death.

(e) The provisions of § 21.2011 (b) shall be applied in those instances where the otherwise eligible person was discharged or released from any period of active service with the Armed Forces under conditions neither honorable nor dishonorable.

§ 21.3014 *Duration of eligible person's entitlement.* (a) Each eligible person shall be entitled to educational assistance (including special restorative training where needed) for a period not in excess of 36 months (or the equivalent thereof in part-time training), except that:

(1) The period of entitlement of an eligible person under this law shall be reduced by the full-time equivalent of any period of education or training received by the eligible person under Title II of the Veterans' Readjustment Assistance Act of 1952 or of vocational rehabilitation training received under Public Law 894, 81st Congress.

(b) The period of entitlement of an eligible veteran under Title II of the Veterans' Readjustment Assistance Act of 1952 shall be reduced by the full-time equivalent of any period of training received by the eligible person under this law.

§ 21.3016 *Age limitations.* (a) The program of education or special restorative training to which an eligible person is entitled under § 21.3014 may not be afforded prior to the person's 18th birthday or the successful completion of his secondary schooling, whichever first occurs, except:

(1) The eligible person may begin his training before his 18th birthday even though he has not completed high school if he is above the age of compulsory school attendance under applicable State law and it is determined by the Veterans Administration through counselling that his best interests will be served thereby.

(b) The program of education or special restorative training to which an eligible person is entitled under § 21.3014 may not be afforded beyond that date which occurs last, determined in accordance with the following standards:

(1) The eligible person had not reached his 18th birthday on June 29, 1956 in which event the ending date shall be June 29, 1961.

(2) The eligible person had not reached his 23d birthday on June 29, 1956 and serves on duty with the Armed Forces as an eligible person on or after June 29, 1956 and before his 23d birthday in which event the ending date shall be 5 years from the date of the eligible person's first discharge or release from active duty with the Armed Forces after June 29, 1956.

(3) The eligible person had not reached his 23d birthday on June 29, 1956 and the death of the parent from whom eligibility was derived occurs after June 29, 1956 and after the eligible person's 18th but before his 23d birthday, in which event the ending date shall be 5 years from the date of the death of the parent.

(4) When the date otherwise determined beyond which educational assistance or special restorative training may not be afforded to an eligible person enrolled in an educational institution regularly operated on the quarter or semester system occurs during the last half of a quarter or semester, such ending date shall be extended to the end of the unexpired quarter or semester.

(5) When the date otherwise determined beyond which educational assistance or special restorative training may not be afforded to an eligible person enrolled in courses offered by educational institutions not operating on quarter or semester system occurs during the last half of the course such ending date shall be extended to the end of the course or for 9 weeks whichever is earlier.

(6) Under any other circumstances the ending date shall be the eligible person's 23d birthday.

(c) Notwithstanding the provisions of paragraph (b) (1) to (6) of this section, inclusive, educational assistance or special restorative training shall in no event be afforded to an eligible person beyond his 31st birthday or after the exhaustion of the months and days of his entitlement.

(d) For the purposes of the provisions of paragraph (b) (4) and (5) of this section, the definitions of quarter, semester, "summer quarter" (term or session) etc., as specified in § 21.2014 (b) (5) (i), (ii), (iii), (iv), and (vii), shall be for application.

(e) The term "duty with the Armed Forces" as used in paragraph (b) (2) of this section is defined in § 21.3005 (a) (7).

(f) The term "first discharge or release" as used in paragraph (b) (2) of this section means the first unconditional discharge from active service. It does not mean release for the Administrative purpose of accepting a commission or for any other change of status, unless at the time of discharge or release for change in status the eligible person was eligible for release under the length of service system or other criteria then in effect, and elected to remain in the service.

§ 21.3017 *Election of benefits.* (a) An eligible person who is entitled to educational assistance under this law and also to vocational rehabilitation under Public Law 894, 81st Congress, must elect whether he will receive educational assistance under this law, or vocational rehabilitation under Public Law 894. If he elects to receive educational assistance under this law he will have no further right to vocational rehabilitation training under Public Law 894, 81st Congress. If he elects to receive vocational rehabilitation under Public Law 894 he will have no further right to educational assistance under this law. The election of benefits shall be in writing.

(b) An eligible person who enters or resumes a program of education or special restorative training under this law after he initially has been determined to have a compensable disability incurred during the period from June 27, 1950, to January 31, 1955, inclusive, and notified of potential rights to vocational rehabilitation under Public Law 894; or continues to pursue a program of education or special restorative training under this law for a period of more than 30 days after such notification without having filed an application for vocational rehabilitation under Public Law 894 or, having filed such an application, continues under this law for a period of more than 30 days after being found in need under Public Law 894, will be considered to have made his election.

(c) Where the eligible person becomes entitled to vocational rehabilitation training under Public Law 894, after having commenced a program of education or special restorative training under this law and elects to receive vocational rehabilitation, the program of education or special restorative training previously pursued under this law shall be utilized to the fullest extent practicable in determining the character and duration of vocational rehabilitation to be furnished him.

§ 21.3018 *Charges against and exhaustion of entitlement.* Charges against entitlement of an eligible person pursuing a program of education will be made in terms of months and days for periods during which the person is carried in a training status. The period to be charged will be determined by subtracting the calendar date on which the person commenced training from the ending calendar date of the certified period of enrollment. If, after dates are expressed in months and days, it becomes necessary to "borrow" a month to permit a subtraction of days, 30 days will be considered a month. In order to account for both the beginning and ending date of the certified period of enrollment 1 day will be added to the result obtained. If an interruption or discontinuance occurs at a date prior to the ending date of the certified period of enrollment such date of interruption or discontinuance will be substituted as the minuend in the subtraction made to determine the charge against the eligible person's entitlement, and the necessary adjustments in the entitlement accounting record will be made, as appropriate. Where a program of education is pursued on a part-time basis, either one-half or three-fourths of the elapsed time in following such program, as appropriate, will be charged against the eligible person's period of entitlement. A fraction of more than one-half day in the final re-

sult will be counted as one day. A fraction of one-half day or less will be disregarded. For the purpose of determining the period of entitlement stipulated in § 21.3014, all periods of entitlement time represented by charges against entitlement under Public Law 550, 82d Congress, and Public Law 894, 81st Congress, will be used, except that in computing time expended in pursuit of training under the latter there shall be excluded the period for which subsistence allowance is payable after determination of employability (par. 3, pt. VII, Veterans Regulation 1 (a), as amended, 38 U. S. C. ch. 12A).

§ 21.3030 *Applications.* (a) The parent or guardian of a person for whom a program of education or special restorative training is sought under this law shall submit an application to the Veterans Administration on VA Form VB 7–5490. The receipt of such form fully and completely executed as to all essential items is a prerequisite to the approval of a program of education or special restorative training. If an application is not complete, the parent or guardian will be requested to submit a fully completed application.

(b) Any communication from or action by a parent or guardian which clearly indicates an intent to apply for benefits under the law may be considered an informal application thereunder if followed promptly by a formal application, VA Form VB 7–5490, properly executed. The effective date of an application (formal or informal) will be the date of its receipt in the Veterans Administration. The act of an eligible person enrolling in an approved institution does not, in itself, constitute an informal application.

(c) Upon receipt of the properly completed application a determination shall be made as to whether the person on whose behalf the application has been filed is an eligible person. If the person is found to be eligible, the parent or guardian shall be notified of provisional approval of the application. If the person is found to be ineligible, the parent or guardian shall be notified of disapproval.

(d) Further determinations concerning the provisionally approved application shall be pursuant to §§ 21.3031 and 21.3300 respecting counseling and the development of an educational plan, or pursuant to the provisions of §§ 21.3226 and 21.3227 where application has been made for special restorative training.

PROGRAM OF EDUCATION (TITLE III)

§ 21.3031 *Development of educational program and final approval of application.* (a) Upon provisional approval of an application for educational assistance, the parent or guardian will be notified that educational or vocational counseling must be provided to assist in the selection of an objective and in the development of a program of education before further action may be taken.

(b) During or subsequent to counseling the parent or guardian shall prepare on a prescribed form an educational plan which shall set forth the objective selected through counseling or a different objective selected by the parent or guardian, the proposed program of education, the educational institution(s) at which such program is proposed to be pursued, an estimate of the sum which will be required for tuition and fees in completion of such program, and such other information as may be required to establish a program of education in accordance with provisions of the law. This educational plan shall be signed by the parent or guardian and shall become an integral part of the application for educational assistance under the law.

(c) The development of a program of education shall consist of:

(1) The determination and specific identification of an educational, professional, or vocational objective.

(2) The choice of an approved course or courses, or curriculum or curricula generally considered necessary for attainment of the objective.

(3) The choice of an approved educational institution which can provide the program of education required for attainment of the objective.

(d) The objective to be attained through a program of education will be designated as follows:

(1) An educational objective will be designated as the completion of an approved curriculum or curricula leading to the award of a diploma, degree, or certificate which indicates educational attainment as distinguished from certificates or licenses which indicate qualification to practice a trade or profession.

(2) A professional or vocational objective will be designated in terms of an occupation normally pursued as a means of earning a livelihood for which an eligible person desires to prepare himself.

(3) An educational objective may be designated without specific indication of its relationship to a professional or vocational goal or objective. When a professional or vocational objective is designated, however, it may be held to include educational objectives as may be essential to the attainment of the professional or vocational objective. Any program consisting of a series of courses not leading to an educational objective, must be related directly to attainment of or advancement in a professional or vocational objective, and in such cases the professional or vocational objectives must be designated.

(e) An application for a program of education under the law will be given final approval when it is determined that:

(1) Counseling has been conducted to the point of identification of the most suitable objective(s), and

(2) The program of education selected meets the criteria contained in the definition of a program of education as stated in § 21.3005 (a) (9), and

(3) The eligible person is not already qualified by reason of previous education or training for the objective for which the program of education is offered (see § 21.2031 (b) (4) (i), (ii) and (iii)), and

(4) The program of education does not contain courses or elements the enrollment in which is precluded by § 21.3033, and

(5) An educational plan has been submitted in accordance with paragraphs (b) and (c) of this section, and

(6) Pursuit of the proposed program of education does not violate any provision of this law.

§ 21.3032 *Change of program.* (a) A request for a change of program will be made by an eligible person, with concurrence of his parent or guardian, on a prescribed form. Not more than two changes of program will be approved.

(b) The definition of a change of program as contained in § 21.2032 (b) will govern.

(c) In determining the types of course adjustment that will not be considered as changes of program under this law, the provisions of § 21.2032 (d) will be applied.

(d) A change of program will be approved when authorization of the new program is recommended as a result of required counseling conducted in accordance with § 21.3300 (d), provided the recommended program of education meets the other criteria for approval as contained in § 21.3031 (e).

§ 21.3033 *Courses precluded*—(a) *Avocational and recreational courses.* The provisions of § 21.2033 are for application to courses in bartending, dancing, personality development, photography, entertainment, music, public speaking, athletics and any other type of course which the Administrator determines by Veterans Administration regulation to be avocational or recreational.

(b) *Other courses.* The Veterans Administration is prohibited from approving the enrollment under this law of an eligible person in the following courses:

(1) *Flight training.* No course of flight training may be pursued under this law except one given by an institution of higher learning for credit toward the standard collegiate degree for which the eligible person is enrolled.

(2) *Apprenticeship, on-farm, correspondence, television and radio courses.* An eligible person may not pursue under this law any course of apprenticeship or other training on the job, any course of institutional on-farm training or any course to be pursued by correspondence, television or radio.

(3) *Courses in foreign countries.* No course may be pursued under this law at an educational institution not located within the continental limits of the United States, the Territories, and possessions of the United States, or the Commonwealth of Puerto Rico.

(4) *Courses on secondary level.* A curriculum offered by a public or private school at the secondary school level leading to the completion of the eligible person's regular secondary school education, that is, leading to a high school diploma or its equivalent, may not be pursued as a program of education or as a part of a course of education under this law. Where the eligible person has ended his secondary school education by completion, or otherwise after having passed the age of compulsory school attendance, he may pursue a specialized vocational program of education in a school at the secondary level if such program is adjudged to be a specialized vocational program which terminates in qualifying for a bona fide vocational objective. A determination that the proposed program may be pursued would be in order when such program at the secondary school level is deemed to be adequate to prepare graduates to enter directly into employment in the community in the occupation or vocation which the eligible person expects to enter. However, in those instances where the program, although containing essential elements of vocational instruction, includes a heavy weighting of academic subjects of secondary level thereby requiring for completion a total number of instructional hours approximately equal to that normally required for high school graduation, a determination will be proper that enrollment by eligible persons is precluded under this law. All facts bearing upon the past experience of graduates of the specialized vocational program in obtaining employment will be afforded due weight in making the determination.

§ 21.3034 *Discontinuance for unsatisfactory conduct or progress*—(a) *Satisfactory pursuit of training.* Entitlement to a period of education is subject to the provision that an eligible person, having selected a program of education and having commenced the pursuit of such program, continues to maintain satisfactory progress and conduct throughout the period in accordance with the regularly prescribed standards and practices of the institution in which he is enrolled.

(b) *Maintenance of satisfactory conduct and progress.* Educational assistance allowance will be discontinued in any case where it is established that by reason of his unsatisfactory conduct or progress the eligible person will no longer be retained as a student or would not be readmitted as a student by the educational institution in which he is or was enrolled.

§ 21.3035 *Reentrance after discontinuance.* (a) An eligible person may be reentered into training and payment of educational assistance allowance resumed following discontinuance because of unsatisfactory conduct or progress only when the following conditions exist:

(1) The cause of the unsatisfactory conduct or progress has been removed, and

(2) It is determined through further counselling that the program which the eligible person now proposes to pursue is suitable to his aptitudes, interests and abilities.

(b) Reentrance may be for the same program, for a revised program or for an entirely different program depending on the cause of the discontinuance, the removal of that cause, and the determinations arrived at through further counseling.

§ 21.3036 *Period of operation for approval.* For the purpose of this law the provisions of § 21.2036 will govern with respect to the required period of operation of a course.

§ 21.3037 *Institutions listed by Attorney General.* For the purpose of this law the provisions of § 21.2037 will govern in respect to institutions listed by the Attorney General.

§ 21.3051 *Conditions governing payment of educational assistance allowance.* (a) The educational assistance allowance shall be paid to the guardian of the eligible person; to the person recognized as legal custodian pursuant to section 21 of the World War Veterans' Act, as amended (38 U. S. C. 450) and § 13.207; to the eligible person himself if he has attained his majority and has no known legal disability; or to the person so designated under paragraph (c) of this section.

(b) Where the eligible person has not attained his majority, or if he has attained his majority is under a known legal disability, recognition of a person's legal custodian or action towards the appointment of a guardian shall be the responsibility of the Chief Attorney in accordance with governing guardianship regulations.

(c) Parents or guardians normally or generally have responsibilities with respect to the education of their children. There will be some instances, however, where because of distance, illness, indifference, etc., such responsibility will not be properly exercised. In recognition of this fact, when it is found by the Manager after investigation that it would be contrary to the best interest of the eligible person, would result in undue delay, or would not be administratively feasible, the regulations governing submission of application and other action required to be taken by or with respect to the parent or guardian shall not apply. In such event, the eligible person himself shall be designated as the person by or with respect to whom the action so required should be taken, unless the Manager determines that there is some known reason to conclude that the eligible person should not be so designated in which event the Chief Attorney will designate a person suitable to take such actions and/or receive the payments. In no event shall payments be made to a guardian or legal custodian not living in a State (§ 21.3005 (a) (11)).

(d) The educational assistance allowance shall be paid only for the period of the eligible person's approved enrollment, but no allowance shall be paid:

(1) On behalf of any person enrolled in a course which leads to a standard college degree for any period when such person is not pursuing his course in accordance with the regularly established policies and regulations of the educational institution and the requirements of the law, or

(2) On behalf of any person enrolled in a course which does not lead to a standard college degree for any day of absence in excess of 30 days in a 12-month period, or pro rata part thereof for enrollment of less than 12 months in length, counting as absences days during school vacation periods such as at Thanksgiving, Christmas, and Easter, but not counting as absences weekends or legal holidays established by Federal or State law during which the institution is not regularly in session.

(e) For the purposes of paragraph (d) (1) of this section, a course which leads to a standard college degree is defined as any course which leads to: (1) A 4-year baccalaureate or higher degree; (2) advanced professional degree or objective; or (3) collegiate or university associate degree, diploma, certificate or title, provided the following conditions are met: (i) High school graduation or equivalent is required for admission to the course, (ii) a minimum of two full-time academic years is required for completion, and (iii) standard semester or quarter credit-hours are awarded for the course or curriculum, not less than 40 percent of which are acceptable at full value in fulfillment of requirements for a baccalaureate degree by the element of the institution which awards such a degree, or by other baccalaureate degree-granting institutions.

(f) The principle of payment of allowances in arrears as provided by Public Law 550, 82d Congress, is extended to educational assistance allowance payable under this law. Accordingly, such allowance shall be paid to or on behalf of an eligible person for any period only after the Veterans Administration shall have received from the educational institution a report certified to by the eligible person and the educational institution on a form provided by the Veterans Administration for that purpose, showing that the eligible person has been pursuing his course as required by the law. Insofar as they apply to the types of courses and to the extent of training which may be authorized under this law, the principles of the following sections shall govern. References to accredited courses in the relevant sections apply under this law to courses which lead to a standard college degree, and those provisions pertaining to nonaccredited courses apply under this law to those courses which do not lead to a standard college degree.

(1) Section 21.2051 (b) and (d)—submission of monthly certifications of training.

(2) Section 21.2051 (c)—certification of enrollment.

(3) Section 21.5051 (e)—maintenance of record of absences.

(4) Section 21.2051 (f) and (f) (1)—determination of maximum allowable absences.

(5) Section 21.2051 (f) (2) (i), (ii) and (iii)—basis for reduction of educational assistance allowance on account of excessive absences.

(6) Section 21.2051 (f) (3) (i)—amount of reduction for excessive absences.

(7) Section 21.2051 (f) (4)—absences disclosed following termination of training.

(g) Payment of educational assistance allowance shall be subject to offset of amounts of compensation or pension paid over the same period on behalf of a child based on school attendance.

§ 21.3052 *Rates of educational assistance allowances*—(a) *Institutional training; full- and part-time rates.* (1) The educational assistance allowance on behalf of an eligible person who is pursuing a program of education consisting of institutional courses shall be computed at the rate of (i) $110 per month if pursued on a full-time basis, (ii) $80

per month if pursued on a three-quarters time basis, and (iii) $50 per month if pursued on a half-time basis.

(2) No educational assistance allowance shall be paid on behalf of an eligible person for any period during which he is enrolled in and pursuing an institutional course on a less than half-time basis.

(b) *Cooperative courses.* (1) The educational assistance allowance to be paid on behalf of an eligible person who is pursuing a full-time program of education which consists of institutional courses and alternate phases of training in a business or industrial establishment with the training in the business or industrial establishment being strictly supplemental to the institutional portion, shall be computed at the rate of $90 per month.

(2) No educational assistance allowance shall be paid on behalf of an eligible person for any period during which he is enrolled in and pursuing a cooperative course on less than a full-time basis.

§ 21.3054 *Effective beginning dates of entrance or reentrance into training and for payment of educational assistance allowance.* (a) No educational assistance allowance shall be paid for any period prior to October 1, 1956.

(b) Except as provided in subparagraph (3) of this paragraph, the effective beginning date for the payment of educational assistance allowance upon original entrance into training will be the date of receipt of application, date of commencement of the course as certified by the institution on VA Form VB 7–5499, or the effective date of approval of the course by the appropriate approving agency or by the Veterans Administration, whichever is later. The effective date of the approval of the course by the appropriate approving agency shall be the effective date specified by the approving agency in its notice of approval, if such notice of approval is received by the Veterans Administration not later than 60 days after the effective date specified therein by the State approving agency. Where the notice of approval is not received by the Veterans Administration within 60 days from the effective date set forth in the notice of approval, the effective date of approval for the purpose of this paragraph shall be as of the date 60 days prior to the date of notice of approval is received by the Veterans Administration.

(1) The effective beginning date for the payment of educational assistance allowance upon reentrance into training in the same course in the same institution will be the date of recommencement of the course as certified by the institution on VA Form VB 7–5499.

(2) Except as provided in subparagraph (3) of this paragraph, the effective beginning date for payment of educational assistance allowance upon approved reentrance into training which involves a change of program or a change of institution will be the date of commencement or recommencement of the course as certified by the institution on VA Form VB 7–5499, or the date the eligible person's request (concurred in by his guardian or legal custodian) for such change was received by the Veterans Administration, whichever is later.

(3) Where the original application for a program of education, or a request for a change of program or institution, is not received by the Veterans Administration on or prior to the date of enrollment or reenrollment into such program, the effective date for the commencement or recommencement of benefits by virtue of either application shall not be prior to the date of its receipt by the Veterans Administration, except that in an individual case, if the facts, the equities, and the demonstrated good faith on the part of the guardian or legal custodian justify such action, the Manager may personally waive the requirement for timely submission of such applications, or such requirements may be waived by appellate decision pursuant to the appeal of the parent or guardian, or by the eligible person himself, where applicable.

§ 21.3055 *Effective closing dates of an authorization of educational assistance allowance.* The effective closing date shall be the ending date of the course, or the ending date of the period of enrollment as certified by the school, or the ending eligibility date for expiration of all educational assistance for the eligible person, or the expiration of the eligible person's entitlement, whichever occurs first.

§ 21.3056 *Effective date of change or discontinuance of educational assistance allowance.* (a) The effective date of a change in the authorization of educational assistance allowance shall be:

(1) In the event of a change in the extent of the course being pursued, the date the change occurred, e. g., change from full-time to part-time pursuit of course.

(b) The effective date of discontinuance of educational assistance allowance shall be:

(1) In the event of the death of the eligible person, as of the date of death.

(2) In the event of termination of training because of the eligible person's reentry into the active military service as of the date prior to such reentry into the military service, or last date of attendance, whichever is earlier. The educational assistance allowance of members of the organized reserves recalled to active service for brief periods of training duty need not be discontinued: *Provided*, That it is the practice of the institution to grant exception from classes for such periods without requiring formal interruption of training: *And provided further*, That in courses not leading to a standard college degree such days of absence shall be subject to the limitations of § 21.3051 governing payment for absences. Duty with the Armed Forces as defined in § 21.3005 (a) (7) shall not be considered "brief" periods of training duty.

(3) In the event it is found that the conduct or progress of the eligible person is unsatisfactory, as of the date the eligible person is dropped by the educational institution, or as of the date such determination is made by the Administrator, whichever is earlier.

(4) In the event a school in which the eligible person is enrolled is subsequently listed by the Attorney General under paragraph 3, Part III, of Executive Order No. 9835, or section 12, Executive Order No. 10450, as of the date preceding the date of such listing.

(5) As of the date of enrollment in the event the Veterans Administration does not receive the properly completed periodic certifications of training for the first two reporting periods in a period of enrollment.

(6) As of the end of the month for which the last proper payment was made, in the event the eligible person has commenced his course but the Veterans Administration does not receive the properly completed periodic certification of training for two consecutive reporting periods.

(7) In the event of disapproval of a course by the State approving agency, as of the date of receipt in the Veterans Administration of such notice of disapproval, or as of the date of such disapproval, which ever is later, or, in the event of disapproval of a course by the Administrator, as of the date of such disapproval.

(8) In the event discontinuance of educational assistance allowance is effected because of a determination that one or more of the conditions specified in § 21.3208 (b) (2) exist, as of the date specified in § 21.3208 (b) (2).

(9) In the event an eligible person interrupts training in a course prior to completion of the course or completion of the certified period of enrollment, as of the last date of attendance.

(10) In the event the eligible person shall forfeit by reason of fraud all rights, claims, and benefits, as of the date preceding the date of the commission of the act upon which the central committee on waivers and forfeitures based the forfeiture: *Provided, however*, That if the evidence of record establishes that the eligible person was guilty of mutiny, treason, sabotage, or rendering assistance to an enemy of the United States or of its Allies within the meaning of section 4, Public Law 144, 78th Congress, as of the date of decision of forfeiture both for accrued and current allowances.

§ 21.3057 *Duplication of benefits.* (a) The commencement of a program of education under this law shall be a bar to any future payments of compensation or pension under any law administered by the Veterans Administration based on the death of a parent to or on behalf of an eligible person over the age of 18 by reason of pursuing a course in an educational institution, or of increased rates, or additional amounts, of compensation or pension under any law administered by the Veterans Administration because of such a person's pursuit of a course over the age of 18.

(1) The payment of compensation or pension on account of the death of a parent on behalf of a child who is not over the age of 18, or of a child who is permanently incapable of self support, is not affected by reason of the payment of an educational assistance allowance on behalf of such a person.

(b) The provisions of § 21.2057 concerning duplication of benefits shall also bar payment of educational assistance allowance under this law.

§ 21.3063 *Apportionments of educational assistance allowance.* There is no authority under the law for the authorization of apportioned shares of the educational assistance allowance.

§ 21.3066 *Measurement of full- or part-time courses.* (a) Excluding references to less than ½-time training, the principles of the following cited sections shall govern the measurement of courses for purposes of payment of educational assistance allowance under this law:

(1) *Institutional trade or technical courses.* Section 21.2066 (a).

(2) *Institutional courses below college level on a clock-hour basis.* Section 21.2066 (b).

(3) *Institutional undergraduate course recognized for credit toward a standard college degree.* Section 21.2066 (d).

(4) *Accredited graduate or advanced professional courses.* Section 21.2066 (e).

(5) *Law courses.* Section 21.2066 (f).

(6) *Cooperative courses.* Section 21.2066 (h).

(7) *Concurrent enrolment.* Section 21.2066 (j).

(8) *Internship courses; residency courses; registered nursing and registered professional nursing courses; practical nursing courses; and X-ray technician, medical technician, medical records librarian, and physical therapist courses.* The principles of § 21.2066 (k), (l), (m), (n) and (o), respectively, shall govern, except that since the courses referred to in § 21.2066 (o) (2) are considered on-the-job training they may not be pursued under this law.

§ 21.3067 *Overcharges by educational institutions.* (a) The Administrator is authorized to disapprove any educational institution for the enrollment of any eligible person under this law or any eligible veteran under Title II, Public Law 550, 82d Congress, not already enrolled therein, if he finds that such educational institution has charged or received from any eligible person or any veteran eligible for benefits under Title II, Public Law 550, 82d Congress, any amount in excess of the institution's established charges for tuition and fees which the institution requires other similarly circumstanced students to pay.

(b) The charges for tuition and fees for eligible persons enrolled under this law will be those published charges for tuition and fees applicable to all students similarly circumstanced. A charge made by an institution to veterans under the exception in section 234, Public Law 550, 82d Congress (§ 21.2067), will not be considered as a customary charge for tuition or fees.

§ 21.3151 *Approval of courses.* (a) An eligible person shall receive benefits under this law while enrolled in a course of education offered by an educational institution only if the course is approved by the State approving agency for the State where such educational institution is situated, or where appropriate, by the Administrator.

(b) Prior to the date for expiration of all education and training under Public Law 550, 82d Congress, courses will be considered approved for purposes of Public Law 634, 84th Congress, when they have been approved by the State approving agency or by the Administrator in accordance with those criteria and provisions of §§ 21.2151, 21.2203, and 21.2204 provided they are not precluded by § 21.3033 and have not been disapproved under the provisions of section 256 of that act. Where the eligible person desires to take a course which has not been approved under Public Law 550, the institution offering such course should apply to the State approving agency or the Administrator, as appropriate, for approval under Public Law 550.

(c) Subsequent to the date of expiration of all education and training under Public Law 550, 82d Congress, approval of any additional courses for purposes of this law will be the responsibility of the Administrator under the criteria of sections 253 and 254, Title II, Public Law 550, 82d Congress, which are for application to the types of courses which may be pursued under this law.

§ 21.3208 *Disapproval of courses and discontinuance of educational assistance allowance under Public Law 634, 84th Congress.* (a) Any course which has been disapproved by a State approving agency under section 256 (a) of Public Law 550, 82d Congress, shall be considered disapproved for eligible persons under the provisions of this law.

(b) (1) The Administrator, pursuant to section 313 of this law, is authorized to discontinue the educational assistance allowance of any eligible person if he finds that the course of education in which the eligible person is enrolled fails to meet any of the requirements of the law or any of the standards and criteria of section 253 or 254 of Public Law 550, 82d Congress, or if he finds that the educational institution offering such course has violated any provision of the law or fails to meet any of its requirements.

(2) When it has been determined through the application of § § 21.2208 (d) (3) through (11) and 21.2209 that one or more of the following conditions exist, the educational assistance allowances of all eligible persons enrolled in the course or courses offered by an educational institution will be discontinued pursuant to such responsibility and authority effective as of the date specified in § 21.2208 (d) (12) and the Manager shall not thereafter approve the enrollment or reenrollment of any eligible person therein unless subsequently authorized in advance to do so by the Director, Vocational Rehabilitation and Education Service:

(i) The educational institution has willfully and knowingly made a false report or certification concerning an eligible person or his course of education which has resulted or could result in an improper payment of allowances to the eligible person.

(ii) The educational institution has willfully and knowingly failed to report to the Veterans Administration excessive absences from a course or discontinuance or interruption of a course by an eligible person which failure has resulted or could result in improper payment of allowances to the eligible person.

(iii) The educational institution through gross negligence has submitted improper and incorrect reports which have caused or could result in improper payment of allowances to eligible persons. This condition will not be found to exist where the improper report occurs only in an isolated instance or instances or where it is the first occurrence and the educational institution has not been notified previously in writing or where the improper report or reports may be attributed to clerical errors and are shown not to be the result of the failure of the educational institution to provide a recording and reporting procedure which normally would have resulted in proper reports to the Veterans Administration.

(iv) The educational institution after written notice of a violation of a provision of the law or of a failure of the course to meet a specific requirement of the law other than one of the standards and approval criteria included in section 253 or 254 of Public Law 550, 82d Congress, has failed to correct the situation within 30 days of date of such notice or has knowingly and willfully repeated the violation.

(v) The educational institution willfully and knowingly has charged, or received from, an eligible person or a veteran eligible for benefits under Public Law 550, 82d Congress, any amount in excess of the established charges for tuition and fees which the educational institution requires other students similarly circumstanced who are enrolled in the same course to pay (except that the charges permitted by § 21.2067 (a), with respect to veterans enrolled under Public Law 550 in tax-supported public educational institutions which have no established charges for tuition and fees shall not be considered overcharges).

(vi) The educational institution fails or refuses to make available for examination to duly authorized representatives of the Government records and accounts pertaining to the training of eligible persons enrolled therein under the law.

(vii) The course of education in which an eligible person or persons is enrolled fails to meet any one of the standards or approval criteria included in section 253 or 254 of Public Law 550, 82d Congress, a written notice having been given to the State approving agency as to the specific standards or criteria not being met, the failures have not been eliminated within 30 days after such notice.

§ 21.3210 *Reports by institutions*—(a) *Certification forms required.* Educational institutions shall promptly certify to the Veterans Administration the enrollment or reenrollment of an eligible person in a program of education under the provisions of Public Law 634, 84th Congress. Such educational institutions will submit for each eligible person enrolled therein periodic certifications of training showing the person's continued pursuit of his course, attendance, conduct, progress, interruption or

termination of training, and modifications of course which affect the payment of educational assistance allowance.

(i) The enrollment or reenrollment of an eligible person shall be certified by the educational institution on VA Form VB 7–5499.

(i) If the eligible person is enrolled in an institution of higher learning in an undergraduate curriculum leading to a degree objective, the institution's certification of enrollment shall designate the specific curriculum or degree objective for which he is enrolled, e. g., A. B. liberal arts, B. S. engineering, B. S. business administration, etc., except that where it is the practice of the institution to enroll students originally in the "lower division" with the selection of the specific field of specialization for the baccalaureate degree objective postponed until the completion of the lower division curriculum, the institution shall certify to the Veterans Administration as the name of the eligible person's course "lower division—baccalaureate degree," and such a certification will be deemed adequate for Veterans Administration purposes: *Provided, however*, That at the time of the eligible person's next enrollment in his program immediately following the completion of the lower division curriculum, the institution shall certify to the Veterans Administration the exact degree objective for which the eligible person becomes enrolled. This adjustment in the name of the person's objective under these circumstances will not be considered to be a change of program.

(ii) If the eligible person is enrolled in a junior college, the institution shall certify to the Veterans Administration the established curriculum in which he is enrolled, e. g., prelaw, preengineering, associate of arts, etc., irrespective of the fact that the eligible person may have indicated on his application that the objective of a program of education was a 4-year undergraduate college course leading to a baccalaureate degree.

(2) VA Form VB 7–5496, Periodic Certification of Training (under Public Law 634, 84th Congress), shall be signed by the eligible person and an appropriate official of the educational institution monthly for each eligible person enrolled in and pursuing a program of education.

(b) *Reporting the interruption or termination of training.* Educational institutions shall promptly notify the Veterans Administration on VA Form VB 7–5496 in any case where:

(1) The eligible person's training is interrupted or terminated by the eligible person or by the educational institution; or

(2) The eligible person ceases to attend or ceases to maintain satisfactory conduct and progress in accordance with the regularly prescribed standards and practices of the educational institution.

(c) *Administrative allowance for preparation of reports and certifications.* (1) The Administrator shall pay to each educational institution which is required to submit reports and certifications to the Veterans Administration under Public Law 634, 84th Congress, an allowance at the rate of $1 per month for each eligible person enrolled in and attending such institution to assist the educational institution in defraying the expense of preparing and submitting such reports and certifications.

(2) The amount of such allowance to be paid each institution shall be computed on the basis of $1 for each required certification of training actually received by the Veterans Administration for the reporting period.

(3) Payment of the administrative allowance will be made to the institution by the regional office only upon presentation by the institution of properly prepared vouchers with the certificates of training, except that the Manager may authorize payment of the allowance when the voucher is received subsequent to receipt of the training certificates where the failure to submit the voucher and certificates simultaneously was due to (i) a clerical error, or (ii) a previous understanding between the Manager and the institution that isolated certificates need not be accompanied by voucher.

SPECIAL RESTORATIVE TRAINING (TITLE IV)

§ 21.3224 *Cross references.* The sections listed below are for application to special restorative training:

Section 21.3000—Statement of policy.
Section 21.3005—Definitions.
Section 21.3010—Entitlement to educational assistance.
Section 21.3014—Duration of eligible person's entitlement.
Section 21.3016—Age limitations.
Section 21.3017—Election of benefits.
Section 21.3018—Charges against and exhaustion of entitlement.
Section 21.3030—Applications.
Section 21.3037—Institutions listed by Attorney general.
Section 21.3057—Duplication of benefits.
Section 21.3063—Apportionments of educational assistance allowance.

§ 21.3225 *General.* (a) A course of special restorative training for purposes of Title IV of Public Law 634, 84th Congress, is designed to overcome, or lessen, the effects of a physical or mental disability by providing suitable training or retraining to restore or improve the eligible person's ability with respect to physical or mental functions in which he is handicapped and which are essential to enable him to undertake and pursue a program of education as defined in § 21.3005 (a) (9). Special restorative training does not include medical care and treatment or psychiatric treatment.

(b) Special restorative training courses which may be prescribed by the vocational rehabilitation board are courses of training in speech and voice correction or retention, language retraining, speech (lip) reading, auditory training, braille reading and writing, training in ambulation, one-hand typewriting, nondominant handwriting, personal and social adjustment training and remedial reading. Other special restorative training may be prescribed by the Manager upon the recommendation of the vocational rehabilitation board.

(c) No facility operated by the Veterans Administration may be used to provide special restorative training to an eligible person.

§ 21.3226 *Need for special restorative training.* (a) The determination as to the need for and medical feasibility of providing special restorative training, when requested by a parent or guardian under this law will be made by the vocational rehabilitation board (established in each Veterans Administration regional office under § 21.715 (a)) upon the basis of information developed in the counseling process, including data and opinions secured from medical specialists and other experts as appropriate in the case.

(1) A determination will be made that need for special restorative training is established when all of the following conditions are found:

(i) The eligible person has a handicap which may be expected to interfere with pursuit of a program of education.

(ii) The physical and mental condition of the eligible person is such that pursuit of special restorative training would be medically feasible.

(iii) It may reasonably be expected that pursuit of special restorative training will overcome or lessen the handicap by restoring or improving the eligible person's abilities to such extent that it will be practicable for him to pursue a program of education.

(2) When the board finds that the eligible person is in need of only minor elements of a restorative training course, and that these can be pursued concurrently with the pursuit of a program of education, a recommendation will be made that such elements be pursued concurrently with (but not as a part of) a program of education and will find the eligible person not in need of a course of special restorative training.

(3) In the case of an eligible person for whom special restorative training is needed, if the board finds that his physical or mental condition is such that it is not medically feasible to initiate special restorative training, action on the request for restorative training will be suspended until his condition improves to such extent that training is feasible, and the parent or guardian will be informed in writing of this determination. In such case appropriate followup will be made to ascertain when it may be feasible to take further action on the request for special restorative training.

(4) Where the board finds that need for special restorative training is not established, the parent or guardian will be informed of the decision and of his right of appeal.

(b) When the board finds that there is need for a course of special restorative training, such a course suitable to the needs and capacities of the individual, will be developed and approved by the board for referral to a training officer to provide the assistance and supervision that may be necessary for implementation of training plans.

(1) When developing a course of special restorative training activities, the board will give special consideration to the ultimate objective to be accomplished through a program of education to be pursued subsequent to the completion of special restorative training, if such objective has been agreed upon in the process of counseling, in order that the elements of the training course may contribute toward the ultimate objective as far as practicable, and without loss of time in changing from special restorative training to the program of education.

(2) When it is not found practicable for the counselor and the parent or guardian and the eligible person to select a suitable objective for a program of education prior to providing special restorative training, the special restorative training course will be directed toward improving the eligible person's abilities, within the limits of his work tolerance, so that an objective may be chosen and a program of education initiated as early as possible.

(3) If the eligible person proposes to pursue a program of education for an objective which is not considered suitable for him, the special restorative training course will be directed toward restoring or improving his abilities, within the limits of his work tolerance, so that a program of education toward his objective may be initiated as early as possible.

(c) The vocational rehabilitation board will review the case of an eligible person who is referred by the training officer for consideration of reentrance to special restorative training following interruption.

(1) If the board finds that the cause of interruption has been removed and that there is reasonable expectation that the purpose of special restorative training may be accomplished, reentrance will be approved.

(2) If the board finds that there is continuing medical infeasibility of training, action on the request will be suspended while such medical infeasibility continues. In such case the board may recommend any measures considered practicable for the eligible person to take in order to reestablish medical feasibility.

(3) If the board finds that by reason of misconduct or other basis for failure on part of the eligible person to pursue or benefit by special restorative training, there is no reasonable likelihood that further pursuit of such training will accomplish its purpose, discontinuance of training under Title IV of the law will be recommended.

§ 21.3227 *Extent of training.* A course of special restorative training will be prescribed on a full-time basis as determined in each individual case in accordance with one of the following requirements:

(a) The course will require devotion of that amount of time per week which is commonly devoted to a full-time course at an educational institution in each case where, based on medical findings, it is determined that the effects of the physical or mental disability of the eligible person would not preclude the devotion of that amount of time to his training.

(b) The course will require devotion of the maximum amount of time per week which is determined by medical findings to be commensurate with the limitations imposed by the eligible person's disability in each case where medical authority determines that, due to such limitations, the time he should devote to his course is less than the amount of time indicated in paragraph (a) of this section.

(c) The course will require the inclusion of subject matter which will contribute toward the ultimate objective of a program of education tentatively selected by the parent or guardian when it is determined that such additional subject matter is necessary to make the course meet the provisions for the amount of time required by paragraph (a) or (b) of this section because the hours that can reasonably be devoted per week to the elements of needed restorative training will not of themselves meet the relevant requirement.

§ 21.3228 *Conditions governing payment of special training allowance.* (a) Payments shall be made to the person designated to receive the payments under the provisions of § 21.3051 (a) and (b).

(b) The special training allowance shall be paid only for the period of the eligible person's approved enrollment as certified by the responsible training officer. In no event however shall such allowance be paid:

(1) Unless the eligible person is pursuing the prescribed course of special restorative training that has been determined to be full-time training with respect to the capacities of the individual trainee. (See § 21.3227.)

(2) For any period during which the payment of an educational assistance allowance is made.

(c) Payment of special training allowance shall be subject to offset of amounts of compensation or pension paid over the same period on behalf of a child based on school attendance.

§ 21.3229 *Rates of special training allowances.* (a) While the eligible person is enrolled in and pursuing a course of special restorative training the special training allowance shall be computed at the basic rate of $110 per month. This amount may be increased under the conditions provided by paragraph (b) of this section.

(b) If the cost for tuition and fees applicable to any such training averages in excess of $35 per calendar month during a period of enrollment the basic monthly allowance may be increased by the amount that such average costs exceed $35 a month, provided the guardian or legal custodian elects to have the eligible person's period of entitlement reduced by one day for each $3.60 that the special training allowance paid exceeds the basic monthly rate of $110. Fractions of more than one-half day will be charged as one day; fractions of one-half or less will be disregarded. For example, an eligible person pursues special restorative training in speech (lip) reading for a period of 9 months at a tuition cost of $381.50, or an excess of $66.50 over $315 (9 months at $35). If the excess amount is paid the eligible person's entitlement will be reduced by 18 days ($66.50 divided by $3.60 equals 18.4), in addition to the regular 9 months' reduction of entitlement. Such charges will be recorded at the time the authorization action entering the eligible person into training is effected and will be subsequently revised if circumstances require such action. Regular charges against an eligible person's entitlement will be computed on the basis prescribed by § 21.3018 for full-time training.

§ 21.3231 *Effective beginning dates of entrance or reentrance into special restorative training for the payment of a special training allowance.* (a) No special training allowance shall be paid for any period prior to October 1, 1956.

(b) The beginning date of an authorization of a special training allowance shall be the date of entrance or reentrance into the prescribed course of special restorative training, or the date the vocational rehabilitation board approved such course for the eligible person, whichever is later.

§ 21.3232 *Effective ending dates of an authorization of a special training allowance.* (a) The ending date of the payment of a special training allowance will be:

(1) The ending date of the course, or the ending date of the period of enrollment as certified by the training officer, or the ending eligibility date for expiration of all educational assistance for the eligible person, or the expiration of the eligible person's entitlement, whichever occurs first.

(2) Interruption of course, as determined by the training officer under § 21.3233.

(3) As prescribed by § 21.3056 (b) (1), (4), and (10) under the conditions therein described.

§ 21.3233 *Status "interrupted."* (a) An eligible person once entered into special restorative training should pursue his course to completion without interruption. Wherever possible, continuous training shall be provided for each such eligible person, including training during the summer, except where, because of his physical condition or other good reason, it would not be to his best interest to pursue training during the summer.

(b) Special restorative training will be interrupted as necessary under the following conditions:

(1) During summer vacations or periods when no instruction is given before and after summer sessions.

(2) During a prolonged period of illness or medical infeasibility.

(3) When the eligible person voluntarily abandons special restorative training.

(4) When the eligible person fails to make satisfactory progress in the special restorative training course.

(5) When the eligible person is found to be no longer acceptable to the institution because of failure to maintain satisfactory conduct or progress in accordance with the rules of the institution.

§ 21.3234 *Reentrance after interruption.* (a) When a course of special restorative training has been interrupted for one of the reasons set forth in § 21.3233 and the eligible person presents himself for reentrance, the training officer will take action as follows:

(1) Where special restorative training was interrupted under § 21.3233 for a scheduled vacation period, for a short

period of illness or for other reason which does not prevent reentrance in the same course of special restorative training without corrective action the training officer will approve reentrance.

(2) Where special restorative training was interrupted under § 21.3233 by reason of failure to maintain satisfactory conduct or progress or for any other reason which requires corrective action such as change of place of training, change of course, personal adjustment, etc., the case will be referred by the training officer to the vocational rehabilitation board for action in accordance with § 21.3226 (c).

(i) If it is determined that the conditions for which interruption action was taken can be overcome the board will recommend the means by which adjustment in the case is to be made and refer the case to the training officer for appropriate action.

(ii) If all efforts by the board to bring about proper adjustment in the case meet with failure and the board determines that adjustment cannot be made the board will notify the training officer that reentrance is denied and that discontinuance action is to be taken. Inasmuch as discontinuance of special restorative training under this law precludes any further pursuit of such restorative training, action to discontinue should be taken only as a last resort and after all facts lead to the conclusion that there is no warrant to continue special restorative training. In any case of discontinuance the guardian or legal custodian will be notified in writing of the action taken and of his right of appeal. He will also be informed of potential rights to a program of education under Title III of the law.

§ 21.3236 *Authority to make agreements.* (a) The law provides that the Administrator may by agreement arrange with public or private educational institutions or others to provide training arrangements as may be suitable and necessary to accomplish the purposes of Title IV.

(b) The law also provides that in any instance where the Administrator finds that a customary tuition charge is not applicable he may agree on the fair and reasonable amounts which may be charged the parent or guardian for the training provided an eligible person.

(c) The Manager, Assistant Manager and Chief, Vocational Rehabilitation and Education Division, are authorized to enter into agreements in accordance with existing laws, Veterans Administration regulations and policies with public educational or training institutions or individuals in the territory of the regional office for the purpose of providing courses of special restorative training for eligible persons under the provisions of the law. Authority to sign such agreements may be delegated to the Chief, Education and Training, in those regional offices where the Chief, Vocational Rehabilitation and Education Division, recommends such action to the Manager. Each agreement shall contain the same type of information as required for special restorative training contracts under Part VII, including the requirement that educational institutions, or others with whom arrangements have been made to provide training, report to the Veterans Administration promptly the enrollment, interruption or termination of the eligible person's course of special restorative training. An educational institution will be paid $1 upon claim by the institution in accordance with § 21.3210 (c), for any month in which it submits one or more of the above reports required by the Veterans Administration under the terms of the agreement.

§ 21.3237 *Supervision of the eligible person during special restorative training.* (a) Special restorative training is provided for the purpose of overcoming or lessening the effects of a physical or mental disability which would handicap the eligible person in the pursuit of a program of education. In order that the course of special restorative training will accomplish the purpose intended in a satisfactory manner, there will be close supervision to assure satisfactory progress and when needed proper and timely adjustments. In the process of supervision the training officer must keep in mind two factors in particular:

(1) That unless the course is properly provided both in kind and amount the eligible person's chances for ultimate successful completion of a program of education are jeopardized.

(2) Because all time spent in a course of special restorative training is subtracted from the time the law allows for a program of education, there must not be any waste of time or prolonging of the course of special restorative training beyond that necessary to accomplish the purpose of such training.

(b) Supervision by the training officer shall as a minimum consist of the following:

(1) Knowledge as to the progress of the eligible person at all times.

(2) The assisting of the eligible person and his instructor in all matters affecting training.

(3) A continuing alertness to discover any new developments which may affect progress and the exertion of every effort to forestall or remove any disadvantageous factors.

(4) The maintaining of adequate records of the progress of the eligible person. This will include records of the eligible person's attendance, personal conduct and application to the course.

(c) When in the process of supervision it is determined that adjustments are needed in the course or in the training situation the training officer will take immediate action to bring about such adjustments in accordance with the following:

(1) When the eligible person or his instructor indicates dissatisfaction with elements of the program the training officer through personal discussion with the eligible person and/or his instructor will effect, if possible, a correction of the difficulty through such means as making minor adjustments in the course or through persuading the eligible person to give more attention to performance.

(2) When it develops that there are difficulties of major significance which cannot be corrected by the training officer, he will prepare a report of all pertinent facts and submit it to the vocational rehabilitation board for proper action. This report will include the training officer's recommendations.

(3) When in process of supervision it is determined by the training officer that the eligible person is making progress much faster than was anticipated and it is clear that his course may be terminated with satisfactory results short of the time originally planned, he will take action to terminate the course at the proper time so that the eligible person's entitlement to an educational program may be conserved.

(d) As long as the eligible person is making satisfactory progress toward the established objective of overcoming the effect of his handicap, the training officer will continue the eligible person in his course of training without accounting for days of nonattendance within his authorized enrollment. However, in any instance where the training officer finds that the eligible person's progress toward his objective is unsatisfactory or that because of the person's negligence, lack of application or misconduct, his progress is being materially retarded he will interrupt the course of instruction.

MISCELLANEOUS PROVISIONS

§ 21.3300 *Educational and vocational counseling.* (a) Educational and vocational counseling will be required and provided to assist the parent or guardian and the eligible person in selecting a suitable educational, professional, or vocational objective and in developing an appropriate program of education. Counseling will be provided eligible persons under this law at Veterans Administration regional offices; and will include the application, as appropriate in individual cases, of comprehensive vocational counseling techniques and procedures which have been established for counseling veterans. This will include counseling with regard to related personal problems which are likely to interfere with the selection of a suitable objective or successful pursuit of a program of education.

(b) Counseling will be required in the case of each eligible person in whose behalf an application for a program of education has been approved provisionally under § 21.3030.

(1) The purpose of initial counseling will be to assist the eligible person in selecting a suitable educational, vocational, or professional objective and in developing an appropriate program of education to attain it.

(2) For the purpose of compliance with § 21.3031 (e) (1) the counselor will execute an appropriate certificate, when counseling has been provided as needed for the purpose indicated in subparagraph (1) of this paragraph. The objective and program of education will be entered on the certificate if the selection is made during the counseling process.

(3) If desired, the counselor will also assist in the preparation of an educational plan to supplement the application. (See § 21.3031 (b).) If an objective and the educational plan to accomplish it are not mutually agreed upon during counseling, the parent or guardian will be informed that the educational plan desired by the parent or guardian must be prepared and submitted before final action can be taken on the application.

(c) Counseling will be required in the case of each eligible person for whom special restorative training is requested, for purposes stated below.

(1) Counseling will be provided before referral of a case to the vocational rehabilitation board in accordance with § 21.3226 in order to develop the information which will be needed by the board for consideration of need for special restorative training and for planning and prescribing a course of such training to meet the needs of the individual.

(2) When an eligible person completes or discontinues a course of special restorative training under Title IV, without an objective and program of education having been selected under Title III, additional counseling will be provided to assist in selecting a program of education in accordance with paragraph (b) of this section.

(d) Additional counseling will be required before taking action upon a request for reentrance after discontinuance of a program of education under § 21.3034, or any request for a change of program, except that such request received from an eligible person who has previously made two changes of program will be denied without requiring additional counseling.

(1) When there is no record of unsatisfactory conduct or progress, the counselor will recommend authorization of a change of program if he finds that an objective and program selected in the counseling process is suitable for the eligible person with respect to his aptitudes interests, and abilities. If the eligible person will not select a suitable objective and program, the counselor will disapprove the request for change of program and inform the parent or guardian in writing of the decision and of his right of appeal.

(2) When an eligible person desires to reenter training after his educational assistance allowance has been discontinued because of unsatisfactory conduct or progress in accordance with § 21.3034, or when an eligible person requests a change of program prior to discontinuance because he is not making satisfactory progress, the counselor will recommend authorization of reentrance or of a change of program of education under the following conditions:

(i) If the cause of discontinuance was unsatisfactory conduct, the counselor will secure information concerning it, including a report of the institution at which the eligible person was enrolled, and any other evidence to indicate whether it may reasonably be expected that such conduct will not recur. If the counselor finds a reasonable basis for assurance that misconduct will not recur, he will take appropriate action as provided in subdivision (ii) of this subparagraph. All other cases involving misconduct will be referred for final determination to a committee consisting of the Chief of the Vocational Rehabilitation and Education Division, a representative from Counseling and from Education and Training.

(ii) In cases involving unsatisfactory progress, if the counselor finds that the cause of unsatisfactory progress has been removed, he will recommend authorization of reentrance or of a change of program provided the program of education (the same or revised) selected is suitable to the aptitudes, interests, and abilities of the eligible person.

(iii) A request for reentrance after discontinuance because of unsatisfactory conduct or progress or for a change of program after unsatisfactory progress will be disapproved when:

(*a*) The finding regarding conduct is unfavorable; or

(*b*) It is determined that the cause of failure to progress has not been removed; or

(c) The eligible person fails during the counseling process to select a suitable program of education.

Notice of disapproval and of the right of appeal will be sent to the parent or guardian.

(e) Travel at Government expense, including meals and lodging, may be authorized as necessary for an eligible person to and from the place where counseling appointments are scheduled for him in accordance with paragraphs (a) through (d) of this section.

(f) Notice of required counseling will be sent to the eligible person, and the parent or guardian. When an eligible person fails to report for required educational or vocational counseling or refuses to cooperate in the process of counseling to the extent necessary for certification in accordance with § 21.3031 (e) (1), the parent or guardian will be informed that action to approve the application or request cannot be taken until the eligible person is prepared to cooperate in carrying forward the counseling process.

(g) Additional counseling may be provided an eligible person while pursuing a program of education or during a period of interruption, only when the counselor determines that the circumstances in the case justify such assistance because of uncertainty as to the suitability of the program being pursued by the eligible person or because of personal problems which are interfering with pursuit of his program of education. When counseling is provided upon such requests of the parent or guardian, travel will not be authorized at Government expense.

§ 21.3301 *Control by agencies of the United States.* (a) The principles set forth in § 21.2301 are fully applicable to Public Law 634, 84th Congress.

§ 21.3302 *Conflicting interests.* (a) Section 504 of Public Law 634, 84th Congress, provides that:

SEC. 504. (a) Every officer or employee of the Veterans' Administration who has, while such an officer or employee, owned any interest in, or received any wages, salary, dividends, profits, gratuities, or services from, any educational institution operated for profit in which an eligible person was pursuing a course of education under this Act shall be immediately dismissed from his office or employment.

(b) The Administrator may, after reasonable notice and public hearings, waive in writing the application of the this section in the case of any officer or employee of the Veterans' Administration, if he finds that no detriment will result to the United States or to eligible persons by reason of such interest or connection of such officer or employee.

(b) This section of the law applies only to an institution operated for profit and only to a period when at least one eligible person was—or is—enrolled therein under Public Law 634, 84th Congress.

(c) Where it is found that a Veterans Administration employee owns or has owned any interest in, or received any wages, salary, dividends, profits, gratuities, or services from, any such educational institution, the Manager, in the case of a field station employee, or the responsible Central Office official concerned, in the case of a central office employee, will proceed in accordance with the provisions set forth in governing personnel policies respecting conflicting interests under Public Law 550, 82d Congress.

(d) Where a request is made to the Administrator for waiver of the application of section 504, Public Law 634, 84th Congress, with respect to any officer or employee of the Veterans Administration, the Administrator, unless for other valid reasons it is shown that waiver should not be granted, will find that no detriment will result to the United States or to eligible persons by reason of such interest or connection of such officer or employee, provided the employee concerned (1) acquired his interest in such institution by operation of law, or acquired it, or his connection with such institution began, before the statute became applicable to such employee, and such interest has been disposed of and his connection discontinued, or (2) meets all the following conditions:

(i) His position involves no policy determinations, at any administrative level, having to do with matters pertaining to Public Law 634.

(ii) His position has no relationship with the processing of any eligible person's claim for educational assistance under the law.

(iii) His position precludes him from taking any adjudication action on individual cases under the law.

(iv) His position does not require him to perform duties involved in the investigation of irregular actions on the part of schools or eligible persons in connection with the Public Law 634.

(v) His position is not connected with the processing of claims by, or payments to, institutions or students enrolled therein under the provisions of the Public Law 634.

(vi) His work is not connected in any way with the inspection, approval, or supervision of institutions desiring to train eligible persons under the provisions of Public Law 634, 84th Congress.

(e) There is hereby delegated to the Director, Vocational Rehabilitation and Education Service, the authority to grant waivers in the case of any employee who meets the criteria set forth in paragraph (d) of this section and to deny all re-

quests for waivers which do not meet such criteria, except those requests which, in the opinion of the Director, Vocational Rehabilitation and Education Service, should be submitted to the Administrator for final decision. The Administrator reserves the right to grant waivers in the case of any employee who does not meet all of the criteria set forth in paragraph (d) of this section, when he determines that no detriment will result to the United States or to eligible persons by reasons of the interest or connection of the officer or employee involved.

§ 21.3304 *Liability of educational institutions on account of overpayments of educational assistance allowance, section 506, Public Law 634, 84th Congress.* (a) Section 506, Public Law 634, 84th Congress, provides:

> If the Administrator finds that an overpayment has been made to an eligible person as the result of (1) the willful or negligent failure of an educational institution to report, as required by this act and applicable regulations, to the Veterans Administration excessive absences from a course, or discontinuance or interruption of a course by the eligible person or (2) false certification by an educational institution, the amount of such overpayment shall constitute a liability of such institution, and may be recovered in the same manner as any other debt due the United States. Any amount so collected shall be reimbursed if the overpayment is recovered from the eligible person. This section shall not preclude the imposition of any civil or criminal action under this or any other act.

(b) The principles set forth in § 21.2304 are fully applicable with respect to this section of the law.

§ 21.3305 *Overpayments of education and training and other Veterans Administration benefits.* (a) Where a parent or guardian has failed to make arrangements with the finance activity to restore or refund an outstanding overpayment of benefits made in behalf of the eligible person under this law or where the eligible person has failed to make such satisfactory arrangements to restore or refund an outstanding overpayment made to him under any law administered by the Veterans Administration and due the Government, the benefits and facilities activity may not thereafter reenter the eligible person into his program of education or special restorative training until satisfactory arrangements have been made to liquidate the outstanding overpayment. In any such instance, the benefits and facilities activity will be responsibile for giving proper notification to the parent or guardian and the institution.

(1) Where an eligible person has failed to make arrangements with the finance activity to restore or refund an outstanding overpayment of vocational rehabilitation and education benefits under either Public Law 550, 82d Congress, or Public Law 894, 81st Congress, original entry into training under this law may not be permitted until arrangements have been made to liquidate the overpayment. The parent or guardian and institution will be appropriately notified.

(b) Where further benefits have been denied under the conditions referred to in paragraph (a) of this section, and satisfactory arrangements are subsequently made with the finance activity to restore or refund an outstanding overpayment, the effective date of commencement of educational assistance allowance or special training allowance shall not be earlier than the date the satisfactory arrangements were made to refund the overpayment.

§ 21.3306 *Examination of records.* (a) The records and accounts of educational institutions pertaining to eligible persons enrolled in programs of education or special restorative training under Public Law 634, 84th Congress, shall be available for examination by duly authorized representatives of the Government.

(b) Each educational institution which is enrolling or has enrolled eligible persons under Public Law 634, 84th Congress, shall upon request of duly authorized representatives of the Government make available for examination all appropriate records and accounts including but not limited to:

(1) Records and accounts which are evidence of tuition and fees charged to and received from or on behalf of all eligible persons enrolled under the law and from other students similarly circumstanced.

(2) Records of previous education or training of eligible persons enrolled under the law at the time of admission as students and records of advance credit, if any, granted by the institution at the time of admission, and

(3) Records of the eligible person's grades and progress.

(c) The institution having eligible persons enrolled in a course or courses which do not lead to a standard college degree will make available in addition to the records and accounts required in paragraph (b) of this section, the following:

(1) Records of leave, absences, class cuts, makeup work and tardiness.

(d) The institution having eligible persons enrolled in courses approved under section 254 of Public Law 550, 82d Congress, will make available, in addition to the records and accounts required in paragraphs (b) and (c) of this section, the following:

(1) Records of interruptions for unsatisfactory conduct or attendance.

(2) Records of refunds of tuition, fees and other charges made to an eligible person who fails to enter the course or withdraws or is discontinued prior to completion of the course.

(e) Failure to make such records available as provided in this section shall be grounds for discontinuing the payment of educational assistance or special training allowances under the law.

§ 21.3307 *False or misleading statements.* The Veterans Administration shall not make any payments under the law to any person found by the Veterans Administration to have willfully submitted any false or misleading claim. In each case where the Manager finds that an educational institution or other person has willfully submitted a false or misleading claim or where an eligible person with the complicity of an educational institution or other person has submitted such a claim the Manager shall report the complete facts to the appropriate State approving agency and, where deemed advisable, to the United States Attorney for appropriate action. The latter shall be done by the Chief Attorney or the General Counsel in accordance with existing Veterans Administration regulations if in the opinion of such official there is a basis for either civil or criminal action.

§ 21.3308 *Criminal penalties and forfeiture of rights.* Public Law 634, 84th Congress, makes provision for certain penalties upon the finding of willful, fraudulent acts having to do with any claim for payment or any matter arising under the law including forfeiture of rights, claims and benefits thereunder and under Public Law 2, 73d Congress, as amended. In carrying out these provisions of the law the principles and procedures set forth in § 21.2308 (a) will govern.

§ 21.3309 *Appeals.* All questions respecting any adjudicatory determination under Public Law 634, 84th Congress, are subject to the right of the parent or guardian to appeal to the Administrator of Veterans Affairs and any notice of the determination adverse to the interest of the claimant shall include information respecting such right of appeal. All applicable regulatory provisions governing notice of right of appeal, reception, development, processing and certification of appeal upon the part of the vocational rehabilitation and education activity of original jurisdiction are governing.

§ 21.3310 *Waiver of recovery of overpayments.* All applicable regulatory provisions governing waiver of recovery of overpayments shall be applicable to overpayments of educational assistance allowance or special training allowance under this law.

§ 21.3311 *Application of other laws.* (a) The provisions of the following cited statutes, and governing Veterans Administration regulations thereunder shall be for application under this law:

(1) Public Law 262, 74th Congress, relative to payments to mental incompetents and to persons under other legal disabilities and to nonassignability of payments and exemption thereof from taxation and claims of creditors.

(2) Section 15 of Public Law 2, 73d Congress, making certain false statements and claims a crime and for forfeiture of veterans' benefits in such cases.

(3) Paragraph V, Part I, Veterans Regulation 2 (a) (38 U. S. C. ch. 12A), relating to payments of unpaid benefits after death.

(4) Titles II and III of Public Law 844, 74th Congress, relating to agents and attorneys and to investigations, subpenas, etc.

This regulation is effective August 17, 1956.

[SEAL] JOHN S. PATTERSON,
Deputy Administrator.

[F. R. Doc. 56-6648; Filed, Aug. 16, 1956; 8:46 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 111—FEDERAL ASSISTANCE UNDER TITLE IV, AFTER JUNE 30, 1956, IN THE CONSTRUCTION OF MINIMUM SCHOOL FACILITIES IN AREAS AFFECTED BY FEDERAL ACTIVITIES

Part 111 is added to 45 CFR, Subtitle B, Chapter I, and, among other things, establishes regulations for the filing and processing of applications for Federal grants for school construction under Title IV of Public Law 815, 81st Congress (64 Stat. 967), as added by Public Law 246, 83d Congress (67 Stat. 522), and as extended and amended by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949, 84th Congress (70 Stat. 968); establishes a cutoff date for filing such applications; and provides for priority indices to establish the order of approval of such applications and of making payments from funds available on the cutoff date.

Part 111 reads as follows:

Subpart A—Filing and Processing of Complete Applications

Sec.
111.1 Definitions.
111.2 Procedure if funds are inadequate to make all payments.
111.3 Determination of priority indices for applications under section 401.
111.4 Determination of available and usable school facilities.
111.5 Certification of payments.
111.6 Priority and approval of applications; conditioned upon readiness to proceed with construction.
111.10 Preceding provisions not exhaustive of jurisdiction of the Commissioner.

Subpart B—Establishment of Deadline for Filing Applications

111.20 First deadline for applications during fiscal year 1957.

AUTHORITY: §§ 111.1 to 111.20 issued under sec. 208, 64 Stat. 975; 20 U. S. C. 278. Interpret or apply sec. 210, 64 Stat. 976, as amended, secs. 11, 109, 70 Stat. 908, 968, sec. 1, 67 Stat. 526, as amended; 20 U. S. C. 280, 311.

SUBPART A—FILING AND PROCESSING OF COMPLETE APPLICATIONS

§ 111.1 *Definitions.* All terms used in this part which are defined in Public Law 815, 81st Congress (64 Stat. 967), as added by Public Law 246, 83d Congress (67 Stat. 522), and as amended by Public Law 731, 83d Congress (68 Stat. 1005), and by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949 (70 Stat. 968), and not defined in this section shall have the meaning given to them in Public Law 815, as amended. As used in this part, for purposes of this part and determinations under the act as hereinafter defined, the following terms shall have the meaning indicated in paragraphs (a) to (q) of this section:

(a) *Act.* "The act" means title IV of Public Law 815, 81st Congress (64 Stat. 967), as added by Public Law 246, 83d Congress (67 Stat. 522), and as extended and amended by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949 (70 Stat. 968), and such provisions of titles I and II of Public Law 815 as are made applicable to title IV by Public Law 246.

(b) *Title IV.* "Title IV" means title IV of Public Law 815, 81st Congress, as added by Public Law 246, 83d Congress, extended and amended by the 84th Congress by Public Law 382, Public Law 896, and Public Law 949, and such provisions of titles I and II of Public Law 815 as are made applicable to it by Public Law 246.

(c) *Commissioner.* "Commissioner" means the Commissioner of Education, Department of Health, Education, and Welfare or his delegatee.

(d) *Local educational agency.* "Local educational agency" means a board of education or other legally constituted local school authority (including, where applicable, a State agency which directly operates and maintains facilities for providing free public education) having exclusive administrative control and direction of free public education, or some phase thereof, in a county, township, independent, or other school district located within a State. If the local educational agency so defined does not have responsibility for providing school facilities and such responsibility is vested in a State agency, the term shall include such State agency together with the agency having exclusive administrative control and direction of other phases of free public education.

(e) *Free public education.* "Free public education" means education which is provided at public expense, under public supervision and direction, and which is provided as elementary or secondary school education in the applicable State. Elementary education may include kindergarten education meeting the above criteria for the first year prior to the first elementary grade.

(f) *Applicant.* An "applicant" is a local educational agency which has filed a complete application for assistance in school construction under the act and this part.

(g) *Complete application.* Where an applicant submits only one project by a filing date, the "complete application" at that time consists of both Part I (Maximum Grant) and Part II (Project) of the application Form RSF–2 prescribed by the Commissioner for use under this act, properly completed and executed, together with all documents, amendments, and communications in support thereof. Where applicant submits more than one project by a filing date, the Part I form and all Part II forms, properly executed and completed, together with all documents, amendments, and communications in support thereof on file at that time, shall be considered as the "complete application." Where more than one Part II application is submitted by an applicant, the applicant shall indicate the order in which its project applications are to be considered by the Commissioner. Only applications meeting the conditions for approval under title IV and this part shall be considered complete applications under title IV.

(h) *Project application.* "Project application" means Form RSF–2, Part II, properly completed and executed, making application for Federal assistance for providing school facilities under title IV.

(i) *Filing of applications.* An application will not be deemed to be "filed" unless all necessary parts of the complete application, bearing the required certifications and verifications by the State educational agency, are received by the Commissioner, or enclosed in a cover addressed to the Commissioner and postmarked, on or before the applicable filing date as established by Subpart B of this part.

(j) *Minimum school facilities.* "Minimum school facilities" means those instructional and auxiliary rooms (and initial equipment), exclusive of single purpose auditoriums, single purpose gymnasiums, and any built-in spectator space, necessary to operate a program of free public education for the school members of the applicant at normal capacity in accordance with the laws and customs of the State.

(k) *Available and usable school facilities.* "Available and usable school facilities" means those facilities containing pupil stations counted in ascertaining children who are "unhoused" or "without minimum school facilities."

(l) *Normal capacity.* The "normal capacity" of a school room is the number of pupil stations which the room accommodates under ordinary conditions in accordance with the laws and customs of the State governing free public education, provided that where kindergartens may be conducted on a two-session-per-day basis the number of pupil stations of the rooms used for that purpose shall be doubled in determining kindergarten needs.

(m) *Children who are unhoused or without minimum school facilities.* Children who are "unhoused" or "without minimum school facilities" are those children in excess of the normal capacity of available and usable minimum school facilities.

(n) *Membership.* Unless governed by State law or State regulation, a pupil is a "member" of a class or school from the date he presents himself at school and is placed on the current roll until he permanently leaves the class or school for one of the causes recognized as sufficient by the State. The date of permanent withdrawal should be the date on which it is officially known that the pupil has left school, and not necessarily the first day after the date of last attendance.

(o) *Average daily membership.* In a given school year, the "average daily membership" for a given school is the aggregate days of membership of individual children in the school divided by the number of days school was actually in session. Only days on which pupils were under the guidance and direction of teachers in the teaching process may be considered as days in session. The average daily membership for groups of schools having varying lengths of terms is the sum of the average daily memberships obtained for the individual schools.

(p) *Priority indices.* The "priority indices" are the indices established pursuant to this part based on relative ur-

gency of need for the purpose of determining, under title IV, the order of approval of applications and the order of payments.

(q) *Substantial percentage.* An application will not be considered to meet the "substantial percentage" requirement under section 401 (a) (1) of title IV which does not show that the total number of children who reside on Federal property (for whom the applicant is providing or, upon completion of the school facilities for which provision is made in section 401 (a), will provide free public education, and whose membership in the schools of such applicant has not formed and will not form the basis for payments under title II or title III of Public Law 815, as amended) is in excess of 15 and represents at least 10 percent of the total number of children for whom the applicant is providing free public education.

§ 111.2 *Procedure if funds are inadequate to make all payments.* Section 401 (c), title IV, reads in part as follows:

> In determining the order in which such applications shall be approved, the Commissioner shall consider the relative educational and financial needs of the local educational agencies which have submitted approvable applications and the nature and extent of the Federal responsibility.

§ 111.3 *Determination of priority indices for applications under section 401.* When the Commissioner has set a date by which complete applications must be filed, the priority indices for approval of such applications shall be determined as follows:

(a) A priority index will be determined for the first construction project for each applicant under section 401 by adding (1) the percentage that the estimated membership of the eligible federally connected children of the school district is of the total estimated membership of all children of such school district at the close of the regular school year 1957–58 to (2) the percentage of the estimated school membership within the school district which at the same time is without minimum school facilities: *Provided*, That in no case shall the total of the two percentages used in determining the priority index exceed twice the percentage in subparagraph (1) of this paragraph.

(b) In those cases where an applicant has filed more than one project application, the priority index for the second project will be determined by: (1) Dividing the normal capacity of the first project by the total estimated membership at the close of the regular school year 1957–58, and (2) reducing the applicant's priority index by twice the percentage so obtained. Where more than two project applications have been filed, the applicant's priority index for each succeeding project shall be reduced by the cumulative total capacity, as provided in the first sentence of this paragraph, of all the approved projects of the applicant.

§ 111.4 *Determination of available and usable school facilities.* The following school facilities shall be counted as usable and available in determining "unhoused children" or "children without school facilities":

(a) All school facilities which were constructed for school use and which have been used continuously for classroom purposes shall be considered as available and usable unless such facilities have become unsafe or otherwise unusuable to the extent that use of such facilities or partial use of such facilities has been abandoned or must be abandoned during the fiscal year in which the application is approved. Basement rooms, hallways, or other space the use of which for classroom purposes, in view of their character, inaccessibility, or other equally cogent reason, seriously prejudices educational objectives or has impaired or will impair the health or safety of the school children, will not be considered to be available and usable. These criteria shall apply to all facilities owned by other Federal agencies which are available or which may be made available for the education of children counted by applicants

(b) All school facilities for the construction of which contracts have been let on or before any final date for filing applications shall be considered to be available and usable for the purpose of the applications filed on such date; and all school facilities which have been approved under title II, title III, or title IV of Public Law 815 shall be considered as available and usable as of the date of approval.

(c) All minimum school facilities which with full utilization of practically available financial resources could be provided from local, State, or other Federal sources shall be considered as available and usable in making determinations under title IV. The capacity of school facilities which could be so provided shall be determined by dividing the sum of such resources by the cost per pupil of providing minimum school facilities in the applicant's school district.

§ 111.5 *Certification of payments.* Payments to an applicant will be made only on the basis of a complete application satisfying conditions for payment under the act and this part, and will be restricted in amount to the cost of providing minimum school facilities for unhoused children; however: Payments under title IV shall not exceed the portion of the cost of minimum school facilities which the Commissioner estimates is attributable to children who reside on Federal property, and which has not been, and is not to be, recovered by the applicant from other sources, including payments by the United States under any other provisions of Public Law 815, 81st Congress, as amended, or any other law; and such payments may be upon such terms and in such amounts, subject to the provisions of title IV, as the Commissioner may consider to be in the public interest.

§ 111.6 *Priority and approval of applications; conditioned upon readiness to proceed with construction.* Initial approval of a project application meeting the conditions for approval under the act and under this part will be subject to cancellation in the event the applicant is not ready to proceed with construction within 90 days after the date of initial approval, unless such period is extended by the Commissioner for good cause shown; and the applicant's rights to approval and payment may be subordinated by reason thereof to other project applications of lower rank or the applicant may forfeit its priority in the discretion of the Commissioner.

§ 111.7 *Preceding provisions not exhaustive of jurisdiction of the Commissioner.* No provision of this part now or hereafter promulgated shall be deemed exhaustive of the jurisidiction of the Commissioner under the act. The provisions of this part may be modified or further regulations may be issued hereafter as circumstances may warrant.

SUBPART B—ESTABLISHMENT OF DEADLINE FOR FILING APPLICATIONS

§ 111.20 *First deadline for applications with respect to funds available during fiscal year 1957.* Pursuant to section 401 (c) of title IV, December 3, 1956, is fixed as the date on or before which all complete applications for payments to which an applicant may be entitled under title IV from funds then available for such purpose shall be filed.

[SEAL] S. M. BROWNELL,
United States Commissioner of Education.

Approved: August 13, 1956.

HEROLD C. HUNT,
Acting Secretary of Health, Education, and Welfare.

[F. R. Doc. 56-6666; Filed, Aug. 16, 1956; 8:49 a. m.]

PART 112—FEDERAL ASSISTANCE IN THE CONSTRUCTION OF MINIMUM SCHOOL FACILITIES UNDER TITLE III IN AREAS AFFECTED BY FEDERAL ACTIVITIES WITH RESPECT TO APPLICATIONS FILED AFTER JUNE 30, 1956

Part 112 is added to 45 CFR, Subtitle B, Chapter I, and, among other things, establishes regulations for the filing and processing of applications for Federal Grants for school construction under title III of Public Law 815, 81st Congress (64 Stat. 967), as added by Public Law 246, 83d Congress (67 Stat. 522), and as amended by Public Law 731, 83d Congress (68 Stat. 1005), and by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949, 84th Congress (70 Stat. 968); establishes regulations for a new method of determining available facilities; establishes a first cutoff date for filing applications with respect to funds available during fiscal year 1957; and provides for priority indices to establish the order of approval of applications and of making payments from funds available on a cutoff date.

Part 112 reads as follows:

Subpart A—Filing and Processing of Complete Applications

Sec.
112.1 Definitions.
112.2 Procedure if funds are inadequate to make all payments.
112.3 Determination of priority indices for applications under section 305.
112.4 Determination of available and usable school facilities.
112.5 Criteria for waiver under section 305 (e), title III of the act.
112.6 School facilities for children whose membership is of temporary duration only.
112.7 Certification of payments.
112.8 Additional payments under section 308 of the act.
112.9 Priority and approval of applications; conditioned upon readiness to proceed with construction.
112.10 Preceding provisions not exhaustive of jurisdiction of the Commissioner.

Subpart B—Establishment of Deadlines for Filing Applications

112.20 First deadline for applications with respect to funds available during fiscal year 1957.

AUTHORITY: §§ 112.1 to 112.20 issued under sec. 208, 64 Stat. 975; 20 U. S. C. 278. Interpret or apply sec. 203, 64 Stat. 971, as amended, sec. 210, 64 Stat. 976, as amended, sec. 1, 67 Stat. 522, as amended, secs. 101–103, 70 Stat. 968; 20 U. S. C. 273, 280, 291–301.

SUBPART A—FILING AND PROCESSING OF COMPLETE APPLICATIONS

§ 112.1 *Definitions.* All terms used in this part which are defined in Public Law 815, 81st Congress (64 Stat. 967), as added by Public Law 246, 83d Congress (67 Stat. 522), and as amended by Public Law 731, 83d Congress (68 Stat. 1005), and by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949, 84th Congress (70 Stat. 968), and not defined in this section shall have the meaning given to them in Public Law 815 as amended. As used in this part, for purposes of this part and determinations under the act as hereinafter defined, the following terms shall have the meaning indicated in paragraphs (a) to (q) of this section:

(a) *Act.* "The act" means title III of Public Law 815, 81st Congress (64 Stat. 967), as added by Public Law 246, 83d Congress (67 Stat. 522), and as amended by Public Law 731, 83d Congress (68 Stat. 1005), and by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949 (70 Stat. 968), and such provisions of titles I and II of Public Law 815, as amended, as are made applicable to title III by Public Law 246, as amended.

(b) *Title III.* "Title III" means title III of Public Law 815, 81st Congress, as added by Public Law 246, 83d Congress, and as amended by Public Law 731, 83d Congress, and by the 84th Congress by Public Law 382 (69 Stat. 713), Public Law 896 (70 Stat. 908), and Public Law 949 (70 Stat. 968), and such provisions of titles I and II of Public Law 815, as amended, as are made applicable to it by Public Law 246, as amended.

(c) *Commissioner.* "Commissioner" means the Commissioner of Education, Department of Health, Education, and Welfare or his delegatee.

(d) *Local educational agency.* "Local educational agency" means a board of education or other legally constituted local school authority (including, where applicable, a State agency which directly operates and maintains facilities for providing free public education) having exclusive administrative control and direction of free public education, or some phase thereof, in a county, township, independent, or other school district located within a State. If the local educational agency so defined does not have responsibility for providing school facilities and such responsibility is vested in a State agency, the term shall include such State agency together with the agency having exclusive administrative control and direction of other phases of free public education.

(e) *Free public education.* "Free public education" means education which is provided at public expense, under public supervision and direction, and which is provided as elementary or secondary school education in the applicable State. Elementary education may include kindergarten education meeting the above criteria.

(f) *Applicant.* An "applicant" is a local educational agency which has filed a complete application for assistance in school construction under the act and this part.

(g) *Complete application.* Where an applicant submits only one project by a filing date, the "complete application" at that time consists of both Part I (Maximum Grant) and Part II (Project) of the application Form RSF–2 prescribed by the Commissioner for use under this act, properly completed and executed, together with all documents, amendments, and communications in support thereof. Where applicant submits more than one project by a filing date, the Part I form and all Part II forms, properly executed and completed, together with all documents, amendments, and communications in support thereof on file at that time, shall be considered as the "complete application." Where more than one Part II application is submitted by an applicant, the applicant shall indicate the order in which its project applications are to be considered by the Commissioner. Only applications meeting the conditions for approval under title III (other than section 306 (b) (3)) and this part shall be considered complete applications under title III.

(h) *Project application.* "Project application" means Form RSF–2, Part II, properly completed and executed, making application for Federal assistance for constructing school facilities under title III.

(i) *Filing of applications.* An application will not be deemed to be "filed" unless all necessary parts of the complete application, bearing the required certifications and verifications by the State educational agency, are received by the Commissioner, or enclosed in a cover addressed to the Comissioner and postmarked, on or before the applicable filing date as may be established by Subpart B of this part.

(j) *Minimum school facilities.* "Minimum school facilities" means those instructional and auxiliary rooms (and initial equipment), exclusive of single purpose auditoriums, single purpose gymnasiums and any built-in spectator space, necessary to operate a program of free public education for the school members of the applicant at normal capacity in accordance with the laws and customs of the State.

(k) *Available and usable school facilities.* "Available and usable school facilities" means those facilities containing pupil stations counted in ascertaining children who are "unhoused" or "without minimum school facilities."

(l) *Normal capacity.* The "normal capacity" of a school room is the number of pupil stations which the room accommodates under ordinary conditions in accordance with the laws and customs of the State governing free public education, provided that where kindergartens may be conducted on a two-session-per-day basis the number of pupil stations of the rooms used for that purpose shall be doubled in determining kindergarten needs.

(m) *Children who are unhoused or without minimum school facilities.* Children who are "unhoused" or "without minimum school facilities" are those children in excess of the normal capacity of available and usable minimum school facilities.

(n) *Membership.* Unless governed by State law or State regulation, a pupil is a "member" of a class or school from the date he presents himself at school and is placed on the current roll until he permanently leaves the class or school for one of the causes recognized as sufficient by the State. The date of permanent withdrawal should be the date on which it is officially known that the pupil has left school, and not necessarily the first day after the date of last attendance.

(o) *Average daily membership.* In a given school year, the "average daily membership" for a given school is the aggregate days of membership of individual children in the school divided by the number of days school was actually in session. Only days on which pupils were under the guidance and direction of teachers in the teaching process may be considered as days in session. The average daily membership for groups of schools having varying lengths of terms is the sum of the average daily memberships obtained for the individual schools.

(p) *Membership of children of temporary duration only.* "Membership of children of temporary duration only" means the school membership of children whose residence in the school area the Commissioner determines probably will be for less than six years beyond the date of the approval of the complete applications and whose number is required to be excluded from computation of maximum payments under section 305.

(q) *Priority indices.* The "priority indices" are the indices established pursuant to this part based on relative urgency of need for the purpose of determining, under title III, the order of approval of applications, and the order of payments.

§ 112.2 *Procedure if funds are inadequate to make all payments.* Section 303, title III, reads in part as follows:

> The Commissioner shall from time to time set dates, the last of which shall be not later

than June 30, 1958, by which applications for payments under this title with respect to construction projects must be filed. If the funds appropriated under this title and remaining available on any such date for payment to local educational agencies are less than the Federal share of the cost of the projects with respect to which applications have been filed prior to such date (and for which funds under this title have not already been obligated), the Commissioner shall by regulation prescribe an order of priority, based on relative urgency of need, for approval of such applications.

§ 112.3 *Determination of priority indices for applications under section 305.* When the Commissioner has set a date by which complete applications must be filed, the priority indices for approval of such applications shall be determined as follows:

(a) A priority index will be determined for the first construction project for each applicant under section 306 by adding (1) the percentage that the estimated membership of the eligible Federally-connected children in the school district (or in the approved attendance area) is of the total estimated membership of all children in such area at the close of the regular school year 1957–58 to (2) the percentage of the estimated school membership within the school district (or in the approved attendance area) which at the same time is without minimum school facilities: *Provided*, That in no case shall the total of the two percentages used in determining the priority index exceed twice the percentage in subparagraph (1) of this paragraph. No priority shall be established for any applicant having less than 20 unhoused children in the school district (or in the approved attendance area).

(b) In those cases where an applicant has filed more than one project application, the priority index for the second project will be determined by: (1) Dividing the normal capacity of the first project by the total estimated membership at the close of the regular school year 1957–58; and (2) reducing the applicant's priority index by twice the percentage so obtained. Where more than two project applications have been filed, the applicant's priority index for each succeeding project shall be reduced by the cumulative total capacity, as provided in the first sentence of this paragraph, of all the approved projects of the applicant.

(c) In those cases where the jurisdictional area of the applicant with respect to which the application is made comprises an extensive territory and the Federal activity is localized within the area served by one or more attendance centers, and the other attendance centers within the district are practically unavailable to meet the needs of the attendance areas affected by Federal activities, then, in such case, the percentages described in subparagraphs (1) and (2) of paragraph (a) of this section will be determined with respect to the "Federally affected attendance areas," and not with respect to the entire school district. (The conditions of this paragraph may be met only in large county unit school systems and, possibly, in other extensive districts having large housing projects constructed for defense workers or military personnel which have overburdened one or more attendance centers to such an extent that additional school facilities are required to house the children.)

§ 112.4 *Determination of available and usable school facilities.* The following school facilities shall be counted as usable and available in determining "unhoused children" or "children without school facilities":

(a) All school facilities which were constructed for school use and which have been used continuously for classroom purposes, unless such facilities have become unsafe or otherwise unusable to the extent that use of such facilities or partial use of such facilities has been abandoned or must be abandoned during the fiscal year in which the application is approved. Basement rooms, hallways, or other space the use of which for classroom purposes, in view of their character, inaccessibility or other equally cogent reason, seriously prejudices educational objectives or has impaired or will impair the health or safety of the school children, will not be considered to be available and usable. These criteria shall apply to all facilities owned by other Federal agencies which are available or which may be made available for the education of children counted by applicants.

(b) All school facilities which are "under contract as of the date on which the Commissioner set, under section 303, the earliest date on or before which the application for such project is filed." Thus facilities, for which contracts are entered into after the date on which the Commissioner set the earliest cutoff date under this act on or before which the application was first filed, shall not be counted as available. The date on which the Commissioner set the cutoff date shall be the date on which the regulation setting such date was approved by the Secretary of Health, Education, and Welfare.

(c) All school facilities projects which, as of the date of approval of the application, have been approved under title II, title III, or title IV of Public Law 815.

§ 112.5 *Criteria for waiver under section 305 (e) of the act.* (a) The Commissioner's authority in section 305 (e) of the act to waive or reduce the percentage requirement or requirements in section 305 (c), to waive the requirement contained in the first sentence of subsection 305 (d) thereof, or to reduce the percentage specified in clause (2) of such sentence will not be exercised unless:

(1) The applicant meets all conditions of eligibility under title III or, on the basis of the authorized waiver or reduction of one or more of the requirements, would meet such conditions;

(2) The applicant specifically states the extent to which it desires the Commissioner to exercise his authority to waive or reduce one or more of such requirements and makes appropriate requests therefor, agreeing that if such a request is granted in whole or in part in computing maximum payment under title III, only membership of children within the federally impacted attendance area shall be considered;

(3) The applicant has two or more attendance centers, and its jurisdictional area is county-wide or is sufficiently extensive as to be reasonably analogous to a county-wide school system;

(4) There has been an unusually large Federal impact from the close of the regular school year 1955–56 to the close of the regular school year 1957–58 in an attendance area affecting one or more attendance centers;

(5) It would not be practicable to transport students in the federally impacted attendance area to other available school facilities of the applicant because of distance, topography, or other equally cogent reasons; and

(6) The Commissioner of Education determines that other exceptional circumstances exist which in his judgment require such waiver or reduction to avoid inequity and to avoid defeating the purposes of title III.

(b) If the Commissioner, on the basis of the minimum criteria above set forth, determines, under subsection 305 (e), to exercise his authority to waive or reduce one or more of the specified requirements:

(1) He shall determine which requirement or requirements he will waive, or reduce, and if the latter, the extent of such reduction;

(2) He shall determine the geographical area of the applicant which shall be considered as constituting the "federally impacted attendance area"; and

(3) The application otherwise will be processed under title III and this part, taking into consideration only the established "federally impacted attendance area" but in no case shall payments hereunder exceed the amounts computable on the basis of the district as a whole taking into consideration the waivers or reductions approved by the Commissioner.

§ 112.6 *School facilities for children whose membership is of temporary duration only.* (a) If the Commissioner determines that the membership of some of the children of the applicant, representing otherwise countable Federal increases under section 305 of the act, will be of temporary duration only, as defined in § 112.1 (p), the membership of such children will be excluded in computing maximum payments under section 305.

(b) The Commissioner, when proper request therefor is made in a Part I application, (1) may make available to such applicant such temporary school facilities as may be necessary to take care of the membership of such children as the Commissioner determines will be members of the applicant's school system for a sufficient period of time to justify the expense; or (2) he may, where the applicant gives assurance in a complete application that at least minimum school facilities will be provided for such children, pay (on such terms and conditions as he deems appropriate to carry out the purposes of title III) to such applicant for use in constructing school facilities an amount not greater than the amount which he estimates will be necessary to make available temporary facilities for such children, provided that the amount so paid shall not exceed the cost, in the school district of the applicant, of constructing minimum school facilities for such children. In no case will provision for such children be made unless they are deemed to be without minimum school facilities.

(c) Section 4 of Public Law 382 (amending sections 203 and 309 of Public Law 815) authorizes the transfer of temporary school facilities built and owned by the Federal Government pursuant to section 203 or 309 of Public Law 815 to the local educational agency concerned; and provides that "any such transfer shall be without charge, but may be made on such other terms and conditions, and at such time, as the Commissioner deems appropriate to carry out the purposes of" titles II and III. It will be the policy of the Commissioner to transfer such facilities in those cases where there is need on a continuing basis for such facilities for school purposes, and where the use of such facilities is not inconsistent with overall State plans for providing school facilities. Applications for such transfers shall contain or be supported by the assurances required under section 205 (b) (1) (B), (C) and (F).

§ 112.7 *Certification of payments.* Payments to an applicant will be made only on the basis of a complete application satisfying conditions for payment under the act and this part, and will be restricted in amount to the cost of providing minimum school facilities for unhoused children; however:

(a) Within the maximum otherwise payable under title III (except as provided in § 112.8), the Federal share of the cost of a title III project which will be certified for payment shall be equal to cost but shall in no case exceed the cost of constructing minimum school facilities in the school district of the applicant and shall in no case exceed the cost in such district of constructing minimum school facilities for the estimated number of children who will be in the membership of the school of such applicant at the close of the regular school year 1957–58 and who will otherwise be unhoused.

(b) Nothing contained in the regulations in this part shall be deemed to bar an applicant under title III, with the approval of the State educational agency, from using for an approved project, in addition to the Federal grant, monies otherwise obtained to provide a higher type or larger or better implemented school facility. The applicant will be required to show in such cases that the added cost is being thus independently met.

§ 112.8 *Additional payments under section 308 of the act.* Pursuant to the authority vested in the Commissioner by section 308 of the act:

(a) Not to exceed 10 per centum of any amount appropriated under title III (exclusive of any sums appropriated for administration) is reserved and may be used by the Commissioner to make grants to applicants under title III when (1) the application would be approved under the title but for the applicant's inability, unless aided by such grant, to finance the non-Federal share of the cost of a project; or (2) after the approval of the application the project cannot, without such grant, be completed because of flood, fire, or similar emergency affecting either the work on the project or the applicant's ability to finance the non-Federal share of the cost of the project.

(b) Under the authority of paragraph (a) (1) of this section, a complete application under title III (except an application with respect to which the Commissioner has waived or reduced eligibility requirements under section 305 (e) of the act and § 112.5) may be considered for payment of part or all of the non-Federal share of the cost of any project which does not include more than minimum facilities for unhoused children, provided: (1) That the application contains a request for payment hereunder; (2) that the estimated number of children countable for payment under title III for the school year 1957–58 equals or exceeds the number obtained by taking 10 percent of the average daily membership of the applicant district for the school year 1955–56; (3) that the applicant has exhausted all fiscal resources, including State aid, bonding authority, and Federal aid, which are practicably available to it and is unable to pay the non-Federal share of the cost of the project; (4) that it has been reached on the priority indices established by this part; and (5) that Federal monies reserved under paragraph (a) of this section are available. The additional payment to the applicant under this provision shall not exceed the non-Federal share of the cost of the project less all financial resources practicably available to the applicant; nor shall it exceed the difference between (1) the actual cost of providing minimum facilities for the federally connected pupils eligible for payment under the Act, or the average cost in the State of providing such facilities, whichever is the lesser, and (2) the Federal funds made available to the applicant under section 305 of the act.

(c) Under the authority of paragraph (a) (2) of this section, a request by the applicant may be considered for the additional payment of part or all of the funds required to complete a project (to the extent that the completed project will not provide more than minimum school facilities for unhoused children) for which a project application under title III has been approved, provided: (1) Federal monies reserved under paragraph (a) of this section are available; (2) the applicant cannot complete the project because of flood, fire, or similar emergency affecting either the work on the project or the applicant's ability to finance the non-Federal share of the cost of the project; and (3) that the applicant has exhausted all financial resources practicably available to it, including State aid, bonding authority, and Federal aid. The payment to be made under this paragraph shall not exceed the amount required to pay the additional cost caused by the emergency less any financial resources of the applicant practicably available for such purpose, including the proceeds of any insurance.

§ 112.9 *Priority and approval of applications; conditioned upon readiness to proceed with construction.* Initial approval of a project application meeting the conditions for approval under the act and under this part will be subject to cancellation in the event the applicant is not ready to proceed with construction within 90 days after the date of initial approval, unless such period is extended by the Commissioner for good cause shown; and the applicant's rights to approval and payment may be subordinated by reason thereof to other project applications of lower rank or the applicant may forfeit its priority in the discretion of the Commissioner.

§ 112.10 *Preceding provisions not exhaustive of jurisdiction of the Commissioner.* No provisions of this part now or hereafter promulgated shall be deemed exhaustive of the jurisdiction of the Commissioner under the act. The provisions of this part may be modified or further regulations may be issued hereafter as circumstances may warrant.

SUBPART B—ESTABLISHMENT OF DEADLINES FOR FILING APPLICATIONS

§ 112.20 *First deadline for applications with respect to funds available during fiscal year 1957.* Pursuant to section 308 of title III, December 3, 1956, is fixed as the date on or before which all complete applications for payments to which an applicant may be entitled under title III from funds then available for such purposes shall be filed.

[SEAL] S. M. BROWNELL,
United States Commissioner of Education.

Approved: August 13, 1956.

HEROLD C. HUNT,
Acting Secretary of Health, Education and Welfare.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 105—ALASKA PENINSULA AREA

ADDITIONAL FISHING TIME

Basis and purpose. On the basis of known improvements in certain salmon runs in the Alaska Peninsula area, it has been determined that some additional fishing time can be permitted. Therefore, effective immediately upon publication in the FEDERAL REGISTER:

1. Section 105.2 is amended in paragraph (d) by deleting ", including Bechevin Bay" and by adding to paragraph (e) "including Bechevin Bay," in 1956 only.

2. The restriction of paragraph (h) of § 105.19 is hereby suspended from 6 o'clock antemeridian to 6 o'clock postmeridian August 20, 1956.

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

JOHN L. FARLEY,
Director.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

UNITED STATES STANDARDS FOR GRADES OF FROZEN CONCENTRATE FOR LIMEADE

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering amendments to the United States Standards for Grades of Frozen Concentrate for Limeade (7 CFR 52.2521 to 52.2532), pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087, et seq., as amended, 7 U. S. C. 1621 et seq.). The amendments as hereinafter set forth provide for the addition of suitable artificial coloring material and define the requirements of color with respect to the artificially colored product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendments should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication of this notice in the FEDERAL REGISTER.

The proposed amendments are as follows:

1. Change § 52.2521 to read:

§ 52.2521 *Product description.* Frozen concentrate for limeade is the product prepared from lime juice and one or more nutritive sweetening ingredients to which may be added oil derived from limes for added flavor, and may or not contain water in sufficient quantities to standardize the product. The lime juice is produced from fresh, sound, mature, and thoroughly cleansed fruit of one or more of the varieties of the species citrus aurantifolia. Such juice may be fresh or frozen or may be fresh juice concentrated or frozen concentrated. The concentrate for limeade is processed in accordance with good commercial practice and is frozen and maintained at temperatures sufficient for the preservation of the product. If properly labeled any artificial color permissible under the provisions of the Federal Food, Drug, and Cosmetic Act may be added.

2. Change § 52.2526 to read:

§ 52.2526 *Color—(a) "A" classification.* Frozen concentrate for limeade which, when prepared as limeade, possesses a good color may be given a score of 17 to 20 points. "Good color" means a good bright characteristic color that reflects the appearance of limeade prepared from freshly expressed lime juice; or, if artificially colored, possesses a bright attractive light green color typical of artificially colored limeade.

(b) *"B" classification.* If the frozen concentrate for limeade, when prepared as limeade, possesses a reasonably good color a score of 14 to 16 points may be given. Frozen concentrate for limeade that falls into this classification shall not be graded above "U. S. Grade B" or "U. S. Choice" regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means a characteristic color that reflects to a reasonable extent the color of limeade prepared from freshly expressed lime juice and is not dark or otherwise discolored for any reason, or, if artificially colored, possesses a reasonably bright color typical of artificially colored limeade.

(c) *"Substandard" classification.* If the limeade fails to meet the requirements of paragraph (b) of this section a score of 0 to 13 point may be given. Frozen concentrate for limeade that fall into this classification shall not be scored above "Substandard" regardless of the total score for the product (this is a limiting rule).

Dated: August 14, 1956.

(SEAL) ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

DEPARTMENT OF LABOR

Office of the Secretary

[29 CFR Parts 711, 712, 713]

[Administrative Order 4-56]

PLASTIC PRODUCTS INDUSTRY, METAL MACHINERY, TRANSPORTATION EQUIPMENT, AND ALLIED PRODUCTS INDUSTRY, ELECTRICAL INSTRUMENT, AND RELATED PRODUCTS INDUSTRY

APPOINTMENTS TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES AND NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), I hereby appoint, convene, and give notice of the hearing of Industry Committee No. 24-A for the metal, machinery, transportation equipment, and allied products industry in Puerto Rico; Industry Committee No. 24-B for the plastic products industry in Puerto Rico; and Industry Committee No. 24-C for the electrical instrument, and related products industry in Puerto Rico.

Industry Committee No. 24-A is composed of the following representatives:

For the public: Judge Nathan Cayton, Chairman, Washington, D. C., John McConnell, Ithaca, New York, and Juan Labadie Eurite, San Juan, Puerto Rico.

For the employers: James A. Milling, Indianapolis, Indiana, George Goldberg, San Juan, Puerto Rico, and Everett C. Weber, Bayamon, Puerto Rico.

For the employees: Albert Epstein, Washington, D. C., David Sternback, San Juan, Puerto Rico, and David Lasser, Washington, D. C.

For the purpose of this order the metal machinery, transportation equipment, and allied products industry in Puerto Rico is defined as follows:

The manufacture of metal products (except ordnance, machinery, and transportation equipment, not elsewhere classified), and the manufacture of professional, scientific, and controlling instruments; photographic and optical goods; watches and clocks; and any activity included within the jewelry, silverware, and plated ware industry, as defined in the wage orders for these industries in Puerto Rico.

Industry Committee No. 24-B is composed of the following representatives:

For the public: Judge Nathan Cayton, Chairman, Washington, D. C., John McConnell, Ithaca, New York, and Juan Labadie Eurite, San Juan, Puerto Rico.

For the employers: James A. Milling, Indianapolis, Indiana, Samuel Seltzer, Rio Piedras, Puerto Rico, and Lester Hardman, Rio Piedras, Puerto Rico.

For the employees: Albert Epstein, Washington, D. C., David Sternback, San Juan, Puerto Rico, and David Lasser, Washington, D. C.

For the purpose of this order the plastic products industry in Puerto Rico is defined as follows:

The molding, extrusion, lamination, other forming, and fabrication of plastic products: *Provided, however,* That the definition shall not include (1) the manufacture of primary plastic materials, such as sheets, rods, tubes, granules, powders, and liquids, and other products of the chemical, petroleum, and related products industry in Puerto Rico; (2) the manufacture of buttons, buckles, jewelry (including rosaries), and jewelry findings (including beads); (3) the manufacture from pliable plastics in sheet or film form of ornaments and decorations for Christmas and other holidays, party favors and souvenirs, and similar items primarily ornamental or decorative in nature; (4) the manufacture from plastic materials of footwear and cut stock and findings for footwear; (5) the manufacture of apparel, apparel furnishings and accessories, and miscellaneous fabricated textile products made from pliable plastics in sheet or film form; and (6) any activity included in the leather, other goods, and related products industry, as defined in the wage order for that industry in Puerto Rico.

Industry Committee No. 24-C is composed of the following representatives:

For the public: Judge Nathan Cayton, Chairman, Washington, D. C., John McConnell, Ithaca, New York, and Juan Labadie Eurite, San Juan, Puerto Rico.

For the employers: James A. Milling, Indianapolis, Indiana, Lawrence Simonin, Rio Piedras, Puerto Rico, and Roy J. Colon, San Juan, Puerto Rico.

For the employees: Albert Epstein, Washington, D. C., and David Sternback, San Juan, Puerto Rico, and Albin F. Hartnett, Washington, D. C.

For the purpose of this order the electrical instrument, and related products industry in Puerto Rico is defined as follows:

The manufacture, assembly, and repair of machinery, apparatus, equipment and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy; and the manufacture, assembly, and repair of instruments, apparatus, and equipment for scientific, professional, industrial measurement, photographic, musical, and horological purposes: *Provided, however,* That the definition shall not include (1) industrial and commercial machinery powered by electric motors, (2) measuring-and-dispensing pumps, and (3) any activity included in the clay and clay products industry, the jewel cutting and polishing industry, or the stone, glass, and related products industry, as defined in the wage orders for these industries in Puerto Rico.

I hereby refer to the above mentioned industry committees the question of the minimum wage rates to be fixed under section 6 (c) of the act for its industry. Each such industry committee shall investigate conditions in its industry, and the committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the Act.

Industry Committee No. 24-A shall commence its hearing on September 17, 1956, at 2:00 p. m. in the offices of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico. Consecutively, at the same place, after the hearing of Industry Committee No. 24-A, Industry Committees Nos. 24-B and 24-C shall hold their hearings in that order.

Each committee will meet at the same place before its hearing to make its investigation and appropriate decisions concerning its hearing. Industry Committee No. 24-A will meet at 10:00 a. m. on September 17, 1956, and Industry Committees Nos. 24-B and 24-C will meet at an hour to be designated by the committee chairman.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6 (a) of the act, each industry committee shall recommend to the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Where an industry committee finds that a higher minimum wage may be determined for employees employed in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as to determine to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set out here which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on account of race or color or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) the wages currently established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters herein referred to each committee. Copies of the reports may be obtained at the national and Puerto Rican offices of the United States Department of Labor as soon as they are completed and prior to the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearings.

The procedure of these industry committees will be governed by Title 29 of the Code of Federal Regulations, Part 511, as revised and amended on November 4, 1955 (20 F. R. 8285) and May 30, 1956 (21 F. R. 3678). Among other requirements, these regulations provide that a prehearing statement containing certain specified data, shall be filed, together with eleven copies, at the office of the Territorial Director of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico, and that one copy of such prehearing statement shall be filed at the office of the Administrator of the Wage and Hour Division, United States Department of Labor, Washington, D. C., not later than September 7, 1956, in the present matters, by all persons who would participate either as witnesses or parties.

Signed at Washington, D. C., this 13th day of August 1956.

JAMES P. MITCHELL,
Secretary of Labor.

Food and Drug Administration

[21 CFR Part 165]

ACETYLCARBROMAL DERIVATIVES OF SUBSTANCES NAMED IN SECTION 502 (d) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT; DESIGNATED AS HABIT FORMING

ORDER DENYING PETITION TO HOLD IN ABEYANCE

On June 7, 1955, pursuant to a petition by Tailby-Nason Company, 420 Amherst Street, Cambridge 42, Massachusetts, and notice duly published in the FEDERAL REGISTER of May 7, 1955 (20 F. R. 3114), a public hearing was held in Washington, D. C., for the purpose of receiving evidence on the proposal to remove acetylcarbromal and bromural from the list of habit-forming chemical derivatives of carbromal (21 CFR 165.1).

Testimony was heard and exhibits were received in evidence including an affidavit of Dr. Frank C. Combes. At that time attention was called to the fact that it could be given little weight in the face of oral testimony and in view of the lack of opportunity to cross-examine the affiant.

On the petitioner's request the hearing was recessed until September 13, 1955, to enable petitioner to complete a clinical study and to obtain further evidence in support of its proposal that the two drugs in question be removed from the list of habit-forming drugs.

A second hearing was held on September 13, 1955, when additional testimony and exhibits were offered. Nothing more was said about the Combes affidavit. Dr. Combes was not offered as a witness, and no explanation of his unavailability was made.

Thereafter, on March 27, 1956, there was published in the FEDERAL REGISTER (21 F. R. 1866) a proposed order containing findings of fact and conclusions based on the whole record made at the public hearings. The Department concluded that the evidence did not warrant the removal of acetylcarbromal and bromural from the list of drugs the label of which are required to bear the statement "Warning—May be habit forming."

The Tailby-Nason Company, on or about May 16, 1956, filed a petition to hold in abeyance the proposed order and to reopen the hearing to permit the petitioner to adduce further evidence in support of its position. The petition outlines in general terms the evidence intended to be produced. Petitioner offers to bring Dr. Combes to testify in person about clinical studies he has made, both before and after the public hearing, on ambulatory patients. The petition of-

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

fers the testimony of unnamed clinicians about their clinical observations on ambulatory patients, and offers to have these clinicians testify that the judgment criteria applied by the Department in Finding 4, particularly the requirement that test subjects not be ambulatory, are arbitrary and unsound. The essence of the petition is that the Department is wrong in finding that ambulatory patients are not satisfactory in a clinical study of habit-forming potentialities of drugs.

The evidence intended to be produced at the hearing, if reopened, is not newly discovered; it could have been produced at either hearing. It admittedly does not meet the standard required by the proposed order for evaluation of habituation to drugs, but would be concerned with ambulatory patients only and would be subject to the objections specifically enumerated in Finding 4b. Since this testimony would be merely cumulative and would prove nothing more than that some clinicians believe that ambulatory patients are suitable for studies of this kind (contrary to the Department's judgment based on the testimony of a highly qualified expert), it would not change the result if it were received.

Therefore, it is ordered, That the petition to reopen the hearing be denied.

Dated: August 13, 1956.

[SEAL] HEROLD C. HUNT,
Acting Secretary.

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following named counties in the State of Iowa a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Iowa: Adair, Audubon, Carroll, Clarke, Crawford, Guthrie, Madison, Union.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after June 30, 1957, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 14th day of August 1956.

FEDERAL POWER COMMISSION

[Docket Nos. G-9161, G-10884]

TEXAS CO.

ORDER PERMITTING CHANGE IN RATES DUE TO CHANGE IN TEXAS PRODUCTION TAX AND SUSPENDING PROPOSED INCREASE IN RATES

The Texas Company (Applicant) on July 20, 1956, tendered for filing proposed changes in its rate schedule effective subject to refund for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes are contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Requested Effective Date

Note of change, undated; Texas Illinois Natural Gas Pipeline Company; Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 1; September 1, 1956.

The Commisison, by order issued July 21, 1955, as modified by order issued August 11, 1955, in Docket No. G-9161, suspended the increased rates and charges proposed by the Applicant in Supplement No. 2 to its FPC Gas Rate Schedule No. 1. Those increased rates and charges are presently being collected by the Applicant subject to corporate undertaking to refund if subsequently so ordered by the Commission.

The Applicant, by its filing tendered on July 20, 1956, proposes, as of the requested effective date, to give effect in the rates being collected under corporate undertaking to the reduction in the Texas occupation or production tax which will become effective September 1, 1956. Under that proposal the rate to be collected under corporate undertaking will be 15.5478 cents per Mcf.

By its filing submitted July 20, 1956, the Applicant also proposes a periodic rate increase as of the same requested effective date, to change its rates and charges from 15.5478 cents per Mcf to 15.7496 cents per Mcf, an increase of 0.2018 cents per Mcf or approximately $36,300 per year. The increased rates and charges proposed in the aforementioned filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds:

(1) It is appropriate and in the public interest that the change in rates proposed in Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 1 to give effect to the change in the Texas production tax be permitted to become effective as of September 1, 1956; provided, however, that such change in rates shall in no way amend, modify or alter the rate suspension proceedings instituted by the order issued July 21, 1955, as amended by order issued August 11, 1955, in Docket No. G-9161.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the increased rates and charges proposed in Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 1, and that said supplement insofar as it pertains to the periodic rate increase be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 1, so far as it provides for a change in rate to give effect to the change in Texas production tax, hereby is permitted to become effective as of September 1, 1956, subject to the proviso contained in Finding (1), above.

(B) Pursuant to the authority contained in sections 4, 5, 15 and 16 of the Natural Gas Act, and the Commission's General Rules and Regulations, a public hearing be held, upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 1; and pending such hearing and decision thereon, said Supplement No. 3, insofar as it relates to the proposed increased rates and charges described above, hereby is suspended and the use thereof deferred until February 1, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: August 13, 1956.

By the Commission.[1]

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56-6660; Filed, Aug. 16, 1956; 8:49 a. m.]

[Project No. 2212]

MARATHON CORP.

NOTICE OF APPLICATION FOR LICENSE

AUGUST 13, 1956.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by Marathon Corporation of Menasha, Wisconsin, for license for constructed water power Project No. 2212 located on Wisconsin River and its tributary, Rib River, in the region of Wausau, Schofield, and Rothschild, in Marathon County, Wisconsin, affecting navigable waters of the United States. The project consists of a dam about 830 feet long composed of a timber crib sluiceway section, a concrete overflow section, a concrete sluiceway section, and a concrete powerhouse section; concrete retaining walls at each end of the dam; a fish ladder; a reservoir with normal water surface at elevation 1,158.88 feet (U. S. C. & G. S. datum) and covering approximately 1,774 acres; hydroelectric installation of 3,750 kilowatts (approximately 5,000 horsepower) in seven units; transmission line about 1.2 mile long from the powerhouse to applicant's pulp and paper mills; and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is September 19, 1956. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56-6661; Filed, Aug. 16, 1956; 8:49 a. m.]

[Docket Nos. G-10548, G-10549]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO., CHICAGO DISTRICT PIPELINE CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 13, 1956.

Take notice that Texas Illinois Natural Gas Pipeline Company (Texas Illinois), a Delaware Corporation, address 20 North Wacker Drive, Chicago 6, Illinois, and a subsidiary of The Peoples Gas Light and Coke Company, filed on July 11, 1956, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing the construction and operation of facilities for the expansion of the capacity of a portion of its existing pipeline system as hereinafter described.

Texas Illinois proposes, adjacent to its existing 20-inch pipeline extending from Joliet to Volo, Illinois, to construct and operate a 30-inch loop line extending from Joliet for a distance of approximately 38 miles to a proposed connection with the existing 30-inch pipeline facilities of Chicago District Pipeline Company, known as the Howard Street Pipeline. The estimated cost of Texas Illinois' proposed facilities is $6,411,000 and will be financed from funds on hand.

Take notice that Chicago District Pipeline Company (Chicago District), a Illinois Corporation, address Field Office Building, Troy Road, Joliet, Illinois, and a subsidiary of The Peoples Gas Light and Coke Company, filed on June 11, 1956, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing the construction and operation of facilities for the expansion of the capacity of its existing pipeline system as hereinafter described.

Chicago District proposes to construct and operate a 36-inch pipeline extending easterly from the eastern terminus of its Howard Street Pipeline for a distance of approximately 14.1 miles to the north-

[1] Acting Chairman Digby dissenting as to suspension of proposed increase in rates. Commissioner Kline not participating.

erly city limits of Chicago where it will make an additional connection with The Peoples Gas Light & Coke Company and Northern Illinois Gas Company. The cost of construction is estimated at $4,600,000 to be financed by loan, issuance of common stock and funds on hand.

It is contended that the proposed facilities will enable Chicago District to deliver substantial quantities of gas to Peoples in north Chicago making it unnecessary for Peoples to carry such gas from existing points of connection in west and south Chicago to north Chicago, where load growth is increasing. It is claimed that the capacity of the Peoples system can be increased thereby by nearly 50 percent, such increase being needed in the event of severe winter weather and to meet expected increased demands.

These related applications should be heard on a consolidated record and disposed of under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, September 4, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 26, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1817]

BENGUET CONSOLIDATED, INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 13, 1956.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in Benguet Consolidated, Inc., Capital Stock, File No. 7-1817.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before August 29, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Comission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 27-111]

THUNDERBIRD MINERALS, LTD.

ORDER TEMPORARILY DENYING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 13, 1956.

I. Thunderbird Minerals, Ltd. (hereinafter referred to as the "issuer"), 412 Lancaster Building, Calgary, Alberta, Canada, having filed with the Commission on July 20, 1956, a Notification on Form 1-D relating to a proposed public offering of 300,000 shares without nominal or par value at $1.00 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation D promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That the offering circular is incomplete and misleading in the following particulars:

1. Failure to state in connection with the issuer's properties:

(a) That the issuer's holdings of acreage must be classed as wildcat as they were chosen at random without the benefit of specific favorable geologic structural information as to any of such acreage, which adds to the hazards inherent to the discovery of crude oil or natural gas on such acreage.

(b) That the greater portion of issuer's reservations are 60 or more miles Northeast of proven crude oil production in Alberta and in an area having much thinner section of sedimentary formations than are present in all of the areas to the South and West where oil and gas production of importance has been found, which limits and decreases the possibility of issuer's acreage proving to be productive.

(c) That the geological information available to the issuer is not the result of detailed surface geological surveys or geophysical surveys which indicate the existence of geological structures considered favorable for the accumulation of oil and gas.

(d) That the geological information available to the issuer clearly indicates the accumulation of oil in the "Granite Wash" formation to be relatively small in area.

(e) The depth, direction and distance from the nearest of the issuer's blocks for each dry hole within a reasonable distance from each block as to each of the 3 reservations.

(f) The important features of Crown reservations, including rental, royalty and reversion to lease provisions.

(g) That Imperial Oil Company Ltd. reportedly completed a non-productive well on the Bow-Valley Acreage at approximately the same location where issuer proposes to drill.

(h) The aggregate yearly assessment work requirements on the mining claims and the significance on the retention of the claims if the assessment work is not done.

2. Failure to state in connection with the issuer's business:

(a) The cost to the promoters of the properties transferred the issuer.

(b) That an offering of 500,000 shares was commenced in Canada in November 1955 without giving details as to sales volume, and results of the offering.

(c) That the offering price is an arbitrary price having no direct relation to the value of the company's properties.

B. That the offering circular and sales literature proposed to be used are false and misleading in the following particulars:

(a) In stating "geological reports on these lands indicate the probable presence of petroleum" whereas in fact the geological reports furnished do not so indicate.

(b) In stating the Red Earth discovery is some 60 miles North West of the issuer's acreage, whereas in fact such discovery is twice that distance from two claims comprising 75 percent of the issuer's acreage and in failing to state that more recently a dry hole has been completed only 5 miles North of such Red Earth discovery.

(c) In stating "the United States is practically drilled out at economic levels and Western Canada now stands as the last opportunity on this continent for the exploration of oil."

(d) In couching in half-truths, unwarranted conjecture and misleading implications the prospects of the business as to the items above mentioned.

C. That the terms and conditions of Regulation D have not been complied with in that the offering circular fails to state:

1. As required by Rule 504 (b) (4):

(a) The methods by which the securities are to be offered;

(b) That P. N. R. Morrison is the underwriter for the company;

(c) The connection P. N. R. Morrison Investments Ltd. will have with the underwriting of the issue;

(d) The relationship of P. N. R. Morrison Investments Ltd. with the company.

2. As required by Rule 504 (b) (6):

(a) The order of priority in which the proceeds will be used;

(b) The disposition of proceeds in the event sales are insufficient for the purposes stated.

D. That the use of said offering circular in connection with the offering of the issuer's securities would operate as a fraud and deceit upon the purchasers of such securities.

It is ordered, Pursuant to Rule 509 of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under section 3 (b) and Regulation D be, and it hereby is temporarily denied.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of denial should be vacated or made permanent, without prejudice however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 14, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32507: *Substituted service—Motor-rail-motor—Pennsylvania Railroad.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent, for the Pennsylvania Railroad Company, and interested motor carriers. Rates on various commodities loaded in motor-truck trailers, and transported on railroad flat cars between Cleveland, Ohio, on the one hand, and Kearny, N. J., or Philadelphia, Pa., on the other, on traffic destined to, or originating at points beyond the points served and reached by motor truck carriers.

Grounds for relief: Motor-truck competition.

Tariff: The Eastern Central Motor Carriers Association, Inc., Agent, tariff I. C. C. No. 10.

FSA No. 32508: *Kyanite—Kings Mountain, N. C., to Hartford, Conn.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on kyanite, carloads, from Kings Mountain, N. C., to Hartford, Conn.

Grounds for relief: Market competition with Clover, S. C., and circuitous routes.

Tariff: Supplement 114 to Agent Spaninger's I. C. C. 1346.

FSA No. 32509: *Plaster and related articles—New Orleans, La., to Mobile, Ala.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on plaster, gypsum wallboard, and related articles, carloads from New Orleans, La., to Mobile, Ala.

Grounds for relief: Circuitous route.

Tariff: Supplement 3 to Agent Spaninger's tariff I. C. C. 1459.

FSA No. 32510: *Scrap iron and steel—Augusta, Ga., to Savannah, Ga.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on scrap iron and steel, carloads from Augusta, Ga., to Savannah, Ga.

Grounds for relief: Interstate circuitous route meeting rate over intrastate route.

Tariff: Supplement 120 to Agent Spaninger's tariff I. C. C. 1329.

FSA No. 32511: *Sugar—Southwestern Louisiana to southern territory.* Filed by J. H. Marque, Alternate Agent, for interested rail carriers. Rates on sugar, beet or cane, carloads, as described in item 95-I of exhibit 1 of the application, from specified points in southwestern Louisiana taking origin groups Nos. 2 through 6 inclusive, in tariff listed below to Cherokee, Ala., specified points in Kentucky, Mississippi, and Tennessee, also to Cairo and Metropolis, Ill., and Evansville, Ind.

Grounds for relief: Market competition, and maintenance of origin group relations, with New Orleans, La., and circuitous routes in part west of the Mississippi River.

Tariff: Supplement 317 to Alternate Agent Marque's tariff I. C. C. 380.

FSA No. 32512: *Sugar—South Atlantic and Gulf ports and western Louisiana to Ohio River crossings.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on Sugar, cane or beet, carloads, from South Atlantic and Gulf ports and specified points in southwestern Louisiana to Cincinnati, Ohio, Lexington, Louisville and Winchester, Ky., and Evansville, Ind.

Grounds for relief: Circuitous routes.

Tariff: Supplement 317 to Alternate Agent Marque's I. C. C. No. 380.

FSA No. 32513: *Grain and products from St. Louis, Mo., and group to Southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on grain, grain products and related articles, carloads from St. Louis, Mo., East St. Louis, Ill., and intermediate points in Missouri described in the application to specified points in Arkansas, Louisiana and Texas.

Grounds for relief: Circuitous routes via Ft. Smith, Ark., transit points.

Tariffs: Supplement 73 to Agent Kratzmeir's I. C. C. 3940; Supplement 130 to Agent Kratzmeir's I. C. C. 3941.

FSA No. 32514: *Soda ash—Louisiana and Texas points to Crystal City, Mo.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on soda ash (other than modified soda ash), in

bulk in cars, carloads from Baton Rouge, North Baton Rouge, Lake Charles and West Lake Charles, La., and Corpus Christi and Velasco, Tex., to Crystal City, Mo.

Grounds for relief: Barge competition and circuitous routes.

Tariff: Supplement 163 to Agent F. C. Kratzmeir's I. C. C. 4087 and two other tariffs.

FSA No. 32516: *Substituted service—Motor-rail-motor—Pennsylvania Railroad.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent, for the Pennsylvania Railroad Company, and interested motor carriers. Rates on freight loaded in or on highway motor-truck trailers and transported on railroad flat cars between Indianapolis, Ind., on the one hand, and Kearny, N. J., or Philadelphia, Pa., on the other.

Grounds for relief: Motor-truck competition.

Tariff: The Eastern Central Motor Carriers Association, Inc., Agent, tariff I. C. C. No. 10.

FSA No. 32517: *Brick—Cordova, Ala., to Tennessee points.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on brick, and related articles, carloads from Cordova, Ala., to Nashville, Hermitage, and Lebanon, Tenn.

Grounds for relief: Circuitous routes.

Tariff: Supplement 118 to Agent Spaninger's I. C. C. 1278.

FSA No. 32518: *Shale or slate aggregate in southern territory.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on shale or slate aggregate, expanded, carloads between points in southern territory, and between points in southern territory, on the one hand, and points in trunk-line territory in Virginia, as described in the application, on the other.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 75 to Agent Spaninger's I. C. C. 1469.

FSA No. 32519: *Anhydrous ammonia—Woodstock, Tenn., and Yazoo City, Miss., to Arkansas, Louisiana and Missouri.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on anhydrous ammonia, tank-car loads from Woodstock, Tenn., and Yazoo City, Miss., to points in Arkansas, Louisiana and Missouri within 230 miles (short-line) from origins.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 159 to Agent Kratzmeir's I. C. C. 4112.

AGGREGATE-OF-INTERMEDIATES

FSA No. 32515: *Soda ash—Louisiana and Texas points to Crystal City, Mo.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on soda ash (other than modified soda ash), in bulk in cars, carloads from Baton Rouge, North Baton Rouge, Lake Charles and West Lake Charles, La., Corpus Christi and Velasco, Tex., to Crystal City, Mo.

Grounds for relief: Maintenance of depressed barge-competitive rates not applicable in constructing combination rates from points beyond named origins.

Tariffs: Supplement 163 to Agent Kratzmeir's I. C. C. 4087 and two other tariffs.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[F. R. Doc. 56-6652; Filed, Aug. 16, 1956; 8:47 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued for normal labor turnover purposes, except as otherwise indicated. The number of learners authorized is indicated:

Capital Blouse and Sportswear Co., 20 Berger Street, Brooklyn, N. Y.; effective 7-31-56 to 1-30-57; 10 percent of factory production workers (ladies' blouses, etc.).

Clyde Shirt Co., Northampton, Pa.; effective 8-4-56 to 8-3-57; 10 percent of factory production workers (women's blouses).

Congress Sportswear Co., Inc., 831 Middle Street, Bath, Me.; effective 8-1-56 to 7-31-57; 10 percent of factory production workers (sport shirts and jackets).

Connellsville Sportswear Co., South First Street, Connellsville, Pa.; effective 8-18-56 to 8-17-57; 10 percent of factory production workers (men's and boys' pants).

Cute-Togs of New Orleans, Inc., 1636 St. Roch Avenue, New Orleans, La.; effective 8-7-56 to 4-11-57; 10 percent of factory production workers (infantswear) (replacement certificate).

Delvin Sportwear Co., 2168 Fulton Street, Brooklyn, N. Y.; effective 8-2-56 to 2-1-57; 4 learners (cotton pajamas).

Junior Form Lingerie Corp., Route 601, Jerome, Pa.; effective 8-19-56 to 8-18-57; 10 learners (women's sleepwear).

Marine Garment Co., Marine, Ill.; effective 8-5-56 to 8-4-57; 10 learners (women's sportswear).

Mylcraft Manufacturing Co., Inc., North Main Plant, Rich Square, N. C.; effective 7-31-56 to 7-30-57; 10 learners (ladies' pajamas).

Pocono Apparel Manufacturing Co., 310 North Seventh Street, Scranton, Pa.; effective 7-30-56 to 7-29-57; 10 percent of factory production workers engaged in the production of boys' suburban jackets only (boys' jackets, etc.).

R. & J. Manufacturing Co., Inc., New London, Conn.; effective 8-1-56 to 7-31-57; 10 percent of factory production workers (children's pajamas).

Salem Garment Co., Inc., Salem, S. C.; effective 8-11-56 to 8-10-57; 10 percent of factory production workers (cotton wash dresses and housecoats).

Sharp Bros., Inc., 121 North Seventh Street Philadelphia, Pa.; effective 8-3-56 to 8-2-57, 6 learners (boys' slacks, trousers, jeans and shorts).

Shawnee Garment Manufacturing Co., 115½ North Bell Street, Shawnee, Okla.; effective 8-19-56 to 8-18-57; 10 percent of factory production workers (denim overalls).

Henry I. Siegel Co., Inc., Hohenwald, Tenn.; effective 8-1-56 to 7-30-57; 10 percent of factory production workers (work pants, work shirts).

Freedman Soloff Co., 1637 North Main Street, Fall River, Mass.; effective 8-1-56 to 7-31-57; 10 learners (men's and boys' outerwear).

Thorsby Manufacturing Co., Thorsby, Ala.; effective 8-2-56 to 2-1-57; 80 learners for plant expansion purposes (women's blouses).

Trimble Manufacturing Corp., Trimble, Tenn.; effective 8-3-56 to 8-2-57; 10 percent of factory production workers (sport jackets).

Cigar Industry Learner Regulations (29 CFR 522.80 to 522.85, as amended March 1, 1956, 21 F. R. 629).

Bayuk Cigars, Inc., Morgan Street, Selma, Ala.; effective 8-1-56 to 7-31-57; 10 percent of factory production workers for normal labor turnover purposes.

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

Riegel Textile Corp., Warlong Division, Conover, N. C.; effective 8-3-56 to 2-28-57; 10 percent of factory production workers engaged in the authorized learner occupations (work gloves) (replacement certificate).

St. Johnsbury Glovers, Inc., St. Johnsbury, Vt.; effective 8-11-56 to 8-10-57; 10 learners for normal labor turnover purposes (ladies' knit fabric gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

B & K Hosiery Mill, Route No. 4, Hickory, N. C.; effective 8-1-56 to 7-31-57; 5 learners for normal labor turnover purposes (seamless).

Shoe Industry Learner Regulations (29 CFR 522.50 to 522.55, as amended March 1, 1956, 21 F. R. 1195).

Alco of Texas, Inc., 342 South Chadbourne Street, San Angelo, Tex.; effective 8-2-56 to 8-1-57; ten percent of factory production workers for normal labor turnover purposes (washable footwear and moccasins).

Manistee Shoe Manufacturing Co., 50 Filer Street., Manistee, Mich.; effective 8-7-56 to 8-6-57; 10 learners for normal labor turnover purposes.

Regulations applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following learner certificates were issued to the companies listed below manufacturing miscellaneous products. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated:

Alex Hirschenfang Co., 725 Broadway, New York, N. Y.; effective 8-6-56 to 2-5-57; not less than 85 cents per hour for the first 280 hours and 90 cents per hour for the remaining 200 hours of the 480-hour learning period, for the occupation of hand sewer; authorizing the employment of 3 learners for normal labor turnover purposes (men's sack coats).

K & P, Inc., 1501 Lincoln Street, Laredo, Tex.; effective 8-6-56 to 12-5-56; not less than 90 cents per hour for a maximum of 160 hours, for the occupations of polisher and press operator; authorizing the employment of 10 learners for expansion purposes (metal watch bands).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 7th day of August 1956.

VERL E. ROBERTS,
Authorized Representative of the Administrator.

[Vesting Order SA-93]

BANCA ARDELEANA S. A. R., BUCHAREST BRANCH

In re: Debt owing to Banca Ardeleana S. A. R., Bucharest Branch. F-57-95.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National City Bank of New York, 55 Wall Street, New York 15, New York, arising out of an account entitled, "Banca Ardeleana S. A. R., Bucharest, Roumania, Mail to: Bank of The Roumanian Peoples Republic, The States Bank at Bucharest, Bucharest, Roumania," maintained at the aforesaid bank, together with all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the Banca Ardeleana S. A. R., Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

[SEAL] HERBERT BROWNELL, Jr.,
Attorney General.

[Vesting Order SA-94]

BANCA ARDELEANA S. A. R., CLUJ BRANCH

In re: Debt owing to Banca Ardeleana S. A. R., Cluj Branch. F-57-95.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National City Bank of New York, 55 Wall Street, New York 15, New York, in the sum of $77,047.00 arising out of an account entitled, "Banca Ardeleana S. A. R., Cluj, Roumania," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by the Banca Ardeleana S. A. R., Cluj, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

UNIREA SOCIETATE ANONIMA ROMANA DE PETROL

In re: Debt owing to Unirea Societate Anonima Romana de Petrol. F-57-629.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The First National City Bank of New York, 55 Wall Street, New York 15, New York, arising out of an account entitled, "Unirea Societate Anonima Romana de Petrol," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Unirea Societate Anonima Romana de Petrol, Ploesti, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

> Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

UNIREA SOCIETATE ANONIMA ROMANA DE PETROL

In re: Debt owing to Unirea Societate Anonima Romana de Petrol. F-57-629.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The National Supply Company, 2 Gateway Center, Pittsburgh, Pennsylvania, appearing on the books and records of said Company as an account payable entitled "Unirea, S. A. R., also known as Phoenix Oil and Transport Company, Limited and as Unirea, S. A. R. de Petrol," together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is and as of September 15, 1947, was, owned directly or indirectly by Unirea Societate Anonima Romana de Petrol, Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

> Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

OF THE UNITED STATES

FEDERAL REGISTER

VOLUME 21 NUMBER 161

Washington, Saturday, August 18, 1956

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans
[FHA Instructions 422.1 and 443.2]

PART 322—APPRAISAL OF FARMS

PART 332—PROCESSING INITIAL LOANS

Subchapter F—Security Servicing and Liquidations
[FHA Instructions 465.2 and 465.6]

PART 372—FARM OWNERSHIP LOANS

Subchapter G—Miscellaneous Regulations
[FHA Instruction 444.1]

PART 383—FARM HOUSING LOANS

MISCELLANEOUS AMENDMENTS

1. Part 322 of Title 6, Code of Federal Regulations (13 F. R. 9401), is revised to prescribe regulations applicable generally to the appraisal of real estate in connection with Farm Ownership and other types of loans, and to read as follows:

PART 322—APPRAISAL OF FARMS

Sec.
322.1 General.
322.2 Definitions of values to be recommended.
322.3 Long-time commodity prices, costs, and other basic appraisal data.

AUTHORITY: §§ 322.1 to 322.3 issued under R. S. 161, sec. 6 (3), 50 Stat. 870, sec. 41 (f), 60 Stat. 1066, sec. 510 (g), 63 Stat. 438, sec. 4 (c), 64 Stat. 100; 5 U. S. C. 22, 16 U. S. C. 590w (3), 7 U. S. C. 1015 (f), 42 U. S. C. 1480 (g), 40 U. S. C. 422 (c). § 322.2 (a) interprets or applies sec. 2 (b), 60 Stat. 1074; 7 U. S. C. 1002 (b).

§ 322.1 *General*—(a) *Appraisals required.* An appraisal report will be required in connection with each Initial loan to be made under Title I of the Bankhead-Jones Farm Tenant Act, and in connection with each Soil and Water Conservation loan in excess of $5,000 to be secured by a lien on the farm to be improved. An appraisal report also will be prepared when required by Farmers Home Administration regulations or when requested by the County Committee, County Supervisor, or State Director in connection with making subsequent loans under Title I of the Bankhead-Jones Farm Tenant Act, Soil and Water Conservation loans not in excess of $5,000, and making and servicing loans where real estate is taken as security.

(b) *Employees authorized to appraise farms.* For the purpose of this part, an "appraiser" is an employee of the Farmers Home Administration who has been designated in writing to appraise farms.

(c) *Appraisal forms.* Form FHA-596, "Appraisal Report," and Form FHA-596B, "Map of Farm," will be used in recording appraisals. In addition, when a farm under consideration is to be irrigated or is located in a drainage or levee district, or when minerals, timber, or other rights are leased, reserved, or exempted, Form FHA-596A, "Supplemental Report (Irrigation, Drainage, Levee, and Minerals)," will be used to the extent applicable.

(d) *Real estate improvements to be considered.* In making an appraisal, the appraiser will consider the real estate improvements already on the farm and those to be made by the applicant in connection with the loan, rather than those real estate improvements that a typical operator would have.

(e) *Typical owner-operator.* In appraising the farm, the appraiser will assume that the farm will be operated by a typical owner-operator for the area in which the farm is located. Such operator will be representative of the farmers in the area who possess average skills and managerial ability. The typical operator to be assumed should not be one who is significantly above or below average in managerial ability for the area. For example, the appraiser will assume that the operator would be a typical dairyman if the farm being appraised is in an area where both dairy farming and corn-hog farming have proven successful and the farm has building and land resources, including improvements to be made in connection with the loan, which make it more suitable for dairying.

§ 322.2 *Definitions of values to be recommended*—(a) *Normal earning capacity value.* This value is defined as the maximum amount that can be invested safely in a family-type farm consistent with the net income that the farm unit reasonably can be expected to produce, after any planned land and building improvements are completed. A distinction will be made between "nor-

mal earning capacity" and "normal earning capacity value." The term "normal earning capacity" means the long-time average annual production and income that reasonably can be expected from the farm. The term "normal earning capacity value" is an expression of the value of the farm based on its normal earning capacity. It is determined in connection with family-type farms being considered for Title I loans. For a normal earning capacity appraisal, the appraiser will:

(1) Make the following assumptions:

(i) The farm will be operated by a typical owner-operator for the area.

(ii) Cropping and livestock systems used are typical for the farm under consideration and will maintain the anticipated productivity. In determining the proper cropping system, the appraiser will take into account acreage allotments for the basic crops.

(iii) Average crop yields and livestock production estimates are used for the farm under consideration.

(iv) Approved commodity prices and farm operating costs are employed in estimating net income.

(v) The farm will be improved as shown in the Farm Development Plan.

(vi) The normal farm operating and family living expenses, the cost of necessary farm and equipment repairs and replacements, and principal and interest payments will be met out of farm income.

(vii) Income credited to the farm will include only income from the sale of farm commodities.

(2) Consider the amount that could be invested in the farm based upon capitalization of the net farm income available for payment on real estate loans. The minimum capitalization rate will be six percent. Farming systems which include major enterprises considered to be high-risk enterprises, or farms located in areas with unusual hazards such as droughts, hail, flood, and frosts which cause yields to fluctuate to the extent that net farm income is reduced significantly at rather frequent intervals, should be capitalized at rates higher than six percent.

(3) Determine the normal earning capacity value which should be consistent with and suported fully by the earning ability of the farm. Such value, however, is not merely a mathematical computation resulting from capitalization of the net farm income available for payment on the real estate loan(s). Some other factors that he must consider in determining normal earning capacity value are:

(i) The desirability of the farm for a home.

(ii) The adaptability of the farm for alternative systems of farming.

(iii) Natural characteristics of the farm that would cause it to remain productive or characteristics that would cause production to decline because of such factors as erosion or leaching.

(b) *Normal market value of farm as improved.* This value is defined as the amount a typical purchaser would, under normal conditions, be willing to pay and be justified in paying for the farm, as improved, for farming purposes and for any nonagricultural assets the farm may have. This value is reflected by prices at which comparable properties in the community have been sold for similar use over a period of years, assuming long-time prices and costs. This value assumes that the farm normally may be expected to sell for that amount with a reasonable amount of effort and that the purchaser is a willing but not anxious buyer and the seller is a willing but not forced seller. Some of the important factors that the appraiser must consider in determining the normal market value are:

(1) Net farm earnings to the owner-operator and to the landlord based on long-time prices and cost.

(2) Improvement shown on the Farm Development Plan.

(3) Hazards of weather and high-risk enterprises.

(4) Location of farm with respect to:

(i) Off-farm employment opportunities and dependability of such employment.

(ii) Community services such as schools, churches, markets, trading centers, and roads.

(5) Condition and suitability of buildings.

(6) Condition and productivity of land.

(7) Nonagricultural assets such as timber, gravel, stone, or proven minerals.

(8) The price at which comparable properties in the area have sold. These prices will be adjusted to normal market values.

(9) Opinion of informed people who are familiar with real estate values in the area such as agricultural leaders, real estate brokers, and private and cooperative lenders.

(c) *Normal market value of acreage to be purchased.* This value will be determined as outlined in paragraph (b) of this section, except that planned improvements to be made by the applicant in connection with the loan will not be considered.

(d) *Present market value of farm as improved.* This value is defined as the amount a typical purchaser would be willing to pay and be justified in paying for the farm, as improved, for farming purposes and for any nonagricultural assets the farm may have. This value assumes that on the current market the farm may be expected to sell for that amount with a reasonable amount of effort and that the purchaser is a willing but not anxious buyer and the seller is a willing but not forced seller. In determining present market value, the appraiser will consider the same factors as listed in paragraph (b) of this section as they apply to present conditions rather than normal conditions.

§ 322.3 *Long-time commodity prices, costs, and other basic appraisal data.* Long-time prices for farm commodities, long-time farm operating and family living costs, and other basic appraisal data will be used in the preparation of Form FHA–596.

(a) *Long-time commodity price schedules.* A State schedule of long-time farm commodity prices will be prepared by the State Director. Each State schedule will be submitted to the National Office for approval before issuance.

(b) *Cost schedules.* A State schedule of cost items will be prepared by the State Director.

(c) *Other basic appraisal data.* The State Director will assemble other basic appraisal data for use of employees authorized to appraise farms as an aid to securing greater consistency in appraisals. All available sources of materials, such as publications of Agricultural Experiment Stations, Agricultural Colleges, United States Department of Agriculture, and so forth, should be utilized in developing and assembling the data. Such data will include to the extent practicable:

(1) A listing of recognized systems of farming, and the areas in the State where applicable.

(2) Standard crop rotations for various soils, conditions, and enterprises.

(3) Approved feed tables.

(4) Hired labor cost figures.

(5) Machinery requirements and depreciation rates.

(6) Tractor expense data.

(7) Values of buildings and depreciation rates.

(8) Method of determining the cash expense for family living.

(9) Capitalization rates.

(10) Other items which will be helpful to appraisers.

2. Section 332.3 of Title 6 (20 F. R. 3669) is amended by changing references to Form FHA–596, "Earning Capacity Report," and Form FHA–440, "Farm Appraisal Report," to Form FHA–596, "Appraisal Report."

3. Section 372.25 (f), (g), and (j) of Title 6 (18 F. R. 4785, 4786) are amended by changing all references to "Earning Capacity Report" to read "Appraisal Report."

4. Section 372.108 (c) of Title 6 (13 F. R. 9472) is amended by changing reference to Form FHA–736 to Form FHA–596, "Appraisal Report."

5. Section 383.10 (b) of Title 6 (21 F. R. 3480) is amended by changing reference to Form FHA–440 to Form FHA–596, "Appraisal Report."

Dated: August 15, 1956.

[SEAL] M. H. HOLLIDAY, Jr.,
Acting Administrator,
Farmers Home Administration.

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1956 CCC Cotton Bulletin 1, Amdt. 1]

PART 427—COTTON

SUBPART—1956 COTTON LOAN PROGRAM

SCHEDULE OF BASE LOAN RATES FOR WAREHOUSE-STORED UPLAND COTTON

The 1956 Cotton Bulletin (1956 CCC Cotton Bulletin 1) is hereby amended by adding § 427.733 to read as follows:

§ 427.733 *Basic loan rates by warehouse locations.* The base loan rates, in cents per pound, gross weight, applicable to Middling white 1-inch upland cotton, under Commodity Credit Corporation's 1956 Cotton Loan Program, are as follows:

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 53—LIVESTOCK, MEATS, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

ESTABLISHMENT OF OFFICIAL U. S. STANDARDS FOR GRADES OF CERTAIN PORK CARCASSES AND CERTAIN SWINE

On April 27, 1956, a notice of rule making was published in the FEDERAL REGISTER (21 F. R. 2724) regarding the establishment of official United States standards for grades of sow carcasses and official United States standards for grades of slaughter sows, under sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622 and 1624), as amended by Public Law 272, 84th Congress.

After due consideration of all relevant material submitted pursuant to the notice, and under the aforesaid sections of the Agricultural Marketing Act of 1946, official United States standards for grades of sow carcasses and official United States standards for grades of slaughter sows are hereby established, to appear in 7 CFR Part 53, respectively, as follows:

§ 53.144 *Application of standards for grades of sow carcasses.* (a) The standards for grades of sow carcasses are based on (1) differences in yields of lean cuts and of fat cuts and (2) differences in quality of cuts. There are rather uniform differences in these characteristics from one grade to another. The U. S. No. 1 grade has about the minimum degree of finish required to produce cuts of acceptable palatability. The four major trimmed lean cuts—hams, loins, picnics, and butts—normally make up more than 48 percent of carcass weight. The U. S. No. 2 and U. S. No. 3 grades have successively higher degrees of finish resulting in lower yields of lean cuts and higher yields of fat cuts than U. S. No. 1 grade. Yields of lean cuts average 45 to 48 percent and under 45 percent of carcass weight, respectively, for U. S. No. 2 and U. S. No. 3 grades. In addition, the cuts from these grades have more fat remaining after trimming of external fat than do the cuts from U. S. No. 1 grade carcasses. Medium grade carcasses are underfinished and exhibit the lack of firmness and indications of little or no marbling (fat interspersed within the lean) associated with low palatability. Cull grade carcasses are decidedly underfinished and the pork is soft with very little evidence of marbling and is of low palatability.

(b) The standards for grades of sow carcasses apply only to carcasses with the firmness appropriate to their degree of finish. However, carcasses which are typically soft or oily as a result of feeds producing soft or oily fat may be graded in accordance with the standards provided they are identified as soft or oily along with the grade.

(c) There are differences in the bellies of sow carcasses which are peculiar to the class. Increasing numbers of litters farrowed and raised by a sow results in greater development of mammary tissue and increasing roughness of the belly along the teat line with accompanying seediness. In addition, when pigs were weaned only a short time before the sow was slaughtered the mammary tissue still contains milk and the bellies are commonly termed "wet". However, the smoothness or dryness of bellies has little appreciable effect on the basic grade determining factors and the standards contain no provision for altering the grade of a sow carcass due to these belly characteristics. Rather than forming a part of the basis for grade, it is the intent of the standards that smoothness and dryness of bellies should be a separate consideration used in conjunction with grade, weight, and other factors in evaluating sow carcasses.

(d) Average back fat thickness measurements provide a reliable indication

of the yields of cuts and the quality of cuts which determine the grade of sow carcasses. Therefore, indication of a specific range in back fat thickness for each grade forms a part of the standards for grade. Analysis of measurement and cutting data for sow carcasses reveals that yields of cuts are approximately equal in carcasses which are equal in fat thickness but widely different in weight. Thus, to maintain comparable yields in a grade at all weights, back fat thickness requirements for a grade are the same at all weights. This is in contrast to the standards for barrows and gilts, in which the fat thickness for a grade increases for heavier or longer carcasses in order to maintain yields of cuts. With practice in the grading operation, visual estimates of fat thickness may often replace actual measurements with satisfactory accuracy. The following table of measurements provides an objective guide in determining the grade of sow carcasses.

Grade:	*Average back fat thickness* [1]
U. S. No. 1	1.5 to 1.9 inches.
U. S. No. 2	1.9 to 2.3 inches.
U. S. No. 3	2.3 or more inches.
Medium	1.1 to 1.5 inches.
Cull	Less than 1.1 inches.

[1] Average of three measurements, skin included, made opposite first and last ribs and the last lumbar vertebra.

(e) In addition to the measurement guides to grade, the standards also include descriptive specifications outlining the characteristics of sow carcasses typical of the minimum degree of finish for each grade. Average back fat thickness is a major factor in grading, but more accurate appraisal of yields of cuts and quality of cuts is achieved in borderline cases by consideration of thickness of muscling, conformation of the major cuts, uniformity of fleshing and finish, firmness, and indications of marbling. However, in no case may the final grade of a carcass be more than one-half the width of a grade different from that indicated by average back fat thickness.

(f) The standards describe rather typical carcasses of each grade, and no attempt is made to describe the numerous combinations of characteristics that may qualify a carcass for a particular grade.

§ 53.145 *Specifications for official United States standards for grades of sow carcasses*—(a) *U. S. No. 1 grade.* U. S. No. 1 grade sow carcasses have about the minimum degree of finish required to produce pork cuts of acceptable palatability. Meatiness and yield of lean cuts from carcass weight are slightly high. Yield of fat cuts is slightly low. The ratio of total lean and fat to bone is slightly high. Carcasses with the minimum finish required for U. S. No. 1 grade are moderately long and slightly wide in relation to weight. The back and loins are moderately full and thick with a well-rounded appearance. Hams are usually moderately thick and plump and are slightly full in the lower part toward the hock. Bellies are moderately long, slightly thick, and moderately uniform in thickness with a slightly thick belly pocket. Shoulders are slightly thick and full. Carcasses are usually moderately well-balanced and moderately uniform in fleshing and finish. There are moderate quantities of interior fat in the pelvic area, a slightly thin but moderately extensive layer of fat lining the inside surface of the ribs, and a slightly small quantity of feathering, or fat intermingled with the lean between the ribs. The lean is firm. Both exterior and interior fats are firm, white, and of excellent quality. Carcasses with back fat thickness qualifying them for the fatter one-half of the U. S. No. 1 grade but with thin muscling in the major cuts, uneven fleshing and finish, or thick and uneven bellies shall be graded U. S. No. 2. Carcasses with back fat thickness qualifying them for the thinner one-half of the U. S. No. 1 grade but with only a moderately thin and incomplete rib lining, a moderately small quantity of feathering, slightly thin bellies with moderately thin belly pockets, and moderately soft lean and fat shall be graded Medium.

(b) *U. S. No. 2 grade.* U. S. No. 2 grade sow carcasses have a higher degree of finish than the minimum required to produce pork cuts of acceptable palatability. Meatiness and yield of lean cuts from carcass weight are slightly low. Yield of fat cuts is slightly high. The ratio of total lean and fat to bone is moderately high. Carcasses with the minimum finish required for U. S. No. 2 grade are slightly short and moderately wide in relation to weight. The back and loins are full and thick and are especially full near the edges. Hams are usually thick and plump and are moderately full in the lower part toward the hock. Bellies are slightly short, moderately thick, and rather uniform in thickness with a moderately thick belly pocket. Shoulders are moderately thick and full. Carcasses are usually well-balanced and uniform in fleshing and finish. There are slightly large quantities of interior fat in the pelvic area, a slightly thick and rather extensive layer of fat lining the inside surface of the ribs, and moderate feathering. The lean is firm. Both exterior and interior fats are firm, white, and of excellent quality. Carcasses with back fat thickness qualifying them for the fatter one-half of the U. S. No. 2 grade but with thin muscling in the major cuts, uneven fleshing and finish, or very thick and uneven bellies shall be graded U. S. No. 3. Carcasses with back fat thickness qualifying them for the thinner one-half of the U. S. No. 2 grade but with thick muscling in the major cuts, well-balanced fleshing and uniform finish, and slightly thick bellies shall be graded U. S. No. 1.

(c) *U. S. No. 3 grade.* U. S. No. 3 grade sow carcasses have a decidedly higher degree of finish than the minimum required to produce pork cuts of acceptable palatability. Meatiness and yield of lean cuts from carcass weight are low. Yield of fat cuts is high. The ratio of total lean and fat to bone is high. Carcasses with the minimum finish required for U. S. No. 3 grade are short and wide in relation to weight. The back and loins are very full and thick and are decidedly full at the edges. Hams are usually very thick and plump and are full in the lower part toward the hock due to a thick fat covering. Bellies are short and thick and uniform in thickness with a thick belly pocket. Shoulders are thick and full. Carcasses are usually well-balanced and uniform in fleshing and finish. There are large quantities of interior fat in the pelvic area, a moderately thick and extensive layer of fat lining the inside surface of the ribs, and slightly abundant feathering. The lean is firm. Both exterior and interior fats are firm, white, and of excellent quality. Carcasses with back fat thickness indicative of nearly minimum finish for the U. S. No. 3 grade but with thick muscling in the major cuts, well-balanced fleshing and uniform finish, and moderately thick bellies shall be graded U. S. No. 2.

(d) *Medium grade.* Medium grade sow carcasses have a lower degree of finish than the minimum required to produce pork cuts of acceptable palatability. Yield of lean cuts from carcass weight is moderately high. Yield of fat cuts is moderately low. The ratio of total lean and fat to bone is moderately low. Carcasses with the minimum finish required for Medium grade are long and rather narrow in relation to weight. The back and loins are rather thin, lack fullness, and slope away from the center. Hams are usually slightly thin, lack plumpness, and taper toward the hock. Bellies are long and moderately thin and are somewhat uneven in thickness with a thin belly pocket. Shoulders are moderately thin and flat. Carcasses tend to be uneven and lack uniformity of fleshing and finish. There are slightly small quantities of interior fat in the pelvic area, a thin and incomplete layer of fat lining the inside surface of the ribs, and only a small quantity of feathering. The lean is moderately soft with little evidence of marbling. Both exterior and interior fats are moderately soft, white to creamy white, and of moderately low quality. Carcasses with back fat thickness qualifying them for the fatter one-half of the Medium grade that are firm and have slightly thick bellies and belly pockets, a slightly thin but moderately extensive rib lining, and a slightly small quantity of feathering shall be graded U. S. No. 1. Carcasses with back fat thickness qualifying them for the thinner one-half of the Medium grade but with little or no rib lining and feathering, thin bellies and very thin belly pockets, and soft lean and fat shall be graded Cull.

(e) *Cull grade.* Cull grade sow carcasses have a decidedly lower degree of finish than the minimum required to produce pork cuts of acceptable palatability. Yield of lean cuts from carcass weight is high. Yield of fat cuts is low. The ratio of total lean and fat to bone is low. Carcasses with the degree of finish typical of the Cull grade are long and narrow in relation to weight. The back and loins are thin and decidedly lacking in fullness with a definite slope toward the sides. Hams are usually thin and flat and taper toward the hock. Bellies are very long and thin and are uneven in thickness with a very thin belly pocket. Shoulders are thin and flat. Carcasses tend to be uneven and lack uniformity of fleshing and finish.

There are only small quantities of interior fat in the pelvic area, little or no fat lining the inside surface of the ribs, and scant feathering. The lean is soft and watery with very little evidence of marbling. Both exterior and interior fats are soft, creamy white to white, and of low quality. Carcasses with back fat thickness indicative of nearly maximum finish for the Cull grade that are only moderately soft and have moderately thin bellies and belly pockets, a thin and incomplete rib lining, and a small quantity of feathering shall be graded Medium.

§ 53.154 *Application of standards for grades of slaughter sows.* (a) The standards for grades of slaughter sows are based on (1) differences in yields of lean cuts and of fat cuts and (2) differences in quality of cuts. These characteristics vary rather consistently from one grade to another. The U. S. No. 1 grade has about the minimum degree of finish necessary to produce pork carcasses with quality characteristics indicative of acceptable palatability in the cuts. The U. S. No. 2 grade is overfinished and the U. S. No. 3 grade is decidedly overfinished in relation to the minimum finish associated with acceptable palatability. Yields of lean cuts are lower and yields of fat cuts are higher, in proportion to the degree of overfinish, in these grades than in the U. S. No. 1 grade. Medium grade sows are underfinished and produce carcasses which are soft and have indications of insufficient quality for acceptably palatable cuts. Cull grade sows are decidedly underfinished and the pork is soft and watery with little or no marbling and low palatability.

(b) The grades for slaughter sows are closely related to the grades for sow carcasses, and the desired objective in grading sows is the accurate prediction of the carcass grade that will be produced. Degree of finish is an important factor in grading, and the expected average back fat thickness of carcasses produced by each grade of slaughter sows forms a part of the standards. The results of study of carcass measurement and cutting data show that carcasses equal in fat thickness are approximately equal in yields of cuts regardless of differences in weight. Therefore, the expected back fat thickness of carcasses from each grade of slaughter sows is the same at all weights. The following table outlines the carcass fat thickness guides for each grade of slaughter sows.

Grade:	*Average back fat thickness*
U. S. No. 1	1.5 to 1.9 inches.
U. S. No. 2	1.9 to 2.3 inches.
U. S. No. 3	2.3 or more inches.
Medium	1.1 to 1.5 inches.
Cull	Less than 1.1 inches.

(c) The standards for grades also include descriptive specifications of the characteristics of slaughter sows with the minimum degree of finish for each grade. Application of the standards requires an accurate appraisal of these live animal characteristics indicative of carcass finish and grade. No attempt is made to describe in the standards the many combinations of characteristics which may qualify an animal for a particular grade, and sound judgment is required to appropriately analyze varying combinations.

(d) Slaughter sows that have produced several litters of pigs may show considerable roughness along the underline due to extensive development of mammary tissue. In addition, sows from which pigs were weaned only a short time prior to grading may show evidence that the mammary tissue is still active in milk production and not completely dry. Since smoothness and dryness of the underline have little effect on the basic grade determining factors, no provision is made in the standards for altering the grade of slaughter sows due to differences in these characteristics. It is recognized that the value determining factors to be considered in marketing sows include dryness and smoothness as well as such other factors as weight, degree of finish, quality, and fill. However, consideration of all such factors in determining grade would require a complicated system with a great number of grades in order to make each grade sufficiently restrictive to be practical and useful. Therefore, the grades outlined in these standards identify differences in slaughter sows with respect to yields of cuts and quality. They were designed as practical aids in evaluating slaughter sows when used in conjunction with other factors such as weight, fill, smoothness, and dryness.

§ 53.155 *Specifications for official United States standards for grades of slaughter sows*—(a) *U. S. No. 1 grade.* U. S. No. 1 grade slaughter sows have an intermediate degree of finish near the minimum required to produce pork cuts of acceptable palatability. Sows with the minimum finish for U. S. No. 1 grade are moderately long and slightly wide in relation to weight. Width of body is rather uniform from top to bottom and from front to rear. The back, from side to side, is moderately full and thick with a well-rounded appearance and blends smoothly into the sides. The sides are moderately long and slightly thick; the flanks are slightly thick and full. Depth at the rear flank may be slightly less than depth at the fore flank. Hams are usually moderately thick and full with a slightly thick covering of fat. Jowls are usually moderately thick and full but appear trim. Sows in this grade produce U. S. No. 1 grade carcasses.

(b) *U. S. No. 2 grade.* U. S. No. 2 grade slaughter sows have a moderately high degree of finish that is somewhat greater than the minimum required to produce pork cuts of acceptable palatability. Sows with the minimum finish for the U. S. No. 2 grade are slightly short and moderately wide in relation to weight. Width of body is often greater over the top than at the underline and tends to be slightly greater through the shoulders than through the hams. The back, from side to side, is full and thick and appears slightly flat with a noticeable break into the sides. The sides are slightly short and moderately thick; the flanks are moderately thick and full. Depth at the rear flank is nearly equal to depth at the fore flank. Hams are usually thick and full with a moderately thick covering of fat, especially over the lower part. Jowls are usually full and thick, and the neck appears rather short. Sows in this grade produce U. S. No. 2 grade carcasses.

(c) *U. S. No. 3 grade.* U. S. No. 3 grade slaughter sows have a high degree of finish that is considerably greater than the minimum required to produce pork cuts of acceptable palatability. Sows with the minimum finish for U. S. No. 3 grade are short and wide in relation to weight. Width of body is often somewhat greater over the top than at the underline and tends to be greater through the shoulders than through the hams. The back, from side to side, is very full and thick and appears nearly flat with a pronounced break into the sides. The sides are short and thick; the flanks are thick and full. Depth at the rear flank is equal to depth at the fore flank. Hams are usually very thick and full with a thick covering of fat especially over the lower part. Jowls are usually very full and thick, and the neck appears short. Sows of this grade produce U. S. No. 3 grade carcasses.

(d) *Medium grade.* Medium grade slaughter sows have a low degree of finish which is somewhat less than the minimum required to produce pork cuts of acceptable palatability. Sows with the minimum finish for Medium grade are long and moderately narrow in relation to weight. Width of body is often less over the top than at the underline and tends to be slightly less through the shoulders than through the hams. The back, from side to side, is moderately thin and appears rather peaked at the center with a distinct slope toward the sides. The hips are moderately prominent. The sides are long and moderately thin; the flanks are thin. Depth at the rear flank is less than depth at the fore flank. Hams are usually moderately thin and flat and taper toward the shank. Jowls are usually slightly thin and flat, and the neck appears rather long. Sows in this grade produce Medium grade carcasses.

(e) *Cull grade.* Cull grade slaughter sows have a very low degree of finish which is considerably lower than that required to produce pork cuts of acceptable palatability. Sows with the finish typical of the Cull grade are long and narrow in relation to weight. Width of body is often somewhat less over the top than at the underline and tends to be less through the shoulders than through the hams. The back, from side to side, is thin and lacks fullness and is peaked at the center with a decided slope toward the sides. The hips are prominent. The sides are very long and thin; the flanks are very thin. Depth at the rear flank is considerably less than depth at the fore flank. Hams are usually thin and flat with a definite taper toward the shank. Jowls are usually thin and flat, and the neck appears long. Sows in this grade produce Cull grade carcasses.

The heading for Part 53 of Title 7, Code of Federal Regulations, is changed to read as set forth above.

(Secs. 203, 205, 60 Stat. 1087, 69 Stat. 553; 7 U. S. C. 1622, 1624)

Since the foregoing standards provide a basis for market news reporting and certain statistical work of the Department and should be made effective as soon as possible to be of maximum benefit in connection therewith, and since the use of the standards will not be mandatory under the Agricultural Marketing Act upon any members of the public, good cause is found under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) for making the standards effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing standards shall become effective September 1, 1956.

Done at Washington, D. C., this 15th day of August 1956.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 56-6704; Filed, Aug. 17, 1956; 8:49 a. m.]

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 855.4]

PART 855—MAINLAND CANE SUGAR AREA

1957 CROP

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (hereafter referred to as "act"), the following determination is hereby issued:

§ 855.4 *Proportionate shares for sugarcane farms in the Mainland Cane Sugar Area for the 1957 crop*—(a) *Farm proportionate share.* A 1957-crop proportionate share for each sugarcane farm in the Mainland Cane Sugar Area as constituted at the beginning of harvest of the 1957 crop on such farm shall be established in terms of acres (acreage or acres as used herein means the area of sugarcane harvested for seed or abandoned and classified as bone fide abandonment under procedure issued by the Commodity Stabilization Service and the area on which sugarcane is grown on the farm and marketed (or processed) for the extraction of sugar or liquid sugar, except any area on which sugarcane is grown and marketed (or processed) for the extraction of sugar or liquid sugar for use as livestock feed, or for the production of livestock feed (referred to in this section as "sugar for livestock")), as follows:

(1) *All farms except those in Avoyelles, St. Landry and Rapides Parishes, Louisiana.* The proportionate share for each farm for which a 1956 farm base was established pursuant to § 855.3 (Determination of Proportionate Shares for the 1956 Crop) shall be such base, except that for any farm for which the 1956 farm base was established on the basis of 125 percent of the 1955 production, pursuant to paragraph (a) (1) of such section, the proportionate share for such farm shall be the 1955 proportionate share established pursuant to § 855.2 (Determination of Proportionate Shares for the 1955 Crop).

(2) *All farms in Avoyelles, St. Landry, and Rapides Parishes, Louisiana.* The proportionate share for each farm for which a proportionate share was established pursuant to § 855.3 (Determination of Proportionate Shares for the 1956 Crop, as revised), shall be 115 percent of such share.

(3) *New farms.* The proportionate share for any farm not eligible for a share as provided under subparagraph (1) or (2) of this paragraph shall be 5.0 acres.

(4) *Transfer of farm proportionate shares.* The proportionate share established or which would have been established pursuant to subparagraphs (1) and (2) of this paragraph for any land removed from sugarcane production because of transfer by sale, lease or donation to any Federal, State or any other agency or entity having the right of eminent domain, shall, upon application to the appropriate Agricultural Stabilization and Conservation State Office (referred to in this section as "State Office"), within five years from the date of such transfer, be added to the proportionate share, if any, established for other land owned, purchased, or leased by the owner of the land so transferred.

(5) *Dividing or combining acreage records.* (i) For the purposes of this subparagraph, the term "1956 base" shall mean the 1956 farm base established for all farms in the Mainland Cane Sugar Area, except for farms in Avoyelles, St. Landry, and Rapides Parishes, Louisiana, pursuant to § 855.3 (Determination of Proportionate Shares for the 1956 Crop); and for farms in such parishes shall mean the 1956 proportionate share established pursuant to § 855.3 (Determination of Proportionate Shares for the 1956 Crop as revised). Where a farm as constituted for the 1956 program is subdivided, a proportionate share for each subdivision shall be determined by multiplying the 1956 base of the farm of which such subdivisions were a part by the percentage that the cropland suitable for the production of sugarcane in each subdivision is of the total cropland acreage suitable for the production of sugarcane in the 1956 farm, except that if the Agricultural Stabilization and Conservation county committee (referred to in this section as "county committee") determines that the use of the cropland relationships in any case results in the establishment of a proportionate share which is not representative of the 1957-crop sugarcane acreage on any subdivision at the time of subdivision, or is inconsistent with any written evidence of the acreage of sugarcane on any subdivision during the crop years 1954, 1955, and 1956, such proportionate share shall be adjusted by the county committee taking into consideration such sugarcane acreage; *Provided, that,* upon written application joined in by all the parties concerned in any subdivision of a farm, and filed with the county committee not later than the beginning of harvest of the 1957-crop sugarcane on the farm, and upon approval by the county committee, the proportionate share may be established or re-established by multiplying the 1956 base of the farm which is subdivided, by the percentage that the total acreage of sugarcane in each subdivision of the farm for the crop years 1954, 1955, and 1956 is of the total acreage of sugarcane grown within proportionate shares for said three years on the 1956 farm or on the ownership tract (a farm or a portion of a farm which is separately owned); *Provided further, that,* if the subdivision of a farm occurs after the planting of the 1957-crop sugarcane, and if prior to the beginning of harvest of such crop, all interested parties so request by joining in a written request to the county committee, the 1957-crop proportionate share for each subdivision shall be determined by multiplying the 1957 proportionate share for the farm of which the subdivision was a part by the percentage that the 1957 measured sugarcane acreage on each subdivision is of the total measured 1957 sugarcane acreage within the proportionate share on such farm.

(ii) If two or more farms or subdivisions are combined, or there is a combination of one or more farms and one or more subdivisions, the proportionate share for the combined farm shall be the sum of the proportionate shares determined as provided in this section for the parts of the combined farm.

(6) *Reallotment of unused acreage.* If it is determined by the Agricultural Conservation and Stabilization Louisiana State Committee that the proportionate share established in accordance with the foregoing provisions for any farm in Avoyelles, St. Landry, and Rapides Parishes of Louisiana will not be fully used, the proportionate shares for other farms within such parishes on which the producers desire to market sugarcane for sugar or liquid sugar or harvest sugarcane for seed from an acreage in excess of the proportionate shares established as provided in this paragraph may be increased prior to August 1, 1957, by prorating the total unused acreage among such farms on the basis of their proportionate shares established under this paragraph. Before prorating unused acreage with respect to any farm, the State Committee shall obtain a statement from the operator thereof as to the number of acres within the proportionate share that will not be used.

(7) *Delegation.* Farm proportionate shares shall be established by the county committee in accordance with this section.

(8) *Appeals.* A producer of sugarcane who believes that the proportionate share established for his farm pursuant to this section is inequitable may file an appeal in writing at the local county Agricultural Stabilization and Conservation Office (referred to in this section as "county office") prior to July 1, 1957. The county committee shall make such adjustments as are necessary due to the use of any incorrect data in determining the proportionate share. In other cases, the county committee shall, after review of all of the facts, forward the case, together with its recommendation, to the Agricultural Stabilization and Conservation State Committee (referred to in this section as "State Committee"). The State Committee shall review the county committee's recommendation and act upon the appeal, and shall return the case to the county committee indicating the appropriate disposition. Upon receipt thereof, the county committee shall notify the producer in writing as soon as possible regarding the decision on his appeal. If the producer is dissatisfied with the decision, he may appeal in writing before September 1, 1957, to the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C., whose decision shall be final. In acting upon the appeal the State Committee or the Director shall consider only such matters as under the provision of this section are required or permitted to be considered by the county committee in the establishment of the farm proportionate share to be reviewed.

(9) *Erroneous notice of 1957 proportionate shares.* If through error a producer is officially notified in writing of a 1957 proportionate share for his farm greater than the proportionate share properly established pursuant to this section, and it is found by the State Committee that such producer, acting solely on the information contained in the erroneous notice, marketed 1957-crop sugarcane from an acreage in excess of the proportionate share properly established, the producer will be deemed to be in compliance with the farm proportionate share unless he marketed sugarcane for sugar from an acreage in excess of the proportionate share stated in the erroneous notice or unless it is determined by the State Committee that the error was so gross as to place the producer on notice regarding the error. However, the Sugar Act payment with respect to the farm shall be limited to the amount of sugar commercially recoverable from the sugarcane marketed (or processed) from the acreage within the properly established proportionate share.

(b) *Share tenant and sharecropper protection and compliance with other conditions for payment.* In addition to compliance with the proportionate share for the farm in accordance with this section, eligibility for payment of any producer of sugarcane shall be subject to the following conditions:

(1) That the number of share tenants or sharecroppers engaged in the production of sugarcane of the 1957 crop on the farm shall not be reduced below the number so engaged with respect to the previous crop, unless such reduction is approved by the State Committee. In considering such approval the State Committee shall be guided by whether the reduction was the result of a voluntary action of the share tenant or sharecropper, or whether the reduction was beyond the control of the producer;

(2) That such producer shall not have entered into any leasing or cropping agreement for the purpose of diverting to himself or any other producer any payments to which share tenants or sharecroppers would be entitled if their leasing or cropping agreements for the previous crop were in effect; and

(3) That such producer has met all other requirements of the act and the determinations issued pursuant thereto with respect to child labor, wage rates, and, in the case of a processor-producer, prices paid for sugarcane.

(c) *Filing application for payment.* Application for payments authorized under Title III of the act with respect to sugarcane planted on a farm for harvest during the 1957-crop season shall be made on form SU-120 by the producer on the farm or his legal representative, who must sign and file the form in the county office for the county where the farm or major portion thereof is located or with a representative of such office no later than June 30, 1959.

(d) *Determination of eligibility and basis for payment and appeals for review thereof.* Compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment, and the amount thereof shall be determined by the county committee. Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee in writing to reconsider such determination. The county committee shall notify the producer of its decision in writing. If the producer is dissatisfied with the decision of the county committee, he may, within 15 days after the date of mailing of the decision to him, appeal in writing to the State Committee. The State Committee shall notify the producer of its decision in writing within 30 days after the submission of the appeal. If the producer is dissatisfied with the decision of the State Committee, he may, within 15 days after the date of mailing of the decision to him request the Secretary to review the decision of the State Committee. The decision of the Secretary shall be final. Determinations by the county committee shall be made and decided in accordance with the applicable provisions of the act and regulations issued by the Secretary thereunder and on the basis of the facts in the individual case.

(e) *Obtaining information regarding eligibility for payment.* For the purposes of obtaining information, where necessary, to assist the county committee in determining compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment or the amount thereof, or for the purposes of assisting, where necessary, the State Committee or the Secretary in reviewing, upon appeal, any such determination by the county committee, any employees of the county committee designated by the county office manager to be qualified to carry out the duty of ascertaining such information, or any employees of the State Office who are determined by the State Administrative Officer to be qualified to perform such duties, shall visit any farm with respect to which application for such payment is made and enter thereon if such entry will facilitate the acquisition of the required information. Where measurement by an employee of the county committee or State Office is required with respect to the extent of sugarcane acreage growing, harvested, abandoned, or otherwise disposed of on any farm for which application is made for any payment authorized under Title III of the act, the employee, designated as provided in this paragraph of the county committee or the State Office as the case may be, shall measure such acreage by identification of fields or parts of fields by use of a map, aerial photography, or by use of a steel or metallic tape, or by a combination of these methods. In connection with any measurements of any sugarcane acreage, remeasurements, rechecks and spot checks thereof may be made by the county office manager, county performance supervisor, district performance supervisor or any other employees of the State Office who are determined by the State Administrative Officer to be qualified to perform such duties. If the operator or his representative of any farm with respect to which application is made for any payment authorized under Title III of the act prevents the county committee from obtaining information necessary to determine compliance with the conditions for any such payment, the facts constituting the basis for any such payment or the amount thereof, and until such farm operator or his representative permits such information to be obtained, the conditions prescribed by the act and regulations for any such payment shall be deemed not to have been met.

STATEMENT OF BASES AND CONSIDERATIONS

Sugar Act requirements. Section 301 (b) of the act provides as a condition for payment to producers that there shall not have been marketed (or processed), except for livestock feed, or for the production of livestock feed, an amount of sugarcane grown on the farm and used for the production of sugar or liquid sugar in excess of the proportionate share for the farm as determined by the Secretary pursuant to section 302 of the act. For the Mainland Cane Sugar Area, the term "proportionate share" means the individual farm's share of the total acreage of sugarcane required to enable the area to meet the quota (and provide a normal carryover inventory) as estimated by the Secretary, for the calendar year during which the larger part of the sugar from such crop normally would be marketed.

Section 302 (a) of the act provides that the amount of sugar with respect to which payment may be made shall be the amount of sugar commercially recoverable from the sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm.

Section 302 (b) provides that in determining the proportionate share for a farm, the Secretary may take into consideration the past production on the farm of sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugarcane, and that the Secretary shall, insofar as practicable, protect the interests of new producers and small producers, and the interests of producers who are cash tenants, share tenants, or sharecroppers and of producers in any local producing area whose past production has been adversely, seriously,

and generally affected by drought, storm, freeze, flood, disease, insects, or other similar abnormal and uncontrollable conditions.

General. Pursuant to the foregoing provisions of the act, proportionate shares for sugarcane farms must be established for each crop since the marketing of sugarcane within such shares by producers constitutes one of the conditions for payment. Restrictive proportionate shares are required in any area when the indicated production will be greater than the quantities needed to fill the quota and provide a normal carryover inventory for such area.

Acreage restrictions on the Mainland Sugarcane Crop have been in effect for three years, beginning with the 1954 crop of sugarcane. During this period a total reduction of approximately 30 percent in acreage has been effected. However, new varieties of sugarcane and other favorable conditions have resulted in increased yields of sugar per acre and increases in the effective inventory of sugar (i. e. sugar on hand at the beginning of the year, plus sugar processed after January 1 from the sugarcane crop of the previous year's designation) during each year. In keeping with the objectives of a provision of H. R. 7030, as passed by the House of Representatives during the first session of the 84th Congress, and of a Senate Resolution approved by the Senate during the same session, the Department purchased approximately 78,000 tons of sugar in the Mainland Sugarcane Area to help alleviate this sugar inventory situation.

Situation indicated for 1957. The effective inventory of sugar on January 1, 1956, was approximately 470,000 tons, or about 70,000 tons higher than that on January 1, 1955. The July estimate of sugarcane production converted on the basis of the average recoveries of sugar per ton of cane for the past three crops indicates a production of about 530,000 tons of sugar for the 1956 crop. Thus, sugar supplies in the Mainland Area for the year will total about 1 million tons. With the purchase of 78,000 tons by the Department and assumed 1956 marketings equal to a quota of 573,356 tons, the effective inventory on January 1, 1957, will be about 349,000 tons. Although this inventory is about 121,000 tons below that of a year ago, it is still in excess of averages for previous recent years. Therefore, restrictions on the 1957 crop are clearly necessary to prevent further accumulation of stocks greater than those needed to fill the quota and provide a normal carryover inventory.

Public hearing. An informal public hearing was held in New Orleans, Louisiana, on July 19, 1956, for the purpose of receiving information and recommendations for establishing farm proportionate shares for the 1957 crop. To provide a basis for discussion at the hearing, the Department issued a press release on June 29, 1956, suggesting that the provisions of the 1957-crop determination be generally similar to those for the 1956 crop. In addition, the Department asked for the views of interested persons relating to (1) the acreage level for the 1957 crop, (2) the quantity of sugar that should be considered as a normal inventory, (3) methods of allocating farm acreage history for use in establishing proportionate shares where part of a farm is transferred, (4) the limitation of the 1957 proportionate share to 125 percent of the 1956 production for any farm failing to fill its 1956 proportionate share up to the 80 percent level due to a cause within the producer's control, and (5) the extent to which plantings which were prevented due to abnormal and uncontrollable conditions should be recognized in establishing proportionate shares. The hearing was attended by approximately 40 persons from Louisiana and Florida. Testimony was presented by several persons, one of whom represented growers producing a large percentage of the sugarcane in the area. In addition, five briefs were filed.

There was general concurrence with the Department's proposal to extend certain of the 1956-crop provisions to the 1957 crop. In view of the hardships to individual producers resulting from the acreage reductions during the previous three years, increases in the quota for the Mainland Area pursuant to recent amendments to the Sugar Act, and the possibility of crop failures, the industry recommended unanimously that the 1955 acreage level be restored. This was the unanimous recommendation, therefore, of those who must bear the burden of carrying the resulting inventories and of those who will be adversely affected if such inventories should have the effect of depressing prices.

Recommendations received regarding the method of allocating farm history in case a farm is subdivided would provide for a division of such history in substantially the same manner provided under the 1956-crop determination unless the parties concerned in the subdivision agreed to a division based upon the cropland relationship between each tract and the 1956 farm or a division based upon the relationship between the sugarcane acreage for the last three years in each tract to the sugarcane acreage in the 1956 farm. In addition, if requested by all parties interested, it was recommended that the division of the 1957 proportionate share for a farm after the planting of the 1957 crop be accomplished by assigning a proportionate share to each subdivision based upon the percentage that the 1957 sugarcane acreage on each part bears to the total sugarcane acreage on the farm of which it was a part. This method would be effective only for the 1957 crop.

It was recommended that the provision contained in the 1956-crop determination providing for the establishment of farm bases at a level of 125 percent of the planted acreage for farms failing to plant 80 percent of the previous year's proportionate share be retained. However, it was suggested that this provision be broadened to provide for no reduction in any case when the failure to fill the proportionate share to the 80 percent level was due to any cause beyond the control of the operator. The 1956 determination enumerated six specific reasons beyond the control of the operator.

Determination. This determination provides for the issuance of 1957 proportionate shares approximating the 1955-crop share level, thus restoring the reduction in acreage affected under the 1956-crop determination. In establishing this acreage level, consideration has been given to the prospective sugar supply and inventory situation, the marketing possibilities of the area, factors which affect production, such as variations in yields and the possibilities of crop damage from freeze, to the testimony presented at the hearing, to briefs filed since the hearing, and to experience under previous restrictive programs.

Based upon the yield of sugar per acre from the 1955 crop, the production of sugar from the acreage level provided for in this determination would approximate the marketing outlets for the area under the quota. While increased yields of sugar per acre may result in some addition to the inventory, the carryover of sugar would not appear to be excessive. Moreover testimony at the hearing indicated that the industry did not consider the prospective inventory to be burdensome. In the circumstances therefore, the 1957 acreage level will permit the production of sufficient sugar to enable the area to fill its quota and provide a normal carryover.

For the 1956-crop determination, the proportionate shares established for farms under the 1955-crop determination became the 1956 farm bases, except that where the 1955 acreage on a farm was less than 80 percent of its 1955 proportionate share due to a cause other than drought, flood, storm, freeze, disease, or insects, the base was the larger of 125 percent of such 1955 acreage or 5.0 acres. By applying a factor to the farm bases established for the larger farms, the reduction in the 1956 acreage was effected. For the 1957 crop, the 1956 base established for a farm will become the 1957 proportionate share, except that if the 1956 base was computed on the basis of 125 percent of the 1955 production, the 1957 farm proportionate share will be the 1955 proportionate share. Generally, farms which were exempt from reductions in acreage in 1956 will not receive increases in 1957. In view of an amendment to the 1956-crop determination affecting farms in Avoyelles, St. Landry and Rapides Parishes, Louisiana, under which some 1956 proportionate shares were recomputed, 1957-crop proportionate shares for this area will be computed by multiplying the previous year's shares by 115 percent. Although this percentage will be applied to all farms regardless of size, it will have the basic effect of merely restoring the 1955 acreage level as is being done in the balance of the area. The increases for the smaller farms will be negligible.

A provision similar to one effective in the 1956-crop determination limiting the base to 125 percent of the 1955 acreage for any farm on which such acreage was less than 80 percent of the proportionate share has not been included in this determination. The industry recommended that this provision be extended with a liberalization to provide for no reduction in any case when the failure to fill the proportionate share to the 80 percent level was due to a cause beyond the control of the operator. In view of the limited applicability of a liberalized provision, such a provision has been omitted entirely.

The provision of the 1956-crop determination relating to the transfer of proportionate shares where land is removed from sugarcane production because of transfer by sale, lease or donation to any Federal, State or other agency has been continued.

As was the case for the 1956-crop determination, new producers will be entitled to a share of five acres for the 1957 crop.

Under this determination, the proportionate shares for farms which are subdivided will be established generally on the basis of the relationship of the cropland in each part of the subdivision to the cropland in the parent farm, unless the parties concerned agree to a division of the proportionate share for the parent farm on the basis of the record of sugarcane production during the last three years. However, if the 1957-crop sugarcane has been planted on the farm at the time of subdivision, the proportionate shares for 1957 for each of the parts will be established on the basis of the relationship between the 1957 sugarcane acreage planted thereon and the total 1957 sugarcane acreage planted on the parent farm, if requested by the interested parties. This method of establishing proportionate shares for farms involved in subdivisions is substantially the same as that recommended by the representatives of a large majority of the cane producers in the Mainland Sugarcane Area. It is believed that this method will prove more equitable than the method followed under previous programs and extreme care will be exercised by ASC county committees to insure that subdivisions are not made for the purpose of trafficking in proportionate shares.

In view of the fact that acreages which were abandoned for bona fide reasons during the base period were used in establishing proportionate shares, and in view of the high weighting accorded the largest acreage for any year in such period, the effects of one or two crops of below-average plantings have been largely counteracted. Accordingly, except to the extent that recognition has been given in this determination to adverse weather conditions in distinguishing the parishes of Avoyelles, Rapides and St. Landry, in Louisiana from the remainder of the Mainland Cane Sugar Area, it is not deemed necessary to make any other special provision in this determination to implement the amendment to section 302 (b) of the Sugar Act by Public Law 545, 84th Congress, approved May 29, 1956.

Provisions similar to those included in the revised 1956-crop determination for producers in the parishes of Avoyelles, Rapides and St. Landry, Louisiana, have been continued in this determination.

Other new provisions included in this determination relate to such procedural matters as appeals from the determination of compliance with conditions for payment, filing of applications for payment, the establishment of a closing date for filing applications for payment, and the right of entry on farms to permit the measurement and verification of acreages, to estimate potential sugarcane production and to obtain information pertaining to facts constituting the basis for payments and the amounts thereof.

It is believed that this determination provides an equitable basis for establishing proportionate shares for the 1957 Mainland Sugarcane Crop.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the applicable provisions of the act.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 302, 61 Stat. 930; 7 U. S. C. 1132)

Issued this 14th day of August 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 909—ALMONDS GROWN IN CALIFORNIA

SALABLE AND SURPLUS PERCENTAGES OF ALMONDS DURING THE CROP YEAR BEGINNING JULY 1, 1956

Pursuant to the provisions of § 909.62 of Marketing Agreement No. 119 and Order No. 9 (7 CFR Part 909) regulating the handling of almonds grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of a recommendation and estimates of the Almond Control Board, established and operating under the aforesaid marketing agreement and order, and other information available to this Department, it is hereby found and determined that the establishment of the salable and surplus percentages for the handling of almonds for the crop year which began July 1, 1956, as hereinafter set forth, will tend to effectuate the declared policy of the act.

While a large 1956 crop of domestic almonds is indicated, foreign almond production is expected to be about 15 percent smaller than the short crop of 1955 and only about 44 percent of the 1950–54 average. Domestic and world almond market prices are higher than a year ago. Prices to growers for the 1955 crop averaged 43 cents per pound, compared with the 1955–56 season average parity price of 27.4 cents. On the basis of indicated field prices, and the general market situation, it is expected that prices to growers in 1956–57 will exceed the season average parity price. The current parity price is 27.7 cents per pound. The Agricultural Marketing Agreement Act of 1937, as amended, authorizes no action which has for its purpose the maintenance of prices to farmers above parity, which precludes restriction of the quantity available for the domestic market in 1956–57.

Therefore, after consideration of all relevant matters, the following administrative rule is issued:

§ 909.206 *Salable and surplus percentages for almonds during the crop year beginning July 1, 1956.* The salable and surplus percentages for almonds during the crop year beginning July 1, 1956, shall be 100 percent and zero percent respectively.

It is hereby found and determined that notice of proposed rule making, public participation therein, and 30 days notice prior to its effective date (See section 4 of the Administrative Procedure Act: 5 U. S. C. 1001 et seq.) is impracticable, unnecessary, and contrary to the public interest. The 1956–57 crop year has already begun, and it is desirable that this action be made effective as soon as possible. The action taken will require no advance preparation on the part of almond handlers.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 15th day of August 1956, to become effective upon publication of this document in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F. R. Doc. 56-6702; Filed, Aug. 17, 1956; 8:49 a. m.]

[Valencia Orange Reg. 82]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.382 *Valencia Orange Regulation 82*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922; 21 F. R. 4392), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective

as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on August 16, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., August 19, 1956, and ending at 12:01 a. m., P. s. t., August 26, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 785,400 cartons;

(iii) District 3: Unlimited movement.

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 17, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 56-6758; Filed, Aug. 17, 1956; 11:35 a. m.]

[Lemon Reg. 655]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.762 *Lemon Regulation 655*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on August 15, 1956, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 19, 1956, and ending at 12:01 a. m., P. s. t., August 26, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 279,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 16, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 56-6741; Filed, Aug. 17, 1956; 8:54 a. m.]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

SPECIAL REGULATION OF PRUNES FOR THE 1956-57 CROP YEAR

Notice was published in the August 8, 1956, issue of the FEDERAL REGISTER (21 F. R. 5942) that the Secretary of Agriculture was considering a proposed rule whereunder the provisions of paragraphs (b), (c), (d), (e), and (f) of § 993.50 of Marketing Agreement No. 110, as amended, and Marketing Order No. 93, as amended (19 F. R. 1301), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), would be made applicable to all handling of prunes during the crop year which began on August 1, 1956. In said notice, opportunity was afforded all interested persons to file written data, views, or arguments with respect thereto.

After consideration of the data, views, or arguments which were submitted by interested persons, and other available information, it is hereby found and determined that the estimated seasonal average price of prunes for the crop year which began on August 1, 1956 would be in excess of the price level contemplated by the provisions of section 2 (1) of the act if the below-parity provisions of the marketing agreement and order, as amended, were made operative for said crop year. It is further found and determined that the application of the provisions of paragraphs (b), (c), (d), (e), and (f) of § 993.50 will tend to effectuate the declared policy of the act during such crop year. Accordingly, it is hereby ordered that such provisions shall apply to all handlings of prunes during said crop year.

This special regulation of prunes is considered to be necessary to assure the marketing of only those prunes which are of a quality reasonably satisfactory to consumers, to promote the interests of the dried prune industry, and to establish such orderly marketing of prunes as will be in the public interest.

It is hereby found and determined that good cause exists for not postponing the effective time of this order later than the date of its publication in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) in that: (1) The crop year in question has already begun, and it is necessary that this order be made effective as soon as practicable; (2) handlers need to know as early as possible the regulations that will apply to their handlings of prunes during the new crop year; (3) a notice of the proposed rule in this matter was published in the FEDERAL REGISTER on August 8, 1956, and the possibility that this action would be taken is already well known to the prune industry; and (4) it will require no advance preparation by prune handlers, as this is the same regulation which was in effect during the 1955-56 crop year. In these circumstances, this document should be made effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated August 15, 1956, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

[F. R. Doc. 56-6705; Filed, Aug. 17, 1956; 8:49 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 110—RESURRECTION BAY AREA

PART 119—SOUTHEASTERN ALASKA AREA, EASTERN DISTRICT, SALMON FISHERIES

OPEN SEASON

Basis and purpose. On the basis of field observations of salmon runs, it has been determined that the following amendments are necessary.

Therefore, effective immediately upon publication in the FEDERAL REGISTER:

1. Section 110.3 is amended by changing the period at the end to a colon and adding the following proviso: "*Provided,* That fishing is prohibited west of 149 degrees 30 minutes west longitude after 6 o'clock postmeridian August 18, 1956."

2. Section 119.3 is amended in paragraph (b) as it relates to the southern section by deleting "August 18" and substituting in lieu thereof "August 20, 1956."

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

JOHN L. FARLEY,
Director.

AUGUST 17, 1956.

[F. R. Doc. 56-6762; Filed, Aug. 17, 1956; 12:08 p. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B—Economic Regulations

[Reg. ER-215]

PART 211—APPLICATIONS FOR PERMITS TO FOREIGN AIR CARRIERS

FORMAL REQUIREMENTS; INCORPORATION BY REFERENCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 14th day of August 1956.

In 1952 the Civil Aeronautics Board and the Air Transport Board of Canada entered into an arrangement to facilitate the authorization of commercial air services, other than scheduled operations, across the international border between the United States and Canada, and between Canada and Alaska. As a result, a substantial number of permits have been issued by the aeronautical authorities of the two countries to carriers conducting casual, occasional and infrequent operations with small aircraft. All such permits have been for a temporary period of three years.

Small U. S. operators holding Canadian permits are able to obtain renewal of these permits by submitting a letter to the Canadian Air Transport Board setting forth the changes (if any) which have taken place in the carrier's organization subsequent to the filing of its formal application for an original permit. Such changes must be verified and sworn to before a Notary Public. However, small Canadian carriers holding 402 permits are required by the Civil Aeronautics Board's regulations to comply with more stringent procedural requirements than are imposed by the Canadian Government upon the U. S. carriers.

In 1952 the Board reduced to a minimum the proof and hearing requirements of these small Canadian carriers with respect to their applications for 402 permits. To date, there have been no interventions in any of the original permit or renewal cases in spite of the fact that in some instances operations involve service between points served by a scheduled U. S. carrier. In view of the lack of interest in this type of case by the certificated carriers, the absence of any objecting parties in these proceedings and the very limited procedural requirements imposed on U. S. carriers by the Canadian Government, it would be desirable to relax, as far as possible, the procedural requirements which these small Canadian carriers are required to meet with respect to their applications for 402 permits.

This amendment reduces the number of copies of applications required for foreign air carrier permits for casual, occasional and infrequent flights with small aircraft across the Canada-United States and Canada-Alaska borders. Further, with regard to applications for renewals of permits for such flights, incorporation of information by reference to any previously granted application is being permitted, provided that the renewal applications shall contain the details of any changes that may have occurred since the filing of the previous application.

Inasmuch as the amendments effectuated by this revision relate only to a rule of agency practice, or will serve to liberalize the present provisions, the Board finds that notice and public procedure hereon are not necessary and that these amendments may be made effective immediately upon publication in the FEDERAL REGISTER.

Accordingly, the Civil Aeronautics Board hereby amends §§ 211.1 and 211.4 of the Economic Regulations (14 CFR, Part 211) effective August 18, 1956, to read as follows:

1. By amending § 211.1 to read as follows:

§ 211.1 *Formal requirements.* Applications for permits to engage in foreign air transportation under the terms of section 402 of the act (hereinafter called foreign air carrier permits) shall meet the requirements set forth in § 302.3 of this chapter as to execution, number of copies, formal specifications of papers, and verifications, except that Canadian operators filing applications for foreign air carrier permits authorizing casual, occasional and infrequent flights with small aircraft across the Canada-United States border or the Canada-Alaska border shall file one original and seven true copies of the application. The verifications shall be subscribed and sworn to before a Notary Public or other officer authorized to administer oaths in the jurisdiction in which such application is executed. Notwithstanding the laws of the country of applicant's citizenship, an application verified before a United States consular officer will be deemed to have met the requirements of this section. All pages of an application shall be consecutively numbered, and the application shall clearly describe and identify each exhibit by a separate number or symbol. All exhibits shall be deemed to constitute a part of the application to which they are attached.

2. By amending § 211.4 to read as follows:

§ 211.4 *Incorporation by reference.* In general it is desirable that incorporation by reference shall be avoided. However, where two or more applications are filed by a single carrier, lengthy exhibits or other documents attached to one may be incorporated in the others by reference if that procedure will substantially reduce the cost to the applicant. Canadian operators filing applications for renewal of previously granted foreign air carrier permits authorizing casual, occasional and infrequent flights across the Canada-United States border or the Canada-Alaska border with small aircraft may incorporate by reference supporting documents previously submitted in connection with their applications for original 402 permits where no substantial changes have occurred since the filing of the original documents.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 402, 52 Stat. 991; 49 U. S. C. 482)

By the Civil Aeronautics Board.

[SEAL] JOHN B. RUSSELL,
Acting Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 209]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

When LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums				If visual contact not established at authorized minimums after passing facility within distance specified, or if landing not accomplished
							Condition	2 engines or less		More than 2 engines; more than 65 knots	
								65 knots or less	More than 65 knots		
1	2	3	4	5	6	7	8	9	10	11	12
SEATTLE, WASH. Seattle-Tacoma International, 424'. SBRAZ-SEA. ILS-SEA. Combination LFR and ILS. Procedure No. 4. Amendment original. Effective date: September 15, 1956.	Hobart FM to SEA-LFR	269—12.9	4,000	W side of NW course: SEA-LFR. 297° outbound. 117° inbound. 2,000' within 15 miles of Harbor Island FM. Not authorized beyond 15 miles. TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter D—Military Reservations and National Cemeteries

PART 557—SERVICE CLUBS AND LIBRARIES

Subchapter F—Personnel

PART 577—MEDICAL AND DENTAL ATTENDANCE

Subchapter I—Transport

PART 634—VEHICLES

MISCELLANEOUS AMENDMENTS

1. Sections 557.10, 557.11, and 557.12 (Army Library Service) are revoked.

[AR 28-85, May 28, 1956, superseding AR 680-50] (R. S. 161; 5 U. S. C. 22)

2. Section 577.4 is revised to read as follows:

§ 577.4 *Medical care in medical treatment facilities of Federal agencies outside Department of Defense*—(a) *For whom authorized.* The personnel listed in § 577.2 (a), and none other, except as provided in paragraph (b) of this section, are entitled to and will be provided medical care in medical treatment facilities of other Federal agencies outside the Department of Defense at the expense of Army Medical Service funds when the required care cannot be provided by available medical treatment facilities of the Department of Defense. Determination of availability of military facilities will be made, except in emergencies, by the immediate commanding officer of the individual receiving such care. The duty status of officers, warrant officers, and enlisted personnel of the Regular Army and cadets of the United States Military Academy does not effect their right to receive medical care in facilities of other Federal agencies.

(b) *Utilization of other Federal agencies by Army medical treatment facilities.* If it is necessary to utilize the laboratory facilities of Federal agencies outside the Department of Defense to supplement Army medical treatment facilities and/or Armed Forces Examining Stations, the commanding officer of the Army facility may obtain such laboratory services on his written request direct to the officer in charge of the Federal medical facility concerned.

[AR 40-104, July 19, 1956] (R. S. 161; 5 U. S. C. 22)

3. Part 634, Vehicles, is revoked.

[AR 700-2300-1, June 1, 1956] (R. S. 161; 5 U. S. C. 22)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

Subchapter E—Organized Reserves

PART 562—RESERVE OFFICERS' TRAINING CORPS

MISCELLANEOUS AMENDMENTS

1. The introductory portion of § 562.11 is revised to read as follows:

§ 562.11 *Divisions and units.* The Army ROTC is composed of three divisions: senior division, military schools division, and junior division. (The military schools division, although listed separately herein, is a part of the senior division in accordance with section 40 of the National Defense Act when ROTC training thereat is conducted in connection with college level academic training.) Training units are established at participating civilian educational institutions in conformity with the provisions of the National Defense Act and this part.

* * * * *

2. In § 562.21, revise paragraphs (b) and (c) (3), (v), and add paragraph (c) (3) (vi), as follows:

§ 562.21 *Requirements for enrollment in specific cases.* * * *

(b) *Basic course senior division and MST–3 and 4 course military schools division.* * * *

(2) *Loyalty requirement.* Prior to enrollment in the basic course, each student must execute satisfactorily the Loyalty Oath–ROTC (item 15, DA Form 131 (ROTC Students' Record)). If the student refuses to sign the Loyalty Oath, enrollment will be denied him. This does not preclude action under § 562.26 in appropriate cases. However, a student who does not sign the oath will not be permitted to wear the Army ROTC uniform or insignia.

(c) *Advanced course senior division and MST–5 and –6 course military schools division.* * * *

(3) *Student requirement.* A student enrolling in these courses must:

* * * * *

(v) Execute DA Form 597 (Advanced Course Students Contract) as prescribed in § 562.31.

(vi) If exempt from induction by reason of prior service in the active military service or if a member of a reserve component, execute DA Form 1803 ROTC Enrollment Agreement) as prescribed in § 562.31.

* * * * *

3. In § 562.22, revise paragraph (d) to read as follows:

§ 562.22 *Eligibility for membership of personnel of Armed Forces.* * * *

(d) Members of the Army Reserve and Army National Guard are eligible for enrollment in the ROTC subject to the following conditions:

(1) A warrant officer or enlisted member of the Army Reserve or National Guard is eligible for membership in the basic course ROTC, provided he is otherwise qualified. Such student, however, will be subject to orders for active duty with his unit in the event the unit is mobilized.

(2) A warrant officer or enlisted member of a Ready Reserve unit (Army Reserve and National Guard) is not eligible for enrollment in the advanced course (or MST–5 and –6 course) ROTC unless he is transferred to a USAR Control Group (Reinforcement). An advanced course (or MST–5 and –6 course) student currently in dual status may retain this status until September 1, 1957. Effective that date such student will be dropped from the enrollment in the advanced course (or MST–5 and –6 course) unless he is transferred to a USAR Control Group (Reinforcement). Prior to enrollment the Professor of Military Science and Tactics will:

(i) Advise each applicant that he may not join a Ready Reserve unit while enrolled in the advanced course (or MST–5 and –6 course).

(ii) Inform each applicant who is currently a member of a Ready Reserve unit and the commanding officer of the unit that the student must be transferred to a USAR Control Group (Reinforcement) before the 1957 fall semester or be dropped from ROTC enrollment.

* * * * *

4. In § 562.31 (a), revise subparagraphs (2) and (4) to read as follows:

§ 562.31 *Contracts and emoluments*—(a) *Contracts.* * * *

(2) *Military schools division.* No contract will be executed between the Government and a student who enrolls in MST–1 and –2 or MST–3 and –4 courses of the military schools division. Prior to enrollment in MST–5 and –6 course, the student must execute the following contracts:

(i) DA Form 597 must be properly executed by the student, the Professor of Military Science and Tactics, and the head of the institution before the student may be enrolled in MST–5 and become eligible to receive commutation of subsistence. In signing DA Form 597, the student agrees to the provisions of the contract prescribed in subparagraph (4) of this paragraph.

(ii) DA Form 1608 (ROTC Deferment Agreement) if selected for deferment under the provisions of the UMT&S Act as amended (subparagraph (3) of this paragraph).

(iii) DA Form 1083 as prescribed in subparagraph (4) of this paragraph if exempt from induction by reason of prior active military service or if a member of a reserve component.

* * * * *

(4) *Advanced course, senior division.* Prior to enrollment in the advanced course, the student must execute the following forms:

(i) DA Form 597 must be properly executed by the student, the Professor of Military Science and Tactics, and the head of the institution before the student may be enrolled in the advanced course and become eligible to receive commutation of subsistence. In signing DA Form 597, the student agrees:

(*a*) To continue in the ROTC for the remainder of his course at the institution in which enrolled.

(*b*) To devote a minimum of 5 hours a week to the military training prescribed by the Secretary of the Army.

(*c*) To pursue the course in camp training prescribed by the Secretary of the Army.

(*d*) To accept appointment as a Reserve or Regular officer of the Army if such appointment is tendered.

(*e*) If commissioned at the time of graduation, and subject to the order of the Secretary of the Army, to serve on active duty as a commissioned officer in the Army for not less than 2 consecutive years or to serve on active duty for training for a period of 6 months, unless sooner relieved of such obligation or discharged under regulations prescribed by the Secretary of the Army. (Prior to signing DA Form 597 the professor of Military Science and Tactics will advise students who have had prior active service as a result of induction or enlistment in the Active Forces, that the policy of the Department of the Army is not to order such individuals to active duty for 2 years involuntarily as long as the officer requirements of the Army can be met from other sources. It will be explained that the Army cannot determine 2 years in advance just how many ROTC graduates will be required for active service at time of appointment and therefore cannot give prior servicemen complete assurance that they will not be ordered to active duty involuntarily for 2 years. Professors of Military Science and Tactics will avoid making any statements which could be construed by students as positive assurance that prior service graduates will not be ordered to active duty but may cite the experience of previous years to indicate the probability of receiving such orders. In any event such individuals will be advised that if not ordered to active duty for 2 years, they will be ordered to active duty for training for 6 months during which they will attend the basic course at their branch school (subdivision (ii) of this subparagraph).

(*f*) That his fulfillment of the obligations specified in (*a*), (*b*), (*c*), and (*d*) of this subdivision is a prerequisite for his graduation from the institution, unless he is relieved of these obligations under regulations prescribed by the Secretary of the Army.

(*g*) That this agreement continues in full force and effect in the event the student transfers to another institution. The student agrees to apply for enrollment in the advanced course Army ROTC at the new institution if a unit is maintained thereat.

(ii) DA Form 1803, in duplicate, if exempt from induction by reason of prior service in the active military service or if a member of the Army Reserve. In signing DA Form 1803, the student agrees to participate actively in the military service for a period of 4 years after date of commission, if not required by law to serve for a longer period. The Professor of Military Science and Tactics will inform these individuals that unless ordered to active duty for 2 years, they will be required to serve 6 months active duty for training. During this 6-month period the appointee will attend the basic course of his branch school. The original copy of DA Form 1803 will be retained by the Professor of Military Science and Tactics until the individual makes application for appointment. At the appropriate time prior to appointment, the original will be attached to the student's application for appointment and forwarded to the Department of the Army. The duplicate will be retained by the student. Initial distribution of DA Form 1803 will be made to Professors of Military Science and Tactics on or about September 1, 1956.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter VI—Business and Defense Services Administration, Department of Commerce

[BDSA Order M-1B, Amdt. 1 of August 17, 1956]

M-1B—NICKEL ALLOYS

CHANGE IN DEFINITION OF NICKEL ALLOYS

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as

amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

This amendment affects BDSA Order M–1B by changing the definition of "nickel alloys" to insert "(including anode bars)" after the word "bars" which appears in the listing in said definition, and by deleting the words "(rolled, drawn, or extruded)" and "Anodes (rolled or cast)" which appear in the listing in said definition. It also affects Table I of BDSA Order M–1B by adding the words "(except anode bars)" after the first item listed, by adding the words "(including anode bars)" after the last item listed, and by deleting the item "Anodes" and the words "Rolled" and "Cast" thereunder.

1. Paragraph (c) of section 2 of BDSA Order M–1B is amended to read as follows:

(c) "Nickel alloys" means those alloys for which the specified nickel content is 5 percent or more up to and including pure nickel, and which do not contain as much as 50 percent of iron or steel, nor as much as 40 percent of copper, nor as much as 50 percent of aluminum, in the following mill and foundry shapes and forms:

Ingots, blooms, slabs, and billets.
Plate, sheet, strip, and foil.
Rods, bars (including anode bars), pipe, tubing, and shapes.
Wire and wire rod.
Powder.
Castings (less gates and risers, rough as cast).

It also includes cast iron (less gates and risers, rough as cast) for which the specified nickel content is 5 percent or more. It does not include primary nickel in the forms of electrolytic cathodes, pigs, rondelles, cubes, pellets, shot, oxide (including sintered oxide), salts, or chemicals; nor does it include primary nickel in the forms of ingots or powder for remelting.

2. Table I of BDSA Order M–1B is amended to read as follows:

TABLE I OF BDSA ORDER M–1B—NICKEL ALLOYS TO WHICH THIS ORDER APPLIES

Column A Name of product	Column B Number of days in advance of first day of month in which shipment is required
Rods and bars (except anode bars):	
Hot rolled	90
Forging quality	105
Cold finished	120
Sheet and strip:	
Hot rolled	90
Cold rolled	120
Foil	120
Plate	90
Pipe, tubing	120
Wire	120
Other mill forms:	
Ingots	75
Blooms, slabs, billets	75
Wire rod	90
Powder (produced mechanically from melted shot)	90
Castings (less gates and risers, rough as cast)	90
Shapes and forms not listed above (including anode bars)	(1)

(1) By direct negotiation between producer and customer.

(Sec. 704, 64 Stat. 816, as amended; sec. 1, P. L. 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2154)

This amendment shall take effect August 17, 1956.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

[F. R. Doc. 56-6736; Filed, Aug. 17, 1956; 8:52 a. m.]

[DMS Regulation No. 1, Direction 6, Amdt. 1 of August 17, 1956]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

DIR. 6—DESIGNATION OF NICKEL ALLOYS AS CONTROLLED MATERIALS BEGINNING WITH OPERATIONS FOR THE FOURTH CALENDAR QUARTER OF 1956

CHANGE IN DEFINITION OF NICKEL ALLOYS

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

This amendment affects Direction 6 to DMS Regulation No. 1 by changing the definition of "nickel alloys" to insert "(including anode bars)" after the word "bars" which appears in the listing in said definition, and by deleting the words "(rolled, drawn, or extruded)" and "Anodes (rolled or cast)" which appear in the listing in said definition.

Section 2 of Direction 6 to DMS Regulation No. 1 is amended to read as follows:

SEC. 2. *Definition.* As used in this direction, "nickel alloys" means those alloys for which the specified nickel content is 5 percent or more up to and including pure nickel, and which do not contain as much as 50 percent of iron or steel, nor as much as 40 percent of copper, nor as much as 50 percent of aluminum, in the following mill and foundry shapes and forms:

Ingots, blooms, slabs, and billets.
Plate, sheet, strip, and foil.
Rods, bars (including anode bars), pipe, tubing, and shapes.
Wire and wire rod.
Powder.
Castings (less gates and risers, rough as cast).

It also includes cast iron (less gates and risers, rough as cast) for which the specified nickel content is 5 percent or more. It does not include primary nickel in the forms of electrolytic cathodes, pigs, rondelles, cubes, pellets, shot, oxide (including sintered oxide), salts, or chemicals; nor does it include primary nickel in the forms of ingots or powder for remelting.

(Sec. 704, 64 Stat. 816, as amended; sec. 1, P. L. 632, 84th Cong., 70 Stat. 408; 50 U. S. C. App. 2154)

This amendment shall take effect August 17, 1956.

BUSINESS AND DEFENSE SERVICES ADMINISTRATION,
CHAS. F. HONEYWELL,
Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

ADDITIONAL ITEMIZED DEDUCTIONS FOR INDIVIDUALS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

The following regulations are hereby prescribed under sections 211, 212, 213, 215, and 217 of the Internal Revenue Code of 1954, relating to additional itemized deductions for individuals. These regulations shall be effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954:

Sec.
1.211 Statutory provisions; allowance of deductions.
1.211–1 Allowance of deductions.
1.212 Statutory provisions; expenses for production of income.
1.212–1 Nontrade or nonbusiness expenses.
1.213 Statutory provisions; medical, dental, etc., expenses.
1.213–1 Medical, dental, etc., expenses.
1.215 Statutory provisions; alimony, etc., payments.
1.215–1 Periodic alimony, etc., payments.
1.217 Statutory provisions; cross references.

INDIVIDUALS

§ 1.211 *Statutory provisions; allowance of deductions.*

SEC. 211. *Allowance of deductions.* In computing taxable income under section 63 (a), there shall be allowed as deductions the items specified in this part, subject to the exceptions provided in part IX (section 261 and following, relating to items not deductible).

§ 1.211–1 *Allowance of deductions.* In computing taxable income under section 63 (a), the deductions provided by sections 212, 213, 214, 215, and 216 shall be allowed subject to the exceptions provided in part IX (section 261 and following, relating to items not deductible).

§ 1.212 *Statutory provisions; expenses for production of income.*

SEC. 212. *Expenses for production of income.* In the case of an individual, there shall be allowed as a deduction all the ordinary and necessary expenses paid or incurred during the taxable year—

(1) For the production or collection of income;

(2) For the management, conservation, or maintenance of property held for the production of income; or

(3) In connection with the determination, collection, or refund of any tax.

§ 1.212–1 *Nontrade or nonbusiness expenses.* (a) An expense may be deducted under section 212 only if—

(1) It has been paid or incurred by the taxpayer during the taxable year (i) for the production or collection of income which, if and when realized, will be required to be included in income for Federal income tax purposes, or (ii) for the management, conservation, or maintenance of property held for the production of such income, or (iii) in connection with the determination, collection, or refund of any tax; and

(2) It is an ordinary and necessary expense for any of the purposes stated in subparagraph (1) of this paragraph.

(b) The term "income" for the purpose of section 212 includes not merely income of the taxable year but also income which the taxpayer has realized in a prior taxable year or may realize in subsequent taxable years; and is not confined to recurring income but applies as well to gains from the disposition of property. For example, if defaulted bonds, the interest from which if received would be includible in income, are purchased with the expectation of realizing capital gain on their resale, even though no current yield thereon is anticipated, ordinary and necessary expenses thereafter incurred in connection with such bonds are deductible. Similarly, ordinary and necessary expenses incurred in the management, conservation, or maintenance of a building devoted to rental purposes are deductible notwithstanding that there is actually no income therefrom in the taxable year, and regardless of the manner in which or the purpose for which the property in question was acquired. Expenses incurred in managing, conserving, or maintaining property held for investment may be deductible under this provision even though the property is not currently productive and there is no likelihood that the property will be sold at a profit or will otherwise be productive of income and even though the property is held merely to minimize a loss with respect thereto.

(c) Expenses of carrying on transactions which do not constitute a trade or business of the taxpayer and are not carried on for the production or collection of income or for the management, conservation, or maintenance of property held for the production of income, but which are carried on primarily as a sport, hobby, or recreation are not allowable as nontrade or nonbusiness expenses. The question whether or not a transaction is carried on primarily for the production of income or for the management, conservation, or maintenance of property held for the production or collection of income, rather than primarily as a sport, hobby, or recreation, is not to be determined solely from the intention of the taxpayer but rather from all the circumstances of the case. For example, consideration will be given to the record of prior gain or loss of the taxpayer in the activity, the relation between the type of activity and the principal occupation of the taxpayer, and the uses to which the property or what it produces is put by the taxpayer.

(d) Expenses, to be deductible under section 212, must be "ordinary and necessary". Thus, such expenses must be reasonable in amount and must bear a reasonable and proximate relation to the production or collection of taxable income or to the management, conservation, or maintenance of property held for the production of income.

(e) A deduction under section 212 is subject to the restrictions and limitations in sections 261 through 273, relating to items not deductible. Thus, no deduction is allowable under section 212 for any amount allocable to the production or collection of one or more classes of income which are not includible in gross income, or for any amount allocable to the management, conservation or maintenance of property held for the production of income which is not included in gross income. See section 265. Nor does section 212 allow the deduction of any expenses which are disallowed by any of the provisions of subtitle A, even though such expenses may be incurred for one of the purposes specified in section 212.

(f) Among expenditures not allowable as deductions under section 212 are the following: Commuter's expenses; expenses of taking special courses or training; expenses for improving personal appearance; the cost of rental of a safe-deposit box for storing jewelry and other personal effects; expenses such as those incurred in seeking employment or in placing oneself in a position to begin rendering personal services for compensation, campaign expenses of a candidate for public office, bar examination fees and other expenses incurred in securing admission to the bar, and corresponding fees and expenses incurred by physicians, dentists, accountants, and other taxpayers for securing the right to practice their respective professions.

(g) Fees for services of investment counsel, custodial fees, clerical help, office rent, and similar expenses paid or incurred by a taxpayer in connection with investments held by him are deductible under section 212 only if (1) they are paid or incurred by the taxpayer for the production or collection of income or for the management, conservation, or maintenance of investments held by him for the production of income; and (2) they are ordinary and necessary under all the circumstances, having regard to the type of investment and to the relation of the taxpayer to such investment.

(h) Ordinary and necessary expenses paid or incurred in connection with the management, conservation, or maintenance of property held for use as a residence by the taxpayer are not deductible. However, ordinary and necessary expenses paid or incurred in connection with the management, conservation, or maintenance of property held by the taxpayer as rental property are deductible even though such property was formerly held by the taxpayer for use as a home.

(i) Reasonable amounts paid or incurred by the fiduciary of an estate or trust on account of administration expenses, including fiduciaries' fees and expenses of litigation, which are ordinary and necessary in connection with the performance of the duties of administration are deductible under this section, notwithstanding that the estate or trust is not engaged in a trade or business, except to the extent that such expenses are allocable to the production or collection of tax-exempt income. But see section 642 (g) and the regulations thereunder for disallowance of such deductions to an estate where such items are allowed as a deduction under section 2053 or 2054 in computing the net estate subject to the estate tax.

(j) Reasonable amounts paid or incurred for the services of a guardian or committee for a ward or minor, and other expenses of guardians and committees which are ordinary and necessary, in connection with the production or collection of income inuring to the ward or minor, or in connection with the management, conservation, or maintenance of property, held for the production of income, belonging to the ward or minor, are deductible.

(k) Expenditures incurred in defending or perfecting title to property, in recovering property (other than investment property and amounts of income which, if and when recovered, must be included in gross income), or in developing or improving property, constitute a part of the cost of the property and are not deductible expenses. Attorneys' fees paid in a suit to quiet title to lands are not deductible; but if the suit is also to collect accrued rents thereon, that portion of such fees is deductible which is properly allocable to the services rendered in collecting such rents. Expenditures incurred in protecting or asserting one's rights to property of a decedent as heir or legatee, or as beneficiary under a testamentary trust, are not deductible.

(l) Expenses paid or incurred by an individual in connection with the determination, collection, or refund of any tax, whether the taxing authority be Federal, state, or municipal, and whether

the tax be income, estate, gift, property, or any other tax, are deductible. Thus, expenses incurred in connection with the preparation of tax returns or in connection with any proceedings involved in determining the extent of tax liability or in contesting a tax liability are deductible.

(m) Except in the case of expenses relating to tax liability (to the extent that such expenses are deductible under paragraph (l) of this section), and expense paid or incurred by an individual in determining or contesting a liability asserted against him does not become deductible by reason of the fact that property held by him for the production of income may be required to be used or sold for the purpose of satisfying such liability.

(n) Capital expenditures are not allowable as nontrade or nonbusiness expense. The deduction of an item otherwise allowable under section 212 will not be disallowed simply because the taxpayer was entitled under subtitle A to treat such item as a capital expenditure, rather than to deduct it as an expense. For example, see section 266. Where, however, the item may properly be treated only as a capital expenditure or where it was properly so treated under an option granted in subtitle A, no deduction is allowable under this section; and this is true regardless of whether any basis adjustment is allowed under any other provision of the Internal Revenue Code of 1954.

(o) The provisions of section 212 are not intended in any way to disallow expenses which would otherwise be allowable under section 162 and the regulations thereunder. Double deductions are not permitted. Amounts deducted under one provision of the Code cannot again be deducted under any other provision thereof.

§ 1.213 *Statutory provisions; medical, dental, etc., expenses.*

SEC. 213. *Medical, dental, etc., expenses*—(a) *Allowance of deduction.* There shall be allowed as a deduction the expenses paid during the taxable year, not compensated for by insurance or otherwise, for medical care of the taxpayer, his spouse, or a dependent (as defined in section 152)—

(1) If neither the taxpayer nor his spouse has attained the age of 65 before the close of the taxable year, to the extent that such expenses exceed 3 percent of the adjusted gross income; or

(2) If either the taxpayer or his spouse has attained the age of 65 before the close of the taxable year—

(A) The amount of such expenses for the care of the taxpayer and his spouse, and

(B) The amount by which such expenses for the care of such dependents exceed 3 percent of the adjusted gross income.

(b) *Limitation with respect to medicine and drugs.* Amounts paid during the taxable year for medicine and drugs which (but for this subsection) would be taken into account in computing the deduction under subsection (a) shall be taken into account only to the extent that the aggregate of such amounts exceeds 1 percent of the adjusted gross income.

(c) *Maximum limitations.* The deduction under this section shall not exceed $2,500, multiplied by the number of exemptions allowed for the taxable year as a deduction under section 151 (other than exemptions allowed by reason of subsection (c) or (d), relating to additional exemptions for age or blindness); except that the maximum deduction under this section shall be—

(1) $5,000, if the taxpayer is single and not the head of a household (as defined in section 1 (b) (2)) and not a surviving spouse (as defined in section 2 (b)) or is married but files a separate return; or

(2) $10,000, if the taxpayer files a joint return with his spouse under section 6013, or is the head of a household (as defined in section 1 (b) (2)) or a surviving spouse (as defined in section 2 (b)).

(d) *Special rule for decedents*—(1) *Treatment of expenses paid after death.* For purposes of subsection (a), expenses for the medical care of the taxpayer which are paid out of his estate during the 1-year period beginning with the day after the date of his death shall be treated as paid by the taxpayer at the time incurred.

(2) *Limitation.* Paragraph (1) shall not apply if the amount paid is allowable under section 2053 as a deduction in computing the taxable estate of the decedent, but this paragraph shall not apply if (within the time and in the manner and form prescribed by the Secretary or his delegate) there is filed—

(A) A statement that such amount has not been claimed or allowed as a deduction under section 2053, and

(B) A waiver of the right to have such amount allowed at any time as a deduction under section 2053.

(e) *Definitions.* For purposes of this section—

(1) The term "medical care" means amounts paid—

(A) For the diagnosis, cure, mitigation, treatment, or prevention of disease, or for the purpose of affecting any structure or function of the body (including amounts paid for accident or health insurance), or

(B) For transportation primarily for and essential to medical care referred to in subparagraph (A).

(2) The determination of whether an individual is married at any time during the taxable year shall be made in accordance with the provisions of section 6013 (d) (relating to determination of status as husband and wife).

(f) *Exclusion of amounts allowed for care of certain dependents.* Any expense allowed as a deduction under section 214 shall not be treated as an expense paid for medical care.

§ 1.213–1 *Medical, dental, etc., expenses*—(a) *Allowance of deduction.* (1) Section 213 permits a deduction from gross income of payments for certain medical expenses (including expenses for medicine and drugs). Except as provided in paragraph (d) of this section (relating to special rule for decedents) a deduction is allowable only to individuals and only with respect to medical expenses actually paid during the taxable year, regardless of when the incident or event which occasioned the expenses occurred and regardless of the method of accounting employed by the taxpayer in making his income tax return. Thus, if the medical expenses are incurred but not paid during the taxable year, no deduction for such expenses shall be allowed for such year.

(2) Except as provided in subparagraph (4) (i) of this paragraph, only such medical expenses (including the allowable expenses for medicine and drugs) are deductible as exceed 3 percent of the adjusted gross income for the taxable year. For the amount paid during the taxable year for medicine and drugs which may be taken into account in computing total medical expenses, see paragraph (b) of this section. For the maximum deduction allowable under section 213, see paragraph (c) of this section. As to what constitutes "adjusted gross income", see section 62.

(3) (i) For medical expenses paid (including expenses paid for medicine and drugs) to be deductible, they must be for medical care of the taxpayer, his spouse, or a dependent of the taxpayer not compensated for by insurance or otherwise. See section 152 and the regulations thereunder for definition of a dependent.

(ii) An amount excluded from gross income under subsection (c) or (d) of section 105 (relating to amounts received under accident and health plans) and the regulations thereunder shall not constitute compensation for expenses paid for medical care. Exclusion of such amounts from gross income will not affect the deductibility of such expenses paid for medical care.

(iii) The application of the rule allowing a deduction for medical expenses to the extent not compensated for by insurance or otherwise may be illustrated by the following example in which it is assumed that neither the taxpayer nor his wife has attained the age of 65:

Example. Taxpayer H, married to W and having one dependent child, had adjusted gross income for 1954 of $3,000. During 1954 he paid $300 for medical care, of which $100 was for treatment of his dependent child and $200 for an operation on W which was performed in September 1953. In 1954 he received a payment of $50 for health insurance to cover a portion of the cost of W's operation performed during 1953. The deduction allowable under section 213 for the calendar year 1954, provided the taxpayer itemizes his deductions and does not compute his tax under section 3 by use of the tax table, is $160, computed as follows:

Payments in 1954 for medical care	$300
Less: Amount of insurance received in 1954	50
Payments in 1954 for medical care not compensated for during 1954	250
Less: 3 percent of $3,000 (adjusted gross income)	90
Excess, allowable as a deduction for 1954	160

(4) (i) Where either the taxpayer or his spouse has attained the age of 65 before the end of the taxable year, the 3 percent limitation on the deduction for medical expenses does not apply with respect to expenses for the medical care of the taxpayer or his spouse. In such a case the taxpayer may deduct, subject to the 1 percent limitation with respect to medicine and drugs set forth in paragraph (b) of this section and subject to the maximum amount allowable as described in paragraph (c) of this section—

(*a*) The amount of all payments for the medical care of the taxpayer and his spouse, and

(*b*) The amount by which his payments for the medical care of his dependents exceed 3 percent of his adjusted gross income.

In determining the amount described in (*b*) of this subdivision, the amount described in (*a*) of this subdivision shall not be taken into account.

(ii) For the purposes of this subparagraph, the age of a taxpayer shall be determined as of the last day of his taxable year. In the event of the taxpayer's death, the date of his death shall be the last day of his taxable year. The age of a taxpayer's spouse shall be determined as of the last day of the taxpayer's taxable year, except that, if the spouse dies within such taxable year, her age shall be determined as of the date of her death.

(iii) The application of subdivision (i) of this subparagraph may be illustrated by the following examples:

Example (1). Taxpayer E, who attained the age of 65 on February 22, 1954, makes his return on the basis of the calendar year. During the year 1954, E has adjusted gross income of $8,000, and pays the following medical bills: (a) $560 (7 percent of adjusted gross income) for the medical care of himself and his spouse, and (b) $160 (2 percent of adjusted gross income) for the medical care of his dependent son. No part of these payments was for medicine and drugs nor compensated for by insurance or otherwise. The allowable deduction under section 213 for 1954 is $560, the full amount of the medical expenses for the taxpayer and his spouse. No deduction is allowable for the amount of $160 paid for medical care of the dependent son since the amount of such payment (determined without regard to the payments for the care of the taxpayer and his spouse) does not exceed 3 percent of adjusted gross income.

Example (2). H and W who have a dependent child make a joint return for the calendar year 1954. H became 65 years of age on August 15, 1954. The adjusted gross income of H and W in 1954 is $40,000 and they pay in such year the following amounts for medical care: (a) $3,000 for the medical care of H; (b) $2,000 for the medical care of W; and (c) of $3,000 for the medical care of the dependent child. No part of these payments was for medicine and drugs nor compensated for by insurance or otherwise. The allowable deduction under section 213 for medical expenses paid in 1954 is $6,800 computed as follows:

Payments for medical care of H and W in 1954		$5,000
Payments for medical care of the dependent in 1954	$3,000	
Less: 3 percent of $40,000 (adjusted gross income)	1,200	
		1,800
Allowable deduction for 1954		6,800

(b) *Limitation with respect to medicine and drugs.* (1) Amounts paid for medicine and drugs are to be taken into account in computing the allowable deduction for medical expenses paid during the taxable year only to the extent that the aggregate of such amounts exceeds 1 percent of the adjusted gross income for the taxable year. Thus, if the aggregate of the amounts paid for medicine and drugs exceeds 1 percent of adjusted gross income, the excess is added to other medical expenses for the purpose of computing the medical expense deduction. For definition of medicine and drugs, see paragraph (e) (2) of this section. The application of this subparagraph may be illustrated by the following example:

Example. The taxpayer, a single individual with no dependents, had an adjusted gross income of $6,000 for the calendar year 1954. During 1954, he paid a doctor $300 for medical services, a hospital $100 for hospital care, and also spent $100 for medicine and drugs. These payments were not compensated for by insurance or otherwise. The deduction allowable under section 213 for the calendar year 1954 is $260, computed as follows:

Payments for medical care in 1954:		
Doctor		$300
Hospital		100
Medicine and drugs	$100	
Less: 1 percent of $6,000 (adjusted gross income)	60	
		40
Total medical expenses to be taken into account		440
Less: 3 percent of $6,000 (adjusted gross income)		180
Allowable deduction for 1954		260

(2) The 1 percent limitation rule is applicable to all taxpayers, including a taxpayer (or his spouse) who has attained the age of 65. In a case where either a taxpayer or his spouse has attained the age of 65 and the taxpayer pays an amount in excess of 1 percent of adjusted gross income for medicine and drugs for himself, his spouse, and his dependents, it is necessary to apportion the 1 percent of adjusted gross income (which is not taken into account as expenses paid for medical care) between the taxpayer and his spouse on the one hand and his dependents on the other. The part of the 1 percent allocable to the taxpayer and his spouse is an amount which bears the same ratio to 1 percent of his adjusted gross income which the amount paid for medicine and drugs for the taxpayer and his spouse bears to the total amount paid for medicine and drugs for the taxpayer, his spouse, and his dependents. The balance of the 1 percent shall be allocated to his dependents. The amount paid for medicine and drugs in excess of the allocated part of the 1 percent shall be taken into account as payments for medical care for the taxpayer and his spouse on the one hand and his dependents on the other, respectively. The application of this subparagraph may be illustrated by the following example:

Example. H and W who have a dependent child made a joint return for the calendar year 1954. H became 65 years of age on September 15, 1954. The adusted gross income of H and W for 1954 is $10,000. During the year, H and W pay the following amounts for medical care: (a) $1,000 for doctors and hospital expenses and $180 for medicine and drugs for themselves; and (b) $500 for doctors and hospital expenses and $140 for medicine and drugs for the dependent child. These payments were not compensated for by insurance or otherwise. The deduction allowable under section 213 (a) (2) for medical expenses paid in 1954 is $1,420, computed as follows:

H and W:			
Payments for doctors and hospital			$1,000.00
Payments for medicine and drugs		$180.00	
Less: Limitation for medicine and drugs (see computation below)		56.25	
			123.75
Medical expenses for H and W to be taken into account			1,123.75
Dependent:			
Payments for doctors and hospital		$500.00	
Payments for medicine and drugs		$140.00	
Less: Limitation for medicine and drugs (see computation below)		43.75	
			96.25
Total medical expenses			596.25
Less: 3 percent of $10,000 (adjusted gross income)			300.00
Medical expenses for the dependent to be taken into account			296.25
Allowable deduction for 1954			1,420.00
Payments for medicine and drugs:			
H and W			180.00
Dependent			140.00
Total payments			320.00
Less: 1 percent of $10,000 (adjusted gross income)			100.00
Payments to be taken into account			220.00
Allocation of 1 percent exclusion:			
H and W	$\frac{180}{320}\times\$100=$		56.25
Dependent	$\frac{140}{320}\times\$100=$		43.75
Total			100.00

(c) *Maximum limitations.* (1) The maximum deduction allowable for medical expenses paid in any one taxable year is the lesser of:

(i) $2,500 multiplied by the number of exemptions allowed under section 151 (exclusive of exemptions allowed under section 151 (c) for a taxpayer or spouse attaining the age of 65, or section 151 (d) for a taxpayer who is blind and a spouse who is blind),

(ii) $5,000, if the taxpayer is single, not the head of a household (as defined in section 1 (b) (2)) and not a surviving spouse (as defined in section 2 (b)), or is married and files a separate return; or

(iii) $10,000, if the taxpayer is married and files a joint return with his spouse under section 6013, or is the head of a household (as defined in section 1 (b) (2)), or a surviving spouse (as defined in section 2 (b)).

(2) For the purposes of subparagraph (1) of this paragraph, the determination of whether an individual is married at any time during the taxable year shall be made in accordance with the provisions of section 6013 (d) (relating to determination of status as husband and wife).

(3) For the purposes of subparagraph (1) (i) of this paragraph, the determination of whether an individual is married and files a separate return shall be made in accordance with the provisions of section 6013 (b) (relating to joint returns of husband and wife).

(4) For the purposes of subparagraph (1) (ii) of this paragraph, the determination of whether an individual is a head of a household shall be made in accordance with the provisions of section 1 (b) (2) (relating to definition of head of household).

(5) For the purposes of subparagraph (1) (iii) of this paragraph, the determination of whether an individual is married and files a joint return with his spouse shall be made in accordance with the provisions of section 6013 (a) (relating to joint returns of husband and wife).

(6) For the purposes of subparagraph (1) (iii) of this paragraph, the determination of whether an individual is a head of a household shall be made in accordance with the provisions of section 1 (b) (2) (relating to definition of head of household).

(7) For the purposes of subparagraph (1) (iii) of this paragraph, the determination of whether an individual is a surviving spouse shall be made in accordance with the provisions of section 2 (b) (relating to definition of surviving spouse).

(8) For the purposes of subparagraph (1) of this paragraph, the determination of whether an individual has attained the age of 65 before the close of the taxable year shall be made in accordance with the provisions of paragraph (a) (4) (ii) of this section.

(9) For the purposes of subparagraph (1) of this paragraph, the determination of whether an individual is blind shall be made as of the close of the taxable year; except that if the taxpayer or his spouse dies during such year, such determination shall be made as of the time of such death.

(d) *Expenses paid after death.* (1) Section 213 (d) (1) provides that for the purposes of subsection (a), expenses for the medical care of the taxpayer which are paid out of his estate during the 1-year period beginning with the day after the date of his death shall be treated as paid by the taxpayer at the time incurred. Section 213 (d) (2) provides that paragraph (1) shall not apply if the amount paid is allowable under section 2053 as a deduction in computing the taxable estate of the decedent, but that this paragraph shall not apply if (within the time and in the manner and form prescribed by the Secretary or his delegate) there is filed a statement that such amount has not been claimed or allowed as a deduction under section 2053, and a waiver of the right to have such amount allowed at any time as a deduction under section 2053.

(2) The statement and waiver described in section 213 (d) (2) shall be filed with the district director for the district in which is filed the return of the estate tax imposed by chapter 11 of the Code. The statement and waiver shall be filed on or before the date prescribed for the filing of the return of the estate tax imposed by chapter 11 of the Code, including any extension of time granted for the filing of such return. The statement and waiver shall be signed by the executor or administrator of the estate of the decedent. If there is more than one executor or administrator, the statement and waiver shall be signed by all executors or administrators.

(3) The statement and waiver described in section 213 (d) (2) shall be filed in duplicate. The statement and waiver shall contain sufficient information to identify the decedent, the estate, and the executor or administrator. The statement and waiver shall also contain sufficient information to identify the amount of the deduction for medical expenses which is waived.

(4) The statement and waiver described in section 213 (d) (2) shall be filed before the expiration of the period of limitation for the assessment of the tax imposed by chapter 1 of the Code for the taxable year in which the medical expenses are paid. The statement and waiver shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(5) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(6) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(7) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(8) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(9) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(10) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(11) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(12) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(13) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(14) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(15) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(16) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(17) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(18) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(19) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(20) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(21) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(22) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(23) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(24) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(25) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(26) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(27) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(28) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(29) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(30) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(31) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(32) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(33) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(34) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(35) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(36) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(37) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(38) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(39) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(40) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(41) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(42) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(43) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(44) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(45) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(46) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(47) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(48) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(49) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(50) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(51) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(52) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(53) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(54) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(55) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(56) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(57) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(58) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(59) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(60) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(61) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(62) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(63) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(64) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(65) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(66) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(67) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(68) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(69) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(70) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(71) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(72) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(73) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(74) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(75) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(76) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(77) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(78) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(79) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(80) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(81) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(82) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(83) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(84) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(85) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(86) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(87) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(88) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(89) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(90) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(91) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(92) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(93) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(94) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(95) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(96) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(97) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(98) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(99) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(100) The statement and waiver described in section 213 (d) (2) shall be filed even though the amount of the deduction for medical expenses which is waived is not allowable as a deduction for the taxable year in which the medical expenses are paid.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. H and W make a joint return for the calendar year 1954 and are allowed five exemptions (exclusive of exemptions under section 151 (c) or (d)), one for each taxpayer and three for their dependents. The adjusted gross income of H and W in 1954 is $40,000. They pay during such year $12,500 for medical care, no part of which is compensated for by insurance or otherwise. The deduction allowable under section 213 for the calendar year 1954 is $10,000, computed as follows:

Payments for medical care in 1954	$12,500
Less: 3 percent of $40,000 (adjusted gross income)	1,200
Excess of medical expenses in 1954 over 3 percent of adjusted gross income	11,300
Allowable deduction for 1954 $2,500 multiplied by 5 exemptions allowed under section 151 (b) and (e) but not in excess of $10,000)	10,000

(d) *Special rule for decedents.* (1) For the purpose of section 213 (a), expenses for medical care of the taxpayer which are paid out of his estate during the 1-year period beginning with the day after the date of his death shall be treated as paid by the taxpayer at the time the medical services were rendered. However, no credit or refund of tax shall be allowed for any taxable year for which the statutory period for filing a claim has expired. See section 6511.

(2) The rule prescribed in subparagraph (1) of this paragraph shall not apply where the amount so paid is allowable under section 2053 as a deduction in computing the taxable estate of the decedent unless there is filed in duplicate (i) a statement that such amount has not been allowed as a deduction in computing the taxable estate of the decedent under section 2053 and (ii) a waiver of the right to have such amount allowed at any time as a deduction under section 2053. The statement and waiver shall be filed with the return, amended return, or claim for credit or refund for the decedent for any taxable year for which such an amount is claimed as a deduction.

(e) *Definitions*—(1) *General.* (i) The term "medical care" includes the diagnosis, cure, mitigation, treatment, or prevention of disease. Expenses paid for "medical care" shall include those paid for the purpose of affecting any structure or function of the body, for accident or health insurance, or for transportation primarily for and essential to medical care. Amounts paid for hospitalization insurance, for membership in an association furnishing cooperative or so-called free-choice medical service, or for group hospitalization and clinical care are expenses paid for medical care. However, premiums paid by a taxpayer under an insurance contract which provides reimbursement for loss of earnings due to accident or illness do not constitute amounts expended for medical care. In the case of a policy providing reimbursement for both loss of earnings and medical expenses, only the pro rata portion of such premium payments which is properly attributable to the coverage for medical expenses will constitute an expense paid for medical care.

(ii) Amounts paid for operations or treatments affecting any portion of the body, including obstetrical expenses and expenses of therapy or X-ray treatments, are deemed to be for the purpose of affecting any structure or function of the body and are therefore paid for medical care. Amounts expended for illegal operations or treatments are not deductible. Deductions for expenditures for medical care allowable under section 213 will be confined strictly to expenses incurred primarily for the prevention or alleviation of a physical or mental defect or illness. Thus, payments for the following are payments for medical care: hospital services, nursing services (including nurses' board where paid by the taxpayer), medical, laboratory, surgical, dental and other diagnostic and healing services, X-rays, medicine and drugs (as defined in subparagraph (2) of this paragraph, subject to the 1 percent limitation in paragraph (b) of this section), artificial teeth of limbs, and ambulance hire. However, an expenditure which is merely beneficial to the general health of an individual, such as for a vacation, is not an expenditure for medical care.

(iii) A capital expenditure for a permanent improvement or betterment of property shall not be deductible as an expenditure for medical care, even though it may have some relation to medical care. Thus, the cost of a swimming pool, the addition of an elevator or a first floor bedroom and bath to a house for the benefit of a person unable to climb stairs, the installation of an oil burner to alleviate an allergy to coal, etc., would not be a deductible expense. A capital expenditure which is related only to the sick person and is not related to permanent improvement or betterment of property, if it otherwise qualifies, shall, however, be deductible; for example, an expenditure for eye glasses, a seeing eye dog, a wheel chair, crutches, an inclinator which is detachable from the property and purchased only for the use of a sick person, artificial teeth and limbs, etc.

(iv) Expenses paid for transportation primarily for and essential to the rendition of the medical care are expenses paid for medical care. However, an amount allowable as a deduction for "transportation primarily for and essential to medical care" shall not include the cost of any meals and lodging while away from home receiving medical treatment. For example, if a doctor prescribes that a taxpayer go to a warm climate in order to alleviate a specific chronic ailment, the cost of meals and lodging while there would not be deductible. On the other hand, if the travel is undertaken merely for the general improvement of a taxpayer's health, neither the cost of transportation nor the cost of meals and lodging would be deductible. If a doctor prescribes an operation or other medical care, and the taxpayer chooses for purely personal considerations to travel to another locality (such as, a resort area) for the operation or the other medical care, neither the cost of transportation nor the cost of meals and lodging (except where paid as part of a hospital bill) is deductible.

(v) The cost of in-patient hospital care (including the cost of meals and lodging therein) is an expenditure for medical care. The extent to which expenses for care in an institution other than a hospital shall constitute medical care is primarily a question of fact which depends upon the condition of the individual and the nature of the services he receives (rather than the nature of the institution). In general, the following rules will be applied:

(*a*) Where an individual is in an institution because his condition is such that the availability of medical care (as defined in subdivisions (i) and (ii) of this subparagraph) in such institution is a principal reason for his presence there, and meals and lodging are furnished as a necessary incident to such care, the entire cost of medical care and meals and lodging at the institution, which are furnished while the individual requires continual medical care, shall constitute an expense for medical care. For example, medical care includes the entire cost of institutional care for a person who is mentally ill and unsafe when left alone. While ordinary education is not medical care, the cost of medical care includes the cost of attending a special school for a mentally or physically handicapped individual, if his condition is such that the resources of the institution for alleviating such mental or physical handicap are a principal reason for his presence there. In such a case, the cost of attending such a special school will include the cost of meals and lodging, if supplied, and the cost of ordinary education furnished which is incidental to the special services furnished by the school. Thus, the cost of medical care includes the cost of attending a special school designed to compensate for or overcome a physical handicap, in order to qualify the individual for future normal education or for normal living, such as a school for the teaching of braille or lip reading. Similarly, the cost of care, supervision, treatment and training of a mentally retarded individual at an institution is within the meaning of the term "medical care".

(*b*) Where an individual is in an institution, although his condition is such that the availability of medical care in such institution is not a principal reason for his presence there, only that part of the cost of care in the institution as is attributable to medical care (as defined in subdivisions (i) and (ii) of this subparagraph) shall be considered as a cost of medical care; meals and lodging at the institution in such a case are not considered a cost of medical care for purposes of this section. For example, an individual is in a home for the aged for personal or family considerations and not because he requires medical or nursing attention. In such case, medical care consists only of that part of the cost for care in the home which is attributable to medical care or nursing attention furnished to him; his meals and lodging at the home are not considered a cost of medical care.

(*c*) It is immaterial for purposes of this subdivision whether the medical care is furnished in a Federal or State institution or in a private institution.

(vi) See section 262 and the regulations thereunder for disallowance of deduction for personal, living, and family expenses not falling within the definition of medical care.

(2) *Medicine and drugs.* The term "medicine and drugs" shall include only items which are legally procured and which are generally accepted as falling within the category of medicine and drugs (whether or not requiring a prescription). Such term shall not include toiletries or similar preparations (such as toothpaste, shaving lotion, shaving cream, etc.) nor shall it include cosmetics (such as face creams, deodorants, hand lotions, etc., or any similar preparation used for ordinary cosmetic purposes) or sundry items. Amounts expended for items which, under this subparagraph, are excluded from the term "medical and drugs" shall not constitute amounts expended for "medical care".

(3) *Status as husband and wife.* In the case of medical expenses for the care of a person who is the taxpayer's spouse or dependent, the deduction under section 213 is allowable if the status of such person as "spouse" or "dependent" of the taxpayer exists either at the time the medical services were rendered or at the time the expenses were paid. Thus, payments made in June 1954, by A, for medical services rendered in 1953 to B, his wife, may be deducted by A for 1954 even though, before the payments were made, B may have died or in 1954 secured a divorce. Payments made in July 1954, by C, for medical services rendered to D in 1953 may be deducted by C for 1954 even though C and D were not married until June 1954. However, the status of a person as the "spouse" of the taxpayer must exist as of the close of the taxable year of the taxpayer in which either the services were rendered or the payment was made, or, in the case of the death of the spouse in either such year, as of the time of such death. In determining whether such status exists, a taxpayer who is legally separated from his spouse under a decree of separate maintenance is not considered as married.

(f) *Exclusion of amounts allowed for care of certain dependents.* Amounts allowable under section 214 as a deduction for the care of certain dependents shall not be treated as expenses paid for medical care.

(g) *Reimbursement for expenses paid in prior years.* (1) Where reimbursement, from insurance or otherwise, for medical expenses is received in a taxable year subsequent to a year in which a deduction was claimed on account of such expenses, the reimbursement must be included in gross income in such subsequent year to the extent attributable to (and not in excess of) deductions allowed under section 213 for any prior taxable year. See section 104, relating to compensation for injuries or sickness, and section 105 (b), relating to amounts expended for medical care, and the regulations thereunder, with regard to amounts in excess of or not attributable to deductions allowed.

(2) If no medical expense deduction was taken in an earlier year, e. g., if the standard deduction under section 141 was taken for the earlier year, the reimbursement received in the taxable year for the medical expense of the earlier year is not includible in gross income.

(3) In order to allow the same aggregate medical expense deductions as if the reimbursement received in a subsequent year or years had been received in the year in which the payments for medical care were made, the following rules shall be followed:

(i) If the amount of the reimbursement is equal to or less than the amount which was deducted in a prior year, the entire amount of the reimbursement shall be considered attributable to the deduction taken in such prior year (and hence includible in gross income); or

(ii) If the amount of the reimbursement received in such subsequent year or years is greater than the amount which was deducted for the prior year, that portion of the reimbursement received which is equal in amount to the deduction taken in the prior year shall be considered as attributable to such deduction (and hence includible in gross income); but

(iii) If the deduction for the prior year would have been greater but for the limitations on the maximum amount of such deduction provided by section 213 (see paragraph (c) of this section), then the amount of the reimbursement attributable to such deduction (and hence includible in gross income) shall be the amount of the reimbursement received in a subsequent year or years reduced by the amount disallowed as a deduction because of the maximum limitation, but not in excess of the deduction allowed for the previous year.

(4) The application of subparagraphs (1), (2) and (3) of this paragraph may be illustrated by the following examples:

Example (1). Taxpayer C, a single individual (not the head of a household and not a surviving spouse) with one dependent, is entitled to two exemptions under the provisions of section 151. He had an adjusted gross income of $35,000 for the calendar year 1954. During 1954 he paid $9,000 for medical care. C received no reimbursement for such medical expenses in 1954, but in 1955 he received $6,000 upon an insurance policy covering the medical expenses which he paid in 1954. C was allowed a deduction of $5,000 (the maximum) from his adjusted gross income for 1954. The amount which C must include in his gross income for 1955 is $3,050 and the amount to be excluded from gross income for 1955 is $2,950, computed as follows (see section 104):

Payments for medical care in 1954 (not reimbursed in 1954)	$9,000
Less: 3 percent of $35,000 (adjusted gross income)	1,050
Excess of medical expenses not reimbursed in 1954 over 3 percent of adjusted gross income	7,950
Allowable deduction for 1954	5,000
Amount by which the medical deduction for 1954 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	2,950
Reimbursement received in 1955	$6,000
Less: Amount by which the medical deduction for 1954 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	$2,950
Reimbursement received in 1955 reduced by the amount by which the medical deduction for 1954 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	$3,050
Amount attributed to medical deduction taken for 1954	3,050
Amount to be included in gross income for 1955	3,050
Amount to be excluded from gross income for 1955 ($6,000 less $3,050)	2,950

Example (2). Assuming that C, in example (1), receives $8,000 in 1955 as reimbursement for the medical expenses which he paid in 1954, the amount which C must include in his gross income for 1955 is $5,000 and the amount to be excluded from gross income for 1955 is $3,000, computed as follows (see section 104):

Reimbursement received in 1955	$8,000
Less: Amount by which the medical deduction for 1954 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	2,950
Reimbursement received in 1955 reduced by the amount by which the medical deduction for 1954 would have been greater than $5,000 but for the limitations on the maximum amount provided by section 213	5,050
Deduction allowable for 1954	5,000
Amount of reimbursement received in 1955 to be included in gross income for 1955 as attributable to deduction allowable for 1954	5,000
Amount to be excluded from gross income for 1955 ($8,000 less $5,000)	3,000

(h) *Substantiation of deductions.* In connection with claims for deductions under section 213, the taxpayer shall furnish the name and address of each person to whom payment for medical expenses was made and the amount and date of the payment thereof in each case. If payment was made in kind, such fact shall be so reflected. Claims for deductions must be substantiated, when requested by the district director, by a statement or itemized invoice from the individual or entity to which payment for medical expenses was made showing the nature of the service rendered, and to or for whom rendered; the nature of any other item of expense and for whom incurred and for what specific purpose, the amount paid therefor and the date of the payment thereof; and by such other information as the district director may deem necessary.

§ 1.215 *Statutory provisions; alimony, etc., payments.*

SEC. 215. *Alimony, etc., payments*—(a) *General rule.* In the case of a husband described in section 71, there shall be allowed as a deduction amounts includible under section 71 in the gross income of his wife, payment of which is made within the husband's taxable year. No deduction shall be allowed under the preceding sentence with respect to any payment if, by reason of section 71 (d) or 682, the amount thereof is

not includible in the husband's gross income.

(b) *Cross reference.* For definitions of "husband" and "wife", see section 7701 (a) (17).

§ 1.215–1 *Periodic alimony, etc., payments.* (a) A deduction is allowable under section 215 with respect to periodic payments in the nature of, or in lieu of, alimony or an allowance for support actually paid by the taxpayer during his taxable year and required to be included in the income of the payee wife or former wife, as the case may be, under section 71. As to the amounts required to be included in the income of such wife or former wife, see section 71 and the regulations thereunder. For definition of husband and wife in such cases, see section 7701 (a) (17).

(b) The deduction under section 215 is allowed only to the obligor spouse. It is not allowed to an estate, trust, corporation, or any other person who may pay the alimony obligation of such obligor spouse. The obligor spouse, however, is not allowed a deduction for any periodic payment includible under section 71 in the income of the wife or former wife, which payment is attributable to property transferred in discharge of his obligation and which, under section 71 (d) or section 682, is not includible in his gross income.

(c) The following examples, in which both H and W file their income tax returns on the basis of a calendar year, illustrate cases in which a deduction is or is not allowed under section 215:

Example (1). Pursuant to the terms of a decree of divorce, H, in 1954, transfers securities valued at $100,000 in trust for the benefit of W, which fully discharges all his obligations to W. The periodic payments made by the trust to W are required to be included in W's income under section 71. Such payments are stated in section 71 (d), not to be includible in H's income and, therefore, under section 215 are not deductible from his income.

Example (2). A decree of divorce obtained by W from H incorporated a previous agreement of H to establish a trust, the trustees of which were instructed to pay W $5,000 a year for the remainder of her life. The court retained jurisdiction to order H to provide further payments if necessary for the support of W. In 1954 the trustee paid to W $4,000 from the income of the trust and $1,000 from the corpus of the trust. Under the provisions of sections 71 and 682 (b), W will include $5,000 in her income for 1954. H will not include any part of the $5,000 in his income nor take a deduction therefor. If H had paid the $1,000 to W pursuant to court order rather than allowing the trustees to pay it out of corpus, he would have been entitled to a deduction of $1,000 under the provisions of section 215.

(d) For other examples, see sections 71 and 682 and the regulations thereunder.

§ 1.217 *Statutory provisions; cross references.*

SEC. 217. *Cross references.* (1) For deduction for long-term capital gains in the case of a taxpayer other than a corporation, see section 1202.

(2) For deductions in respect of a decedent, see section 691.

POST OFFICE DEPARTMENT

[39 CFR Parts 13, 21, 24, 25]

PARCELS SUBJECT TO POSTAL INSPECTION

NOTICE OF PROPOSED RULE MAKING

The Post Office Department proposes to place in effect regulations which will do away with the long-standing requirement for endorsements to authorize the opening of sealed parcels sent at the third-class rate or fourth-class rate of postage. The proposed amendments to the existing regulations in Chapter I of Title 39, Code of Federal Regulations, are set forth below.

The proposed amendments are designed to give effect to the mailer's intention and to eliminate the need for collecting deficient postage from the addressee of parcels inadvertently sealed by the sender. The Department does not desire to collect first-class postage, if the sender's intention was to send his parcel at the fourth-class rate. Mailing at the third or fourth-class rate will, in effect, be a license to open sealed parcels for inspection unless a contrary intention is shown by marking the parcel "First Class Mail". No longer will the sender be required to endorse the sealed parcel "May be opened for postal inspection".

The Postmaster General desires, however, to afford patrons of the Postal Service an opportunity to present written views in favor of or against the proposed amendments. Such written views may be submitted to N. R. Abrams, Assistant Postmaster General, Bureau of Post Office Operations, Post Office Department, Washington 25, D. C., at any time prior to September 15, 1956.

1. In § 13.3 *Where to put handling instructions* strike out paragraph (c) and the illustration immediately thereafter.

(R. S. 161, 396, as amended, sec. 24, 20 Stat. 361; 5 U. S. C. 22, 369, 39 U. S. C. 250)

2. In § 21.2 *Classification* amend subdivision (iv) of paragraph (a) (1) to read as follows:

(iv) Matter sealed or closed against inspection. (See §§ 24.8 (a) and 25.7 of this chapter for mailing of sealed parcels at the third- and fourth-class rates of postage.)

(R. S. 161, 396, as amended, sec. 24, 20 Stat. 361; 5 U. S. C. 22, 369, 39 U. S. C. 250)

3. In § 24.8 *Sealing* amend paragraphs (a) and (b) as follows:

a. Amend paragraph (a) to read as follows:

(a) Third-class mail must be prepared so that it can be easily examined. Mailing of sealed parcels at the third-class rate of postage is deemed to be the consent of the sender to postal inspection of the contents. Patrons who desire to assure that their parcels will not be opened for postal inspection, should, in addition to paying the first-class rate of postage, plainly mark their parcels "First Class" or with similar endorsements.

b. Amend the first sentence of paragraph (b) to read as follows: "Articles, other than parcels mailed at the third-class rate of postage, may not be sealed."

(R. S. 161, 396, as amended, sec. 24, 20 Stat. 361; 5 U. S. C., 22, 369, 39 U. S. C. 250)

4. Section 25.7 Sealing is amended to read as follows:

§ 25.7 *Sealing.* Fourth-class mail must be wrapped or packaged so that it can be easily examined. Mailing of sealed parcels at the fourth-class rate of postage is deemed to be the consent of the sender to postal inspection of the contents. Patrons who desire to assure that their parcels will not be opened for postal inspection, should, in addition to paying the first-class rate of postage, plainly mark their parcels "First Class" or with similar endorsements.

(R. S. 161, 396, as amended, sec. 24, 20 Stat. 361; 5 U. S. C., 22, 369, 39 U. S. C. 250)

[SEAL] ABE MCGREGOR GOFF, *The Solicitor.*

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 916]

[Docket No. AO–247 A3]

HANDLING OF MILK IN UPSTATE MICHIGAN MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order amending the order regulating the handling of milk in the Upstate Michigan marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Traverse City, Michigan, on May 24, 1956 pursuant to notice thereof issued May 8, 1954 (21 F. R. 3064.)

The material issues of record relate to:

(1) Consideration of the Class I differential and revision of location adjustments with respect to both rate and basing points;

(2) Enlargement of the marketing area; and

(3) Revision of Class II with respect to both price and products classified.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. Class I pricing provisions of the order should be revised to:

(a) Provide a 40-cent seasonal change in the Class I price;

(b) Increase the average annual Class I price 13.3 cents per hundredweight;

(c) Change the basing points used in the determination of location differentials; and

(d) Reduce the initial location adjustment of the 90 mile zone by 6 cents and halve the rate for additional mileage.

The Class I price of the order for the Upstate Michigan marketing area is presently $1.15 above a basic formula price. This price is subject to a location adjustment for milk received at plants located 90 miles or more from the nearer of Gaylord or Traverse City, in the amount of 18 cents plus 1 cent for each 10 miles in excess of 100 miles.

The outer reaches of the Detroit milkshed extend to the vicinity of the Upstate Michigan marketing area. Accordingly the pricing provisions of the Detroit order, particularly prices at the nearest Detroit plants, were influential in establishing the present prices of the Upstate Michigan order. The Upstate Michigan price was established at 28 cents less than the Detroit price at the marketing area, exclusive of the effect of changes in the Detroit price due to changes in supply-demand relationships.

Need for proper alignment of Upstate prices with those of the Detroit market continues to be important, and changes in the Detroit order resulting from a public hearing held in Detroit February 28–March 7, 1955, provide the basis for certain changes proposed in the Upstate Michigan order. Official notice is hereby taken of the decision recently issued with respect to Class I pricing provisions and location differentials under the Detroit order. That decision provides that the Detroit Class I price (subject to supply-demand adjustment) shall be a basic formula price plus $1.23 in the months of February through July and plus $1.63 in the months of August through January. It also reduces the location differential for plants more than 50 miles from Detroit, thus increasing the Detroit prices applicable at plants nearest the Upstate marketing area by from 6 to 9 cents in relation to prices f. o. b. Detroit.

Certain marketing changes have occurred since the Upstate Michigan order became effective November 1955 which indicate need to consider price relationships between the two markets over a somewhat wider area. A plant formerly regulated by the Detroit order has entered the Upstate market and is presently regulated by the Upstate order. There are a number of Detroit supply plants in the general area in which this plant is located. The marginal area from which the two markets draw milk appears for all practical purposes to lie in a general area bounded by a line approximately 100 miles south from Grayling and 70 miles north from Detroit. Experience has shown that in these areas where the milksheds of two marketing areas mingle, Class I prices should be about the same so that milk will flow to the market needing the supply for Class I use. While differences in pooling arrangements such as those between the market-wide pool of the Detroit market and the handler pool of the Upstate market may at times result in producer prices that obscure Class I alignment and market wide needs for milk, proper alignment of Class I prices must be relied upon to allocate milk properly between markets and to prevent competitive advantages to dealers.

The basing points used for measuring location adjustments should be changed to points nearer the southern boundary of the marketing area. The geographical location of the marketing area is such that location adjustments have practical application only to the southward. Use of Traverse City and Gaylord as basing points provides substantial adjustment to handlers located relatively short distances from the marketing area while handlers with plants within the area compete with each other at greater distances.

Changes in the Class I pricing and location differential provisions of the Upstate Michigan order are required by the changes decided upon in the Detroit order, by the need to provide closer alinement of prices with Detroit in the enlarged marginal production area and to avoid providing competitive advantage to some handlers located near the edge of the marketing area.

It is concluded that these objectives can best be achieved by providing:

1. That the Class I differential of the order be $1.05 for the months of February through June and $1.45 for the months of July through January. The annual average differential will then be $1.283 or 14.7 cents less than that of the Detroit market. The seasonal pattern will follow that of the Detroit market except for the month of July, which is a month of exceptionally high sales in the Upstate market for which the seasonally high price should apply.

2. That basing points from which location adjustments are determined be changed from Traverse City and Gaylord to Manistee and Grayling. Adjustments from these points should then be computed on the basis of 12 cents for distance of 90–110 miles plus 1 cent for each 20 miles or fraction thereof in excess of 110 miles. While this rate is somewhat less than that to be provided under the Detroit order the difference appears fully justified by differences in hauling conditions in the two areas.

3. The marketing area should not be increased on the basis of this hearing record.

The Upstate Michigan marketing area is presently defined to include eleven counties and portions of two others. Handlers proposed that there be added to this area the major portion of Wexford County, of which three townships are now included in the area, and all of Missaukee and Roscommon counties. Cadillac, in Wexford County with a population of 10,000 is the principal urban center in the area proposed. There are in addition resort areas surrounding lakes in each of the three counties that provide demand for milk in the vacation period.

Three handlers presently regulated by the Upstate Michigan order make sales in the area proposed. One confines his sales beyond the present area to the northern portion of Wexford County, and distributes no milk in Cadillac. Another, with a plant in the portion of Wexford County now included in the marketing area, sells some milk in Cadillac. The third handler distributes approximately 90 percent of his milk outside the defined area, but is regulated on the basis of the sales made in the area. With his plant located in Roscommon County this handler sells throughout the area proposed, which apparently constitutes the majority of his market.

Local handlers in Manton and Cadillac also serve the proposed area. The record fails to provide data with respect to producer prices paid by these handlers so that no comparison may be made with respect to the relative costs of milk incurred by regulated handlers and local handlers competing for business in the area proposed.

Sales in these areas are also made by handlers from Bay City, Saginaw, and Grand Rapids. The record shows that such handlers pay Class I prices higher than those required under the Upstate Michigan Order.

In view of the absence of need for extending the area of producer price regulation shown on this record, the marketing area should not be enlarged to include Missaukee and Roscommon counties, and the additional portions of Wexford County as proposed.

4. Skim milk and butterfat used in the production of butter, dry milk (whole or nonfat) and cheese other than cottage cheese, disposed of for livestock feed or accounted for as shrinkage of other source milk should be classified separately as Class III milk and be priced 20 cents per hundredweight less than the remaining uses now included in Class II milk. The price for Class II milk should then be the basic formula price of the order.

Class II utilization under the Upstate Michigan order now includes all milk disposed of as fluid cream or for livestock feed, used to produce manufactured dairy products or accounted for as shrinkage within allowable limits. The Class II milk price is currently based on the prices reported paid at four Michigan manufacturing plants. This four-plant price is also used as an alternative in determining the basic formula price of the order, and as such has been the effective basic formula price most months since the order became effective.

Upstate Michigan fluid milk handlers maintain limited facilities in their plants for disposition of milk in excess of their fluid milk needs. Much of such milk must be processed in unregulated manufacturing plants which are located at some distance from the fluid milk plants. Handlers claim they cannot realize the Class II price of the order for milk moved to such plants. The operator of one of the four plants which determine

the Class II price will accept surplus milk from fluid milk handlers only at a 20-cent discount from his regular paying price to dairy farmers. Similar returns are realized for milk disposed of to other plants in the area.

Handlers presently are accepting at their plants little milk beyond their fluid needs, and producers, principally through their cooperative association, are responsible for marketing most milk in excess of fluid needs. For March and April 1956 less than seven percent of all approved milk was classified in Class II milk for which handlers were responsible, while approximately 26 percent was marketed to unregulated manufacturing plants as "associated producer milk" under the amendment to the order effective March 1, 1956, which permits such milk to share in the Class I sales of the handlers to whom these producers delivered milk in the preceding November. The cooperative association that has marketed this milk has realized a net return approximately 20 cents per hundredweight less than the Class II milk price.

Milk manufacturing plants in the area are principally engaged in the production of butter, nonfat dry milk, and hard type cheese. Provision for a price for milk used in such products at approximately the level that can be realized for it in the area will assist in orderly marketing of producer milk supplies. The handler pooling provisions of the order should deter handlers from increasing milk supplies solely for manufacturing purposes.

It is concluded that the lower classification and price should apply to milk used in the production of butter, dry milk (whole or nonfat), and cheese other than cottage cheese. In addition, milk disposed of for livestock feed, skim milk dumped and shrinkage allocated to other source milk should be classified as Class III milk. The record fails to indicate whether or not any substantial disposition for livestock feed or dumping occurs; such disposition, however, obviously has a value no higher than the other uses to be included in Class III milk. Classification of shrinkage of other source milk as Class III milk preserves the priority of producer milk for higher class uses.

While the present four-plant price has so far generally been higher than the 13-condensery and butter-powder formula prices which also serve as alternative basic formula prices of the order, this situation may not continue indefinitely. The uses retained in Class II milk are principally fluid cream, ice cream and cottage cheese, for which a price fully representative of the value of manufacturing milk is always appropriate. The basic formula price of the order is designed to be such a price. It is concluded that the Class II milk price should be the basic formula price rather than a single alternative of such price. The price for Class III milk should be the basic formula price less 20 cents.

The record indicates need for revising designation of two of the four plants to reflect changes in ownership and corporate name.

Milk disposed of as "associated producer milk" is primarily disposed of for use in products to be designated as Class III milk. Accordingly the value of such milk to be used in the computation of uniform prices and payments to associated producers should be the value of such milk at the Class III price.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act:

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply-demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers. The briefs contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included with this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended:

1. Amend § 916.22 (i) (1) by deleting "§§ 916.51 and 916.52" and substituting therefor "§ 916.51" and further deleting "§ 916.53" and substituting therefor "§ 916.52".

2. Delete § 916.41 and substitute therefor the following:

§ 916.41 *Classes of utilization.* Subject to the conditions set forth in §§ 916.42 and 916.43, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat (1) disposed of for consumption in fluid form as milk, flavored milk, skim milk, buttermilk, and half-and-half or other mixtures of cream and milk containing less than 18 percent butterfat; and (2) not accounted for as Class II or Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section; (2) disposed of as fluid cream; and (3) in shrinkage of producer milk up to 2 percent of receipts from producers.

(c) Class III utilization shall be all skim milk and butterfat (1) used to produce butter, dry milk (either whole or non-fat) or cheese in any form except cottage cheese; (2) for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (3) in shrinkage of other source milk.

3. Delete § 916.43 and substitute therefor the following:

§ 916.43 *Transfers.* (a) Skim milk and butterfat disposed of from a fluid milk plant to another handler in the form of milk or skim milk shall be Class I utilization, unless utilization in another class is indicated by both handlers in their reports submitted pursuant to § 916.30: *Provided,* That in no event shall the amount so classified in such class be greater than the amount of producer milk used in such class by the transferee handler after allocating other source milk in his plant in series beginning with the lowest priced utilization.

(b) Skim milk and butterfat moved in the form of milk or skim milk from a fluid milk plant to a person not a handler shall be Class I utilization unless all of the following conditions are met:

(1) Utilization in another class is indicated by the handler in his report submitted pursuant to § 916.30;

(2) The operator of the transferee plant had actually used in the month of such movement an equivalent amount of skim milk and butterfat in such class or moved such amount to another plant not operated by a handler which meets the requirements of subparagraph (3) of this paragraph and utilized in the month an equivalent amount of skim milk and butterfat in such class.

(3) The operator of the transferee plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such utilization.

(c) Skim milk and butterfat disposed of from a fluid milk plant to a producer handler shall be Class I utilization.

4. Delete § 916.45 and substitute therefor the following:

§ 916.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I, Class II, and Class III utilization for such handler.

5. Amend § 916.50 (c) by deleting "Beatrice Foods Co., Cadillac, Mich." and "Kraft Cheese Co., Clare, Mich." and substituting therefor "Kraft Foods Co., Cadillac, Mich." and "Kraft Foods Co., Clare, Mich."

6. Delete §§ 916.51, 916.52, 916.53, and 916.54 and substitute therefor the following:

§ 916.51 *Class prices.* Subject to the provisions of §§ 916.52 and 916.53 the prices per hundredweight to be paid by each handler, f. o. b. his plant as described in § 916.6 for milk received from producers or from cooperative associations, during the month, shall be as follows:

(a) *Class I milk.* Through June 30, 1958 the Class I milk price shall be the basic formula price plus $1.05 during the months of February through June and plus $1.45 during the months of July through January.

(b) *Class II milk.* The Class II milk price shall be the basic formula price.

(c) *Class III milk.* The Class III milk price shall be the basic formula price less 20 cents.

§ 916.52 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to § 916.51, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent an amount equal to the producer butterfat differential determined pursuant to § 916.71.

§ 916.53 *Handler location adjustments.* For milk which is received from producers at a fluid milk plant located more than 90 miles but not more than 110 miles, by shortest highway distance, as determined by the market administrator, from the courthouse in either Grayling or Manistee, whichever is closer, and utilized as Class I (prorating to such milk the utilization of all producer milk received at the plant), the price shall be the price effective pursuant to § 916.51 (a), less 12 cents, and less 1 cent additional for each 20 miles or fraction thereof over 110 miles.

7. Amend § 916.61 (b) by deleting the term "Class II" and substituting therefor "Class III".

8. Amend § 916.70 (c) (1) by deleting the terms "Class II" and "§ 916.52" and substituting therefor "Class III" and "§ 916.51 (c)".

9. Amend § 916.72 by deleting the terms "Gaylord or Traverse City" and "§ 916.54" and substituting therefor "Grayling or Manistee" and "§ 916.53".

Filed at Washington, D. C., this 15th day of August 1956.

HANDLING OF MILK IN CENTRAL MISSISSIPPI MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND AMENDED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to a proposed amended order and marketing agreement regulating the handling of milk in the Central Mississippi marketing area, which was issued August 8, 1956 (21 F. R. 6040), is hereby extended to September 5, 1956.

Dated: August 15, 1956.

[Docket No. AO-286]

MILK IN THE SOUTHEASTERN FLORIDA MARKETING AREA

NOTICE OF HEARING ON A PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the auditorium of the Broward National Bank of Fort Lauderdale, Florida, 25 South Andrews Avenue, Fort Lauderdale, Florida, beginning at 10 a. m., e. s. t., on September 5, 1956.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Southeastern Florida marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in such marketing area.

The hearing on the proposed marketing agreement and proposed order is to determine whether (1) the handling of milk in the area proposed to be regulated is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects interstate or foreign commerce, (2) the issuance of a marketing agreement or order regulating the handling of milk in the area is justified, and (3) the provisions specified in the proposals or some other provisions, appropriate to the terms of the Agricultural Marketing Agreement Act, will best tend to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended. The proposals set forth below have not received the approval of the Secretary of Agriculture and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any modification thereof.

Proposal No. 1: The following marketing agreement and order has been proposed by Independent Dairy Farmers' Association, Inc., Miami, Florida:

DEFINITIONS

§ 1018.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1018.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 1018.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified in this part.

§ 1018.4 *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

§ 1018.5 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act".

§ 1018.6 *Southeastern Florida marketing area.* "Southeastern Florida marketing area" hereinafter called the "marketing area" means all territory included within the counties of Dade, Broward and Monroe, and all the territory in Palm Beach County east of a line extending due north and south from the junction of the Okeechobee Canal and the West Palm Beach Canal, all in the State of Florida. All government reservations within this territory shall be considered part of the marketing area as herein defined.

§ 1018.7 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk in compliance with fluid milk product requirements of a duly constituted health authority having jurisdiction within the marketing area, and whose milk is received at a pool plant.

§ 1018.8 *Producer-handler.* "Producer-handler" means any person who produces milk and operates a pasteurizing plant but who receives no milk from other dairy farmers and disposes during the month of less than a daily average of 860 pounds of Class I milk in the marketing area.

§ 1018.9 *Handler.* "Handler" means any person in his capacity as the opera-

tor of a pasteurizing plant or a supply plant.

§ 1018.10 *Pasteurizing plant.* "Pasteurizing plant" means a plant which pasteurizes and packages fluid milk products and which is (a) located in the marketing area and disposes of such products on routes in the marketing area, or (b) located outside the marketing area and disposes of not less than 50 percent of such products on routes in the marketing area.

§ 1018.11 *Supply plant.* "Supply plant" means a plant, other than a pasteurizing plant, from which fluid milk products are supplied to a pasteurizing plant.

§ 1018.12 *Pool plant.* "Pool plant" means:

(a) A pasteurizing plant; or

(b) A supply plant, no less than 50 percent of whose milk is shipped to pasteurizing plants.

§ 1018.13 *Nonpool plant.* "Nonpool plant" means any milk receiving, manufacturing, or processing plant other than a pool plant.

§ 1018.14 *Producer milk.* "Producer milk" means skim milk or butterfat contained in milk received from producers.

§ 1018.15 *Other source milk.* "Other source milk" means all skim milk and butterfat in milk other than producer milk.

§ 1018.16 *Fluid milk product.* "Fluid milk product" means milk (including frozen or concentrated milk), chocolate milk, skim milk, and fortified skim milk.

§ 1018.17 *Route.* "Route" means any delivery to retail or wholesale outlets (including delivery by a vendor or a sale from a plant or plant store) of any fluid milk product, other than a delivery to a pool plant or nonpool plant.

§ 1018.18 *Base milk.* "Base milk" means producer milk received by a handler from a producer which is not in excess of such producer's daily base determined pursuant to § 1018.100, multiplied by the number of days in the month.

§ 1018.19 *Excess milk.* "Excess milk" means producer milk received by a handler from a producer which is in excess of base milk.

§ 1018.20 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of 92-score bulk creamery butter at Chicago as reported by the Department for the period from the 26th day of the immediately preceding month through the 25th day of the current month.

§ 1018.21 *Chicago powder price.* "Chicago powder price" means the carlot price per pound of nonfat dry milk solids, spray process, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published by the Department for the period from the 26th day of the immediately preceding month through the 25th day of the current month.

MARKET ADMINISTRATOR

§ 1018.30 *Designation.* The agency for the administration of this part shall be a "market administrator" selected by the Secretary. He shall be entitled to such compensation as may be determined by the Secretary and shall be subject to removal at his discretion.

§ 1018.31 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 1018.32 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received pursuant to § 1018.91:

(1) The cost of his bond and the bonds of his employees;

(2) His own compensation; and

(3) All other expenses, except those incurred under § 1018.95, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports or made available records and facilities pursuant to §§ 1018.40 through 1018.42, or payments pursuant to §§ 1018.90 through 1018.96;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 12th day after the end of each month, report to each cooperative association which so requests the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report, the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler;

(i) Verify all reports and payments of each handler, by audit of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(j) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information which do not reveal confidential information; and

(k) On or before the date specified, publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, and mail to each handler at his last known address, a notice of each of the following:

(1) The 25th day of each month, the Class I price for the following month;

(2) The 5th day of each month, the Class II price for the preceding month, and

(3) The 11th day of each month, the uniform price for all producer milk, and the uniform base price for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 1018.40 *Reports of sources and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report for each of his pool plants for such month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Producer milk;

(2) Fluid milk products received from other pool plants;

(3) Other source milk;

(4) Inventories of fluid milk products on hand at the beginning of the month; and

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements as to the disposition of Class I milk on routes entirely outside the marketing area, and inventories of fluid milk products on hand at the end of the month.

§ 1018.41 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(1) On or before the 7th day of each month, the aggregate quantity of base milk received at his pool plants for the preceding month;

(2) On or before the 20th day after the end of the month, for each of his pool plants, his producer payroll for that month, which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including the pounds of base milk, (iii) the days for which milk was received from such producer, (iv) the average butterfat content of such milk, and (v) the net amount of the handler's payment to the producer, together with the price paid and the amount and nature of any deductions;

(3) On or before the first day other source milk is received in the form of a fluid milk product at his pool plants his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product; and

(4) Such other information with respect to his sources and utilization of butterfat and skim milk, and at such times, as the market administrator shall prescribe.

(c) Each handler operating a pool plant shall report the total quantity of milk received from each producer and the number of days of such delivery or production, for each of the months of August 1956 through January 1957, together with such other information relating to the computation of bases as the market administrator may prescribe.

§ 1018.42 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data for each month, including, but not limited to:

(a) The receipt and utilization of all skim milk and butteraft handled in any form;

(b) The weights and tests for butterfat and other content of all products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all items of products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions, and the disbursement of money so deducted.

§ 1018.43 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 1018.50 *Skim milk and butterfat to be classified.* The skim milk and butterfat to be reported for pool plants pursuant to § 1018.40 (a) shall be classified by the market administrator, pursuant to the provisions of §§ 1018.51 through 1018.55.

§ 1018.51 *Classes of utilization.* Subject to the conditions set forth in §§ 1018.52 through 1018.55, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including reconstituted and concentrated nonfat milk solids) and butterfat:

(1) Disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (3) of this section, and

(2) Not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) Contained in inventories of fluid milk products on hand at the end of the month;

(3) Disposed of as skim milk for livestock feed; and

(4) In shrinkage not to exceed 2 percent, respectively, of the skim milk and butterfat contained in producer milk and other source milk: *Provided*, That if shrinkage of skim milk or butterfat is less than such 2 percent it shall be assigned pro rata to the skim milk or butterfat contained in producer milk and other source milk, respectively.

§ 1018.52 *Responsibility of handlers.* All skim milk and butterfat to be classified pursuant to this order shall be classified as Class I milk, unless the handler who received such skim milk and butterfat establishes to the satisfaction of the market administrator that it should be classified as Class II milk.

§ 1018.53 *Transfers.* (a) Skim milk and butterfat transferred to a pool plant of another handler (except a producer-handler) in the form of fluid milk products shall be classified so as to result in the maximum assignment of the producer milk of both handlers to Class I milk. Any additional amounts of skim milk and butterfat shall be classified as Class I milk unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 1018.40: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the respective amounts thereof remaining in Class II milk at the pool plants of the receiving handler after the subtraction of other source milk pursuant to §1018.55;

(b) Skim milk and butterfat transferred to the plant of a producer-handler in the form of fluid milk products, shall be classified as Class I milk;

(c) Skim milk and butterfat transferred in bulk form as milk or skim milk to a nonpool plant shall be classified as Class I milk unless,

(1) The transferee-plant is located less than 250 miles from the Dade County Court House, by the shortest hard-surfaced highway distance, as determined by the market administrator,

(2) The transferring handler claims classification in Class II milk in his report,

(3) The operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and

(4) Not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant, in such indicated use, the quantity transferred in excess of such actual use shall be classified as Class I milk, and

(d) Skim milk and butterfat transferred in bulk form as cream to a nonpool plant shall be classified as Class I milk unless,

(1) The transferring handler claims classification in Class II milk,

(2) The handler gives the market administrator sufficient notice to allow him to verify the shipment,

(3) The operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and

(4) Not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the quantity transferred in excess of such actual use shall be classified as Class I milk.

§ 1018.54 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors, the report submitted by each handler pursuant to § 1018.40 and compute the total pounds of skim milk and butterfat respectively, in Class I milk and Class II milk at all of the pool plants of such handler: *Provided*, That the skim milk contained in any product utilized, produced or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1018.55 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations with respect to the pool plants of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler.

(1) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk in producer milk classified

as Class II milk pursuant to § 1018.51 (b) (4),

(2) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk; *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk the balance shall be subtracted from the pounds of skim milk remaining in Class I milk,

(4) Subtract the pounds of skim milk in fluid milk products received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 1018.53 (a),

(5) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with Class II milk. Any amount so subtracted shall be called "overage";

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk;

(c) Add the pounds of skim milk and the pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 1018.60 *Class prices.* Subject to the provisions of §§ 1018.61 and 1018.62, the minimum prices per hundredweight to be paid by each handler for milk containing 3.8 percent butterfat received at his pool plants from producers shall be as follows:

(a) *Class I milk price.* The basic prices for Class I milk shall be $6.55 for the months of April through July and $7.00 for the months of August through March, plus or minus the amounts provided in subparagraphs (1) and (2) of this paragraph as follows:

(1) (i) Before determining the Class I price to be announced for each month, the market administrator shall calculate a utilization percentage by dividing the net pounds of producer milk into the net pounds of Class I milk disposed of from pool plants plus Class I milk disposed of in the marketing area by nonpool plants, multiply the quotient by 100, and rounding the resultant figure to the nearest one-tenth percent.

(ii) Whenever, for three consecutive months, the utilization percentage so calculated is higher than the maximum of the range of utilization percentage in the accompanying schedule for the corresponding month, 45 cents per 100 pounds shall be added to the basic Class I price; whenever, for three consecutive months, the utilization percentage so calculated is less than the minimum of the range of utilization percentage for the corresponding month shown in the accompanying schedule, 45 cents per 100 pounds shall be deducted from the basic Class I price.

SCHEDULE FOR UTILIZATION ADJUSTMENT

Month	Normal range (percent)	
	Minimum	Maximum
January	88	92
February	88	92
March	88	92
April	88	92
May	87	91
June	83	87
July	88	92
August	92	96
September	94	98
October	93	97
November	89	93
December	90	94

(2) (i) Before determining the Class I price to be announced for each month, the market administrator shall compute an economic index, using the most recent data available on prices paid by producers for dairy feed and the most recent data on weekly wages of industrial workers in Southern Florida.

(ii) The current data, in each case, shall be divided by the comparable average for the year 1956 and multiplied by 100 to give an index figure.

(iii) The feed price index shall be given a weight of 60 percent and the industrial wage index a weight of 40 percent. The resultant economic index shall be used to further adjust the Class I price for the following month according to the following schedule:

When the cost index is within the range of:	*Adjust the Class I price as follows:*
76 to 85	Minus 90 cents.
86 to 95	Minus 45 cents.
96 to 105	No adjustment.
106 to 115	Plus 45 cents.
116 to 125	Plus 90 cents.

(b) *Class II milk price.* The minimum Class II price shall be computed by adding together the plus values of subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 1.25, add 4 cents, and multiply the result by 3.8.

(2) Add 2.5 cents to the Chicago powder price and multiply the result by 8.5.

§ 1018.61 *Butterfat differentials to handlers.* For each class of milk containing more or less than 3.8 percent butterfat, the class prices calculated pursuant to § 1018.60 shall be increased or decreased, respectively, for each one-tenth percent of butterfat at the rate of 7.5 cents per hundredweight.

§ 1018.62 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located outside the marketing area and 90 miles or more from Dade County Court House, by the shortest hard-surfaced highway distance as determined by the market administrator, and which is assigned to Class I milk pursuant to the proviso of this section, when moved to another pool plant, or classified as Class I milk without such movement, the price specified in § 1018.60 shall be reduced at the rate set forth in the following schedule:

	Rate per hundredweight (cents)
Distance from Dade County Court House, Miami, Fla. (miles):	
90 but not more than 150	30 0
For each additional 10 miles or fraction thereof an additional	1 0

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the plant to which transferred after making the calculations prescribed in § 1018.55 (a) (1) through (3), and the comparable steps in § 1018.55 (b) for such plant, such assignment to the transferring plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1018.63 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1018.70 *Producer-handler.* Sections 1018.50 through 1018.55, 1018.60 through 1018.62, 1018.72, 1018.80 through 1018.85, 1018.90 through 1018.97, and 1018.100 through 1018.102 shall not apply to a producer-handler.

§ 1018.71 *Plants subject to other Federal orders.* Upon application to the market administrator and a subsequent determination by the Secretary, any plant specified in paragraph (a) of this section shall be treated as a nonpool plant, except that the operator of such plant shall, with respect to the total receipts and disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator:

(a) Any pool plant which

(1) Would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, and

(2) Does not dispose of a greater volume of Class I milk on routes in the Southeastern Florida marketing area than in the marketing area regulated pursuant to such other order.

§ 1018.72 *Handlers operating nonpool plants.* On or before the 15th day after the end of each month, each handler operating a nonpool plant shall pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk

disposed of as Class I milk from such plant on routes in the marketing area, by the price arrived at by subtracting the Class II price from the Class I price adjusted by the location differential pursuant to § 1018.62.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 1018.80 *Computation of the value of producer milk for each handler.* For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 1018.55 by the applicable class price; total the resulting amounts, and add any amount necessary to reflect adjustments for the location differentials required by the proviso in § 1018.62;

(b) Add an amount computed by multiplying the pounds of any overage deducted from either class pursuant to § 1018.55 (a) (6) and (b) by the applicable class price; and

(c) Add the amount computed by multiplying the difference between the Class II price and the Class I price by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 1018.55 (a) (4) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1018.55 (a) (3) and (b) for the current month, whichever is less.

(d) Except for milk received from a nonpool plant subject to the pricing provisions of another federal order add an amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1018.55 (a) (2) by the rate determined by subtracting the Class II price from the Class I price adjusted by the location differential pursuant to § 1018.62: *Provided*, That this provision shall not apply for months for which in excess of 95 percent of producer milk is classified as Class I milk.

§ 1018.81 *Computation of the uniform price.* The market administrator shall compute the uniform price per hundredweight of producer milk of 3.8 percent butterfat content, as follows:

(a) Combine into one total the values computed pursuant to § 1018.80 for the producer milk of all handlers who submitted reports prescribed in § 1018.40 and who are not in default of payments pursuant to §§ 1018.90 and 1018.92,

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 3.8 percent, or add, if such average butterfat content is less than 3.8 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 3.8 percent by the butterfat differential pursuant to § 1018.83 and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deduction to be made from producer payments for location differentials pursuant to § 1018.84;

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents to restore the balance in the producer-settlement fund. The resulting figure shall be the uniform price per hundredweight of producer milk of 3.8 percent butterfat content.

§ 1018.82 *Computation of the uniform prices for base milk and excess milk.* The market administrator shall compute the uniform price per hundredweight for base milk and for excess milk, each of 3.8 percent butterfat content, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submitted reports pursuant to § 1018.40, and who are not in default of payments pursuant to § 1018.90 or § 1018.92 by multiplying the hundredweight of such excess milk by the Class II price;

(b) The uniform price for excess milk shall be the Class II price as determined pursuant to § 1018.60 (b);

(c) Subtract the total value of excess milk as determined pursuant to paragraph (a) of this section, from the total value of producer milk as determined according to the calculations set forth in § 1018.81 (a) through (b);

(d) Divide the amount calculated pursuant to paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract the amount specified by § 1018.81 (f) from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 3.8 percent butterfat content.

§ 1018.83 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer shall be increased or decreased for each one-tenth of one percent which the average butterfat content of his milk is above or below 3.8 percent, respectively, at the rate of 7.5 cents per hundredweight.

§ 1018.84 *Location differential to producers.* The applicable uniform prices computed pursuant to §§ 1018.81 and 1018.82 to be paid for producer milk received at a pool plant located outside the marketing area and 90 miles or more from the Dade County Court House, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received, at the rates set forth in § 1018.62.

§ 1018.85 *Notification of handlers.* On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the total thereof;

(b) The amount and value of his base milk and excess milk, respectively, and the totals thereof;

(c) The uniform prices computed pursuant to §§ 1018.81 and 1018.82 and the butterfat differentials;

(d) The amounts to be paid by such handler pursuant to §§ 1018.92, 1018.95, and 1018.96 and the amount due such handler pursuant to § 1018.93.

PAYMENTS

§ 1018.90 *Time and method of payment for producer milk.* (a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received as follows:

(1) On or before the 15th day of the following month, an amount equal to not less than the uniform prices pursuant to § 1018.60 (a) and (b) adjusted by the butterfat and location differentials to producers, multiplied by the hundredweight of base milk and excess milk received from each producer, subject to the following adjustment: (i) Less marketing service deductions made pursuant to § 1018.85, (ii) plus or minus adjustments for errors made in previous payments made to such producer, and (iii) less proper deductions authorized in writing by such producer: *Provided*, That if by the date specified, such handler has not received full payment from the market administrator pursuant to § 1018.93 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) In the case of a cooperative association, which the market administrator determines is authorized by its members to collect payment for their milk, and which has requested of any handler in writing, such handler shall on or before the 2d day prior to the date on which payments are due individual producers, pay the cooperative association for milk received during the month from the producer-members of such association as determined by the market administrator, an amount equal to not less than the total due such producer-members as determined pursuant to paragraph (a) of this section; and

(c) Each handler who received milk from producers for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report to such cooperative association or to the market administrator for transmittal to such cooperative association for each such producer as follows:

(1) On or before the 10th day of the month, the total pounds of milk received during the preceding month;

(2) The pounds of milk received each day, together with the butterfat content of such milk;

(3) The total pounds of base and excess milk;

(4) The amount or rate and nature of any authorized deductions to be made from payments, and

(5) The amount and nature of payments due pursuant to § 1018.94.

§ 1018.91 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to § 1018.92 and out of which he shall make all payments pursuant to § 1018.93: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 1018.92 *Payments to the producer-settlement fund.* On or before the 10th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 1018.80, is greater than the amount owed by him for such milk at the appropriate uniform prices determined pursuant to § 1018.82, adjusted by the producer butterfat and location differentials.

§ 1018.93 *Payments out of the producer-settlement fund.* On or before the 11th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 1018.80, is less than the amount owed by him for such milk at the appropriate uniform prices adjusted by the producer butterfat and location differentials. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the funds are available.

§ 1018.94 *Adjustment of accounts.* Whenever audit by the market administrator of any reports, books, records, or accounts or other verification discloses errors resulting in moneys due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 1018.95 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk pursuant to § 1018.90, shall deduct 4 cents per hundredweight, or such lesser amount as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such services from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to producers as may be authorized by the membership agreement or marketing contract between the cooperative association and its members. On or before the 15th day after the end of each month, the handler shall pay the aggregate amount of such deductions to the cooperative association, furnishing a statement showing the amount of the deductions and the quantity of milk on which the deduction was computed for each producer.

§ 1018.96 *Expense of administration.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator, 4 cents or such lesser amount as the Secretary may prescribe, for each hundredweight of butterfat and skim milk contained in (a) producer milk, and (b) other source milk allocated to Class I milk pursuant to § 1018.55 (a) (2) and (b).

§ 1018.97 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The months during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the names of such producers or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the 2-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said 2-year period, with respect to such obligation, shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the payment (including deduction or offset by the market administrator) was made by the handler, if a refund on such payment is claimed unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

BASE RATING

§ 1018.100 *Computation of monthly bases for each producer.* (a) Subject to the rules set forth in § 1018.101, a daily average gross base for each producer shall be calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of August through January immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of January, inclusive, or by 150, whichever is more.

(b) The daily average gross base for each producer, computed pursuant to paragraph (a) of this section, shall be adjusted as follows:

Compute monthly adjustment factors by dividing into the daily average Class I sales in each of the 12 immediately preceding months ended with January, the daily average of Class I sales in the preceding period of August through January, and apply these monthly adjustment factors to the daily average base of each producer. The resultant figure for each month is the producer's monthly base: *Provided,* That for the purpose of computing each producer's monthly base for months prior to February 1958, the following adjustment factors shall be used:

February	1.24	August	1.02
March	1.25	September	1.09
April	1.20	October	1.13
May	1.08	November	1.17
June	1.02	December	1.21
July	.98	January	1.27

§ 1018.101 *Base rules.* The following rules shall apply in connection with the establishment and assignment of bases:

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base as calculated pursuant to § 1018.100 to each person for whose account producer milk was delivered to pool plants during the months of August through January: *And provided,* That any producer who has not earned a base or any producer who elects to relinquish his base by giving written notice to the market administrator, shall be allotted a base equal to 75 percent of his deliveries for each succeeding month until new bases are announced for all producers.

(b) An entire base may be transferred from a person holding such base to any other person, effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder, or his heirs, and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferable only upon the receipt of such application signed by all joint holders or their heirs, and by the person to whom such base is to be transferred.

§ 1018.102 *Announcement of established bases.* On or before January 25th of each year, the market administrator shall notify each producer, and the handler receiving milk from such producer, of the producer's monthly bases for the ensuing months of February and March, and on or before February 25th, he shall give a similar notification of the monthly bases of each producer for the ensuing months of April through January.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 1018.110 *Effective time.* The provisions of this part, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1018.111 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this part, or any amendment thereto, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto.

§ 1018.112 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1018.113 *Liquidation.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1018.120 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 1018.121 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Proposal No. 2: Southern Dairies, Inc. has proposed the following definition of the marketing area:

Southeastern Florida marketing area, hereinafter called the "marketing area," means all territory included within the Counties of Dade, Broward, Monroe, Palm Beach, Martin and Hendry, all in the State of Florida. All Government reservations and installations within this territory shall be considered part of the marketing area as herein defined.

Issued at Washington, D. C., this 15th day of August, 1956.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

Agricultural Research Service

[9 CFR Parts 1, 7, 16, 17, 18]

MEAT INSPECTION REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given in accordance with the provisions of section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that pursuant to the authority conferred by the Meat Inspection Act, as amended (21 U. S. C. 71, et seq.) it is proposed to amend §§ 1.1, 7.1, 7.6, 16.14, 17.2, 17.9, and 18.7 of the Meat Inspection Regulations (9 CFR, 1.1, 7.1, 7.6, 16.14, 17.2, 17.9, and 18.7, as amended) as follows:

1. Section 1.1 would be amended by adding a new paragraph (bb) to read:

(bb) *Preservative.* Any substance added to product to retard or prevent spoilage due to bacteria, molds, or similar organisms.

2. Section 7.1 would be amended to read:

§ 7.1 *Facilities for branch employees.* Furnished office room, including light, heat, and janitor service, shall be provided by official establishments, rent free, for the exclusive use for official purposes of the inspectors and other branch employees assigned thereto. The room or rooms set apart for this purpose shall meet with the approval of the inspector in charge and shall be conveniently located, properly ventilated, and provided with lockers suitable for the protection and storage of branch supplies and with facilities suitable for branch employees to change clothing. Outer work clothing except for footwear for the inspectors and laundry service for such clothing shall be provided by official establishments.

3. Section 7.6 would be amended to read:

§ 7.6 *Inspectors to furnish implements and maintain hands and implements in sanitary condition.* Inspectors shall furnish their own implements, such as knives, steels, flashlights, and triers, for conducting inspection and shall cleanse their hands and implements as prescribed by § 8.8 (c) of this subchapter.

4. Section 16.14 would be amended by changing the first sentence to read: "A product fabricated from two or more ingredients shall bear a list of the ingredients, giving the common usual names of the ingredients arranged in the order of their predominance, except that spices may be designated as 'spices' or 'flavorings,' and flavorings (including essential oils, oleoresins, and other spice extractives) may be designated as 'flavorings,' and antioxidants may be designated as 'antioxidants,' without naming each."

5. Section 17.2 (b) (2) would be amended by changing the first sentence to read: "The list of ingredients shall appear as part of or in addition to the true name of the product and shall show the common or usual names of the ingredients arranged in the order of their predominance, except that spices may be designated as 'spices' or 'flavorings,' and flavorings (including essential oils, oleoresins, and other spice extractives) may be designated as 'flavorings,' and antioxidants may be designated as 'antioxidants,' without naming each."

6. Section 17.2 (b) (2) would be further amended to change the final proviso therein to read as follows: "*And provided further,* That when a meat food product consisting of a mixture of edible fats obtained from cattle, sheep, swine or goats, is labeled as 'compound' or 'shortening,' the term 'animal fats,' 'meat fats,' and 'food fats' may be used to identify such fats in the list of ingredients, and, when a meat food product labeled as 'compound' or 'shortening' consists of a mixture of one or more edible fats obtained from cattle, sheep, swine, or goats and one or more edible vegetable fats, the term 'meat and vegetable fats' or 'vegetable and meat fats,' depending upon whether the meat or vegetable fat content predominates, or the term 'food fats,' may be used to identify the edible fats in the ingredient statement."

7. Section 17.9 would be amended by changing the heading to read: "*Labeling product prepared with artificial coloring, artificial flavoring, preservative, or antioxidant*"; and by adding a new paragraph (f) to read:

(f) When an antioxidant is added to product, as permitted under Parts 1 through 29 of this subchapter, there shall appear on the label in prominent lettering and contiguous to the name of the product the words "antioxidant added", and the kind and amount of antioxidant may also be shown.

8. Section 18.7 (d) would be amended by changing the word "preservatives" to "antioxidants" and the phrase "a preservative" to "an antioxidant" wherever they appear therein.

Any person who wishes to submit data, views, or arguments concerning the pro-

posed amendments may do so by filing them with the Chief, Meat Inspection Branch, Agricultural Research Service, U. S. Department of Agriculture, Washington 25, D. C., within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 15th day of August 1956.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

ORDER VACATING AND CANCELING SMALL TRACT CLASSIFICATION ORDER NO. 479

AUGUST 13, 1956.

1. Pursuant to authority delegated to me by Order 541 of the Director of the Bureau of Land Management, as amended, F. R. Document No. 56-5466, Small Tract Classification No. 479, Filed July 10, 1956; 8:48 a. m., is hereby revoked in its entirety. The said document classified the following described lands for lease and sale for homesite purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

SAN BERNARDINO MERIDIAN

T. 4 S., R. 7 E., S. B. M.,
Secs. 4, 10, 14, All.

2. The order is revoked for the reason it is deemed advisable to dispose of the vacant tracts subject to application through use of Veterans Drawing-Entry cards, rather than through general filing of applications.

R. R. BEST,
State Supervisor.

Office of the Secretary

TERMINATION OF FEDERAL SUPERVISION OVER THE PROPERTY OF THE WESTERN OREGON TRIBES AND BANDS OF INDIANS OF OREGON, AND THE INDIVIDUAL MEMBERS THEREOF

BY THE SECRETARY OF THE INTERIOR OF THE UNITED STATES OF AMERICA

A PROCLAMATION

Pursuant to the authority vested in me by section 13 of the act of August 13, 1954 (68 Stat. 724), I, Fred A. Seaton, Secretary of the Interior, do hereby proclaim that:

1. On and after August 13, 1956, the tribes, bands, groups, or communities of Indians located west of the Cascade Mountains in Oregon, including the Confederated Tribes of the Grand Ronde Community, Confederated Tribes of Siletz Indians, Alsea, Applegate Creek, Calapooya, Chaftan, Chempho, Chetco, Chetlessington, Chinook, Clackamas, Clatskanie, Clatsop, Clowwewalla, Coos, Cow Creek, Euchees, Galic Creek, Grave, Joshua, Karok, Kathlamet, Kusotony, Kwatami or Sixes, Lakmiut, Long Tom Creek, Lower Coquille, Lower Umpqua, Maddy, Mackanotin, Mary's River, Multnomah, Munsel Creek, Naltunnetunne, Nehalem, Nestucca, Northern Molalla, Port Orford, Pudding River, Rogue River, Salmon River, Santiam, Scoton, Shasta, Shasta Costa, Siletz, Siuslaw, Skiloot, Southern Molalla, Takelma, Tillamook, Tolowa, Tualatin, Tututul, Upper Coquille, Upper Umpqua, Willamette Tumwater, Yamhill, Yaquina, and Yoncalla, and the individual members thereof, shall not be entitled to any of the services performed by the United States for Indians because of their status as Indians.

2. Effective on August 13, 1956, all powers of the Secretary of the Interior, or any other officer of the United States, to take, review, or approve any action under the constitution and by-laws of the Confederated Tribes of the Grand Ronde Community of Oregon approved May 13, 1936, pursuant to the act of June 18, 1934 (48 Stat. 984), are terminated. Any powers conferred upon the tribe by its constitution and by-laws that are inconsistent with the provisions of the act of August 13, 1954, supra, are terminated. Such termination shall not affect the power of the tribe to take any action under its constitution and by-laws that is consistent with that act without the participation of the Secretary or other officer of the United States in such action.

3. Effective on August 13, 1956, the corporate charter of the Confederated Tribes of the Grand Ronde Community of Oregon, issued pursuant to the act of June 18, 1934 (48 Stat. 984), and ratified on August 22, 1936, is revoked.

4. Effective on August 13, 1956, the proceeds from the sales of lands of owners whose whereabouts cannot be ascertained shall be deposited in the Treasury of the United States for safekeeping until properly claimed.

5. On and after August 13, 1956, all statutes of the United States which affect Indians because of their status as Indians shall no longer be applicable to the western Oregon tribes, bands, groups, or communities of Indians of Oregon or the members thereof, and the laws of the several States shall apply to the tribes, bands, groups, or communities and members thereof in the same manner as they apply to other citizens or persons within their jurisdiction.

6. Nothing in this proclamation shall affect any claim heretofore filed against the United States by any tribe, band, group, or community of Indians of western Oregon.

7. Nothing in this proclamation shall abrogate any valid lease, permit, license, right-of-way, lien, or other contract heretofore approved.

8. Nothing in this proclamation, issued pursuant to the act of August 13, 1954 (68 Stat. 724) shall affect the status of the members of the tribes, bands, groups, or communities as citizens of the United States.

In witness whereof, I have hereunto subscribed my name and caused the seal of the Department of the Interior to be affixed this 13th day of August 1956.

[SEAL] FRED A. SEATON,
Secretary of the Interior.

Public Buildings Service

[Wildlife Order 37]

TRANSFER OF PROPERTY KNOWN AS SPOKANE FISH-CULTURAL STATION (I-WASH-512), SPOKANE COUNTY, WASHINGTON

Pursuant to the authority granted under Public Law 537, approved May 19, 1948, Eightieth Congress (16 U. S. C. 667c), notice is hereby given that:

1. By deed from the United States of America, dated July 10, 1956, that property known as Spokane Fish-Cultural Station (I-Wash-512), Spokane County, Washington, and more particularly described in said deed, has been transferred from the United States to the State of Washington.

2. The above-described property is transferred to the State of Washington for wildlife conservation purposes (other than migratory birds) in accordance with the provisions of said Public Law 537.

F. MORAN MCCONIHE,
Commissioner of
Public Buildings Service.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 15, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32520: *Trailer-on-flat-car service—Between St. Louis-Kansas City groups and southwestern points.* Filed by Missouri Pacific Railroad Company, for itself, and interested rail carriers. Rates on freight, moving on class and commodity rates, loaded in trailers and transported on railroad flat cars between East St. Louis, Ill., St. Louis, Mo., and Kansas City, Mo.-Kans., on one hand, and points in Arkansas, Louisiana and Texas, on the other.

Grounds for relief: Motor-truck competition and circuitous routes.

Tariff: Missouri Pacific Railroad Company tariff I. C. C. 21.

FSA No. 32521: *Commodities from and to points in the Southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on synthetic plastics, carloads, and other commodities, carloads, as described in the application from or to specified points in southwestern territories.

Grounds for relief: Carrier competition and circuity.

FSA No. 32522: *Household appliances—Louisville, Ky., to North Atlantic and Virginia Ports.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on household appliances, carloads from Louisville, Ky., to Baltimore, Md., Boston, Mass., New York, N. Y., Philadelphia, Pa., Newport News and Norfolk, Va., and points grouped with and taking same rates, for export.

Grounds for relief: Competition with Port of New Orleans, when to the Virginia ports, port relationships when to other ports, and circuity.

Tariff: Supplement 190 to Agent Hinsch's I. C. C. No. 4542.

FSA No. 32523: *Grain and products—New Orleans, La., to Alabama, Florida, and Georgia.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on grain, grain products, and related articles, carloads and less-than-carloads from New Orleans (when from Colorado, Kansas and other western points) to points in Alabama, Florida, and Georgia.

Grounds for relief: Maintenance of prescribed rates, and circuitous routes.

Tariffs: Supplement 151 to Agent Spaninger's I. C. C. 1325; Supplement 75 to Agent Spaninger's I. C. C. 1353.

FSA No. 32524: *Cement—North Paulding, Ohio, to Central Territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on cement, clinker, common, hydraulic, masonry, mortar, natural or portland, carloads from North Paulding, Ohio to specified points in Indiana and Ohio, also Louisville, Ky.

Grounds for relief: Modified short-line distance scale formulas, Motor-truck competition, and circuitous routes.

Tariff: Supplement 11 to New York Central Railroad Company's I. C. C. 1632.

FSA No. 32525: *Petroleum and products—Iowa to Illinois.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on petroleum and its products, tank-car loads from Coralville, Des Moines, Iowa City and Julien, Iowa to specified points in Illinois.

Grounds for relief: Truck competition and circuitous routes.

Tariff: Supplement 2 to Agent Prueter's I. C. C. A-4157.

FSA No. 32526: *Cotton—Southwest to Western, Northern, and Eastern Points.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on cotton, carloads from specified points in Arkansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas, also from Memphis, Tenn., Natchez, and Vicksburg, Miss., to specified points in western trunk-line, Illinois, and official territories.

Grounds for relief: Motor-truck competition, and circuitous routes.

Tariff: Supplement 93 to Agent Kratzmeir's I. C. C. 4014.

FSA No. 32527: *Manufactured tobacco—Louisville, Ky., to Greensboro, N. C.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on manufactured tobacco articles, including cigarettes, chewing, and smoking tobacco, carloads from Louisville, Ky., to Greensboro, N. C.

Grounds for relief: Circuitous routes.

Tariff: Supplement 297 to Agent Spaninger's I. C. C. 1062.

FSA No. 32528: *Crude rubber from Baton Rouge and North Baton Rouge, La.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on rubber, artificial, synthetic, neoprene, crude, carloads, minimum 60,000 and 70,000 pounds from Baton Rouge and North Baton Rouge, La., to specified points in southern territory also to points in Illinois, Iowa, Minnesota, Missouri, Nebraska, and Wisconsin.

Grounds for relief: Short-line distance formulas and circuitous routes.

Tariffs: Supplement 15 to Agent Spaninger's I. C. C. 1526 and two other tariffs.

FSA No. 32529: *Pulpboard or fibreboard—Northern to Southwestern Points.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on pulpboard or fibreboard, noibn, carloads from specified points in Michigan, Minnesota, and Wisconsin to points in Arkansas, Louisiana, Missouri, New Mexico, Oklahoma, and Texas in southwestern territory.

Grounds for relief: Short-line distance formula, market competition and circuitous routes.

Tariff: Supplement 17 to Agent Kratzmeir's I. C. C. 4198.

FSA No. 32530: *Pulpboard or fibreboard—Pekin, Ill., to Sherman, Tex.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on pulpboard or fibreboard carloads from Pekin, Ill., to Sherman, Tex.

Grounds for relief: Circuitous route.

Tariff: Supplement 18 to Agent Kratzmeir's I. C. C. 4198.

By the Commission.

[No. 32032]

CHESAPEAKE AND OHIO RAILWAY CO. ET AL.

INCREASED FARES, OFFICIAL TERRITORY, 1956

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 14th day of August A. D. 1956.

It appearing, that on August 10, 1956, The Cheseapeake and Ohio Railway Company, Lehigh Valley Railroad Company, The New York Central Railroad Company, Norfolk and Western Railway Company, The Pennsylvania Railroad Company, The Pennsylvania-Reading Seashore Lines, Pittsburgh and Lake Erie Railroad Company, and Reading Company, hereinafter referred to as respondents, filed a petition requesting the Commission to institute an investigation into the level of their one-way basic passenger fares, and to authorize respondents to increase their basic passenger fares in coaches by 5 percent and in sleeping and parlor cars by 45 percent (except the Lehigh Valley Railroad Company and Reading Company which seek only an increase in their basic coach fares) as more specifically set forth in the petition. Respondents also seek increases in excess baggage charges, modification of outstanding orders of the Commission, and make application for such relief as may be necessary under section 4 of the Interstate Commerce Act to publish and make effective the said proposed increased fares and charges.

It is ordered, That:

1. An investigation under the caption hereof be, and it is hereby, instituted into and concerning the reasonableness and lawfulness of the proposed increase in passenger fares and charges above described, including any increases in passenger fares and charges which may be subsequently filed in the proceeding. The investigation shall include the application filed for authority to establish and maintain the said fares and charges without observing section 4 of the act, as set forth in the petition, and the modification of outstanding orders to the extent necessary for the proposed increased fares and charges to become effective, including modification of outstanding orders involving intrastate fares entered by this Commisson under section 13 (4) of the act. Docket No. 11762, Michigan Passenger Fares, 60 I. C. C. 245, and as subsequently modified).

2. Except as provided in paragraph 3 (a) hereof, all evidence, except oral cross-examination provided for in paragraph 4 hereof, will be submitted in the form of verified statements (affidavits) with or without exhibits attached.

3. Special rules of practice will apply as follows:

(a) *Use of Commission's records and other documents.* Unless valid objection is made, the Commission will take official notice of, and consider as part of the record in this proceeding, the following documents:

Annual, quarterly and monthly report of individual railroads, filed with the Commission;

Annual Report on the Statistics of Railways in the United States;

Annual Report on Transport Statistics in the United States, and Annual Returns of Railroads to Valuation Order No. 3.

Quarterly Publications: Series No. Q-750.

Monthly Publications: Series No. M-100, 125, 150, 200, 213, 215, 220, 230, 240, 250 and 300.

This will extend to such documents on file or to be filed or issued during the pendency of the proceeding, and is for the benefit of all parties as well as the Commission.

Parties desiring to enter objection to the consideration of such documents, or to any particular matter contained therein upon the ground of revelance or materiality, must orally enter such objection on the record at a timely stage of the hearing provided for in paragraph 4 hereof. The objection should specify the matter objected to and the reasons therefor. The Commission may at the hearing hereinafter provided request the parties to stipulate other matters received during the pendency of the proceeding.

(b) *Verified statements by respondents and other parties in support of the proposed increase.* Evidence by respondents and other parties in support of the proposed increased fares and charges must be submitted in the form of verified statements (affidavits) with or without exhibits attached. An original and 20 copies must be furnished to the Commission. One copy of such verified statements shall be sent by first-class mail to each of the Regional Offices of the Commission where it will be open to public inspection. A list of the addresses of Regional Offices and Regional Managers is attached hereto as Appendix A. These verified statements must be filed on or before September 4, 1956. Any person desiring a copy or copies of such verified statements may obtain same from Mr. R. D. Brooks, 466 Lexington Avenue, New York 17, N. Y.

(c) *Verified statements by parties in opposition to the proposed increase.* Evidence by parties in opposition to the proposed increased fares and charges must be submitted in the form of verified statements (affidavits) with or without exhibits attached. An original and 20 copies must be furnished to the Commission and 10 copies shall be furnished to Mr. R. D. Brooks, 466 Lexington Avenue, New York, N. Y. One copy of such verified statements shall be sent by first-class mail to each of the Regional Offices of the Commission where it will be open to public inspection. These verified statements must be filed on or before September 20, 1956.

(d) *Reply verified statements.* Any party may file a verified statement in reply to any of the verified statements provided for in paragraphs (b) and (c). An original and 20 copies must be furnished to the Commission. The party whose verified statement is being replied to should be served with a copy of the reply by first-class mail, and a copy of each verified reply statement should be sent to each of the Regional Offices of the Commission where it will be open to public inspections. These reply verified statements must be filed on or before September 27, 1956.

4. A hearing for the purpose of cross-examining witnesses who have filed verified statements or reply verified statements will be held at the office of the Commission in Washington, D. C., beginning at 9:00 o'clock a. m., U. S. standard time (10:00 o'clock a. m., District of Columbia daylight savings time) October 3, 1956, before Examiner Barber. If cross-examination of a witness is desired by any party, request therefor must reach the witness or his attorney on or before October 1, 1956. The Commission should be promptly notified of such request for cross-examination.

5. Rule 21 (c) of the Commission's general rules of practice allowing 5 days additional time for parties located at or west of the El Paso, Texas-Helena, Montana line will not apply in this proceeding.

It is further ordered, That the said railroads be, and they are hereby, made respondents to this proceeding;

And it is further ordered, That a copy of this order be served upon each of the respondents, and that copies for public inspection be filed in the office of the Secretary of the Commission and with each of the Commission's Regional Offices, and that a copy be filed with the Director, Division of the Federal Register for publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[Vesting Order SA-98]

CONTUARUL DOBROGEA, BUCAREST, RUMANIA

In re: Debt owing to Contuarul Dobrogea, Bucarest, Rumania. F-57-1263, F-49-844.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, arising out of an account entitled "Havero Handelsvereeniging Overzee N. V., Rotterdam, Holland", maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Contuarul Dobrogea, Bucarest, Rumania, a national of Rumania, as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

[SEAL] HERBERT BROWNELL, Jr.,
Attorney General.

[F. R. Doc. 56-6658; Filed, Aug. 16, 1956; 8:48 a. m.]

[Vesting Order SA-99]

AKTIEBOLAGET ECAMBRIAN

In re: Property owned by Aktiebolaget Ecambrian. F-62-478.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of The Chase Manhattan Bank, 18 Pine Street, New York, N. Y., in the amount of $1,150.60, constituting a portion of an account entitled "Skandinaviska Banken Aktiebolag, Stockholm, Sweden, 'Special Account U,' General Ruling No. 6", together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Aktiebolaget Ecambrian, Stockholm, Sweden, which is a national of Hungary as defined in said Executive Order 8389, as amended, by reason of the ownership, direct or indirect, of all, or a substantial part, of its shares by Pester Ungarische Commercial Bank, a/k/a Hungarian Commercial Bank of Pest, Budapest, Hungary, a national of Hungary as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 9, 1956.

[SEAL] HERBERT BROWNELL, Jr.,
Attorney General.

COMPAGNIE DE PRODUITS CHIMIQUES ET ELECTROMETALLURGIQUES ALAIS FROGES ET CAMARGUE

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., and Property

Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue, Paris, France; Claim No. 40681, Vesting Order No. 3000; $1,293.75 in the Treasury of the United States.

All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue by virtue of an option agreement dated January 1, 1939 (including all modifications thereof and supplements thereto, if any), by and between I. G. Farbenindustrie Aktiengesellschaft, Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue and Eastman Kodak Company, which agreement relates, among other things, to United States Letters Patent No. 1,982,985, to the extent owned by Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue immediately prior to the vesting thereof by Vesting Order No. 3000 (9 F. R. 1834, February 16, 1944).

All interests and rights (including all royalties and other monies payable or held with respect to such interests and rights and all damages for breach of the agreement hereinafter described, together with the right to sue therefor) created in Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue, by virtue of every agreement by and between I. G. Farbenindustrie Aktiengesellschaft and Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue, relating to United States Letters Patent No. 1,982,985, to the extent owned by Compagnie de Produits Chimiques et Electrometallurgiques Alais Froges et Camargue immediately prior to the vesting thereof by Vesting Order No. 3000.

Property described in Vesting Order No. 666 (8 F. R. 5047, April 17, 1943) relating to United States Letters Patent Nos. 2,022,589; 2,026,466; 2,059,934; and 2,224,151.

Executed at Washington, D. C., on August 10, 1956.

For the Attorney General.

BATTISTA BARBATI ET AL.

AMENDED NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Whereas a Notice of Intention to Return Vested Property was published in the FEDERAL REGISTER on December 29, 1954 (19 F. R. 9312) with respect to the return to Battista Barbati of the sum of $99.00 in the Treasury of the United States;

Whereas information was subsequently received to the effect that Battista Barbati died in Italy on January 28, 1952, and that his proper successors-in-interest are Pio Barbati, Maria Barbati, Lucia Barbati and Concetta Barbati;

Whereas the aforesaid successors-in-interest have been substituted as claimants in this matter;

Now, therefore, pursuant to section 32 of the Trading With the Enemy Act, as amended, the said Notice of Intention to Return Vested Property is hereby amended by deleting under "Claimant" the name of Battista Barbati and under "Property and Location" $99.00 in the Treasury of the United States, and substituting therefor the following:

Claimants, Claim No., Property, and Location

Pio Barbati, Maria Barbati, Lucia Barbati and Concetta Barbati, All of Lama Mocogno, Modena, Italy; Claim No. 57266, Vesting Order No. 1888, $99.00 in the Treasury of the United States.

All other provisions of said Notice of Intention to Return Vested Property and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto, and under the authority thereof, are hereby ratified and confirmed.

Executed at Washington, D. C., on August 10, 1956.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

UNITED STATES TARIFF COMMISSION

[Investigation 15]

BADMINTON RACKETS

NOTICE OF INVESTIGATION ORDERED AND HEARING SET

In the matter of complaint of unfair methods of competition and unfair acts in the importation and sale of certain game (badminton) rackets.

Having considered the complaint under oath filed with the United States Tariff Commission on June 11, 1956, by George A. Allward, d. b. a. H. & A. Manufacturing Company, Lacombe, Louisiana, alleging unfair methods of competition and unfair acts in the importation of certain game (badminton) rackets and in the sale thereof in the United States in violation of the provisions of section 337 of the Tariff Act of 1930, and after preliminary inquiry with respect to the matters alleged in the said complaint in accordance with § 203.3 of the rules of practice and procedure of the United States Tariff Commission, the Commission, on the 14th day of August 1956 ordered:

(1) That an investigation pursuant to section 337 of the Tariff Act of 1930 in the matter of the aforementioned allegations be instituted; and

(2) That a public hearing in said investigation be held in the Hearing Room of the United States Tariff Commission, Eighth and E Streets, NW., Washington, D. C., beginning at 10 a. m., e. s. t., on the 11th day of December 1956, at which hearing all parties concerned will be afforded opportunity to be present, to produce evidence, and to be heard concerning the said alleged unfair methods of competition and unfair acts.

Public notice of the receipt of the aforesaid complaint was duly issued on June 22, 1956 (21 F. R. 4695; June 28, 1956, issue of Treasury Decisions), and the said complaint has been available for inspection by interested parties since that date at the office of the Secretary, Tariff Commission Building, Eighth and E Streets NW., Washington, D. C., and also in the New York office of the Tariff Commission located in Room 437 of the Custom House.

I hereby certify that the institution of the foregoing investigation and the hearing therein were ordered by the United States Tariff Commission on the 14th day of August 1956.

Issued August 15, 1956.

[SEAL] DONN N. BENT,
Secretary.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM COMPETITIVE SERVICE

DEPARTMENT OF THE ARMY

Effective upon publication in the FEDERAL REGISTER, paragraph (c) (2) is added to § 6.105 as set out below.

§ 6.105 *Department of the Army.* • • •

(c) *Engineer Department.* • • •

(2) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) on survey, construction, short-term maintenance, or floating plant operations located at sites outside District or Division Headquarters cities, where because of turnover, lack of housing facilities, mobility or work site, or remoteness of personnel servicing facilities, an adequate labor force can be recruited only by immediate gate-hiring on a local basis. This authority can be used only when the Commission has determined that it is specifically applicable to a given situation; and in no event can it be used for employment in Civil Service central office and regional and branch office cities or where there is a local Board of U. S. Civil Service Examiners to service the employing establishment.

AUTHORITY: §§ 51.2830 to 51.2847 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

INTRODUCTION

§ 51.2830 *Introduction.* (a) The tolerances for the standards are on a container basis. However, not to exceed 10 percent of the individual packages in any lot may vary from the specified tolerances as stated below, provided the averages for the entire lot, based on sample inspection, are within the tolerances specified and provided further, that decay in any one package shall in no case exceed three times the tolerance.

(b) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified.

(c) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, provided at least one specimen which does not meet the requirements shall be allowed in any one package.

Part 12 — 6276

GRADES

§ 51.2831 *U. S. No. 1.* U. S. No. 1 shall consist of onions of similar varietal characteristics which are mature, fairly firm, fairly well shaped, free from decay, doubles, bottlenecks, scallions, and from damage caused by seedstems, splits, tops, roots, sunscald, sunburn, sprouting, freezing, peeling, cracked fleshy scales, dirt or staining, foreign matter, disease, insects, or mechanical or other means. Unless otherwise pscified, the minimum size shall be 1½ inches in diameter, and in the case of yellow, brown, or red onions, 40 percent or more, and in the case of white onions, 30 percent or more, by weight, of the onions in any lot shall be 2 inches or larger in diameter.[1]

(a) In order to allow for variations other than size, incident to proper grading and handling, not more than 10 percent, by weight, of the onions in any container may be damaged by peeling, and not more than 5 percent may be below the remaining requirements of this grade but not more than two-fifths of this tolerance, or 2 percent, may be allowed for onions which are affected by decay. In addition, not more than 5 percent, by weight, may be below the minimum size specified, and not more than 15 percent may be above any specified maximum size. No part of any tolerance shall be allowed to reduce the percentage of onions which shall be 2 inches or larger in diameter or any other specified size or larger, but individual containers may have not more than 25 percent less than the percentage specified, provided that the entire lot averages within the percentage specified.

§ 51.2832 *U. S. Commercial.* U. S. Commercial shall consist of onions of similar varietal characteristics which are mature, not soft or spongy, not badly misshapen, free from decay, doubles, bottlenecks, scallions, and from damage caused by seedstems, tops, roots, sunscald, sunburn, cracked fleshy scales, sprouting, freezing, disease, insects, or mechanical or other means, and from serious damage by splits, dirt or staining, or other foreign matter. Unless otherwise specified, the minimum size shall be 1½ inches in diameter.

(a) In order to allow for variations other than size, incident to proper grading and handling, not more than 5 percent, by weight, of the onions in any container may be below the requirements of this grade, but not more than two-fifths of this tolerance, or 2 percent, may be allowed for onions which are affected by decay. In addition, not more than 5 percent, by weight, may be below the size specified, and not more than 15 percent may be above any specified maximum size.

§ 51.2833 *U. S. No. 1 Boilers.* U. S. No. 1 Boilers shall consist of onions which meet all requirements for U. S. No. 1 grade except for size. The size of onions of this grade shall be not less than 1 inch nor more than 1⅞ inches in diameter.

(a) In order to allow for variations other than size, incident to proper grading and handling, not more than 10 percent, by weight, of the onions in any container may be damaged by peeling, and not more than 5 percent, by weight, of the onions may be below the remaining requirements of this grade, but not more than two-fifths of this tolerance, or 2 percent, may be allowed for onions which are affected by decay. In addition, not more than 5 percent, by weight, may be below the minimum size, and not more than 15 percent may be above the maximum size specified for this grade.

§ 51.2834 *U. S. No. 1 Picklers.* U. S. No. 1 Picklers shall consist of onions which meet all requirements for U. S. No. 1 grade except for size. The maximum size of onions of this grade shall not be more than one inch in diameter.

(a) In order to allow for variations other than size, incident to proper grading and handling, not more than 10 percent, by weight, of the onions in any container may be damaged by peeling, and not more than 5 percent, by weight, of the onions may be below the remaining requirements of this grade, but not more than two-fifths of this tolerance, or 2 percent, may be allowed for onions which are affected by decay. In addition, not more than 15 percent, by weight, may be above the maximum size specified for this grade.

§ 51.2835 *U. S. No. 2.* U. S. No. 2 shall consist of onions of one type, which are mature, not soft or spongy, free from decay, scallions, and from serious damage caused by seedstems, sunscald, sprouting, freezing, disease, insects, mechanical or other means. Unless otherwise specified, the minimum size shall be 1½ inches in diameter.

(a) In order to allow for variations other than size, incident to proper grading and handling, not more than 5 percent, by weight, of the onions in any container may be below the requirements of this grade, but not more than two-fifths of this tolerance, or 2 percent, may be allowed for onions which are affected by decay. In addition, not more than 5 percent, by weight, may be below the minimum size specified, and not more than 15 percent may be above any specified maximum size.

UNCLASSIFIED

§ 51.2836 *Unclassified.* Unclassified shall consists of onions which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

DEFINITIONS

§ 51.2837 *Mature.* "Mature" means dry and well cured. Midseason onions which are not customarily held in storage shall be considered mature when harvested in accordance with good commercial practice at a stage which will not result in the onions becoming soft or spongy.

§ 51.2838 *Fairly firm.* "Fairly firm" means that the onion may yield slightly to moderate pressure but is not appreciably soft or spongy.

§ 51.2839 *Fairly well shaped.* "Fairly well shaped" means having the shape characteristic of the variety, but slightly off-type, slightly elongated or slightly misshapen onions shall be admitted to U. S. No. 1 grade.

§ 51.2840 *Doubles.* "Doubles" means onions which have developed more than one distinct bulb joined only at the base.

§ 51.2841 *Bottlenecks.* "Bottlenecks" are onions which have abnormally thick necks with only fairly well developed bulbs.

§ 51.2842 *Scallions.* "Scallions" are onions which have thick necks and relatively small and poorly developed bulbs.

§ 51.2843 *Damage.* "Damage" means any defect which materially affects the appearance of the lot or the edible or shipping quality of the individual onions. Any one of the following defects shall be considered as damage:

(a) Seedstems which are tough or woody, or which are more than ¼ inch in diameter.

(b) "Damage by splits." A split is an onion which has more than one distinct bulb at least partially covered by an outer scale. Such an onion, if not well cured, shall be considered damaged when not completely covered by more than one outer scale. If well cured, such an onion shall not be regarded as damaged if practically covered by an outer scale, unless the distinct bulbs cause the onion to be materially misshapen.

(c) "Damage by tops." In considering this factor the appearance of the lot of onions as a whole should be considered. While all onions should be trimmed to less than 2 inches, there are often some that have been cut with tops a little longer. However, any lot of onions having more than 20 percent of

[1] Any lot of onions quoted as being of size smaller than 1½ inches minimum such as "U. S. No. 1, 1¼ inches min." is not required to meet the percentages which shall be 2 inches or larger as specified in the U. S. No. 1 grade.

onions with tops over 2 inches in length shall be considered as damaged. This percentage is given only as a guide and it may be reduced if the tops are very long. For example, not more than 10 percent of onions may have tops longer than 5 inches.

(d) Sunscald which affects the shipping or market quality. Slight dry scald which is not readily apparent without peeling the onion shall not be considered as damage.

(e) "Peeled" onions when more than one-half of the thin papery skin is missing, leaving the larger portion of the fleshy outer scale unprotected. Such onions are sometimes referred to as "bald" or "skinned" onions, or "peelers".

(f) Cracked fleshy scale, when one or more of the fleshy scales are cracked. Such onions are undesirable because of the possibility of decay organisms entering the insured tissue. Cracking of the thin papery skins shall not be regarded as damaged.

(g) "Damage by dirt or staining." Any lot of onions which is dirty or materially stained shall be considered as damaged. In this connection the number of stained onions permitted before the lot is considered damaged, will depend upon the degree of staining on individual onions. As a guide, a lot of yellow, brown, or red onions should be considered damaged if the appearance is affected to a greater extent than the presence of 15 percent appreciably stained plus 5 percent badly stained onions. A lot of white onions should be considered damaged if the appearance is affected to a greater extent than the presence of 10 percent appreciably stained plus 5 percent badly stained onions. If a lot of onions contains the percentages of appreciably stained and badly stained onions mentioned above and most of the remainder of the onions in the lot shows staining of a lesser degree, but approaches that which is considered appreciably stained, then the lot shall be considered damaged by staining. If a lot of onions contains slightly more than the percentages of appreciably stained onions mentioned above and most of the remainder of the onions in the lot shows none or very little staining, then the lot should be considered as not damaged by staining. Onions with adhering or caked dirt which affects the appearance to the same extent as apprecially stained or badly stained onions shall be seored in combination with any stained onions that may be present in the lot.

§ 51.2844 *Diameter.* "Diameter" means the greatest dimension at right angles to a straight line running from the stem to the root.

§ 51.2845 *Badly misshapen.* "Badly misshapen" means that the onion is so elongated or misshapen that its appearance is seriously affected.

§ 51.2846 *Serious damage.* "Serious damage" means any defect which seriously affects the appearance of the lot or the edible or shipping quality of the individual onions. Any one of the following defects shall be considered as serious damage:

(a) Splits, when the condition causes the onion to be badly misshapen.

(b) Any lot of onions that is seriously damaged by dirt including badly stained onions. A lot of onions shall be considered seriously damaged by staining when more than 25 percent of the lot is badly stained. Onions with adhering or caked dirt which affects the appearance to the same extent as badly stained onions shall be scored in combination with any badly stained onions that may be present in the lot.

(c) Seedstems which are more than one-half inch in diameter.

(d) Sprouting, when the sprouts are more than one-half inch in length or the onion has become soft or spongy.

§ 51.2847 *One type.* "One type" means that the onions are of the same color.

Dated: August 16, 1956.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

CIGAR-FILLER AND BINDER TOBACCO MARKETING QUOTA REGULATIONS 1956-57 MARKETING YEAR

GENERAL

Sec.
723.730 Basis and purpose.
723.731 Definitions.
723.732 Instructions and forms.
723.733 Extent of calculations and rule of fractions.

IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATION OF ACREAGE

723.734 Identification and location of farms.
723.735 Determination of tobacco acreage.

FARM MARKETING QUOTAS AND MARKETING CARDS

723.736 Amount of farm marketing quota.
723.737 Transfer of farm marketing quotas.
723.738 Issuance of marketing cards.
723.739 Person authorized to issue cards.
723.740 Rights of producers in marketing cards.
723.741 Successors in interest.
723.742 Invalid cards.
723.743 Report of misuse of marketing card.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

723.744 Extent to which marketings from a farm are subject to penalty.
723.745 Disposition of excess tobacco.
723.746 Identification of marketings.
723.747 Rate of penalty.
723.748 Persons to pay penalty.
723.749 Marketings deemed to be excess tobacco.
723.750 Payment of penalty.
723.751 Request for return of penalty.

RECORDS AND REPORTS

723.752 Producer's records and reports.
723.753 Buyer's records.
723.754 Buyer's reports.
723.755 Buyers not exempt from regular records and reports.
723.756 Records and reports of truckers and persons sorting, stemming, packing, or otherwise processing tobacco.
723.757 Separate records and reports from persons engaged in more than one business.
723.758 Failure to keep records or make reports.
723.759 Additional records and reports to Director.
723.760 Examination of records and reports.
723.761 Length of time records and reports to be kept.
723.762 Information confidential.

AUTHORITY: §§ 723.730 to 723.762 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 314, 372, 373, 374, 375, 52 Stat. 38, 47, 48, 65, 66, as amended. 69 Stat. 24; 7 U. S. C. 1301, 1313, 1314, 1372, 1373, 1374, 1375.

GENERAL

§ 723.730 *Basis and purpose.* Sections 723.730 to 723.762 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the records and reports incident thereto on the marketing of cigar-filler and binder tobacco during the 1956–57 marketing year. Prior to preparing §§ 723.730 to 723.762, public notice (21 F. R. 5191) of their formulation was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to §§ 723.730 to 723.762 which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 723.731 *Definitions.* As used in §§ 723.730 to 723.762, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended.

(b) "Buyer" means a person who engages to any extent in the business of acquiring tobacco from producers without regard to whether such person is registered as a dealer with the Bureau of Internal Revenue. In the case of a person who employs person(s) to negotiate contracts with producers to purchase their tobacco, such person rather than such employed person(s) is the buyer of such tobacco.

(c) "Carry-over" tobacco means, with respect to a farm, tobacco produced prior to the beginning of the calendar year 1956 which has not been marketed or which has not been disposed of under § 723.745.

(d) Committees:

(1) "Community committee" means the persons elected within a community as the community committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(2) "County committee" means the persons elected within a county as the county committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(3) "State committee" means the persons in a State designated by the Secretary as the Agricultural Stabilization and Conservation State committee.

(e) "County officer manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operations of the ASC county office, or the person acting in such capacity.

(f) "Deputy Administrator" means the Deputy Administrator or the Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(g) "Director" means Director or Acting Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(h) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person including also:

(1) Any other adjacent or nearby farm land which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

(i) "Market" means the disposition in raw or processed form of tobacco by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. "Marketing" and "marketed" shall have corresponding meanings to the term "market."

(j) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(k) "Person" means an individual, partnership, association, corporation, estate or trust, or other business enterprise or other legal entity, and wherever applicable, a State, a political subdivision of a State or any agency thereof.

(l) "Producer" means a person who as owner, landlord, tenant, sharecropper, or laborer is entitled to share in the tobacco available for marketing from the farm or in the proceeds thereof.

(m) "Pound" means that amount of tobacco which, if weighed in its unstemmed form and in the condition in which it is usually marketed by producers, would equal one pound standard weight.

(n) "Sale" means the first marketing of farm tobacco on which the gross amount of the sales price therefor has been or could be readily determined.

(o) "Sale date" means the date on which the gross amount of the sales price of the first marketing of farm tobacco has been or could be readily determined.

(p) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(q) "State administrative officer" means the person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the ASC State office, or the person acting in such capacity.

(r) "Tobacco" means (1) (i) type 42 tobacco—that type of cigar-leaf tobacco commonly known as Gebhardt, Ohio Seedleaf, or Ohio Broadleaf, produced principally in the Miami Valley section of Ohio and extending into Indiana; (ii) type 43 tobacco—that type of cigar-leaf tobacco commonly known as Zimmer, Spanish, or Zimmer Spanish, produced principally in the Miami Valley section of Ohio and extending into Indiana; (iii) type 44 tobacco—that type of cigar-leaf tobacco commonly known as Dutch, Shoestring Dutch, or Little Dutch, produced principally in the Miami Valley section of Ohio; (iv) type 51 tobacco—that type of cigar-leaf tobacco commonly known as Connecticut Valley Broadleaf or Connecticut Broadleaf, produced primarily in the valley area of Connecticut; (v) type 52 tobacco—that type of cigar-leaf tobacco commonly known as Connecticut Valley Havana Seed, or Havana Seed of Connecticut and Massachusetts, produced primarily in the Connecticut Valley area of Massachusetts and Connecticut; (vi) type 53 tobacco—that type of cigar-leaf tobacco commonly known as York State tobacco, or Havana Seed of New York and Pennsylvania, produced principally in the Big Flats section of New York, extending into Pennsylvania and in the Onondaga section of New York State; (vii) type 54 tobacco—that type of cigar-leaf tobacco commonly known as Southern Wisconsin cigar-leaf or Southern Wisconsin binder type, produced principally south and east of the Wisconsin river; and (viii) type 55 tobacco—that type of cigar-leaf tobacco commonly known as Northern Wisconsin cigar-leaf or Northern Wisconsin binder type, produced principally north and west of the Wisconsin river, as classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture; (2) tobacco which has the same characteristics and corresponding qualities, colors, and lengths shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco. The term "tobacco" shall include all leaves harvested, including trash; (3) for the purpose of discovering and identifying all tobacco subject to marketing quotas the term "tobacco" with respect to any farm located in an area in which any kind of tobacco subject to marketing quotas is normally produced, shall include all acreage of tobacco on the farm, including any acreage which the farm operator may contend is not devoted to the production of tobacco as defined herein. The acreage of each kind of tobacco (cigar-filler and binder, type 42–44 and 51–55) shall be determined by the county committee on the basis of seeding, cultivating, curing, and marketing practices commonly known to the area. Such determination shall include all acreage of tobacco on the farm. The production of the acreage of each kind of tobacco so determined shall be considered to be tobacco of the kind available for marketing until such time as the operator of the farm furnishes to the county committee satisfactory proof that a part or all of the production of such acreage has been classified pursuant to Part 29 of this title when marketed, as a different kind of tobacco. Any amount of tobacco so classified as a different kind shall be converted to acres on the basis of the average yield per acre of the entire acreage of tobacco grown on the farm in 1956 for the purpose of determining the harvested acreage of such kind of tobacco produced on the farm.

(s) "Tobacco available for marketing" means all tobacco produced on the farm in the calendar year 1956 plus any carryover tobacco, less any tobacco disposed of in accordance with § 723.745.

(t) "Tobacco subject to marketing quotas" means any tobacco of types 42–44 and 51–55, inclusive, marketed during the period October 1, 1956, to September 30, 1957, inclusive, and any tobacco of 42–44 and 51–55 types, inclusive, produced in the calendar year 1956 and marketed prior to October 1, 1956.

(u) "Trucker" means a person who engages to any extent in the business of trucking or hauling tobacco for producers to a point where it may be marketed or otherwise disposed of in the form and in the condition in which it is usually marketed by producers.

§ 723.732 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions with respect to internal management as are necessary, for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

§ 723.733 *Extent of calculations and rule of fractions.* (a) The acreage of tobacco harvested on a farm in 1956 shall be expressed in hundredths and fractions of less than one-hundredth of an acre shall be dropped. For example, 1.550, 1.555, or 1.559 acres would be 1.55 acres.

(b) The percentage of excess tobacco available for marketing from a farm, hereinafter referred to as the "percent excess," shall be expressed in tenths and fractions of less than one-tenth shall be dropped. For example, 12.59 percent would be 12.5 percent.

(c) The amount of penalty per pound upon marketings of tobacco subject to penalty, hereinafter referred to as the "converted rate of penalty," shall be expressed in tenths of a cent and fractions of less than a tenth shall be dropped, except that if the resulting converted rate of penalty is less than a tenth of a cent, it shall be expressed in hundredths and fractions of less than a hundredth shall be dropped. For example, 3.63

cents per pound would be 3.6 cents, and 0.068 cent per pound would be 0.06 cent.

IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATION OF ACREAGE

§ 723.734 *Identification and location of farms.* (a) Each farm as operated for the 1956 crop of tobacco shall be identified by a farm serial number assigned by the county office manager and all records pertaining to marketing quotas for the 1956 crop of tobacco shall be identified by such number.

(b) A farm shall be regarded as located in the county in which the principay dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

§ 723.735 *Determination of tobacco acreage*—(a) *County committees.* For the purpose of ascertaining with respect to each farm whether there is excess tobacco of the 1956 crop available for marketing, the county committee shall determine the acreage of tobacco on each farm in the county for which a 1956 tobacco acreage allotment has been established and on any other farms in the county on which the county committee has reason to believe tobacco was planted. The county committee's determination shall be based upon a measurement of the acreage made by identification of fields or parts of fields by use of a map, aerial photography, or by means of a steel or metallic tape or chain, or rod and chain, or by use of a measurement wheel when authorized by the Deputy Administrator, or by a combination of one or more of these methods. Such measurement shall be made by an employee of the county committee who has been designated as a reporter and determined by the county office manager to be qualified to carry out the duties of a reporter. The reporter shall visit each farm assigned to him for measurement and enter thereon if such entry will facilitate measurement. The county committee may at any time redetermine the tobacco acreage for any farm and shall, at the request of the State committee, make a redetermination of tobacco acreage for any farm. Such redetermination of tobacco acreage shall supersede any prior determination of tobacco acreage for the farm. A redetermination of tobacco acreage shall be based on measurements made in the manner provided for in this paragraph by either a reporter, county office manager, county performance supervisor, district performance supervisor, or any other employees of the ASC State office who are determined by the State administrative officer to be qualified to perform such measurements. In connection with any measurement of tobacco acreage for any farm made as provided in this paragraph, rechecks and spot checks of such measurements may be made by any of the county and State office employees authorized in this paragraph to perform measurements of farm tobacco acreage.

(b) *Farm operators.* The farm operator or his representative or any producer, at the reporter's request for such information or assistance, shall designate all fields on the farm being utilized for growing tobacco and may assist in measuring the farm, the acreage of cropland in the farm, or the acreage of tobacco being grown on the farm.

(c) *Notice to farm operators.* The county committee shall notify the farm operator of the measured acreage of tobacco on each farm as determined under the provisions of this section.

(d) *Harvested acreage of tobacco.* The acreage of tobacco determined or as redetermined for a farm by the county committee pursuant to this section shall be the harvested acreage of tobacco for the farm for the purpose of issuing the correct marketing card for the farm as provided in § 723.738 unless the farm operator furnishes to the county committee satisfactory proof that a portion of the acreage planted will not be harvested or that a representative portion of the production of the acreage physically harvested will be disposed of other than by marketing, in which case the harvested acreage shall be the acreage as adjusted by taking into account the portion of the acreage planted which will not be harvested or the portion of the production of the acreage physically harvested which will be disposed of other than by marketing.

(e) *Acreage not determined.* If the farm operator or his representative prevents the county committee from obtaining information necessary to determine the correct acreage of tobacco on a farm, in addition to any other liability which might be imposed upon the operator, and until the farm operator or his representative permits a determination of the correct acreage, all acreage of tobacco on the farm shall be deemed to be in excess of the farm acreage allotment for the purpose of issuing a marketing card for the farm.

(f) *Prior measurements.* Measurements made prior to the effective date of this section, and in accordance with procedures then in effect may be utilized where pertinent for the purpose of ascertaining with respect to any farm the 1956 tobacco acreage and the tobacco acreage in excess of the 1956 farm tobacco acreage allotment.

FARM MARKETING QUOTAS AND MARKETING CARDS

§ 723.736 *Amount of farm marketing quota.* (a) The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment as established for the farm in accordance with 1023 (Cigar-Filler and Binder-56)-1, Marketing Quota Regulations 1956-57 (20 F. R. 6059). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the farm acreage allotment.

(b) The excess tobacco on any farm shall be (1) that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the number of acres harvested in excess of the farm acreage allotment, plus (2) any excess carry-over tobacco.

§ 723.737 *Transfer of farm marketing quotas.* There shall be no transfer of farm marketing quotas except as provided in §§ 723.720 and 723.726 of the cigar-filler and binder tobacco marketing quota regulations for determining acreage allotment and normal yields, 1956–57 marketing year.

§ 723.738 *Issuance of marketing cards.* (a) A marketing card shall be issued for each farm having tobacco available for marketing. Subject to the approval of the county office manager or the State administrative officer as provided in § 723.739 two or more marketing cards may be issued for any farm. Upon return to the ASC issuing office of the marketing card after all of the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. A new marketing card of the same kind shall be issued to replace a card which has been determined by the State administrative officer or County office manager, who issued the card to have been lost, destroyed or stolen.

(b) *Within Quota Marketing Card (MQ–76—Tobacco).* A Within Quota Marketing Card authorizing price support loans and the marketing without penalty of any tobacco available for marketing shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco for the farm in 1956 is not in excess of the farm acreage allotment therefor and any excess carry-over tobacco can be marketed without penalty under the provisions of § 723.744 (b) except that if:

(i) More than one kind of tobacco is produced on a farm in 1956 a "zero percent" excess marketing card (ineligible for price support loans) shall be issued for each kind of tobacco for which the harvested acreage is not in excess of the farm acreage allotment if at the time of issuing marketing cards for the farm the harvested acreage of any kind is in excess of the farm acreage allotment;

(ii) For any kind of tobacco produced on a farm in 1956 the acreage of which is in excess of the allotment and the operator or any other producer on the farm fails to file with the county ASC office a written request (with deposit to cover the cost as estimated by the county committee) to dispose of the excess tobacco acreage or to have a remeasurement made of the tobacco acreage within ten (10) days from the date of notice to the farm operator on Form CSS–595—Tobacco, Notice of Excess Tobacco Acreage, a "zero percent" excess marketing card shall be issued for each such kind of tobacco even though the excess acreage is disposed of other than by marketing unless the county committee with the approval of a representative of the State committee determines that the failure to file such written request was due to circumstances beyond the control of the farm operator or producer; or

(iii) Any tobacco is physically harvested from a farm in 1956 from an acreage in excess of the allotment for the farm and even though it is disposed of in accordance with § 723.745 (a), a "zero percent" excess marketing card shall be issued for each such kind of tobacco, unless the county committee with the approval of a representative of the State committee determines that the acreage of tobacco was not measured in sufficient time to afford the farm operator an opportunity to dispose of the excess acreage prior to harvest.

(2) If the Director of a publicly owned Agricultural Experiment Station furnishes to the ASC State office a list by counties showing with respect to each kind of tobacco and farm on which tobacco is grown for experimental purposes only the following:

(i) Name and address of the publicly owned Experiment Station;

(ii) Name of the owner, and name of the operator if different from the owner, of each farm on which tobacco is grown for experimental purposes only;

(iii) The amount of acreage of tobacco grown on each farm for experimental purposes only;

(iv) A certification signed by the Director of the publicly-owned Agricultural Experiment Station to the effect that: (a) Such acreage of tobacco was grown on each farm for experimental purposes only; (b) the tobacco was grown under his direction; and (c) that the acreage in each plot was considered necessary for carrying out the experiment.

The list required in this subparagraph shall be posted and kept available for public inspection in the ASC office of the county in which the farms included in the list are located.

(c) *Excess Marketing Card (MQ–77—Tobacco).* An Excess Marketing Card (ineligible for price support loans) showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued unless a within quota marketing card is required to be issued for the farm under paragraph (b) of this section, except that if the farm operator or his representative prevents the county committee or its representative from obtaining information necessary to the issuance of the correct marketing card, an excess marketing card shall be issued showing that all tobacco from the farm is subject to the rate of penalty set forth in § 723.747.

§ 723.739 *Persons authorized to issue marketing cards.* (a) The State administrative officer shall be responsible for the issuance of marketing cards issued for the purpose of identifying tobacco grown for experimental purposes pursuant to the provision of § 723.738 (b) (2).

(b) Except as provided in paragraph (a) of this section the county office manager shall be responsible for the issuance of marketing cards for farms in the county.

(c) Each marketing card shall be signed either by the State administrative officer or the county office manager or in his name and on his behalf by an employee under his supervision who shall place his initials immediately below the name of the State administrative officer or the name of the county office manager as the case may be.

§ 723.740 *Rights of producers in marketing cards.* Each producer having a share in the tobacco available for marketing from a farm shall be entitled to the use of the marketing card for marketing his proportionate share.

§ 723.741 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from a farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 723.742 *Invalid cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted or incorrect;

(3) It is lost, destroyed, stolen, or becomes illegible; or

(4) Any erasure or alteration has been made and not properly initialed.

(b) In the event any marketing card becomes invalid (other than by loss, destruction, or theft, or by omission, alteration or incorrect entry which has been corrected by the State administrative officer or the county office manager who issued the card), the farm operator, or the person having the card in his possession, shall return it to the ASC office at which it was issued.

(c) If an entry is not made on a marketing card as required, either through omission or incorrect entry, and the proper entry is made and initialed by the State administrative officer or the county office manager who issued the card, then such card shall become valid.

§ 723.743 *Report of misuse of marketing card.* Any information which causes a member of a State, county, or community committee, or an employee of an ASC State or county office, to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the ASC county or State office.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

§ 723.744 *Extent to which marketing from a farm are subject to penalty.* (a) Marketings of tobacco from a farm having no carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows: Divide the acreage of tobacco harvested in excess of the farm acreage allotment and not disposed of under § 723.745 by the total acreage of tobacco harvested from the farm.

(b) Marketings of tobacco from a farm having carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows:

(1) Determine the number of "carry-over acres" by dividing the number of pounds of carry-over tobacco from the prior years by the normal yield for the farm for that year.

(2) Determine the number of "within quota carry-over acres" by multiplying the "carry-over acres" (subparagraph (1) of this paragraph) by the "percent within quota" (i. e., 100 percent minus the "percent excess") for the year in which the carry-over tobacco was produced except that if the excess portion of the carry-over tobacco has been disposed of under § 723.745 the "percent within quota" shall be 100.

(3) Determine the "total acres" of tobacco by adding the "carry-over acres" (subparagraph (1) of this paragraph) and the acreage of tobacco harvested in the current year.

(4) Determine the "excess acres" by subtracting from the "total acres" (subparagraph (3) of this paragraph) the sum of the 1956 allotment and the "within quota carry-over acres" (subparagraph (2) of this paragraph).

(5) Determine the percent excess by dividing the "total acres" into the "excess acres" (subparagraph (4) of this paragraph).

(6) Those persons having an interest in the carry-over tobacco for a farm shall be liable for the payment of any penalty due thereon.

(c) For the purpose of determining the penalty due on each marketing by a producer of tobacco subject to penalty, the converted rate of penalty per pound shall be determined by multiplying the applicable rate of penalty by the percent excess obtained under paragraph (a) or (b) of this section. The memorandum of sale issued to identify each such marketing shall show the amount of penalty due.

§ 723.745 *Disposition of excess tobacco.* (a) The farm operator may elect to give satisfactory proof of disposition of excess tobacco prior to the marketing of any tobacco from the farm by furnishing to the county committee satisfactory proof that excess tobacco representative of the entire crop will not be marketed.

(b) If the 1956 harvested acreage is less than the 1956 allotment an amount of any tobacco from the farm which was placed under storage for a prior marketing year equal to the normal production of the acreage by which the 1956 harvested acreage plus any acreage added with respect to any excess carry-over tobacco for the farm pursuant to § 723.744 (b) is less than the 1956 allotment may be marketed penalty free.

§ 723.746 *Identification of marketings.* Each marketing of tobacco from a farm shall be identified by an executed memorandum of sale from the 1956 marketing card (MQ–76—Tobacco or MQ–77—Tobacco) issued for the farm on which the tobacco was produced.

(a) *Memorandum of sale.* (1) If a memorandum of sale is not issued by the buyer to identify a sale of producer's tobacco by the end of the sale date and recorded and reported on MQ–95, Buyer's Record, by the 10th day of the calendar month next following the month during which the sale date occurred, the marketing shall be identified on MQ–95, Buyer's Record, as a marketing of excess tobacco, and reported not later than the 10th day of the calendar

723.749 Marketings deemed to be excess tobacco.
723.750 Payment of penalty.
723.751 Request for return of penalty.

RECORDS AND REPORTS

723.752 Producer's records and reports.
723.753 Buyer's records.

damage" means any defect which seriously affects the appearance of the lot or the edible or shipping quality of the individual onions. Any one of the following defects shall be considered as serious damage:

(f) "Community committee" means the persons elected within a community as the community committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(g) "Sale" means the first marketing of farm tobacco on which the gross amount of the sales price therefor has been or could be readily determined.

(o) "Sale date" means the date on which the gross amount of the sales price of the first marketing of farm tobacco has been or could be readily determined.

in which any kind of tobacco subject to marketing quotas is normally produced, shall include all acreage of tobacco on the farm, including any acreage which the farm operator may contend is not devoted to the production of tobacco as defined herein. The acreage of each

pressed in tenths of a cent and fractions of less than a tenth shall be dropped, except that if the resulting converted rate of penalty is less than a tenth of a cent, it shall be expressed in hundredths and fractions of less than a hundredth shall be dropped. For example, 3.68

cents per pound would be 3.6 cents, and 0.068 cent per pound would be 0.06 cent.

IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATION OF ACREAGE

§ 723.734 *Identification and location of farms.* (a) Each farm as operated for the 1956 crop of tobacco shall be identified by a farm serial number assigned by the county office manager and all records pertaining to marketing quotas for the 1956 crop of tobacco shall be identified by such number.

(b) A farm shall be regarded as located in the county in which the principay dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

§ 723.735 *Determination of tobacco acreage*—(a) *County committees.* For the purpose of ascertaining with respect to each farm whether there is excess tobacco of the 1956 crop available for marketing, the county committee shall determine the acreage of tobacco on each farm in the county for which a 1956 tobacco acreage allotment has been established and on any other farms in the county on which the county committee has reason to believe tobacco was planted. The county committee's determination shall be based upon a measurement of the acreage made by identification of fields or parts of fields by use of a map, aerial photography, or by means of a steel or metallic tape or chain, or rod and chain, or by use of a measurement wheel when authorized by the Deputy Administrator, or by a combination of one or more of these methods. Such measurement shall be made by an employee of the county committee who has been designated as a reporter and determined by the county office manager to be qualified to carry out the duties of a reporter. The reporter shall visit each farm assigned to him for measurement and enter thereon if such entry will facilitate measurement. The county committee may at any time redetermine the tobacco acreage for any farm and shall, at the request of the State committee, make a redetermination of tobacco acreage for any farm. Such redetermination of tobacco acreage shall supersede any prior determination of tobacco acreage for the farm. A redetermination of tobacco acreage shall be based on measurements made in the manner provided for in this paragraph by either a reporter, county office manager, county performance supervisor, district performance supervisor, or any other employees of the ASC State office who are determined by the State administrative officer to be qualified to perform such measurements. In connection with any measurement of tobacco acreage for any farm made as provided in this paragraph, rechecks and spot checks of such measurements may be made by any of the county and State office employees authorized in this paragraph to perform measurements of farm tobacco acreage.

(b) *Farm operators.* The farm operator or his representative or any producer, at the reporter's request for such information or assistance, shall designate all fields on the farm being utilized for growing tobacco and may assist in measuring the farm, the acreage of cropland in the farm, or the acreage of tobacco being grown on the farm.

(c) *Notice to farm operators.* The county committee shall notify the farm operator of the measured acreage of tobacco on each farm as determined under the provisions of this section.

(d) *Harvested acreage of tobacco.* The acreage of tobacco determined or as redetermined for a farm by the county committee pursuant to this section shall be the harvested acreage of tobacco for the farm for the purpose of issuing the correct marketing card for the farm as provided in § 723.738 unless the farm operator furnishes to the county committee satisfactory proof that a portion of the acreage planted will not be harvested or that a representative portion of the production of the acreage physically harvested will be disposed of other than by marketing, in which case the harvested acreage shall be the acreage as adjusted by taking into account the portion of the acreage planted which will not be harvested or the portion of the production of the acreage physically harvested which will be disposed of other than by marketing.

(e) *Acreage not determined.* If the farm operator or his representative prevents the county committee from obtaining information necessary to determine the correct acreage of tobacco on a farm, in addition to any other liability which might be imposed upon the operator, and until the farm operator or his representative permits a determination of the correct acreage, all acreage of tobacco on the farm shall be deemed to be in excess of the farm acreage allotment for the purpose of issuing a marketing card for the farm.

(f) *Prior measurements.* Measurements made prior to the effective date of this section, and in accordance with procedures then in effect may be utilized where pertinent for the purpose of ascertaining with respect to any farm the 1956 tobacco acreage and the tobacco acreage in excess of the 1956 farm tobacco acreage allotment.

FARM MARKETING QUOTAS AND MARKETING CARDS

§ 723.736 *Amount of farm marketing quota.* (a) The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment as established for the farm in accordance with 1023 (Cigar-Filler and Binder-56)-1, Marketing Quota Regulations 1956–57 (20 F. R. 6059). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the farm acreage allotment.

(b) The excess tobacco on any farm shall be (1) that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the number of acres harvested in excess of the farm acreage allotment, plus (2) any excess carry-over tobacco.

§ 723.737 *Transfer of farm marketing quotas.* There shall be no transfer of farm marketing quotas except as provided in §§ 723.720 and 723.726 of the cigar-filler and binder tobacco marketing quota regulations for determining acreage allotment and normal yields, 1956–57 marketing year.

§ 723.738 *Issuance of marketing cards.* (a) A marketing card shall be issued for each farm having tobacco available for marketing. Subject to the approval of the county office manager or the State administrative officer as provided in § 723.739 two or more marketing cards may be issued for any farm. Upon return to the ASC issuing office of the marketing card after all of the memoranda of sale have been issued therefrom and before the marketing of tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm. A new marketing card of the same kind shall be issued to replace a card which has been determined by the State administrative officer or County office manager, who issued the card to have been lost, destroyed or stolen.

(b) *Within Quota Marketing Card (MQ–76—Tobacco).* A Within Quota Marketing Card authorizing price support loans and the marketing without penalty of any tobacco available for marketing shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco for the farm in 1956 is not in excess of the farm acreage allotment therefor and any excess carry-over tobacco can be marketed without penalty under the provisions of § 723.744 (b) except that if:

(i) More than one kind of tobacco is produced on a farm in 1956 a "zero percent" excess marketing card (ineligible for price support loans) shall be issued for each kind of tobacco for which the harvested acreage is not in excess of the farm acreage allotment if at the time of issuing marketing cards for the farm the harvested acreage of any kind is in excess of the farm acreage allotment;

(ii) For any kind of tobacco produced on a farm in 1956 the acreage of which is in excess of the allotment and the operator or any other producer on the farm fails to file with the county ASC office a written request (with deposit to cover the cost as estimated by the county committee) to dispose of the excess tobacco acreage or to have a remeasurement made of the tobacco acreage within ten (10) days from the date of notice to the farm operator on Form CSS–595—Tobacco, Notice of Excess Tobacco Acreage, a "zero percent" excess marketing card shall be issued for each such kind of tobacco even though the excess acreage is disposed of other than by marketing unless the county committee with the approval of a representative of the State committee determines that the failure to file such written request was due to circumstances beyond the control of the farm operator or producer; or

(iii) Any tobacco is physically harvested from a farm in 1956 from an

acreage in excess of the allotment for the farm and even though it is disposed of in accordance with § 723.745 (a), a "zero percent" excess marketing card shall be issued for each such kind of tobacco, unless the county committee with the approval of a representative of the State committee determines that the acreage of tobacco was not measured in sufficient time to afford the farm operator an opportunity to dispose of the excess acreage prior to harvest.

(2) If the Director of a publicly owned Agricultural Experiment Station furnishes to the ASC State office a list by counties showing with respect to each kind of tobacco and farm on which tobacco is grown for experimental purposes only the following:

(i) Name and address of the publicly owned Experiment Station;

(ii) Name of the owner, and name of the operator if different from the owner, of each farm on which tobacco is grown for experimental purposes only;

(iii) The amount of acreage of tobacco grown on each farm for experimental purposes only;

(iv) A certification signed by the Director of the publicly-owned Agricultural Experiment Station to the effect that: (*a*) Such acreage of tobacco was grown on each farm for experimental purposes only; (*b*) the tobacco was grown under his direction; and (*c*) that the acreage in each plot was considered necessary for carrying out the experiment.

The list required in this subparagraph shall be posted and kept available for public inspection in the ASC office of the county in which the farms included in the list are located.

(c) *Excess Marketing Card (MQ–77—Tobacco).* An Excess Marketing Card (ineligible for price support loans) showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued unless a within quota marketing card is required to be issued for the farm under paragraph (b) of this section, except that if the farm operator or his representative prevents the county committee or its representative from obtaining information necessary to the issuance of the correct marketing card, an excess marketing card shall be issued showing that all tobacco from the farm is subject to the rate of penalty set forth in § 723.747.

§ 723.739 *Persons authorized to issue marketing cards.* (a) The State administrative officer shall be responsible for the issuance of marketing cards issued for the purpose of identifying tobacco grown for experimental purposes pursuant to the provision of § 723.738 (b) (2).

(b) Except as provided in paragraph (a) of this section the county office manager shall be responsible for the issuance of marketing cards for farms in the county.

(c) Each marketing card shall be signed either by the State administrative officer or the county office manager or in his name and on his behalf by an employee under his supervision who shall place his initials immediately below the name of the State administrative officer or the name of the county office manager as the case may be.

§ 723.740 *Rights of producers in marketing cards.* Each producer having a share in the tobacco available for marketing from a farm shall be entitled to the use of the marketing card for marketing his proportionate share.

§ 723.741 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from a farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 723.742 *Invalid cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted or incorrect;

(3) It is lost, destroyed, stolen, or becomes illegible; or

(4) Any erasure or alteration has been made and not properly initialed.

(b) In the event any marketing card becomes invalid (other than by loss, destruction, or theft, or by omission, alteration or incorrect entry which has been corrected by the State administrative officer or the county office manager who issued the card), the farm operator, or the person having the card in his possession, shall return it to the ASC office at which it was issued.

(c) If an entry is not made on a marketing card as required, either through omission or incorrect entry, and the proper entry is made and initialed by the State administrative officer or the county office manager who issued the card, then such card shall become valid.

§ 723.743 *Report of misuse of marketing card.* Any information which causes a member of a State, county, or community committee, or an employee of an ASC State or county office, to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the ASC county or State office.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

§ 723.744 *Extent to which marketing from a farm are subject to penalty.* (a) Marketings of tobacco from a farm having no carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows: Divide the acreage of tobacco harvested in excess of the farm acreage allotment and not disposed of under § 723.745 by the total acreage of tobacco harvested from the farm.

(b) Marketings of tobacco from a farm having carry-over tobacco available for marketing shall be subject to penalty by the percent excess determined as follows:

(1) Determine the number of "carry-over acres" by dividing the number of pounds of carry-over tobacco from the prior years by the normal yield for the farm for that year.

(2) Determine the number of "within quota carry-over acres" by multiplying the "carry-over acres" (subparagraph (1) of this paragraph) by the "percent within quota" (i. e., 100 percent minus the "percent excess") for the year in which the carry-over tobacco was produced except that if the excess portion of the carry-over tobacco has been disposed of under § 723.745 the "percent within quota" shall be 100.

(3) Determine the "total acres" of tobacco by adding the "carry-over acres" (subparagraph (1) of this paragraph) and the acreage of tobacco harvested in the current year.

(4) Determine the "excess acres" by subtracting from the "total acres" (subparagraph (3) of this paragraph) the sum of the 1956 allotment and the "within quota carry-over acres" (subparagraph (2) of this paragraph).

(5) Determine the percent excess by dividing the "total acres" into the "excess acres" (subparagraph (4) of this paragraph).

(6) Those persons having an interest in the carry-over tobacco for a farm shall be liable for the payment of any penalty due thereon.

(c) For the purpose of determining the penalty due on each marketing by a producer of tobacco subject to penalty, the converted rate of penalty per pound shall be determined by multiplying the applicable rate of penalty by the percent excess obtained under paragraph (a) or (b) of this section. The memorandum of sale issued to identify each such marketing shall show the amount of penalty due.

§ 723.745 *Disposition of excess tobacco.* (a) The farm operator may elect to give satisfactory proof of disposition of excess tobacco prior to the marketing of any tobacco from the farm by furnishing to the county committee satisfactory proof that excess tobacco representative of the entire crop will not be marketed.

(b) If the 1956 harvested acreage is less than the 1956 allotment an amount of any tobacco from the farm which was placed under storage for a prior marketing year equal to the normal production of the acreage by which the 1956 harvested acreage plus any acreage added with respect to any excess carry-over tobacco for the farm pursuant to § 723.744 (b) is less than the 1956 allotment may be marketed penalty free.

§ 723.746 *Identification of marketings.* Each marketing of tobacco from a farm shall be identified by an executed memorandum of sale from the 1956 marketing card (MQ–76—Tobacco or MQ–77—Tobacco) issued for the farm on which the tobacco was produced.

(a) *Memorandum of sale.* (1) If a memorandum of sale is not issued by the buyer to identify a sale of producer's tobacco by the end of the sale date and recorded and reported on MQ–95, Buyer's Record, by the 10th day of the calendar month next following the month during which the sale date occurred, the marketing shall be identified on MQ–95, Buyer's Record, as a marketing of excess tobacco, and reported not later than the 10th day of the calendar

month next following the month during which the sale date occurred.

(2) Each excess memorandum of sale issued by a buyer shall be verified by the buyer to determine whether the amount of penalty shown to be due has been correctly computed and such buyer shall not be relieved of any liability with respect to the amount of penalty due because of any error which may occur in issuing the memorandum of sale.

§ 723.747 *Rate of penalty.* Marketings of excess tobacco from a farm shall be subject to a penalty per pound equal to seventy-five (75) percent of the average market price for the 1955–56 marketing year as determined by the Crop Reporting Board, Agricultural Marketing Service, United States Department of Agriculture. The rate of penalty per pound shall be calculated to the nearest whole cent.

(a) *Average market price.* The average market price as determined by the Crop Reporting Board, Agricultural Marketing Service, United States Department of Agriculture, for the 1955–56 marketing year was 32.5 cents per pound.

(b) *Rate of penalty per pound.* The penalty per pound upon marketings of excess tobacco subject to marketing quotas during the 1956–57 marketing year shall be twenty-four (24) cents per pound.

(c) *Proportional rate of penalty.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that percentage of each lot of tobacco marketed which the tobacco available for marketing in excess of the farm quota is of the total amount of tobacco available for marketing from the farm as determined under § 723.744.

§ 723.748 *Persons to pay penalty.* The person to pay the penalty due on any marketing of tobacco subject to penalty shall be determined as follows:

(a) *Sale.* The penalty due on tobacco purchased directly from a producer, other than by a buyer outside the United States, shall be paid by the buyer of the tobacco who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Marketings through an agent.* The penalty due on marketings by a producer through an agent who is not a buyer shall be paid by the agent who may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Marketings outside the United States.* The penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer.

§ 723.749 *Marketings deemed to be excess tobacco.* Any marketing of tobacco under any one of the following conditions shall be deemed to be a marketing of excess tobacco:

(a) *Without memorandum of sale.* Any sale of tobacco by a producer which is not identified by a valid memorandum of sale by the end of the sale date shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the buyer who may deduct an amount equivalent to the penalty from the amount due the producer.

(b) *Unrecorded sale.* Any sale which is not recorded in MQ–95—Tobacco by the 10th day of the month next following the month during which the sale date occurred, shall be deemed to be a marketing of excess tobacco unless and until the buyer furnishes proof acceptable to the State administrative officer showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the buyer.

(c) *Marketings falsely identified.* If any marketing of tobacco by a person other than the producer thereof is identified by a marketing card other than the marketing card issued for the farm on which such tobacco was produced, such marketing shall be deemed to be a marketing of excess tobacco and the penalty thereon shall be paid by such person.

(d) *Producer marketings.* (1) If any producer falsely identifies or fails to account for the disposition of any tobacco produced on a farm, an amount of tobacco equal to the normal yield of the number of acres harvested in 1956 in excess of the farm acreage allotment shall be deemed to have been a marketing of excess tobacco from such farm. If any producer who manufactures tobacco products from tobacco produced by or for him fails to make the reports, or makes a false report, required under § 723.752 (c), he shall be deemed to have failed to account for the disposition of tobacco produced on the farm and shall be subject to penalty on such tobacco. The penalty thereon for false identification or failure to account shall be paid by the producer and shall be due on the date of false identification or failure to account. The filing of a report by a producer under § 723.752 (c) or (d) which the State committee finds to be incomplete or incorrect shall constitute a failure to account for the disposition of tobacco produced on the farm.

(2) If, after part or all of the tobacco produced on a farm has been marketed, the State or county committee concludes that the harvested acreage for the farm was more than that shown by the prior determination any penalty due on the basis of the harvested acreage as redetermined pursuant to § 723.735 shall be paid by the producer.

§ 723.750 *Payment of penalty.* (a) Penalties shall become due at the time the tobacco is marketed, except in the case of tobacco removed from storage as provided in § 723.745 (b), or in the case of false identification or failure to account for disposition. Penalty shall be paid by remitting the amount thereof to the ASC State office not later than the 10th day of the calendar month next following the month in which the tobacco became subject to penalty. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to payment at par.

(b) The penalty due on any sale of tobacco by a producer as determined under §§ 723.730 to 723.762 shall be paid as specified in § 723.748 even though the penalty may exceed the proceeds for the tobacco.

§ 723.751 *Request for return of penalty.* Any producer of tobacco after the marketing of all tobacco available for marketing from the farm and any other person who bore the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount required under §§ 723.730 to 723.762 to be paid. Such request shall be filed on MQ–85—Tobacco with the ASC county office within two (2) years after the payment of the penalty.

RECORDS AND REPORTS

§ 723.752 *Producer's records and reports.*—(a) *Report of tobacco acreage.* The farm operator or his representative shall file a report with the ASC county office or a representative of the county committee on Form CSS–578, Report of 1956 Acreage, showing all fields of tobacco on the farm in 1956. If any producer on a farm files or aids or acquiesces in the filing of any false report with respect to the acreage of tobacco grown on the farm even though the farm operator or his representative refuses to sign such report the allotment next established for such farm shall be reduced as provided in the cigar-filler and binder tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year.

(b) *Report on marketing card.* The operator of each farm on which tobacco is produced in 1956 shall return to the ASC county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than June 1, 1957. Failure to return the marketing card within fifteen (15) days after written request by certified mail from the county office manager shall constitute failure to account for disposition of tobacco marketed from the farm and in the event that a satisfactory account of such disposition is not furnished otherwise to the county committee, the allotment next established for such farm shall be reduced as provided in the cigar-filler and binder tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year. The county office manager or the State administrative officer who issued the marketing card may reissue the same marketing card or issue a new marketing card for any farm from which the marketing of tobacco has not been completed by June 1, 1957.

(c) *Reports by producer-manufacturers.* (1) Each producer who manufactures tobacco products from tobacco produced by or for him as a producer shall report to the ASC State office as follows with respect to such tobacco.

(i) If the 1956 harvested acreage is not in excess of the 1956 farm tobacco acreage allotment: The producer-manufacturer shall furnish the ASC State office a report, as soon as the tobacco has been weighed, and not later than the date specified in writing by the State administrative officer, showing the total pounds of tobacco produced, the date(s) on which such tobacco was weighed, the farm serial number of the farm on which it was produced, and the estimated value of such tobacco.

(ii) If the 1956 harvested acreage is in excess of the 1956 farm acreage allotment: The producer-manufacturer shall furnish the ASC State office a report, as soon as the tobacco has been weighed, and not later than the date specified in writing by the State administrative officer, showing the total pounds of tobacco produced on the farm, the date(s) on which the tobacco was weighed, the farm serial number of the farm on which it was produced, the estimated value of the tobacco, and the location of the tobacco. Unless it has become penalty free under circumstances described in § 723.744 (b), or unless he makes the reports outlined in this section, penalty shall be paid on the tobacco by the producer-manufacturer, at the converted rate of penalty shown on the marketing card issued for the farm, when it is moved from the place where it can be conveniently inspected by the county committee at any time separate and apart from any other tobacco.

(2) If the producer-manufacturer has excess tobacco and does not pay the penalty thereon at the converted rate of penalty shown on the marketing card, as provided in this section, he shall notify the buyer of the manufactured product, or the buyer of any residue resulting from processing the tobacco, in writing, at time of sale of such product or residue of the precise amount of penalty due on such manufactured product or residue. In such event, the producer-manufacturer shall immediately notify the Director and shall account for the disposition of such tobacco by furnishing the Director a report, on a form to be furnished him by the Director, showing the name and address of the buyer of the manufactured products or residue, a detailed account of the disposition of such tobacco and the exact amounts of penalty due with respect to each such sale of such products or residue, together with copies of the written notice of the exact amounts of the penalty due given to the buyers of such products or residue. Failure to file such report or the filing of a report which is found by the State committee to be incomplete or incorrect shall constitute failure of the producer-manufacturer to account for the production and disposition of tobacco produced on his farm and in the event of such failure the allotment next established for such farm shall be reduced as provided in the cigar-filler and binder tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year, and the producer-manufacturer shall be liable for the payment of penalty as provided in § 723.749 (d).

(3) The reports required by this paragraph shall be in addition to the reports required by paragraph (a) of this section with respect to tobacco produced by or for the producer-manufacturer but not used by him in the manufacture of products therefrom.

(d) *Report of production and disposition.* In addition to any other reports which may be required under §§ 723.730 to 723.762, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment or even though no allotment was established for the farm) shall upon written request by certified mail from the State administrative officer within fifteen days after the deposit of such request in the United States mails, addressed to such person at his last known address, furnish the Secretary on Form MQ–108—Tobacco a written report of the acreage, production and disposition made of all tobacco produced on the farm by sending the same to the ASC State office showing, as to the farm at the time of filing said report,

(1) The number of fields (patches or areas) from which tobacco was harvested, the acres of tobacco harvested from each such field, and the total acreage to tobacco harvested from the farm,

(2) The total pounds of tobacco produced,

(3) The amount of tobacco on hand and its location, and

(4) As to each lot of tobacco marketed, the name and address of the buyer or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price and the date of the marketing. Failure to file the report as requested, or the filing of a report which is found by the State committee to be incomplete or incorrect, shall constitute failure of the producer to account for disposition of tobacco produced on the farm and the allotment next established for such farm shall be reduced as provided in the cigar-filler and binder tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year.

§ 723.753 *Buyer's records.*—(a) *Record of marketing.* (1) Each buyer shall keep such records as will enable him to furnish the ASC State office with respect to each sale of tobacco made by producers to such buyer the following information:

(i) The name of the operator of the farm on which the tobacco was produced and the name of the seller and the seller's address in the case of a sale by a person other than the farm operator.

(ii) Date of sale.

(iii) The serial number of the memorandum of sale used to identify the sale.

(iv) Number of pounds sold.

(v) Gross sale price.

(vi) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s).

(2) Any buyer or any other person who grades tobacco for farmers shall maintain records which will enable him to furnish the ASC State office the name of the farm operator and the amount of each grade of tobacco obtained from the grading of tobacco from each farm.

(b) *Identification of sale on buyer's records.* The serial number of the memorandum of sale issued to identify each sale by a producer shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco. The serial number of such memorandum shall also be entered on the buyer's copy of the receipt furnished the producer by the buyer, or the buyer's copy of the contract to purchase, or on the document customarily used in recording the purchase, and on MQ–95—Tobacco.

(c) *Marketing card and memorandum of sale.* A valid memorandum of sale to cover each sale of tobacco by a producer shall be properly issued by the buyer. The buyer shall also properly record the sale on the marketing card.

(d) *Records of buyer's disposition of tobacco.* Each buyer shall maintain records which will show the disposition made by him of all tobacco purchased by or for him from producers.

(e) *Additional records and reports by buyers.* Each buyer shall keep such records and furnish such reports to the ASC State office, in addition to the foregoing, as the State administrative officer may find necessary to insure the proper identification of the marketings of tobacco and the collection of penalties due thereon as provided in §§ 723.730 to 723.762.

§ 723.754 *Buyer's reports.*—(a) *Report of buyer's name, address, and registration number.* Each buyer shall properly execute, detach and promptly forward to the ASC State office "Receipt for Buyer's Record" contained in MQ–95—Tobacco which is issued to the buyer.

(b) *Record and report of purchases of tobacco from producers.* (1) Each buyer shall keep a record and make reports on MQ–95—Tobacco, Buyer's Record, showing all purchases of tobacco made by or for him from producers. Such record and report shall show for each sale, the sale date, the name of the farm operator (and the name and address of the person selling the tobacco if other than the farm operator), the serial number of the memorandum of sale issued with respect to the sale, the pounds of tobacco represented in the sale, the gross amount; the rate of penalty shown on the memorandum of sale, and the amount of the penalty. If no marketing card is presented by the producer, the buyer shall record and report the purchase as provided above except that the buyer shall enter the word "none" in the space for the serial number of the memorandum of sale, the penalty rate of twenty-four cents per pound in the space for rate of penalty, and shall show the name and address of the seller in the space for the seller's name.

(2) The original of MQ–95—Tobacco, the memoranda of sale, and a remittance for all penalties shown by the entries on MQ–95—Tobacco and on the memoranda of sale to be due shall be forwarded to the ASC State office not later than the 10th day of the calendar month next following the month during which the sale date occurred.

§ 723.755 *Buyers not exempt from regular records and reports.* No buyer shall be exempt from keeping the records and making the reports required by the regulations in this part. Any organization which receives tobacco from producers for (a) the purpose of selling it for the producer, or (b) the purpose of placing it under a Federal loan, shall keep the records, make the reports, and

remit penalties in case of receiving such tobacco for sale, as required in §§ 723.730 to 723.762 for buyers.

§ 723.756 *Records and reports of truckers and persons sorting, stemming, packing, or otherwise processing tobacco.* (a) Each person engaged to any extent in the business of trucking or hauling tobacco for producers to a point where it may be marketed or otherwise disposed of in the form and in the condition in which it is usually marketed by producers shall keep such records as will enable him to furnish the ASC State office a report with respect to each lot of tobacco received by him showing:

(1) The name and address of the farm operator,

(2) The date of receipt of the tobacco,

(3) The number of pounds received, and

(4) The name and address of the person to whom it was delivered.

(b) Each person engaged to any extent in the business of sorting, stemming, packing, or otherwise processing tobacco for producers shall keep such records as will enable him to furnish the Director a report showing:

(1) The information required above for truckers, and in addition,

(2) The purpose for which the tobacco was received,

(3) The amount of advance made by him on the tobacco, and

(4) The disposition of the tobacco.

§ 723.757 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a buyer or as a person engaged in the business of sorting, stemming, packing, or otherwise processing tobacco for producers and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 723.758 *Failure to keep records or make reports.* Any buyer, trucker, or person engaged in the business of sorting, stemming, packing, or otherwise processing tobacco for producers, who fails to make any report or keep any record as required under §§ 723.730 to 723.762 or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco buyer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under these regulations within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco buyer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him, or both. Notice of any violation by a buyer or trucker shall be given by the State administrative officer and notice of violation by a person engaged in the business of sorting, stemming, packing, or otherwise processing tobacco for producers shall be given by the Director.

§ 723.759 *Additional records and reports to Director.* Any buyer, trucker, or person engaged in the business of sorting, stemming, packing or otherwise processing tobacco for producers shall, in addition to any records required to be kept or any reports required to be made, under §§ 723.730 to 723.762, keep such records and make such reports to the Director as he may find necessary to enforce §§ 723.730 to 723.762.

§ 723.760 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report but not so furnished, any buyer, trucker, or person engaged in the business of sorting, stemming, packing, or otherwise processing tobacco for producers shall make available for examination by employees of the ASC State office, and by employees of the Compliance and Investigation Division, Audit Division, and of the Tobacco Division of the Commodity Stabilization Service, United States Department of Agriculture, upon written request by the State administrative officer or Director, such books, papers, records, accounts, correspondence, contracts, checks, check registers, check stubs, and documents and memoranda as the State administrative officer or Director has reason to believe are relevant and are within the control of such person.

§ 723.761 *Length of time records and reports to be kept.* Records required to be kept and copies of the reports required to be made by any person under §§ 723.730 to 723.762 for the 1956–57 marketing year shall be kept by him until September 30, 1959. Records shall be kept for such longer period of time as may be requested in writing by the State administrative officer or the Director.

§ 723.762 *Information confidential.* All data reported to or acquired by the Secretary pursuant to the provisions of §§ 723.730 to 723.762 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members of county and community committees and all ASC county office employees and only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of tho act.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 16th day of August 1956. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 56-6745; Filed, Aug. 20, 1956; 8:50 a. m.]

[1026 (Maryland-56)-1]

PART 727—MARYLAND TOBACCO

MARYLAND TOBACCO MARKETING QUOTA REGULATIONS, 1956–57 MARKETING YEAR

GENERAL

Sec.
727.730 Basis and purpose.
727.731 Definitions.
727.732 nstructions and forms.
727.733 Extent of calculations and rule of fractions.

IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATION OF ACREAGE

727.734 Identification and location of farms.
727.735 Determination of tobacco acreage.

FARM MARKETING QUOTAS AND MARKETING CARDS

727.736 Amount of farm marketing quota.
727.737 Transfer of farm marketing quota.
727.738 Issuance of marketing cards.
727.739 Person authorized to issue marketing cards.
727.740 Rights of producers in marketing cards.
727.741 Successors in interest.
727.742 Invalid cards.
727.743 Report of misuse of marketing cards.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

727.744 Extent to which marketings from a farm are subject to penalty.
727.745 Disposition of excess tobacco.
727.746 Identification of marketings.
727.747 Rate of penalty.
727.748 Persons to pay penalty.
727.749 Marketings deemed to be excess tobacco.
727.750 Payment of penalty.
727.751 Request for return of penalty.

RECORDS AND REPORTS

727.752 Producer's records and reports.
727.753 Warehouseman's records and reports.
727.754 Dealer's records and reports.
727.755 Dealers exempt from regular records and reports.
727.756 Records and reports of truckers and persons redrying, prizing or stemming tobacco.
727.757 Separate records and reports from persons engaged in more than one business.
727.758 Failure to keep records or make reports.
727.759 Additional records and reports to Director.
727.760 Examination of records and reports.
727.761 Length of time records and reports are to be kept.
727.762 Information confidential.

AUTHORITY: §§ 727.730 to 727.762 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply 52 Stat. 38, 47, 48, 65, 66, as amended; 7 U. S. C. 1301, 1313, 1314, 1372, 1373, 1374, 1375.

GENERAL

§ 727.730 *Basis and purpose.* Sections 727.730 to 727.762 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the issuance of marketing cards, the identification of tobacco; the collection and refund of penalties,, and the records and reports incident thereto on the marketing of Maryland tobacco during the 1956–57 marketing year. Prior to preparing §§ 727.730 to 727.762, public notice (21 F. R. 5294) of their formulation was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to §§ 727.730 to 727.762, which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 727.731 *Definitions.* As used in §§ 727.730 to 727.762 and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended.

(b) "Carry-over" tobacco means, with respect to a farm, tobacco produced prior to the beginning of the calendar year 1956, which has not been marketed or which has not been disposed of under § 727.745.

(c) "Committees":

(1) "Community committee" means the persons elected within a community as the community committee pursuant to the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(2) "County committee" means the persons elected within a county as the county committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(3) "State committee" means the persons designated by the Secretary as Agricultural Stabilization and Conservation State committee.

(d) "County office manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operations of the ASC county office, or the person acting in such capacity.

(e) "Dealer" or "buyer" means a person who engages to any extent in the business of acquiring tobacco from producers without regard to whether such person is registered as a dealer with the Bureau of Internal Revenue or any other authority.

(f) "Deputy Administrator" means the Deputy Administrator or the Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(g) "Director" means Director or Acting Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(h) "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

(i) "Field Assistant" means any duly authorized employee of the United States Department of Agriculture, and any duly authorized employee of an ASC county office whose duties involve the preparation and handling of records and reports pertaining to tobacco marketing quotas. In a hogshead tobacco warehouse, a person officially authorized by an individual, association, or firm who engages in receiving tobacco from farmers and who assists in the sale of such tobacco through such warehouse to keep records and make reports for such individual, association, or firm with respect to sales of tobacco through the warehouse, shall perform the functions hereinafter prescribed for field assistants.

(j) "Floor sweepings" means scraps, leaves, or bundles of tobacco, generally of inferior quality, which accumulate on the warehouse floor and which not being subject to identification with any particular lot of tobacco are gathered up by the warehouseman for sale. Floor sweepings shall not include tobacco defined as "pick-ups."

(k) "Leaf account tobacco" means all tobacco purchased by or for a warehouseman and "leaf account" shall include the records required to be kept and copies of the reports required to be made under §§ 727.730 to 727.762 relating to tobacco purchased by or for a warehouseman and resales of such tobacco.

(l) "Market" means the disposition in raw or processed form of tobacco by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. "Marketing" and "marketed" shall have corresponding meanings to the term "market."

(m) "Nonwarehouse sale" means any first marketing of farm tobacco other than (1) by sale at public auction through a warehouse, or (2) by sale through a hogshead tobacco warehouse to a buyer other than the warehouseman, in the regular course of business.

(n) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(o) "Person" means an individual, partnership, association, corporation, estate or trust, or other business enterprise or other legal entity, and wherever applicable, a State, a political subdivision of a State or any agency thereof.

(p) Pick-ups means:

(1) "Pickups (a)" which is any tobacco sorted and reclaimed from leaves or bundles which have fallen to the warehouse floor in the usual course or business, or

(2) "Pickups (b)" which is any tobacco previously purchased at auction but not delivered to the buyer because of rejection by the buyer, lost ticket, or any other reason, and which is not turned back to a dealer other than the warehouseman, and shall include tobacco delivered to the buyer but returned by the buyer to the warehouseman, and which is not turned back by the warehouseman to a dealer.

(q) "Producer" means a person who, as owner, landlord, tenant, sharecropper, or laborer is entitled to share in the tobacco available for marketing from the farm or in the proceeds thereof.

(r) "Pound of tobacco" means one pound of tobacco weighed in its unstemmed form and in the condition in which it is usually marketed by producers.

(s) "Resale" means the disposition by sale, barter, exchange, or gift inter vivos, of tobacco which has been marketed previously.

(t) "Sale day" means the period at the end of which the warehouseman bills to buyers the tobacco so purchased during such period.

(u) "Scrap tobacco" means the residue which accumulates in the course of preparing tobacco for market, consisting chiefly of portions of tobacco leaves and leaves of poor quality.

(v) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(w) "State administrative officer" means the person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the ASC State office, or the person acting in such capacity.

(x) "Suspended sale" means any first marketing of farm tobacco at a warehouse sale for which a memorandum of sale is not issued by the end of the sale day on which such marketing occurred.

(y) "Tobacco" means Maryland tobacco, type 32, as classified in the Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture.

(l) Any tobacco that has the same characteristics and corresponding qualities, colors, and lengths as Maryland tobacco shall be considered Maryland tobacco regardless of any factors of historical or geographical nature which cannot be determined by examination of the tobacco.

(2) For the purpose of discovering and identifying all tobacco subject to marketing quotas the term "tobacco" with respect to any farm located in an area in which any kind of tobacco subject to marketing quotas is normally produced, shall include all acreage of tobacco on the farm. The acreage of each kind of tobacco shall be determined by the county committee on the basis of seeding, cultivating, curing, and marketing practices commonly known to the area. Such determination shall include all acreage of tobacco on the farm. The production of the acreage of each kind of tobacco so determined shall be

considered to be tobacco of the kind available for marketing until such time as the operator of the farm furnishes to the county committee satisfactory proof that a part or all of the production of such acreage has been classified pursuant to Part 29 of this title when marketed, as a different kind of tobacco. Any amount of tobacco so classified as a different kind shall be converted to acres on the basis of the average yield per acre of the entire acreage of tobacco grown on the farm in 1956 for the purpose of determining the harvested acreage of such kind of tobacco produced on the farm.

(3) Notwithstanding the foregoing definition of "tobacco" and the other provisions of §§ 727.730 to 727.762, inclusive, tobacco in hogsheads which at the close of business on September 30, 1956, is or was on such date physically in the State Tobacco Warehouse, Baltimore, Maryland, and which was produced prior to 1956, shall not be considered to be "tobacco" within the meaning of this subpart if the hogshead tobacco warehouseman has furnished a report to the ASC State committee showing the quantity of such tobacco and identifying symbols which identify each lot of such tobacco.

(z) "Tobacco available for marketing" means all tobacco produced on the farm in the calendar year 1956 plus any carry-over tobacco, less any tobacco disposed of in accordance with § 727.745.

(aa) "Tobacco subject to marketing quotas" means any Maryland tobacco marketed during the period October 1, 1956 to September 30, 1957, inclusive, and any Maryland tobacco produced in the calendar year 1956 and marketed prior to October 1, 1956.

(bb) "Trucker" means a person who engages to any extent in the business of trucking or hauling tobacco for producers to a point where it may be marketed or otherwise disposed of in the form and in the condition in which it is usually marketed by producers.

(cc) "Warehouseman" means a person who engages to any extent in the business of holding sales of tobacco at public auction at a warehouse. The term shall also include an individual, association, or firm who engages in receiving tobacco from farmers at the State Tobacco Warehouse, Baltimore, Maryland, and who assists in the sale of such tobacco through such warehouse.

(dd) "Warehouse sale" means a marketing of tobacco by a sale at public auction through a warehouse in the regular course of business, and shall include all lots or baskets marketed in sequence at a given time. The term shall also include each marketing of farm tobacco through a hogshead tobacco warehouse to a buyer other than the warehouseman and each marketing of resale tobacco through such warehouse.

§ 727.732 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions with respect to internal management as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by the Deputy Administrator.

§ 727.733 *Extent of calculations and rule of fractions.* (a) The acreage of tobacco harvested on a farm in 1956 shall be expressed in hundredths and fractions of less than one hundredth of an acre shall be dropped. For example, 4.550, 4.555 or 4.559 acres would be 4.55 acres.

(b) The percentage of excess tobacco available for marketing from a farm, hereinafter referred to as the "percent excess," shall be expressed in tenths and fractions of less than one-tenth shall be dropped. For example, 12.59 percent would be 12.5 percent.

(c) The amount of penalty per pound upon marketings of tobacco subject to penalty, hereinafter referred to as the "converted rate of penalty," shall be expressed in tenths of a cent and fractions of less than a tenth shall be dropped, except that if the resulting converted rate of penalty is less than a tenth of a cent, it shall be expressed in hundredths and fractions of less than a hundredth shall be dropped. For example, 3.68 cents per pound would be 3.6 cents and 0.068 cent per pound would be 0.06 cent.

IDENTIFICATION AND LOCATION OF FARMS AND DETERMINATION OF ACREAGE

§ 727.734 *Identification and location of farms.* (a) Each farm as operated for the 1956 crop of tobacco shall be identified by a farm serial number assigned by the county office manager and all records pertaining to marketing quotas for the 1956 crop of tobacco shall be identified by such number.

(b) A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

§ 727.735 *Determination of tobacco acreage*—(a) *County committees.* For the purpose of ascertaining with respect to each farm whether there is excess tobacco of the 1956 crop available for marketing, the county committee shall determine the acreage of tobacco on each farm in the county for which a 1956 tobacco acreage allotment has been established and on any other farms in the county on which the county committee has reason to believe tobacco was planted. The county committee's determination shall be based upon a measurement of the acreage made by identification of fields or parts of fields by use of a map, aerial photography, or by means of a steel or metallic tape or chain, or rod and chain, or by use of a measurement wheel when authorized by the Deputy Administrator or by a combination of one or more of these methods. Such measurement shall be made by an employee of the county committee who has been designated as a reporter and determined by the county office manager to be qualified to carry out the duties of a reporter. The reporter shall visit each farm assigned to him for measurement and enter thereon if such entry will facilitate measurement. The county committee may at any time redetermine the tobacco acreage for any farm and shall, at the request of the State committee, make a redetermination of tobacco acreage for any farm. Such redetermination of tobacco acreage shall supersede any prior determination of tobacco acreage for the farm. A redetermination of tobacco acreage shall be based on measurements made in the manner provided for in this paragraph by either a reporter, county office manager, county performance supervisor, or any other employees of the ASC State office who are determined by the State administrative officer to be qualified to perform such measurements. In connection with any measurement of tobacco acreage for any farm made as provided in this paragraph, rechecks and spot checks of such measurements may be made by any of the county and State office employees authorized in this paragraph to perform measurements of farm tobacco acreage.

(b) *Farm operators.* The farm operator or his representative or any producer, at the reporter's request for such information or assistance, shall designate all fields on the farm being utilized for growing tobacco and may assist in measuring the farm, the acreage of cropland in the farm, or the acreage of tobacco being grown on the farm.

(c) *Notice to farm operators.* The county committee shall notify the farm operator of the measured acreage of tobacco on each farm as determined under the provisions of this section.

(d) *Harvested acreage of tobacco.* The acreage of tobacco determined or as redetermined for a farm by the county committee pursuant to this section shall be the harvested acreage of tobacco for the farm for the purpose of issuing the correct marketing card for the farm as provided in § 727.738 unless the farm operator furnishes to the county committee satisfactory proof that a portion of the acreage planted will not be harvested or that a representative portion of the production of the acreage physically harvested will be disposed of other than by marketing, in which case the harvested acreage shall be the acreage as adjusted by taking into account the portion of the acreage planted which will not be harvested or the portion of the production of the acreage physically harvested which will be disposed of other than by marketing.

(e) *Acreage not determined.* If the farm operator or his representative prevents the county committee from obtaining information necessary to determine the correct acreage of tobacco on a farm, in addition to any other liability which might be imposed upon the operator, and until the farm operator or his representative permits a determination of the correct acreage, all acreage of tobacco on the farm shall be deemed to be in excess of the farm acreage allotment for the purpose of issuing a marketing card for the farm.

(f) *Prior measurements.* Measurements made prior to the effective date of this section, and in accordance with procedures then in effect may be utilized where pertinent for the purpose of ascertaining with respect to any farm the 1956 tobacco acreage and the tobacco acreage in excess of the 1956 farm tobacco acreage allotment.

FARM MARKETING QUOTAS AND MARKETING CARDS

§ 727.736 *Amount of farm marketing quota.* (a) The marketing quota for a farm shall be the actual production of tobacco on the farm acreage allotment, as established for the farm in accordance with §§ 727.711 to 727.728, 1023 (Maryland–56)–1, Maryland Tobacco Marketing Quota Regulations, 1956–57 (20 F. R. 6069). The actual production of the farm acreage allotment shall be the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the farm acreage allotment.

(b) The excess tobacco on any farm during the 1956–57 marketing year shall be that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1956 times the number of acres harvested in excess of the 1956 farm acreage allotment. (The excess tobacco on any farm during the 1957–58 marketing year will be (1) that quantity of tobacco which is equal to the average yield per acre of the entire acreage of tobacco harvested on the farm in 1957 times the number of acres harvested in excess of the 1957 farm acreage allotment, plus (2) any excess carry-over tobacco for the farm.)

§ 727.737 *Transfer of farm marketing quota.* There shall be no transfer of farm marketing quotas except as provided in §§ 727.720 and 727.726 of the Maryland tobacco marketing quota regulations for determining acreage allotments and normal yields, 1956–57 marketing year.

§ 727.738 *Issuance of marketing cards.* (a) A marketing card shall be issued for each farm having 1956 crop tobacco available for marketing. Subject to the approval of the county office manager or the State administrative officer as provided in § 727.739, two or more marketing cards may be issued for any farm for use in marketing 1956 crop tobacco produced on the farm. All entries on each marketing card shall be made in accordance with the instructions for issuing marketing cards. Upon the return to the ASC Issuing Office of the marketing card issued with respect to the 1956 crop after all of the memoranda of sale have been issued therefrom and before the marketing of the 1956 crop tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm for use in marketing 1956 crop tobacco produced on the farm. A new marketing card of the same kind shall be issued to replace a card which has been determined by the State administrative officer or the county office manager, who issued the card, to have been lost, destroyed or stolen.

(b) A marketing card shall be issued for each farm having carry-over tobacco available for marketing. Such card shall be marked "Carry-over", shall show the number of pounds and location of such carry-over tobacco as of October 1, 1956, and shall be signed by the farm operator. Subject to the approval of the county office manager or the State administrative officer as provided in § 727.739, two or more marketing cards, so marked and signed, may be issued for any farm for use in marketing carry-over tobacco. All entries on each marketing card shall be made in accordance with the instructions for issuing marketing cards. Upon the return to the issuing office of the marketing card issued with respect to carry-over tobacco after all of the memoranda of sale have been issued therefrom and before the marketing of the carry-over tobacco from the farm has been completed, a new marketing card of the same kind, bearing the same name, information and identification as the used card shall be issued for the farm for use in marketing carry-over tobacco from the farm. A new marketing card of the same kind shall be issued to replace a card which has been determined by the county office manager or State administrative officer who issued the card to have been lost, destroyed or stolen.

(c) *Within quota marketing card (MQ–76—Tobacco).* A Within Quota Marketing Card authorizing price support loans and the marketing without penalty of the 1956 crop tobacco available for marketing shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco for the farm in 1956 is not in excess of the farm acreage allotment therefor and any excess carry-over tobacco can be marketed without penalty under the provisions of § 727.744 (b) except that if:

(i) More than one kind of tobacco is produced on a farm in 1956 a "zero percent" excess marketing card (ineligible for price support loans) shall be issued for each kind of tobacco for which the harvested acreage is not in excess of the farm acreage allotment if at the time of issuing marketing cards for the farm the harvested acreage of any kind is in excess of the farm acreage allotment;

(ii) For any kind of tobacco produced on a farm in 1956 the acreage of which is in excess of the allotment and the operator or any other producer on the farm fails to file with the county ASC office a written request (with deposit to cover the cost as estimated by the county committee) to dispose of the excess tobacco acreage or to have a remeasurement made of the tobacco acreage within ten (10) days from the date of notice to the farm operator on Form CSS–595—Tobacco, Notice of Excess Tobacco Acreage, a "zero percent" excess marketing card shall be issued for each such kind of tobacco even though the excess acreage is disposed of other than by marketing unless the county committee with the approval of a representative of the State committee determines that the failure to file such written request was due to circumstances beyond the control of the farm operator or producer; or

(iii) Any tobacco is physically harvested from a farm in 1956 from an acreage in excess of the allotment for the farm and even though it is disposed of in accordance with § 727.745 (a), a "zero percent" excess marketing card shall be issued for each such kind of tobacco, unless the county committee with the approval of a representative of the State committee determines that the acreage of tobacco was not measured in sufficient time to afford the farm operator an opportunity to dispose of the excess acreage prior to harvest.

(2) If the Director of a publicly-owned Agricultural Experiment Station furnishes to the ASC State office a list by counties showing with respect to each kind of tobacco and farm on which tobacco is grown for experimental purposes only the following:

(i) Name and address of the publicly-owned Experiment Station;

(ii) Name of the owner, and name of the operator if different from the owner, of each farm on which tobacco is grown for experimental purposes only;

(iii) The amount of acreage of tobacco grown on each farm for experimental purposes only;

(iv) A certification signed by the Director of the publicly-owned Agricultural Experiment Station to the effect that: (*a*) Such acreage of tobacco was grown on each farm for experimental purposes only; (*b*) the tobacco was grown under his direction; and (c) that the acreage in each plot was considered necessary for carrying out the experiment.

The list required in this subparagraph shall be posted and kept available for public inspection in the ASC office of the county in which the farms included in the list are located.

(d) *Within Quota Marketing Card (MQ–76—Tobacco) marked "Carry-Over".* A Within Quota Marketing Card marked "Carry-Over" authorizing the marketing without penalty of carry-over tobacco only from the farm shall be issued for a farm with respect to which there is carry-over tobacco.

(e) *Excess Marketing Card (MQ–77—Tobacco).* An Excess Marketing Card (ineligible for price support loans) showing the extent to which marketings of 1956 crop tobacco from a farm are subject to penalty shall be issued unless a within quota marketing card is required to be issued for the farm under paragraph (c) of this section, except that if the farm operator or his representative prevents the county committee or its representative from obtaining information necessary to the issuance of the correct marketing card for the 1956 crop, an excess marketing card shall be issued showing that all the 1956 crop tobacco from the farm is subject to the rate of penalty determined by the Secretary pursuant to § 727.747.

§ 727.739 *Persons authorized to issue marketing cards.* (a) The State administrative officer shall be responsible for the issuance of marketing cards for the purpose of identifying tobacco grown for experimental purposes pursuant to the provisions of § 727.738 (c) (2).

(b) Except as provided in paragraph (a) of this section the county office manager shall be responsible for the issuance of marketing cards for farms in the county.

(c) Each marketing card shall be signed either by the State administrative officer or the county office manager or in his name and on his behalf by an employee under his supervision who shall

place his initials immediately below the name of the State administrative officer or the name of the county office manager as the case may be.

§ 727.740 *Rights of producers in marketing cards.* Each producer having a share in the tobacco available for marketing from a farm shall be entitled to the use of the marketing card issued for the farm for marketing his proportionate share.

§ 727.741 *Successors in interest.* Any person who succeeds in whole or in part to the share of a producer in the tobacco available for marketing from a farm shall, to the extent of such succession, have the same rights as the producer to the use of the marketing card for the farm.

§ 727.742 *Invalid cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted or incorrect;

(3) It is lost, destroyed, stolen, or becomes illegible; or

(4) Any erasure or alteration has been made, and not properly initialed.

(b) In the event any marketing card becomes invalid (other than by loss, destruction, or theft, or by omission, alteration or incorrect entry which cannot be corrected by a field assistant), the farm operator, or the person having the card in his possession, shall return it to the ASC county office at which it was issued.

(c) If any entry is not made on a marketing card as required, either through omission or incorrect entry, and the proper entry is made and initialed by a field assistant, then such card shall become valid.

§ 727.743 *Report of misuse of marketing card.* Any information which causes a field assistant, a member of a State, county, or community committee, or an employee of an ASC State or county office, to believe that any tobacco which actually was produced on one farm has been or is being marketed under the marketing card issued for another farm shall be reported immediately by such person to the ASC county or State office.

MARKETING OR OTHER DISPOSITION OF TOBACCO AND PENALTIES

§ 727.744 *Extent to which marketings from a farm are subject to penalty.* (a) Marketings of 1956 crop tobacco from a farm shall be subject to penalty by the percent excess determined as follows: Divide the acreage of tobacco harvested in excess of the farm acreage allotment and not disposed of under § 727.745 by the total acreage of tobacco harvested from the farm.

(b) For the purpose of determining the penalty due on each marketing by a producer of tobacco subject to penalty, the converted rate of penalty per pound shall be determined by multiplying the rate of penalty determined by the Secretary pursuant to § 727.747 by the percent excess obtained under paragraph (a) of this section. The memorandum of sale issued to identify each such marketing shall show the amount of penalty due.

§ 727.745 *Disposition of excess tobacco.* The farm operator may elect to give satisfactory proof of disposition of excess tobacco prior to the marketing of any 1956 crop tobacco from the farm by furnishing to the county committee satisfactory proof that excess tobacco representative of the entire crop will not be marketed.

§ 727.746 *Identification of marketings.* Each marketing of tobacco from a farm shall be identified by an executed memorandum of sale from the 1956 marketing card (MQ–76—Tobacco or MQ–77—Tobacco) issued for the farm on which the tobacco was produced. In addition, in the case of nonwarehouse sales, each marketing shall also be identified by an executed bill of nonwarehouse sale (reverse side of memorandum of sale). A separate memorandum from a marketing card marked "Carry-over" issued for the farm shall be executed with respect to each marketing of tobacco produced prior to 1956, and the words "old crop" will be entered by the warehouseman or buyer on each such memorandum executed with respect to a marketing of tobacco produced prior to 1956.

(a) *Memorandum of sale.* (1) If a memorandum of sale is not executed to identify a warehouse sale of producer's tobacco by the end of the sale day on which the tobacco was marketed, the marketing shall be a suspended sale, and, unless a memorandum identifying the tobacco so marketed is executed on or before the last warehouse sale day of the marketing season, or within four weeks after the date of marketing, whichever comes first, the marketing shall be identified by MQ–82—Tobacco, Sale Without Marketing Card, as a marketing of excess tobacco. The memorandum of sale or MQ–82—Tobacco shall be executed only by a field assistant or other representative of the State administrative officer with the following exceptions:

(i) A warehouseman, or his representative, who has been authorized on MQ–78—Tobacco, may issue a memorandum of sale to identify a warehouse sale if a field assistant is not available at the warehouse when the marketing card is presented. Each memorandum of sale issued by a warehouseman to cover a warehouse sale shall be presented promptly by him to the field assistant for verification with the warehouse records.

(ii) A tobacco dealer who buys tobacco direct from farmers, who resells such tobacco through a hogshead tobacco warehouse and who keeps records showing the information specified in § 727.754, and who has been authorized on MQ–78—Tobacco to issue memoranda of sale, may issue a memorandum of sale covering a purchase of such tobacco only if the bill of nonwarehouse sale has been executed. Such dealer may also execute MQ–82—Tobacco, where applicable, under the circumstances specified in this section.

(2) The authorization on MQ–78—Tobacco to issue memoranda of sale may be withdrawn by the State administrative officer from any or all persons so authorized if such action is determined to be necessary in order to properly enforce the provisions of §§ 727.730 to 727.762. The authorization shall terminate upon receipt of written notice setting forth the reason therefor.

(3) Each excess memorandum of sale issued by a field assistant shall be verified by a warehouseman or dealer (or his representative) to determine whether the amount of penalty shown to be due has been correctly computed and such warehouseman or dealer shall not be relieved of any liability with respect to the amount of penalty due because of any error which may occur in executing the memorandum of sale.

(b) *Bill of nonwarehouse sale.* (1) Each nonwarehouse sale shall be identified by a bill of nonwarehouse sale completely executed by the buyer and the farm operator.

(2) Each bill of nonwarehouse sale covering any marketing (except as described under paragraph (a) (1) (ii) of this section) shall be presented to a field assistant for the issuance of a memorandum of sale and for recording in MQ–79—Tobacco.

§ 727.747 *Rate of penalty.* (a) The penalty per pound upon marketings of excess tobacco subject to marketing quotas shall be seventy-five (75) percent of the average market price (calculated to the nearest whole cent) for Maryland tobacco for the 1955–56 marketing year, as determined by the Crop Reporting Board, Agricultural Marketing Service, United States Department of Agriculture. The rate of penalty per pound shall be calculated to the nearest whole cent.

(b) *Proportional rate of penalty.* With respect to tobacco marketed from farms having excess tobacco available for marketing, the penalty shall be paid upon that percentage of each lot of 1956 crop tobacco marketed which the 1956 crop tobacco available for marketing in excess of the farm marketing quota is of the total amount of 1956 crop tobacco available for marketing from the farm, as determined under § 727.744.

§ 727.748 *Persons to pay penalty.* The person to pay the penalty due on any marketing of tobacco subject to penalty shall be determined as follows:

(a) *Warehouse sale.* The penalty due on marketings by a producer through a warehouse shall be paid by the warehouseman who may deduct an amount equivalent to the penalty from the price paid to the producer.

(b) *Nonwarehouse sale.* The penalty due on tobacco purchased directly from a producer other than (1) by sale at public auction through a warehouse, or (2) by sale through a hogshead tobacco warehouse to a buyer other than the warehouseman, in the regular course of business, shall be paid by the purchaser of the tobacco who may deduct an amount equivalent to the penalty from the price paid to the producer.

(c) *Marketings through an agent.* The penalty due on marketings by a producer through an agent who is not a warehouseman shall be paid by the agent who may deduct an amount equivalent to the penalty from the price paid to the producer.

(d) *Marketings outside the United States.* The penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer.

§ 727.749 *Marketings deemed to be excess tobacco.* Any marketing of tobacco under any one of the following conditions shall be deemed to be a marketing of excess tobacco:

(a) *Warehouse sale.* Any warehouse sale of tobacco by a producer which is not identified by a valid memorandum of sale on or before the last warehouse sale day of the marketing season or within four weeks following the date of marketing, whichever comes first, shall be identified by a MQ–82—Tobacco, and shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the warehouseman.

(b) *Nonwarehouse sale.* Any nonwarehouse sale which (1) is not identified by a valid bill of nonwarehouse sale (reverse side of memorandum of sale) and (2) is not also identified by a valid memorandum of sale and recorded in MQ–79—Tobacco within one week following the date of purchase, or, if purchased prior to the opening of the local auction markets (if the tobacco is not to be resold through a hogshead tobacco warehouse), is not identified by a valid memorandum of sale and recorded in MQ–79—Tobacco within one week following the first sale day of the local auction markets, shall be deemed to be a marketing of excess tobacco. The penalty thereon shall be paid by the purchaser of such tobacco.

(c) *Leaf account tobacco.* The part or all of any marketing by a warehouseman which such warehouseman represents to be a leaf account resale but which when added to prior leaf account resales as reported under §§ 727.730 to 727.762 is in excess of prior leaf account purchases shall be deemed to be a marketing of excess tobacco unless and until such warehouseman furnishes proof acceptable to the State committee showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the warehouseman.

(d) *Dealer's tobacco.* The part or all of any marketing of tobacco by a dealer which such dealer represents to be a resale but which when added to prior resales by such dealer is in excess of the total of his prior purchases as reported on MQ–79—Tobacco shall be deemed to be a marketing of excess tobacco unless and until such dealer furnishes proof acceptable to the State committee showing that such marketing is not a marketing of excess tobacco. The penalty thereon shall be paid by the dealer.

(e) *Marketings not reported.* Any resale of tobacco which under §§ 727.730 to 727.762 is required to be reported by a warehouseman or dealer but which is not so reported within the time and in the manner required by §§ 727.730 to 727.762 shall be deemed to be a marketing of excess tobacco unless and until such warehouseman or dealer furnishes a report of such resale which is acceptable to the State administrative officer. The penalty thereon shall be paid by the warehouseman or dealer who fails to make the report as required.

(f) *Marketings falsely identified.* If any marketing of tobacco by a person other than the producer thereof is identified by a marketing card other than the marketing card issued for the farm on which such tobacco was produced, such marketing shall be deemed to be a marketing of excess tobacco and the penalty thereon shall be paid by such person.

(g) *Producer marketings.* (1) If any producer falsely identifies or fails to account for the disposition of any tobacco produced on a farm, an amount of tobacco equal to the normal yield of the number of acres harvested in 1956 in excess of the farm acreage allotment shall be deemed to have been a marketing of excess tobacco from such farm. The penalty thereon for false identification or failure to account shall be paid by the producer and shall be due on the date of the false identification or failure to account. The filing of a report by a producer under § 727.752 (c) which the State committee finds to be incomplete or incorrect shall constitute a failure to account for the disposition of tobacco produced on the farm.

(2) If, after part or all of the tobacco produced on a farm has been marketed, the State or county committee concludes that the harvested acreage for the farm was more than that shown by the prior determination any penalty due on the basis of the harvested acreage as redetermined pursuant to § 727.735 shall be paid by the producer.

§ 727.750 *Payment of penalty.* (a) Penalties shall become due at the time the tobacco is marketed, except in the case of false identification or failure to account for disposition in which case penalty shall be due on the date of such false identification or failure to account for disposition. Penalty shall be paid by remitting the amount thereof to the ASC State Office not later than the end of the calendar week following the week in which the tobacco became subject to penalty. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to payment at par.

(b) If the penalty due on any warehouse sale of tobacco by a producer as determined under §§ 727.730 to 727.762 is in excess of the net proceeds of such sale (gross amount for all lots included in the sale less usual warehouse charges), the amount of the net proceeds accompanied by a copy of the warehouse bill covering such sale may be remitted as the full penalty due. Usual warehouse charges shall not include (1) advances to producers, (2) charges for hauling, or (3) any other charges not usually incurred by producers in marketing tobacco through a warehouse.

(c) Nonwarehouse sales, including sales of scrap tobacco, shall be subject to the converted rate of penalty for the farm on which the tobacco was produced without regard to the net proceeds of the sale.

§ 727.751 *Request for return of penalty.* Any producer of tobacco after the marketing of all tobacco available for marketing from the farm and any other person who bore the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount required under §§ 727.730 to 727.762 to be paid. Such request shall be filed on MQ–85—Tobacco with the ASC county office within two (2) years after the payment of the penalty.

RECORDS AND REPORTS

§ 727.752 *Producer's records and reports.*—(a) *Report of tobacco acreage.* The farm operator or his representative shall execute and file a report with the ASC county office or a representative of the county committee on Form CSS–578, Report of 1956 Acreage, showing all fields of tobacco on the farm in 1956. If any producer on a farm files or aids or acquiesces in the filing of any false report with respect to the acreage of tobacco grown on the farm, even though the farm operator or his representative refuses to sign such report, the allotment next established for such farm and kind of tobacco shall be reduced as provided in the Maryland tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year.

(b) *Report on marketing card.* The operator of each farm on which tobacco is produced in 1956 or for which a marketing card is issued, shall return to the ASC county office each marketing card issued for the farm whenever marketings from the farm are completed and in no event later than October 1, 1957. Failure to return the marketing card within fifteen (15) days after written request by certified mail from the county office manager shall constitute failure to account for disposition of tobacco marketed from the farm and in the event that a satisfactory account of such disposition is not furnished otherwise to the county committee, the allotment next established for such farm shall be reduced as provided in the Maryland tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year.

(c) *Report of production and disposition.* In addition to any other reports which may be required under §§ 727.730 to 727.762, the operator of each farm or any other person having an interest in the tobacco grown on the farm (even though the harvested acreage does not exceed the acreage allotment or even though no allotment was established for the farm) shall upon written request by certified mail from the State administrative officer within fifteen (15) days after the deposit of such request in the United States mails, addressed to such person at his last known address, furnish the Secretary on form MQ–108—Tobacco a written report of the acreage, production, and disposition of all tobacco produced on the farm by sending the same to the ASC State office showing, as to the farm at the time of filing said report: (1) The number of fields (patches or areas) from which tobacco was harvested, the acres of tobacco harvested from each such field, and the total acreage of tobacco harvested from the farm, (2) the total pounds of tobacco

produced, (3) the amount of tobacco on hand and its location, and (4) as to each lot of tobacco marketed, the name and address of the warehouseman, dealer, or other person to or through whom such tobacco was marketed and the number of pounds marketed, the gross price, and the date of the marketing. Failure to file the report as requested or the filing of a report which is found by the State committee to be incomplete or incorrect shall constitute failure of the producer to account for disposition of tobacco produced on the farm and the allotment next established for such farm shall be reduced as provided in the Maryland tobacco marketing quota regulations for determining acreage allotments and normal yields, 1957–58 marketing year.

§ 727.753 *Warehouseman's records and reports*—(a) *Record of marketing.* (1) Each warehouseman shall keep such records as will enable him to furnish the ASC State office with respect to each warehouse sale of tobacco made at his warehouse the following information:

(i) The name of the operator of the farm on which the tobacco was produced and the name of the seller in the case of a sale by a producer, and in the case of a resale the name of the seller.

(ii) Date of sale.

(iii) Number of pounds sold.

(iv) Gross sale price.

(v) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s);

and in addition with respect to each individual basket or lot of tobacco constituting the warehouse sale the following information:

(vi) Name of purchaser.

(vii) Number of pounds sold.

(viii) Gross sale price.

(2) Records of all purchases and resales of tobacco by the warehouseman shall be maintained to show a separate account for:

(i) Nonwarehouse sales by farmers of tobacco purchased by or on behalf of the warehouseman.

(ii) Purchases and resales for the warehouse leaf account.

(iii) Resales of floor sweepings.

(iv) Resales of pick-ups (subparagraphs (1) and (2) of § 727.731 (p).

(3) Any warehouseman or any other person who grades tobacco for farmers shall maintain records which will enable him to furnish the ASC State office the name of the farm operator and the approximate amount of scrap tobacco obtained from the grading of tobacco from each farm.

(4) In the case of resales for dealers the name of the dealer making each resale shall be shown on the warehouse records so that the individual lots of tobacco sold by the dealer can be identified.

(b) *Identification of sale on check register (or ledger account in case of a sale through a hogshead tobacco warehouse).* The serial number of the memorandum of sale issued to identify each warehouse sale by a producer or the serial number of the warehouse bill(s) covering each such sale shall be recorded on the check register or check stub for the check written with respect to such sale of tobacco (or on the ledger account in the case of a sale through a hogshead tobacco warehouse).

(c) *Memorandum of sale and bill of nonwarehouse sale.* A record in the form of a valid memorandum of sale or an MQ–82—Tobacco, Sale Without Marketing Card, shall be obtained by a warehouseman to cover each marketing of tobacco from a farm through the warehouse and each nonwarehouse sale of tobacco purchased by or for the warehouseman. For a nonwarehouse sale of tobacco purchased by or for a warehouseman, no memorandum of sale shall be issued unless the bill of nonwarehouse sale on the reverse side of the memorandum of sale is executed. Any warehouseman who obtains possession of any scrap tobacco in the course of grading tobacco from any farm shall obtain a bill of nonwarehouse sale and a memorandum of sale to cover the amount of such scrap.

(d) *Suspended sale record.* Any warehouse bills covering farm tobacco for which memoranda of sale have not been issued at the end of the sale day shall be presented to a field assistant who shall stamp such bills "suspended," write thereon the serial number of the suspended sale, and, if the warehouse is not a hogshead warehouse, record the bills on MQ–83—Tobacco, Field Assistant's Report: *Provided*, That if a field assistant is not available, the warehouseman may stamp such bills "Suspended" and deliver them to a field assistant when one is available.

(e) *Warehouse entries on dealer's record.* Each warehouseman, other than a hogshead tobacco warehouseman, shall record on MQ–79—Tobacco the total purchases and resales made by each dealer or other warehouseman during each sale day at the warehouse and enter his initials in the space provided. If any tobacco resold by the dealer is tobacco bought by him from a crop produced prior to 1956, the entry on MQ–79—Tobacco shall clearly show such fact.

(f) *Record and report of purchases and resales.* Each warehouseman shall keep a record and make reports on MQ–79—Tobacco, Dealer's Record, showing:

(1) All purchases, by or for the warehouse, of tobacco directly from producers other than at public auction through a warehouse (nonwarehouse sales) (also including, in the case of a hogshead tobacco warehouseman, purchases at the hogshead tobacco warehouse by or for such warehouseman at auction from producers).

(2) All purchases and resales, by or for the warehouse, of tobacco at public auction through warehouses other than his own.

(3) All purchases, by or for the warehouse, of tobacco from dealers other than warehousemen and resales, by or for the warehouse, of tobacco to dealers other than warehousemen.

(g) *Season report of warehouse business.* (1) Each warehouseman, other than a hogshead tobacco warehouseman, shall furnish the ASC State office not later than thirty (30) days following the last sale day of the marketing season a report on MQ–80—Tobacco, Auction Warehouse Report, showing:

(i) For each dealer or buyer, as originally billed, the total pounds and gross amount of tobacco purchased and resold on the warehouse floor;

(ii) The total pounds and gross amount of "loan tobacco" billed to any association;

(iii) The total pounds and gross amount of all leaf account tobacco purchased and resold and of all pick-ups (§ 727.731 (p) (1) or (2)), or floor sweepings sold by the warehouseman at public auction over his own warehouse floor;

(iv) The pounds and estimated value of all tobacco on hand at the time of filing the report and whether such tobacco represents leaf account tobacco, pick-ups (§ 727.731 (p) (1) or (2)), or floor sweepings;

(v) The total pounds and gross amount of all tobacco purchased directly from farmers other than at public auction through a warehouse; and

(vi) The total pounds and gross amount of all purchases over other warehouse floors or from dealers other than warehousemen, and all resales over other warehouse floors or to dealers other than warehousemen. A hogshead tobacco warehouseman, also, shall report all leaf account tobacco purchased or sold and all floor sweepings and pick-ups sold, if any, through the warehouse.

(2) A hogshead tobacco warehouseman shall submit weekly reports (each such report to be submitted not later than the end of the calendar week following the week during which the transactions occurred) to the ASC State office including for each buyer who purchased tobacco (and any association to which any "loan" tobacco was consigned) through the warehouse during the week for which the report is submitted, a copy of the bill-out to the buyer (or association) together with the following:

(i) Name of farm operator (and name of seller if different from operator) for each sale of farm tobacco.

(ii) Farm serial number of the farm for each sale of farm tobacco.

(iii) Serial number of memorandum of sale or memorandum of sale without marketing card executed with respect to each sale of farm tobacco.

(iv) Date of sale (or date of consignment to loan association).

(v) Hogshead serial number.

(vi) Number of pounds of tobacco in the hogshead.

(vii) Designation as to whether the tobacco in the hogshead was produced in 1956 or in a year prior to 1956.

(viii) A memorandum of sale or a memorandum of sale without marketing card for each sale of farm tobacco produced in 1956, and a memorandum of sale or a memorandum of sale without marketing card for each sale of farm tobacco produced prior to 1956.

(ix) A remittance of the penalty due as shown on all memoranda of sale and memoranda of sale without marketing card.

(x) Designation by the word "resale" and the name of the person reselling the tobacco entered on the bill-out for tobacco resold through the hogshead warehouse.

(h) *Report of Penalties.* Each warehouseman, other than a hogshead tobacco warehouseman, shall make reports on MQ–81—Tobacco, Report of Penalties, showing for each sale of tobacco subject to penalty (1) the name of the farm operator; (2) the memorandum number; (3) the name of the county in which the farm is located; (4) the farm serial number; (5) the number of pounds sold; (6) the applicable converted rate of penalty; and (7) the amount of penalty due on each such sale. MQ–81—Tobacco shall be prepared for each week and forwarded together with remittance of the penalty due as shown thereon to the ASC State office not later than the end of the calendar week following the week in which the tobacco became subject to penalty.

(i) *Report of resales.* Each warehouseman, other than a hogshead tobacco warehouseman, shall make reports on MQ–86—Tobacco, Report of Resales, showing for each resale of tobacco at auction on the warehouse floor (1) the warehouse bill number; (2) the name on the warehouse bill; (3) the name of the seller, or in the case of a resale for the warehouse, whether such resale represents leaf account tobacco, pick-ups, or floor sweepings; (4) the registration number and State of the person making the resale; (5) the number of pounds sold; and (6) the gross amount for the sale. MQ–86—Tobacco shall be prepared for each sale day and forwarded to the ASC State office not later than the end of the calendar week following the week in which the tobacco was resold.

(j) *Additional records and reports by warehousemen.* Each warehouseman shall keep such records and furnish such reports to the ASC State office in addition to the foregoing, as the State administrative officer may find necessary to insure the proper identification of the marketings of tobacco and the collection of penalties due thereon as provided in §§ 727.730 to 727.762.

§ 727.754 *Dealer's records and reports.* Each dealer, except as provided in § 727.755 shall keep the records and make the reports as provided by this section.

(a) *Report of dealer's name, address and registration number.* Each dealer shall properly execute and the field assistant (or the dealer, if the tobacco is to be marketed through a hogshead tobacco warehouse) shall detach and forward to the ASC State office "Receipt for Dealer's Record" contained in MQ–79—Tobacco which is issued to the dealer.

(b) *Record and report of purchases and resales.* Each dealer shall keep a record and make reports on MQ–79—Tobacco, Dealer's Record, showing all purchases and resales of tobacco made by or for the dealer and, in the event of resale of tobacco bought from a crop produced prior to 1956, the fact that such tobacco was bought by him from a crop produced prior to 1956.

(c) *Report of penalties.* Each dealer, unless the tobacco is to be marketed through a hogshead tobacco warehouse, shall make a report on MQ–81—Tobacco, Report of Penalties, showing for each purchase, other than by warehouse sale, of tobacco subject to penalty (1) the name of the farm operator; (2) the memorandum number; (3) the name of the county in which the farm is located; (4) the farm serial number; (5) the number of pounds purchased; (6) the applicable converted rate of penalty; and (7) the amount of penalty due on each such purchase. MQ–81—Tobacco shall be prepared for each week and forwarded together with remittance of the penalty due as shown thereon to the ASC State office not later than the end of the calendar week following the week in which the tobacco became subject to penalty. A dealer who purchases tobacco which is to be marketed through a hogshead tobacco warehouse shall remit the penalty with his reports on MQ–79—Tobacco, Dealer's Record, together with memoranda of sale and memoranda of sale without marketing card to the ASC State office not later than the end of the calendar week following the week during which he purchased the tobacco.

(d) *Memorandum of sale and bill of nonwarehouse sale.* (1) A bill of nonwarehouse sale and a memorandum of sale from the 1956 marketing card issued for the farm on which the tobacco was produced shall be obtained by a dealer to cover each purchase of tobacco directly from a producer other than at auction through a warehouse. No memorandum of sale shall be issued identifying such purchase unless the bill of nonwarehouse sale on the reverse side of the memorandum of sale has been executed.

(2) Any dealer who acquires scrap tobacco from any farm shall obtain a bill of nonwarehouse sale and a memorandum of sale to cover the amount of such scrap tobacco.

(e) *Additional records.* Each dealer shall keep such records in addition to the foregoing as will enable him to furnish the ASC State office with respect to each lot of tobacco purchased by him the following information:

(1) The name of the warehouse through which the tobacco was purchased in the case of a warehouse sale; the name of the operator of the farm on which the tobacco was produced and the name of the seller in the case of a nonwarehouse sale; and the name of the seller in the case of purchases directly from warehousemen or other dealers.

(2) Date of purchase.

(3) Number of pounds purchased.

(4) Gross purchase price.

(5) Amount of any penalty and the amount of any deduction on account of penalty from the price paid the producer(s);

and with respect to each lot of tobacco sold by him the following information:

(6) Name of the warehouse through which the tobacco was sold in the case of a warehouse sale, and the name of the purchaser if other than a warehouse sale.

(7) Date of sale.

(8) Number of pounds sold.

(9) Gross sale price.

(10) In the event of a resale of tobacco bought by him and carried over from a crop produced prior to 1956, the fact that such tobacco was bought by him from a crop produced prior to 1956.

(f) *Forwarding of reports.* All reports shall be forwarded to the ASC State office not later than the end of the week following the calendar week covered by the reports.

§ 727.755 *Dealers exempt from regular records and reports.* Any dealer or buyer who does not purchase or otherwise acquire tobacco except at warehouse sales, or directly from dealers other than warehousemen, and who does not resell in the form in which tobacco ordinarily is sold by farmers more than 10 percent of such tobacco so purchased by him shall not be subject to the provisions of § 727.754: *Provided, however*, That any such dealer or buyer who purchases tobacco at nonwarehouse sale, or from a warehouseman other than at warehouse sale, shall be subject to the provisions of § 727.754 with respect to such purchases. Each such dealer or buyer shall make such reports to the State administrative officer, in addition to the foregoing, as he may find necessary to enforce §§ 727.730 to 727.762.

§ 727.756 *Records and reports of truckers and persons redrying, prizing or stemming tobacco.* (a) Each person engaged to any extent in the business of trucking or hauling tobacco for producers to a point where it may be marketed or otherwise disposed of in the form and in the condition in which it is usually marketed by producers shall keep such records as will enable him to furnish the ASC State office a report with respect to each lot of tobacco received by him showing:

(1) The name and address of the producer,

(2) The date of receipt of the tobacco,

(3) The number of pounds received, and

(4) The name and address of the person to whom it was delivered.

(b) Each person engaged to any extent in the business of redrying, prizing or stemming tobacco for producers shall keep such records as will enable him to furnish the Director a report showing:

(1) The information required above for truckers, and in addition,

(2) The purpose for which the tobacco was received,

(3) The amount of advance made by him on the tobacco, and

(4) The disposition of the tobacco.

§ 727.757 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a warehouseman, dealer, trucker, or as a person engaged in the business of redrying, prizing or stemming tobacco for producers and who is engaged in more than one such business, shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 727.758 *Failure to keep records or make reports.* Any warehouseman,

dealer, trucker, or person engaged in the business of redrying, prizing, or stemming tobacco for producers, who fails to make any report or keep any record as required under §§ 727.730 to 727.762, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500; and any tobacco warehouseman or dealer who fails to remedy such violation by making a complete and accurate report or keeping a complete and accurate record as required under §§ 727.730 to 727.762 within fifteen days after notice to him of such violation shall be subject to an additional fine of $100 for each ten thousand pounds of tobacco, or fraction thereof, bought or sold by him after the date of such violation: *Provided*, That such fine shall not exceed $5,000; and notice of such violation shall be served upon the tobacco warehouseman or dealer by mailing the same to him by registered mail or by posting the same at an established place of business operated by him or both. Notice of any violation by a warehouseman, dealer or trucker shall be given by the State Administrative Officer and notice of violation by a person engaged in the business of redrying, prizing or stemming tobacco for producers shall be given by the Director.

§ 727.759 *Additional records and reports to Director.* Any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing or stemming tobacco for producers shall, in addition to any records required to be kept or any reports required to be made under §§ 727.730 to 727.762, keep such records and make such reports to the Director as he may find necessary to enforce §§ 727.730 to 727.762.

§ 727.760 *Examination of records and reports.* For the purpose of ascertaining the correctness of any report made or record kept, or of obtaining information required to be furnished in any report but not so furnished, any warehouseman, dealer, trucker, or person engaged in the business of redrying, prizing or stemming tobacco for producers shall make available for examination by employees of the ASC State office, and by employees of the Compliance and Investigation Division, Audit Division, and of the Tobacco Division of the Commodity Stabilization Service, United States Department of Agriculture, upon written request by the State administrative officer or Director, such books, paper, records, accounts, cancelled checks, correspondence, contracts, documents, and memoranda as the State administrative officer or Director has reason to believe are relevant and are within the control of such person.

§ 727.761 *Length of time records and reports are to be kept.* Records required to be kept and copies of the reports required to be made by any person under §§ 727.730 to 727.762 for the 1956–57 marketing year shall be kept by him until September 30, 1959. Records shall be kept for such longer period of time as may be requested in writing by the State administrative officer or the Director.

§ 727.762 *Information confidential.* All data reported to or acquired by the Secretary pursuant to the provisions of §§ 727.730 to 727.762 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members of county and community committees and all ASC county office employees and only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them and then only in a suit or administrative hearing under Title III of the act.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 16th day of August 1956. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 654, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.761 (Lemon Regulation 654; 21 F. R. 6010) are hereby amended to read as follows:

(ii) District 2: 325,500 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 16, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 56-6740; Filed, Aug. 20, 1956; 8:50 a. m.]

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

§ 958.322 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the area committee for Area No. 2, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, that would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period from August 23, 1956, through June 30, 1957, no handler shall ship (i) any potatoes of the round varieties grown in Area No. 2 unless such potatoes meet the requirements of the U. S. No. 2, or better, grade, Size A, 2⅛ inches minimum diameter or (ii) any potatoes of the long varieties grown in Area No. 2 unless such potatoes meet the requirement of the U. S. No. 2, or better grade, and are of a size not less than 2⅛ inches minimum diameter or 4 ounces minimum weight, as such terms are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), including the tolerances set forth therein.

(2) During the period from August 23, 1956, through October 8, 1956, and subject to the requirements set forth in subparagraph (1) of this paragraph, no handler shall ship any lot of potatoes (i) of the Russet Burbank or Red McClure variety grown in Area No. 2 if such potatoes are more than "slightly skinned" as such term is defined in said United States Standards, which means that not more than 10 percent of such potatoes have more than one-fourth of the skin missing or "feathered," and (ii) of any other varieties grown in Area No. 2 if such potatoes are more than "moderately skinned" as such term is defined in the said United States Standards which means that not more than 10 percent of such potatoes have more than one-half of the skin missing or "feathered."

(3) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 17, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

[F. R. Doc. 56-6777; Filed, Aug. 20, 1956; 8:54 a. m.]

[Avocado Order 9, Amdt. 4]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

CONTAINER REGULATION

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation of the Avocado Administrative Committee, established under the aforesaid amended marketing agreement and order, it is hereby found that the limitation of handling avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restriction on the handling of avocados.

It is ordered, That subparagraph (1) of paragraph (b) of § 969.309, as amended (Avocado Order 9, as amended; 21 F. R. 4514) is further amended by adding at the end thereof a new subdivision (vi) reading as follows:

(vi) Fiberboard cartons, with inside dimensions 13½ by 16½ by 4½ inches: *Provided*, That the avocados in such container shall be packed in one layer only.

Effective time. The provisions of this amendment shall become effective at 12:01 a. m., e. s. t., August 22, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 17, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

[F. R. Doc. 56-6776; Filed, Aug. 20, 1956; 8:54 a. m.]

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. Q]

PART 217—PAYMENT OF INTEREST ON DEPOSITS

INTEREST ON TIME DEPOSITS WITH ALTERNATE MATURITIES

§ 217.112 *Interest on time deposits with alternate maturities.* (a) The Board was asked recently whether four forms of time deposit contracts complied with the requirements of this part. The first was evidenced by a certificate which provided for a maturity 6 months after date of deposit with an option on the part of the depositor to withdraw part or all of the funds, without notice, on the 30th day after the date of deposit, or on the 90th day after the date of deposit, and which provided that funds withdrawn on the 30th day would bear interest at a rate of 1 percent, funds withdrawn on the 90th day would bear interest at a rate of 2 percent, and funds withdrawn at the end of 6 months would bear interest at a rate of 2½ percent.

(b) With respect to the form of certificate in paragraph (a) of this section, the Board referred to its interpretation published as § 217.105 which expressed the view that if a time certificate permits withdrawal either at a specified maturity or prior to such time after a specified period of written notice, the maximum rate of interest will depend upon which of such withdrawal privileges is elected by the depositor and the maximum rate applicable under the regulation in the circumstances of the withdrawal privilege so elected. For example, a certificate providing for payment 5 years after date with interest at 2½ percent, but providing also for earlier payment after 90 days' written notice with interest at 2 percent, would comply with the regulation. Such a certificate has a single fixed maturity but provides that an earlier maturity may be fixed at the option of the depositor with a resulting reduction in the rate of interest payable.

(c) The Board pointed out that, by contrast, the certificate described in paragraph (a) of this section had several fixed maturities, the first of which was 30 days after date of deposit, so that the deposit when established was payable 30 days after date. Section 217.6 provides that no member bank shall pay interest at a rate in excess of 1 percent per annum on a time deposit having a maturity date less than 90 days after the date of deposit or payable upon written notice of less than 90 days. The Board said that, consequently, the 2 percent and 2½ percent rates of interest provided for under the form of time certificate described in paragraph (a) of this section would be in excess of the maximum rates prescribed by this part.

(d) The second deposit contract on which the Board's views were requested was a 6 months' time deposit with interest at a rate of 2¼ percent but with an alternate fixed maturity of 90 days after date with interest at 2 percent. The third contract represented a deposit payable 11 months after date with interest at a rate of 2⅜ percent but with alternate fixed maturities of 90 days, 4 months, and 5 months, with interest at 2 percent; 6, 7, and 8 months, with interest at 2¼ percent; and 9 and 10 months with interest at 2⅜ percent. The Board stated that the foregoing views expressed with respect to the form of deposit contract described in paragraph (a) of this section were applicable also to the second and third forms of contracts described in this paragraph.

(e) The fourth form of contract represented a time deposit having a fixed maturity dated 6 months after the date of deposit but with an option on the part of the depositor to withdraw a part or all of the funds either on 90 days' advance written notice at a rate of 2 percent, or on 30 days' advance written notice at a rate of 1 percent if withdrawn during the first 90 days or at a rate of 2 percent if withdrawn after the 90th day following the date of deposit. The Board said that such a contract providing for payment of interest at a rate of 2 percent on a deposit withdrawn after 30 days' written notice would not comply with this part.

(f) The Board said that in connection with all four of the forms of deposit contracts described in this section, it is important to bear in mind that the maximum permissible interest rate does not depend upon the length of time the deposit is left with the bank. Where the deposit contract provides a fixed maturity but with an option on the part of the depositor to withdraw after a prescribed period of notice, the maturity is that named in the certificate unless and until the depositor exercises his option to change that maturity, and in that event the maximum interest rate payable will be the rate applicable under the regulation with respect to the period of such notice of withdrawal given by the depositor. Where the certificate itself names alternate fixed maturities,

as in three of the certificates discussed in this section, without provision for withdrawal after notice upon the option of the depositor, the certificate must be regarded as maturing at the earliest fixed maturity and, if not withdrawn at that time or at any subsequent fixed maturity, as being automatically renewed until the date of the next following fixed maturity; and the maximum interest rate payable upon withdrawal at any fixed maturity would be the maximum rate applicable under the regulation to the period from the previous automatic renewal to the date of such withdrawal.

(Sec. 11, 38 Stat. 262; 12 U. S. C. 248. Interprets or applies secs. 19, 24, 38 Stat. 270, as amended; 273, as amended, sec. 8, 48 Stat. 168, as amended; 12 U. S. C. 371, 371a, 371b, 461)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[F. R. Doc 56-6729; Filed Aug. 20, 1956; 8:47 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 103.204]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANT ALIENS UNDER THE IMMIGRATION AND NATIONALITY ACT

PART 42—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT

FORMER EXCHANGE VISITORS

Parts 41 and 42 of Chapter I, Title 22 of the Code of Federal Regulations, are hereby amended in the following respects:

1. Part 41 of Chapter I, Title 22 of the Code of Federal Regulations, is amended by the addition of the following new section immediately after § 41.101:

§ 41.102 *Former exchange visitors.* (a) No alien who was admitted into the United States subsequent to June 4, 1956, as an exchange visitor, or who otherwise acquired the status of an exchange visitor subsequent to June 4, 1956, including any alien granted an extension of the period of his temporary admission subsequent to the effective date of this regulation, shall be eligible to apply for and receive a visa as a nonimmigrant under the provisions of section 101 (a) (15) (H) of the act notwithstanding the approval of a petition as provided in section 214 (c) of the act unless (1) the consular officer is satisfied that such alien has resided and been physically present abroad for an aggregate of at least two years since his departure from the United States following the termination of his exchange-visitor status in a country or countries cooperating in the exchange-visitor program, or (2) the requirements of this paragraph are waived as provided in section 201 (b) of the United States Information and Educational Exchange Act of 1948, as amended. (See paragraph (c) of § 42.42 of this chapter in cases of former exchange visitors who apply for immigrant visas.)

(b) Notwithstanding the provisions of paragraph (a) of this section, the requirement of a two-year residence and physical presence abroad shall not apply in the case of an alien who was in the United States as an exchange visitor on or before June 4, 1956, who proceeded abroad temporarily on a personal visit or for reasons related to his exchange-visitor program, and who was readmitted into the United States subsequent to June 4, 1956, for the remainder of the period of authorized stay granted prior to the effective date of this regulation to continue his participation in the exchange-visitor program with which he was connected at the time of his departure from the United States.

2. Section 42.42 is amended by the addition of the following paragraph (c) at the end thereof:

(c) *Former exchange visitors.* (1) No alien who was admitted into the United States subsequent to June 4, 1956, as an exchange visitor, or who otherwise acquired the status of an exchange visitor subsequent to June 4, 1956, including any alien granted an extension of the period of his temporary admission subsequent to the effective date of this regulation, shall be eligible to apply for and receive an immigrant visa notwithstanding the provisions of section 203 (b), (c), or (d) of the act, or the provisions of § 42.25 unless (i) the consular officer is satisfied that such alien has resided and been physically present abroad for an aggregate of at least two years since his departure from the United States following the termination of his exchange-visitor status in a country or countries cooperating in the exchange-visitor program, or (ii) the requirements of this subparagraph are waived as provided in section 201 (b) of the United States Information and Educational Exchange Act of 1948, as amended. (See § 41.102 in cases of former exchange visitors who apply for nonimmigrant "H" visas.)

(2) Notwithstanding the provisions of subparagraph (1) of this paragraph, the requirement of a two-year residence and physical presence abroad shall not apply in the case of an alien who was in the United States as an exchange visitor on or before June 4, 1956, who proceeded abroad temporarily on a personal visit or for reasons related to his exchange-visitor program, and who was readmitted into the United States subsequent to June 4, 1956, for the remainder of the period of authorized stay granted prior to the effective date of this regulation to continue his participation in the exchange-visitor program with which he was connected at the time of his departure from the United States.

The regulations contained in this order shall become effective thirty days after their publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

(Sec. 104, 60 Stat. 174; 8 U. S. C. 1104)

Dated: August 10, 1956.

ROBERT F. CARTWRIGHT,
Acting Administrator, Bureau of Security and Consular Affairs.

[F. R. Doc. 56-6730; Filed, Aug. 20, 1956; 8:48 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter Q—Leasing and Permitting of Restricted Indian Lands and Other Lands Administered by the Bureau of Indian Affairs for Farming, Farm Pasture, Business, and Other Purposes

PART 171—LEASING AND PERMITTING

PART 177—AGRICULTURAL AND GRAZING LEASES, OSAGE NATION, OKLAHOMA

MISCELLANEOUS AMENDMENTS

1. Section 171.6 (c) and (e) is revised and new paragraph (g) is added to § 171.6 to read as follows:

§ 171.6 *Duration of leases and permits of restricted land.* • • •

(c) Farming leases not requiring such investment or development may be executed for a term of not to exceed five years for dry-farming lands or ten years for irrigable lands.

• • • • •

(e) Unless otherwise provided by the Commissioner or his authorized representative, the rental on leases granted for more than five years shall be subject to adjustment at not more than five year intervals.

• • • • •

(g) With the exception set forth in paragraph (a) of this section there shall be no provision for renewal in the leases.

2. Section 171.7 (c) is revised to read as follows:

§ 171.7 *Power of superintendent to grant leases or permits for restricted lands of individual Indians.* • • •

(c) Where the majority interest in land being leased is owned by Indians authorized to negotiate their leases as provided for in § 171.8 and such Indians have agreed to and executed a lease on terms satisfactory to the superintendent, the superintendent is authorized to execute the lease in behalf of undetermined presumptive heirs owning the minority interest in such lands and in behalf of such Indians whose lands he is authorized to lease under paragraphs (a) and (b) of this section, without advertising such minority interest and without the limitation as to term as provided for in § 171.6 (f).

3. Section 171.9 (a) is revised to read as follows:

§ 171.9 *Negotiation of tribal leases and permits.* (a) Tribes, acting through their tribal councils or their authorized representatives, may negotiate on forms approved by the Secretary or his duly authorized representative and subject to the approval of the Secretary or his authorized representative, leases or permits with respect to tribal lands, at not less than the appraised value. A lease or permit may provide for the payment of rentals direct to the lessor when a tribe is organized and has facilities for handling its own funds, including an acceptable bonded officer to receipt for funds. Otherwise, the lease or permit shall provide for the payment of rentals to the superintendent for deposit to the credit of the tribe in the United States Treasury.

• • • • •

4. Section 171.17 is revised to read as follows:

§ 171.17 *Special mandatory provisions.* All leases or permits issued under this part shall contain provisions as follows:

(a) Nothing contained in this lease shall operate to delay or prevent a termination of Federal trust responsibilities with respect to the land during the term of this lease; however, such termination shall not serve to abrogate this lease. In the event of such termination, all powers, duties, or other functions of the Secretary of the Interior or his authorized representative shall terminate, and the responsibility for enforcing compliance with the covenants of this lease shall be assumed by the lessor, his heirs, devises, executors, administrators, or assigns.

(b) In the event of termination of Federal supervision, the lessor and lessee, or their successors in interest, shall have a period of 30 days from the anniversary date provided for in the lease for adjustment of the rental within which to agree upon the rental adjustment or to agree upon a commercial appraiser to determine the fair annual rental value. If no agreement can be reached at the end of 30 days, the lessor and lessee, or their successors, shall each appoint an appraiser and the two appraisers shall select a third appraiser. The three appraisers so selected shall constitute the appraisal board to revaluate the fair annual rental.

(c) The lessee (permittee) further agrees that he will not use or permit to be used any part of said premises for any unlawful conduct or purpose whatsoever; that he will not use or permit to be used any part of said premises for the manufacture, sale, gift, transportation, drinking or storage of intoxicating liquors or beverages in violation of existing laws relating thereto, and that any violation of this clause by the lessee (permittee) or with his knowledge, shall render this lease voidable at the option of the superintendent.

5. Section 171.24 (c) is revised to read as follows:

§ 171.24 *Crow Reservation.* • • •

(c) The approval of the superintendent of the Crow Agency shall not be required under § 171.8 with respect to leases or permits which are issued by Indian allottees whose names appear as competent on the rolls completed in accordance with the provisions of section 3 of the act of June 4, 1920 (41 Stat. 751), as supplemented by the acts of May 19, 1926 (44 Stat. 566), May 2, 1928 (45 Stat. 482), March 15, 1948 (62 Stat. 80), and September 8, 1949 (63 Stat. 695), and which cover their own allotments or the allotments of their minor children for farming or grazing purposes except that leases other than farming and grazing made pursuant to the provisions of the act of August 9, 1955 (69 Stat. 539), all leases made by adult Crow Indians not classified as competent, and leases on heirship lands of Crow Indians having more than five competent devisees or heirs require the approval of the superintendent. Leases or permits requiring the approval of the superintendent shall provide that all rentals are to be paid by the lessee or permittee to the superintendent for the benefit of the Indian owners. Copies of all leases and permits that do not require the approval of the superintendent shall be filed promptly with the superintendent of the Crow Agency. Such filing shall impart constructive notice to all persons of its contents. No such lease which has not been so filed shall be recognized by the superintendent or by the Bureau as against lessees, purchasers, or encumbrancers of the same land in good faith for value and without notice. Any Crow Indian classified as competent shall have the full responsibility of obtaining compliance with the terms of any lease made by him pursuant to this section.

6. All of Part 177 is hereby revoked.

(R. S. 161; 5 U. S. C. 22)

FRED A. SEATON,
Secretary of the Interior.

AUGUST 15, 1956.

[F. R. Doc. 56-6715; Filed, Aug. 20, 1956; 8:45 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

Subchapter E—Claims

PART 750—NAVY GENERAL CLAIMS

PART 753—FOREIGN, NONCOMBAT CLAIMS

MISCELLANEOUS AMENDMENTS

a. Change § 750.18 to read as follows:

§ 750.18 *Statutory authority.* The first section of the act of December 28, 1945 (59 Stat. 662; 31 U. S. C. 223d), makes applicable to the Navy the act of July 3, 1943 (57 Stat. 372; 31 U. S. C. 223b), as amended by the act of May 29, 1945 (59 Stat. 225; 31 U. S. C. 223b), the act of June 28, 1946 (60 Stat. 332; 31 U. S. C. 223b), the act of July 26, 1947 (61 Stat. 501; 31 U. S. C. 223b), the joint resolution of July 3, 1952 (66 Stat. 334; 31 U. S. C. 223b), the joint resolution of March 31, 1953 (67 Stat. 18; 31 U. S. C. 223b), the joint resolution of June 30, 1953 (67 Stat. 131; 31 U. S. C. 223b), and the act of March 29, 1956 (70 Stat. 60; 31 U. S. C. 223b). Pursuant to, and subject to the limitations of, this authority, as amended, the Secretary of the Navy and, subject to appeal to the Secretary of the Navy, such other officer or officers as he may designate for such purposes and under such regulations as he may prescribe, are authorized to consider, ascertain, adjust, determine, settle, and pay in an amount not in excess of $1,000 where accepted by the claimant in full satisfaction and final settlement, any claim against the United States arising on or after May 27, 1941, when such claim is substantiated in such manner as the Secretary of the Navy may by regulation prescribe, for damage to or loss or destruction of property, real or personal, or for personal injury or death caused by military personnel or civilian employees of the Navy while acting within the scope of their employment, or otherwise incident to noncombat activities of the Navy, including claims for damage to or loss or destruction, by criminal acts, of registered or insured mail while in the possession of the military authorities, claims for damage to or loss or destruction of personal property bailed to the Government and claims for damage to real property incident to the use and occupancy thereof, whether under a lease, express or implied, or otherwise.

b. Amend § 750.19 in the following respects:

§ 750.19 *Scope of the act of December 28, 1945, as amended.* (a) Subject to the exceptions set forth in paragraph (b) of this section, claims not in excess of $1,000, arising on or after May 27, 1941, for damage to or loss or destruction of real or personal property, or for personal injury or death caused by military personnel or civilian employees of the Navy while acting within the scope of their employment, or otherwise incident to noncombat activities of the Navy, including claims for damages to or loss or destruction, by criminal acts, of registered or insured mail while in the possession of the military authorities, claims for damage to or loss or destruction of personal property bailed to the Government and claims for damage to real property incident to the use and occupancy thereof, whether under a lease, express or implied, or otherwise, are payable by the Secretary of the Navy or his designees under the act of December 28, 1945, as amended, and §§ 750.17 to 750.27.

(b) The provisions of the act of December 28, 1945, as amended, and §§ 750.17 to 750.27 do not apply to:

• • • • • •

(3) Any claim for personal injury or death incurred on or before March 29, 1956, other than for reasonable medical, hospital, and burial expenses actually incurred as a result thereof.

• • • • • •

c. Change § 750.21 to read as follows:

§ 750.21 *Claims in excess of $1,000.* Claims in excess of $1,000, if otherwise within the scope of the act of December 28, 1945, as amended, and §§ 750.17 to 750.27, may be reported by the Secretary of the Navy to Congress for its consideration. Such claims, if found to be meritorious, will ordinarily be reported to Congress in a deficiency appropriation bill, obviating the claimant's initiation of private relief legislation.

d. Change § 750.27 to read as follows:

§ 750.27 . *Statute of limitations.* No claim may be settled under the act of December 28, 1945, and §§ 750.17 to 750.27 unless it is presented in writing within two years after the occurrence of the accident or incident out of which it arises. However, if such accident or incident occurs in time of war or armed conflict, or if war or such armed conflict intervenes within two years after its occurrence, any claim may, on good cause shown, be presented within two years after peace is established or such armed conflict terminates. The dates of commencement and termination of an armed conflict for the purpose of the act of July 3, 1943, as amended and applicable to the Navy (see § 750.18) will be established by concurrent resolution of the Congress or by determination of the President. The provisions of this section do not revive claims in regard to which the period of limitation had expired prior to March 29, 1956, under the law then in effect.

e. Amend § 750.30 in the following respects:

§ 750.30 *Measure of damages.* • • •

(b) In claims for personal injury or death cognizable under the provisions governing the administrative settlement of Federal tort claims under Title 28, United States Code, or the civil action provisions of Title 28, United States Code, Section 1346 (b), the measure of damages is determined by the law of the place where the act or omission occurred. In claims for personal injury or death cognizable under the act of December 28, 1945, as amended, accruing on or before March 29, 1956, the measure of damages is restricted to reasonably necessary medical, hospital, and burial expenses, reasonable in amount and actually incurred, including, but not limited to, the following:

• • • • •

(c) In claims for personal injury or death cognizable under the act of December 28, 1945, as amended, accruing after March 29, 1956, the measure of damage may include reasonable medical, hospital, and burial expenses, reasonable compensation for anticipated medical expenses, loss of earnings and services, diminution of earning capacity, pain and suffering, permanent injury and death. In computing damages in cases of personal injury or death, local standards will be taken into consideration as a guide. In case of death, only one claim arises; the amount approved therefor will, to the extent found practicable or feasible, be apportioned among the beneficiaries and in the proportions, prescribed by law or custom of the place in which the accident or incident resulting in death occurs.

• • • • •

f. Change § 750.35 (a) (3) to read as follows:

(3) When injury or death results to any civilian other than an employee of the Government acting in the performance of his duty and covered by the United States Employees' Compensation Act.

g. Change § 750.36 (a) and (b) to read as follows:

(a) Immediate responsibility for the investigation of an incident in accordance with the regulations in this part lies with the commanding officer or officer in charge of the local naval activity which is most directly concerned, normally the commanding officer or officer in charge of the personnel involved or of the activity in which the incident occurred. When two or more activities are involved, the senior of the commanding officers or officers in charge concerned shall decide which of them shall have immediate responsibility for the investigation.

(b) When an accident or incident occurs at a place where the naval service does not have an installation or unit conveniently located for conducting an investigation, the commanding officer or officer in charge having immediate responsibility for making such investigation may request assistance from the commanding officer of any other organization of the Department of Defense. Such assistance may take the form of a complete investigation of the accident or incident, or it may cover only part of the investigation. Likewise, in the event that under similar circumstances the commanding officer or officer in charge of any other organization of the Department of Defense requests such assistance from the commanding officer or officer in charge of a naval installation or unit, the latter will comply with the request. If a complete investigation is requested, the report will be made in accordance with the regulations of the requested service. These investigations will normally be conducted without reimbursement for per diem, mileage, or other expenses incurred by the investigating installation or unit.

h. Change § 750.37 to read as follows:

§ 750.37 *The investigating officer.* Every investigation required by the regulations in this part shall be conducted by an investigating officer. The commanding officer or officer in charge of each naval activity shall designate a qualified individual under his command, preferably one with legal training and experienced in the conduct of investigations, as the investigating officer for the activity. Whenever necessary, in the discretion of the commanding officer or officer in charge, additional or assistant investigating officers may be appointed, each with all and the same powers as the investigating officer, except that all assistant investigating officers shall be under the general supervision of the investigating officer. To insure prompt investigation of every incident while witnesses are available and before damage has been repaired, the duties of an officer in his capacity as an investigating officer shall ordinarily have priority over any other assignments he may have.

i. Change § 750.38 (a) (5) to read as follows:

(5) To ascertain the nature, extent, and amount of damage and to obtain all pertinent repair bills or estimates, medical, hospital, and associated bills as are necessary to the proper adjudication of a claim against or in favor of the Government which may arise from the incident. For proper method of computing the amount of damages, see § 750.30. Claims for loss of earnings and diminution of earning capacity arising under the Federal Tort Claims Act or the act of December 28, 1945, as amended, after March 29, 1956, require submission by the claimant of a statement by his employer executed before a notary public, or where the claimant is in business for himself a certified copy of company records, showing claimant's age, occupation, wage or salary, and time lost from work as a result of the incident. Where such statements or records are not available, a sworn statement by the claimant will be obtained. Claims for loss of earnings, diminution of earning capacity, medical and hospital expenses, anticipated medical expense, pain and suffering, physical disfigurement, and temporary or permanent injury arising under the Federal Tort Claims Act or the act of December 28, 1945, as amended, require submission by the claimant of a written statement by the attending physician setting forth the nature and extent of the injury and treatment, the duration and extent of the disability involved, the prognosis, and period of hospitalization or incapacity.

j. Change § 750.40 to read as follows:

§ 750.40 *Action by the commanding officer or officer in charge.* The investigative report will be reviewed and, if necessary, returned to the investigating officer for the correction of any omissions noted. If there is a legal officer available, the commanding officer or officer in charge should ordinarily use his services in reviewing and, if desirable, endorsing the report. If the report is in order, it shall be forwarded by endorsement, with any pertinent comments and recommendations. In cases in which the certificate report authorized by § 750.39 (b) is used, the commanding officer or officer in charge may indicate his approval of the certificate report by signing this report in the space provided thereon. One copy of the report shall be retained in the file of the local activity and shall be made available to safety officers for use in accident prevention and to superior commands upon request. The original and one copy of the report, together with all three copies of any claim filed, shall be forwarded by means of the aforementioned endorsement, without regard to chain of command, to the Commandant of the naval district in which the incident occurs, attention District Legal Officer. In cases where the incidents occur outside the geographical limits of any naval district, the commanding officer or officer in charge shall promptly forward such reports to the Judge Advocate General.

k. Change § 750.42 to read as follows:

§ 750.42 *Approval of claims.* (a) Claims cognizable under the provisions governing administrative settlement of federal tort claims under Title 28, United States Code, and §§ 750.1 to 750.7 shall be approved or disapproved, in whole or in part, by any of the following, all of whom are designated to administer those provisions of law for the Navy:

(1) The Judge Advocate General.

(2) The Assistant Judge Advocate General.

(3) The Director, Civil Law Division of the Office of the Judge Advocate General.

(4) The Head, General Claims Branch, Civil Law Division of the Office of the Judge Advocate General.

(5) Such other officers as may be specifically designated by the Secretary of the Navy from time to time on an ad hoc basis to act upon claims arising out of particular incidents.

(6) The Commandant or the District Legal Officer of the naval district within which the claims arose, if the combined liquidated and known potential claims of all possible claimants for the property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident. Two copies of the approval and one copy of the voucher shall be forwarded to the Office of the Judge Advocate General without a letter of transmittal.

(7) The Legal Officer, U. S. Naval Base, Newport, Rhode Island, and the Legal Officer, U. S. Naval Submarine Base, New London, Connecticut, for claims accruing to operators of fishing vessels for damage to nets, booms, lines, and other trawler impedimenta as a result of contact with naval ordnance (mines and torpedoes), if the combined liquidated and known potential claims of all possible claimants for property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident. Two copies of the approval and one copy of the voucher shall be forwarded to the Office of the Judge Advocate General without a letter of transmittal.

(b) Claims cognizable under the act of December 28, 1945, and §§ 750.17 to 750.27 shall be approved or disapproved, in whole or in part by any of the following, all of whom are designated to administer those provisions of law for the Navy:

(1) The Judge Advocate General.

(2) The Assistant Judge Advocate General.

(3) The Director, Civil Law Division of the Office of the Judge Advocate General.

(4) The Head, General Claims Branch, Civil Law Division of the Office of the Judge Advocate General.

(5) Such other officers as may be specifically designated by the Secretary of the Navy from time to time on an ad hoc basis to act upon claims arising out of particular incidents.

(6) The Commandant or the District Legal Officer of the naval district within which the claims arose, if the combined liquidated and known potential claims of all possible claimants for the property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident.

(7) The Legal Officer, U. S. Naval Base, Newport, Rhode Island, and the Legal Officer, U. S. Naval Submarine Base, New London, Connecticut, for claims accruing to operators of fishing vessels for damage to nets, booms, lines, and other trawler impedimenta as a result of contact with naval ordnance (mines and torpedoes), if the combined liquidated and known potential claims of all possible claimants for property damage arising from the accident or incident do not exceed a total amount of $1,000 and there are no known possible claims in any amount for either personal injury or death as a result of the accident or incident.

(8) Foreign Claims Commissions to the extent authorized by Department of Defense Notices of January 28, 1955 (20 F. R. 775) and December 11, 1953 (18 F. R. 8513). (See § 753.33 of this chapter.)

(c) Claims cognizable under the act of July 11, 1919, as amended, and §§ 750.28 to 750.29 shall be approved or disapproved by the Secretary of the Navy.

(d) Subject to the provisions of Title 28, United States Code, section 1346 (b), and §§ 750.8 to 750.16 respecting civil action against the United States, and subject to the provisions of § 750.43, with regard to appeal, any award or determination of the Secretary of the Navy, or his designees, under the provisions governing administrative settlement of federal tort claims under Title 28, United States Code, is final and conclusive upon all officers of the Government, except when procured by means of fraud. Notwithstanding any other provision of law to the contrary, any settlement made by the Secretary of the Navy under the authority of the act of December 28, 1945, and §§ 750.17 to 750.27, or, subject to the provisions of § 750.43 with regard to appeal to the Secretary of the Navy, by his designees for the purpose, is final and conclusive for all purposes.

l. Change § 753.19 (a) to read as follows:

§ 753.19 *Creation.* (a) All commanding officers are hereby granted authority to appoint Foreign Claims Commissions. For the purposes of the Foreign Claims Act and the regulations in this part, the officer in charge of the United States Sending State Office for Italy and naval attachés are to be considered commanding officers. Commissions may be appointed to consider each claim as presented, or to constitute a standing claims commission to consider all claims presented to it. The commanding officer to whom a claim is presented has the duty of referring the claim to a commission and of appointing a commission himself where necessary or expeditious. Each Foreign Claims Commission will be composed of one or more officers.

(Sec. 1, 55 Stat. 880, as amended; 31 U. S. C. 224d)

By direction of the Secretary of the Navy.

W. R. SHEELEY,
Rear Admiral, U. S. Navy, Judge Advocate General of the Navy (Acting).

AUGUST 14, 1956.

[F. R. Doc. 56-6719; Filed, Aug. 20, 1956; 8:46 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

PART 204—DANGER ZONE REGULATIONS

FLUSHING CREEK, N. Y.; PACIFIC OCEAN OFF POINT REYES, CALIFORNIA

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.157 is hereby prescribed to govern the operation of the Whitestone Parkway Bridge across Flushing Creek, New York, as follows:

§ 203.157 *Flushing Creek, N. Y.: Whitestone Parkway Bridge.* (a) The owner of or agency controlling this bridge shall provide the appliances and the personnel necessary for the safe, prompt, and efficient opening of the draw for the passage of vessels.

(b) Vessels owned, controlled, or employed by the United States Government, State Government, or by municipal departments shall be passed without delay through the draw of this bridge at any time, day or night, after giving a signal of four blasts of the whistle.

(c) All other vessels unable to pass under the closed bridge shall be passed through the draw of this bridge at any time, day or night, after giving a signal of three blasts of the whistle, repeated at intervals when necessary until answered from the bridge, except between 6:30 and 9:30 a. m. and 4:00 and 7:30 p. m.

(d) Upon receiving the signal from the vessel, the operator of the bridge, in case the draw can be opened immediately shall reply by three blasts of a whistle or horn. In case of accident to the machinery or other contingency necessitating delay in opening of the draw, the signal from the vessel shall be answered by the operator of the bridge by two blasts of a whistle or horn.

(e) Pedestrians and vehicles shall not be stopped on the bridge for the purpose of delaying its opening, nor shall watercraft or vessels be so manipulated as to hinder or delay the operation of the drawspan, but all passage over, through, or under the bridge shall be prompt, to prevent delay to either land or water traffic.

(f) Clearance gauges of a type to be approved by the District Engineer, Corps of Engineers, shall be provided and kept in good legible condition. Unless otherwise specified, such clearance gauges shall consist of two board gauges painted white with black figures not less than

nine inches high, which shall indicate the headroom clearances under the closed span at all stages of the tide. These gauges shall be so placed, that they will be plainly visible to the operator of a vessel approaching the bridge either upstream, or downstream, and shall be illuminated at night and during periods of decreased visibility caused by fog, rain and snow.

(g) To the end that the draw of the bridge shall not be required to be opened or operated oftener than necessary outside of closed periods specified in paragraph (c) of this section, the height of the highest fixed point above water when light, of each vessel regularly and habitually navigating the waterway, shall be conspicuously posted, where it can be seen by the person in charge of said vessel. Each tug, barge and other small craft regularly and habitually navigating the waterway shall be subject to inspection and measurement by the District Engineer, Corps of Engineers, to determine which vessels, if any, would by reasonable reductions in heights of masts and/or stacks, be capable of passing under the closed draw of the bridge affording a least vertical clearance of 34 feet at mean high water. The said District Engineer will notify the owners of such vessels as can be so modified, of the date by which the modifications shall be completed. In the event of the failure of said owners to comply with such notification, the District Engineer will authorize the bridge owner to delay opening of the bridge for the passage of said vessels until convenient to do so, but on no occasion for more than forty-five minutes: *Provided, however*, That such vessel shall not be so delayed when it has in tow another vessel or craft of such height as to require the opening of the bridge, or when, because of the stress of weather, prompt opening is necessary. Any vessel passing the draw of the bridge as often as once a day for 10 days in any 30-day period, will be regarded as a regular and habitual user of the waterway within the meaning of this paragraph.

[Reg., August 7, 1956, 823.01 (Flushing Creek, N. Y.)—ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

2. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 204. 218 establishing and governing the use and navigation of a naval bomb target area in the Pacific Ocean off Point Reyes, California, is hereby revoked, as follows:

§ 204.218 *Pacific Ocean off Point Reyes, Calif., northwest of Farallon Islands; bombing target area, Naval Air Station, Alameda, Calif.* [Revoked]

[Regs., August 6, 1956, 800.2121 (Pacific Ocean, Calif.)—ENGWO] (Sec. 7, 40 Stat. 266; 33 U. S. C. 1)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 56-6713; Filed, Aug. 20, 1956; 8:45 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—VETERANS CLAIMS

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

PART 5—CENTRAL COMMITTEE ON WAIVERS AND FORFEITURES AND FIELD COMMITTEES ON WAIVERS

MISCELLANEOUS AMENDMENTS

1. In part 3, paragraph (a) of § 3.26 is amended to read as follows:

§ 3.26 *Application for benefits.* (a) A properly completed and executed VA Form 8–526, upon receipt by the Veterans Administration, constitutes an application for benefits indicated below and will be adjudicated under the applicable laws:

VA Form 8–526, Veteran's Application for Compensation or Pension: VA Form 8–526 is designated as an application for either compensation or pension, or both. It constitutes a formal claim for both benefits, and it is not necessary that the veteran subsequently file a separate claim for either. It is not required that the claim be processed or adjudicated for compensation and pension routinely and in all instances. Depending upon the manner of execution, that is, the items of information recorded on the form, it should be readily apparent whether the veteran is claiming either compensation or pension, or both benefits. If items 23, 24, and 25 are used, item 36 checked "No," and items 37 through 49 not used, the claim is for compensation and will be so adjudicated. If items 23, 24, and 25 are used, item 36 checked "Yes," and items 37 through 45 are used, the claim is also only for compensation but with an allegation of total disability. However, all disabilities, both service connected and nonservice connected, will be evaluated and the greater benefit awarded. If items 23, 24, and 25 are used, item 36 checked "Yes," and items 37 through 49 used, the claim is for both compensation and pension. If items 23, 24, and 25 are not used, item 36 is checked "Yes," and items 37 through 49 used, the claim is for pension. Any statement on VA Form 8–526, or in a separate communication, showing an intent to file a claim for additional disability resulting from training, hospitalization, medical or surgical treatment, or examination, filed within 2 years after the injury or aggravation was suffered, may be accepted as a claim under section 31, Public Law 141, 73d Congress; section 12, Public Law 866, 76th Congress; section 2 (par. 4, pt. VII), Public Law 16, 78th Congress, or Public Law 894, 81st Congress.

Under Executive Order 6017, February 7, 1933, and section 1500, Public Law 346, 78th Congress, as amended, diplomatic and consular officers of the Department of State are authorized to act as agents of the Veterans Administration and therefore a formal claim filed in a foreign country will be considered as filed in the Veterans Administration as of the date of receipt by the State Department representative.

* * * * * * *

2. In Part 4, paragraph (b) (3) of § 4.0 is amended to read as follows:

§ 4.0 *Application for death benefits.* * * *

(b) *Furnishing of claim forms by the Veterans Administration.* * * *

(3) *Death due to Veterans Administration hospital treatment, etc.* An application for benefits under section 31, Public Law 141, 73d Congress, section 12, Public Law 866, 76th Congress, section 2 (par. 4, pt. VII), Public Law 16, 78th Congress, or Public Law 894, 81st Congress, will not be initiated. A statement on VA Form VB 8–534 or 8–535 or in a separate communication showing an intent to file a claim under those specific provisions of the law may be accepted as a claim.

* * * * * * *

(Sec. 5, 43 Stat. 609, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

3. In Part 5, § 5.4 is revised to read as follows:

§ 5.4 *Jurisdiction.* The Central Committee on Waivers and Forfeitures has exclusive jurisdiction to consider questions of forfeiture relating to the submission of false or fraudulent evidence, or mutiny, treason, sabotage, or rendering assistance to an enemy of the United States or of its allies. (See sec. 504, World War Veterans' Act, 1924, as amended, 38 U. S. C. 555, as preserved and continued by sec. 11, Public Law 2, 73d Cong., 38 U. S. C. 711; sec. 15, Public Law 2, 73d Cong., 38 U. S. C. 715; sec. 9, Public Law 304, 75th Cong., 38 U. S. C. 510; sec. 4, Public Law 144, 78th Cong., 38 U. S. C. 728; sec. 1500, Public Law 346, 78th Cong., 38 U. S. C. 697; sec. 9, Public Law 23, 82d Cong., 38 U. S. C. 858; and sec. 270, Public Law 550, 82d Cong.) This jurisdiction does not include questions of forfeiture under the National Service Life Insurance Act of 1940 (Public Law 801, 76th Cong.), as amended, or under title V of the Servicemen's Readjustment Act of 1944, as amended. The field Committees on Waivers have no jurisdiction over forfeiture questions.

4. In § 5.5, paragraphs (c) and (d) are amended to read as follows:

§ 5.5 *When forfeiture questions arise.* * * *

(c) The Chief, Veterans Claims Division, if the veteran or alleged veteran is alive and the claim is under the jurisdiction of Veterans Benefits Office—District of Columbia.

(d) The Chief, Dependents Claims Division, if the veteran or alleged veteran is deceased and the claim is under the jurisdiction of Veterans Benefits Office—District of Columbia.

5. In § 5.6, paragraph (a) is amended to read as follows:

§ 5.6 *Actions preliminary to submissions.* (a) Where the question relates to what is thought to be false or fraudulent evidence, it shall be the duty of the official designated in § 5.5 to review the alleged false or fraudulent evidence and authorize an investigation when in his opinion there is reasonable assumption that such evidence is fraudulent, and when in his opinion any prior investigation is inadequate. Where the question involved is one of possible guilt of an offense mentioned in section 4, Public Law 144, 78th Congress, such official shall not request an investigation but shall refer the folder or folders to the Central Committee on Waivers and Forfeitures for development, with a letter or memorandum stating the known facts. However, the Manager, Veterans Administration Regional Office, Republic of the Philippines, may authorize an investigation in the Philippines for the purpose of procuring evidence of an offense named in said section 4, Public Law 144, as well as in those cases involving what is thought to be false or fraudulent evidence; and may also as to the latter class suspend or in death cases recommend suspension of payments if warranted by the circumstances.

* * * * * * *

6. In § 5.7, paragraph (a) is amended to read as follows:

§ 5.7 *Submission of forfeiture questions.* (a) When an investigation has been completed or the evidence considered as provided in § 5.6 (a) and (b), the appropriate official designated in § 5.5 shall determine whether a submission to the Central Committee on Waivers and Forfeitures is warranted; and, if he determines that it is, shall forward the evidence and the folder or folders to said committee for a decision as to whether there is a forfeiture of rights under the statutory provisions specified in § 5.4. A submission may also be made to the Central Committee on Waivers and Forfeitures by the director of a service (or the Chairman, Board of Veterans Appeals, the Chief Medical Director, or the General Counsel) for the office concerned if the facts warrant. Prior to the submission of the folder or folders to the Central Committee on Waivers and Forfeitures for consideration of what is thought to be false or fraudulent evidence, payments shall be suspended as of the date of last payment, pending final action by that committee. Where the question is one of possible guilt of one of the offenses mentioned in section 4, Public Law 144, 78th Congress, payments in an active case shall not be suspended prior to a declaration of forfeiture.

* * * * * * *

7. Section 5.8 is revised to read as follows:

§ 5.8 *Determinations under section 4, Public Law 144, 78th Congress.* Section 4, Public Law 144, 78th Congress, provides in part that "Any person shown by evidence satisfactory to the Administrator of Veterans' Affairs to be guilty of mutiny, treason, sabotage, or rendering assistance to an enemy of the United States or of its allies shall forfeit all accrued or future benefits under laws administered by the Veterans' Administration pertaining to gratuities for veterans and their dependents: * * *" As to any person who is not beyond the jurisdiction of the United States courts, no forfeiture for any of those offenses shall be declared except upon conviction in a court of competent jurisdiction; or otherwise after full notice and hearing with representation by counsel, if desired. Pending trial or hearing and declaration of forfeiture, benefits shall not be suspended or discontinued. If in any case wherein forfeiture for such offenses has been declared, the person shall be later tried within the jurisdiction of the United States courts and found not guilty of the same offense, other than because of the defense of the statute of limitations, the forfeiture may be lifted as of its effective date, but any apportioned payments made in the meantime shall be valid and charged against amounts otherwise payable.

8. In § 5.9, paragraph (a) is amended to read as follows:

§ 5.9 *Decisions and actions pursuant thereto.* (a) When it is determined that a forfeiture is in order, the Central Committee on Waivers and Forfeitures shall render a decision to that effect. In cases involving section 4, Public Law 144, 78th Congress, a declaration of forfeiture must be approved by the Director, Compensation and Pension Service, and by the General Counsel. The decision shall be final unless appeal therefrom to the Administrator of Veterans Affairs is made in accordance with existing appeals regulations and procedure. In any case where there has been a forfeiture of rights, the claims folder and the R & E folder shall be retained in the Veterans Benefits Office, District of Columbia, during the lifetime of the person whose rights are forfeited, except that in the event entitlement to Veterans Administration benefits is claimed on the basis of service in the Armed Forces subsequent to the commission of the offense on which forfeiture determination was based, veterans records will, upon request, be permanently transferred to the regional office of jurisdiction. It is the duty of the division having jurisdiction over the benefits affected by the forfeiture to discontinue payments by stop payment notice as of the proper definite date, i. e., the date of the commission of the offense, or in section 4, Public Law 144, 78th Congress cases, the date of the decision of forfeiture, or where appropriate, date of last payment.

* * * * * * *

9. In § 5.10, paragraphs (a), that portion of (b) immediately preceding (1), (c), and (e) are amended to read as follows:

§ 5.10 *Central Committee on Waivers and Forfeitures.* (a) The Central Committee is established in central office under a Chairman and Section Chairmen. The Chairman is responsible to the Director, Compensation and Pension Service.

(b) The Central Committee has original jurisdiction to consider:

* * * * * * *

(c) The Chairman of the Central Committee is authorized by the Administrator to certify waivers of recovery of overpayments or of collection of indebtedness specified in § 5.0 (a), (b), (c), and (d). The Section Chairmen are authorized to perform this function in the absence of the Chairman, or when directed by him.

* * * * * * *

(e) Three members of the Central Committee, including the Chairman or a Section Chairman, must concur in a forfeiture decision. These three members will be the same group to whom a case was assigned for consideration, hearing and decision. In case of nonconcurrence by any one member, the case will be assigned to the entire Central Committee for majority decision after full and impartial consideration. A decision shall, in other than section 4, Public Law 144, 78th Congress cases, be final. In the excepted cases a declaration of forfeiture shall be subject to the approval or disapproval of the Director, Compensation and Pension Service, and the General Counsel. Except as to the determinations specified in § 5.13 (b), all declarations of forfeiture shall be subject to an appeal to the Board of Veterans Appeals in accordance with existing appeals regulations and procedure. The Central Committee shall render a final decision on any request for an administrative review of a determination that an educational institution or training establishment is liable under section 7, Public Law 610, 81st Congress, or section 266, Public Law 550, 82d Congress, for an overpayment of subsistence allowance or educational and training allowance; and any such decision shall be valid if it is concurred in and signed by any two members of the specially constituted review section that is designated in § 5.13 (b).

* * * * * * *

10. Section 5.11 is revised to read as follows:

§ 5.11 *Committees on Waivers in field offices.* (a) In each district office and regional office there is established a field Committee on Waivers, consisting of three members designated from among the employees of that field office, whose service on the committee is in addition to their regular duties. In the Veterans Benefits Office, District of Columbia, there are established two field Committees on Waivers, of three members each, whose service on the committee is in addition to their regular duties as employees of the Veterans Benefits Office. No authorized certifying officer of the finance activity shall serve as a member of any of these committees. The Manager of the field office shall designate the members of the committee. In regional offices, the committee shall function directly under, and be administratively responsible to, the adjudication officer. In district offices, the committee shall function directly under, and be administratively responsible to, the Director, Claims Service. In the Veterans Benefits Office, District of Columbia, the two committees shall function directly under, and be administratively responsible to, the Chief, Veterans Claims Division, and the Chief, Dependents Claims Division, respectively. If the Manager of the field office considers that a larger committee is necessary because of unusual conditions he may appoint additional members for the period during which such conditions prevail, but the membership of the committee shall not exceed seven. Questions of the jurisdiction of the committee and the assignment of cases to its members shall be determined by the Chairman. The Manager of the field office shall re-

port to the Chairman, Central Committee on Waivers and Forfeitures, the name of each person designated as a member of the Committee on Waivers and the name of each person appointed as Chairman or Section Chairman.

(b) The Committee on Waivers shall have one Chairman; and either one Section Chairman or two Section Chairmen, at the discretion of the Manager, all appointed by the Manager. The Chairman and Section Chairmen are members of the committee. The duties of the Chairman shall be discharged by a Section Chairman when the Chairman is absent or when he authorizes the Section Chairman to do so. The Chairman and the Section Chairmen have been delegated authority to certify waiver of recovery of overpayments.

11. In § 5.13, paragraphs (a) and (b) (1) are amended to read as follows:

§ 5.13 *Administrative reviews.* * * *

(a) Except as provided in paragraph (b) of this section, a request for an administrative review of a decision of a Committee on Waivers may be made by (1) the claimant, his guardian, his agent duly authorized over the claimant's signature, or (2) on the part of the Veterans Administration, by the Manager of the field office. The request must be in writing and, unless the committee extends the time, shall be presented within 60 days from receipt of notice of the field committee's action. An additional period of 30 days may be granted when, in the committee's judgment, exceptional circumstances justify. The Central Committee may make an administrative review, on its own motion, of any decision of a field Committee on Waivers. A decision rendered upon administrative review by the Central Committee on Waivers and Forfeitures shall be subject to the right of any Chief Director or Service Director concerned or the General Counsel to appeal to the Administrator of Veterans Affairs within 1 year from the date thereof with decisions to be made by the Board of Veterans Appeals.

(b) * * *

(1) There is established in the Central Committee on Waivers and Forfeitures a specially constituted review section which will be comprised of three members, one of whom is to be designated by the Chairman, Central Committee on Waivers and Forfeitures, one by the Director, Vocational Rehabilitation and Education Service, and one by the General Counsel. This section will function under the jurisdiction of the Chairman of the Central Committee on Waivers and Forfeitures who will preside over the meetings of said section or will designate one member to preside in his stead to be known as a Section Chairman. An administrative review decision under this paragraph will be valid if it is concurred in and signed by any two members of the review section. The section that is constituted in this paragraph will have jurisdiction to conduct administrative reviews of decisions of the field Committee on Waivers in:

* * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707. Interpret or apply secs: 28, 504, 43 Stat. 615, 629, as amended, sec. 4, 46 Stat. 529, as amended, secs. 11, 15, 48 Stat. 10, 11, sec. 9, 50 Stat. 662, sec. 1, 53 Stat. 1252, secs. 1, 609, 54 Stat. 1193, 1013, secs. 1, 4, 57 Stat. 554, 555, sec. 1500, 58 Stat. 300, sec. 1, 60 Stat. 908, sec. 9, 65 Stat. 35, Vet. Reg. 1 (a), Part VIII, as amended, secs. 270, 271, 66 Stat. 681, 67 Stat. 192; 38 U. S. C. 33, 36, 453, 507a, 510, 555, 697, 715, 717 note, 727, 728, 739, 80o, 858, ch. 12A)

This regulation is effective August 21, 1956.

[SEAL] JOHN S. PATTERSON,
Deputy Administrator.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Rules Amdts. 1-6, 9-4; FCC 56-789]

PART 1—PRACTICE AND PROCEDURE

PART 9—AVIATION SERVICES

USE OF CIVIL AIR PATROL APPLICATION FORM (FCC FORM 480) FOR RENEWAL OF CAP AUTHORIZATIONS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 15th day of August 1956;

The Commission having under consideration a request by National Headquarters, Civil Air Patrol, to permit the use of FCC Form 480 for renewal of CAP authorizations; and

It appearing that, approval of the above-described request is justified in terms of increased efficiency in the handling of CAP applications, both within the Commission and the CAP National Headquarters; and

It further appearing that, since the amendments herein ordered are procedural and editorial in nature, notice of proposed rules making under section 4 (a) of the Administrative Procedure Act is unnecessary and would serve no useful purpose;

It is ordered, That, pursuant to authority contained in sections 303 (r) and 308 (b) of the Communications Act of 1934, as amended, Parts 1 and 9 of the Commission's rules and regulations be amended, effective the 17th day of September, 1956, as set forth below.

(Sec. 4, 48 Stat. 1066, as amended, 47 U. S. C. 154. Interpret or apply secs. 303, 308, 48 Stat. 1083, 1085; 47 U. S. C. 303, 308)

Released: August 16, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] DEE W. PINCOCK,
Acting Secretary.

1. Amend § 1.312 (e) to read as follows:

(e) FCC Form 480, "Application for Civil Air Patrol Radio Station Authorization."

2. Amend § 9.108 (e) to read as follows:

(e) Application for renewal of radio station license, except Civil Air Patrol, shall be submitted on FCC Form 405-A. Application for renewal of Civil Air Patrol radio station authorization shall be submitted on FCC Form 480. Unless otherwise directed by the Commission, each application for renewal of license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the Commission's rules made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

[F. R. Doc. 56-6748; Filed, Aug. 20, 1956; 8:51 a. m.]

[Rules Amdt. 12-22]

PART 12—AMATEUR RADIO SERVICE

MISCELLANEOUS AMENDMENTS

The Commission having under consideration the desirability of making certain editorial changes in §§ 12.23, 12.27, 12.156 and Appendix 1 of its rules governing Amateur Radio Service; and

It appearing that the amendments adopted herein are editorial in nature, and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), (5) (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's statement of organization, delegations of authority and other information;

It is ordered, This 16th day of August 1956, that, effective August 27, 1956, Part 12 is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; sec 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: August 16, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] DEE W. PINCOCK,
Acting Secretary.

1a. Section 12.23 (e) (2) (i) is amended to read as follows:

(i) 3700 to 3750 kc, radiotelegraphy using only type A1 emission.

b. Section 12.23 (e) (2) (iv) is amended to read as follows:

(iv) 145 to 147 Mc, radiotelegraphy or radiotelephony using types of emission as set forth in Section 12.111.

2. Section 12.27 (d) is amended to read as follows:

(d) A renewal application which includes a modification (change of address) shall be submitted on FCC Form 610 and shall be accompanied by the applicant's amateur operator license, and also by his amateur station license if he holds one.

3. That portion of § 12.156 which precedes paragraph (a) is amended as follows: Change "Regional Manager" to "Engineer in Charge."

4. Appendix I of Part 12 is amended to delete the list of the offices of the Regional Managers of the Field Engineering and Monitoring Bureau.

[F. R. Doc. 56-6749; Filed, Aug. 20, 1956; 8:51 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1320]

[1267231]

IDAHO

REVOKING EXECUTIVE ORDER NO. 4682 OF JULY 4, 1927, WHICH WITHDREW PUBLIC LAND FOR USE OF STATE OF IDAHO AS A RIFLE RANGE FOR IDAHO NATIONAL GUARD

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 4682 of July 4, 1927, which withdrew the following-described public land for use of the State of Idaho as a rifle range for the Idaho National Guard is hereby revoked:

BOISE MERIDIAN

T. 4 N., R. 38 E.,
Sec. 18, NW¼.

The area described aggregates approximately 157.48 acres.

The land is located in Jefferson County about 5½ miles west of Rigby, Idaho, at an elevation of about 4,800 feet. The soil is mainly of sandy texture formed from disintegrated basalt. There is considerable lava rock outcrop and float rock. Vegetative cover is primarily sagebrush, cheatgrass, Russian thistle and some annual weeds. The land is within Grazing District No. 3.

No application for the land may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The land will not be subject to occupancy or disposition until it has been classified.

Subject to any valid existing rights and the requirements of applicable law, the land is hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on September 20, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 20, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10 a. m. on December 20, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

b. The land has been opened to applications and offers under the mineral-leasing laws, and to location for metalliferous minerals. It will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on December 20, 1956.

Inquiries concerning the land shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

FRED A. SEATON,
Secretary of the Interior.

AUGUST 15, 1956.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Part 814]

[Hearing Clerk Docket No. SH-138]

1956 SUGAR QUOTAS FOR PUERTO RICO

NOTICE OF REOPENED HEARING

Pursuant to the provisions of the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 318, 7 U. S. C. 1100 et. seq.), hereinafter referred to as the "act," the 1956 Mainland quota of 1,080,000 short tons, raw value, and the direct-consumption portion thereof amounting to 123,033 short tons, raw value, for Puerto Rico as established by Sugar Regulation 811 (20 F. R. 9848) and the local quota of 100,000 short tons, raw value, for Puerto Rico as established in Sugar Regulation 812 (20 F. R. 9850) were allotted in Sugar Regulation 814.15, Amendment 1 (21 F. R. 5819) and 814.16 (20 F. R. 9901; 21 F. R. 105). The act was amended by Public Law 545, 84th Congress, approved May 29, 1956, which provided, among other things, for increases in the mainland and direct-consumption quotas for Puerto Rico above the previously fixed levels when total sugar requirements exceed 8,650,000 short tons, raw value. In accordance therewith, the 1956 mainland quota for Puerto Rico was increased by 13,750 short tons, raw value, to total 1,093,750 short tons, raw value, by Sugar Regulation 811, Amendment 4 (21 F. R. 6009) effective August 11, 1956, and the 1956 direct-consumption portion of the quota for Puerto Rico will be increased by 1,605 short tons, raw value, to total 127,638 by a subsequent amendment to Sugar Regulation 811.

In view of such increases in the 1956 sugar quotas for Puerto Rico and to provide a basis for the allotment thereof and any further changes in such quota, it is necessary to reopen the record and hearing in the proceedings pertaining to the allotment of such quota identified as Hearing Clerk Docket No. SH-138, to permit evidence, limited to the subjects and issues hereafter stated, to be introduced into such record. Accordingly, pursuant to section 205 of the act (62 Stat. 926, as amended by sec. 10, Public Law 545, 84th Congress) and in accordance with the applicable rules of practice and procedure (21 F. R. 4251) notice is hereby given that a public hearing will be held in Room 2W, Administration Building, U. S. Department of Agriculture,

August 31, 1956, beginning at 9:30 a. m., e. d. s. t.

The scope of such hearing will be limited to the presentation of evidence relevant and pertinent to the following subjects and issues.

1. The allotment, in accordance with section 205 of the act, of (a) the increase of 13,750 short tons, raw value, in the 1956 mainland sugar quota for Puerto Rico and the allotment of any further increases or reductions of that part of the quota in excess of 1,080,000 short tons, raw value, and (b) any increase or decrease in the local quota for Puerto Rico, and (c) the indicated increase of 1,605 short tons, raw value, in the portion of the quota for Puerto Rico which may be filled by direct-consumption sugar and the allotment of any further increases or reductions of that part of the direct-consumption limit in excess of 126,033 short tons, raw value.

At the hearing, the Department of Agriculture will propose (1) that the increase of 13,750 short tons, raw value, in the 1956 mainland sugar quota for Puerto Rico, and any further increases or reductions of that part of the mainland quota in excess of 1,080,000 short tons, raw value, and any increase or decrease in the local quota for Puerto Rico be allotted in the same manner used in determining local and mainland allotments as established in S. R. 814.15, Amendment 1 (21 F. R. 5819), and (2) that the increase of 1,605 short tons, raw value, in the portion of the quota for Puerto Rico which may be filled by direct-consumption sugar and any further increases or decreases therein in excess of 126,033 short tons, raw value, be allotted in the same manner used in determining allotments established in S. R. 814.16 (20 F. R. 9901).

It also will be appropriate at the hearing to present evidence of any corporate merger or consolidation or of any transfer of sugar processing facilities on the basis of which the Secretary may attribute the production, marketing and inventory of one processor to another and establish allotments accordingly, or may permit marketing of sugar for local consumption and bringing into continental United States for consumption therein by one allottee, or other person, within the allotment of another. A Government witness will propose that a paragraph be included in the allotment order as follows: "The Director of the Sugar Division, Commodity Stabilization Service, of the Department, may, consistent with the provisions and objectives of the Sugar Act, permit marketing of sugar for local consumption in Puerto Rico and bringing sugar into continental United States for consumption therein by one allottee, or other person, within the allotment or portion thereof established for another allottee upon receipt of evidence satisfactory to him of a merger, consolidation, transfer of sugar processing facilities, or other action of similar effect upon the allottees or persons involved, and upon relinquishment by one of the allottees of all or a portion of its allotment."

Issued at Washington, D. C., this 16th day of August 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 56-6744; Filed, Aug. 20, 1956; 8:50 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41]

[Draft Release No. 56-21]

REQUIREMENTS FOR PILOT ROUTE QUALIFICATIONS IN SCHEDULED INTERSTATE AIR CARRIER OPERATIONS AND SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of a Special Civil Air Regulation to supersede Special Civil Air Regulations Nos. SR-413 and SR-414 and to extend the authority therein which permits pilots to be qualified at airports by means other than those required by the applicable provisions of Parts 40 and 41 of the Civil Air Regulations.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by Sept. 14, 1956. Copies of such communications will be available after Sept. 17, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The Board, on September 23, 1955, promulgated Special Civil Air Regulation No. SR-413 and on December 23, 1955, promulgated Special Civil Air Regulation No. SR-414. These regulations permit air carriers, with the approval of the Administrator, to qualify their pilots at airports by means other than physical entry. SR-413 is applicable to scheduled air carrier operations outside the continental limits of the United States, whereas SR-414 is applicable to scheduled domestic air carrier operations. Both SR-413 and SR-414 terminate September 23, 1956.

The history of these special regulations began with the publication by the Bureau of Safety Regulation of Civil Air Regulations Draft Release No. 55-3 on January 20, 1955. This draft release was concerned with the overall problem of pilot airport and route qualification. Therein considerable emphasis was placed in particular on recent developments of motion picture panoramic view of airports and their environs which showed excellent promise of providing an effective means for insuring pilot airport qualification. The Bureau expressed the view that the regulations should be amended in a manner that would encourage further research and development of the visual training aids programs by various commercial sources and at the same time provide more acceptable airport qualification rules for use in the meantime. Furthermore, the Bureau stated that it would seem appropriate to permit methods of airport qualification other than physical entry, provided that such alternative methods had the approval of the Administrator.

Following publication of Draft Release No. 55-3, the Board received petitions from American Airlines, Inc., and Pan American World Airways, Inc., requesting permission to qualify their pilots on certain routes and at specified airports by means other than those presently required by §§ 40.303 (c) and 41.50 of Parts 40 and 41, respectively, of the Civil Air Regulations. These air carriers based their requests upon, among other things, the consideration that each had developed a comprehensive training program based on the use of color motion pictures or slides showing clear daylight views of the complete physical layout of the airports, surrounding terrain, obstructions, approaches to all runways, restricted areas, and conspicuous reference points that are of value to the pilot. Furthermore, it appeared that certain precautionary procedures would be employed to assure that the training programs would be effective and the operations would be conducted safely.

The Board considered that the programs developed by these air carriers would provide a timely opportunity for evaluating the use of pictorial means of airport and route qualification by industry and the Government, and that a Special Civil Air Regulation was the appropriate vehicle for permitting the controlled introduction of the new techniques. Accordingly, the Board promulgated SR-413 for air carriers conducting operations pursuant to Part 41 and SR-414 for those air carriers conducting their operations under Part 40. The Board made clear, however, that nothing in SR-413 and SR-414 was to be construed to prejudice final action by the Board on the proposals presented originally in Draft Release No. 55-3.

In view of the fact that Special Civil Air Regulations Nos. SR-413 and SR-414 will terminate on September 23, 1956, the Bureau, on June 15, 1956, requested the views of the Civil Aeronautics Administration (CAA), the Air Transport Association (ATA), and the Air Line Pilots Association (ALPA) with respect to the effectiveness of SR-413 and SR-414 and asked for any recommendations they might have concerning these special regulations.

In consideration of an evaluation made of the views and recommendations received from the CAA, ALPA, and ATA, the Bureau believes that the controlled introduction of new pictorial techniques of pilot airport qualification should be permitted to continue for another year. This will enable industry and the Government alike to obtain additional information and experience with respect to improving pilot airport qualifications and procedures.

However, the Bureau is cognizant of the Board's policy that the same standards should be applied to scheduled international and domestic operations, except where the inherent differences in the types of operations require differentiation. It is the Bureau's opinion that pilot airport qualification is a type of operation which can be conducted uniformly in both international and domestic operations. Accordingly, the Bureau proposes herein to combine the authority presently contained in SR-413 and SR-414 into one Special Civil Air Regulation, the provisions of which would be uniformly applicable to Parts 40 and 41 air carriers desiring to employ means of pilot airport qualification other than those presently required by §§40.303 (c) and 41.50 of Parts 40 and 41, respectively. The language used is essentially the same as that presently contained in SR-414, with certain modifications and additions which are discussed below.

This proposed special regulation contains a provision which would permit a pilot to make an initial entry at an airport under day VFR without being accompanied by a pilot qualified at the airport only when such entry has the approval of the Administrator. While it is recognized that many airports could be safely entered for the first time under minimum VFR conditions, it is proposed to require the approval of the Administrator because it is believed that such an initial entry at airports located in certain mountainous or congested areas would be an undesirable practice in an air carrier operation.

Special Civil Air Regulations Nos. SR-413 and SR-414 provide that physical entry shall not be required if the air carrier shows that the pilot airport qualification can be accomplished by "other means" approved by the Administrator. It has come to the Bureau's attention that there is need to clarify the meaning of the words "other means." During the past three years, these words have had significance only in two respects: First, to permit pilot airport qualification by approved pictorial means; and second, to authorize the Administrator to find, on the basis of certain factors surrounding a transfer of an air carrier's operations to an airport in close proximity to one at which the pilots are qualified, that the pilots involved are adequately qualified at the new airport even though they have not made an actual entry. Therefore, in this proposed special regulation, the words "other means" are omitted and the two aforementioned situations are clearly spelled out as those to be covered by this regulation.

It should be clearly understood that this proposed temporary regulation will not relieve any air carrier of the responsibility of showing that each pilot in command is thoroughly qualified for the routes and airports which he is scheduled to serve. Furthermore, nothing in this proposed regulation should be construed to prejudice final action by the Board on the proposals presented in Draft Release No. 55-3.

In view of the foregoing, notice is hereby given that it is proposed to promulgate a Special Civil Air Regulation to read as follows:

Contrary provisions of Parts 40 and 41 of the Civil Air Regulations notwithstanding, an air carrier conducting scheduled interstate operations or scheduled operations outside the continental limits of the United States may, subject to the approval of the Administrator, comply with the following provisions in lieu of the applicable provisions of §§ 40.303 and 41.50:

(a) The air carrier shall be responsible that each pilot in command is thoroughly qualified for the route over which he is to fly aircraft in scheduled air transportation as a pilot in command. An air carrier shall not utilize a pilot as pilot in command until he has been qualified for the route on which he is to serve at least in accordance with paragraphs (b), (c), (d), and (e) of this regulation and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall demonstrate adequate knowledge concerning the subjects listed below with respect to the route to be flown. Those portions of the demonstration pertaining to holding procedures and instrument approach procedures may be accomplished in a synthetic trainer which contains the radio equipment and instruments necessary to simulate the navigational and letdown procedures approved for use by the air carrier:

(1) Weather characteristics,
(2) Navigational facilities,
(3) Communication procedures,
(4) Type of en route terrain and obstruction hazards,
(5) Minimum safe flight levels,
(6) Position reporting points,
(7) Holding procedures,
(8) Pertinent traffic control procedures, and
(9) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional and refueling airport approved for the route.

(c) Each such pilot shall make an entry as a member of the flight crew at each regular, provisional, and refueling airport into which he is scheduled to fly. Such entry shall include a landing and take-off. The qualifying pilot shall occupy a seat in the pilot compartment. He shall be accompanied by a pilot who is qualified at the airport, except when such entry is approved by the Administrator to be made under day VFR.

(d) An air carrier shall not be required to qualify its pilots in accordance with the entry requirements of paragraph (c) of this regulation when the air carrier:

(1) Shows that the pilot airport qualifications can be accomplished by an approved pictorial means; or

(2) Notifies the Administrator that it intends to inaugurate operations at an airport in close proximity to an airport into which the pilots involved are presently qualified by entry, and the Administrator finds that such pilots are adequately qualified at the new airport. The Administrator, in making such finding, shall take into consideration at least the familiarity of the pilots with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport, and such other factors as the Administrator deems necessary to support such a finding.

(e) On routes on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the center line of the route to be flown, the pilot shall be familiarized with such route by not less than two one-way trips as pilot or additional member of the crew over the route under CFR weather conditions to permit the qualifying pilot to observe terrain along the route.

It is proposed that this regulation shall supersede Special Civil Air Regulations Nos. SR-413 and SR-414 and shall be effective for a period of one year.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comment received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., August 13, 1956.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11297; FCC 55-1120]

TELEVISION BROADCAST STATIONS

NOTICE OF PROPOSED RULE MAKING

1. The commission has under consideration its notice of proposed rule making (FCC 55-268) issued in this proceeding on March 3, 1955 and published in the FEDERAL REGISTER on March 9, 1955 (20 F. R. 1410), proposing to amend § 3.685 of its rules governing Television Broadcast Stations, which relates to the location of transmitter and antenna systems. The proposed amendment would require television antennas to be located within 5 miles of the nearest border of the city or boundary of the principal community to be served unless good cause is shown for locating the site beyond this limit. The notice was issued in response to a petition filed by Lake Huron Broadcasting Corporation, Saginaw, Michigan.

2. Joint comments in support of the proposal were filed by Boise Valley Broadcasters, Inc., Boise, Idaho; KCOR, Inc., San Antonio, Texas; King Broadcasting Company, Seattle, Washington; KOTV, Inc., Tulsa, Oklahoma; Lucille Ross Lansing, Tyler, Texas; Meredith Engineering Company, Kansas City, Missouri; Meredith Syracuse Television Corporation, Syracuse, New York; Meredith WOW, Inc., Omaha, Nebraska; Nathan Frank, New Bern, North Carolina; Premier Television, Inc., Evansville, Indiana; Sir Walter Television Company, Raleigh, North Carolina; Southwestern Radio and Television Company, Fort Smith, Arkansas; Tupelo Citizens Television Company, Tupelo, Mississippi; TV Denver, Inc., Denver, Colorado; and Wabash Valley Broadcasting Corporation, Terre Haute, Indiana. Comments supporting the proposal were also filed by Lake Huron Broadcasting Corporation, Saginaw, Michigan; the Department of Defense, Washington, D. C.; Susquehanna Broadcasting Company, York, Pennsylvania; Mount Hood Radio and

Television Broadcasting Corporation, Portland, Oregon; Mid-Florida Radio Corporation and Mid-Florida Television Corporation, Orlando, Florida; Twin Valley Broadcasters, Inc., Coldwater, Michigan; The Montana Network, Billings, Montana; WKY Radiophone Company, Oklahoma City, Oklahoma; Northeastern Indiana Broadcasting Company, Inc., Fort Wayne, Indiana; Central Florida Broadcasting Company, Orlando, Florida; WORZ, Inc., Orlando, Florida; Havens and Martin, Inc., Richmond, Virginia; Greenville Television Company, Greenville, South Carolina; and Houston Consolidated Television Company, Houston, Texas. Triangle Broadcasting Corporation, Winston-Salem, South Carolina; and Arnold, Fortas and Porter, Esqs., Washington, D. C., submitted comments with respect to the application of the proposed amendment.

3. Comments in opposition to the proposed amendment were filed by Albuquerque Broadcasting Company, Albuquerque, New Mexico; WJR, The Goodwill Station, Inc., Flint, Michigan; The New Britain Broadcasting Company, New Britain, Connecticut; WGAL, Inc., Lancaster, Pennsylvania; Associated Broadcasters, Inc., Bethlehem, Pennsylvania; The National Association of Radio and Television Broadcasters, Washington, D. C.; Voice of Dixie, Incorporated, Birmingham, Alabama; Gulfport Broadcasting Corporation, Pensacola, Florida; Capitol Broadcasting Company, Raleigh, North Carolina; KTBS, Inc., Shreveport, Louisiana, and others; Bell Publishing Company, Temple, Texas; Gulf Television Company, Galveston, Texas; Association of Federal Communications Consulting Engineers, Washington, D. C.; WCHS–TV, Inc., Charleston, West Virginia; Telrad, Inc., Daytona Beach, Florida; Deep South Broadcasting Company, Selma, Alabama; Tribune Publishing Company, Tacoma, Washington; A. Earl Cullum, Jr., Dallas, Texas; WMBD, Inc., Peoria, Illinois; Storer Broadcasting Company; McClatchy Broadcasting Company; WHAS, Inc., Louisville, Kentucky; Aladdin Broadcasting Corporation, Denver, Colorado; Intermountain Broadcasting and Television Corp., Salt Lake City, Utah; WSTV, Inc., Steubenville, Ohio; Midwestern Broadcasting Company, Traverse City, Michigan; Sarkes Tarzian, Inc., Bloomington, Indiana; KHQ, Inc., Spokane, Washington; K-Six Television, Inc., Corpus Christi, Texas; Tri-Cities Television Corporation, Bristol, Tennessee; American Broadcasting-Paramount Theaters, Inc.; Columbia Broadcasting System, Inc.; Allan B. DuMont Laboratories, Inc.; National Broadcasting Company, Inc.; National Council of Farmer Cooperatives, Washington, D. C.; The National Grange, Washington, D. C.; and The American Farm Bureau Federation.

4. Under the Commission's present rules television stations are afforded considerable latitude and flexibility in selecting their transmitter and antenna sites. The rules contain no provisions which specify the distance such sites must be located from the principal community a station is authorized to serve. However, certain rules do have a limiting effect on the choice of a site. Section 3.607 provides that television channels are available for use in the cities listed in the Table of Assignments (3.606) and to communities within 15 miles of such listed cities. Section 3.610, relating to minimum co-channel and adjacent channel separations, requires that transmitters be located a minimum distance from certain other stations and assignments. Section 3.685 (a) further limits the location of transmitters by specifying that stated minimum field intensity contours must be placed over the entire community to be served. Section 3.685 (b) provides that the antenna shall be located at a point of high elevation to reduce the shadow effect on propagation due to hills and buildings and that, in general, the antenna should be located at the most central point at the highest elevation available. Certain additional general criteria to guide the selection of antenna sites are set forth in this section, but the maximum distance that antennas may be located from the community to be served is not specified.

5. In the above-mentioned notice the Commission proposed to amend § 3.685 by adding the following paragraph:

(j) (1) Subject to subparagraphs (2) and (3) of this paragraph, no application will be granted proposing the location of the antenna more than five miles from the nearest border of the city limits or boundary of the principal city to be served.

(2) The foregoing provision may be waived only upon written request by the applicant if the Commission shall find that the public interest, convenience or necessity would be better served by the location of the antenna as proposed instead of within the five-mile limit.

(3) Any request for waiver shall set forth the facts and reasons warranting such a finding and shall include the following information:

(i) A full disclosure of all understandings and agreements, oral or written, with any network organization or representatives thereof, pertaining to network affiliations or pertaining to the availability of network programs contingent upon the proposed location of the antenna.

(ii) A full disclosure of the applicant's known plans with respect to the location of all studios, main or otherwise, the hours of local programming, and a description of the general nature thereof, proposed to be provided through each such studio.

(iii) A full disclosure of all of the applicant's reasons for proposing the location of the antenna outside the five-mile limit and the facts which the applicant believes demonstrate that locating the antenna as proposed would better serve the public interest, convenience and necessity.

6. The parties supporting the proposed amendment submit that the nationwide television Table of Assignments is predicated upon assignment principles and priorities which represent a fair, efficient, and equitable distribution of available facilities as required by section 307 (b) of the Communications Act. They maintain that the proposed five-mile limitation on transmitter and antenna sites is required to insure that television channels are employed to serve primarily the communities and areas for which the channels have been assigned as contemplated by the basic television channel assignment plan and to prevent a relative concentration of service in particular areas and communities at the expense or to the detriment of others. They urge that the present absence of restrictions on transmitter sites can result in a substantial circumvention of the television assignment plan. Several cases are cited wherein applicants have allegedly attempted to "straddle" other markets and to "leap frog" assignments by choosing sites at considerable distances from the principal community to be served. It is contended that stations conducting a regional type of operation at sites remote from the principal community design their programming and commercial efforts for the larger markets, which generally already have adequate service, instead of for the principal communities and areas to be served, or employ a general programming format that includes little or no programming tailored particularly for the communities the stations are authorized to serve. It is charged that as a result the competitive position of local stations, particularly UHF, in such other markets are jeopardized and the principal communities to be served are deprived of the local service contemplated under the Table of Assignments. It is further asserted that to permit stations to achieve economic dominance in a wide, regional market through location of their transmitter at great distances from the principal community to be served is contrary to the public interest and to the furthering of competition. It is urged that location of the transmitter and antenna system relatively close to the principal community and the main studio would make possible better overall technical operation and on-the-spot management more closely identified with the principal community to be served; that it would tend to provide a better signal over the principal community and a more uniform signal over the trade area; that it would discourage the straddling of two or more communities and that it would discourage regional operations at sites distant from the principal communities to be served which thwart the establishment of television station operations for local self-expression. The Department of Defense is of the opinion that the proposed amendment would materially assist it and the Commission in preventing the erection of obstructions that would be menaces to air navigation.

7. While recognizing that the Commission has stated on a number of occasions that antenna sites at points substantially distant from the principal city would be considered on a case-to-case basis, Port Huron urges that the proposed rule would assist the Commission in considering the problems on a case-to-case basis by delineating the relevant factors. It is also stated that the proposed rule would furnish applicants with a guide as to the showing required for location of an antenna at a distance from the city to be served.

The parties urge that the proposed amendment is reasonable and not overly restrictive since the five-mile limitation would not be an absolute requirement and would not preclude an application which, by an appropriate showing, establishes a proper basis for locating the transmitter and antenna system outside the five-mile limit. However, they recognize the need for a waiver provision to take care of individual cases where special circumstances, such as air hazard considerations, local zoning restrictions, etc., may prevent compliance with the five-mile requirement. But it is urgent that waivers should not be granted on an automatic basis. It is suggested by some of the parties that applicants proposing sites outside the five-mile limit be required to furnish the engineering data originally suggested in the Lake Huron petition in order for the Commission to obtain the necessary data on areas and populations losing service, the existing services available to these areas, etc., so that the merits of such proposals can be assessed.

8. Several of the parties urge that, in order to avoid undue hardship, the rule should be prospective only and that it should exempt existing authorizations and applications already on file or in hearing. Other parties suggest that the rule be made applicable to pending applications; that pending applications in conflict with the rule be considered on a "case-to-case basis" with a view to withholding action until a decision is rendered in this proceeding; and that the rule apply to existing stations which propose to increase their coverage by increase in transmitter power, effective radiated power, antenna height or other modification. Lake Huron notes that the proposed amendment would enable an applicant to defeat the purpose of the rule and locate its transmitter up to 20 miles away from the city to which the channel is assigned. It argues that this could be done by selecting as the community to be served a city within 15 miles of the city to which the channel is assigned in the Table under the provisions of the "15-mile rule" (§ 3.607) and then locating the transmitter five miles from the nearest boundary of that community.

9. The parties opposing the proposed amendment direct many of their objections to the lack of any need for its adoption and to its invalidity. They urge that the present requirements afford applicants reasonable latitude for selection of the best possible sites and, at the same time, provide adequate safeguards to assure that the sites selected will serve the public interest and be consistent with the overall purpose of the assignment plan. They note that the Commission is not required to grant an application unless it would serve the public interest and that, in determining whether it meets this criterion, it can afford full consideration to the site proposed from the standpoint of whether it effectuates a fair, efficient and equitable distribution of television service and whether it would deprive areas and population of service. They submit that the Commission has recognized in its rules (§ 3.685) that the choice of a transmitter location depends upon a variety of factors which may differ in each case and that the general factors which should go into a choice of sites are delineated with sufficient clarity and completeness. They point out that the rules and the application form require applicants to make full disclosures as to proposed antenna sites as well as understandings regarding ownership, management, control and networks, and that the Commission has authority under section 308 (b) of the Communications Act to secure whatever additional information it requires. They urge the Commission to continue its present policy of considering antenna site proposals on a case-to-case basis.

10. Some parties charge that the Commission has a duty to consider site proposals on a case-to-case basis and cannot avoid this responsibility by any "cut and dried" formula. It is pointed out that the question of appropriate location of a television antenna is a complex one which does not lend itself to rule making, and that, in the past, when the Commission has attempted to deal with situations by promulgating "rules of thumb," it has eventually determined that case-to-case consideration was preferable. It is contended that the proposed rule would not only be contrary to the general concept of public interest, convenience and necessity but would violate specific provisions of the Communications Act and firmly established Commission policy. It is urged that strict application of the proposed rule would tend to deprive rural areas of service; and that in instances where an antenna location within five miles of the principal city to be served did not provide the most efficient use of the channel involved, adherence to the rule would conflict squarely with section 307 (b) of the act. It is further maintained that under the proposed rule, an antenna site outside the five-mile limit would be conclusive evidence that the granting of an application would be against the public interest unless a waiver is obtained; that if a waiver is not requested, the applicant would be automatically disqualified and precluded from a hearing on the merits; and that if a waiver is requested, the Commission could determine without a hearing whether the waiver should be granted or the application dismissed.

11. Many of those opposing the adoption of the five-mile rule urge that it is undesirable because of its arbitrary character. They state that no reasons for its adoption are given in the notice other than a statement of the contentions made by Lake Huron and that no technical or other basis is advanced for selecting the five-mile figure. They submit that the antenna location has no bearing on the question of whether a station is providing an adequate local transmission service, that only the location of the main studio and the quantity and quality of local programming are of importance in this respect. They further contend that a fixed mileage figure bears no relation to the facts of television propagation and reception and is unsound from an engineering standpoint; that coverage depends upon a number of particular local factors of which distance is but one; that a fixed-mileage figure would unduly restrict the location of sites and would fail to take into account such factors as population density, topography, area configuration, zoning requirements, aeronautical restrictions, costs, etc. It is argued that antennas located in close proximity to the principal city often result in the city receiving a poorer service and may prevent maximum population coverage of outlying rural areas and smaller communities. Attention is also called to the desirability of locating high-powered stations with tall towers at a distance from population centers. It is urged that the proposed limitation goes contrary to the objective of encouraging the use of tall towers to enable stations to obtain wide coverage. Tall towers, it is urged, would afford better service, prevent overloading of receivers and avoid other problems arising from ghosting and blanketing.

12. The opponents further urge that the proposed mileage yardstick is inconsistent with the objectives of section 303 (g) and 307 (b) of the Communications Act, § 3.685 (b) of the Rules, and previous Commission decisions. It is submitted that while service to the principal community is elementary to television operation, almost equally important is the valuable service which may be provided to outlying rural areas and other communities with little or no local television service of their own, and that in many cases such areas could not be reached if antenna locations were arbitrarily confined. It is contended that television service under the rule would be denied to many rural and small market areas since it would tend to force applicants to pick sites within five miles of the principal city—even though this might not be the best site for coverage—rather than incur the uncertainty and expense of seeking a waiver. It is urged that in the present state of the art, a television station cannot operate successfully in many of the smaller markets because of the lack of adequate advertising revenue; that a limitation on antenna site locations could reduce the number of viewers of a station and thus make it even more difficult for a station in a small community to compete for advertising with a station in a larger neighboring community; that stations in smaller communities, particularly UHF stations and marginal and submarginal operations, must be permitted to take every advantage of terrain and to select an antenna site affording maximum coverage and the greatest economic potential. It is asserted that unless this ability to compete is preserved, prospective operators of unassigned facilities would be unwilling in many cases to make the substantial investments required to construct and maintain stations in the smaller communities. It is further urged that the proposed rule constitutes a threat to competitive network television since in many of the important markets the only opportunity for a third network to obtain coverage is through VHF stations in nearby communities which provide usable signals to such markets, and that the offering of network programs to such communities by out-of-town stations is not in-

consistent with the obligations of those stations to provide a local service to the communities which they are licensed to serve.

13. Among the other objections raised to the adoption of the proposed amendment are that it would work an unconscionable hardship on the many existing stations with antenna sites located beyond the proposed five-mile limit if they are required to conform to the rule; that it would be highly discriminatory against future applicants if existing stations are not required to conform; that it would give existing stations another weapon with which to prevent and delay applicants from serving new areas; that the establishment of new services could be delayed by the filing of objections to requests for waiver; and that the proposed rule would be more observed by exceptions and waivers than by conformity to the rule.

14. In lieu of the proposed amendment, several parties suggest that the public interest would be better served by a technical standard related to improved service rather than an arbitrary mileage limitation on antenna locations. They suggest that stations should be required to locate their antennas to cover the city to which the channel has been assigned with a signal stronger than that placed over any other major city in the area. One party suggests that, in addition to such a requirement, the antenna should be located closer to the city to which the channel is assigned than to any other city having an assigned channel, whether VHF or UHF, and that provision should be made to permit locating an antenna closer to a different city from that to which the channel is assigned if a directional antenna is employed to place the strongest signal over the city to which the channel is assigned. Another party suggests that instead of the instant proposal, a rule be adopted to require the transmitter site to be chosen so that a higher signal intensity would be provided to the business and industrial district of the principal community to be served in order to provide an improved technical service and insure that a station's operation was related to the community. In the event the proposed rule is adopted, most of the parties urge that it should not be made applicable to existing stations and outstanding authorizations. Others suggest that it similarly should not apply to applications on file or in hearing; to applications for renewal or extensions of STA of existing stations at existing antenna sites; to applications of existing stations for modification of facilities at existing sites; to applications of existing stations not involving a substantial change in site; to applications of existing stations for modification of existing antenna facilities already beyond the proposed mileage limit, nor to any application proposing a transmitter location within the area of an "antenna farm" established for the principal community to be served. It is suggested that if the proposed rule is adopted, specific language be added to indicate its applicability and also the several bases on which a waiver will be considered. It is also urged that provision be made for an evidentiary hearing to evaluate a site proposal before a request for waiver is denied. Finally, Deep South Broadcasting Company requests that a full evidentiary hearing or an oral argument be scheduled to resolve the legal, technical, economic and sociological issues involved in this proceeding.

15. The Commission's present rules afford wide flexibility in the choice of transmitter sites. The proposed amendment, however, would place a fixed mileage limitation on the location of such sites. We have carefully reviewed and evaluated the comments filed in this proceeding, and have concluded that a fixed limitation on the location of sites is neither desirable nor practicable. In our view, a provision which would require transmitters to be located within a specified distance from the city to be served could defeat the objectives of our assignment table by preventing the most efficient employment of television channels. It is essential, we believe, that the licensee retain flexibility in choosing a site since many varied factors enter into the selection of a site—factors such as terrain, local zoning regulations, air hazard considerations, economics, etc.

16. We believe that the present rules, which contemplate consideration on a case-by-case basis, afford adequate safeguards in insuring that the channels will be employed to serve the cities and areas contemplated by the Table of Assignments. The problem of site selection does not lend itself to treatment by hard and fast rule and can best be handled on a case-by-case basis on the particular facts in each case. We are convinced that our present procedure of considering proposed sites as they arise in each case is the most effective means of dealing with site problems and have concluded that this procedure should be continued.

17. In view of the foregoing, we have concluded that the proposed amendment should not be adopted. *Accordingly, it is ordered,* That the petition of Lake Huron Broadcasting Corporation is denied; and this proceeding is hereby terminated.

Adopted: November 9, 1955.

Released: November 14, 1955.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] MARY JANE MORRIS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

ACCELERATION POLICY

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration, for inclusion in the general rules and regulations under the Securities Act of 1933, a proposed note to § 230.460 (Rule 460) which would specify certain of the more common situations where it is the policy of the Commission to deny acceleration of the effective date of a registration statement under the standards of section 8 (a) of the act. Existing Rule 460 recites the effect of the distribution of the preliminary prospectus upon the Commission's acceleration policy. The proposed note would represent a major step in rounding out the program of publishing the Commission's policies as a part of the general rules and regulations under the act, and would facilitate administration of the long-standing policy of the Commission, announced in Securities Act Release No. 2340, August 23, 1940, to cooperate with registrants in order that the effectiveness of registration statements filed under the act may be expedited as much as possible consistent with the public interest and the protection of investors. Subject to the standards of section 8 (a), it is the general policy of the Commission to declare a registration statement effective as soon as practicable after the filing of an appropriate amendment correcting the deficiencies, if any, and an amendment setting forth the price, if the price and terms of offering were not originally included in the registration statement.

Background. As originally enacted, section 8 (a) incorporated the 20-day period between the filing and the effective date of a registration statement as a rigid requirement of the act for a "waiting" or "cooling" period. The only acceleration authority granted to the Commission was in connection with amendments which otherwise would have commenced new periods of 20 days before the registration statement could become effective. In the exercise of this power to make the amendment relate back to the original filing date, no standards were established to control the Commission's determination other than the general congressional purpose as revealed by the act as a whole.

As amended in August 1940, section 8 (a) authorizes the Commission to determine that the registration statement may become effective at a date earlier than in the 20th day after filing "having due regard to the adequacy of the information respecting the issuer theretofore available to the public, to the facility with which the nature of the securities to be registered, their relationship to the capital structure of the issuer and the rights of holders thereof can be understood, and to the public interest and the protection of investors."

In adopting this amendment to the act, Congress charged the Commission with responsibility for shortening the waiting period only where such action was consistent with the broad standards set forth in the amendment. In passing upon requests for acceleration of the effective date of a registration statement, the Commission acts on a case-by-case basis after consideration of all pertinent factors. However, certain of the principal areas in which the Commission has refused acceleration have formed a pattern and the decisions in these areas are reflected in the proposed note.

Analysis of proposal. The proposed note would give notice of the Commission's policy against acceleration of the effective date or registration statements

in cases of indemnification by the registrant (by contract, charter, by-law, statute, or otherwise) of its officers, directors or controlling persons against liabilities arising under the Securities Act of 1933. The Commission regards such indemnification as unenforceable under the policies of the act and acceleration may be denied except where appropriate waivers are obtained or an agreement is included in the registration statement to submit such claims for indemnification to a Court of appropriate jurisdiction. The note makes clear that this policy also relates to indemnification agreements in underwriting contracts in cases where an officer, director and controlling person of the registrant is an underwriter or a controlling person of the underwriter.

The note also declares that the Commission may deny acceleration where the issuer, a controlling person or an underwriter is being investigated by the Commission under one of the statutes administered by the Commission. For example, acceleration may be denied if the Commission has reason to believe that an underwriter of the securities covered by the registration statement has engaged in "gun jumping," that is, has sold such securities prior to the effective date of registration.

Another area covered by the note is the refusal of the Commission to grant requests for acceleration where a registration statement relates to a preferred stock which has a par or stated value substantially less than its liquidating preference and no agreement is made to restrict surplus to the point where capital and surplus would at least equal the liquidating preference of the preferred stock. This policy has been followed even though the disparity between the liquidating preference of the stock and its par or stated value is disclosed in the registration statement.

Section 240.15c3–1 (Rule X-15C3–1), adopted under section 15 (c) (3) of the Securities Exchange Act of 1934 provides, generally speaking, that no broker or dealer shall permit his aggregate indebtedness to other persons to exceed 2,000 per cent of his net capital. In determining net capital there must be deducted specified percentages of "open contractual commitments" in respect to the purchase of securities and "contractual commitments" are defined to include "underwriting contracts." The general purpose of Rule X-15C3–1 is to provide a safeguard for investors with respect to the financial responsibility of brokers and dealers. The proposed note would provide that the Commission may refuse to accelerate the effective date of a registration statement where one or more of the underwriters of the securities to be offered fails to meet the responsibility test of Rule X-15C3–1.

The proposed note would also provide that a request for acceleration of the effective date of registration may be denied when a registration statement covers securities held by individual stockholders who are not paying their equitable share of the expenses of registration and sale. Included in the concept of such expenses are such matters as indemnification by the issuer to the underwriters.

Another provision of the proposed note relates to the Commission's policy to refuse acceleration where there have been prior transactions in a registrant's stock by persons connected with the offering, which tend artifically to raise the market price of the securities being offered.

Statutory basis. The authority to adopt the proposed note is vested in the Commission by the Securities Act of 1933, particularly sections 8 (a) and 19 (a).

Text of note. The text of the proposed note, which would be added to § 230.460, is as follows:

§ 230.460 *Preparation and distribution of preliminary prospectus.* * * *

NOTE: Having due regard to the adequacy of information respecting the issuer theretofore available to the public, to the facility with which the nature of the securities to be registered, their relationship to the capital structure of the issuer and the rights of holders thereof can be understood, and to the public interest and the protection of investors, as provided in section 8 (a) of the act, it is the general policy of the Commission, upon request as provided in § 230.461 (Rule 461), to permit acceleration of the effective date of a registration statement as soon as practicable after the filing of an appropriate amendment correcting the deficiencies therein, if any, and setting forth the offering price and related terms (if the price and terms of offering were not originally included in the registration statement).

In determining the date on which a registration statement shall become effective the following are included in the situations in which the Commission considers that the statutory standards of section 8 (a) may not be met and may refuse to accelerate the effective date:

(a) Where, by reason of any charter provision, by-law, contract, arrangement, statute, or otherwise, provision is made for indemnification by the registrant of a director, officer, or controlling person of the registrant against liabilities arising under the Securities Act of 1933, unless waiver is obtained from such officer, director or controlling person of the benefits of such indemnification with respect to the proposed offering or there is included in the registration statement a brief description of the indemnification provision and an undertaking in substantially the following form:

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by a director, officer or controlling person of the registrant in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the act and will be governed by the final adjudication of such issue.

(b) Where the underwriting agreement with reference to the securities being registered contains provisions by which indemnification against liabilities arising under the Securities Act of 1933 are given by the registrant to the underwriter or controlling persons of the underwriter and a director, officer or controlling person of the registrant is such an underwriter or a controlling person thereof or member of any firm which is such an underwriter unless a waiver or an undertaking of the character specified in paragraph (a) is included in the registration statement.

(c) Where the Commission is currently making an investigation of the issuer, a person controlling the issuer, or one of the underwriters of the securities to be offered, pursuant to any of the acts administered by the Commission.

(d) Where a registration statement relates to a preferred stock or the issuer has outstanding a preferred stock which has a par or stated value substantially less than its liquidating preference and no agreement is made to restrict the surplus available for dividends to any junior security to the point where capital and surplus would at least equal the liquidating preference of the preferred stock.

(e) Where one or more of the underwriters, although firmly committed to purchase securities covered by the registration statement, are subject to and do not meet the financial responsibility requirements of Rule X-15C3–1 under the Securities Exchange Act of 1934. For the purposes of this paragraph underwriters will be deemed to be firmly committed even though the obligation to purchase is subject to the usual conditions as to receipt of opinions of counsel, accountants, etc., the accuracy of warranties or representations, the happening of calamities or the occurrence of other events the determination of which is not expressed to be in the sole or absolute discretion of the underwriters.

(f) Where there have been transactions in securities of the registrant by persons connected with or proposed to be connected with the offering which may have artificially affected or may artificially affect the market price of the security being offered.

(g) If a registration statement covers securities to be distributed directly or indirectly for the account of a selling stockholder, where such selling stockholder does not bear an equitable proportion of the expenses of registration and sale. For the purposes of this paragraph, indemnification of the underwriter will be deemed to be included in the concept of expenses of registration.

All interested persons are invited to submit views and comments on the proposed note in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before October 31, 1956. Unless the person submitting any such comments or suggestions requests that his views not be made part of the Commission's public files, they will be made available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[17 CFR Parts 230, 239]

FORM AND CONTENT OF PROSPECTUSES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration the adoption of a rule under the Securities Act of 1933 providing for the use of summary prospectuses and proposed amendments to Forms S–1 and S–9 (§§ 239.11 and

239.22) which would prescribe the content of such prospectuses.

Section 10 (b) of the act, as amended in 1954, authorizes the Commission to adopt rules and regulations permitting the use in making offers of securities of a prospectus which omits in part or summarizes information required to be set forth in the more complete prospectus required to be used in connection with the sale of securities. It is proposed that summary prospectuses contain substantially the same information as now specified for newspaper prospectuses relating to securities registered on those forms and that the requirements with respect to the two types of prospectuses be merged. This would permit a summary prospectus to be published in a newspaper or other periodical, or to be printed in a form suitable for manual or other distribution.

Under the proposed regulations, the use of summary prospectuses would be limited to registrants which file reports under section 13 or 15 (d) of the Securities Exchange Act of 1934. The purpose of this provision is to limit the use of such prospectuses to companies which have been publishing information and financial statements meeting the Commission's disclosure standards.

1. The text of the proposed rule would be as follows:

§ 230.434a *Summary prospectuses.* (a) A prospectus prepared in accordance with this rule shall be deemed to be a summary prospectus which meets the requirements of section 10 for the purpose of section 5 (b) (1) of the act if the registrant files periodic reports with the Commission pursuant to section 13 or 15 (d) of the Securities Exchange Act of 1934 and the form used for registration provides for the use of a summary prospectus.

(b) A summary prospectus shall contain the items of information specified in the instructions as to sumary prospectuses in the form used for registration of the securities to be offered. Such prospectus shall not contain any information the substance of which is not contained in the registration statement.

(c) All information included in a summary prospectus, other than the statements specified below, may be expressed in such condensed or summarized form as may be appropriate in the light of the circumstances under which the prospectus is to be used. The information need not follow the numerical sequence of the items of the form used for registration and no information, other than the capitalization table and the summary of earnings, need be given in tabular form. Every summary prospectus shall be dated approximately as of the date of its first use.

(d) When used prior to the effective date of the registration statement, a summary prospectus shall be captioned a "Preliminary Summary Prospectus" and shall contain the further statement required by § 230.433 (b) (Rule 433 (b)).

(e) There shall be set forth at the end of every summary prospectus, in conspicuous print, a statement to the following effect:

Copies of a more complete prospectus which must be furnished each purchaser may be obtained from the following persons. (Insert names.)

(f) All information and statements included in a summary prospectus shall be set forth in type at least as large as ten-point modern type, with a leading of at least two points, provided that financial or other tabular data need only be set in type at least as large as eight-point modern type, with a leading of at least two points, and provided further, that any summary prospectus published in a newspaper, magazine or other periodical, need only be set in type at least as large as seven-point modern type.

(g) Eight copies of every proposed summary prospectus shall be filed with the registration statement as a part thereof, or as an amendment thereto, at least 5 business days prior to the use thereof, or prior to the submission of definitive copies thereof to any newspaper, magazine or other periodical for publication, whichever is earlier. Within 7 days after the first use or publication thereof, 5 additional copies shall be filed in the exact form in which it was used or published.

(h) A summary prospectus used pursuant to this section shall be subject to the suspension power of the Commission under section 10 (b) of the act.

2. *Proposed amendment to Form S–1.* The Instructions as to Newspaper Prospectuses would be deleted from Form S–1 (§ 239.11) and the following instructions adopted in lieu thereof:

Instructions as to summary prospectuses. A summary prospectus used pursuant to § 230.434a (Rule 434A) shall at the time of its use contain such of the information specified below as is then included in the registration statement. All other information and documents contained in the registration statement may be omitted.

(a) As to Item 1, the aggregate offering price to the public, the aggregate underwriting discounts and commissions and the offering price per unit to the public; as to Item 2 (a), a brief statement as to the nature of the underwriter's obligation to take the securities; as to Item 2 (c), a brief statement as to the manner of distribution; as to Item 3, a brief statement of the principal purposes for which the proceeds are to be used; Item 4; Item 5; Item 6; Item 7; Item 8; as to Item 9, a brief statement of the general character of the business done and intended to be done; as to Item 10, a brief statement of the general type of property; Item 11 (a); as to Item 12, a brief statement of the nature and present status of any pending bankruptcy, receivership, anti-trust or similar proceedings; Item 13 (a); Item 14 (a); as to Item 15, information corresponding to the foregoing; and Item 18 (b) if the securities being registered are equity securities and there are outstanding options to purchase securities of the same class.

(b) The Commission may, upon the request of the registrant, and where consistent with the protection of investors, permit the omission of any of the information herein required or the furnishing in substitution therefor of appropriate information of comparable character. The Commission may also require the inclusion of other information in addition to, or in substitution for, the information herein required in any case where such information is necessary or appropriate for the protection of investors.

3. *Proposed amendment of Form S–9.* The Instructions as to Newspaper Prospectuses would be deleted from Form S–9 (§ 239.22) and the following instructions adopted in lieu thereof:

Instructions as to summary prospectuses. A summary prospectus used pursuant to § 230.434a (Rule 434A) shall at the time of its use contain such of the information specified below as is then included in the registration statement. All other information and documents contained in the registration statement may be omitted.

(a) As to Item 1, the aggregate and per unit offering price to the public and the per unit underwriting discounts or commissions; as to Item 2, a brief statement of the purpose for which the proceeds are to be used; Item 3; and Item 4 (a).

(b) The Commission may, upon the request of the registrant, and where consistent with the protection of investors, permit the omission of any of the information herein required or the furnishing in substitution therefor of appropriate information of comparable character. The Commission may also require the inclusion of other information in addition to, or in substitution for, the information herein required in any case where such information is necessary or appropriate for the protection of investors.

The foregoing action is proposed pursuant to the Securities Act of 1933, particularly sections 6, 7, 10, and 19 (a) thereof.

All interested persons are invited to submit data, views and comments on the above mentioned proposals in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before October 31, 1956. Except where it is requested that such communications be kept confidential they will be available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G–10576 etc.]

ALAMEDA COOPERATIVE GAS ASSOCIATION, INC., ET AL.

NOTICE OF APPLICATIONS

AUGUST 15, 1956.

In the matters of Alameda Cooperative Gas Association, Inc., Docket No. G–10576; Blackfoot Cooperative Gas Association, Inc., Docket No. G–10577; Burley Cooperative Gas Association, Inc., Docket No. G–10578; Caldwell Cooperative Gas Association, Inc., Docket No. G–10579; Idaho Falls Cooperative Gas Association, Inc., Docket No. G–10580; Jerome Cooperative Gas Association, Inc., Docket No. G–10581; Meridian Cooperative Gas Association, Inc., Docket No. G–10582; Montpelier Cooperative Gas Association, Inc., Docket No. G–10583; Mountain Home Cooperative Gas Association, Inc., Docket No. G–10584; Pocatello Cooperative Gas Association, Inc., Docket No. G–10585; Rupert Cooperative Gas Association, Inc., Docket No. G–10586; Weiser Cooperative Gas Association, Inc.,[1] Docket No. G–10587.

Take notice that there have been filed with the Federal Power Commission, on June 14, 1956, twelve applications pursuant to subsections (a) and (c) of section 7 of the Natural Gas Act, authorizing the construction and operation of natural gas facilities and for orders directing Pacific Northwest Pipeline Corporation (Pacific) to establish physical connection of its transportation facilities with the proposed facilities of the respective Applicants and to sell and deliver natural gas to each as hereinafter described, all as more fully represented in the respective applications, which are now on file with the Commission and open to public inspection.

Each Applicant is a non-profit privately owned cooperative association existing under the laws of the State of Idaho and propose to construct and operate facilities for the distribution of natural gas in their respective communities, as included in the names of the cooperatives.

The fifth year peak day requirements of the respective applicants are as follows:

Applicant	Peak day MCF
Alameda Cooperative Gas Association, Inc.	2,707
Blackfoot Cooperative Gas Association, Inc.	2,942
Burley Cooperative Gas Association, Inc.	3,474
Caldwell Cooperative Gas Association, Inc.	5,837
Idaho Falls Cooperative Gas Association, Inc.	8,995
Jerome Cooperative Gas Association, Inc.	2,091
Meridian Cooperative Gas Association, Inc.	1,000
Montpelier Cooperative Gas Association, Inc.	1,276
Mountain Cooperative Gas Association, Inc.	2,239
Pocatello Cooperative Gas Association, Inc.	8,989
Rupert Cooperative Gas Association, Inc.	539
Weiser Cooperative Gas Association, Inc.	2,197

Protests or petitions to intervene may be filed with the Commission in accordance with § 1.8 or § 1.10 of its rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 31, 1956.

J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56–6722; Filed, Aug. 20, 1956; 8:46 a. m.]

[1] Hereinafter referred to collectively, as "Applicants".

[Project No. 2146]

ALABAMA POWER CO.

NOTICE OF AMENDMENT AND SUPPLEMENT TO APPLICATION FOR LICENSE

AUGUST 14, 1956.

Public notice is hereby given that Alabama Power Company of Birmingham, Alabama, has filed an amendment and supplement to its application for license, notice of which was published during January and February 1956. The amendment requests that Alabama Power Company's existing hydroelectric developments, licensed as Project Nos. 82 and 618, designated Mitchell and Jordan, respectively, be included in the license for Project No. 2146 if issued. The Mitchell and Jordan developments are located immediately downstream from the existing Lay development described in the original application for Project No. 2146. Applicant proposes to surrender its licenses for Project Nos. 82 and 618, upon issuance of a license for Project No. 2146 to include the Mitchell and Jordan developments which consist of: (1) Mitchell Development: A concrete dam and gated spillway; a reservoir with normal pool elevation of 350 feet (U. S. Army datum); a powerhouse integral with the dam containing three 24,000-horsepower turbines and one 29,000-horsepower turbine; a step-up substation and switching station located on the deck of the dam; a double circuit 110 KV steel tower transmission line extending to a substation at Lay Dam; and appurtenant mechanical and electrical facilities; and (2) Jordan Development: A concrete gravity dam comprised of a gated spillway section, powerhouse intake section and abutment sections; a reservoir with normal pool elevation of 290 feet (U. S. Army datum); a powerhouse integral with the dam containing four 36,000-horsepower turbines; a substation and switchyard; three 110 KV transmission lines; and appurtenant mechanical and electrical facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests may be filed is September 27, 1956. The application is on file with the Commission for public inspection.

J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56–6721; Filed, Aug. 20, 1956; 8:46 a. m.]

[Project No. 2210]

APPALACHIAN ELECTRIC POWER CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

AUGUST 14, 1956.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a–825r) by Appalachian Electric Power Company of Roanoke, Virginia, for preliminary permit for proposed water power Project No. 2210 to be located on Roanoke River (sometimes called Staunton River) in the region of Roanoke, Rockymount, Moneta, Altavista and Gretna, and in Bedford, Pittsylvania, Franklin, and Roanoke Counties, Virginia, affecting navigable waters of the United States. The proposed project would consist of a rock-fill dam approximately 200 feet high located in gap of Smith Mountain about 4 miles above mouth of Pigg River, with side-channel spillway; a storage reservoir extending about 38 miles upstream from damsite and having gross capacity of about 1,000,000 acre-feet; and a powerhouse located at foot of dam with installed capacity of 60,000 kilowatts. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is September 20, 1956. The application is on file with the Commission for public inspection.

J. H. GUTRIDE,
Acting Secretary.

AUGUST 13, 1956.

1. Pursuant to authority delegated by Document No. 43, Arizona, effective May 19, 1955, (20 F. R. 3514–15), I hereby classify the following described public lands, totalling approximately 800 acres in Maricopa County, Arizona, as suitable for lease and sale for residence purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended.

GILA AND SALT RIVER MERIDIAN

T. 4 N., R. 3 E.,
- Sec. 21: E½ exclusive of patented mining claim;
- Sec. 22: W½ exclusive of patented mining claim;
- Sec. 22: W½SW¼NE¼, W½SW¼NW¼NE¼;
- Sec. 27: N½ exclusive of patented mining claim;
- Sec. 27: N½S½ exclusive of patented mining claim and other patented land.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid with a preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to May 7, 1946 will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

E. R. TRAGITT,
State Lands and Minerals Staff Officer.

[Area Order 8]

STATE SUPERVISORS ET AL., AREA III

REDELEGATION OF AUTHORITY WITH RESPECT TO CONTRACTS AND LEASES

JULY 10, 1956.

Pursuant to the authority contained in section 1 of Order No. 615 of the Director, Bureau of Land Management, the following are authorized to enter into contracts for construction, supplies, or services, and lease of space in real estate as provided above when the amount in any contract does not exceed $500.00:

State Supervisors, Area III.
Land Office Managers, Area III.
District Range Managers, Area III.
Chiefs, Cadastral Survey Parties, Area III.

W. B. WALLACE,
Area Administrator.

CIVIL SERVICE COMMISSION

CERTAIN CLASSES OF POSITIONS IN A NUMBER OF PROFESSIONAL ENGINEERING AND PHYSICAL SCIENCE SERIES IN CONTINENTAL UNITED STATES; ITS TERRITORIES AND POSSESSIONS (EXCEPT PUERTO RICO); AND IN FOREIGN COUNTRIES

NOTICE OF INCREASE IN MINIMUM RATES OF PAY

Under the provisions of section 803 of the Classification Act of 1949, as amended (68 Stat. 1106; 5 U. S. C. 1133), pursuant to 5 CFR 25.103, 25.105, the Commission has increased the minimum rate of pay at grades GS–9, GS–11, GS–12, GS–13, GS–14, GS–15, GS–16, and GS–17 for 34 classication specializations covering classes of positions specified by the following titles:

Research Engineer (Aeronautical Instrumentation)	GS–801–0
Aeronautical Structural Materials Research Engineer	GS–806–0
Aeronautical Propulsion Systems Materials Research Engineer	GS–806–0
Aeronautical Lubrication Research Engineer	GS–806–0
Mechanical Engineer (Aeronautical Nuclear Propulsion Research)	GS–830–0
Aeronautical Power Plant Research Engineer	GS–834–0
Aeronautical Rocket Power Plant Research Engineer	GS–834–0
Aeronautical Rocket Power Plant Research Engineer (Thermodynamics)	GS–834–0
Aeronautical Power Plant Research Engineer (Propulsion Systems Controls)	GS–834–0
Aeronautical Power Plant Research Engineer (Propulsion Systems Control Theory)	GS–834–0
Aeronautical Power Plant Research Engineer (Combustion)	GS–834–0
Aeronautical Power Plant Research Engineer (Fuels and Combustion)	GS–834–0
Aeronautical Power Plant Research Engineer (Structures)	GS–834–0
Aeronautical Power Plant Research Engineer (Thermodynamics)	GS–834–0
Aeronautical Research Engineer (Aerodynamics)	GS–861–0
Aeronautical Research Engineer (Aerodynamic Theory)	GS–861–0
Aeronautical Research Engineer (Rotary Wing)	GS–861–0
Aeronautical Research Engineer (Stability and Control)	GS–861–0
Aeronautical Research Engineer (Automatic Stability and Control)	GS–861–0
Aeronautical Research Engineer (Flutter and Vibration)	GS–861–0
Aeronautical Research Engineer (Structures)	GS–861–0
Aeronautical Research Engineer (Structures Theory)	GS–861–0
Aeronautical Research Engineer (Hydrodynamics)	GS–861–0
Aeronautical Research Engineer (Aerodynamic Loads)	GS–861–0
Aeronautical Research Engineer (Propulsion Aerodynamics)	GS–861–0
Aeronautical Research Engineer (Landing Loads)	GS–861–0
Aeronautical Research Engineer (Landing Loads Theory)	GS–861–0
Aeronautical Research Engineer (Aerothermodynamics)	GS–861–0
Aeronautical Research Engineer (Flight Systems)	GS–861–0
Aeronautical Research Engineer and Pilot	GS–861–0
Aeronautical Research Administrator	GS–1301 0
Physicist (Solid State)	GS–1310–0
Physicist (Physics of Atmosphere)	GS–1310–0
Chemist (Aeronautical Fuels Research)	GS–1320–0

The new minimum rates of pay have been set as follows:

GS–9	$6,250 (top step).
GS–11	7,465 (top step).
GS–12	8,645 (top step).
GS–13	10,065 (top step).
GS–14	11,395 (top step).
GS–15	12,690 (top step).
GS–16	13,760 (top step).
GS–17	14,835 (top step).

The increases will be effective on the first day of the first pay period which begins after September 22, 1956, and apply to these positions throughout the continental United States; its territories and possessions (except Puerto Rico); and in foreign countries.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1818]

BENGUET CONSOLIDATED, INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 15, 1956.

In the matter of application by the San Francisco stock exchange for unlisted trading privileges in Benguet Consolidated, Inc., Capital Stock, File No. 7-1818.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before August 31, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 16, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32531: *Substituted service—motor-rail-motor — Pennsylvania Railroad.* Filed by Transamerican Freight Lines, Inc., Agent, for itself, The Pennsylvania Railroad Company and other interested motor carriers. Rates on freight loaded in highway truck semitrailers and transported on railroad flat cars between Cleveland, Ohio, on the one hand, and Philadelphia, Pa., or Kearny, N. J., on the other.

Grounds for relief: Motor truck competition.

Tariff: Transamerican Freight Lines, Inc., tariff I. C. C. No. 5.

FSA No. 32532: *All freight—Illinois and Iowa points to official territory.* Filed by The Chicago, Rock Island and Pacific Railroad Company, for itself and interested rail carriers. Rates on freight, all kinds, mixed carloads from Davenport, Iowa, Joliet and Peoria, Ill., to specified points in Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, and Rhode Island.

Grounds for relief: Circuitous routes.

Tariff: Chicago, Rock Island and Pacific Railroad Company tariff, I. C. C. No. C–13556.

FSA No. 32533: *Liquefied petroleum gas—southwest and mid-continent fields to Ohio.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on liquefied petroleum gas, tank-car loads from specified points in Arkansas, Kansas, Louisiana (west of the Mississippi River), Missouri, New Mexico, Oklahoma and Texas to Batavia, Cincinnati, Lebanon, and Loveland, Ohio.

Grounds for relief: Equalization of rates via St. Louis, Mo., gateways with rates over other gateways and circuitous routes.

Tariff: Supplement 68 to Agent Kratzmeir's I. C. C. 4150.

FSA No. 32534: *Petroleum and products—Fairmont, Pa., group to the South.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on petroleum and petroleum products, carloads from Fairmont, Karns City, Petrolia, and Bruin, Pa., to specified points in Alabama, Florida, Georgia, Kentucky, Louisiana (east of the Mississippi River), Mississippi, North Carolina, South Carolina, Tennessee, and Virginia, also Cincinnati, Ohio.

Grounds for relief: Short-line distance formula and circuitous routes.

Tariff: Supplement 11 to Agent Boin's tariff I. C. C. A–1035.

FSA No. 32535: *Fertilizer solutions—Tuscola, Ill., and Lima, Ohio to Louisville, Ky.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on nitrogen and ammoniating fertilizer solutions, tank-car loads from Tuscola, Ill., and Lima, Ohio to Louisville, Ky.

Grounds for relief: Market competition and circuitous routes.

Tariff: Baltimore and Ohio Railroad Company Tariff I. C. C. 24320 and five other tariffs.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

PART 485—SOIL BANK

SUBPART—CONSERVATION RESERVE PROGRAM

The regulations in this subpart govern the conservation reserve part of the Soil Bank Program.

Sec.
485.150 Definitions.
485.151 Administration.
485.152 Purpose.
485.153 Land eligible for conservation reserve.
485.154 Geographical applicability.
485.155 National and State conservation reserve goals.
485.156 Conservation reserve contract.
485.157 Designation.
485.158 Farm soil bank base.
485.159 Reconstitution of farm.
485.160 Compliance with acreage allotments.
485.161 Pooling arrangements.
485.162 Practice cost-sharing.
485.163 Annual payments.
485.164 Limitation of payments.
485.165 Manner and time of payments.
485.166 Set-offs.
485.167 Division of payment between landlords, tenants, and sharecroppers.
485.168 Additional provisions relating to tenants and sharecroppers.
485.169 Successors-in-interest.
485.170 Assignments.
485.171 Payments not subject to claims.
485.172 Violations of contract.
485.173 Penalty for grazing or harvesting.
485.174 Filing of false claims.
485.175 Misuse of purchase orders.
485.176 Access of farm and records.
485.177 State committee approval of determinations of county committees.
485.178 Finality of determinations.
485.179 Effect on acreage allotment and marketing quota programs.
485.180 Appeals.
485.181 Waivers.
485.182 Delegation of authority.

AUTHORITY: §§ 485.150 to 485.182 issued under sec. 124, 70 Stat. 198. Interpret or apply secs. 107–123, 125, 126, 70 Stat. 191–198.

§ 485.150 *Definitions.* As used in this subpart and in all contracts, forms, documents, and procedures in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings:

(a) "Act" means the Soil Bank Act (70 Stat. 188).

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer, employee, or other representative of the United States Department of Agriculture acting in his stead pursuant to delegated authority.

(c) "Administrator, ACPS," means the Administrator or Acting Administrator of the Agricultural Conservation Program Service, United States Department of Agriculture.

(d) "Administrator, CSS," means the Administrator or Acting Administrator of the Commodity Stabilization Service, United States Department of Agriculture.

(e) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(f) "Director" means the Director, or Acting Director, of the Soil Bank Division, Commodity Stabilization Service, United States Department of Agriculture.

(g) "State" means any one of the continental United States.

(h) "County" means county or parish.

(i) "Community committee" means the group of persons elected within a community as the community committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees.

(j) "County committee" means the group of persons elected within a county as the county committee pursuant to the regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees.

(k) "State committee" means the group of persons designated for a State by the Secretary as the Agricultural Stabilization and Conservation State Committee.

(l) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, or any agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(m) "Cash tenant," "standing-rent tenant," or "fixed-rent tenant" means a person who rents land from another for

a fixed amount of cash or a fixed amount of a commodity to be paid as rent.

(n) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(o) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(p) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(q) "Producer" means any person who is an owner, landlord, cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper on the farm, and includes a person who furnishes water for a share of the crop or proceeds thereof.

(r) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the county committee determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, machinery, and labor substantially separate from that for any other land, and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

(s) "Cropland" means farm land which was tilled or was in regular crop-rotation during the year immediately preceding the first year of the contract period, including also land which was established in permanent vegetative cover, other than trees, since 1953, and which was classified as cropland at the time of seeding, but excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes, or will constitute if tillage is continued, an erosion hazard to the community.

(t) "Acreage reserve" means the tract of land on a farm which is designated by a producer under the Acreage Reserve Program as being withdrawn from the production of a particular commodity.

(u) "Conservation reserve" means the tract or tracts of land on a farm which is designated by a producer in his conservation reserve contract as being set aside for soil-, water-, wildlife-, or forest-conserving uses for a period of years specified in the contract.

(v) "Producer unit" means a tract of land farmed by (1) a landlord, owner, cash tenant, or fixed-rent tenant, with his own labor or with hired labor (not with tenants or sharecroppers), or (2) a share tenant without the aid of any sharecropper, or (3) a sharecropper.

(w) "Tame hay" means a stand of perennial grass or legumes which normally requires preparation of the land seeding and from which hay was harvested during either of the 2 years preceding the first year of the contract period. The stands of grass or legumes which will be classified as tame hay in a State will be determined by the State committee in consultation with the Land Grant College.

(x) "Contract" means a Soil Bank Conservation Reserve Contract (Form CSS–811 (Soil Bank)).

(y) "Farm Soil Bank base" means the acreage established as the Soil Bank base for the farm pursuant to § 485.158 (c).

(z) "Soil Bank base crops" means the crops included in establishing the farm Soil Bank base.

§ 485.151 *Administration.* (a) The conservation reserve program will be administered in the field by State and county committees under the general direction and supervision of the Administrator, CSS. Members of county committees are hereby authorized to sign "Conservation Reserve Contracts" Form CSS–811 (Soil Bank) on behalf of the Secretary. State and county committees do not have authority to modify or waive any of the provisions of these regulations, or any amendment, supplement, or revision thereto, and do not have authority to modify or waive any of the provisions of any contract entered into hereunder except to the extent specifically authorized in this subpart.

(b) The State committee (including the State Director of Extension), the State Conservationist of the Soil Conservation Service, and the Forest Service official having responsibility for farm forestry in the State shall be responsible for developing, within national authorizations, recommendations and requirements needed to adapt the conservation practices to the conditions in the State. The President of the Land Grant College, the State Director of the Farmers Home Administration, the State Soil Conservation Committee (Board or Commission), the State Agricultural Extension Service, State Foresters, State Fish and Game Departments, Federal Fish and Wildlife Service and other appropriate State and Federal agencies within the State shall be invited to designate representatives to participate in the deliberations on these State recommendations and requirements.

(c) The county committee (including the county agricultural extension agent), the local Soil Conservation Service technician, and the Forest Service representative having responsibility for farm forestry in the county, in consultation with the governing body of the Soil Conservation District on the overall conservation problems in the county, shall be responsible for developing, within national and State authorizations, recommendations and requirements needed to adapt the conservation practices to the conditions in the county. The community committeemen, the governing body of the Soil Conservation District, the County Supervisor of the Farmers Home Administration, representatives of the State Fish and Game Department, and representatives of other appropriate State and federal agencies within the county shall be invited to participate in the deliberations on the county recommendations and requirements. The work plans of the Soil Conservation District and of the federal agencies involved shall be considered in developing the county recommendations and requirements.

§ 485.152 *Purpose.* The conservation reserve program is a long-term program designed to carry out the policy of the act by assisting farmers to divert a portion of their cropland from the production of excessive supplies of agricultural commodities and to carry out soil, water, forest, and wildlife conservation practices. In carrying out this program, the Secretary will enter into contracts with producers (a) to share the costs of establishing approved conservation practices on the conservation reserve and (b) to make annual payments to such producers for maintaining the conservation uses for the term of the contract.

§ 485.153 *Land eligible for conservation reserve.* Land eligible to be designated as the conservation reserve is limited to cropland, land devoted to tame hay which does not require annual tillage, and land which was tilled or was in regular crop-rotation during the year immediately preceding the first year of the contract period which constitutes, or will constitute if tillage is continued, an erosion hazard to the community, but excluding land designated as acreage reserve and land owned by the Federal Government, including any corporation wholly owned by the Federal Government. Eligible land shall include land which is devoted to crops, such as tame hay, alfalfa, or clovers, which do not require annual tillage. The total acreage of land on a farm which may be devoted to the conservation reserve shall be not less than 5 acres, except that (a) in case the conservation reserve is to be planted to trees the minimum acreage shall be two acres and (b) in any county recommended by the county committee and approved by the State committee where the average tillable acreage on farms in the county is relatively small, the minimum may be reduced to not less than one acre for any farm if the county committee determines that such action will promote the purposes of the program and that the total tillable acreage on the farm is too small to warrant a larger minimum.

§ 485.154 *Geographical applicability.* The conservation reserve program will be applicable only in the continental United States.

§ 485.155 *National and State conservation reserve goals.* National conservation reserve goals for 1956 and 1957 are hereby established as follows: 1956, 4,000,000 to 6,000,000 acres; 1957, 20,000,000 acres. Goals for later years will be announced not later than February 1 of each year. The National conservation reserve goals are hereby apportioned among States as follows:

State	1956	1957
	1,000 acres	*1,000 acres*
Alabama	75 to 110	360
Arizona	10 to 15	50
Arkansas	85 to 130	435
California	100 to 150	495
Colorado	130 to 200	640
Connecticut	5 to 9	27
Delaware	5 to 10	18
Florida	25 to 35	125
Georgia	80 to 120	390
Idaho	50 to 75	265
Illinois	130 to 200	680
Indiana	100 to 150	505
Iowa	180 to 270	900
Kansas	275 to 415	1,385
Kentucky	115 to 175	585
Louisiana	55 to 85	280
Maine	15 to 20	70
Maryland	20 to 30	100
Massachusetts	6 to 10	35
Michigan	100 to 150	485
Minnesota	150 to 225	735
Mississippi	70 to 100	355
Missouri	165 to 250	830
Montana	150 to 225	760
Nebraska	160 to 235	790
Nevada	3 to 5	17
New Hampshire	5 to 9	24
New Jersey	10 to 15	50
New Mexico	30 to 40	175
New York	90 to 135	470
North Carolina	50 to 75	275
North Dakota	240 to 360	1,200
Ohio	100 to 150	480
Oklahoma	140 to 210	710
Oregon	50 to 75	260
Pennsylvania	75 to 110	365
Rhode Island	1 to 2	4
South Carolina	40 to 60	195
South Dakota	125 to 185	620
Tennessee	100 to 150	520
Texas	350 to 525	1,680
Utah	15 to 25	85
Vermont	15 to 20	70
Virginia	60 to 75	260
Washington	85 to 125	440
West Virginia	20 to 30	110
Wisconsin	125 to 190	640
Wyoming	25 to 35	120

§ 485.156 *Conservation reserve contract*—(a) *Required signatures.* In order for producers on a farm to participate in the conservation reserve program, a Soil Bank Conservation Reserve Contract (Form CSS-811 (Soil Bank)) must be entered into by the producers having control of the farm. The farm owner or owners must sign the contract, except that a farm operator who is a cash tenant, standing-rent tenant, or fixed-rent tenant (but not a share tenant) for the entire contract period may sign the contract in lieu of the owner upon presentation of evidence satisfactory to the county committee of his control of the farm for such period. The farm operator if other than the owner must also sign the contract. Where parts of the farm are separately owned, each owner, or the farm operator in lieu thereof as provided above, must execute the contract. If an owner or a tenant-operator who enters into a contract loses control of the farm before the end of the contract period, his successor, if any, as owner or tenant-operator, as the case may be, during the contract period may upon his request be substituted under the contract as owner or tenant-operator by executing a form prescribed by the Administrator, CSS for such purposes. Sharecroppers and other producers on a farm who do not have any control thereof are not required to sign the contract.

(b) *Closing dates.* A contract which includes 1956 as a part of the contract period must be signed by all the producers who are required to sign the contract and filed with the county committee not later than October 15, 1956. A contract under which the contract period begins with any year subsequent to 1956 must be signed by all the producers who are required to sign the contract and filed with the county committee not later than March 15 of the first year of the contract period or such earlier date as may be established by the State committee, except that contracts starting with the year 1961 must be entered into not later than December 31, 1960, and no contract can be entered into after this date. However, a contract entered into by that date may be extended as provided in this subpart.

(c) *Contract period.* The contract period shall be not less than three calendar years or more than fifteen calendar years, as follows:

(1) If the county committee determines that the acreage on the farm designated as the conservation reserve is adequately covered by approved protective vegetative cover, the contract period shall be three years or five years, at the election of the producer: *Provided*, That no contract shall expire prior to December 31, 1959.

(2) If the county committee determines that the acreage on the farm designated as the conservation reserve requires the establishment of protective vegetative cover (other than trees or shrubs), water storage facilities, or other soil-, water-, or wildlife-conserving uses, the contract period shall be five years, except that it may be ten years at the election of the producer in the case of grass or legume cover established under practice A–2, but may not extend beyond December 31, 1969.

(3) If the contract provides that the conservation reserve is to be established in tree cover under practice A–7, the contract period shall be 10 years: *Provided*, That if recommended by the State committee and approved by the Administrator, ACPS, as necessary to obtain the land use objectives of the Soil Bank Program, the contract period may be 15 years, but may not extend beyond December 31, 1974.

(4) If 1956 is included as a part of the contract period, the contract period shall be considered as beginning with the calendar year 1957 for the purpose of computing the minimum contract period: three years for cover already established, five years for practices other than tree cover, and ten years for tree cover.

(5) If more than one tract of land on the same farm is designated as the conservation reserve, the contract may provide for different contract periods as determined under subparagraphs (1), (2), and (3) of this paragraph for the different tracts.

(6) In order to include 1956 as a part of the contract period, the producers must meet all of the requirements of the contract for the entire calendar year 1956. Among such requirements, the producers (i) must designate the conservation reserve as required by § 485.157, (ii) must have established the conservation use on the conservation reserve, or must take all practicable steps to establish such conservation use in 1956, (iii) must not have grazed or harvested any crop from the conservation reserve since January 1, 1956, and (iv) must comply with the acreage limitations on the production of soil bank base crops in 1956 as provided in § 485.158.

(d) *Modification and termination of contracts by mutual consent.* Contracts previously entered into with producers may be modified or terminated upon mutual agreement of the contract signers and the county committee only if such modification or termination is specifically approved by the Administrator, CSS, or is authorized under general policies established by him. No contract may be so terminated unless the Administrator, CSS, determines either specifically or in the general policies authorizing termination that such termination would be in the public interest.

§ 485.157 *Designation and use of conservation reserve*—(a) *Designation.* The tract or tracts of land constituting the conservation reserve must be specifically designated in the contract, and shall not include any land in the acreage reserve.

(b) *Establishment and maintenance of vegetative cover and practices.* (1) Each producer signatory to the contract shall agree to establish and maintain (or to maintain only, in the case of approved cover already established) in accordance with good farming practice for the contract period so long as he retains control of the farm an approved protective vegetative cover or other approved conservation practices on the conservation reserve as specified in the contract: *Provided*, That the conservation reserve may, in the fall of the final year of the contract period, be planted in any crop which is normally seeded in the fall in the area for harvest in a later year. Failure to maintain for the contract period the protective vegetative cover or other conservation practices for which cost-sharing was received under this program shall be considered a violation of the contract.

(2) Approved protective vegetative cover (other than tree and shrub cover) shall be limited to tame varieties of perennial grasses and perennial legumes normally seeded in the area for hay or pasture: *Provided*, That approved protective vegetative cover may include other grasses and legumes upon recommendation by the State committee and approval of the Administrator, ACPS. Approved protective vegetative cover shall be adequate to provide good protection from wind and water erosion and where practical shall be of specific benefit to wildlife, as determined by the county committee.

(c) *Selection of conservation practices.* The conservation practices to be carried out on the conservation reserve shall be approved by the county committee. The producers on the farm shall be given the opportunity to request from the eligible practices designated in paragraph (d) of this section the particular practices they desire to carry out on the conservation reserve. In approving the practices for any farm, the county committee shall take into consideration the request of the producers on the farm, the type of farming operations carried out by the producers, the type of practice needed for the conservation reserve, and the benefits to be obtained from the practice in relation to its cost.

(d) *Eligible practices.* (1) The conservation practices eligible to be carried out on the conservation reserve are listed in this paragraph. The practice shall be carried out in conformity with specifications which are applicable for the practice at the time the contract was signed or at the time the practice is carried out, at the election of the producer. Such specifications will be available at the office of the county committee and the producer shall obtain such information at that office.

(2) Eligible practices are as follows:

A–2—Initial establishment of a permanent vegetative cover for soil protection or as a needed land-use adjustment.

A–4—Initial treatment of farmland to permit the use of legumes and grasses for soil improvement and protection. (Cost-sharing for liming materials, rock phosphate or gypsum applied under this practice shall be limited to applications needed in connection with the establishment of eligible vegetative cover.)

A–7—Initial establishment of a stand of trees or shrubs on farmland for erosion control, watershed protection, or forestry purposes.

B–7—Constructing dams, pits, or ponds as a means of protecting vegetative cover. (The use of such water for irrigating land other than the conservation reserve acreage shall not be permitted during the period covered by the contract.)

C–14—Constructing dams, pits, or ponds for irrigation water. (The use of such water for irrigating land other than the conservation reserve acreage shall not be permitted during the period covered by the contract.)

D–1—Establishment of vegetative cover for winter protection from erosion.

D–2—Establishment of vegetative cover for summer protection from erosion.

(3) Approval of the use of annual grasses, annual or biennial legumes, and small grains, when seeded without a perennial grass or perennial legume, shall be limited to cases in which the county committee determines that (i) they are of varieties which will reseed so as to provide adequate cover throughout the contract period, (ii) such seedings are necessary to provide temporary protection before more enduring protective vegetative cover can be established, or (iii) seed of adapted perennials is not available.

(4) The specifications for the practices listed in subparagraph (2) of this paragraph will be the same as are applicable under the then current agricultural conservation program (7 CFR Part 1101), except for changes or additions needed to bring the practice within the provisions of the conservation reserve program. Such specifications will be available at the office of the county committee, and the producer shall obtain such information at that office.

(5) The conservation practices listed in subparagraph (2) of this paragraph are designed primarily for the conservation of soil and water for agricultural purposes; however, where practicable, encouragement shall be given in carrying out practices with the use of materials and methods which will provide wildlife conservation benefits.

(6) The following eligible practices are designed primarily to protect and conserve wildlife resources:

G–1—*Establishment and management of cover specifically beneficial to wildlife.* This practice will have general applicability in all States, although the plant species and cultural and other operations used may differ from State to State and in different sections of the same State. It includes wildlife cover and food plantings, land operations such as partial discing, and a variety of practices designed to improve wildlife habitat.

G–2—*Water and marsh management to benefit fish and wildlife.* This practice includes the development of shallow water areas to improve habitat for waterfowl, fur animals and other wildlife as well as restoration of drained areas (formerly marshland) by installing earth plugs or water control structures in drainage ditches.

G–3—*Constructing dams or ponds for fish.*

(e) *Use of liming materials, rock phosphate, gypsum, and commercial fertilizers.* (1) For practices which authorize Federal cost-sharing for application of liming materials and commercial fertilizers, the minimum application, and maximum application where applicable, on which Federal cost-sharing is authorized shall, in each case, be determined on the basis of a current soil test: *Provided, however*, That if the State committee determines that available facilities for making soil tests are not adequate, it shall authorize, to the extent necessary, an alternative basis for determination by the county committee of such application. Such alternative basis shall be such as to insure beneficial use of the Federal cost-sharing and shall be formulated by the State committee in full consultation with the representatives of the State and Federal agencies participating in the development of the State program.

(2) The application of liming materials contained in commercial fertilizers, rock phosphate, or basic slag will not qualify for Federal cost-sharing. The application of manure will not qualify for Federal cost-sharing; however, manure may be used, where applicable, to meet all or a part of the fertilizer requirement for a practice.

(f) *Restoration or improvement of protective vegetative cover.* If the county committee determines that a satisfactory stand or protective vegetative cover has been established on the conservation reserve, but due to conditions beyond the control of the producer the stand has deteriorated during the contract period to the extent that the acreage should be reseeded or replanted or that other restoration or improvement measures should be carried out on the conservation reserve for soil protection, the committee may authorize cost-sharing for the reseeding or replanting or other needed restoration or improvement measures except that no cost-sharing shall be approved for restoration or improvement during the last year of the contract period. If the contract is for a period of less than 5 years, restoration or improvement of protective vegetative cover shall not be authorized by the county committee unless the contract is extended for two additional years.

(g) *Compliance with regulatory measures.* Producers who carry out conservation reserve contracts shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The producer with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws or regulations.

(h) *Responsibility for technical phases of practices.* (1) The Soil Conservation Service shall be responsible for soil suitability information whenever needed and practicable in conjunction with the selection and establishment of practices. The Soil Conservation Service shall also be responsible for the technical phase of practices B–7 and C–14, which shall include (i) a finding that the practice is needed and practicable on the farm, (ii) necessary site selection, other preliminary work, and layout work of the practice, (iii) necessary supervision of the installation, and (iv) certification of performance. In addition, upon agreement of the State committee and the State Conservationist of the Soil Conservation Service, responsibility for all or part of the unassigned technical phases of these or other practices may be assigned to the Soil Conservation Service for all counties in the State or for specified counties. The State Conservationist of the Soil Conservation Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities. These assigned responsibilities will not apply in counties with respect to which the Administrator, ACPS, and the Administrator, Soil Conservation Service, agree that it would not be administratively practicable for the Soil Conservation Service to discharge these responsibilities. In such counties, these responsibilities shall be assumed by the county committees.

(2) The Forest Service is responsible for the technical phases of practice A–7. This responsibility shall include (i) providing necessary technical assistance, (ii) development of specifications for forestry practices, and (iii) working through State and county committees, determining performance in meeting these specifications. The Forest Service may utilize assistance from private, State or Federal agencies in carrying out these assigned responsibilities.

(i) *Harvesting or grazing or using stored water from the conservation reserve.* (1) No crop shall be harvested from the conservation reserve during the contract period except timber in accordance with sound forestry management as determined by the county committee and wildlife or other natural products of such acreage which do not increase supplies of food for domestic animals. No Christmas trees, ornamentals, or Christmas greens may be harvested from the conservation reserve during the contract period. Water from water storage for which cost-sharing was received under this program shall not be used for irrigation except for crops on the conservation reserve on the farm.

(2) The conservation reserve shall not be grazed during the contract period unless the Secretary, after certification by the Governor of the State in which the farm is located of the need for grazing on the conservation reserve, determines that it is caused by severe drought, flood, or other natural disaster and gives written consent to such grazing: *Provided*, That grazing in accordance with sound pasture management principles may be authorized by the Secretary after the first 3 years of the contract period.

(j) *Noxious weeds.* The contract signers shall, without reimbursement under the contract, take such steps as may be prescribed by the county committee to prevent the acreage in the conservation reserve from becoming a source of spreading noxious weeds designated by the State committee. A list of such noxious weeds will be available in the office of the county committee, and the contract signers shall obtain such information from that office.

§ 485.158 *Farm soil bank base.* (a) A farm soil bank base shall be established for the farm by the county committee equal to the average acreage of land devoted during the two years immediately preceding the first year of the contract period to the production of crops for harvest on the farm other than (1) annual grasses pastured or cut for hay or ensilage, (2) biennial legumes, (3) perennial grasses and legumes, (4) annual legumes except soybeans, cowpeas, peanuts, field and canning peas, and field and canning beans, and (5) land devoted to a garden primarily for home consumption. Annual grasses from which a crop of seed or grain is harvested shall not be considered as used for pasture, hay or ensilage. The acreage of any commodity for which payment is made under the acreage reserve program during the two years shall be considered as being devoted to the commodity and shall be included in determining the farm soil bank base. The average acreage devoted to such crops shall be adjusted by the county committee when necessary to make due allowance for abnormal weather conditions or for the established crop-rotation system for the farm to the extent that such abnormal weather conditions or crop-rotation system affected the acreage of such crops during the two years. The farm soil bank base established hereunder may provide different acreages for alternate years where necessary to reflect an established summer fallow rotation system.

(b) If the farm soil bank base for any year of the contract period is more than 30 acres, the producers (1) shall agree not to devote an acreage on the farm during any year of the contract period to soil bank base crops (i.e., the crops included in determining the farm soil bank base) in excess of the farm soil bank base less the number of acres in the conservation reserve, and (2) may place an acreage in the conservation reserve in excess of the number of acres in the farm soil bank base only if the entire eligible land on the farm (excluding any land in the acreage reserve during the first year of the contract period) is placed in the conservation reserve, in which event the nondiversion rate specified in § 485.163 (c) shall apply to the acreage in the conservation reserve in excess of the number of acres in the farm soil bank base.

(c) If the farm soil bank base for each year of the contract period is not more than 30 acres, (1) the producers may enter into a contract under which the entire conservation reserve is placed in the conservation reserve program at the non-diversion rate specified in § 485.163 (c), in which event they shall agree not to devote an acreage on the farm during any year of the contract period to soil bank base crops in excess of the soil bank base, or (2) the producers may enter into a contract under which a specified acreage of the conservation reserve, not to exceed the number of acres in the farm soil bank base, is placed in the conservation reserve program at the regular rate specified in § 485.163 (b) (such acreage may be in addition to acreage placed in the conservation reserve program at the non-diversion rate), in which event they shall agree not to devote an acreage on the farm during any year of the contract period to soil bank base crops in excess of the farm soil bank base less the number of acres placed in the conservation reserve program at the regular rate.

(d) For purposes of determining compliance with the provisions of paragraphs (b) and (c) of this section, the acreage reserve on any farm shall not be considered as having been devoted to the production of the commodity to which such reserve is applicable except to the extent that such land may in fact have actually been devoted to the production of such commodity.

(e) The producer shall agree not to harvest an acreage of soil bank base crops in excess of the acreage permitted to be devoted to such crops under the contract. Any producer who knowingly and willfully harvests any crop in violation of such agreement shall be subject to the civil penalty provided in § 485.173. A producer shall not be deemed to have harvested an acreage in excess of that permitted under the provisions of paragraphs (b) and (c) of this section unless the acreage harvested exceeds the number of acres permitted by more than 3 acres or 3 per centum of the acreage permitted, whichever is larger.

§ 485.159 *Reconstitution of farm.* (a) The definition of a farm in this subpart is the same as the definition of a farm as used in establishing acreage allotments under the Agricultural Adjustment Act of 1938, as amended. If, after a contract is entered into under this subpart, a farm is defined differently for purposes of acreage allotments than a farm is defined at the time the contract is executed, such new definition shall, at the election of the Secretary, apply to the contract from the effective date of such new definition or such later date as the Secretary may specify.

(b) If two or more farms as constituted at the time a contract is entered into are later combined, or if one farm as constituted at the time the contract is entered into is later divided into two or more farms, as a result of a change in the definition of a farm or otherwise, the provisions of the contract and this subpart shall apply to the farm on which the conservation reserve is located after the farm is reconstituted. In such case the contract shall be modified to reflect the change in the farm soil bank base required by such reconstitution.

§ 485.160 *Compliance with acreage allotments.* No producer shall be eligible for payments or compensation (including practice payments) under the conservation reserve program for any year with respect to any farm on which (a) the acreage of cotton, rice or tobacco exceeds the farm acreage allotment for the commodity; or (b) the acreage of wheat, in the case of a farm in the commercial wheat-producing area, exceeds the larger of the farm acreage allotment for wheat or 15 acres; or (c) the acreage of corn, in the case of a farm in the commercial corn-producing area, exceeds the soil bank corn base or the allotment whichever is in effect; or (d) the acreage of peanuts exceeds the larger of the farm acreage allotment for peanuts or one acre. For purposes of this provision such acreage limitations shall not be deemed to have been exceeded unless under the rules and regulations governing eligibility for price support for the commodity such acreage limitations would be determined to have been knowingly exceeded.

§ 485.161 *Pooling arrangements.* Producer(s) in any local area may, with the prior approval of the county and State committees, enter two or more farms jointly in the program if a plan is developed to the satisfaction of such committees that would result in better management of family farms or better land use of the farms through such joint participation than would be obtained through individual farm participation.

§ 485.162 *Practice cost-sharing*—(a) *Rates of cost-sharing for practices.* Subject to the further limitations provided in paragraph (b) of this section, the maximum share which the Secretary will bear of the cost of carrying out an approved practice on the conservation reserve shall be 80 percent of the average cost of performing the practice. The State committee may establish a rate of cost-sharing for practices lower than that specified herein, and the county committee may establish a rate lower than that specified herein or than that established by the State committee. For purposes of establishing rates of cost-sharing for practices, the average cost for carrying out a practice may be the average cost for a State, county, a part of a county, or a farm, as determined by the State committee.

(b) *Maximum cost-share limitations for practices.* The maximum cost-share for a water storage facility shall be $500, except that a higher maximum cost-share may be established for a State or an area within a State upon recommendation of the State committee and approval by the Administrator, ACPS. The maximum cost-share for practices G–1, G–2, and G–3 shall with respect to any farm be limited to an amount not in excess of that determined by multiplying the number of acres devoted to such practices multiplied by the maximum rate per acre which would be approved for practice A–2, A–7, D–1, or D–2, whichever is the highest on the conservation reserve.

(c) *Items of cost on which cost-sharing is authorized.* For practices A–2, A–4, A–7, B–7, C–14, D–1 and D–2, cost-sharing is authorized for the same items of cost-sharing which are or could be authorized for the same practices under the agricultural conservation program, except that no cost-sharing shall be allowed for the construction of fencing. The items of cost for which cost-sharing will be authorized will be available at the office of the county committee and the producer shall obtain such information at that office. Cost-sharing under the conservation reserve program in lieu of cost-sharing under the agricultural conservation program is authorized for eligible practices approved subsequent to January 1, 1956, provided the contract period includes the calendar year 1956. Except as provided in the preceding sentence, a producer is not eligible to receive cost-sharing under the conservation reserve program for a practice or practice component for which he has received or is due to receive cost-sharing on the same land under the agricultural conservation program.

(d) *Completion of practice.* Except as specified in paragraphs (g) and (h) of this section, Federal cost-sharing for eligible practices is conditioned upon approval of the county committee and upon the completion of performance of the practice in accordance with all applicable specifications and program provisions, and upon approval of the application for payment by the county committee. However, the cost-shares for any completed component of a practice may be paid before completion of the remaining components upon application therefor by the producers and approval by the county committee.

(e) *Practices involving the establishment of protective vegetative cover.* Costs for practices involving the establishment of protective vegetative cover may be shared even though a good stand is not established if the county committee determines, in accordance with standards approved by the State committee, that the practice was carried out in a manner which would normally result in the establishment of a good stand, and that failure to establish a good stand was due to weather or other conditions beyond the control of the producer. The county committee shall require as a condition of cost-sharing in such cases that the area be reseeded or that other needed protective measures be carried out. Cost-sharing in such cases may be approved also for repeat applications of measures previously carried out or for additional eligible measures. Cost-sharing for such measures shall be approved to the extent such measures are needed to assure a good stand even though less than that required by the applicable practice wording for initial approvals.

(f) *Failure to meet minimum requirements.* Notwithstanding other provisions of the program, costs may be shared for practices treating with the establishment of protective vegetative cover for the performance actually rendered even though the minimum requirements with regard to the rate of seeding or the application of liming materials or commercial fertilizers are not met, if the producer establishes to the satisfaction of the county committee and the State committee (1) that he made every reasonable effort to meet the minimum requirements, and (2) that the practice as performed adequately meets the conservation problem.

(g) *Practices carried out with State or Federal aid.* For the purpose of computing cost-shares to be borne by the Secretary, the total extent of any practice performed shall be reduced for the purpose of computing cost-shares by the percentage of the total cost of the items of performance on which costs are shared which the county committee determines was borne by a State or Federal agency. Materials or services furnished through the conservation reserve program, materials or services furnished by any agency of a State to another agency of the same State, or materials or services furnished or used by a State agency for the performance of practices on its land shall not be regarded as costs borne by a State or Federal agency for the purposes of this section.

(h) *Conservation materials and services.* (1) Part or all of the Federal cost-share for an approved practice may be in the form of conservation materials or services furnished under the conservation reserve program for use in carrying out the practice. Materials or services may not be furnished to persons who are indebted to the Federal Government as indicated by the register of indebtedness maintained in the office of the county committee, except in those cases where the agency to which the debt is owed waives its rights to set-off in order to permit the furnishing of materials and services.

(2) Title to any material furnished shall vest in the Federal Government until the material is applied or planted, or all charges for the material are satisfied.

(3) The producer shall pay that part of the cost of the material or service as established under instructions issued by the Administrator, ACPS, which is in excess of the Federal cost-share attributable to the use of the material or service, or upon request by the producer and approval by the county committee, the producer shall pay that part of the cost of the material or service which is in excess of the producer's Federal cost-share for all components of the practice.

(4) The producer to whom a material or service is furnished will be relieved of responsibility for the material or service upon determination by the county committee that the material or service was used for the purpose for which it was furnished and that any other components of the practice, on which the amount of the Federal cost-share advance toward the cost of the material or service was determined, have been carried out in accordance with all applicable specifications and program provisions. If the producer uses any material or service for any purpose other than that for which it was furnished, he shall be indebted to the Federal Government for that part of the cost of the material or service borne by the Federal Government and shall pay such amount to the Treasurer of the United States direct or by withholdings from Federal cost-shares or payments otherwise due him under the program.

(5) Any producer to whom materials are furnished shall be responsible to the Federal Government for any damage to the materials, unless he shows that the damage was caused by circumstances beyond his control. If materials are abandoned or not used, they may, in accordance with instructions issued by the Administrator, ACPS, be transferred to another producer or otherwise disposed of at the expense of the producer who abandoned or failed to use the material.

§ 485.163 *Annual payments* — (a) *Amount of payment.* An annual payment will be made to the producers on the farm for the period of the contract upon determination by the county committee that they have fulfilled the provisions of the contract entitling them to such payment. The amount of the annual payment shall be determined by multiplying the rate or rates of payment per acre determined in accordance with paragraph (b) or paragraph (c) of this section by the number of acres determined in accordance with paragraph (d) of this section.

(b) *Regular rates of payment.* (1) State annual payment rates per acre for the conservation reserve are as follows:

State	Regular rate
Alabama	$8.00
Arizona	9.00
Arkansas	9.00
California	12.00
Colorado	8.00
Connecticut	13.00
Delaware	12.00
Florida	8.00
Georgia	8.00
Idaho	11.00
Illinois	12.00
Indiana	12.00
Iowa	12.00
Kansas	10.00
Kentucky	10.00
Louisiana	10.00
Maine	9.00
Maryland	12.00
Massachusetts	13.00
Michigan	11.00
Minnesota	11.00
Missouri	9.00
Mississippi	10.00
Montana	9.00
Nebraska	9.00
Nevada	7.00
New Hampshire	10.00
New Jersey	13.00
New Mexico	8.00
New York	11.00
North Carolina	10.00
North Dakota	9.00
Ohio	12.00
Oklahoma	9.00
Oregon	12.00
Pennsylvania	11.00
Rhode Island	12.00
South Carolina	9.00
South Dakota	9.00
Tennessee	10.00

State	Regular rate
Texas	$10.00
Utah	11.00
Vermont	10.00
Virginia	10.00
Washington	13.00
West Virginia	10.00
Wisconsin	11.00
Wyoming	8.00

(2) The State committee shall establish a payment rate per acre for each county. In establishing the county payment rates, the State committee shall take into consideration the cash value of the land for the production of commodities customarily grown on such kind of land in the county, the prevailing rates for cash rentals of land used for the production of such crops customarily grown in the county, and the productivity of land in the county as compared with land in other counties in the State. County payment rates shall be adjusted by the State committee, where necessary, so that the county average payment rates per acre for all counties in the State, weighted by the acreage of cropland for the respective counties will equal the State annual payment per acre.

(3) The farm payment rate for each farm in the county shall be the county payment rate determined for the county pursuant to subparagraph (2) of this paragraph except that (i) the State committee may establish different payment rates for different areas of a county to reflect substantial differences between such areas in land productivity, cash value and prevailing rental rates of land used for the production of crops customarily grown in such areas, in which case the rates per acre established for the various areas in a county weighted by the cropland acreage in the respective areas may not exceed the county payment rate, and (ii) the county committee may establish a rate per acre for a farm which is lower than the rate established for the county or the area where it is determined that the land on such farm has a substantially lower productivity, cash value or rental rate than the average of the land in the county or area for which the payment rate for the county or area was established by the State committee.

(4) If any part of the conservation reserve is grazed as provided in § 485.157 during the first 3 years of the contract period, no annual payment will be made for such part of the conservation reserve for the year in which grazed, and if any part of the conservation reserve is so grazed after the first 3 years of the contract period, such annual payment shall be at a rate determined in accordance with regulations to be issued by the Secretary.

(c) *Non-diversion rate.* The non-diversion payment rate for a farm shall be 30 per centum of the regular payment rate for the farm, rounded to the nearest ten cents, and shall apply to that part of the conservation reserve which the producers have placed in the conservation reserve program without agreeing to make a corresponding reduction in the acreage devoted to soil bank base crops below the farm soil bank base. The non-diversion rate shall be applicable only (1) if the farm soil bank base for each year of the contract period is not more than 30 acres, or (2) if the producers place the entire eligible land on the farm in the conservation reserve.

(d) *Determination of acreage.* (1) In the case of farms on which any acreage is placed in the conservation reserve at the regular rate, including farms on which acreage is also placed in the conservation reserve at the non-diversion rate—(i) the number of acres used in computing the amount of the annual payment for any year at the regular rate shall be the smaller of (*a*) the acreage placed in the conservation reserve at the regular rate, or (*b*) the number of acres by which the acreage devoted to soil bank base crops on the farm for such year is less than the farm soil bank base for such year, and (ii) the number of acres used in computing the amount of the annual payment for any year at the non-diversion rate shall be the number of acres, if any, placed in the conservation reserve at the non-diversion rate: *Provided*, That no payment shall be made and the producer shall be considered in violation of his contract in any year in which the acreage devoted to soil bank base crops exceeds the number of acres of such crops permitted under the contract by more than 3 acres or 3 per centum of the number of acres permitted, whichever is larger.

(2) In the case of farms on which the entire acreage in the conservation reserve is placed in the conservation reserve at the non-diversion rate, the number of acres which shall be used in computing the amount of the annual payment for any year shall be the number of acres placed in the conservation reserve, less the number of acres, if any, by which the acreage devoted to soil bank base crops on the farm for such year exceeds the farm soil bank base: *Provided*, That no payment shall be made and the producer shall be considered in violation of his contract in any year in which the acreage devoted to soil bank base crops exceeds the farm soil bank base by more than 3 acres or 3 per centum of the farm soil bank base, whichever is larger.

(3) The number of acres in the tract or tracts of land designated as the conservation reserve and the number of acres on the farm devoted to soil bank base crops shall be measured or otherwise ascertained in the same manner as acreage is determined under the acreage allotment and marketing quota programs.

§ 485.164 *Limitation on payments.* The total of all annual payments under the conservation reserve program to any producer for any year with respect to all farms in which he has an interest shall not exceed $5,000.00, except that with the approval of the Secretary the total annual payment limitation may be increased in any case where the entire eligible land on a farm is designated as conservation reserve or where the erosion hazard is such that an increase in the limitation is warranted in order to more effectively accomplish the purposes of the program.

§ 485.165 *Manner and time of payments*—(a) *Practice payments.* The cost-sharing payment for practices shall be made by the State or county committee by means of a Commodity Credit Corporation sight-draft, payable to the producer or his assignee. Payments shall be made as soon as practicable after the extent of the performance of the approved conservation practice, or a component of such practice if authorized by the county committee, has been established. It shall be the responsibility of the producers eligible for payment to submit to the office of the county committee forms and information needed to establish the extent of the performance of approved conservation practices and compliance with the terms and conditions of the contract. Payment of cost-shares for conservation practices carried out on the conservation reserve will be made only upon application submitted on the prescribed form to the office of the county committee by June 30 of the year following the calendar year in which the practice is completed.

(b) *Annual payments.* The annual payment due producers for each calendar year during the contract period shall be made by the county or State committee by means of Commodity Credit Corporation sight-drafts, payable to the producer or his assignee. The annual payment shall be made as soon as practicable each year after the county committee has determined the acreage devoted to crops and other uses on the farm.

§ 485.166 *Set-offs.* If any producer to whom compensation is payable under the conservation reserve program is indebted to the United States Department of Agriculture, or any agency thereof including Commodity Credit Corporation and Federal Crop Insurance Corporation, or is indebted to any other agency of the United States and such indebtedness to such other agency is listed on the county register of indebtedness, the compensation due such producer shall be set-off against such indebtedness. Indebtedness owing to the Department of Agriculture, or any agency thereof, shall be given first consideration. Set-offs made pursuant to this section shall not deprive the producer of any right to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 485.167 *Division of payment between landlords, tenants, and sharecroppers*—(a) *Practice payments.* The Federal cost-share attributable to the use of conservation materials or services shall be credited to the producer to whom the materials or services are furnished. The remainder of the Federal cost-share shall be credited to the producer who carried out the practices by which such remainder of the Federal cost-share is earned. If more than one producer contributed to the carrying out of such practices, the Federal cost-share shall be divided among such producers in the proportion that the county committee determines they contributed to the carrying out of the practices. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the county committee that their respective contributions thereto were not in equal proportion. The furnishing of land or the right to use water will not be considered as a contribution to the carrying out of any practice.

(b) *Annual payments.* The contract entered into with the producers shall specify the basis on which the landlords, tenants, and sharecroppers are to share in the annual payments. The basis on which the tenants and sharecroppers share in such annual payments must be approved by the county committee as being fair and equitable. In considering whether the tenants and sharecroppers will share in the annual payment on a fair and equitable basis, the county committee shall give consideration to the respective contributions which would have been made by the landlord, tenants, and sharecroppers in the production of the crops which would have been produced on the acreage diverted from production under the contract and the basis on which they would have shared in such crops or the proceeds thereof. In general, the basis for sharing the annual payments may be approved by the county committee if—

(1) The total annual payment is allocated among the producer units (as defined in § 485.150 hereof) which would have been in effect if the producers were not participating in the conservation reserve program in proportion to the number of acres contributed from each producer unit to the acreage diverted from production under the contract; and

(2) The share of the landlord, and operator if other than the landlord, in the annual payments allocated to any producer unit farmed by a tenant or sharecropper does not result in the landlord and operator receiving substantially in excess of the return they would have received if they were not participating in the conservation reserve program for furnishing the land and farm management less any savings in cost to them which resulted from not producing a crop on the acreage diverted from production and less the amount of any enhancement in value of the land diverted from production as a result of conservation practices carried out on such land.

§ 485.168 *Additional provisions relating to tenants and sharecroppers.* (a) No contract shall be entered into with a producer if it shall appear—

(1) That the landlord or operator has not afforded his tenants and sharecroppers an opportunity to participate under the contract in proportion to the number of acres in the respective producer units of such commodity farmed by such tenants or sharecroppers; or

(2) That the landlord or operator has, as a result of participation in the soil bank program, reduced the number of tenants and sharecroppers on the farm, or the size of their producer units; or

(3) That there exists between the operator or landlord and any tenant or sharecropper any lease, contract, agreement, or understanding, unfairly exacted or required by the operator or landlord and entered into in contemplation of the signing of any contract hereunder, the effect or purpose of which is:

(i) To cause the tenant or sharecropper to pay over to the landlord or operator any payment to be paid to him under the contract; or

(ii) To change the status of any tenant or sharecropper in order to deprive him of any part of the payment or any other right or privilege of his under the contract to which his actual status with respect to the land prior thereto would have entitled him; or

(iii) To reduce the size of the tenants' or sharecropper's producer unit in contemplation of the signing of the contract; or

(iv) To increase the rent to be paid by the tenant or decrease the share of the crop or its proceeds to be received by the sharecropper.

(4) That the operator or landlord has adopted any device or scheme of any sort whatever for the purpose of depriving any tenant or any sharecropper of his payment or any other right under the contract.

(b) The contract shall be deemed to have been violated if any of the conditions set forth in paragraph (a) of this section are discovered after the signing of the contract, or if, after the signing of the contract, the producer enters into any lease, contract, agreement, or understanding with any tenant or sharecropper of the nature prohibited by paragraph (a) (3) of this section or adopts any scheme or device prohibited by paragraph (a) (4) of this section.

§ 485.169 *Successors-in-interest.* (a) In case of death, incompetency, or disappearance of any producer, any Federal cost-share or other payment under the contract due him shall be made to his successor, as determined in accordance with provisions of the regulations in ACP 122, as amended, issued by the Secretary (7 CFR Part 1108), or any amendments thereto, for payments made pursuant to section 8 of the Soil Conservation and Domestic Allotment Act, as amended.

(b) The loss of control of the farm by sale or otherwise by any owner signatory to the contract or by any cash tenant, standing-rent tenant or fixed-rent tenant who has a lease for the entire contract period and who signed the contract in lieu of the owner shall terminate the contract as to such producer. In the event of such termination, the producer losing control shall not be entitled to further compensation under the contract and shall refund all Federal cost-shares received by him under the contract unless the producer who acquires his interest in the farm is or becomes a party to the contract and assumes all obligations thereunder. The loss of control of the farm by any producer signatory to the contract shall not affect the rights and obligations of all other producers signatory to the contract except as otherwise provided in this subpart.

(c) If, after the contract is signed but before the crops are planted on the farm, a tenant or sharecropper is substituted for a tenant or sharecropper who is not signatory to the contract, the share of the original tenant or sharecropper in the annual payment shall be made to the substituted tenant or sharecropper. If such substitution occurs after the crops are planted on the farm, the original tenant or sharecropper shall be entitled to the share of the annual payment as specified in the contract.

§ 485.170 *Assignments.* Any person who may be entitled to any practice payment or annual payment under the Conservation Reserve Program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in any year during the contract period, including the carrying out of soil-, water-, forest-, and wildlife-conserving practices. No assignment will be recognized unless it is made in writing on a form prescribed by the Secretary and, insofar as applicable, in accordance with regulations issued by the Secretary for assignment of payments under the Soil Conservation and Domestic Allotment Act (7 CFR Part 1110), which are available in the offices of the State and county committees.

§ 485.171 *Payments not subject to claims.* Any annual payment or cost-share, or portion thereof, due any person hereunder shall be determined and allowed without deduction of claims for advances (except as provided in § 485.170 and except for indebtedness to the United States subject to set-off); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 485.172 *Violations of contract.* (a) In the event the Secretary determines that there has been a violation of any contract during the time the producer has control of the farm, and that such violation is of such a substantial nature as to warrant termination of the contract, all rights to annual and cost-share payments and grants under the contract shall be forfeited and all such payments and grants received by the producer shall be refunded with interest at the rate of six per centum per annum. The producers who sign the contract will be obligated to refund all such payments and grants received not only by them but also by any tenant or sharecropper who is not signatory to the contract. Any such tenant or sharecropper shall also be obligated to refund any such payment or grant received by such tenant or sharecropper.

(b) In the event the Secretary determines that there has been a violation of any contract but that such violation is of such a nature as not to warrant termination of the contract, the annual and cost-share payments and grants under the contract shall be adjusted, forfeited and refunded as the Secretary determines to be appropriate. The producers signing the contract will be obligated to accept such adjustments, forfeit such benefits, and make such refunds to the United States of annual and cost-share payments and grants received not only by them but also by any tenant or sharecropper not signatory to the contract as

the Secretary determines to be appropriate. Any such tenant or sharecropper will also be obligated to refund, forfeit, and accept such adjustment in annual and cost-share payments and grants paid or otherwise payable to such tenant or sharecropper as the Secretary determines to be appropriate. The Secretary may require payment of interest at a rate not in excess of six per centum per annum on any refund provided for in this paragraph.

(c) Regulations prescribing the rules and procedure for determining whether a violation has occurred, and whether such violation is of such a substantial nature as to warrant termination of the contract, and the amount of any adjustment, forfeiture or refund which shall be made if such violation is of such a nature as not to warrant termination of the contract, and the rules and procedure for review of such determinations will be published separately at a later date.

§ 485.173 *Penalty for grazing or harvesting.* Section 123 of the act imposes a civil penalty upon any producer who knowingly and willfully grazes or harvests any crop from any acreage in violation of a contract equal to 50 per centum of the amount payable (cost-share and annual payments) for compliance with such contract for the year in which the violation occurs. Such penalty is in addition to any amounts required to be forfeited or refunded under the provisions of the contract.

§ 485.174 *Filing of false claims.* No producer shall file a claim for a payment to which he knows he is not entitled under the provisions of the regulations in this subpart and the contract including claim for a cost-share payment not carried out or for practices carried out in such a manner that they do not meet the required specifications therefor, and the filing of any such claim shall constitute a violation of the contract.

§ 485.175 *Misuse of purchase orders.* No producer shall knowingly use a purchase order issued to him for conservation materials or services for a purpose other than that for which it was issued, and the misuse of the purchase order shall constitute a violation of the contract.

§ 485.176 *Access to farm and records.* The county committeemen or their representatives, or any authorized representative of the Secretary, for the purpose of ascertaining the accuracy of the representations made in or in connection with any contract entered into hereunder and the performance of the terms and conditions of such contract, shall have the right to enter the farm at any reasonable time in order to measure the acreage or determine the production of any agricultural commodity on the farm, and to examine any records pertaining to the farm or to the acreage, production, or sale of any such agricultural commodity, and the landlord or operator shall furnish such information relating to the farm as may be requested by the county committeemen or their representatives or authorized representatives of the Secretary.

§ 485.177 *State committee approval of determinations of county committees.* The State committee upon its own motion or at the request of any person may revise or require revision of any determination made by the county committee in connection with the conservation reserve program except that the State committee may not make a revision of any executed contract other than as specifically authorized herein.

§ 485.178 *Finality of determinations.* The facts constituting the basis for any payment, or the amount thereof, under any contract when officially determined in conformity with applicable regulations shall be final and conclusive and shall not be reviewable by any other office or agency of the Government, except that the Act provides for judicial review in the case of the termination of a contract.

§ 485.179 *Effects on acreage allotment and marketing quota programs.* (a) The acreage on any farm which is diverted from the production of any commodity in order to carry out a contract shall be considered as acreage devoted to the commodity for the purposes of establishing future State, county, and farm acreage allotments and corn base acreages.

(b) In applying the provisions of paragraph (6) of Public Law 74, Seventy-seventh Congress (7 U. S. C. 1340 (6)), and sections 326 (b) and 356 (g) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1326 (b), 1356 (g)) relating to reduction of the storage amounts of wheat and rice, the acreage on any farm which is diverted from the production of wheat or rice in order to carry out a contract shall be considered as wheat acreage or rice acreage, as the case may be, on the farm.

§ 485.180 *Appeals.* (a) Any producer may request the county committee to reconsider, prior to the execution of the contract by the producer, any determination made by the county committee affecting the contract except rates of payment. Such request shall be in writing and shall be made within 15 days after notice to him of such determination. The producer shall be deemed to have received notice of the determination if such determination is communicated to him verbally or if a letter, form, or other document has been mailed or delivered to him which discloses such determination. The county committee shall notify the producer of its decision in writing within 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the county committee, he may, within 15 days after notice of the decision appeal in writing to the State committee. The State committee shall notify him of its decision in writing within 30 days after the submission of the appeal. The decision of the State committee shall be final. If the producer fails to request reconsideration of a determination by the county committee, or fails to appeal from a decision of the county committee, within the 15-day period, the determination or decision of the county committee shall be final. If the final decision is not made prior to fifteen days before the closing date for executing contracts, the producers shall have fifteen days following such decision within which to execute the contract.

(b) Any dispute concerning a question of fact arising under the contract, except contract violations (which are governed by separate regulations, see § 485.172), which is not disposed of by agreement, shall be decided by the State committee. The State committee shall notify the producer in writing that the matter will be considered on a date specified in the notice, which date shall be not less than 30 days subsequent to the date of the notice. If the producer requests such an opportunity within 15 days from the date of receipt of such notice, he shall be given an opportunity to appear before the county committee and to offer any relevant evidence which he may wish to present. The county committee shall submit a report including its recommendation to the State committee. The producer shall also be afforded an opportunity to be heard by the State committee and to offer evidence in support of his position. If the producer does not request an opportunity to appear or to present evidence, the State committee shall proceed to consider the matter on the basis of such information as may be available to it.

§ 485.181 *Waiver.* The Administrator, ACPS in any matter involving a conservation practice, or the Administrator, CSS in any other matter, in order to prevent undue hardship, may waive the requirements of any provision of the regulations in this subpart or in the contract if not prohibited by law, if, in his judgment, such waiver is in the best interests of the program. Any such waiver shall be in writing and shall contain a full statement of the reasons therefor.

§ 485.182 *Delegation of authority.* (a) Any authority delegated to the Administrator, CSS in the regulations in this subpart may be exercised by the Deputy Administrator.

(b) Any authority delegated to the State committee in the regulations in this subpart may be redelegated to a member of the State committee or to any employee of the State committee.

Done at Washington, D. C., this 16th day of August 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 56-6779; Filed, Aug. 21, 1956; 8:50 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-225-A7]

PART 924—MILK IN DETROIT, MICH., MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK

§ 924.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Detroit, Michigan, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, effective not later than September 1, 1956. Any delay beyond that date in making this order amending the order effective will tend to disrupt the orderly marketing of milk in the Detroit, Michigan, marketing area. The changes effected by this order amending the order do not require persons affected to make substantial or extensive preparation prior to the effective date. Proposed amendments which would result in changes similar to those effected by this order amending the order were considered at a public hearing held during February 28–March 7, 1956; a recommended decision in this proceeding, to which interested parties were given an opportunity to file written exceptions, was issued on June 5, 1956, and a final decision was issued on August 10, 1956. Under these circumstances persons affected by this order amending the order have been afforded a reasonable time within which to prepare for its effective date. Therefore, good cause exists, pursuant to section 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 237), for making this order amending the order effective September 1, 1956.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Detroit, Michigan, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (May 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Detroit, Michigan, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as set forth below:

1. Revise § 924.5 to read as follows:

§ 924.5 *Detroit, Michigan, marketing area.* "Detroit, Michigan, marketing area," hereinafter referred to as the "marketing area," means all territory, including incorporated municipalities, within the outer boundaries of the townships of Burtchville, Grant, Greenwood, Kenockee, Wales, Clyde, Fort Gratiot, Kimball, Port Huron, St. Clair, China, East China, Ira, Cottrellville and Clay in St. Clair County, the townships of Chesterfield, Sterling, Clinton, Harrison, Warren, Erin, and Lake in Macomb County, the townships of White Lake, Waterford, Pontiac, Avon, Commerce, West Bloomfield, Bloomfield, Troy, Novi, Farmington, Southfield, and Royal Oak in Oakland County, the townships of Salem, Northfield, Webster, Scio, Ann Arbor, Superior, Ypsilanti, Pittsfield, Lodi, Saline, York, and Augusta in Washtenaw County, the townships of Ash and Berlin in Monroe County and all of Wayne County, all in the State of Michigan.

2. In § 924.16 (b) delete from the proviso the phrase, "during each of the months of November 1955 through January 1956 and, in subsequent years".

3. Revise § 924.43 (b) to read as follows:

(b) Skim milk and butterfat disposed of by a handler from a pool plant to a nonpool plant in the form of milk or skim milk shall be Class I utilization if so reported by the handler, or unless the market administrator is permitted to audit the records of receipts and utilization at such nonpool plant, in which case the classification of all skim milk and butterfat at such nonpool plant shall be determined and the skim milk and butterfat transferred from the pool plant shall be allocated to the lowest use during the months of April, May, or June and to the highest use during any other month. If all or a portion of the milk so transferred is retransferred to a second nonpool plant, the same conditions of audit, classification, and allocation shall apply.

4. Delete § 924.46 (b) and substitute therefor the following:

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk other than that to be subtracted pursuant to paragraph (c) of this section;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest priced utilization, the pounds of butterfat in other source milk received from a plant at which the handling of milk is fully subject to the pricing and payment provisions of another marketing agreement or order issued pursuant to the act;

5. In §924.46 change the designation of paragraphs "(c)", "(d)", and "(e)", to "(d)", "(e)", and "(f)", respectively.

6. Revise § 924.51 to read as follows:

§ 924.51 *Class I milk prices.* (a) Subject to the adjustment provided in paragraph (b) of this section, the minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for milk of 3.5 percent butterfat content received from producers or from cooperative associations, during the month, which is classified as Class I utilization shall be the basic formula price plus $1.23 during the months of February through July and plus $1.63 in all other months.

(b) The percentage which total receipts of producer milk by all handlers during the next two preceding months is of total Class I utilization at all pool plants, exclusive of variation in inventory during such period shall be computed each month by the market administrator and for the month in which the computation is made the Class I price shall be decreased by 3 cents for each percentage point that such percentage is above the average of the percentages for the corresponding months in the following schedule (rounding the difference to the nearest full percentage) and increased by 3 cents for each percentage point that such percentage is below the average of the percentages for the corresponding months in the following schedule (rounding the difference to the nearest full percentage):

Month:	Percentages
January	129.8
February	130.3
March	134.7
April	142.0
May	151.7
June	157.5
July	143.1
August	140.9
September	131.0
October	125.7
November	124.0
December	129.9

Provided, That in no event shall the Class I price be increased or decreased pursuant to this paragraph by more than 45 cents.

7. Revise § 924.52 to read as follows:

§ 924.52 *Class II milk price.* The minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for milk of 3.5 percent butterfat content received from producers or from a cooperative association during the month which is classified as Class II utilization shall be as follows:

(a) In the months of February through September the higher of: (1) The price per hundredweight as described ing § 924.50 (c), or (2) the price per hundredweight described in § 924.50 (b), less 18.3 cents.

(b) In the months of October, November, December, and January add 20 cents per hundredweight to the price determined in paragraph (a) of this section.

8. Revise § 924.53 to read as follows:

§ 924.53 *Handler butterfat differential.* There shall be added to or subtracted from, as the case may be, the prices of milk for each class as computed pursuant to §§ 924.51 and 924.52, for each one-tenth of one percent variation in the average butterfat test of the milk in each class above or below 3.5 percent an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month multiplied by 0.113 and the result rounded to the nearest one-tenth of a cent.

9. In § 924.60 (b) change the phrase, "other source milk is allocated to Class I pursuant to §§ 924.46 and 924.47" to read, "other source milk is allocated to Class I pursuant to § 924.46 (b) and the corresponding step of § 924.47."

10. In § 924.60 (c), change the tabulation of road distances and rates per hundredweight to read as follows:

Shortest road distance from Detroit City Hall:	Rate per hundredweight
More than 34 miles but not more than 50 miles	$0.14
More than 50 miles but not more than 70 miles	.15
Add 1 cent for each 20 miles or fraction thereof over 70 miles.	

11. At the end of § 924.71 (c) change the phrase "may retain his base without loss for six months." to read "may retain his base without loss for twelve months."

12. Change § 924.82 to read as follows:

§ 924.82 *Producer butterfat differential.* In making payments pursuant to § 924.80, the base price and excess price or the uniform price shall be increased or decreased for each one-tenth of one percent of butterfat content in the milk received from each producer or a cooperative association above or below 3.5 percent, as the case may be, by an amount equal to the average daily wholesale price per pound of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. D. A. during the month multiplied by 0.113 and the result rounded to the nearest one-half cent.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 17th day of August 1956, to be effective on and after the 1st day of September 1956.

[SEAL] EARL L. BUTZ,
Acting Secretary.

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

APPROVAL OF EXPENSES AND RATE OF ASSESSMENT

Notice of rule making regarding proposed expenses and rate of assessment, to be made effective under Marketing Agreement No. 98 and Order No. 57, as amended, (7 CFR Part 957), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, was published in the FEDERAL REGISTER July 25, 1956 (21 F. R. 5594). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which proposals were adopted and submitted for approval by the Idaho-Eastern Oregon Potato Committee, established pursuant to said marketing agreement and order, as amended, it is hereby found and determined that:

§ 957.209 *Expenses and rate of assessment.* (a) The reasonable expenses that are likely to be incurred by the Idaho-Eastern Oregon Potato Committee, established pursuant to Marketing Agreemnt No. 98 and Order No. 57, as amended, to enable such committee to perform agreement and order, as amended, during the fiscal year ending May 31, 1957, will amount to $25,000.00.

(b) The rate of assessment to be paid by each handler, pursuant to Marketing Agreement No. 98 and Order No. 57, as amended, shall be fifty cents per carload or fraction thereof, or per truckload of 5,000 pounds or more, of potatoes handled by him as the first handler thereof during said fiscal year.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 98 and Order No. 57, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 16th day of August 1956, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[F. R. Doc. 56-6759; Filed, Aug. 21, 1956; 8:46 a. m.]

PART 992—IRISH POTATOES GROWN IN WASHINGTON

APPROVAL OF EXPENSES AND RATE OF ASSESSMENT

Notice of rule making regarding proposed expenses and rate of assessment, to be made effective under Marketing Agreement No. 113 and Order No. 92 (7 CFR Part 992), regulating the handling of Irish potatoes grown in Washington, was published in the FEDERAL REGISTER July 25, 1956 (21 F. R. 5594). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which proposals were adopted and submitted for approval by the State of Washington Potato Committee, established pursuant to said marketing agreement and order, it is hereby found and determined that:

§ 992.208 *Expenses and rate of assessment.* (a) The reasonable expenses that are likely to be incurred by the State of Washington Potato Committee, established pursuant to Marketing Agreement No. 113 and Order No. 92, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending May 31, 1957, will amount to $20,330.

(b) The rate of assessment to be paid by each handler pursuant to Marketing Agreement No. 113 and Order No. 92 shall be three-eighths of one cent ($0.00375) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 113 and Order No. 92.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 16th day of August 1956, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 60—DOMESTIC URANIUM PROGRAM

ALLOWANCES

Notice is hereby given that the following amendment has been adopted by the Atomic Energy Commission effective upon publication in the FEDERAL REGISTER.

10 CFR 60.5a (3) (i) is amended to read as follows:

(3) *Allowances.* (i) A development allowance of $0.50 per pound U_3O_8 in ores assaying 0.10 percent U_3O_8 or more in recognition of expenditures incurred or likely to be incurred in the development or exploration necessary for maintaining and increasing developed reserves of uranium ores. Fractional parts of a pound will be paid for on a pro rata basis to the nearest cent.

* * * * *

(60 Stat. 755-775; 42 U. S. C. 1801-1819)

Dated at Washington, D. C., this 9th day of August 1956.

K. E. FIELDS,
General Manager.

[F. R. Doc. 56-6751; Filed, Aug. 21, 1956; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54166]

PART 1—CUSTOMS DISTRICTS AND PORTS

NEW CUSTOMS COLLECTION DISTRICT NO. 50 (NEW MEXICO)

AUGUST 15, 1956.

The new customs collection district created by section 7 of the Customs Simplification Act of 1956 (Public Law 927, 84th Congress, approved August 2, 1956), which comprises the State of New Mexico, is hereby designated as Customs Collection District No. 50 (New Mexico) and Columbus, New Mexico, a customs port of entry, is hereby designated as the headquarters port of said district.

Section 1.1, Customs Regulations, is amended as follows:

Paragraph (c) is amended by adding the following at the appropriate place in the tabulation of customs districts and ports of entry:

District No.	Name of district	Area of district	Ports of entry
50	New Mexico (T. D. 54166).	The State of New Mexico.	Columbus, N. Mex.

and is further amended by adding: "; T. D. 54166" after "1917" within the parentheses opposite "El Paso" in the column headed "Name of district" in District No. 24 (El Paso); by deleting "The State of New Mexico and" from the column headed "Area of district" in District No. 24 (El Paso); and by deleting "Columbus, N. Mex." from the column headed "Ports of entry" in District No. 24 (El Paso).

The citation of authority for § 1.1 is amended to read as follows:

(Sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended, 70 Stat. 943; 19 U. S. C. 1, 2.)

Section 1.4, Customs Regulations, is amended by adding "No. 50---- New Mexico" after "No. 26---- Arizona" under the heading "Comptroller of customs, New Orleans, La."

Section 1.5, Customs Regulations, is amended by changing the period to a comma after "24 (El Paso)" in customs agency district No. 10, with headquarters at Laredo, Texas, and by adding "50 (New Mexico)." after "24 (El Paso),".

Section 1.6, Customs Regulations, is amended by adding the following at the appropriate place in the tabulation of headquarters of appraisers of merchandise:

District No.	Name of district	Location of headquarters	Address of appraiser of merchandise
50	New Mexico	Columbus, N. Mex.	(*)

Section 1.7, Customs Regulations, is amended by deleting "and" preceding "27" and by adding "and 50." after "27" in the column headed "Customs collection districts" opposite "531 Mateo St., Los Angeles, Calif."

(R. S. 161, sec. 1, 37 Stat. 634, sec. 1, 38 Stat. 623, as amended, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1, 2, 1624)

[SEAL] DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 56-6765; Filed, Aug. 21, 1956; 8:47 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 105—ALASKA PENINSULA AREA

ADDITIONAL FISHING TIME

Basis and purpose. On the basis of adequate escapements of salmon in certain bays in the Alaska Peninsula area, it has been determined that additional fishing can be permitted.

Therefore, effective at 6 o'clock antemeridian August 23 and for the remainder of the 1956 season:

1. Section 105.3a is amended in paragraph (f) by suspending the proviso.

2. Section 105.19 is amended by suspending the restrictions of paragraphs (f) and (h).

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

JOHN L. FARLEY,
Director.

AUGUST 21, 1956.

[F. R. Doc. 56-6841; Filed, Aug. 21, 1956; 11:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 130]

DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS OF SECTION 503 (b) (1) (C) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

PROPOSAL TO REVISE DOSAGES RECOMMENDED FOR NEOMYCIN SULFATE NASAL DROPS AND SPRAYS

Notice is given that the Commissioner of Food and Drugs, in accordance with the Federal Food, Drug, and Cosmetic Act (secs. 503 (b) (3), 505 (c), 701 (a); 65 Stat. 649, 52 Stat. 1052, 1055; 21 U. S. C. 353 (b) (3), 355 (c), 371 (a)) and the authority delegated to him by the Secretary of Health, Education, and Welfare (21 CFR 130.101 (b); 21 F. R. 5576, 5582) hereby offers an opportunity to all interested persons to submit their views in writing to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER on the proposed amendment set forth below.

It is proposed to amend paragraph (a) of § 130.102 *Exemption for certain drugs limited by new-drug applications to prescription sale* by changing subparagraph (9) (vii) to read as follows:

(vii) The dosages recommended or suggested in the directions for use do not exceed: For adults, the equivalent of 0.24 milligram of neomycin base per nostril per dose, or 5 doses in a 24-hour period; for children over 3 years of age, the equivalent of 0.16 milligram of neomycin base per nostril per dose, or 5 doses in a 24-hour period.

Dated: August 16, 1956.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

CIVIL AERONAUTICS BOARD

[14 CFR Part 60]

[Draft Release No. 56-22]

AIR TRAFFIC RULES

SPEED CONTROL AND COMMUNICATION RULES FOR CERTAIN HIGH DENSITY AIRPORTS

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board an amendment to Part 60 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by September 24, 1956. Copies of such communications will be available after September 26, 1956, for examination by interested persons in the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Special Civil Air Regulation No. SR-408A, which authorized the Washington high density air traffic zone rules, terminated on July 31, 1956. The purpose of this special regulation was to delegate to the Administrator sufficient authority to permit him to designate a "high density air traffic zone" in the Washington, D. C., area and to establish special operating rules in the zone on a temporary basis. These special rules were designed to facilitate movement of traffic in the zone under VFR conditions in a safer and more efficient manner.

To evaluate properly the effects of such rules, they were placed in effect at Washington, D. C., August 1, 1955, on a trial basis for a one-year period. The program conducted under these special rules has been monitored and evaluated by a special working group of the Air Coordinating Committee (ACC). Members of this group included representatives of the Civil Aeronautics Administration, Civil Aeronautics Board, Department of the Army, Department of the Navy, Department of the Air Force, Air Line Pilots Association, Air Transport Association, Aircraft Owners and Pilots Association, National Association of State Aviation Officials, and the National Business Aircraft Association.

In order to obtain the information necessary to make a proper evaluation of the effectiveness of the high density rules, the working group distributed questionnaires to pilots operating into and out of the Washington area. An airport traffic control questionnaire survey was also conducted. Information obtained as a result of these surveys was cataloged and thoroughly evaluated. In addition, the working group has conducted personal interviews with airport traffic controllers from the three airports in the zone in order to obtain their views respecting the practicability of the special operating rules.

This special working group has completed its final report which has recently been reviewed by the ACC Air Traffic Control and Navigation Panel (NAV Panel). The recommendations that were adopted by the NAV Panel indicate that the special operating rules prescribed by the Administrator for the high density zone in the Washington, D. C., area have been found, in part, to be effective, and that these rules or modifications thereto could be successfully applied at other airports of high traffic density.

The Washington high density air traffic zone rules can be considered to comprise four basic elements:

1. A speed limit;
2. A communication requirement;
3. A minimum visibility requirement for VFR operations; and
4. The size or configuration of the airspace within which the preceding rules apply.

With respect to each of these rules, the NAV Panel adopted the following conclusions and recommendations:

1. With regard to the speed limit, it was agreed that this element of the rules had definitely contributed to improved safety of flight operations. It was recommended that appropriate rules be promulgated which would impose a speed limit for VFR traffic in areas of high traffic density.

2. While there is some controversy regarding the value of all of the provisions of the high density zone communication requirements, it was the view of the majority of the Panel that a communication requirement has contributed to improved safety of operations, the limitations of existing communication systems and procedures notwithstanding. The Panel, therefore, recommended that appropriate communication requirements be applied to VFI traffic at least to insure that arriving and departing flights have two-way radio communication with the pertinent air traffic control facility serving such areas.

3. While it was found difficult to measure the exact extent of the effectiveness of the one-mile visibility rule, it was the view of the majority of the Panel that the rule provided an added degree of safety and to some extent had alleviated the traffic controllers' problems associated with the special handling of VFR flights in IFR weather conditions. Opponents of the rule believed that, in the absence of more significant facts and statistics, the continued use of this rule could not be justified. However, the majority favored retention of the rule and it was recommended that a minimum visibility condition be established for VFR flight within such areas.

4. With regard to the configuration of the zone, it was agreed that as these special operating rules are applied to other areas, modifications in the size and configuration will obviously be required to tailor the zone to the particular requirements of a specific area. The needs and requirements of other areas can best be determined by consultation with the users involved, using the subject rules as a pattern. It was recommended that rules be promulgated empowering the Administrator of Civil Aeronautics to evaluate the needs of other areas and to prescribe a zone configuration peculiar to the needs of each particular area.

The Bureau is of the opinion that the foregoing views require serious consideration by the Board in its continued rule making activities relating to the control of traffic in high density areas. In 1954, when SR-408 was originally adopted, the Board advised interested persons that the Board's decision to make possible the trial of certain operational procedures in the Washington area was reached without prejudice to future consideration of the merits of any particular procedure. At least one request for hearing was denied by the Board on the grounds that such a hearing with respect to the merits of the special regulation would serve no useful purpose at that time because of its temporary and experimental nature. However, now that the Washington trial operation has run its course, we believe it timely that the Board consider the particular rules involved with a view toward incorporating them permanently into the Civil Air Regulations by amendment.

It is the view of the Bureau that because of the congestion of air traffic in the vicinity of certain large metropolitan airports, additional means of affording safety and efficiency in the movement of all aircraft in such areas are necessary. It is believed that a speed limit is a most practical method in achieving this objective. The Bureau believes that a speed limit can alleviate the hazards and the traffic handling problems arising from the widely differing speed ranges of aircraft operating in congested areas. Of paramount importance to the successful application of a speed limit is the configuration of the zone within which a speed-limit rule would be applied. It appears that each zone should be tailored to the particular needs of each specific area involved.

It is apparent that the efficient handling of air traffic at a high density airport depends in great measure upon a rapid exchange of information between pilots and controllers. Many high density airports during peak periods handle as many as sixty to seventy operations per hour. One need only to consider the speed, closure rates, and volume of aircraft to realize that such airport efficiency presupposes the availability of rapid pilot-tower communications.

While the Bureau recognizes that communications are essential to efficient high density airport operations, we are at the same time mindful of the possibility of restricting unnecessarily large areas of airspace to aircraft not equipped or not adequately equipped for communications. However, the CAA has advised that they believe specific areas can be designated consistent with the communications capabilities and the needs of the particular airspace involved.

In regard to the one-mile visibility limitation, the Bureau recognizes that the trial plan may not have provided sufficient statistical data to completely substantiate a conclusion as to whether this limitation effected an improvement in the safety of operations. However, the Bureau, apart from the trial plan evaluation, has circulated Civil Air Regulations Draft Release No. 56-7 dated March 15, 1956, which, if adopted, will establish a one-mile visibility minimum for VFR flight in all airport control zones. This Draft Release proposed to correct the apparent misunderstanding which exists with respect to the conditions under which aircraft having received a traffic clearance may operate VFR within a control zone by clarifying the operating rules which apply within a control zone to a flight which has received traffic clearance; and by establishing visibility minimums below which VFR flight would be prohibited even though a traffic clearance had been issued. Because of this action, the Bureau finds it unnecessary to consider further the one-mile visibility requirement in this particular notice of proposed rule making.

In view of the foregoing, notice is hereby given that it is proposed to recommend to the Board that Part 60 of the Civil Air Regulations be amended:

By amending § 60.18 by adding a new paragraph (f) to read as follows:

§ 60.18 *Operation on and in the vicinity of an airport.* * * *

(f) *High density air traffic zones.* In any area not above 3,000 feet above the surface in which the Administrator finds that traffic congestion is such as to adversely affect safety, he may designate such airspace as a high density air traffic zone in which the following rules shall apply:

(1) *Speed.* No aircraft shall be operated within a high density air traffic control zone at a speed in excess of 180 mph or 156 knots indicated airspeed unless operational limitations for a particular aircraft require greater airspeeds, in which case the aircraft shall not be flown in excess of the minimum speed consistent with safety.

(2) *Communications requirements.* Prior to flight within a high density air traffic zone, radio communication with the appropriate control tower shall be established. Thereafter, a continuous listening watch shall be maintained to receive any air traffic control information or clearances that may be issued: *Provided,* That aircraft not equipped with functioning two-way radio may be operated to or from an airport located within the zone with prior authorization from the appropriate airport traffic control tower.

This amendment is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comment received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., August 15, 1956.

By the Bureau of Safety Regulation.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 174, 405]

SURETY BONDS AND POLICIES OF INSURANCE

NOTICE OF PROPOSED RULE MAKING

JULY 17, 1956.

Proposed revision of certain rules governing the filing of insurance and other security by motor carriers and brokers subject to part II of the Interstate Commerce Act and by freight forwarders subject to part IV.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given of the proposed revision of certain rules and regulations relating to the filing of insurance or other security for the protection of the public required pursuant to sections 215 and 403 (c) and (d) of the Interstate Commerce Act, which pertain to motor carriers subject to part II and to freight forwarders subject to part IV, respectively. The revisions proposed to be made are set forth below and include explanatory notes covering the purpose and effect of such proposed revisions.

No oral hearing on the proposed revisions is contemplated; however, interested parties may file with this Commission, within thirty days from the publication of this notice, written statements of facts, opinions or arguments concerning the herein proposed revisions. Any written statement so filed shall conform with the specifications provided in Rule 15 of the Commission's rules of practice. An original signed copy and six additional copies shall be furnished for use of the Commission.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for inspection, and by filing a copy with the Director, Division of the Federal Register.

By the Commission, Division 1.

[SEAL] HAROLD D. MCCOY,
Secretary.

1. Section 174.7 *Forms and procedure*—(a) *Forms of endorsements, cancellation notices, etc.* and § 405.8 *Forms and procedure*—(a) *Forms* to be amended in each case by the addition of the following sentence at the end thereof: "Surety bonds and certificates of insurance shall specify that coverage thereunder will remain in effect continuously until terminated as herein provided, except that in special or unusual circumstances special permission may be obtained for filing certificates of insurance or surety bonds covering periods of less than twelve months duration."

Explanation. This proposal is self-explanatory with respect to its principal provision. Like those that follow, it contemplates uniformity with respect to its provisions pertaining to motor carriers and to freight forwarders. Its adoption will ease the burden of preparing and filing annual certificates of insurance (or surety bonds) by insurance and surety companies and that of the Commission's staff in handling the many details attendant upon the annual renewal system. The proposed requirement for "continuous" certificates (or bonds) in lieu of permitting an option in the manner of filing as heretofore will make it important for companies to give the Commission seasonable notice of cancellation with respect to any risks which are not renewed at the termination of any annual contract. The provision for special permission is extended to cover such short-term or interim coverages as might exist under such special circum-

stances as in the changing of coverages, when only temporary or seasonal operations are performed, or incidental to transfer proceedings.

2. Section 174.7 (d) *Cancellation notice* and § 405.8 (d) *Cancellation* to be amended to read, respectively, as follows:

(d) Except as provided in paragraph (e) of this section, surety bonds, certificates of insurance and other securities and agreements shall not be cancelled or withdrawn until after thirty (30) days' notice in writing by the insurance company, surety or sureties, motor carrier, broker or other party thereto, as the case may be, has first been given to the Commission at its office in Washington, D. C., which period of thirty (30) days shall commence to run from the date such notice is actually received at the office of the Commission.

(d) Except as provided in paragraph (f) of this section, certificates of insurance, surety bonds and other securities and agreements shall not be cancelled or withdrawn until after 30 days' notice in writing has first been given by the insurance company or companies, surety or sureties, freight forwarder or other party thereto, as the case may be, to the Commission at its office in Washington, D. C., which period of 30 days shall commence to run from the date such notice is actually received at the office of the Commission.

Explanation. This proposal, which relates directly to that which follows, contemplates no change in the basic thirty-day notice requirement as it has heretofore existed. It does, however, contemplate the removal of the following provision, which, it is felt, has not been fully utilized: "However, such surety bonds, certificates of insurance and other securities and agreements may be cancelled prior to the expiration of the said thirty days if, on or before the date notice of cancellation is received, a replacement filing acceptable to the Commission shall have been received, such replacement being effective on or before the effective date of such cancellation. No cancellation may become effective before the date of receipt of such notice by the Commission."

Instead, a new sub-section (see Proposal No. 3) is proposed to be added at this point with respect to both the motor carrier and freight forwarder rules, which will spell out more definitely and precisely the conditions under which cancellation or termination of existing coverage may be made effective other than under the basic thirty-day provision.

3. New §§ 174.7 (e), and 405.8 (f), with respect to motor carriers and freight forwarders, respectively, to be inserted as follows:

(e) *Termination by replacement.* Certificates of insurance or surety bonds which have been accepted by the Commission under these rules may be replaced by other certificates of insurance, surety bonds or other security, and the liability of the retiring insurer or surety under such certificates of insurance or surety bonds shall be considered as having terminated as of the effective date of the replacement certificate of insurance, surety bond or other security: *Provided,* The said replacement certificate, bond or other security meets all of the following conditions: (1) It must be acceptable to the Commission under these rules and regulations; (2) It must be accompanied by a letter of authorization, in duplicate, signed by the motor carrier involved or an authorized employee of such motor carrier, authorizing such replacement and verifying the effective date thereof; and (3) Its effective date must coincide with the effective date specified in the letter of authorization and the said date may not be more than thirty days prior to the date of receipt by the Commission of the letter of authorization and replacement certificate, bond or other security.

(f) *Termination by replacement.* Certificates of insurance or surety bonds which have been accepted by the Commission under these rules may be replaced by other certificates of insurance, surety bonds or other security, and the liability of the retiring insurer or surety under such certificates of insurance or surety bonds shall be considered as having terminated as of the effective date of the replacement certificate of insurance, surety bond or other security: *Provided,* The said replacement certificate, bond or other security meets all of the following conditions: (1) It must be acceptable to the Commission under these rules and regulations; (2) It must be accompanied by a letter of authorization, in duplicate, signed by the freight forwarder involved or an authorized employee of such freight forwarder, authorizing such replacement and verifying the effective date thereof; and (3) Its effective date must coincide with the effective date specified in the letter of authorization and the said date may not be more than thirty days prior to the date of receipt by the Commission of the letter of authorization and replacement certificate, bond or other security.

Explanation. As indicated in connection with Proposal No. 2, this proposal provides a means of terminating a certificate of insurance or surety bond without the necessity of giving the full thirty days notice of cancellation required under § 174.7 (d), but only in those cases in which proper replacement coverage has been furnished and proper authorization is received from the motor carrier or freight forwarder involved, as the case may be. Even in such cases the cancellation or termination of existing coverage may not become effective earlier than thirty days prior to the receipt of replacement coverage and authorization. This limitation as to effectiveness is intended to minimize any confusion which might result from possible attempts to have the records adjusted with respect to long-standing coverage, particularly in such cases as those in which information had been furnished from Commission records in reply to inquiries pertaining to coverage on file. The provision for authorization "in duplicate" herein furnishes a means for notifying the retiring insurer as to the date of termination of its coverage.

4. Section 174.8 (b) *Financial resources* and § 405.6 (b) *Financial resources* both to be amended to read as follows:

(b) *Financial resources.* Each insurance and surety company must possess and maintain surplus funds (policyholders' surplus) of not less than $500,000, which minimum will be determined on the basis of the values of assets and liabilities as shown in its financial statements filed with and approved by the insurance department or other insurance regulatory authority of the state of domicile (home state) of such company, except in instances where, in the judgment of the Commission, additional evidence with respect to such values is considered necessary.

Explanation. This proposal would increase the minimum policyholders' surplus requirement which was established in 1944, bringing the Commission's requirements, respecting both motor carriers and freight forwarders, in line with present day conditions and, incidentally, with those of a great majority of the states. The proposed minimum would apply alike to all stock and nonstock companies, organizations or associations. If this proposal is adopted, it is contemplated that the very few companies with less than $500,000 policyholders' surplus now qualified to file certificates or bonds with the Commission would be allowed ample time within which to adjust their finances to meet the increased minimum requirement.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

SOUTH DAKOTA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDES

AUGUST 13, 1956.

The U. S. Forest Service, Department of Agriculture, has filed an application, Serial No. Montana 022424 (SD), for the withdrawal of the lands described below, from location and entry under the general mining laws. The applicant desires the land for a recreation area.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 1245 North 29th Street, Billings, Montana.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BLACK HILLS PRINCIPAL MERIDIAN

BLACK HILLS NATIONAL FOREST

Sheridan Lake Recreation Area:
T. 1 S., R. 5 E.,
Sec. 13: N½SW¼;
Sec. 14: N½SE¼.

Total area 160 acres.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case 216]

GYMA LABORATORIES OF AMERICA, INC., AND ROLF LIPTON

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of a compliance proceeding against Gyma Laboratories of America, Inc. and Rolf Lipton, 83–10 Baxter Avenue, Jackson Heights 73, New York, respondents, Case No. 216.

The respondents, Gyma Laboratories of America, Inc., and Rolf Lipton, its vice president, (hereafter Gyma),[1] having been charged by the Director of the Investigation Staff, Bureau of Foreign Commerce, with having violated the Export Control Act of 1949, as amended, and an order and regulations promulgated thereunder, duly appeared in this proceeding and were represented by counsel; and, after admitting the facts as set forth in the charging letter, but denying that they knew or had any intention that their conduct was or would be in violation of the law or any order or regulation promulgated thereunder, submitted a proposal that a consent order be entered against them as hereinafter set forth; and said proposal having been presented to the Compliance Commissioner as provided in § 382.10 of the export control regulations; and the Agent in Charge, Investigation Staff, having agreed to the same; the Compliance Commissioner duly considered the evidence in support of the charges and all evidence and data submitted by respondents in mitigation thereof, and he then reported the facts as found by him to the undersigned with his recommendation that the proposal be accepted.

Now, after reading the report of the Compliance Commissioner, the consent proposal, the statements and data submitted on behalf of the respondents and, after consideration of the evidence in support of the conclusions hereinafter made, I hereby make the following findings of fact:

1. Gyma Laboratories of America, Inc., is an experienced exporter of commodities from the United States and Rolf Lipton, its vice-president, was the official who handled the export transaction involved herein.

2. In January 1955, K. Burgi-Tobler & Co. of Zurich, Switzerland (hereafter Burgi-Tobler), requested from Gyma and Gyma furnished to it price quotations on various culture media (peptone proteose, peptone tryptose and peptone bacto).

3. On February 21, 1955, the Bureau of Foreign Commerce issued an order temporarily denying to Burgi-Tobler all privileges of participating directly or indirectly in any manner, form or capacity in an exportation of any commodity from the United States to any foreign destination. The order, effective that day, was to remain in effect until the termination of administrative compliance proceedings then being prepared by the Bureau of Foreign Commerce against Burgi-Tobler. Its text was duly published on February 25, 1955, in the FEDERAL REGISTER. (20 F. R. 1188). The Current Export Bulletin of the Bureau of Foreign Commerce, No. 746 of March 3, 1955, as an addition to Supplement No. 1 to Part 382 of the Export Regulations, reported that Burgi-Tobler was subject to an export denial order, effective February 21, 1955, until further notice, covering all general and validated licenses pertaining to all commodities for any destination, and gave the citation to the volume and page of the FEDERAL REGISTER where the text of said order appeared.

4. The said order of February 21, 1955 and the export regulations, (§ 381.10), specifically provided, among other things, that no person or business organization within the United States or elsewhere should, without prior disclosure of the facts to and specific authorization from the Bureau of Foreign Commerce, directly or indirectly in any manner, form, or capacity obtain or use any shipper's export declaration, bill of lading, or other export control document relating to any exportation of commodities from the United States, or dispose of, finance, transport, forward, or otherwise participate in an exportation from the United States, with respect to which any suspended party, (Burgi-Tobler), or any company related to it had any interest or participation of any kind or nature, direct or indirect, or directly or indirectly obtained any benefit therefrom.

5. Gyma subscribed to the Department of Commerce publication containing the export regulations, received the Current Export Bulletin of March 3, and, on or about March 17, 1955, read the report of the said denial order issued against Burgi-Tobler. At about the same time Burgi-Tobler notified Gyma that it had been suspended by the Department of Commerce.

6. On March 21, 1955, Burgi-Tobler wrote to Gyma placing an order with it for specified quantities of the aforesaid culture media at the prices previously quoted by Gyma. Burgi-Tobler requested Gyma to send the goods to an Antwerp, Belgium, forwarding firm, and to send to Burgi-Tobler the original bills of lading to facilitate the release of the merchandise in time. Burgi-Tobler also asked Gyma to mail the commercial invoice for such consignment to another specifically named firm in Zurich, and advised Gyma that the amount of the invoice would be remitted to Gyma, as usual, through a specified bank in Switzerland. Gyma did not ship in accordance with this order.

7. Gyma later received a letter dated April 7, 1955, on the stationery of the Zurich firm named in Burgi-Tobler's letter of March 21, ordering the same quantities of the culture media as specified in Burgi-Tobler's letter of March 21, at the prices originally quoted by Gyma to Burgi-Tobler in January. All documentation was to be forwarded to the Zurich firm. Gyma received a second letter from the Zurich firm, dated May 25, asking that Gyma expedite this order of April 7.

8. Following its receipt of the April 7 letter, Gyma, without making any inquiry into the text of the denial order, or into the relationship between Burgi-Tobler and the other Zurich firm, and without any notification to the Bureau of Foreign Commerce, exported the said culture media from the United States to the firm in Zurich under General License GRO on June 2, 1955. Gyma consigned the goods to the order of the bank in Switzerland, and issued its sight draft to the said bank upon an invoice to the Zurich firm.

9. The letters of April 7 and May 25 on stationery of the Zurich firm were prepared and signed by Burgi-Tobler, allegedly without the knowledge or consent of that firm, on stationery entrusted by it to Burgi-Tobler for other purposes, with the intention to receive the goods for its own disposition. Gyma was not

[1] Charges against K. Burgi-Tobler & Co., Zurich, Switzerland, arising out of this transaction, have been severed and will be disposed of separately.

charged with knowledge or reason to suspect that this had been done.

10. The Bureau of Foreign Commerce, acting on information that the goods, unless stopped, would reach Burgi-Tobler, ordered the exporting carrier to return them to the United States pursuant to § 371.11 of the export regulations and, upon their arrival in New York, they were duly seized by the Collector of Customs.

The Investigation Staff contended and the respondents have conceded that the fact that an export transaction is originally arranged or participated in by a party denied U. S. export privileges, is a material fact which a U. S. exporter is required to disclose to the Bureau of Foreign Commerce before effecting an exportation to any other purchaser or consignee appearing to have taken over the transaction and that the language in denial orders and in the Export Regulations directed to third persons, prohibiting them, except with Bureau of Foreign Commerce approval, from engaging in any activity concerning commodities exported or to be exported from the United States with respect to which the party denied export privileges "has any interest or participation of any kind or nature, direct or indirect" or "directly or indirectly receives any benefit therefrom" is language of the broadest scope. Similarly, it was contended and is now conceded that a shipment to a customer of a suspended party, even if the only interest of the suspended party is in retaining its customer's good will, is included within that prohibition. It is my belief that disclosure by Gyma of the circumstances of the transaction would have led to an investigation of the new transaction and discovery of the apparent forgery, and so Gyma should be held accountable for its erroneous assumption that the shipment was proper and that it was not required to disclose the facts to the Bureau of Foreign Commerce.

It is my conclusion that respondents, Gyma Laboratories of America, Inc., and Rolf Lipton, did violate the said order of February 21, 1955, temporarily denying export privileges to Burgi-Tobler, and §§ 381.2, 381.4, and 381.10 of the export regulations by their exportation of commodities in the circumstances above summarized without obtaining the prior approval of the Bureau of Foreign Commerce. Giving consideration to the facts that this is the first case involving a violation of a denial order applicable to a third party and that the purchase order upon which respondents acted appears to have been a forgery, *It is hereby ordered:*

I. All outstanding validated export licenses in which Gyma Laboratories of America, Inc., and Rolf Lipton, the respondents, appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. For the period specified in paragraph IV hereof, the said respondents are hereby suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, or in a transshipment or reexportation outside of the United States of any commodity in whole or in part exported from the United States. Without limitation of the generality of the foregoing denial of export privileges, such participation is deemed to include and prohibit participation by them, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, delivering, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to the said respondents, but also to any person, firm, corporation, or business organization which may be related now or hereafter to either of them by ownership, control, or position of responsibility in the conduct of trade in which may be involved exports from the United States or services connected therewith.

IV. Such denial of export privileges shall be for a period of three months, of which the first month shall be and become effective forthwith and the remaining two months shall be suspended during a period of good behavior to continue until the expiration of three months from the date hereof. During the said remaining period of two months, all export privileges otherwise denied to the respondents shall be restored to them without further action upon condition that, during said period of good behavior, the respondents comply in all respects with this order and with all other requirements of the Export Control Act of 1949, as amended, and all regulations promulgated thereunder. The privileges so conditionally restored to the respondents may be revoked summarily and without notice, but subject to the right of respondents to appeal therefrom, upon a finding by the Director of the Office of Export Supply, or such other official as may at that time be exercising the duties now exercised by him, that the respondents or either of them, at any time within three months following the date hereof, have knowingly failed to comply with the condition upon which they have been permitted to engage in the export business during the last two months of said period of good behavior, without prejudice to any other action which may be taken by reason of any such new or additional violation. In the event that it be so determined that the respondents, or either of them, have breached the said condition, the continued effective denial of their or his export privileges shall commence on the day of such determination and shall continue thereafter for two full months or three months from the date hereof, whichever shall be the later.

V. No person, firm, corporation, or other business organization, whether in the United States or elsewhere, during any time when the respondents and related parties are prohibited under the terms hereof from engaging in any activity within the scope of paragraph II hereof, shall, without prior disclosure to and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any export license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, or (b) order, receive, buy, sell, use, deliver, dispose of, finance, transport, forward, or otherwise service or participate in, any exportation from the United States or a transshipment or reexportation of any commodity exported from the United States, in which the respondents or any related party may have any interest or obtain any benefit of any kind or nature, directly or indirectly.

Dated: August 21, 1956.

FRANK W. SHEAFFER,
Acting Director,
Office of Export Supply.

INTERNATIONAL EXPEDITERS INC., AND VAIRON & CO. INC.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8131 between International Expediters Inc. of Los Angeles, California and Vairon & Company, Inc. of New York, New York, is a cooperative working arrangement between these freight forwarders under which International Expediters Inc. performs forwarding services on behalf of Vairon & Company, Inc.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: August 16, 1956.

3790; Zim-Ricaby Field, Starr County, Tex.; Tennessee Gas Transmission Company.
3800; West Magnolia City Field, Jim Wells County, Tex.; Tennessee Gas Transmission Company.
3821; Farenthold and Rand Morgan Fields, Jim Wells and Nueces Counties, Tex.; Associated Oil and Gas Company.
3828; Brayton Field, Nueces County, Tex.; Tennessee Gas Transmission Company.
3829; West Vidauri Field, Refugio County, Tex.; Tennessee Gas Transmission Company.
3832; West Panhandle Field, Gray County, Tex.; Phillips Petroleum Company.
3850; Sarco Creek Field, Goliad County, Tex.; Tennessee Gas Transmission Company.
3871; Sancito Field, La Capita Area, Starr County, Tex.; Tennessee Gas Transmission Company.
3876; Doyle Field, Stephens County, Okla.; Universal Gasoline Company.
3879; Cecil-Noble Fields, Colorado County, Tex.; Tennessee Gas Transmission Company.
3882; Agua Dulce Field, Nueces County, Tex.; Tennessee Gas Transmission Company.
3899; Bethany Field, Panola County, Tex.; Tennessee Gas Transmission Company.
3936; West Calaboose Field, San Patricio County, Tex.; Tennessee Gas Transmission Company.
3938; Agua Dulce Field, Nueces County, Tex.; Tennessee Gas Transmission Company.
3968; South Crowley Field, Acadia Parish, La.; Tennessee Gas Transmission Company.
4241; Carthage Field, Panola County, Tex.; Lone Star Gas Company.
4733; Rand Morgan Field, Jim Wells and Nueces Counties, Tex.; Tennessee Gas Transmission Company.
4880; Panhandle and Hugoton Fields, Tex.; Phillips Petroleum Company.
7293; Rodessa Field, Caddo Parish, La.; Arkansas Louisiana Gas Company.
7296; Brown Field, Crowley County, Kans.; Cities Service Gas Company.
7297; Saint Martin Field, Saint Martin Parish, La.; United Gas Pipe Line Company.
7298; Southwest Jefferson Field, Marion County, Tex.; Arkansas Louisiana Gas Company.
8092; Murphy District, Ritchie County, W. Va.; South Penn Natural Gas Company.
8097; Murphy District, Ritchie, County, W. Va.; South Penn Natural Gas Company.
8099; Clay and Grant District, Ritchie County, W. Va.; Tennessee Production Company.
8768; Delhi Field, Franklin Parish, La.; Texas Eastern Gas Transmission Corporation.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 11, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 28, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-10908]

PHILLIPS PETROLEUM CO.

ORDER PROVIDING FOR HEARING

Phillips Petroleum Company (Phillips), on June 29, 1956, submitted to the Commission a revised billing statement to supersede the sample billing statement previously submitted to show how the billing amount is determined for the sale of natural gas, on and after June 7, 1954, to Panhandle Eastern Pipe Line Company (Panhandle), under Phillips' FPC Gas Rate Schedule No. 61.

The original sample billing submitted by Phillips for the month of June 1954, for the above-designated sale, reflects a rate of 3.1824 cents per Mcf at 14.65 psia. The revised billing statement submitted on June 29, 1956, contains a rate of 3.7120 cents per Mcf at 14.65 psia. Phillips avers that the difference of 0.5296 cent per Mcf is occasioned by the failure of Panhandle, who does the billing under the terms of the contract, to include in the original rate the incremental amount required by a royalty escalation clause in the contract. Based upon sales for the month of June 1954, the revised billing would produce an increase of $3,058 in the cost of purchased gas to Panhandle for that month. Should the revised billing be found to be correct, an additional amount of approximately $73,000 would be due and owing to Phillips for the period June 1954 to date.

In its letter of July 9, 1956, addressed to the Commission, Panhandle protests the submittal by Phillips of the revised billing statement for the month of June 1954. In substance Panhandle contends that such revised billing statement could not be used as a basis for effecting a change in rate with respect to either past or future deliveries of gas to it by Phillips; that the revised billing statement submitted by Phillips is not in accordance with Phillips' FPC Gas Rate Schedule No. 61 and does not reflect the rate Panhandle agreed to pay for such deliveries; and that such revised billing does not reflect a correct determination of such rate, pursuant to the provisions of the rate schedule.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that a hearing be held to determine the correct rate as of June 7, 1954, for the sale of natural gas by Phillips under its FPC Gas Rate Schedule No. 61, to Panhandle Eastern Pipe Line Company.

The Commission orders: A public hearing be held, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 15 and 16 of the Natural Gas Act, and the Commission's rules of practice and procedure, commencing on September 27, 1956, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the submittal by Phillips of the revised billing statement for sales of gas by it to Panhandle Eastern Pipe Line Company under Phillips' FPC Gas Rate Schedule No. 61, and the protest thereto by Panhandle.

Issued: August 16, 1956.

By the Commission.

J. H. GUTRIDE,
Acting Secretary.

HOUSING AND HOME FINANCE AGENCY

Public Housing Administration

DESCRIPTION OF AGENCY AND PROGRAMS

CHICAGO AND FORT WORTH OFFICES

Section I, Description of Agency and Programs, is amended as follows:

Effective September 1, 1956, subparagraphs 2 and 3 of paragraph G are amended to read as follows:

2. *Chicago Regional Office.* Illinois, Indiana, Iowa, Kansas (Liquidating Emergency Housing Program only), Michigan, Minnesota, Missouri (City of St. Louis and County of St. Louis only), Nebraska, North Dakota, Ohio, South Dakota, Wisconsin. Public Housing Administration, Room 2201, 185 North Wabash Avenue, Chicago 1, Illinois.

3. *Fort Worth Regional Office.* Arkansas, Colorado, Kansas (except Liquidating Emergency Housing Program), Louisiana, Missouri (except the City of St. Louis and the County of St. Louis), New Mexico, Oklahoma, Texas. Public Housing Administration, Room 2072, 300 West Vickery Boulevard, Fort Worth 4, Texas.

Date approved: August 16, 1956.

[SEAL] JOHN D. CURRIE,
Acting Commissioner.

[F. R. Doc. 56-6754; Filed, Aug. 21, 1956; 8:45 a. m.]

INTERSTATE COMMERCE COMMISSION

ORGANIZATION OF DIVISIONS AND BOARDS AND ASSIGNMENT OF WORK, BUSINESS AND FUNCTIONS

AUGUST 15, 1956.

The organization of divisions and boards and assignment of work, business and functions of the Interstate Commerce Commission, pursuant to section 17 of the Interstate Commerce Act as amended (49 U. S. C. 17), effective July 17, 1956, is set forth below.

[SEAL] HAROLD D. McCOY,
Secretary.

(References are to the Interstate Commerce Act, as amended, unless otherwise specified.)

1.1 The following organization schedule and assignment of work and functions shall be effective until duly changed:

DIVISIONS OF THE COMMISSION

2.1 There shall be four divisions of the Commission to be known, respectively, as divisions one, two, three and four.

2.2 As provided by section 17 of the Interstate Commerce Act, as amended, each division shall have authority to hear and determine, order, certify, or report or otherwise act as to any work, business, or functions assigned or referred to it under the provisions of that section, and with respect thereto shall have all the jurisdiction and powers conferred by law upon the Commission, and be subject to the same duties and obligations.

2.3 Each division with regard to any case or matter assigned to it, or any question brought to it under this delegation of duty and authority, may call upon the whole Commission for advice and counsel, or for consideration of any case or question by an additional Commissioner or Commissioners assigned thereto; and the Commission may recall and bring before it as such any case, matter or question so allotted or assigned and may either dispose of such case, matter, or question itself, or may assign or refer the matter to the same or another division.

2.4 From such assignment of work there shall be reserved for consideration and disposition by the Commission (1) all investigations on the Commission's own motion heretofore entered upon and hereafter instituted, except as may be otherwise provided, and (2) all applications for rehearing, reargument or other reconsideration and all cases before the Commission for reconsideration, except as hereinafter otherwise provided; and there shall also be excepted from this assignment of work all cases submitted to the Commission and specially referred to a division, the various cases enumerated in any previous order of the Commission as reserved for consideration and disposition by the Commission, and all cases otherwise specially assigned.

2.5 All proceedings of the character in which, by provisions of the Administrative Procedure Act (60 Stat. 237), a hearing is required to be conducted in conformity with section 7, and a decision to be made as provided in section 8 of that act, shall be and are reserved to the Commission for initial decision, and for such purpose of initial decision may be assigned to a division, individual Commissioner, or board, as provided in section 17 of the Interstate Commerce Act (49 U. S. C. 17), by the general order of the Commission as to assignment of work, business, or functions. The following are excepted from the foregoing reservation: (a) Proceedings required by section 205 of the Instate Commerce Act (49 U. S. C. 305) to be submitted to joint boards; and (b) specific cases, or classes of cases, as to which the Commission may order exemption from the operation of this general rule. For the purpose of such initial decision, the record in a proceeding so reserved shall be considered as certified to the Commission for initial decision when received by the Secretary of the Commission for filing in the docket. Such certification shall not be construed as relieving the officer from the necessity of submitting such recommended, tentative, or other type of report (consistent with the requirements of the Administrative Procedure Act) as the Commission shall previously have directed him to prepare in the proceeding. In individual proceedings involving rule-making as defined in section 2 (c) of the Administrative Procedure Act, and in determining applications for initial licenses, the Commission, or the division, individual Commissioner, or board, or examiner, to which or whom a particular proceeding may have been assigned under section 17 of the Interstate Commerce Act (49 U. S. C. 17), will, as warranted by the second sentence of sec. 2 (a) of the Administrative Procedure Act (60 Stat. 237), determine (c) whether there shall be a tentative decision by the Commission, or by a division, individual Commissioner, or board, or examiner, to whom the proceeding may be referred or assigned, or (d) whether there shall be a recommended decision by designated responsible officers of the Commission; and (e) in any case the Commission, or the division, Commissioner, or board, may find upon the record that due and timely execution of the functions of the Commission imperatively and unavoidably requires that a tentative or recommended decision be omitted in that case.

2.6 When a Commissioner is transferred from a division he shall continue to serve as a member of such division in lieu of his successor for the purpose of clearing up accumulated work, which shall be limited to the disposition of cases submitted on oral argument prior thereto, and still pending for decision, cases in which drafts of final reports or orders have been circulated, and other matters requiring official action which are under active consideration at the time of the transfer.

DUTIES AND RESPONSIBILITIES OF THE CHAIRMAN OF THE COMMISSION

3.1 The following duties and responsibilities are delegated to the Chairman (or, in his absence, to the Acting Chairman who shall be the available senior Commissioner in point of service) to be exercised in addition to his statutory duties and any other duties that may be assigned or delegated to him:

3.2 He shall be the executive head of the Commission.

3.3 He shall preside at all sessions of the Commission, and shall see that every vote and official act of the Commission required by law to be recorded is accurately and promptly recorded by the Secretary or the person designated by the Commission for such purpose.

3.4 Except regular sessions, which shall be provided for by general regulation of the Commission, he shall call the Commission into special session whenever in his opinion any matter or business of the Commission so requires, but he shall, in any event, call a special session for the consideration of any matter or business upon request of a majority of the members.

3.5 He shall exercise general control over the Commission's argument calendar and conference agenda.

3.6 Except in instances where the duty is otherwise delegated or provided for, he shall act as correspondent and spokesman for the Commission in all matters where an official expression of the Commission is required.

3.7 He shall (a) bring to the attention of any Commissioner, division, or board any delay or failure in the work under his or its supervision, (b) report periodically, not less than once every six months, to the Commission on the state of the Commission's work, and (c) recommend to the Commission ways and means of correcting or preventing avoidable delays in the performance of any work or the disposition of any official matter which he is unable otherwise to have remedied.

3.8 He shall be ex officio Chairman of the Committee on Legislation and of the Committee on Rules.

3.9 He shall be relieved, during his chairmanship, of any regular assignment as a member of a division.

3.10 In any case in which it appears desirable, he may designate an additional Commissioner or Commissioners to sit with a division.

3.11 He may designate a Commissioner to fill a vacancy on any Committee until the Commission otherwise orders.

3.12 Pursuant to the general objectives and broad policies, or to specific instructions of the Commission, he shall represent the Commission in supervising, guiding and directing the Managing Director, the Secretary and the General Counsel in the performance of their duties and shall serve as the channel through which they submit recommendations to the Commission.

3.13 In accordance with section 1003 (a) of the Civil Aeronautics Act of 1938, he is directed, when the occasion arises, in conjunction with corresponding action by the Chairman of the Civil Aeronautics Board, to designate a like number of Commissioners to function as members of a joint board to consider and pass upon matters referred to it as provided under subsection (c) of such section.

3.14 He shall be the Commission's representative on the United States National Commission for the Pan American Railway Congress Association.

ASSIGNMENT OF DUTIES TO DIVISIONS

4.1 Work, business, and functions of the Commission are assigned and referred to the respective divisions for action thereon (including, for each division to which the subject matter or the principal part thereof is assigned, authority to approve recommendations of the Commission's staff for the enforcement of penal provisions of the Interstate Commerce Act, and statutory provisions supplementary thereto), as follows:

4.2 Division One: Motor Carrier Division (Commissioners Tuggle (Chairman), Minor, and McPherson):

(a) Section 203 (b), relating to partial exemption from the provisions of Part II, including determinations as to the necessity for application of Part II to transportation within a municipality, between contiguous municipalities, or within an adjacent zone, and the determination of the limits of such zones, referred to in section 203 (b) (8) and to casual transportation operations by motor vehicle, referred to in section 203 (b) (9).

(b) Section 204 (a) (1) to (3), inclusive, so far as relates to reasonable requirements with respect to continuous and adequate service and transportation of baggage and express by common carriers, and to qualifications and maximum hours of service of employees and safety of operation and equipment for common, contract, and private carriers, but not including requirements for the same transportation of explosives and other dangerous articles.

(c) Section 204 (a) (4) and section 211 (a) to (c), inclusive, relating to the regulation of brokers (other than their accounts, records, and reports).

(d) Section 204 (a) (4a), relating to certificates of exemption to motor carriers operating solely within a single State.

(e) Section 204 (a) (7), so far as relates to inquiries into the management of the business of motor carriers and brokers and persons controlling, controlled by, or under common control with motor carriers, and requests for information deemed necessary to carry out the provisions of Part II.

(f) Section 204 (b), relating to the establishment of classifications of brokers or of groups of carriers and just and reasonable rules, regulations and requirements therefor.

(g) Sections 206, 207, and 208, relating to certificates of public convenience and necessity, except determination of whether applications should be dismissed at the request of applicants in proceedings which have not involved the taking of testimony at a public hearing unless certified to the Division by the Motor Carrier Board.

(h) Section 209, relating to permits, except determination of whether applications should be dismissed at the request of applicants in proceedings which have not involved the taking of testimony at a public hearing unless certified to the Division by the Motor Carrier Board.

(i) Section 210, relating to dual operations, except determination of whether applications should be dismissed at the request of applicants in proceedings which have not involved the taking of testimony at a public hearing unless certified to the Division by the Motor Carrier Board.

(j) Section 210a (a) relating to applications for temporary authority for service by common or contract carriers by motor vehicle when certified to the Division by the Motor Carrier Board.

(k) Section 211, relating to brokerage licenses, except determination of whether applications should be dismissed at the request of applicants in proceedings which have not involved the taking of testimony at a public hearing unless certified to the Division by the Motor Carrier Board.

(l) Section 212 (a), relating to suspension, change, and revocation of certificates, permits, and licenses, except determination of uncontested motor carrier revocation proceedings which have not involved the taking of testimony at a public hearing unless certified to the Division by the Motor Carrier Board.

(m) Section 212 (b), relating to transfer of certificates or permits, except determination of applications which have not involved the taking of testimony at a public hearing unless certified to the Division by the Motor Carrier Board.

(n) Section 215, relating to security for the protection of the public.

(o) Section 224, relating to identification of motor carriers.

(p) Section 403 (c) and (d), relating to authority to prescribe reasonable rules and regulations governing the filing of surety bonds, policies of insurance, etc., by freight forwarders.

(q) Section 204 (c) and 403 (f), so far as relating to investigation of complaints of alleged noncompliance with the provisions of Parts II and IV assigned to Division One or requirements established pursuant thereto.

(r) Any other matters arising under Part II not specially assigned or referred to other divisions.

(s) In connection with the foregoing assignments Division One is authorized to institute, conduct and determine investigations into motor-carrier practices pertaining to matters covered by such assignments.

4.3 Division Two: Rates, Tariffs, and Valuation Division (Commissioners Freas (Chairman), Wincheli, and Murphy):

(a) Section 4, relating to long-and-short-haul and aggregate-of-intermediate rates, and relief therefrom, when such proceedings have been formally heard, when applications are certified to the Division by the Fourth Section Board, when fourth-section relief arises as a result of an order or requirements of the Commission, or a division thereof, or when applications are to be considered in connection with general rate-increase proceedings.

(b) Section 5a, relating to agreements between or among carriers.

(c) Section 6, except paragraphs (11) and (12), relating to schedules of carriers under Part I, sections 217 and 218 relating to tariffs of common carriers and schedules of contract carriers under Part II, section 306 relating to tariffs of common carriers and schedules of contract carriers under Part III, and section 405 relating to tariffs of freight forwarders under Part IV—including, among other matters, the promulgation or prescription of forms, specifications, rules, or regulations to effectuate such provisions of law, as well as applications or petitions involving the construction, interpretation or application of such forms, specifications, rules, or regulations.

(d) Section 409 relating to contracts between freight forwarders and motor carriers, including authority to institute, conduct, and determine investigations pertaining thereto.

(e) Section 15 (7) of Part I, sections 216 (g) and 218 (c) of Part II, sections 307 (g) and (i) of Part III, and 406 (c) of Part IV, relating to the disposition of applications for suspension of schedules and tariffs or parts thereof, including authority to institute investigations into rates, fares, charges, and practices of carriers under Parts I, II, and III, and freight forwarders under Part IV, as ancillary to a proceeding of investigation and suspension when such matter is certified to the Division by the Suspension Board, when there are petitions or requests for suspension of proposed general increases in rates, fares, or charges for application throughout a rate territory or region, or of wider scope, or when there are involved petitions for suspension of schedules filed in purported

compliance with any decision, order, or requirement of the Commission or a Division thereof; and including authority to vacate or discontinue orders in proceedings instituted by Division 2 wherein respondents have withdrawn the matter under suspension, except in those instances where authority has been delegated to the Board of Suspension.

(f) Section 6 (11) (b) and (12) of the Interstate Commerce Act and section 11 (d) of the Panama Canal Act, 49 U. S. C. 51, relating to the establishment, under the additional authority conferred upon the Commission by the Panama Canal Act of proportional rates to or from ports, and through rail-and-water arrangements in foreign commerce.

(g) Institution of investigations of intrastate rates, fares, and charges, classifications and practices under section 13 (3) of Part I and section 406 (f) of Part IV on the petition of carriers or freight forwarders.

(h) Section 19a, relating to the valuation of the property of carriers.

(i) Section 20 (11) of Part I and section 210 of Part II, so far as relating to the authorization of released rates and ratings.

(j) Sections 3 (2), 223, 318, and 414, so far as relating to the prescription of rules governing the delivery of freight and the settlement of rates and charges, and to prevent unjust discrimination.

(k) Section 22 so far as relating to reduced rates in case of calamitous visitation or disaster.

(l) Section 220 (a) relating to contracts between motor contract carriers and shippers.

(m) Section 304 (d) of Part III, relating to relief from the provisions of that part because of competition from carriers engaged in foreign commerce.

(n) Section 204 (c), section 304 (c), and section 403 (f), so far as relating to the investigation of complaints of alleged noncompliance with provisions of Parts II, III, and IV hereinbefore assigned to Division Two or requirements established pursuant thereto.

(o) Section 20 (1) to (10), inclusive; section 204 (a) (1), (2), and (4); section 220 (a) to (f), inclusive; section 222 (b), (d), and (g); sections 313, 316 (b), 317 (d), and (e); and sections 412, 417 (b), and 421 (d) and (e), so far as those sections relate to accounting and statistical reports, records, and accounts of carriers, lessors, brokers, freight forwarders and other persons under Parts I, II, III, and IV, and so far as matters arising under the stated sections are not assigned to individual commissioners.

(p) Formal complaints and suspension cases in which the issues relate primarily and predominantly to the interpretation and application of tariffs.

4.4 Division Three: Rates, Service, and Safety Division (Commissioners Clarke (Chairman), Hutchinson, and Walrath):

(a) Section 1 (9), relating to switch connections.

(b) Section 1 (14) (b), relating to contracts of common carriers by railroad or express companies for the furnishing of protective service against heat or cold.

(c) Section 1 (10) to (14) (a), inclusive, and section 1 (15) to (17), inclusive, relating to car-service and emergency directions with respect thereto.

(d) Section 5 (1), relating to the pooling of traffic, service, or gross or net earnings of common carriers subject to the act.

(e) Section 3 (5), relating to requirement of common use of terminals and compensation therefor.

(f) Section 6 (11) (a) of the Interstate Commerce Act, and section 11 (d) of the Panama Canal Act, relating to the additional jurisdiction over rail and water traffic conferred upon the Commission by the Panama Canal Act, 49 U. S. C. 51, with respect to physical connections between rail lines and docks; and section 201 (c), Transportation Act, 1920, as amended, 49 U. S. C. 141 (c).

(g) Section 15 (10), relating to the direction of the routing of unrouted traffic.

(h) Sections 15 (13), 225, 314, and 415, relating to fixation of reasonable allowances to the owner of property transported for transportation services rendered, and I. & S. No. 11, The Tap Line Case.

(i) Section 25 (a) to (g), inclusive, as amended, relating to the installment and maintenance of safety devices by carriers by railroad.

(j) Section 1 (21) so far as relating to the compulsory construction of new roads or procurements of additional facilities.

(k) Section 204 (a), (1), (2), (3), and (5) of Part II, so far as relating to the establishment of reasonable requirements for the safe transportation of explosives and other dangerous articles, including flammable liquids, flammable solids, oxidizing materials, corrosive liquids, compressed gases, and poisonous substances.

(l) Section 403 (b), relating to establishment of reasonable requirements with respect to continuous and adequate service by freight forwarders.

(m) Section 404 (d), relating to agreements between freight forwarders for joint loading of traffic.

(n) Section 204 (c) and section 403 (f), so far as relating to the investigation of complaints of alleged noncompliance with provisions of Parts II and IV, hereinbefore assigned to Division Three, or requirements established pursuant thereto.

(o) Matters coming from the Board of Reference, relating to instructions concerning the informal consideration of unusual matters and cases for which there is no governing precedent.

(p) Matters coming from the Section of Informal Cases of the Bureau of Rates, Tariffs and Informal Cases.

(q) Matters arising under the Transportation of Explosives and Dangerous Articles Act, Accident Reports Act, Safety Appliance Act, Hours of Service Act, Locomotive Inspection Act, Medals of Honor Act, Ash Pan Act, Railroad Retirement Act of 1937, Railroad Retirement Tax Act, Railroad Unemployment Insurance Act, the Railway Labor Act, as respectively amended; the Block Signal Resolution of June 30, 1906, and Sundry Civil Appropriation Act of May 27, 1908; Postal Service Acts, 39 U. S. C. 6, 12, 13, 14, and 15, so far as those acts relate to duties of the Commission.

(r) Authority to approve recommendations of the Commission's staff for the enforcement of penal provisions of the Interstate Commerce Act, and statutory provisions supplementary thereto if the subject matter is otherwise unassigned.

(s) Standard Time Act of March 19, 1918, as amended, 15 U. S. C. 261–265, inclusive.

4.5 Divisions Two and Three, except in special circumstances, alternately, in monthly rotation, commencing with Division Three in January, 1954:

(a) All formal cases not otherwise herein assigned or referred to another division, or reserved to the Commission, arising under Part I, and all formal cases involving rates, fares, or charges arising under Parts II, III, and IV.

4.6 Division Four: Finance Division (Commissioners Mitchell (Chairman), Clarke, and Hutchinson):

(a) Section 1 (18) to (20), inclusive, and sections 303 (1), 309, 310, 311, and 312, relating to certificates of convenience and necessity under Parts I and III and permits under Part III, and section 410, relating to permits under Part IV, including abandonments of service by freight forwarders under section 410 (f).

(b) Section 5 (2) to (13), inclusive and section 210a (b) of Part II, relating to the consolidation, merger, purchase, lease, operating contracts, and acquisition of control of carriers, and to noncarrier control, including matters of public convenience and necessity under section 207 and consistency with the public interest under section 209 directly related thereto.

(c) Section 5 (14) to (16), inclusive, relating to common control of railroads and common carriers by water.

(d) Section 302 (e) and section 303 (b) to (h), inclusive, relating to exemptions of water carriers from the provisions of Part III.

(e) Sections 20a and 214 relating to the issuance and approval of securities of carriers under Parts I and II, and to the holding of interlocking positions as director or officer.

(f) Section 20b relating to voluntary adjustments of capital structures under Part I.

(g) Section 304 (c), relating to classifications of groups of water carriers subject to Part III and rules, regulations, and requirements relating thereto.

(h) Section 411 (d) and (f), relating to investigation of alleged violations of section 411 (a), (b), and (c).

(i) Sections 204 (c), 304 (e), and 403 (f), so far as relating to the investigation of complaints of alleged noncompliance with provisions of Parts II, III, and IV, hereinbefore assigned to Division Four or requirements established pursuant thereto.

(j) The Uniform Bankruptcy Act, as amended, 11 U. S. C. relating to the reorganization of corporations subject to the exercise of the regulatory powers of the Commission.

(k) Section 3 of Public Law No. 478 relating to review by the Commission prior to confirmation by the courts of plans of reorganization previously approved by the Commission.

(l) Matters arising under section 20c, providing for the recording of equipment trust agreements and other documents relating to lease or conditional sale of railroad equipment.

(m) Matters arising under the Clayton Antitrust Act, as amended.

COMMITTEES OF THE COMMISSION

5.1 There shall be a Committee on Legislation and a Committee on Rules composed of three Commissioners each.

5.2 Commission Committees and Commissioners:

(a) Legislation: Arpaia (Chairman), Commissioners Clarke and Minor.

(b) Rules: Arpaia (Chairman), Commissioners Tuggle and Hutchinson.

ASSIGNMENT OF DUTIES TO INDIVIDUAL COMMISSIONERS

6.1 The following portions of the work, business, and functions of the Commission are assigned and referred to individual Commissioners as herein designated:

6.2 (a) Entry of reparation orders responsive to findings authorizing the filing of statements as provided in Rule 100 of the general rules of practice.

(b) Claims arising under Federal Tort Claim Act, 28 U. S. C. 2671 et seq., except claims covered by section 2672 of that act.

(c) Approval for publication of statistical releases: Chairman of the Commission.

6.3 Dismissal of complaints upon requests of complainants: If the proceeding has been assigned to a Commissioner, the Commissioner to whom it is assigned; otherwise, to the Chairman of the Commission.

6.4 Postponement of the effective date of orders in proceedings which are the subject of suits brought in a court to enjoin, suspend, or set aside the decision, order, or requirement therein: Commissioner through whom the General Counsel reports [Chairman ex officio].

6.5 (a) With respect to carriers and others subject to Part II, (a) authority to grant extensions of time for filing annual, periodical, and special reports, and (b) authority to grant exemptions to individual carriers from the reporting requirements.

(b) Authority to permit the use of prescribed accounts for carriers and other persons under Parts I, II, III, and IV, which by provisions of their own texts require special authority.

(c) Authority to permit departures from general rules prescribing uniform systems of accounts for carriers and other persons under Parts I, II, III, and IV.

(d) Authority to prescribe by order, rates of depreciation to be used by individual carriers by railroad, water, and pipe line.

(e) Authority to issue special authorizations permitted by the prescribed regulations governing the destruction of records of carriers subject to Parts I, II, III, and IV: Commissioner through whom the Bureau of Accounts, Cost Finding and Valuation reports [Commissioner Winchell].

6.6 Applications under section 20a (12) for authority to hold the position of officer or director of more than one corporation: Commissioner through whom the Bureau of Finance reports [Commissioner Mitchell].

6.7 (a) Special permissions or other permissible waivers of rules regarding schedules of rates, etc., under sections 6, 217, 218, 306, 405 and 409 (a);

(b) Released rates applications under section 20 (11);

(c) Ex Parte No. 13, with respect to modifications under section 6 (3) of posting requirements of section 6 (1); and

(d) Reduced rates authorizations in cases of calamitous visitation under section 22.

(e) Applications and complaints on the special docket: Commissioner through whom the Bureau of Rates, Tariffs and Informal Cases reports [Commissioner Freas].

6.8 (a) Uncontested matters arising under the Boiler Inspection Act, as amended: Commissioner through whom the Bureau of Safety and Service reports [Commissioner Clarke].

(b) Uncontested matters under section 25, the Safety Appliance Acts, as amended, the Hours of Service Act, as amended, and section 3 of the Accident Reports Act (including the making of reports of investigations under that section except those in which testimony is taken at a public hearing).

(c) Uncontested matters relating to the transportation of explosives and other dangerous articles.

6.9 (a) With respect to carriers and others persons subject to Parts I, III, and IV, (a) authority to grant extensions of time for filing annual, periodical, and special reports, and (b) authority to grant exemptions to individual carriers from the reporting and accounting requirements.

(b) Requests for access to waybills or photostat copies thereof: Commissioner through whom the Bureau of Transport Economics and Statistics reports [Commissioner Murphy].

6.10 Admission, disbarment, and suspension of practitioners before the Commission under Rules 7 to 13, inclusive, of the General Rules of Practice: Commissioner Mitchell.

6.11 The making of reports of investigations under section 220 of the act except those in which testimony is taken at a public hearing: Commissioner Tuggle.

6.12 Merely procedural matters in any formal case or pending matter, and extensions of time for compliance with orders (except in investigations on the Commission's own motion), in any such case or matter which is not the subject of a suit in court, when the subject matter or particular proceeding has been or is assigned or referred to the division: *Provided*, That if the proceeding has been assigned to a Commissioner for administrative handling or preparation of report, such Commissioner shall act on such procedural matters (including extensions of time for compliance with orders); and if the subject matter or particular proceeding has not been assigned or referred to a division or to a Commissioner, the Chairman of the Commission may act on such matters: Chairman of the respective divisions. Chairman of the Commission.

6.13 The functions, powers, responsibilities, and duties of the Defense Transport Administration transferred and delegated to the Commission pursuant to the Defense Production Act of 1950, as amended, effective July 1, 1955: Commissioner through whom the Bureau of Safety and Service reports[1] [Commissioner Clarke].

6.14 In each of the foregoing delegations and assignments, except Item 6.13, to an individual Commissioner, in event of the absence or disability of such individual Commissioner, the senior member of the division which has jurisdiction of the subject matter or proceeding who is present shall act instead of the Commissioner above designated. In the event of the absence or disability of a Commissioner to whom a proceeding not referred to a division has been assigned for administrative handling or preparation of report, procedural matters in connection with such proceeding may be acted upon by the Chairman of the Commission.

ASSIGNMENTS TO BOARDS

7.1 The following portions of the work, business, and functions of the Commission are assigned to Boards of employees. Such portions relate to proceedings or classes of proceedings that do not involve issues of general transportation importance. The right to apply to the Commission for rehearing, reargument or reconsideration of a decision, order or requirement of an appellate division upon a petition filed by a party to the original order, action or requirement of any such board is restricted, under the authority granted by section 17 (6) of the Interstate Commerce Act as herein provided.

7.2 Fourth Section Board: Section Four, relating to long-and-short-haul and aggregate-of-intermediate rates, and relief therefrom, except proceedings made the subject of formal hearing, matters prompted by an order or requirement of the Commission or a division thereof, or matters arising from general increase proceedings. The Board may certify to Division Two any matter which, in its judgment, should be passed on by that division or the Commission.

7.3 Suspension Board: Section 15 (7) of Part I, sections 216 (g) and 218 (c) of Part II, sections 307 (g) and (i) of Part III and 406 (e) of Part IV, relating

[1] In the event of the absence or disability of the Commissioner who is responsible for the supervision of the Bureau of Safety and Service, the senior member of Division Three who is present shall act in his place and stead in performing the duties and exercising the powers vested in that Commissioner by delegation or redelegation issued pursuant to the Defense Production Act of 1950, as amended, or by the Director of the Office of Defense Mobilization pursuant to law, provided further that, in the event of the absence or disability of all members of Division Three, the Chairman (or, in his absence, the Acting Chairman) of the Commission shall act in the place and stead of said Commissioner in performing such duties and exercising such powers.

to the initial disposition of petitions or requests for suspension of schedules and tariffs, or parts thereof, including authority to institute investigations into rates, fares, charges, and practices of carriers under Parts I, II, III, and freight forwarders under Part IV, as ancillary to the suspension of any tariff or schedule, including also the power to enter orders discontinuing investigation and suspension proceedings, when, prior to hearing, the suspended schedules have been withdrawn and canceled pursuant to special permission authority. This delegation of authority shall not include (1) petitions or requests relating to tariffs or schedules filed in purported compliance with any decision or order of the Commission or a division thereof, (2) petitions or requests for suspension of proposed general increases in rates, fares, or charges for application throughout a rate territory or region, or a wider scope, nor (3) any action in connection with suspensions to be taken during or after formal hearings or investigations. The Board may certify any question or matter which, in its judgment, should be acted upon by Division 2 or, upon the recommendation of Division 2, by the Commission.

7.4 Motor Carrier Board: (a) In applications under sections 206, 207, 208, 209, 210, and 211, which have not involved the taking of testimony at a public hearing, determination of whether applications should be dismissed at the request of applicants.

(b) Section 210a (a), relating to applications for temporary authority for service by common or contract carriers by motor vehicle.

(c) Determination of uncontested motor carrier revocation proceedings under section 212 (a) which have not involved the taking of testimony at a public hearing.

(d) Determination of applications under section 212 (b), relating to transfer of certificates or permits, which have not involved the taking of testimony at a public hearing.

(e) Any matter referred to the board which is assigned for the taking of testimony at a public hearing shall be carried to a conclusion in accordance with the established practices and assignment of work of the Commission.

(f) The board may certify to Division One any matter which in its judgment should be passed on by that Division or the Commission.

REHEARINGS AND FURTHER PROCEEDINGS

8.1 For the proper and more convenient dispatch of business, and to the ends of justice, the following regulations of the conduct of proceedings are adopted (in addition to those governing the parties, as set out in the Rules of Practice), in respect of rehearings, reconsiderations, further hearings, and supplementary proceedings, as the result of the filing of petitions by parties to the decisions, orders, or requirements of divisions of the Commission, individual Commissioner, Board of Suspension, Fourth Section Board or Motor Carrier Board.

8.2 In respect of all such matters, petitions for reconsideration or for rehearing of any order or decision of an individual Commissioner as herein authorized shall be initially passed upon by the division to which the general subject is referred, and if the general subject has not been referred to a division, then by the Commission.

8.3 Except in matters assigned to the Motor Carrier Board, and further excepting matters relating to long-and-short-haul and aggregate-of-intermediate rates, and relief therefrom, when such matters have not been subject to formal hearing; and further excepting matters relating to the disposition of applications for suspension of schedules and tariffs or parts thereof, as more especially provided in a succeeding paragraph, any such petition (and any supporting or opposing documents): (a) In a proceeding decided unanimously with respect to the final conclusion by the participating members of a division, except as indicated in (b), shall be considered by the Commission; and (b) in a proceeding not decided unanimously with respect to the final conclusion by the participating members of a division, or where, without regard to the unanimity of the division, the head of a Commission's bureau by whom the matter is circulated recommends the granting of such petition, shall be considered by the appropriate division as constituted at the time the petition is processed and circulated for action; if the division grants the same, the petition will stand as granted by the division and denied by the Commission, and further proceedings will be before the division and under its direction. Any further decision, order or requirement of the division shall be subject to petition for rehearing or reconsideration as provided in the act. If the division does not grant the petition, it will be considered by the Commission.

8.4 Division Two is hereby designated as an appellate division to which applications or petitions for reconsideration or review of any order, action or requirement of the Board of Suspension or the Fourth Section Board shall be assigned or referred for disposition and the decisions or orders of the appellate division shall be administratively final and not subject to review by the Commission.

8.5 Division One is hereby designated as an appellate division to which applications or petitions for reconsideration or review of any order, action, or requirement of the Motor Carrier Board shall be assigned or referred for disposition and the decisions or orders of the appellate division shall be administratively final and not subject to review by the Commission.

8.6 Announcements of the staying or postponement of decisions, orders, or requirements of divisions, individual Commissioners, or boards when petitions for rehearing, reargument, or reconsideration are filed before such decisions, orders, or requirements have become effective, will be made by the Secretary or under his direction.

BUREAUS AND OFFICES OF THE COMMISSION

9.1 The Bureaus and Offices of the Commission shall report as follows, except with respect to matters within the jurisdiction of the Managing Director:

Bureaus or offices of the Commission	Headed by—	Reports to the commission or appropriate division through—
9.2 Office of the Managing Director	Managing Director	Chairman ex officio.
(a) Budget and fiscal	Budget Officer.	
(b) Personnel	Personnel Director.	
(c) Stenography	Chief of Section.	
(d) Supplies and publications	Purchasing Agent.	
(e) Regional offices	13 Regional Managers.	
9.3 Office of the Secretary	Secretary	Chairman ex officio.
(a) Dockets	Chief of Section.	
(b) Mails and files	Chief of Section.	
(c) Reference services	Chief of Section.	
9.4 Office of the General Counsel	General Counsel	Chairman ex officio.
9.5 Accounts, Cost Finding and Valuation	Director	Commissioner Winchell.
(a) Accounting	Chief Accountant.	
(b) Cost finding	Chief of Cost Finding.	
(c) Engineering	Head Valuation Engineer.	
(d) Field service	Chief of Field Service.	
(e) Land	Head Land Appraiser.	
(f) Valuation order No. 3	Head Auditor, Property Changes.	
9.6 Finance	Director	Commissioner Mitchell.
(a) Convenience and necessity and interlocking directorates.	Chief of Section.	
(b) Securities and reorganizations	Chief of Section.	
9.7 Formal Cases (General)	Director, Chief Examiner	Commissioner Arpaia, Chairman of Division.
(a) Matters pending before division	Chief of Section.	
(b) Examiners reviewing	Director	Commissioner Minor.
9.8 Inquiry and Compliance	Assistant Director and Chief of Section	
(a) Motor carrier enforcement	Chief of Section.	
(b) Rail, water and forwarder enforcement	Director	Commissioner Tuggle.
9.9 Motor Carriers	Administrative Officer.	
(a) Administration	Chief of Section.	
(b) Insurance	Chief of Section.	
(c) Operating rights	Chief of Section.	
(d) Safety	Chairman of Board.	
(e) Motor Carrier Board	Assistant Director.	
(f) Field organization	District Director.	
(g) 13 Districts	Director	Commissioner Freas.
9.10 Rates, Tariffs and Informal Cases	Assistant Director and Chief of Section.	
(a) Rail tariffs (including water, pipeline, and express tariffs).	Assistant Director and Chief of Section.	
(b) Motor tariffs (including freight forwarder tariffs and motor carrier-freight forwarder agreements under section 409).	Assistant Director and Chief of Section.	
(c) Informal cases	Chairman of Board.	
(d) Suspension Board	Chairman of Board.	
(e) Fourth Section Board		

Bureaus or offices of the Commission	Headed by—	Reports to the commission or appropriate division through—
9.11 Safety and Service	Director	Commissioner Clarke.[1]
(a) Car service	Assistant Director.	
(b) Locomotive inspection	Assistant Director of Bureau and Director of Locomotive Inspection.	
(c) Railroad safety	Assistant Director.	
(d) Explosives branch	Chief of Branch.	
9.12 Transport Economics and Statistics	Director	Commissioner Murphy.
(a) Section of reports	Chief of Section.	
(b) Section of research	Chief of Section.	
(c) Section of traffic statistics	Chief of Section.	
9.13 Water Carriers and Freight Forwarders.	Director	Commander Walrath.
(a) Section 5a, Applications.		
(b) Operating authorities.		
9.14 Transport Mobilization Staff	Chief, Mobilization Planning	See Item 6.13 and footnote of Item 9.11.

[1] Also serves as the delegate for administration and performance of duties arising under Defense Production Act of 1950, as amended. The staff performing these functions is designated as Transport Mobilization Staff. See Items 6.13 and 9.14.

[F. R. Doc. 56–6726; Filed, May 21, 1956; 8:47 a. m.]

[Notice 126]

MOTOR CARRIER APPLICATIONS

AUGUST 17, 1956.

Protests consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and State address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be suported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 1353 Sub 14, filed August 7, 1956, M. H. HUMMEL, doing business as HUMMEL WAREHOUSE TRUCKING CO., 728–40 North 15th Street, Allentown, Pa. Applicant's representative: Raymond J. McDonough, Ring Building, Washington 6, D. C. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Groceries*, and in connection therewith, *premiums* and *advertising material* for the account of The Procter & Gamble Distributing Company, (1) from the plant sites and warehouse facilities of The Procter & Gamble Manufacturing Company at Port Ivory, N. Y., Clifton, Staten Island, N. Y., Kearney, N. J., and Port Newark, N. J., to points in Susquehanna, Pike, Monroe, Northumberland, Northampton, Wayne, Lackawanna, Columbia, Berks, Schuylkill, Lehigh, Wyoming, Luzerne, Montour, Carbon, Union, and Snyder Counties, Pa, and those in Sussex, Warren, and Hunterdon Counties, N. J.; and (2) from the warehouses of the Hummel Warehouse Company at Allentown, Pa., to points in Sussex, Warren, and Hunterdon Counties, N. J., and *damaged, defective, or returned shipments* of the above-specified commodities on return. Applicant is authorized to conduct operations in New Jersey, New York, and Pennsylvania.

NOTE: Applicant has common carrier, irregular route authority under Certificate No. MC 52820, dated March 27, 1944. Section 210 (dual operations) may be involved.

No. MC 1872 Sub 39, filed July 31, 1956, ASHWORTH TRANSFER, INC., 1526 South Sixth West Street, Salt Lake City, Utah. Applicant's representative: Stockton, Linville and Lewis, the 1650 Grant Street Building, Denver 3, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Contractors' equipment, materials and supplies*, and *building materials* as defined by the Commission, between points in Utah, on the one hand, and, on the other, points in Coconino, Navajo and Apache Counties, Ariz.

No. MC 2229 Sub 78, filed July 27, 1956, RED BALL MOTOR FREIGHT, INC., 1210 South Lamar Street (P. O. Box 3148), Dallas, Tex. Applicant's representative: Joe H. Eidson, Jr., Century Life Building, Fort Worth 2, Tex. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *Class A and B explosives*, but excluding commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Center, Tex., and San Augustine, Tex., from Center over Texas Highway 87 to junction Texas Highway 147, thence over Texas Highway 147 to San Augustine, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations between Beaumont, Tex., and Tenaha, Tex. over U. S. Highway 96. Applicant is authorized to conduct operations in Arkansas, Louisiana, and Texas.

No. MC 2229 Sub 79, filed July 27, 1956, RED BALL MOTOR FREIGHT, INC., 1210 South Lamar Street (P. O. Box 3148), Dallas, Tex. Applicant's representative: Joe H. Eidson, Jr., Century Life Building, Fort Worth 2, Tex. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *Class A and B explosives*, but excluding commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Big Sandy, Tex., and Palestine, Tex., over Texas Highway 155, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations (1) Between Cayuga, Tex., and Palestine, Tex., over U. S. Highways 287 and 79; (2) between Jacksonville, Tex., and Tyler, Tex., over U. S. Highways 69 and 271; (3) between Jacksonville, Tex., and Gladewater, Tex., over U. S. SECURITIES AND EXCHANGE COMMISSION

[File No. 812–1019]

AMERICAN RESEARCH AND DEVELOPMENT CORP. AND SYNCO RESINS, INC.

NOTICE OF APPLICATION FOR ORDER EXEMPTING TRANSACTIONS BETWEEN AFFILIATES

AUGUST 16, 1956.

Notice is hereby given that American Research and Development Corporation ("American Research"), a registered closed-end non-diversified management investment company, and Synco Resins, Incorporated ("Synco"), a manufacturing company, have filed an application and amendment thereto, pursuant to section 17 (b) of the Investment Company Act of 1940 ("act"), requesting an order exempting from the provisions of section 17 (a) of the act certain transactions between American Research and Synco described below.

Synco was organized in 1946 as Snyder Chemical Company under the laws of New York with its principal place of business located in Bethel, Connecticut. Its original business was the production of acid catalyzed phenolic adhesives for utilization in wood assemblies for freight car and truck bodies. The company's product line has been expanded to include phenolic, urea and alkyd resins and molding powders. New resins have recently been developed for the paper industry.

American Research owns the following securities of Synco:

Securities	Outstanding	American Research's holdings	Percentage
5-percent note, Series A, due Dec. 31, 1964	$100,000	$50,000	50.0.
5-percent debentures due Dec. 31, 1964	$50,000	$8,640	17.3.
5-percent cumulative preferred, $1 par value	154,290 shares	50,000 shares	32.4.
Common stock $0.01 par value	141,515 shares	21,000 shares	15.3.

Synco has proposed a plan for the exchange of common stock for the outstanding notes, debentures and preferred stock on the basis of one share of common stock for each $2 of principal amount of debt or par value of preferred stock with certain holders of such securities including American Research as follows:

Number of shares of common stock	Amount of debt or preferred shares to be exchanged	Amount of debt and shares of preferred to be outstanding
47,500	$95,000 notes	$5,000 notes.
21,420	$18,840 debentures	$1,160 debentures.
68,780	$137,560 shares preferred.	$16,730 shares preferred.

The holders of the debt and preferred stock, including American Research, who have agreed to make the exchange have also agreed to waive accrued and unpaid interest and dividends aggregating $54,181, represented by $18,063 and $1,728, applicable respectively to the notes and debentures, and $34,390 of dividend arrears on the preferred stock. The application states that one note holder, four debenture holders and seven preferred stockholders have not agreed to make the exchange; none of these security holders, except four preferred stockholders who were former employees of Synco, have any relationship with the applicants.

For the fiscal year ended March 31, 1956, Synco sustained an operating loss of approximately $28,000; however, it is stated that operations for the fiscal year ending March 31, 1957, and ensuing years are expected to be profitable. In that connection applicants declare that there has been a substantial development in Synco's operations which has been reflected in a marked expansion in its sales during the past year. Applicants claim that the proposed recapitalization will simplify Synco's capital structure and thereby enable it to secure regular back loans and to raise equity capital to finance its expanded business.

Generally speaking, section 17 (a) of the act prohibits an affiliated person of a registered investment company from purchasing from, or selling to, such registered investment company, any security, with certain exceptions, unless the Commission upon application pursuant to section 17 (b) of the act, grants an exemption from section 17 (a) of the act after finding that the terms of the proposed transactions, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transactions are consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and consistent with the general purposes of the act.

Since American Research owns more than 5 percent of the common stock of Synco, these companies are affiliated persons of each other as defined in section 2 (a) (3) of the act. Hence, the transactions between them pursuant to the proposed plan of recapitalization are prohibited under section 17 (a) of the act unless the Commission grants the application herein, and issues an order of exemption pursuant to section 17 (b) of the act.

Notice is further given that any interested person may, not later than August 29, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–3478]

COLUMBIA GAS SYSTEM, INC.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK AND INSTALLMENT NOTES BY SUBSIDIARIES, AND ACQUISITION THEREOF BY PARENT

AUGUST 16, 1956.

In the matter of The Columbia Gas System, Inc., The Manufacturers Light and Heat Company, Virginia Gas Distribution Corporation, Cumberland and Alleghany Gas Company et al.; File No. 70–3478.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and certain of its wholly-owned subsidiaries, including The Manufacturers Light and Heat Company ("Manufacturers"), Virginia Gas Distribution Corporation ("Distribution"), and Cumberland and Alleghany Gas Company ("Cumberland"), have filed a joint application-declaration and amendments thereto pursuant to sections 6 (b), 9, 12 (b) and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-43 and U-45 thereunder, regarding, among others, the following proposed transactions:

As new money is required in connection with their several 1956 construction programs, Manufacturers, Distribution, and Cumberland will issue and sell, and Columbia will purchase for cash, at par or face amount, the following securities:

Company	Common stock			Installment notes, aggregate amount not to exceed—
	Number of common shares	Par value	Aggregate amount	
Manufacturers	50,000	$50	$2,500,000	$7,950,000
Distribution	8,000	25	200,000	350,000
Cumberland	10,000	25	250,000	1,925,000

The securities will be issued and sold periodically when and to the extent that funds are required for the purposes stated. Columbia will first purchase Common Stock up to the aggregate amounts stated, and thereafter Installment Notes. The notes will be unsecured and will be dated when issued. The principal amounts will be due in 25 equal annual installments on February 15 of each of the years 1958 to 1982 inclusive. Interest will be payable semi-annually at the rate of 3.9 percent per annum, which was the approximate cost of money to Columbia on its last sale of debentures. None of the Common Stock or Installment Notes will be issued or purchased after March 31, 1957.

Authorization for the issuance and sale of the securities as proposed has been obtained from the regulatory commissions of the several states in which the said subsidiary companies are organized and doing business, as follows: from the Pennsylvania Public Utility Commission by Manufacturers, from the State Corporation Commission of Virginia by Distribution, and from the Public Service Commission of West Virginia by Cumberland.

The fees and expenses to be paid by the several subsidiary companies in connection with the proposed transactions are estimated as follows:

	Services of System Service Company	Federal original issue tax	Miscellaneous
Manufacturers	$100	$2,750	$300
Distribution	100	220	500
Cumberland	100	275	100

The record with respect to other transactions proposed in said application-declaration, involving four additional subsidiaries of Columbia, has not yet been completed.

Due notice having been given of the filing of said application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding, with respect to the transactions specifically described herein, that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration as amended be granted and permitted to become effective forthwith as to such transactions:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and hereby is, granted and permitted to become effective forthwith as to the particular transactions described herein, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That jurisdiction be, and hereby is, reserved with respect to the remaining transactions proposed in said joint application-declaration, as to which the record is not yet complete.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[Delegation of Authority 10-3]

CHIEF, ADMINISTRATION AND LIQUIDATION DIVISION

DELEGATION RELATING TO FINANCIAL ASSISTANCE

I. Pursuant to the authority delegated to the Director, Office of Financial Assistance, by the Deputy Administrator by Delegation of Authority No. 10-1, dated July 31, 1956, there is hereby redelegated to the Chief, Administration and Liquidation Division, the authority:

A. To take the following specific actions relating to the collection of problem loans and loans in liquidation:

1. Approve charge offs up to $2,500.

2. Approve sales and releases of collateral at not less than liquidating values reflected by the latest appraisal of the property.

3. Approve advances for care and preservation of collateral up to the lesser of $1,000 or 10 percent of the amount owing on the loan.

4. Approve expenditures of not to exceed $500 for appraisals by outside appraisers when and if the services of qualified SBA appraisers are not available.

5. Authorize the carrying of loans having unpaid balances in excess of $50,000 in past due statuses.

II. The authority delegated herein may not be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as Acting Chief, Administration and Liquidation Division.

Dated: July 31, 1956.

J. F. MATCHETT,
Director,
Office of Financial Assistance.

BANCA GENERALA DE ECONOMII DIN SIBIU

In re: Debt owing to Banca Generala de Economii din Sibiu, a/k/a Hermannstadter Allgemeine Spakassa Hermannstadt Romane. F-57-1261.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the State Comptroller of the State of New York, Albany, New York, arising out of an account entitled "Spakassa Hermannstadt, c/o Banca Republici Populare, Romane, Bucharest, Roumania", maintained by the aforesaid Comptroller, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Banca Generala de Economii din Sibiu, a/k/a Hermannstadter Allgemeine Spakassa Hermannstadt Romane, Bucharest, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 17, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General,
Director, Office of Alien Property.

BRADUL CARPATIN S. A. R.

In re: Debt owing to Bradul Carpatin S. A. R. F-57-1266, F-63-2748 (Basle).

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106-55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of the Swiss Bank Corporation, New York Agency, 15 Nassau Street, New York 5, New York, in the sum of $590.00, being a portion of an account entitled, "Swiss Bank Corporation, Basle, Switzerland, ordinary blocked account," maintained at the aforesaid bank, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is, and as of September 15, 1947, was, owned directly or indirectly by Bradul Carpatin S. A. R., Cernauti, Rumania, a national of Rumania as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to Section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on August 17, 1956.

For the Attorney General.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10675

AMENDMENT OF SECTION 203 OF EXECUTIVE ORDER NO. 10577 [1] OF NOVEMBER 22, 1954, PROVIDING FOR THE CONVERSION OF CERTAIN CAREER-CONDITIONAL APPOINTMENTS TO CAREER APPOINTMENTS

By virtue of the authority vested in me by section 1753 of the Revised Statutes of the United States (5 U. S. C. 631) and by the Civil Service Act of January 16, 1883 (22 Stat. 403), and as President of the United States, it is hereby ordered as follows:

SECTION 1. Section 203 of Executive Order No. 10577 of November 22, 1954, is hereby amended to read as follows:

"SEC. 203. The career-conditional appointment of any employee entitled to veteran preference who has a compensable service-connected disability of ten per centum or more may be converted to a career appointment: *Provided*, that not later than December 31, 1957, the agency in which he is employed so recommends and certifies to the Commission that he has satisfactorily completed a one-year probationary period: *Provided further*, that any such employee who is not certified for career appointment under this section shall have his career-conditional appointment converted to a career appointment when he has completed the service requirement for such appointment prescribed under section 2.2 (a) of Civil Service Rule II."

SEC. 2. This order shall be effective as of January 23, 1955, the effective date of the said Executive Order No. 10577.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 904—MILK IN BOSTON, MASSACHUSETTS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 904), regulating the handling of milk in the Boston, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The provisions of § 940.43 will not tend to effectuate the declared policy of the act for the period September 1, 1956, to the effective date of any amendment to the order made on the basis of the hearing held in Boston on February 28 and 29, 1956 (Docket No. AO–14–A24).

This section provides that when the rail tariff on milk and cream is increased or decreased, some price differentials set forth in the table in § 904.42 should be correspondingly changed to the extent of any change in the difference between the rail tariff for the mileage distance of 201 to 210 miles and for other applicable distances. This provision was based on the concept that any change in the rail tariff on milk and cream would be made only in terms of the rate applying to shipments from specific 10-mile zones via rail mileage. However, New England Joint Tariff M No. 8 effective September 1, 1956 has substituted point-to-point rates in place of the traditional zone rates. The differences between the old and new rates vary considerably from any uniformity of change by 10-mile zones, and by their very nature their effect cannot be uniformly reflected in the order's zone table.

At the public hearing held in February, 1956 (Docket No. AO–14–A24) consideration was given to a proposal to amend the zone differentials of the order to reflect highway rather than railroad

mileages. The point-to-point rates included in M No. 8 are closely compatible with the rates proposed at this hearing. Pending action by the Department of Agriculture on this docket it is found necessary to issue this suspension order.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest for reasons stated under (a) above and in that:

1. The information upon which this action is based did not become available in time sufficient for such compliance.

2. This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective September 1, 1956.

It is therefore ordered, That the provisions of § 904.43 be and they are hereby suspended during the period September 1, 1956, to the effective date of any amendment made to the order as a result of the public hearing held February 28, and 29 (Docket No. AO–14–A24).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 17th day of August 1956.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

PART 934—MILK IN MERRIMACK VALLEY, MASSACHUSETTS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "Act", and of the order, as amended (7 CFR Part 934), regulating the handling of milk in the Merrimack Valley, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The provisions of § 934.43 will not tend to effectuate the declared policy of the act for the period September 1, 1956 to the effective date of any amendment to the order made on the basis of the hearing held in Boston on February 28 and 29, 1956 (Docket No. AO–83–A20).

This section provides that when the rail tariff on milk and cream is increased or decreased zone price differentials would be correspondingly increased or decreased. This provision was based on the concept that any change in the rail tariff on milk and cream would be made only in terms of the rate applying to shipments from specific 10-mile zones via rail mileage. However, New England Joint Tariff M No. 8 effective September 1, 1956, has substituted point-to-point rates in place of the traditional zone rates. The differences between the old and new rates vary considerably from any uniformity of change by 10-mile zones, and by their very nature their effect cannot be uniformly reflected in the order's zone table.

At the public hearing held in February, 1956 (Docket No. AO–83–A20) consideration was given to a proposal to amend the zone differentials of the order to reflect highway rather than railroad mileages. The point-to-point rates included in M No. 8 are closely compatible with the rates proposed at this hearing. Pending action by the Department of Agriculture on this docket it is found necessary to issue this suspension order.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest for reasons stated under (a) above and in that:

1. The information upon which this action is based did not become available in time sufficient for such compliance.

2. This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective September 1, 1956.

It is therefore ordered, That the provisions of § 934.43 be and they are hereby suspended during the period September 1, 1956, to the effective date of any amendment made to the order as a result of the public hearing held February 28 and 29 (Docket No. AO–83–A20).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 17th day of August 1956.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

[F. R. Doc. 56–6820; Filed, Aug. 22, 1956; 8:52 a. m.]

[Avocado Order 12, Amdt. 2]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

MATURITY REGULATION

a. *Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969; 20 F. R. 4177), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than August 22, 1956. This amendment relieves restrictions on specified varieties of avocados in that it will permit the shipment of such varieties at an earlier date than now provided. It also establishes maturity requirements for these and other varieties which will be applicable on and after the time the shipment of such varieties is permitted. A reasonable determination as to the time of maturity of avocados must await the development of the crop thereof, and adequate information thereon, with respect to the varieties specified in this amendment, was not available to the Avocado Administrative Committee until August 14, 1956; determinations as to the time of maturity of the varities of avocados covered by this amendment were made at the meeting of said committee on August 14, 1956, after consideration of all available information relative to such maturity and growing conditions prevailing during the current season for such avocados, at which time the recommendations and supporting information for such maturity regulation were submitted to the Department; such meeting was held to consider recommendation for such regulation after giving due notice thereof, and interested parties were afforded an opportunity to submit their views at this meeting; the provisions of this amendment are identical with the aforesaid recommendations of the committee and information concerning such provisions has been disseminated among the handlers of avocados; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

b. It is therefore ordered as follows:

1. The provisions set forth in Table I of paragraph (b) of § 969.312 (Avocado Order 12; 21 F. R. 3307, 5469) are hereby amended by adding thereto the following:

TABLE I

2. The provisions of subparagraph (6) of paragraph (b) of § 969.312 (Avocado Order 12; 21 F. R. 3307, 5469), and of Table II following said subparagraph, are hereby terminated and the following substituted therefor:

(6) During the period beginning at 12:01 a. m., e. s. t., November 5, 1956, and ending at 12:01 a. m., e. s. t., November 26, 1956, no handler shall handle any avocados of the Booth 8 variety unless the individual fruit weighs at least 9 ounces or measures at least 2 1/16 inches in diameter; and during the period beginning at 12:01 a. m., e. s. t., November 19, 1956, and ending at 12:01 a. m., e. s. t., December 10, 1956, no handler shall handle any avocados of the Lula variety unless the individual fruit weighs at least 11 ounces or measures at least 2 5/16 inches in diameter: *Provided*, That up to 10 percent, by count, of the individual fruit contained in each lot of Booth 8 or Lula avocados may weigh less than the minimum weight specified in this subparagraph for such variety and may measure less than the minimum diameter so specified if such avocados weigh not more than two ounces less than the applicable specified weight;

3. The reference to Table II in subparagraph (7) of paragraph (b) of § 969.312 (Avocado Order 12; 21 F. R. 3307, 5469) is hereby deleted.

c. The provisions of this amendment shall become effective at 12:01 a. m., e. s. t., August 22, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 16, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 56-6742; Filed, Aug. 21, 1956; 1:02 p. m.]

PART 996—MILK IN THE SPRINGFIELD, MASSACHUSETTS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 996), regulating the handling of milk in the Springfield, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The provisions of § 996.43 will not tend to effectuate the declared policy of the act for the period September 1, 1956 to the effective date of any amendment to the order made on the basis of the hearing held in Boston on February 28 and 29, 1956 (Docket No. AO-203-A6).

This section provides that when the rail tariff on milk and cream is increased or decreased zone price differentials would be correspondingly increased or decreased. This provision was based on the concept that any change in the rail tariff on milk and cream would be made only in terms of the rate applying to shipments from specific 10-mile zones via rail mileage. However, New England Joint Tariff M No. 8 effective September 1, 1956, has substituted point-to-point rates in place of the traditional zone rates. The differences between the old and new rates vary considerably from any uniformity of change by 10-mile zones, and by their very nature their effect cannot be uniformly reflected in the order's zone table.

At the public hearing held in February, 1956 (Docket No. AO-203-A6) consideration was given to a proposal to amend the zone differentials of the order to reflect highway rather than railroad mileages. The point-to-point rates included in M No. 8 are closely compatible with the rates proposed at this hearing. Pending action by the Department of Agriculture on this docket it is found necessary to issue this suspension order.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest for reasons stated under (a) above and in that:

1. The information upon which this action is based did not become available in time sufficient for such compliance.

2. This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective September 1, 1956.

It is therefore ordered, That the provisions of § 996.43 be and they are hereby suspended during the period September 1, 1956 to the effective date of any amendment made to the order as a result of the public hearing held February 28 and 29 (Docket No. AO-203-A6).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 17th day of August 1956.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

[F. R. Doc. 56-6822; Filed, Aug. 22, 1956; 8:52 a. m.]

PART 999—MILK IN WORCESTER, MASSACHUSETTS, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 999), regulating the handling of milk in the Worcester, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The provisions of § 999.43 will not tend to effectuate the declared policy of the act for the period September 1, 1956 to the effective date of any amendment to the order made on the basis of the hearing held in Boston on February 28 and 29, 1956 (Docket No. AO-204-A6).

This section provides that when the rail tariff on milk and cream is increased or decreased zone price differentials would be correspondingly increased or decreased. This provision was based on the concept that any change in the rail tariff on milk and cream would be made only in terms of the rate applying to shipments from specific 10-mile zones via rail mileage. However, New England Joint Tariff M No. 8 effective September 1, 1956 has substituted point-to-point rates in places of the traditional zone rates. The differences between the old and new rates vary considerably from any uniformity of change by 10-mile zones, and by their very nature their effect cannot be uniformly reflected in the order's zone table.

At the public hearing held in February, 1956 (Docket No. AO-204-A6) consideration was given to a proposal to amend the zone differentials of the order to reflect highway rather than railroad mileages. The point-to-point rates included in M No. 8 are closely compatible with the rates proposed at this hearing. Pending action by the Department of Agriculture on this docket it is found necessary to issue this suspension order.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest for reasons stated under (a) above and in that:

2. This suspension order does not require of persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective September 1, 1956.

It is Therefore Ordered, That the provisions of § 999.43 be and they are hereby suspended during the period September 1, 1956, to the effective date of any amendment made to the order as a result of the public hearing held February 28 and 29 (Docket No. AO-204-A6).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 17th day of August 1956.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 379—EXPORT CLEARANCE AND DESTINATION CONTROL

MISCELLANEOUS AMENDMENTS

1. Section 371.8 *General License GRO; shipments of non-Positive List commodities*, paragraph (c) *Government surplus agricultural commodities* is amended to read as follows:

(c) *Surplus agricultural commodities and manufacturers thereof.* (1) The provisions of this paragraph apply to any of the following types of exportations when shipped under this general license: [2]

(i) Any exportation, regardless of value, which consists in whole or in part of a commodity obtained directly or indirectly from the Commodity Credit Corporation in a purchase from that agency amounting to $100,000 or more, either in the form acquired or in processed form.

(ii) Any exportation, regardless of value, which consists in whole or in part of a commodity being shipped in substitution for a commodity acquired from the Commodity Credit Corporation under an export disposal program in a purchase from that agency amounting to $100,000 or more.

(iii) Any exportation, regardless of value, which consists in whole or in part of a commodity which is subsidized for export by the Commodity Credit Corporation either by cash payments or by payments in kind, if the exportation is based on a sales or consignment contract with a foreign party amounting to $100,000 or more.

(2) For any such exportation, the exporter shall file an additional copy of the Shipper's Export Declaration with the Collector of Customs and send one copy of the On-Board Ocean Bill of Lading (for exportations by rail, one copy of the Railroad Bill of Lading) to the Bureau of Foreign Commerce, Washington 25, D. C. The additional copy of the Shipper's Export Declaration and the copy of the Bill of Lading shall bear the notation "FC-2610" in the upper right corner, and shall also show the CCC identification number.

NOTE: Where commodities are to be exported by a party other than the original purchaser of the commodities from the Commodity Credit Corporation, the original purchaser shall inform the exporter in writing of the requirement for submitting the additional copy of the Shipper's Export Declaration and Bill of Lading.

2. Section 371.23 *General License GHK; shipments of certain commodities to Hong Kong*, paragraph (b) *Government surplus agricultural commodities* is amended to read as follows:

(b) *Surplus agricultural commodities and manufactures thereof.* The provisions of § 371.8 (c) apply to exportations of surplus agricultural commodities and manufactures thereof which are shipped under General License GHK.

3. Section 373.5 *Agricultural commodities owned or previously owned by the Commodity Credit Corporation (CCC)* and the note following are amended to read as follows:

§ 373.5 *Licensing policy for agricultural commodities and manufactures thereof.* (a) It is the general policy of the Bureau of Foreign Commerce to deny applications for validated licenses to export, or authority to reexport, agricultural commodities and manufactures thereof to any Subgroup A destination where the proposed shipment (1) consists of any commodity which is acquired directly or indirectly from the Commodity Credit Corporation, whether in the form acquired or in processed form; (2) consists of any commodity which is shipped in substitution for a commodity acquired directly or indirectly from the Commodity Credit Corporation under an export disposal program; and (3) is subsidized for export by the Commodity Credit Corporation either by cash payments or by payments in kind.

(b) License applications covering proposed shipments of agricultural commodities and manufactures thereof destined to Eastern European countries of the Soviet Bloc may be considered for approval, if approval would not be in conflict with the policy stated in paragraph (a) of this section. Such license applications submitted to the Bureau of Foreign Commerce shall contain the following certification in the column headed "Commodity Description":

I (we) certify (1) that the commodities covered by this application have not been and will not be obtained directly or indirectly from Commodity Credit Corporation stocks; (2) that the commodities will not be shipped in substitution for a commodity acquired directly or indirectly from the Commodity Credit Corporation under an export disposal program; or (3) that if the exportation is eligible for a subsidy under a Commodity Credit Corporation export disposal program for surplus agricultural commodities, such subsidy has not been and will not be claimed or obtained.

NOTE: See § 371.8 for exportations under General License GRO of surplus agricultural commodities and manufactures thereof.

4. Section 373.49 *Machinery and equipment*, paragraph (c) *Tools incorporating diamonds*, subparagraph (1) *Commodities included* is amended to read as follows:

(1) *Commodities included.* Any tool incorporating diamonds requires a validated license (unless General License GLV applies to the shipment of the tool) for export to all R and O country destinations, whether or not the tool is shipped with the machine with which it is to be used.

5. Section 373.55 *Chemicals and medicinals*, paragraph (c) *Poliomyelitis vaccine* is amended to read as follows:

(c) *Poliomyelitis vaccine*—(1) *Licensing policy.* License applications to export poliomyelitis vaccine, Schedule B No. 812200 will be considered for approval as set forth below:

(i) *Immunization program.* Where the vaccine is to be used for an immunization program abroad, the Bureau of Foreign Commerce will give licensing priority to the use of the vaccine in a country that has:

(*a*) A high poliomyelitis incidence or a current epidemic situation.

(*b*) An effective program for utilizing the vaccine.

(ii) *Other purposes.* In addition to the above, the Bureau of Foreign Commerce

---

[1] This amendment was published in Current Export Bulletin No. 767, dated August 23, 1956.

[2] This procedure is also applicable to such shipments under General License GHK (§ 371.23).

will give consideration to applications for vaccine to be used for one of the following purposes:

(*a*) Product registration;

(*b*) Biologics control;

(*c*) Laboratory experimentation or research other than for immunization purposes;

(*d*) Inoculation of United States nationals stationed abroad (excluding members of the United States Armed Services and United States Government employees stationed abroad for whom provisions have been made to receive vaccine inoculations through United States Government facilities);

(*e*) Other uses which merit consideration because of unusual or special considerations not falling specifically within one of the above categories.

(2) *Submission of license applications.* In addition to the provisions of § 372.5 of this subchapter, a license application covering the exportation of poliomyelitis vaccine shall include the information described below.

(i) If the vaccine is to be used for the purpose of an immunization program the application shall be supported by a statement from the Ministry of Public Health of the country of destination setting forth the need and the program for effective use and distribution of the vaccine. In addition, the statement shall contain the following information:

(*a*) Number of cases in the country per hundred thousand of total population.

(*b*) Specific locality to which the disease is confined.

(*c*) Age groups having highest reported incidence.

(*d*) Number of persons to be inoculated.

(*e*) Any other pertinent substantiated scientific data.

(ii) If the vaccine is to be used for the purpose of laboratory experimentation or research (excluding immunization programs), the license application shall be accompanied by a statement signed by the ultimate consignee which sets forth the following information:

(*a*) Purpose for which the vaccine will be used, i. e., laboratory experimentation or research;

(*b*) Type and purpose of research or experimentation which will be conducted (specify whether tests are to be conducted on animals or humans);

(*c*) Any other information as to end use; and

(*d*) Name and address of the foreign firm or organization which will conduct the research or experimentation.

(iii) If the vaccine is to be used for the inoculation of United States nationals abroad (excluding members of the United States Armed Services and United States Government employees stationed abroad for whom provisions have been made to receive vaccine inoculations through United States Government facilities), the license application shall show the number of United States nationals to be inoculated.

(3) *Waiver to application requirements.* (i) In those instances where the need is immediate and urgent or other special circumstances warrant, the Bureau of Foreign Commerce will consider waiving the requirement for a statement from the Ministry of Public Health as provided in subparagraph (2) (i) of this paragraph.

(ii) Consideration will also be given to granting a waiver from the requirement for a signed statement from the ultimate consignee as provided in subparagraph (2) (ii) of this paragraph where it is shown that the statement would impose an undue hardship on the United States exporter.

(iii) Where a request for waiver is made, a supporting document setting forth the reason for requesting the waiver shall accompany the license application.

6. Section 379.3 *Presentation of Shipper's Export Declaration*, paragraph (c) *Number of copies to be presented*, subparagraph (4) *Government surplus agricultural commodities* is amended to read as follows:

(4) *Surplus agricultural commodities and manufactures thereof.* See also § 371.8 (c) of this subchapter for exportations of surplus agricultural commodities and manufactures thereof.

Parts 1, 2, 3, 4 and 6 of this amendment shall become effective as of August 30, 1956, and part 5 of this amendment shall become effective as of August 11, 1956.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File 21-416]

PART 187—ADVERTISING AND SALES PROMOTION OF MAIL ORDER INSURANCE

ORDER REPEALING TRADE PRACTICE RULES

Whereas on February 3, 1950, the Commission promulgated trade practice rules relating to the Advertising and Sales Promotion of Mail Order Insurance which were codified in the Code of Federal Regulations (16 CFR Part 187); and

Whereas on June 15, 1956, the Commission promulgated trade practice rules for the Accident and Health Insurance Industry which cover the advertising and sales promotion of accident and health insurance by mail, and which contain provisions substantially different from provisions of the rules relating to the Advertising and Sales Promotion of Mail Order Insurance; and

Whereas the Commission directed that a hearing be held pursuant to notice in the FEDERAL REGISTER to afford industry members an opportunity to be heard and make known their objections, if any, to repeal of the trade practice rules relating to the Advertising and Sales Promotion of Mail Order Insurance; and

Whereas the hearing was duly held on July 10, 1956, and all views there presented, or otherwise received, have been considered:

It is ordered, That the trade practice rules relating to the Advertising and Sales Promotion of Mail Order Insurance be, and the same hereby are, repealed.

Issued: August 20, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 22—FOREIGN RELATIONS

Chapter II—International Cooperation Administration

PART 201—PROCEDURES FOR FURNISHING ASSISTANCE TO COOPERATING COUNTRIES

INFORMATION FOR OFFICE OF SMALL BUSINESS/ICA

AUGUST 16, 1956.

Section 201.13 of ICA Regulation 1 is hereby amended to read as follows effective as of October 1, 1956:

§ 201.13 *Information for Office of Small Business/ICA.* (a) To permit ICA, in accordance with section 504 of the act, to give United States suppliers (particularly small independent enterprises) an opportunity to participate in supplying commodities and services financed by ICA, the importer, before placing or agreeing to place any order covered by a subauthorization of more than $5,000, shall, insofar as practicable and to the maximum extent consistent with the accomplishment of the purposes of the act, furnish by registered mail to the Office of Small Business, ICA, Washington, D. C., the following information in the following form in duplicate in the English language with specifications stated in terms of United States standards.

Name and address of importer.	ICA PA or PIO/C number (if known).	Quotations will be accepted until ---------- (Date)
Subauthorization or Import license number (if known).	Cabled quotations will ( ) will not ( ) be accepted. If yes, give cable address.	Approximate dollar amount of proposed purchase.

Full description of commodities and services (excluding ocean transportation and marine insurance) to be imported, including sizes, quantities, etc., and any special conditions: ----------

---------- (Name of importer)

By ---------- (Authorized signature)

(b) The importer shall not accept any offer or place any order or agree to accept any offer or place any order under a subauthorizaton until after 30 days have elapsed from the time that the information described in paragraph (a) of this section reaches, or in the normal course of the mail would reach, the Office of Small Business, ICA, Washington, D. C. The Office of Small Business may, upon application by the importer, waive or reduce the 30 day waiting period where such action is deemed appropriate by the Office of Small Business.

(c) Where procurement is undertaken directly by a cooperating country government or its governmental agency on the basis of formal sealed bids, the importer, in lieu of furnishing the information described in paragraph (a) of this section, shall transmit so as to be received by the Office of Small Business, ICA, Washington, D. C., at least 30 days before the closing date for bids, a copy of the complete invitation for bids (including specifications according to United States standards, terms and conditions, the closing hour and date for bids, the applicable invitation number, and the address where invitation forms and complete specifications may be obtained by prospective suppliers).

(d) The provisions of paragraphs (a), (b), and (c) of this section, shall not apply to imports of agricultural commodities except as otherwise specifically provided for in any PA or PIO covering agricultural commodities.

(e) Where ICA-financed purchases are made on the basis of sealed bids, the importer shall, within 30 days after making the award, furnish the Office of Small Business, ICA, Washington, D. C., an abstract of the bids showing the names and addresses of all bidders, the bids they submitted in terms of commodities, quantity, and prices, and the name and address of the successful bidder or bidders. The abstract of bids shall not be required in cases where the supplier and importer are private commercial operators unless the Office of Small Business, ICA, Washington, D. C., specifically requests the importer for such an abstract.

(f) The provisions of this section shall not apply to procurement undertaken by United States Government Agencies. Such procurement, however, shall be based upon specifications in terms of United States standards.

(Sec. 525, 68 Stat. 856; 22 U. S. C. 1785)

JOHN B. HOLLISTER,
Director,
International Cooperation Administration.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

ROCKY MOUNTAIN NATIONAL PARK

Paragraph (b) *Fishing*, of § 20.7 *Rocky Mountain National Park*, is amended to read as follows:

(b) *Fishing.* (1) Along the eastern shores of Shadow Mountain Lake and the Granby Reservoir fishing shall be done in conformity with the laws and regulations of the State of Colorado.

(2) Elsewhere in the Park, fishing shall be permitted in conformity with the laws and regulations of the State of Colorado regarding minimum size limits and the method of handling and returning undersized fish to the water; and, the following additional provisions:

(i) The open season for fishing shall be June 15 through September 30.

(ii) Permissible hours for fishing shall be 4:00 a. m. to 8:30 p. m., m. s. t.

(iii) The use of seines, throw lines, set lines, or any other method of catching fish, except by rod and line held in the hand, is prohibited.

(iv) Fishing with minnows, small fish, fish eggs, or other live bait or the release or freeing thereof, in any of the waters is prohibited.

(v) The number of fish that may be taken by any person in any one day is limited to 10 fish (not exceeding a total of 10 pounds). The possession of more than one day's catch by any person at any time is prohibited.

(vi) Fishing in rearing ponds or other posted waters is prohibited.

(vii) Tonahutu Creek is closed for a distance of 3 miles upstream from the park boundary.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 4th day of June 1956.

JAMES V. LLOYD,
Superintendent,
Rocky Mountain National Park.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1321]

[Fairbanks 012949]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE OF COAST AND GEODETIC SURVEY, DEPARTMENT OF COMMERCE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, and reserved for use of the Coast and Geodetic Survey, Department of Commerce, in connection with the installation of a geomagnetic observatory:

FAIRBANKS MERIDIAN

T. 1 N., R. 2 W.,
Sec. 20, SW¼SW¼ (unsurveyed).

The area described contains 40 acres.

The jurisdiction granted by this order shall not continue beyond the expiration of five years after the publication hereof in the FEDERAL REGISTER. At that time jurisdiction over the lands hereby reserved, if not sooner terminated, shall be revested in the Department of the Interior and any other department or agency of the Federal Government, according to their respective interests then of record. The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

AUGUST 17, 1956.

[F. R. Doc. 56-6794; Filed, Aug. 22, 1956; 8:46 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

[7 CFR Part 301]

WHITE-FRINGED BEETLE

DOMESTIC QUARANTINE NOTICE

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Administrator, Agricultural Research Service, pursuant to sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), and section 3 of the Insect Pest Act (7 U. S. C. 143), is considering amending notice of quarantine No. 72 relating to the white-fringed beetle and the regulations supplemental to said quarantine (7 CFR, and 1955 Supp., 301.72, 301.72-1 et seq.) to read as follows:

QUARANTINE

Sec.
301.72 Notice of quarantine.

REGULATIONS

301.72-1 Definitions.
301.72-2 Designation of regulated areas.
301.72-3 Regulated articles.

Sec.

301.72–4 Conditions governing interstate movement of certain regulated articles.
301.72–5 Conditions governing the issuance of certificates and limited permits.
301.72–6 Assembly of articles for inspection.
301.72–7 Cancellation of certificates and limited permits.
301.72–8 Inspection of shipments en route.
301.72–9 Disinfecting vehicles, machinery, and other articles.
301.72–10 Shipments for experimental and scientific purposes.
301.72–11 Nonliability of Department.

AUTHORITY: §§ 301.72 to 301.72–11 issued under sections 8, 9, of the Plant Quarantine Act of August 20, 1912, as amended, 37 Stat. 318, 39 Stat. 1165, 44 Stat. 250; secs. 1, 3, 33 Stat. 1269, 1270; 7 U. S. C. 161, 162, 141, 143.

§ 301.72 *Notice of quarantine.* Under the authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U. S. C. 161), and after the public hearing required thereby, the States of Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee have been and hereby are continued to be quarantined to prevent the spread of introduced species of the genus Graphognathus, commonly known as white-fringed beetles, dangerous insects of foreign origin notoriously injurious to cultivated crops and not heretofore widely prevalent or distributed within and throughout the United States, and under the authority conferred by the Plant Quarantine Act and the Insect Pest Act of March 3, 1905 (7 U. S. C. 141 et seq.), supplemental regulations are hereinafter prescribed (§§ 301.72–1 to 301.72–11) governing the movement of white-fringed beetles and carriers thereof. Hereafter (a) live white-fringed beetles in any stage of development, (b) forest, field, nursery, or greenhouse-grown woody or herbaceous plants with roots; (c) soil, compost, manure, peat, muck, clay, sand, or gravel, independent of or in connection with nursery stock, plants, plant products, or other products or articles; (d) grass sod; plant crowns or roots for propagation; true bulbs, corms, tubers, and rhizomes of ornamental plants, when freshly harvested or uncured; potatoes (Irish) when freshly harvested; peanuts in shells, peanut shells and peanut hay; (e) uncleaned grass, grain and legume seed; hay (other than peanut hay), straw, seed cotton and cottonseed; (f) scrap metal and junk; brick, tile, stone; concrete slabs, pipes, and building blocks; and cinders; (g) forest products, such as cordwood, stump wood, logs, lumber, timbers, posts, poles, and cross ties; (h) railway cars, trucks, and other means of conveyance; construction and maintenance equipment; containers; and other articles of any character whatsoever which by reason of infestation or exposure constitute a hazard of spreading white-fringed beetles as determined in accordance with the supplemental regulations §§ 301.72–1 to 301.72–11, shall not be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved from any of said quarantined States into or through any other State, Territory, or District of the United States, in manner or method or under conditions other than those prescribed in the supplemental regulations, as from time to time amended: *Provided*, That the requirements of this quarantine and of the supplemental regulations, except as otherwise provided in the regulations, are hereby limited to the areas in any quarantined State which may be designated as regulated areas as provided in the regulations, as long as, in the judgment of the Administrator of the Agricultural Research Service, the enforcement of the regulations as to such regulated areas will be adequate to prevent the spread of white-fringed beetles, except that such limitation is further conditioned upon the affected State's providing for and enforcing control of the movement within such State of the regulated articles under the same conditions as those which apply to their interstate movement under the provisions of currently existing Federal quarantine regulations, and upon the State's enforcing such control and sanitation measures with respect to such areas or portions thereof as, in the judgment of said Administrator, shall be deemed adequate to prevent the spread therefrom within such State of the infestations of said insects: *Provided, further*, That whenever the Chief of the Plant Pest Control Branch shall find that facts exist as to the pest risk involved in the movement of one or more of the articles to which the supplemental regulations apply, except live white-fringed beetles in any stage of development, making it safe to modify, by making less stringent, the requirements contained in the regulations, he shall set forth and publish such finding in administrative instructions, specifying the manner in which the applicable regulations should be made less stringent, whereupon such modification shall become effective, for such period and for such regulated area or portion thereof and for such article or articles as shall be specified in said administrative instructions, and every reasonable effort shall be made to give publicity to such administrative instructions throughout the affected areas.

REGULATIONS

§ 301.72–1 *Definitions.* For the purpose of the regulations in this subpart the following terms shall be construed, respectively, to mean:

(a) *White-fringed beetle.* Species of the genus Graphognathus, in any stage of development.

(b) *Infestation.* The presence of white-fringed beetles.

(c) *Regulated areas.* The counties, parishes, cities, sections, townships, militia districts, and other minor civil divisions, or parts thereof, designated in administrative instructions under § 301.72–2 as regulated areas.

(d) *Nursery stock.* Forest, field, nursery, or greenhouse-grown woody or herbaceous plants with roots.

(e) *Regulated articles.* Products or articles of any character whatsoever, the movement of which is regulated by this quarantine (§ 301.72) and regulations supplemental thereto (§§ 301.72–1 to 301.72–11).

(f) *Inspector.* An inspector of the United States Department of Agriculture.

(g) *Moved (movement, move).* Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved, interstate, directly or indirectly, from a regulated area. "Movement" and "move" shall be construed accordingly.

(h) *Certificate.* A document evidencing compliance with the requirements of this subpart.

(i) *Master certificate.* A document, indicating the quantity and nature of the articles covered thereby, issued by an inspector for use with bulk or lot shipments of regulated articles by rail, boat, or road vehicle, authorizing their interstate movement from the regulated areas.

(j) *Limited permit.* A document authorizing the movement of regulated articles to a restricted destination for limited handling, utilization, or processing.

(k) *Dealer-carrier agreement.* A document, constituting an agreement to comply with stipulated quarantine conditions, executed by persons or firms engaged in purchasing, handling, processing, utilizing, or moving regulated articles.

(l) *Administrative instructions.* Documents relating to the enforcement of the provisions in this subpart issued under authority of the provisions thereof by the Chief of the Plant Pest Control Branch, Agricultural Research Service.

(m) *Interstate.* From one State, Territory, or District of the United States into or through another.

§ 301.72–2 *Designation of regulated areas.* The Chief of the Plant Pest Control Branch, shall, from time to time, in administrative instructions promulgated by him, list the counties, parishes, cities, sections, townships, militia districts, and other minor civil divisions, or parts thereof, in the quarantined States, in which infestation of the white-fringed beetle has been determined to exist, or in which it has been determined such infestation is likely to exist, or which it is deemed necessary to regulate because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities, and shall designate such counties, parishes, cities, sections, townships, militia districts, and other civil divisions, or parts thereof, as constituting the regulated areas. Any civil division, or part thereof, so designated shall continue in a regulated status until the Chief of the Plant Pest Control Branch shall have determined that adequate eradication measures have been practiced for a sufficient length of time to eradicate the white-fringed beetle therein and that regulation of such area is not otherwise necessary under this section, and shall have issued administrative instructions revoking the designation of such civil division, or part thereof, as a regulated area.

§ 301.72–3 *Regulated articles—(a) White-fringed beetles; removal prohibited, exception.* The removal from any State or Territory to any other State or Territory or the District of Columbia, or from said District to any State or Territory, of live white-fringed beetles, except for scientific purposes, is prohibited by the Insect Pest Act (7 U. S. C. 141). Provisions for the removal of live white-fringed beetles, for scientific purposes, are set forth in § 301.72–10.

(b) *Other regulated articles; movement regulated.* Unless exempted by administrative instructions issued by the Chief of the Plant Pest Control Branch, the movement from any regulated area of any of the following is permitted only under the conditions provided in the regulations in this subpart:

(1) Forest, field, nursery, or greenhouse-grown woody or herbaceous plants with roots.

(2) Soil, compost, manure, peat, muck, clay, sand, or gravel, independent of or in connection with nursery stock, plants, plant products, or other products or articles, except that the movement of processed sand and gravel is not regulated.

(3) Grass sod; plant crowns or roots for propagation; true bulbs, corms, tubers, and rhizomes of ornamental plants, when freshly harvested or uncured; potatoes (Irish) when freshly harvested; peanuts in shells, peanut shells and peanut hay.

(4) Uncleaned grass, grain and legume seed; hay (other than peanut hay), straw, seed cotton and cottonseed.

(5) Scrap metal and junk; brick, tile, stone; concrete slabs, pipes, and building blocks; and cinders.

(6) Forest products, such as cordwood, stump wood, logs, lumber, timbers, posts, poles, and cross ties.

(7) Other articles of any character whatsoever that might present a hazard of spread of white-fringed beetles.

§ 301.72–4 *Conditions governing interstate movement of certain regulated articles.—(a) Certificate or limited permit required.* Except as exempted by administrative instructions of the Chief of the Plant Pest Control Branch, or as provided in § 301.72–10, regulated articles designated in § 301.72–3 (b) shall not be moved from any regulated area into or through any point outside thereof unless accompanied by a valid certificate or limited permit issued under § 301.72–5. In issuing such administrative instructions, the Chief of the Plant Pest Control Branch will designate the regulated articles to be exempt from the requirements of the regulations supplemental to the quarantine and set forth any special conditions which qualify certain articles for such exemption.

(b) *Use of certificates on shipments.* Unless exempted by administrative instructions, and except as provided in § 301.72–5 (b) for movement of noncertified shipments under limited permits to designated destinations for processing, every container of regulated articles moved from any regulated area shall have securely attached to the outside thereof a certificate issued in compliance with the regulations in this subpart. However, in the case of carload or less-than-carload shipments by freight, express, or truck, either in containers or in bulk, a single master certificate shall be attached to the waybill or invoice. In the case of less-than-carload shipments by freight or express, an additional certificate shall be attached to one of the containers.

(c) *Articles originating outside the regulated areas.* No certificates or limited permits are required for the movement of regulated articles designated in § 301.72–3 (b) which originate outside any regulated area and are moved through or reshipped from any regulated area, when the point of origin is clearly indicated, when the identity has been maintained, and when the articles have been protected while in the regulated area, in a manner satisfactory to the inspector.

(d) *Protecting certified articles.* Subsequent to certification as provided in § 301.72–3 (b), regulated articles must be loaded, handled, and shipped only under such protection and safeguards against infestation as are required by the inspector.

§ 301.72–5 *Conditions governing the issuance of certificates and limited permits—(a) Certificates.* Certificates may be issued for the movement from a regulated area of the regulated articles designated in § 301.72–3 (b) under any one of the following conditions:

(1) When, in the judgment of the inspector, they have not been exposed to infestation.

(2) When they have been examined by an inspector and found to be free of infestation.

(3) When they have been treated under the observation of an inspector and in accordance with methods selected by him from administratively authorized procedures known to be effective under the conditions in which applied.

(4) When grown, produced, manufactured, stored, or handled in such manner that, in the judgment of the inspector, no infestation would be transmitted thereby.

(b) *Limited permits.* Limited permits may be issued by the inspector for the movement from a regulated area of noncertified regulated articles designated in § 301.72–3 (b) to such destinations and consignees as may be authorized and designated by the Plant Pest Control Branch for processing or other safe handling. As conditions of such authorization and designation, persons or firms shipping, transporting, or receiving such articles may be required by the inspector to enter into written agreements with the Plant Pest Control Branch to maintain such safeguards against the establishment and spread of infestation and to comply with such conditions as to maintenance of identity, handling, or subsequent movement of such articles, and to the cleaning or treatment of railway cars, trucks, and other means of conveyance, and containers used in the transportation of such articles, as may be required by the inspector.

(c) *Dealer-carrier agreement.* As a condition of issuance of certificates or limited permits for the movement of regulated articles, any person or firm engaged in producing, purchasing, assembling, exchanging, processing, or transporting such regulated articles originating or stored in regulated areas, may be required to sign a dealer-carrier agreement stipulating that he will carry out any and all conditions, treatments, precautions, and sanitary measures which are deemed necessary by the inspector, including segregation and maintenance of identity, under supervision of the inspector, of all regulated articles.

§ 301.72–6 *Assembly of articles for inspection.* Persons intending to move any of the regulated articles designated in § 301.72–3 (b) shall make application for inspection as far in advance as possible, shall so handle such articles as to safeguard them from infestation, and shall assemble them at such points and in such manner as the inspector shall designate to facilitate inspection. All costs, including storage, transportation, and labor incident to inspection, other than the services of the inspector, shall be paid by the shipper.

§ 301.72–7 *Cancellation of certificates or limited permits.* Certificates or limited permits for any regulated articles issued under the regulations in this subpart may be withdrawn or canceled and further certificates or permits for such articles refused by the inspector whenever he determines the further use of such certificates or permits might result in the dissemination of white-fringed beetles.

§ 301.72–8 *Inspection of shipments en route.* Any vehicle, boat, ship, vessel, receptacle, or any other means of transportation, moving interstate which an inspector has probable cause to believe carries or contains any white-fringed beetles, the transportation of which is illegal, or any other regulated article controlled by § 301.72 and the regulations in this subpart shall be subject to inspection by the inspector.

§ 301.72–9 *Disinfesting vehicles, machinery, and other articles.* When in the judgment of the inspector a hazard of spread of white-fringed beetles is involved, thorough cleaning, disinfecting, or other sanitary treatments of railway cars, trucks, other vehicles, machinery, implements, and other articles, will be required by the inspector before they may be moved to points outside the regulated areas.

§ 301.72–10 *Shipments for experimental and scientific purposes.* Live white-fringed beetles may be removed from any State or Territory to any other State or Territory or the District of Columbia, or from said District to any State or Territory, and other articles subject to the requirements of the regulations in this subpart may be moved interstate from any regulated area, for experimental or other scientific purposes, on such conditions and under such safeguards as may be prescribed by the Chief of the Plant Pest Control Branch. The container or, if there is none, the article itself shall bear, securely attached to the outside thereof, an identifying tag from the Plant Pest Control Branch.

§ 301.72–11 *Nonliability of Department.* The United States Department of Agriculture disclaims liability for any cost incident to inspection or treatment required under the regulations in this subpart, or for the chemical or mechanical injury of any commodity treated under the regulations in this subpart, other than for the services of the inspector.

This amendment would authorize the Chief of the Plant Pest Control Branch to publish, from time to time, in administrative instructions a list of the minor civil divisions or parts thereof, in quarantined States, in which infestation of the white-fringed beetle has been determined to exist, or in which it has been determined such infestation is likely to exist, or which it is deemed necessary to regulate because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested districts, and to designate such civil divisions or parts thereof as a regulated area. Civil divisions or parts thereof so designated would, under the proposed amendment, continue in a regulated status until the Chief of the Plant Pest Control Branch has determined that adequate eradication measures have been practiced for a sufficient length of time to eradicate the infestation therein or that regulation of such area is not otherwise necessary for quarantine enforcement purposes, and has issued administrative instructions revoking the designation of such civil divisions or parts thereof as a regulated area.

Other amendments would make the provisions of these regulations conform as closely as possible in phraseology with similar domestic plant quarantine regulations and make numerous clarifying changes.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Plant Pest Control Branch, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 17th day of August 1956.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[7 CFR Part 301]

WHITE-FRINGED BEETLE QUARANTINE

ADMINISTRATIVE INSTRUCTIONS EXEMPTING CERTAIN ARTICLES FROM CERTIFICATION REQUIREMENTS

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Chief of the Plant Pest Control Branch, pursuant to the authority to be conferred by a proposed amendment of the White-Fringed Beetle Quarantine No. 72 (7 CFR 301.72, *supra*), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), is considering amending the administrative instructions exempting certain articles from requirements of the regulations supplemental to said quarantine (7 CFR, 1955 Supp., 301.72a) to read as follows:

§ 301.72a *Administrative instructions exempting certain articles from requirements of regulations.* The Chief of the Plant Pest Control Branch has found that facts exist as to the pest risk involved in the movement of the following regulated articles making it safe to modify, by making less stringent, the requirements of the regulations supplemental to the white-fringed beetle quarantine as follows:

(a) The movement of the following articles, when they are free of soil, or when they have not been exposed to infestation, or when sanitation practices are maintained as prescribed by or to the satisfaction of the inspector, is hereby exempted from the certification requirements of §§ 301.72–4 and 301.72–5 of the regulations supplemental to the white-fringed beetle quarantine:

(1) Hay and straw, except that peanut hay is not exempt.

(2) Uncleaned grass, grain, and legume seed.

(3) Seed cotton and cottonseed.

(4) Potatoes (Irish) when freshly harvested, grown in the regulated areas in Baldwin or Escambia Counties, Alabama; or Escambia County, Florida.

(b) The movement of the following articles, when they meet the requirements of paragraph (a) of this section or when the storage yards or premises and environs thereof have been surface treated with an insecticide, at dosages administratively approved and at intervals prescribed by the inspector, is hereby exempted from the certification requirements of §§ 301.72–4 and 301.72–5 of the regulations supplemental to the white-fringed beetle quarantine:

(1) Forest products, such as cordwood, stump wood, logs, lumber, timbers, posts, poles, and cross ties.

(2) Brick, tile, stone; concrete slabs, pipe, building blocks; and cinders.

The proposed amendment of the administrative instructions would exempt the same articles as heretofore, but would provide a less stringent condition for the exemption of forest products, brick, tile, stone, concrete slabs, pipe, building blocks, and cinders.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Plant Pest Control Branch, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 8, 9, 37 Stat. 318, as amended; 7 U. S. C. 161, 162; 7 CFR Supp. 301.72)

Done at Washington, D. C., this 17th day of August 1956.

[SEAL] L. F. CURL,
Acting Chief,
Plant Pest Control Branch.

[7 CFR Part 301]

WHITE-FRINGED BEETLE QUARANTINE

ADMINISTRATIVE INSTRUCTIONS DESIGNATING REGULATED AREAS

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Chief of the Plant Pest Control Branch, contingent upon authority being delegated to him in conformity with § 301.72–2 of the proposed amendment of the white-fringed beetle regulations (7 CFR 301.72–2, *supra*), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), is considering issuing the following administrative instructions, to appear in 7 CFR Supp. 301.72–2a, listing counties, parishes, cities, sections, townships, militia districts, and other minor civil divisions, and parts thereof, in the quarantined States, in which infestation of the white-fringed beetle has been determined to exist, or in which it has been determined such infestation is likely to exist, or which it is deemed necessary to regulate because of their proximity to infestation or their inseparability for quarantine enforcement purposes from infested localities, thereby designating such counties, parishes, cities, sections, townships, militia districts, and other minor civil divisions, and parts thereof, as white-fringed beetle regulated areas within the meaning of the provisions of this subpart:

§ 301.72–2a *Administrative instructions designating regulated areas under the white-fringed beetle quarantine and regulations.* Infestations of white-fringed beetles have been determined to exist, in the quarantined States, in the respective counties, parishes, cities, sections, townships, militia districts, and other civil divisions, and parts thereof, listed below, or it has been determined that such infestation is likely to exist therein, or it is deemed necessary to regulate such civil divisions and parts thereof because of their proximity to infestation or their inseparability for quarantine purposes from infested localities. Accordingly, such civil divisions and parts thereof are hereby designated as white-fringed beetle regulated areas within the meaning of the provisions in this subpart:

ALABAMA

Baldwin County. S½ T. 3 S., Rs. 3 and 4 E.; SE¼ T. 3 S., R. 2 E.; Tps. 4 and 5 S., Rs. 3 and 4 E.; E½ Tps. 4 and 5 S., R. 2 E.; Tps. 6 and 7 S., R. 4 E.; E½ T. 7 S., R. 3 E.; E½ and secs. 3, 4, 5, 6, 7, 8, 9, and 10, T. 6 S., R. 3 E.; secs. 1, 2, 3, 10, 11, and 12, T. 6 S., R. 2 E.; secs. 1, 2, 11, and 12, T. 8 S., R. 3 E.; secs. 6 and 7, T. 8 S., R. 4 E.; S⅔ T. 7 S., R. 5 E.; and T. 7 S., R. 6 E.

Clarke County. N½ T. 8 N., R. 3 E., and S½ T. 9 N., R. 3 E., including all of the town of Grove Hill; and all that area lying within the corporate limits of the town of Jackson.

Coffee County. That part of the county lying south of the South line of T. 6 N.

Conecuh County. T. 5 N., Rs. 9, 10, 11, 12, 13, and 14 E.; T. 6 N., Rs. 10, 11, 12, and 13 E.; and those parts of T. 4 N., R. 7 E., T. 5 N., Rs. 7 and 8 E., T. 6 N., Rs. 8 and 9 E., Tps. 7 and 8 N., R. 9 E., and Tps. 7, 8, and 9 N., R. 10 E., lying in Conecuh County.

Covington County. All of Covington County.

Crenshaw County. Secs. 27, 28, 29, 30, 31, 32, 33, and 34, T. 9 N., R. 18 E., and secs. 3, 4, 5, and 6, T. 8 N., R. 18 E., including all of the town of Luverne.

Dale County. Secs. 25 and 36, T. 4 N., R. 25 E.; secs. 28, 29, 30, T. 4 N., R. 26 E.

Dallas County. Tps. 13, 14, 15, 16, and 17 N., Rs. 10 and 11 E.; the N½ of T. 15 N., Rs. 6, 7, 8, and 9 E.; T. 16 N., Rs. 7, 8, and 9 E.

Escambia County. Tps. 1, 2, and 3 N., Rs. 6, 7, and 8 E; secs. 33, 34, 35, and 36, T. 1 N., R. 10 E., and all area south thereof to the Alabama State line.

Geneva County. All of Geneva County.

Houston County. All of Houston County west of West line of R. 28 E.

Jefferson County. Secs. 17, 18, 19, and 20, T. 18 S., R. 3 W., and that area included within the corporate limits of the city of Birmingham.

Lowndes County. All of T. 14 N., R. 12 E.

Marengo County. Secs. 28, 29, 30, 31, 32, and 33, T. 16 N., R. 3 E.; and secs. 4, 5, 6, 7, 8, and 9, T. 15 N., R. 3 E.

Mobile County. All of Mobile County.

Monroe County. All of Monroe County.

Montgomery County. Tps. 16 and 17 N., Rs. 17, 18, and 19 E.; and that part of T. 18 N., R. 18 E., lying in Montgomery County.

Wilcox County. N½ T. 10 N., Rs. 6, 7 8, 9, 10, and 11 E.; T. 11 N., Rs. 8, 9, 10, and 11 E.; T. 12 N., Rs. 9 and 10 E.; that part of T. 12 N., R. 8 E., lying south of the Alabama River and south of Pine Barren Creek.

FLORIDA

Escambia County. All of Escambia County.

Holmes County. S½ T. 6 N., R. 15 W., except secs. 18, 19, 30, and 31; NE¼ and secs. 22, 23, and 24, T. 5 N., R. 15 W., including all of the town of Smyrna; secs. 5, 6, 7, 8, 17, 18, 19, and 20, T. 5 N., R. 14 W.; secs. 29, 30, 31, and 32, T. 6 N., R. 14 W.; and E½ of Tps. 4, 5, 6, and 7 N., R. 18 W.

Jackson County. All of Jackson County east of Cowarts Creek and the Chipola River.

Okaloosa County. That part of the county lying north of the south line of T. 2 N.

Santa Rosa County. All of Santa Rosa County.

Walton County. That part of the county lying north of the south line of T. 3 N.

GEORGIA

Baldwin County. That area included within the corporate limits of the city of Milledgeville, and an area one mile wide beginning at the north corporate limits of Milledgeville extending northerly along U. S. Highway 441 with said highway as a center line for a distance of one mile.

Ben Hill County. That area included within a circle having a 2-mile radius and center at the Ben Hill County Courthouse in Fitzgerald, including all of the city of Fitzgerald.

Berrien County. That area included within the corporate limits of the city of Nashville.

Bibb County. That area included within the Georgia Militia Districts of East Macon, Godfrey, Vineville, Hazzard, and Howard; and that portion of the Georgia Militia District of Rutland lying east of a line beginning at the point where U. S. Highway No. 41 crosses the north boundary of said militia district (Tobesofkee Creek) and running southward along said highway to its junction with Hartley Bridge Road and thence southwestward along said road to the west boundary line of said militia district.

Bleckley County. That area included within the corporate limits of the city of Cochran; and that portion of the Georgia Militia District of Manning included within a boundary beginning at the intersection of Georgia State Highway 112 and the Bleckley-Twiggs County line, thence northeast along said county line to the intersection of the Bleckley, Twiggs, Wilkinson, and Laurens County lines, thence southeast for a distance of 1 mile along the Bleckley-Laurens County line, and thence northwest to the point of beginning.

Bulloch County. That area included within a circle having a 2-mile radius and center at the Bulloch County Courthouse in Statesboro, including all of the city of Statesboro; and that area included within a circle having a 1-mile radius and center at the Georgia and Florida Railroad depot in Portal, including all of the town of Portal.

Burke County. That area, comprising parts of Georgia Militia Districts numbers 60 and 62, bounded on the east by Fitz Branch, on the south by a line beginning at the intersection of Georgia State Highway 56 and the Hephzibah Road and extending due east to its intersection with Fitz Branch, on the west by Hephzibah Road, and on the north by Brier Creek, including all of the city of Waynesboro.

Candler County. That area included within a circle having a 1¼-mile radius and center at the intersection in Metter of Georgia State Highways 23 and 46, including all of the city of Metter.

Coffee County. That area included within the corporate limits of the city of Douglas; an area 2 miles wide beginning at the north corporate limits of the city of Douglas and extending northward along U. S. Highway No. 441 with said highway as a centerline to and bounded on the north by Seventeen Mile Creek; that area included within a circle having a 2-mile radius and center at the Atlanta, Birmingham and Coast Railroad depot in Ambrose, including all of the town of Ambrose; and an area 3 miles wide beginning at a line projected due east and due west from a point on the Georgia and Florida Railroad 1 mile northwest of the railroad depot in Broxton, and extending northwesterly with said railroad as a centerline to and bounded on the north by Georgia State Highway 107.

Crawford County. That area included within a circle having a 1½-mile radius and center at the intersection in Roberta of U. S. Highway No. 80 and Georgia State Highway 7, including all of the city of Roberta and the town of Knoxville.

Crisp County. That area included within the corporate limits of the city of Cordele.

Dodge County. That area included within land lots numbers 6, 7, 8, 9, 10, 11, 12, 13, 18, 19, 20, 21, 22, 23, 24, 25, 36, 37, 38, 39, 40, 41, and 42 in the Fifteenth Land District, and land lots numbers 278, 279, 280, 281, 282, 289, 290, 291, 292, 293, 294, 295, 306, 307, 308, 309, 310, 311, and 312 in the Sixteenth Land District, including all of the city of Eastman.

Emanuel County. That area included within a circle having a 1½-mile radius and center at the Union Grove Methodist Church in Georgia Militia District No. 49.

Fulton County. That area included within the corporate limits of the city of East Point.

Greene County. That area included within the corporate limits of the city of Greensboro.

Houston County. That area included within the lower Fifth Georgia Militia District, including all of the city of Warner Robins and all of Robins Air Force Base; an area 2 miles wide beginning north of Perry and bounded on the north by Mossy Creek and extending southward along U. S. Highway No. 41 with said highway as a centerline to and bounded on the south by Georgia State Highway 26, including all of the city of Perry; and an area 2 miles wide beginning north of Clinchfield and bounded on the north by Big Indian Creek and extending southwesterly along the Southern Railway with said railway as a centerline to and bounded on the south by Burnham Branch southwest of Grovania, including all of the communities of Clinchfield and Grovania.

Irwin County. That area included within a circle having a ½-mile radius and center at the intersection in Irwinville of Georgia State Highway 32 and the Jefferson Davis Memorial State Park Road; that area included within a circle having a 2-mile radius and center at the Irwin County Courthouse at Ocilla, including all of the city of Ocilla; an area 1 mile wide bounded on the south and east by the Irwin-Coffee County line and extending northwesterly along the Atlanta, Birmingham and Coast Railroad with said railroad as a centerline for a distance of 1¼ miles beyond the Atlanta, Birmingham and Coast Railroad depot in Wray; and an area 2 miles wide beginning at the Atlanta, Birmingham and Coast Railroad in Georgia Militia District No. 1661 and extending southeasterly along Georgia State Highway 32 with said highway as a centerline to the east boundary of said militia district.

Jasper County. That area included within Georgia Militia Districts numbers 262, 289, and 295; and that portion of Georgia Militia Districts numbers 288 and 291 lying south of Whiteoak and Murder Creeks.

Jefferson County. That area included within the corporate limits of the city of Louisville; and that area included within a circle having a 1-mile radius and center at the Central of Georgia Railway depot in Bartow, including all of the town of Bartow.

Johnson County. That area included within the corporate limits of the city of Wrightsville; and an area 1 mile wide beginning at the west corporate limits of Wrightsville and extending southwesterly along Georgia State Highway 15 with said highway as a center line to the Ohoopee River.

Laurens County. Those portions of the Georgia Militia Districts of Dublin, Dudley, and Harvard included within an area 2 miles wide beginning at the west corporate limits of Dublin and extending northwesterly along the Macon, Dublin and Savannah Railroad with said railroad as a center line to the Laurens-Wilkinson and Laurens-Bleckley County lines, including all of the towns of Dudley and Montrose and that portion of Allentown lying in Laurens County; that area included within the corporate limits of the city of Dublin; an area 2 miles wide beginning at the north corporate limits of Dublin and extending northward along Georgia State Highway 29 with said highway as a center line for a distance of 3 miles; and that portion of the Georgia Militia District of Smith lying north of the Macon, Dublin and Savannah Railroad and east of Shaddock Creek.

Macon County. That area lying east of Flint River including the cities of Marshallville and Montezuma; and that area included within the corporate limits of Oglethorpe.

Monroe County. That area included within the corporate limits of the city of Forsyth.

Montgomery County. That area bounded on the east by the Montgomery-Toombs County line, on the south by Rocky Creek, on the west by Georgia State Highway 29, and on the north by Swift Creek; and those areas included within the corporate limits of the city of Mount Vernon and the town of Alley.

Newton County. That area included within a circle having a 1-mile radius and center at the Porterdale High School, including all of the town of Porterdale.

Peach County. That area included within the Georgia Militia District of Fort Valley, including all of the city of Fort Valley; and that area included within the corporate limits of the town of Byron.

Putnam County. That area included within the Georgia Militia District of Ashbank.

Richmond County. That portion of the Georgia Militia District of Forest Hills bounded on the south by Raes Creek and Lake Olmsted and on the west by the Berkman Road and a line extended due north

from the point of intersection of the Berkman and Washington Roads.

Screven County. That area included within a circle having a 2-mile radius and center at the Screven County Courthouse in Sylvania, including all of the city of Sylvania.

Sumter County. That area included within the corporate limits of the city of Americus; and an area 1 mile wide beginning at the east corporate limits of Americus and extending along U. S. Highway No. 280 with said highway as a center line to Mill Creek.

Taylor County. That area included in the Georgia Militia District of Reynolds, including all of the town of Reynolds; and that area included within a circle having a 2½-mile radius and center at Taylor County Courthouse in Butler, including all of the town of Butler.

Toombs County. That area bounded on the east by the east boundaries of the Georgia Militia Districts of Vidalia and Center, on the south by Rocky Creek, on the west by the Toombs-Montgomery County line, and on the north by Swift Creek, including all of the city of Vidalia.

Treutlen County. That area included within the corporate limits of the city of Soperton; and an area 1 mile wide beginning at the south corporate limits of Soperton and extending southeasterly along Georgia State Highway 29 with said highway as a center line to the Treutlen-Montgomery County line.

Turner County. That area bounded on the east by a line parallel to and ½ mile east of the Sycamore town limits, on the south by a line parallel to and ½ mile south of the Sycamore town limits, on the west by a line parallel to and ½ mile west of the Sycamore town limits, on the north by a line parallel to and ½ mile north of the Sycamore town limits, and the projections of such lines to their intersections, including all of the town of Sycamore; and that part of the Georgia Militia District of Clements included within a circle having a ¾-mile radius and center at the Bethel School.

Twiggs County. That portion of the Georgia Militia District of Higgsville bounded on the east by the Twiggs-Wilkinson County line, on the south by the Twiggs-Bleckley County line, on the north by a line parallel to and 3½ miles north of the Twiggs-Bleckley County line, on the west by a line parallel to and 1 mile west of the Twiggs-Wilkinson County line, and the projections of such lines to their intersections, including all of those portions of the towns of Allentown and Danville lying in Twiggs County.

Washington County. That area included within a circle having a 5-mile radius and center at the Washington County Courthouse in Sandersville, including all of the city of Sandersville and the city of Tennille.

Wheeler County. That area included within land lots numbers 40, 41, 42, 43, 48, 49, 50, 51, 70, 71, 72, 73, 78, 79, 80, 81, 100, 101, 102, and 103, in the Eleventh Land District, including all of the town of Alamo.

Wilkinson County. That portion of the Georgia Militia District of Turkey Creek bounded on the west by the Wilkinson-Twiggs County line, on the south by the Wilkinson-Laurens County line, on the east by a line parallel to and 1¾ miles east of the Wilkinson-Twiggs County line, on the north by a line parallel to and 3½ miles north of the Wilkinson-Laurens County line, and the projections of such lines to their intersections, including all of those portions of the towns of Allentown and Danville lying in Wilkinson County.

LOUISIANA

East Baton Rouge Parish. T. 7 S., Rs. 1 and 2 E.

Jefferson Parish. That part lying north of the township line between Tps. 14 and 15 S.

Orleans Parish. All of Orleans Parish, including the city of New Orleans.

Plaquemines Parish. That part lying north of the township lines between Tps. 15 and 16 S.

Saint Bernard Parish. All of Saint Bernard Parish.

Saint Tammany Parish. Secs. 38, 39, and 40, T. 7 S., R. 11 E.; secs. 40 and 41, T. 8 S., R. 11 E.; and that area lying south of the north line of T. 10 N.

Tangipahoa Parish. Secs. 26, 27, 28, 33, 34, and 35, T. 6 S., R. 7 E.; secs. 2, 3, 4, 10, 11, 12, 13, 14, 15, 23, 24, 25, 26, 35, and 36, T. 6 S., R. 7 E.; secs. 19, 30, and 31, T. 6 S., R. 8 E., including all of the town of Hammond; secs. 32, 33, and 50, T. 3 S., R. 7 E.; and secs. 4, 5, 8, 9, 10, 50, and 54, T. 4 S., R. 7 E., including all of the town of Amite.

Washington Parish. All of Tps. 1, 2, 3, and 4 S., R. 14 E.; E½ Tps. 3 and 4 S., R. 13 E.; E½ Tps. 1 and 2 S., R. 13 E.; secs. 23, 24, 25, 34, 36, 44, 45, 46, 47, 48, 51, 52, 53, and 54, T. 2 S., R. 10 E.; secs. 3, 10, 14, 15, 39, 40, 41, 42, 43, 46, 48, 49, 50, and 51, T. 3 S., R. 10 E.; secs. 19, 20, 29, 30, 31, 32, 38, and 39, T. 2 S., R. 11 E.; secs. 5, 6, 7, 8, 17, 18, 19, 20, 29, 37, 38, 39, 40, 41, 43, 49, and 50, T. 3 S., R. 11 E.

MISSISSIPPI

Attala County. Secs. 7, 8, 9, 10, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, and 36, T. 14 N., R. 7 E.; secs. 19, 30, and 31, T. 14 N., R. 8 E.; sec. 6, T. 13 N., R. 8 E.; secs. 1 and 2, T. 13 N., R. 7 E.

Clarke County. Secs. 4, 5, 6, 7, 8, and 9, T. 2 N., R. 14 E.; secs. 4, 5, 8, and 9, T. 4 N., R. 15 E.; secs. 6, 7, and 18, T. 2 N., R. 16 E.; sec. 31, T. 3 N., R. 16 E.; secs. 34, 35, and 36, T. 3 N., R. 15 E.; secs. 1, 2, 3, 10, 11, 12, 13, 14, and 15, T. 2 N., R. 15 E.; W½ T. 1 N., R. 14 E.; and W½ T. 10 N., R. 9 W.

Copiah County. Secs. 32, 33, 34, 35, and 36, T. 1 N., R. 2 W.; secs. 1, 2, 3, 4, 5, 8, 9, 10, 11, 12, 13, 14, 15, 16, and 17, T. 10 N., R. 8 E.

Covington County. All of Covington County.

Forrest County. All of Forrest County.

George County. Secs. 27, 28, 29, 32, 33, 34, 35, and 36, T. 1 S., R. 6 W., including all of the town of Lucedale; N½ T. 2 S., R. 6 W., except secs. 6, 7, and 18; secs. 5, 6, 7, 8, 17, and 18, T. 2 S., R. 5 W.; and that part of secs. 31 and 32, T. 1 S., R. 5 W., lying south of Mississippi State Highway 15.

Greene County. Secs. 16, 17, 18, 19, 20, 21, 28, 29, 30, 31, 32, and 33, T. 2 N., R. 8 W.

Hancock County. All of Hancock County.

Harrison County. All of Harrison County.

Hinds County. Secs. 2, 3, 4, 9, 10, and 11, T. 7 N., R. 1 W.; E⅝ T. 6 N., R. 3 W.; W½ T. 6 N., R. 2 W.; and that area within the corporate limits of Jackson.

Jackson County. All of Jackson County.

Jasper County. T. 3 N., R. 10 E.; W⅔ T. 2 N., R. 10 E.; secs. 3, 4, 5, 6, 32, 33, and 34, T. 1 N., R. 10 E.; secs. 1, 2, and 3, T. 10 N., R. 13 W.; T. 1 N., R. 13 E.; that portion of T. 10 N., R. 9 W., and the E⅔ T. 10 N., R. 10 W., lying in Jasper County.

Jefferson Davis County. All of Jefferson Davis County.

Jones County. All of Jones County.

Lamar County. All of Lamar County.

Lauderdale County. Secs. 1, 12, 13, 14, 22, 23, 24, 26, 27, 34, and 35, T. 6 N., R. 15 E.; secs. 5, 6, 7, 8, 17, 18, 19, and 20, T. 6 N., R. 16 E.; sec. 31, T. 7 N., R. 16 E.; and sec. 36, T. 7 N., R. 15 E., including all of the town of Meridian

Lawrence County. That part lying east of Pearl River.

Leake County. Secs. 31 and 32, T. 11 N., R. 8 E.; secs. 34, 35, and 36, T. 11 N., R. 7 E.; W⅓ T. 10 N., R. 8 E.; and E½ T. 10 N., R. 7 E.; and T. 9 N., R. 8 E.

Lincoln County. T. 7 N., R. 8 E.; and E½ T. 7 N., R. 7 E.

Marion County. N½ T. 3 N., Rs. 17, 18, and 19 W.; T. 4 N., Rs. 17, 18, and 19 W.; T. 5 N., R. 17 W.; and all of T. 5 N., Rs. 18 and 19 W., in Marion County.

Pearl River County. All of Pearl River County.

Perry County. S⅔ T. 3 N., Rs. 9, 10, and 11 W.; T. 2 N. R. 9 W.; secs. 5 and 6, T. 4 N., R. 9 W.; secs. 1 and 2, T. 4 N., R. 10 W.; secs. 25, 26, 35, and 36, T. 5 N., R. 10 W.; secs. 29, 30, 31, and 32, T. 5 N., R. 9 W.

Pike County. Secs. 5, 6, 7, 8, 17, 18, 19, and 20, T. 3 N., R. 8 E.; secs. 31 and 32, T. 4 N., R. 8 E., and secs. 34, 35, and 36, T. 4 N., R. 7 E.

Rankin County. T. 3 N., Rs. 2 and 3 E.; T. 4 N., Rs. 1 and 2 E., Tps. 5 and 6 N., Rs. 1 and 2 E.

Scott County. W⅔ T. 8 N., R. 8 E.; and secs. 3, 4, 5, and 6, T. 7 N., R. 8 E.

Simpson County. Tps. 9 and 10 N., Rs. 17, 18, and 19 W.; T. 1 N., Rs. 4, 5, and 6 E.; T. 2 N., Rs. 3, 4, and 5 E.

Stone County. All of Stone County.

Walthall County. Secs. 23, 24, 25, 26, 35, and 36, T. 2 N., R. 10 E.; N½ T. 1 N., R. 11 E., N½ T. 1 N., R. 12 E.; S½ T. 2 N., R. 11 E.; S½ T. 2 N., R. 12 E.

Warren County. All that area lying within the corporate limits of the city of Vicksburg, and that area included within a boundary beginning at a point where Halls Ferry Road intersects the corporate limits of the city of Vicksburg, thence southeast along said road to the point of its intersection with the range line between Rs. 3 and 4 E., thence south along the range line to the SE. corner sec. 42, T. 15 N., R. 3 E., thence west along the section line to the Mississippi River, thence north along the east bank of the Mississippi River to said corporate limits, and thence along the south corporate limits to the point of beginning.

Wayne County. Secs. 19, 20, 29, 30, 31, and 32, T. 7 N., R. 5 W.; secs. 24, 25, and 36, T. 7 N., R. 6 W.; secs. 6, 7, and 18, T 8 N., R. 6 W.; secs. 1, 2, 11, 12, 13, and 14, T. 8 N., R. 7 W.

NORTH CAROLINA

Anson County. An area 2 miles wide beginning at the Anson-Union County line and extending easterly along the Seaboard Air Line Railroad with said railroad as a centerline to a due north-south line projected through the point of intersection of said railroad with the east corporate limits of Polkton, including all of the towns of Peachland and Polkton.

Brunswick County. All of Eagles Island.

Cumberland County. That area included within a circle having a 4½-mile radius and center at the Atlantic Coast Line Railroad depot in Hope Mills, including all of the town of Hope Mills and all of the communities of Cumberland and Roslin.

Duplin County. That area included within the corporate limits of the town of Warsaw; and an area 2 miles wide beginning at a line projected northeast and southwest along and beyond the north corporate limits of Warsaw and extending northwesterly along U. S. Highway No. 117 with said highway as a center line for a distance of 3 miles.

Edgecombe County. That portion of the city of Rocky Mount lying in Edgecombe County.

Harnett County. An area 4 miles wide bounded on the north by the Harnett-Wake County line and extending along U. S. Highway No. 15–A with said highway as a centerline for a distance of 5 miles.

Jones County. An area 2 miles wide beginning at a line projected due east and due west at the Atlantic Coast Line siding at Ravenswood, approximately 1½ miles south of the Atlantic Coast Line Railroad depot in Pollocksville, and extending southerly with said railroad as a centerline for a distance of 3 miles.

Nash County. That portion of the city of Rocky Mount lying in Nash County.

New Hanover County. That area included within the corporate limits of the city of Wilmington; all of Cape Fear Township; all that part of Harnett Township lying west of the Wrightsboro-Winter Park Road, including all of the town of Winter Park; and all that part of Masonboro Township lying north of the Sunset Park-Winter Park Road.

Onslow County. That area 3½ miles wide extending along U. S. Highway 17 with said highway as a centerline from Southwest Creek on the south to Starky Creek on the north, including all of the city of Jacksonville; and all of that portion of Onslow County included within the boundaries of the Camp Lejeune Marine Base.

Pender County. All of that portion of Pender County lying west of a line parallel to and 8 miles west of the Pender-Onslow County line.

Union County. An area 2 miles wide beginning at a line projected due north and due south from a point where the west corporate limits of Marshville intersect the Seaboard Air Line Railroad and extending easterly with said railroad as a centerline to the Union-Anson County line, including all of the town of Marshville.

Wake County. An area 4 miles wide bounded on the east by a line projected due north and due south for 2 miles on each side of the point of intersection of U. S. Highway No. 15–A and the Norfolk Southern Railway, approximately 1½ miles east of the Norfolk Southern Railway depot in Fuquay Springs, and extending westerly and southwesterly along U. S. Highway No. 15–A with said highway as a center line to the Wake-Harnett County line, including all of the town of Fuquay Springs.

Wayne County. All of Goldsboro Township, including all of the city of Goldsboro; an area 2 miles wide beginning at the west boundary of Goldsboro Township and extending northwesterly along U. S. Highway No. 70 with said highway as a center line to the Wayne-Johnston County line; an area 2 miles wide beginning at the north boundary of Goldsboro Township and extending northerly along the Atlantic Coast Line Railroad with said railroad as a center line to the Wayne-Wilson County line, including all of the towns of Pikeville and Fremont; and an area bounded on the north by the Atlantic and East Carolina Railway, on the west by Stony Creek, on the south by the Neuse River, and on the east by a line beginning at the junction of U. S. Highway No. 70 and North Carolina State Highway 111 and extended due north and due south to its intersections with the north and south boundaries, including all of Seymour Johnson Field.

SOUTH CAROLINA

Beaufort County. That area bounded on the east by Wimbee Creek and Bull River, on the south by Whale Branch and the Coosaw River, on the west by Haulover Creek, and on the north by an imaginary line parallel to and one-half mile north of the Seaboard Air Line Railroad between Wimbee and Haulover Creeks.

Fairfield County. That area included within a circle having a 2-mile radius and center at the intersection of South Carolina State Highways 22 and 227, approximately 5½ miles northwest of the city of Winnsboro.

TENNESSEE

Hamilton County. That area included within a circle having a ½-mile radius and center at the office of the Shell Oil Corporation bulk plant located on Jersey Pike Road.

Hardeman County. That area included within a circle having a 3-mile radius and center at the courthouse in Bolivar.

Shelby County. All of Shelby County.

Tipton County. That area within the corporate limits of the town of Mason and that area within a ½-mile radius on the east, north, and west, and to the Shelby County line on the south with the center at E. L. Reed homeplace.

These administrative instructions list the localities that are proposed for regulation under a revision of the white-fringed beetle notice of quarantine and supplemental regulations now being concurrently considered for issuance. The instructions would add to the regulated areas for the first time parts of Coffee and Dale counties, Alabama; and parts of Copiah, Hinds, Lincoln, Pike, Scott, and Walthall counties, Mississippi; and would increase the size of the regulated areas in Geneva, Houston, and Mobile counties, Alabama; Jackson county, Florida; Leake and Marion counties, Mississippi; and Shelby and Tipton counties, Tennessee. The instructions would also delete from the present regulated area 14 sections in Iberia Parish, Louisiana.

All persons who desire to submit written data, views, or arguments in connection with the matter should file the same with the Chief of the Plant Pest Control Branch, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 8, 9, 37 Stat. 318, as amended; 7 U. S. C. 161, 162; 7 CFR Supp. 301.72–2)

Done at Washington, D. C., this 17th day of August, 1956.

[SEAL] L. F. CURL,
Acting Chief,
Plant Pest Control Branch.

[F. R. Doc. 56–6817; Filed, Aug. 22, 1956; 8:51 a. m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 72–78]

[Docket 3666; Notice 27]

EXPLOSIVES AND OTHER DANGEROUS ARTICLES

NOTICE OF PROPOSED RULE MAKING

JULY 27, 1956.

The Commission is in receipt of applications for early amendment of the above-entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway. The proposed amendments are set forth below and the reasons therefor are listed in an Appendix hereto.

Application for these amendments ordinarily would be considered at our next hearing in this docket. It appears, however, that the proposed amendments have been the subject of exchanges and study by interested parties, in which substantial agreement has been reached. In view thereof no oral hearing is contemplated at this time.

Any party desiring to make representations in favor of or against the proposed amendments may do so through the submission of written data, views, or arguments. The original and five copies of such submission may be filed with the Commission on or before September 5, 1956. The proposed amendments are subject to change or changes that may be made as a result of such submissions.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection, and by filing a copy of the notice with the Director, Division of the Federal Register.

(62 Stat. 738, 18 U. S. C. 831–835; 49 Stat. 546, 52 Stat. 1237, 54 Stat. 921, 49 U. S. C. 304)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71–78 OF THIS CHAPTER

Amend § 72.5 *Commodity list* (15 F. R. 8264, 8265, 8266, 8267, 8268, 8269, 8271, 8272, 8273, Dec. 2, 1950) (18 F. R. 5270, Sept. 1, 1953) (21 F. R. 3008, 3025, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 72.5) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) • • •

Article	Classed as	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
(Change)				
Bromine pentafluoride	Cor. L	No exemption, 73.284	White	100 pounds.
Bromine trifluoride	Cor. L	No exemption, 73.283	do	Do.
Chlorine trifluoride	Cor. L	No exemption, 73.285	do	Do.
Dichlorodifluoromethane	Nonf. G	73.302, 73.306, 73.314, 73.315.	Green	300 pounds.
Highway fuses	Expl. C	No exemption, 73.100 (y), 73.108.		200 pounds.
Igniters, jet thrust (jato), class B explosives.	Expl. B	No exemption, 73.92	None	Do.
Igniters, jet thrust (jato), class A explosives.	Expl. A	No exemption, 73.79	do	Not accepted.
Matches, book, card, or strike-on-box	See § 73.176 (g).			
ØMethyl chloride	F. G.	73.302, 73.308, 73.314, 73.315.	Red Gas	300 pounds.
Railway fuses	Expl. C	No exemption, 73.100 (y), 73.108.		200 pounds.
Vinyl chloride, inhibited	F. G	73.302, 73.308, 73.314	Red Gas	300 pounds.
(Add)				
Argon, pressurized liquid	Nonf. G	No exemption, 73.308	Green	Do.
ØDichlorodifluoromethane - dichlorotetrafluoroethane mixture.	Nonf. G	73.302, 73.306, 73.314, 73.315.	do	Do.
ØDichlorodifluoromethane - monochlorodifluoromethane mixture.	Nonf. G	73.302, 73.306, 73.314	do	Do.
ØDichlorodifluoromethane-trichloromonofluoromethane - monochlorodifluoromethane mixture.	Nonf. G	73.302, 73.306, 73.314	do	Do.

Article	Classed as	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
(Add)				
Dichlorodifluoromethane-trichlorofluoroethane mixture.	Nonf. G	73.302, 73.306, 73.314	Green	300 pounds
Fusees. See Railway or highway fusees.				
Hand signal devices	Expl. C	No exemption, 73.100 (y), 73.108.		200 pounds.
(Under Initiating explosive)				
Lead mononitroresorcinate		No exemption, 73.70		
Lead mononitroresorcinate. See Initiating explosive.				
Methyl dichlorosilane	F. L	No exemption, 73.136	Red	10 gallons.
Nitrogen, pressurized liquid	Nonf. G	No exemption, 73.308	Green	300 pounds.
Oxygen, pressurized liquid	Nonf. G	No exemption, 73.308	do	Do.
Pyroforic fuel	F. L	No exemption, 73.134	Red	Not accepted.
Signal flares	Expl. C	No exemption, 73.100 (y), 73.108.		200 pounds.
Smoke candles	Expl. C	No exemption, 73.100 (y), 73.108.		Do.
Smoke pots	Expl. C	No exemption, 73.100 (y), 73.108.		Do.
Smoke signals	Expl. C	No exemption, 73.100 (y), 73.108.		Do.
Starter cartridges, jet engine, class B explosives.	Expl. B	No exemption, 73.92		Do.
Very signal cartridges	Expl. C	No exemption, 73.100(y), 73.108.		Do.
(Cancel)				
Flares, signal. See Common fireworks.				
Pressurized flammable liquid, n. o. s.	F. L	No exemption, 73.142	Red	10 gallons.
Signals, highway. See Common fireworks.				
Smoke candles. See Common fireworks.				
Smoke pots. See Common fireworks.				
Smoke signals. See Common fireworks.				
Very signal cartridge. See Special fireworks.				

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

1. In § 73.21 amend paragraph (b) (18 F. R. 801, 802, Feb. 7, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.21) to read as follows:

§ 73.21 *Prohibited packing.* • • •

(b) The offering for transportation of any package or container of any liquid, solid or gaseous material which under conditions incident to transportation may polymerize (combine or react with itself) or decompose so as to cause dangerous evolution of heat or gas is prohibited. Such materials may be offered for transportation when properly stabilized or inhibited. Refrigeration may be used as a means of stabilization only when approved by the Bureau of Explosives.

2. In § 73.25 amend paragraph (b) (18 F. R. 6776, Oct. 27, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.25) to read as follows:

§ 73.25 *Specification containers in outside containers.* • • •

(b) Outside specification shipping containers containing acids or other corrosive liquids, except nitric acid, perchloric acid, or hydrogen peroxide solution containing over 52 percent hydrogen peroxide by weight, may be shipped when tightly packed in strong outside fiberboard or wooden boxes, or in wooden crates, provided such outside container shall not contain any other article except under the following conditions:

(1) As provided in §§ 73.242, 73.257, 73.258, 73.259, 73.260, 73.261, and 73.286.

(2) Electrolyte acid or alkaline corrosive battery fluid in packages prescribed in §§ 73.257 and 73.258 may be included in outside shipping containers with dry charged storage batteries when packed to prevent movement within the outside containers.

(3) The outside container shall be marked with the prescribed name of contents and labeled as required and shall be marked "This Side Up" or "This End Up." The outside container must also be marked "Inside Packages Comply With Prescribed Specifications" unless the specification markings on the inside packages are visible through openings in the outside package.

3. In § 73.34 amend entire paragraph (f), and (h); amend paragraph (k) table, and paragraph (k) (11) (16 F. R. 9373, Sept. 15, 1951) (18 F. R. 5270, Sept. 1, 1953) (19 F. R. 3259, June 3, 1954) (15 F. R. 8283, Dec. 2, 1950) (19 F. R. 6267, Sept. 29, 1954) (19 F. R. 8524, Dec. 14, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.34) to read as follows:

§ 73.34 *Qualification, maintenance, and use of cylinders.* • • •

(f) *Safety relief devices.* Each cylinder charged with compressed gas, unless excepted in this paragraph, must be equipped with one or more safety relief devices approved, as to type, location, and quantity, by the Bureau of Explosives and must be capable of preventing explosion of the normally charged cylinder when it is placed in a fire. (Cylinders shall not be shipped with leaking safety relief devices. Safety relief devices must be tested for leaks before the charged cylinder is shipped from the cylinder filling plant; it is expressly forbidden to repair leaking fuse plug devices, where leak is through the fusible metal or between the fusible metal and the opening in the plug body, except by removal of the device and replacement of the fusible metal.) Exceptions are as follows:

(1) Except as provided in Notes 1, 2 and 3, safety relief devices are not required on cylinders 12" or less in length, exclusive of neck, and 4½" or less in outside diameter.

NOTE 1: Safety relief devices are required on specs. 9, 40, and 41 (§§ 78.63, 78.66, and 78.67 of this chapter) cylinders.

NOTE 2: Safety relief devices are required on cylinders charged with a liquefied gas for which this part requires a service pressure of 1,800 pounds per square inch or higher.

NOTE 3: Safety relief devices are required on cylinders charged with nonliquefied gases to a pressure of 1,800 pounds per square inch or higher at 70° F.

(2) Safety relief devices are not required on cylinders charged with nonliquefied gas under pressure of 300 pounds per square inch or less at 70° F.

(3) Safety relief devices are prohibited on cylinders charged with poisonous gas or liquid as defined in § 73.326 (a).

(4) Safety relief devices are prohibited on cylinders charged with fluorine.

(5) Safety relief devices are not required on cylinders charged with methyl mercaptan; mono, di, or trimethylamine, anhydrous; with not over 10 pounds of nitrosyl chloride; or with less than 165 pounds of anhydrous ammonia.

(6) Safety relief devices are not required on drums containing liquefied petroleum gas as provided for in § 73.312 (a).

• • • • • •

(h) Cylinders exposed to the action of fire. Cylinders which have been in a fire must not again be placed in service until they have been properly heat treated and retested as prescribed in paragraph (i) of this section: *Provided*, That cylinders made of plain carbon steel with not over 0.25 percent carbon need not be heat treated, and may be used after passing the pressure test prescribed. Acetylene cylinders, except those authorized in specification ICC–8, to be made of 4130X steel and those made to comply with specification 8AL, need not be treated or tested, provided porous filling is found to be unchanged and intact. The inner cylinders made under specification 4L may be used after again passing the original hydrostatic test.

• • • • • •

(k) • • •

Specification under which cylinders were made	Minimum retest pressure (pounds per square inch)
ICC–3	3,000 pounds.
ICC–3A; ICC–3AA; ICC–3D; ICC–4A; ICC–26 marked for filling at over 450 pounds.	5/3 times the service pressure. (See § 73.301 (g).)
ICC–3B; ICC–3BN; ICC–4AA480; ICC–4B; ICC–4BA; ICC–4D; ICC–4DA; ICC–26 marked for filling at 450 pounds and below.	2 times service pressure. (See § 73.301 (g).)
ICC–3C; ICC–3E; ICC–4C; ICC–4L; ICC–8; ICC–8AL	Quinquennial test not required.
ICC–7 when used as authorized in § 73.312 (a) (4)	300 pounds.
ICC–7 when not used under authority of § 73.312 (a) (4)	Quinquennial test not required.
ICC–4	700 pounds.
ICC–9	400 pounds.
ICC–25; ICC–38	500 pounds.
ICC–33	800 pounds.

• • • • •

(11) Cylinders made in compliance with specifications ICC–4B, ICC–4BA, and ICC–26–300,' (§§ 78.50 and 78.51 of this chapter), used exclusively for anhydrous dimethylamine, anhydrous monomethylamine, anhydrous trimethylamine, methyl chloride, or liquefied petroleum gas, or dichlorodifluoromethane, difluoroethane, difluoromonochoroethane, monochlorodifluoromethane, monochlorotetrafluoroethane, monochlorotrifluoroethylene or mixtures thereof or mixtures of one or more with trichloromonofluoromethane, commercially free from corroding components, and protected externally by suitable corrosion resisting coatings (such as galvanizing, painting, etc.) may be retested decennially (see Note 2) instead of quinquennially, or, such cylinders may be subjected to an internal hydrostatic pressure equal to at least 2 times the marked service pressure without determination of expansions (see Note 1), but this type of test must be repeated quinquennially after expiration of the first ten-year period (see Note 2). When subjected to this latter test cylinders must be carefully examined under the test pressure and removed from service if leaks or other harmful defects exist. All tests must be supplemented by a very careful examination of the cylinder at each filling, and the cylinder must be rejected if evidence is found of bad dents, corroded areas, a leak or other conditions that indicate possible weakness which would render the cylinder unfit for service.

(Notes 1 and 2 remain the same.)

SUBPART B—EXPLOSIVES; DEFINITIONS AND PREPARATION

1. In § 73.53 amend paragraphs (b), (c), (d), and (e) (19 F. R. 8525, Dec. 14, 1954) (15 F. R. 8285, Dec. 2, 1950) (49 CFR 1950 Rev., 1955 Supp., 73.53) to read as follows:

§ 73.53 *Definition of class A explosives.* • • •

(b) *Type 2.* Solid explosives which contain a liquid explosive ingredient, and which, when unconfined (See Note 3), can be detonated by means of a No. 8 test blasting cap (See Note 2); or which can be exploded in at least 50 percent of the trials in the Bureau of Explosives' Impact Apparatus (See Note 4) under a drop of 4 inches or more, but cannot be exploded in more than 50 percent of the trials under a drop of less than 4 inches. Example: High explosives, commercial dynamite containing a liquid explosive ingredient.

(c) *Type 3.* Solid explosives which contain no liquid explosive ingredient and which can be detonated, when unconfined (See Note 3), by means of a No. 8 test blasting cap (See Note 2); or which can be exploded in at least 50 percent of the trials in the Bureau of Explosives' Impact Apparatus (See Note 4) under a drop of 4 inches or more, but cannot be exploded in more than 50 percent of the trials under a drop of less than 4 inches. Example: High explosives, commercial dynamite containing no liquid explosive ingredient, trinitrotoluene, amatol, tetryl, picric acid, urea nitrate, pentolite, and commercial boosters.

(d) *Type 4.* Solid explosives which can be caused to detonate when unconfined (see Note 3), by contact with sparks or flame such as produced by safety fuse or an electric squib; or which can be exploded in the Bureau of Explosives' Impact Apparatus (see Note 4), in more than 50 percent of the trials under a drop of less than 4 inches. Example: Initiating and priming explosives, lead azide, fulminate of mercury, etc., and high explosives.

(e) *Type 5.* Desensitized liquid explosives are explosives which may be detonated separately or when absorbed in sterile absorbent cotton, by a No. 8 test blasting cap (see Note 2); but which cannot be exploded in the Bureau of Explosives' Impact Apparatus (see Note 4), by a drop of less than 10 inches. The desensitizer must not be significantly more voltatile than nitroglycerine and the desensitized explosive must not freeze at temperatures above minus 10° F. Example: High explosives, desensitized nitroglycerine.

2. In § 73.56 amend paragraph (f) (15 F. R. 8286, Dec. 2, 1950) (49 CFR 73.56, 1950 Rev.) to read as follows:

§ 73.56 *Ammunition, projectiles, grenades, bombs, mines, and torpedoes.* • • •

(f) Each exterior package or projectile, bomb, or mine must be plainly marked "Explosive Projectile," "Explosive Torpedo," "Explosive Mine," "Explosive Bomb," "Hand Grenades," or "Rifle Grenades," as the case may be, except that each device need not be so marked when palletized and the palletized units are plainly marked and shipped as carload or truckload shipments.

3. In § 73.60 add paragraph (b) (3) (15 F. R. 8287, Dec. 2, 1950) (49 CFR 73.60, 1950 Rev.) to read as follows:

§ 73.60 *Black powder and low explosives.* • • •

(b) • • •

(3) Spec. 17E (§ 78.116 of this chapter). Metal drums (single-trip), not over 5 gallons capacity each, without opening except bunghole not exceeding 2.3 inches in diameter. Authorized for carload or truckload shipments only.

4. In § 73.63 amend paragraph (c) (2) (20 F. R. 8099, Oct. 28, 1955) (49 CFR 1950 Rev., 1955 Supp., 73.63) to read as follows:

§ 73.63 *High explosive with liquid explosive ingredient.* • • •

(c) • • •

(2) Spec. 14, 15A, or 16A (§ 78.165, § 78.168, or § 78.185 of this chapter) wooden boxes, or spec. 12H, 23F, or 23H (§ 78.209, § 78.214, or § 78.219 of this chapter), fiberboard boxes, with inside containers which must be paraffined two-ply paper bags not exceeding 12½ pounds capacity, securely closed by folding the tops and securing the fold by tape, with not more than two such bags inserted into another two-ply paper bag which must be securely closed and dipped in paraffin after closing, or with not more than two inside containers which must be securely closed polyethylene bags not less than 0.004 inch in thickness of not more than 12½ pounds capacity each packed in a securely closed polyethylene or paper bag and packed in polyethylene lined outside fiberboard boxes. Gross weight of wooden boxes not to exceed 75 pounds and gross weight of fiberboard boxes not to exceed 65 pounds.

5. Amend entire § 73.70 (15 F. R. 8291, Dec. 2, 1950) (16 F. R. 11776, Nov. 21, 1951) (49 CFR 1950 Rev., 1955 Supp., 73.70) to read as follows:

§ 73.70 *Diazodinitrophenol or lead mononitroresorcinate.* (a) The offering of diazodinitrophenol or lead mononitroresorcinate in a dry condition for transportation by common carriers by rail freight, rail express, highway, or water is forbidden, except as a component of manufactured articles such as percussion caps, detonators, blasting caps, and exploders, the transportation of which is authorized in this part.

(b) Diazodinitrophenol or lead mononitroresorcinate must be packed wet with not less than 40 percent by weight of water in specification containers 5 or 5B (§ 78.80 or § 78.82 of this chapter) metal barrels or drums or 10B (§ 78.156 of this chapter) wooden barrels or kegs, with inside containers which must be bags made of at least 10-ounce cotton duck, rubber, or rubberized cloth, which must be securely closed. The dry weight of diazodinitrophenol in one container must not exceed 220 pounds and the dry weight of lead mononitroresorcinate in one container must not exceed 100 pounds. The bags containing diazodinitrophenol or lead mononitroresorcinate must be placed in a rubber bag, rubberized cloth bag, or bag made of suitable watertight material and then placed in the barrel, keg, or drum. Any empty space in the outside bag must be filled with water and this bag securely closed.

(c) Sufficient outage in outside container must be allowed to prevent rupturing of container in freezing weather, or a mixture of denatured alcohol and water may be used to prevent freezing in transit.

(d) Each barrel, box, drum, or keg must be plainly marked "Initiating Explosive—Dangerous—Do Not Store or Load With Any High Explosive."

(e) Diazodinitrophenol or lead mononitroresorcinate, wet, must not be offered for transportation by rail express, except as provided in §§ 73.86 and 75.675 of this chapter.

6. In § 73.88 amend the introductory text of paragraph (e); add paragraph (e) (2) (15 F. R. 8293, Dec. 2, 1950) (49 CFR 73.88, 1950 Rev.) to read as follows:

§ 73.88 *Definitions of class B explosives.* • • •

(e) Jet thrust units (jato), class B, are metal cylinders containing a mixture of chemicals capable of burning rapidly and producing considerable pressure. Jet thrust units are designed to be ignited by an electric igniter. They are used to assist aeroplanes to take off, to propel large missiles, and to drive moving targets for practice firing.

• • • • • •

(2) Starter cartridges, jet engine, consist of plastic cases, each containing a pressed cylindrical block of propellant explosive and having in the top of the case a small plastic compartment that encloses an electric squib, small amounts of black powder, and smokeless powder, which constitute an igniter. The starter cartridge is used to activate a mechanical starter for jet engines.

7. In § 73.91 amend paragraph (a) (3) (20 F. R. 4414, June 23, 1955) (49 CFR 1950 Rev., 1955 Supp. 73.91) to read as follows:

§ 73.91 *Special fireworks.* (a) • • •

(3) Spec. 12B (§ 78.205 of this chapter). Gross weight not to exceed 65 pounds except as provided in subparagraph (5) of this paragraph. Not permitted for illuminating projectiles, toy torpedoes, and aeroplane flares.

8. In § 73.92 amend paragraph (a) (3); add paragraph (a) (4) (21 F. R. 3009, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 73.92) to read as follows:

§ 73.92 *Jet thrust units (jato), class B, or igniters, jet thrust (jato), class B.* (a) • • •

(3) Spec. 23F (§ 78.214 of this chapter). Fiberboard boxes. Authorized for igniters, jet thrust (jato), class B, or starter cartridges, jet engine, class B, only, which must be packed in tightly closed inside fiberboard boxes, at least 200-pound test (Mullen or Cady), or metal containers. Starter cartridges, jet engine, must have igniter wires short-circuited when packed for shipment:

(4) Jet thrust units (jato), class B, may be packed in the same outside shipping container with separately packaged igniters, jet thrust, when the containers are approved by the Bureau of Explosives.

9. In § 73.100 amend the introductory text of paragraph (r); cancel paragraph (r) (12); add paragraph (y) (18 F. R. 3134, June 2, 1953) (15 F. R. 8296, Dec. 2, 1950) (49 CFR 1950 Rev., 1955 Supp., 73.100) to read as follows:

§ 73.100 *Definitions of Class C explosives.* • • •

(r) Common fireworks are fireworks devices suitable for use by the public and designed primarily to produce visible effects by combustion. Some small devices designed to produce audible effects are also included in this class. The types, sizes, and amount of pyrotechnic contents of these devices are limited as enumerated in this paragraph. No component, of any device listed in this paragraph, which is designed to produce an audible effect shall contain pyrotechnic composition in excess of 2 grains in weight. (Propelling or expelling charges consisting of a mixture of sulfur, charcoal, and saltpeter are not considered as designed to produce audible effects.) Any new device, not enumerated in this paragraph, must be approved by the Bureau of Explosives before being offered for transportation as Common Fireworks. Common fireworks must be in a finished state exclusive of mere ornamentation as supplied to the retail trade and must be so constructed and packed that loose pyrotechnic composition will not be present in packages in transportation. Fireworks, except articles defined in paragraphs (s) through (y), inclusive, of this section, other than common fireworks as defined in this paragraph, and those forbidden for transportation in § 73.51, are classed as Special Fireworks (see § 73.88 (d)).

• • • • • •

(12) [Canceled.]

• • • • • •

(y) Smoke candles, smoke pots, and smoke signals containing not more than 200 grams of pyrotechnic composition each, hand signal devices, Very signal cartridges, and highway or railway fusees are devices designed to produce visible effects for signal purposes.

10. In § 73.108 amend the introductory text of paragraph (a), and amend paragraph (d) (15 F. R. 8297, Dec. 2, 1950) (18 F. R. 5271, Sept. 1, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.108) to read as follows:

§ 73.108 *Common fireworks, signal flares, hand signal devices, railway or highway fuses, smoke signals, smoke candles, smoke pots, and Very signal cartridges.* (a) Common fireworks, signal flares, hand signal devices, railway or highway fusees, smoke signals, smoke candles, smoke pots, and Very signal cartridges, except as otherwise authorized, must be securely packed in containers complying with the following specifications:

• • • • • •

(d) Each outside package must be plainly marked in letters not less than 3/16 inch in height "Common Fireworks," "Signal Flares," "Hand Signal Devices," "Railway Fusees," "Highway Fusees," "Smoke Signals," "Smoke Candles," "Smoke Pots," or "Very Signal Cartridges," as the case may be, and with the additional words "Handle Carefully—Keep Fire Away."

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

1. Amend entire § 73.115 (21 F. R. 670, Jan. 31, 1956) (17 F. R. 7280, Aug. 9, 1952) (49 CFR 1950 Rev., 1955 Supp., 73.115) to read as follows:

§ 73.115 *Flammable liquids; definition.* (a) A flammable liquid for the purpose of Parts 71–78 of this chapter is any liquid which gives off flammable vapors (as determined by flash point from Tagliabue's open-cup tester, as used for test of burning oils) at or below a temperature of 80° F. and having vapor pressure not over 40 pounds per square inch absolute at 100° F.

(b) Flammable liquids are described as viscous flammable liquids (see § 73.119 (j)) when viscosity is determined by one of the following methods:

(1) The viscosity of the liquids must be determined in a Stormer viscosimeter with an actuating weight of 400 grams and with the liquid maintained at a temperature of 28° C. The cylinder of the viscosimeter must be immersed in the liquid.

(2) For transparent liquids the sample may be tested in a vertical glass tube, 1 inch inside diameter by approximately 13 inches long, having two marks 10 inches apart engraved thereon, the lower mark being 2 inches above the bottom of the tube; the liquid to be tested shall be poured into the tube until its surface rises one-half inch above the upper mark and must be maintained at a temperature of 28° C. during the test; a polished steel ball one-fourth inch in diameter shall be supported one-half inch above the surface of the liquid at the center of the tube and dropped therein.

(3) When the speed of the cylinder in the first test does not exceed 10 revolutions per 13 seconds, or the time required in the second test for the steel ball to fall the vertical distance between the two lines upon the glass tube is not less than 4 seconds the material is classed as "viscous."

2. In § 73.118 add paragraph (c) (35) and (36) (15 F. R. 8298, Dec. 2, 1950) (49 CFR 73.118, 1950 Rev.) to read as follows:

§ 73.118 *Exemptions for flammable liquids.* • • •

(c) • • •

(35) Methyl dichlorosilane.

(36) Pyroforic fuel.

3. In § 73.119 amend Note 1 to paragraph (f) (3); amend the introductory text of paragraph (j); cancel paragraphs (j) (1), (2), and (3) (15 F. R. 8299, 8300, Dec. 2, 1950) (49 CFR 73.119, 1950 Rev.) to read as follows:

§ 73.119 *Flammable liquids not specifically provided for.* • • •

(f) • • •

(3) • • •

NOTE 1: Tanks built in compliance with American Railway Association specifications for Class IV–A1 tank cars authorized for use effective October 1, 1925, may be continued in service for the transportation of ethyl chloride and other liquids which do not have a vapor pressure exceeding 28 pounds per square inch, gauge pressure, at 100° F., provided there is stenciled on each side of the tank immediately below the valve protecting housing the words "Liquids having vapor pressure exceeding 28 pounds per square inch at 100° F. must not be loaded into this tank" in letters and figures at least 1 inch high. These tank cars must be retested as prescribed in current spec. 105A100 (§ 78.270 of this chapter), except that safety valves must open at pressure not exceeding 35 pounds, and be vapor tight at 28 pounds per square inch.

(No change in Notes 2 and 3.)

• • • • • •

(j) *Viscous flammable liquids.* Flammable liquids having a viscosity as determined by one of the methods prescribed in § 73.115 (b) must be shipped in specification containers as prescribed in paragraph (k) or (l) of this section.

(1) [Canceled.]

(2) [Canceled.]

(3) [Canceled.]

4. In § 73.122 amend paragraph (a) (3) and Note 1 thereto (18 F. R. 3135, June 2, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.122) to read as follows:

§ 73.122 *Acrolein, inhibited.* (a) • • •

(3) Spec. 105A500–W (§ 78.288 of this chapter). Tank cars.

NOTE 1: Spec. 105A500–W (§ 78.288 of this chapter) tank cars stenciled 105A300–W (§ 78.286 of this chapter) because of safety valve settings may also be used.

5. Amend entire § 73.134 (21 F. R. 3009, May 5, 1956) (49 CFR 73.134, 1950 Rev.) to read as follows:

§ 73.134 *Aluminum triethyl, aluminum trimethyl, pyroforic fuel, or zinc ethyl.* (a) Aluminum triethyl, aluminum trimethyl, pyroforic fuel, or zinc ethyl must be shipped in cylinders as prescribed for any compressed gas, except acetylene, or in devices or apparatus of a type approved by the Bureau of Explosives.

(b) Aluminum triethyl, aluminum trimethyl, pyroforic fuel, or zinc ethyl must not be offered for transportation by rail express.

6. In § 73.135 add paragraph (a) (7), (8), and (9) (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.135, 1950 Rev.) to read as follows:

§ 73.135 *Dimethyl dichlorosilane, ethyl dichlorosilane, ethyl trichlorosilane, methyl trichlorosilane, trimethyl chlorosilane, and vinyl trichlorosilane.* (a) • • •

(7) Spec. 103 or 103W (§ 78.265 or § 78.280 of this chapter). Tank cars, without bottom discharge outlet.

(8) Spec. 105A100, 105A100–W or 105A300–W (§ 78.270, § 78.285 or § 78.286 of this chapter). Tank cars.

(9) Spec. MC300 or MC303 (§ 78.321 or § 78.324 of this chapter). Tank motor vehicles.

7. In § 73.136 amend the introductory text of paragraph (a); add paragraph (a) (6) and (7) (15 F. R. 8302, Dec. 2, 1950) (49 CFR 73.136, 1950 Rev.) to read as follows:

§ 73.136 *Methyl dichlorosilane and trichlorosilane.* (a) Methyl dichlorosilane and trichlorosilane must be packed in specification containers as follows:

• • • • • •

(6) Spec. 103 or 103W (§ 78.265 or § 78.280 of this chapter). Tank cars, without bottom discharge outlet.

(7) Spec. 105A100, 105A100–W or 105A300–W (§ 78.270, § 78.285 or § 78.286 of this chapter). Tank cars.

8. In § 73.141 amend paragraph (a) (7) (19 F. R. 8526, Dec. 14, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.141) to read as follows:

§ 73.141 *Amyl mercaptan, butyl mercaptan, ethyl mercaptan, isopropyl mercaptan, propyl mercaptan, and aliphatic mercaptan mixtures.* (a) • • •

(7) Spec. 105A300–W, 105A400–W, 105A500–W, or 105A600–W (§ 78.286, § 78.287, § 78.288, or § 78.289 of this chapter). Tank cars.

9. Cancel entire § 73.142 (17 F. R. 7281, Aug. 9, 1952) (21 F. R. 3009, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 73.142)

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. Amend entire § 73.158 (15 F. R. 8304, Dec. 2, 1950) (17 F. R. 7281, Aug. 9, 1952) (16 F. R. 11777, Nov. 21, 1951) (17 F. R. 4295, May 10, 1952) (18 F. R. 803, Feb. 7, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.158) to read as follows:

§ 73.158 *Benzoyl peroxide, dry, lauroyl peroxide, dry, chlorobenzoyl peroxide (para), dry, or succinic acid peroxide, dry.* (a) Benzoyl peroxide, dry, lauroyl peroxide, dry chlorobenzoyl peroxide (para), dry, or succinic acid peroxide, dry, may be shipped when packed in specification containers as follows:

(1) Spec. 15A or 15B (§ 78.168 or § 78.169 of this chapter). Wooden boxes, with inside fiber containers securely closed by taping or gluing, or inside securely closed paper bags lined with 0.002 inch thick polyethylene, not over 1 pound capacity each. Except for lauroyl peroxide, dry, each inside container must be surrounded by asbestos or fire-resistant cushioning material which will protect contents with equal efficiency. Net weight in outside container must not exceed 50 pounds, except that for lauroyl peroxide, dry, net weight not over 100 pounds is authorized.

(2) Spec. 21A or 21B (§ 78.222 or § 78.223 of this chapter). Fiber drums, net weight not over 100 pounds, authorized only for lauroyl peroxide, dry.

(3) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes, with inside fiber containers securely closed by taping or gluing, or inside securely closed paper bags lined with 0.002 inch thick polyethylene, not over 1 pound capacity each. Except for lauroyl peroxide, dry, each inside container must be surrounded by asbestos or fire-resistant cushioning material which will protect the contents with equal efficiency. Gross weight in spec. 12B65 (§ 78.205 of this chapter) boxes may be more than 65 but not more than 70 pounds provided net weight of contents does not exceed 50 pounds.

2. In § 73.202 amend paragraph (a) (1) (21 F. R. 671, Jan. 31, 1956) (49 CFR 73.202, 1950 Rev.) to read as follows:

§ 73.202 *Sodium and potassium, metallic liquid alloy.* (a) • • •

(1) Spec. 15A or 15B (§ 78.168 or § 78.169 of this chapter). Wooden boxes with inside metal containers of a type approved by the Bureau of Explosives cushioned with incombustible cushioning material. Each container must have been tested hydrostatically to a pressure of not less than 60 pounds per square inch. Closing devices must be protected from injury. Not more than 300 pounds of sodium or potassium liquid alloy may be shipped in one outside container.

3. In § 73.206 amend paragraph (c) (1) (16 F. R. 9374, Sept. 15, 1951) (49 CFR 1950 Rev., 1955 Supp., 73.206) to read as follows:

§ 73.206 *Sodium or potassium, metallic, sodium amide, sodium potassium alloys, lithium metal, lithium silicon, lithium hydride, and lithium aluminum hydride.* • • •

(c) • • •

(1) Spec. 105A300–W (§ 78.286 of this chapter), tank cars, having exterior heater coils fusion welded to tank shell and properly stress-relieved, the material to be in molten condition when loaded into the tank and allowed to solidify before car is offered to the carrier.

4. In § 73.218 amend paragraph (a) (1) (19 F. R. 8526, Dec. 14, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.218) to read as follows:

§ 73.218 *Isopropyl percarbonate, unstabilized.* (a) • • •

(1) Spec. 15A, 15B, 15C, 16A, or 19A (§ 78.168, § 78.169, § 78.170, § 78.185, or § 78.190 of this chapter). Wooden boxes, or other equally efficient container when approved by the Bureau of Explosives, with glass, metal, or earthenware inside containers of not over 2 gallons capacity each which must be maintained at a temperature below 0° F. Shipments are authorized for transportation by private or contract carrier by motor vehicle only.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. In § 73.242 amend paragraph (a) (15 F. R. 8313, Dec. 2, 1950) (49 CFR 73.242, 1950 Rev.) to read as follows:

§ 73.242 *Bottles containing acid or other corrosive liquids.* (a) Bottles containing acid or other corrosive liquids, as defined by § 73.240, must not be packed in the same outside container with any other article, except as specifically provided in paragraphs (b) and (c) of this section and § 73.25, § 73.257, § 73.258, § 73.259, § 73.260, § 73.261, or § 73.286.

2. In § 73.247 amend paragraph (a) (6) (19 F. R. 3260, June 3, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.247) to read as follows:

§ 73.247 *Acetyl chloride, antimony pentachloride, benzoyl chloride, benzyl chloride, chromyl chloride, pyro sulfuryl chloride, silicon chloride, sulfur chloride (mono and di), sulfuryl chloride, thionyl*

chloride, tin tetrachloride (anhydrous), and titanium tetrachloride. (a) • • •

(6) Spec. 103A, 103A–W, or 105A300–W (§ 78.266, § 78.281, or § 78.286 of this chapter) tank cars, except that for tin tetrachloride (anhydrous) spec. 105A300–W tank cars must be used. Benzyl chloride must be stabilized when loaded in unlined tanks.

3. In § 73.249 amend paragraph (b) (1) (18 F. R. 803, Feb. 7, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.249) to read as follows:

§ 73.249 *Alkaline corrosive liquids, n. o. s., alkaline caustic liquids, n. o. s., and alkaline battery fluids.* • • •

(b) • • •

(1) In containers as prescribed in § 73.249 (a) (8), (9), and (10).

4. In § 73.253 add paragraph (a) (5) (15 F. R. 8315, Dec. 2, 1950) (49 CFR 73.253, 1950 Rev.) to read as follows:

§ 73.253 *Chloracetyl chloride.* (a) • • •

(5) Spec. 5K (§ 78.88 of this chapter). Nickel drums.

5. In § 73.257 amend paragraph (a) (6) (21 F. R. 3026, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 73.257) to read as follows:

§ 73.257 *Electrolyte (acid) or corrosive battery fluid.* (a) • • •

(6) Spec. 12B or 12C (§§ 78.205 or 78.206 of this chapter). Fiberboard boxes with inside containers of polyethylene or other electrolyte acid resistant non-fragile materials having secure closures capable of withstanding conditions incident to transportation without leakage and unless containers are rigid or semi-rigid in nature they must be contained in other strong inside containers; minimum thickness of polyethylene or other materials shall be not less than 0.003 inch for any film sheet for multiwall containers or not less than 0.006 inch for single wall containers; not more than 12 such inside containers shall be packed in one outside box and the marking prescribed in § 73.401 (c) shall not be required. Inside containers shall be packed to prevent movement within the box. Dry storage batteries or battery charger device may be packed in the same outside box when adequately separated from other inside containers; gross weight of completed package shall not exceed 65 pounds. Complete package, closed as for shipment, with inside containers filled with liquid of same specific gravity as commodity to be shipped, must be capable of withstanding at least 2 drops from a height of 4 feet onto solid concrete without leakage from or rupture of inside containers.

6. In § 73.258 amend the introductory text of paragraph (a) (15 F. R. 8315, Dec. 2, 1950) (49 CFR 73.258, 1950 Rev.) to read as follows:

§ 73.258 *Electrolyte, acid, or alkaline corrosive battery fluid, packed with storage batteries.* (a) Electrolyte, acid, or alkaline corrosive battery fluid, packed with storage batteries, except as provided in § 73.257 (a) (6), must be packed in specification containers as follows:

• • • • •

7. In § 73.262 amend the introductory text of paragraph (a); add paragraph (b) (15 F. R. 8316, Dec. 2, 1950) (49 CFR 73.262, 1950 Rev.) to read as follows:

§ 73.262 *Hydrobromic acid.* (a) Hydrobromic acid not over 49 percent strength must be packed in specification containers as follows:

• • • • •

(b) Hydrobromic acid greater than 49 percent strength but not over 63 percent strength must be packed in specification containers as follows:

(1) Spec. 1F (§ 78.10 of this chapter). Polyethylene carboys in plywood drums.

8. In § 73.264 amend the introductory text of paragraph (a); cancel paragraph (a) (3), (4), (5), (6); add Note 5 to paragraph (a) (7); add Note 1 to paragraph (a) (8); cancel paragraph (a) (12); add Note 1 to paragraph (a) (14); amend paragraph (b) (2) (15 F. R. 8317, 8318, Dec. 2, 1950) (17 F. R. 1562, Feb. 20, 1952) (21 F. R. 4565, June 26, 1956) (18 F. R. 6779; Oct. 27, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.264) to read as follows:

§ 73.264 *Hydrofloric acid.* (a) Hydrofluric acid must be packed in specification containers as follows:

• • • • •

(3) [Canceled.]
(4) [Canceled.]
(5) [Canceled.]
(6) [Canceled.]
(7) • • •

NOTE: Hydrofluoric acid solutions and concentrations of 60 percent up to 65 percent, when shipped in unlined steel containers, must be inhibited so that the corrosive effect on steel must not be greater than that of hydrofluoric acid of 65 percent concentration.

(8) • • •

NOTE 1: Hydrofluoric acid solutions and concentrations of 60 percent up to 65 percent, when shipped in unlined metal tank cars, must be inhibited so that the corrosive effect on steel must not be greater than that of hydrofluoric acid of 65 percent concentration.

• • • • •

(12) [Canceled.]

• • • • •

(14) • • •

NOTE 1: Hydrofluoric acid solutions and concentrations of 60 percent up to 65 percent, when shipped in unlined tank motor vehicles, must be inhibited so that the corrosive effect on steel must not be greater than that of hydrofluoric acid of 65 percent concentration.

• • • • •

(b) • • •

(2) Spec. 105A300–W, 105,[1] 105A500–W, or ARA–V[1] (§ § 78.286 and 78.288 of this chapter) tank cars, equipped with special valves and appurtenances approved for this particular service. Filling density must not exceed 90 percent of the pounds water weight capacity of the tank.

• • • • •

9. In § 73.272 amend the introductory text of paragraph (i); amend paragraph (i) (6) (15 F. R. 8321, Dec. 2, 1950) (21 F. R. 672, Jan. 31, 1956) (49 CFR 73.272, 1950 Rev.) to read as follows:

§ 73.272 *Sulfuric acid.* • • •

(i) For sulfuric acid of concentrations not to exceed 51 percent (approximately 1.408 specific gravity (42° Baumé), unless otherwise provided:

• • • • •

(6) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Authorized for sulfuric acid concentrations not over 76 percent. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

10. In § 73.280 add paragraphs (a) (7) and (8) (15 F. R. 8322, Dec. 2, 1950) (49 CFR 73.280, 1950 Rev.) to read as follows:

§ 73.280 *Allyl trichlorosilane, amyl trichlorosilane, butyl trichlorosilane, cyclohexenyl trichlorosilane, cyclohexyl trichlorosilane, diethyl dichlorosilane, diphenyl dichlorosilane, dodecyl trichlorosilane, ethyl phenyl dichlorosilane, hexadecyl trichlorosilane, hexyl trichlorosilane, nonyl trichlorosilane, octadecyl trichlorosilane, octyl trichlorosilane, phenyl trichlorosilane, and propyl trichlorosilane.* (a) • • •

(7) Spec. 103, 103A, 105A 100, or 105A 100–W (§ 78.265, § 78.266, § 78.270, or § 78.285 of this chapter). Tank cars.

(8) Spec. MC310 or MC311 (§ 78.330 or § 78.331 of this chapter). Tank motor vehicles of steel or stainless steel construction.

11. In § 73.289 amend paragraph (a) (2) (21 F. R. 3011, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 73.289) to read as follows:

§ 73.289 *Formic acid and formic acid solutions.* (a) • • •

(2) Spec. 103C–W or 103E–W (§ 78.283 or § 78.298 of this chapter). Tank cars stenciled "For Formic Acid Only".

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

1. In § 73.302 amend the introductory text of paragraph (a); add paragraph (a) (9) (21 F. R. 3011, May 5, 1956) (15 F. R. 8325, Dec. 2, 1950) (49 CFR 1950 Rev., 1955 Supp., 73.302) to read as follows:

§ 73.302 *Exemptions for compressed gases.* (a) Compressed gases, except poisonous gases as defined by § 73.326(a), when in accordance with either subparagraphs (1), (2), (3), (4), (5), (6), (7), (8), or (9) of this paragraph, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

• • • • •

(9) Inside nonrefillable metal containers of a capacity not to exceed 31.83 cubic inches (17.6 fluid ounces) charged with a solution of nonpoisonous and nonflammable materials and nonliquefied compressed gases. Pressure in the container not to exceed 105 pounds per square inch absolute at 70° F. or 140 pounds per square inch absolute at 130° F. The metal container must be capable of withstanding without bursting a pressure of two times the pressure of the contents at 70° F. or one and one-half times the pressure of the contents at 130° F., whichever is greater.

2. In § 73.304 add paragraph (f) (15 F. R. 8325, Dec. 2, 1950) (49 CFR 73.304, 1950 Rev.) to read as follows:

§ 73.304 *Filling limits.* • • •

(f) The pressure in ICC–4L (§ 78.57 of this chapter) cylinders must be limited by a pressure controlling valve so sized and set as to limit the pressure to one and one-fourth times the marked service pressure. The liquid portion of the gas must not completely fill the cylinder. For ICC–4L (§ 78.57 of this chapter) cylinders insulated by a vacuum the pressure control valve must be set at least 15 pounds per square inch lower than one and one-fourth times the marked service pressure. The other paragraphs of this section do not apply to ICC–4L (§ 78.57 of this chapter) cylinders.

3. In § 73.306 amend the introductory text of paragraph (d) (19 F. R. 1279, Mar. 6, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.306) to read as follows:

§ 73.306 *Liquefied gases, except acetylene in solution.* • • •

(d) Mixtures containing compressed gas or gases which are nonpoisonous but which are flammable as determined by Bureau of Explosives' flammability test, as provided in § 73.300 (b) (2), (3), and (4), except that the material shall not have a flame flashback in the prescribed test, nor shall the flame be sustained at any degree of the valve opening; the above flashback and sustained flame restriction shall not apply provided the valve is protected by an overcap or other device approved by the Bureau of Explosives such as to prevent accidental discharge of the valve in transit; and the product, as tested in accordance with Bureau of Explosives' test procedure for flammability, shall not have a flash point under 20° F. and must be shipped in cylinders as prescribed in paragraph (a) of this section or in specification containers as follows:

4. In § 73.308 amend paragraph (a) table, and amend Note 1 thereto (19 F. R. 8527, Dec. 14, 1954) (16 F. R. 9376, Sept. 15, 1951) (49 CFR 1950 Rev., 1955 Supp., 73.308) as follows:

§ 73.308 *Compressed gases in cylinders.* (a) • • •

Kind of gas	Maximum permitted filling density (see Note 12) (percent)	Cylinders (see Note 11) marked as shown in this column must be used except as provided in Note 1 and § 73.31 (c) to (e)
(Add)		
Argon, pressurized liquid	115	ICC–4L250.
Oxygen, pressurized liquid	96	ICC–4L250.
Nitrogen, pressurized liquid	80	ICC–4L250.
(Change)		
Liquefied nonflammable gases, liquids other than those classified as flammable, corrosive, or poisonous, and mixtures of flammable gases with nitrogen, carbon dioxide, or air (see Note 10).	(5)	ICC–3AA300, ICC–3AA900, ICC–4BA300, ICC–4BA900, ICC–4D300, ICC–4DA300.

• • • • •

NOTE 1: Cylinders complying with spec. 3E (§ 78.42 of this chapter) are also authorized for all gases named in this table for which steel cylinders are authorized except where ICC–3A2000, 3AA2000, and 4L200 (§§ 78.36, 78.37 and 78.57 of this chapter) cylinders are specified.

5. In § 73.312 add paragraph (a) (7) (15 F. R. 8327, Dec. 2, 1950) (49 CFR 73.312, 1950 Rev.) to read as follows:

thereto (19 F. R. 8528, Dec. 14, 1954) (21 F. R. 673, Jan. 31, 1956) (21 F. R. 4565, June 26, 1956) (18 F. R. 3136, June 2, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.314) as follows:

§ 73.314 *Compressed gases in tank cars.* (a) • • •

Kind of gas	Maximum permitted filling density, Note 1	Required type of tank car, Note 2
(Add)		
Dichlorodifluoromethane-dichlorotetrafluoroethane mixture	110	ICC–106A500, 106A500X, 110A500W, Notes 12 and 19.
	125	ICC–105A300, 105A300W.
Dichlorodifluoromethane-trichlorotrifluoroethane mixture	110	ICC–106A500, 106A500X, 110A500W, Notes 12 and 19.
	125	ICC–105A300, 105A300W.
Dichlorodifluoromethane-monochlorodifluoromethane mixture	110	ICC–106A500, 106A500X, 110A500W, Notes 12 and 19.
	125	ICC–105A300, 105A300W.
Dichlorodifluoromethane-trichloromonofluoro-methane-monochlorodifluoromethane mixture.	110	ICC–106A500, 106A500X, 110A500W, Notes 12 and 19.
	125	ICC–105A300, 105A300W.
(Change)		
Dichlorodifluoromethane	119	ICC–106A500, 106A500X, 110A500W Notes 12 and 19.
	125	ICC–105A300, 105A300W.
Dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture).	Note 6	ICC–106A500, 106A500X, Note 12. ICC–105A300, 105A300W.
Dispersant gas, n. o. s.	Note 16	ICC–106A500, 106A500X, Notes 12 and 19.
		ICC–105A300, 105A300W.
Trifluorochloroethylene	115	ICC–105A300W, Note 19.
	115	ICC–106A500X, Note 19.
	120	ICC–105A300, 105A300W.
Refrigerant gas, n. o. s.	Note 16	ICC–105A500, 106A500X, Notes 12 and 19.
		ICC–110A500W, Note 19.
		ICC–105A300, 105A300W, Note 19.

• • • • •

NOTE 9: For tank cars of other than ICC–106A type (§ 78.275 or § 78.276 of this chapter), used for shipping liquefied hydrocarbon gas or liquefied petroleum gas, interior pipes of liquid and gas discharge valves must be equipped with check valves of approved design.

• • • • •

NOTE 12: Tanks complying with specification 106A500 or 106A500X (§ 78.275 of this chapter) containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., refrigerant gas, n. o. s., dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), dichlorodifluoromethane-monochlorotrifluoromethane mixture, trifluorochloroethylene, dichlorodifluoromethane-dichlorotetrafluoroethane mixture, dichlorodifluoromethane - trichloromonofluoromethane-monochlorodifluoromethane mixture; tanks complying with specification 110A500W (§ 78.293 of this chapter), containing dichlorodifluoromethane, monochlorodifluoromethane, dichlorodifluoromethane-monofluorotrichloromethane mixture, dichlorodifluoromethane - dichlorotetrafluoroethane mixture, dichlorodifluoromethane - trichloromonofluoromethane - monochlorodifluoromethane mixture, dichlorodifluoromethane-trichloromonofluoromethane - monochlorodifluoromethane mixture, dispersant gas, n. o. s., or refrigerant gas, n. o. s.; tanks complying with specification 106A800 or 106A800X (§ 78.276 of this chapter), containing hydrogen sulfide; or tanks complying with specification 106A800NCI (§ 78.295 of this chapter), containing nitrosyl chloride, may be transported on trucks or semi-trailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are

present for handling tanks where transfer in transit is necessary. See § 74.560 of this chapter, for rail freight motor vehicle shipments.

• • • • •

NOTE 19: Only dichlorodifluoromethane, dichlorodifluoromethane - difluoroethane mixture (constant boiling mixture), dichlorodifluoromethane-monofluorotrichloromethane mixture, dichlorodifluoromethane-dichlorotetrafluoroethane mixture, dichlorodifluoromethane - trichlorotrifluoroethane mixture, dichlorodifluoromethane - monochlorodifluoromethane mixture, dichlorodifluoromethane-trichloromonofluoromethane-monochlorodifluoromethane mixture, difluoroethane, difluoromonochloroethane, monochlorodifluoromethane, and monochlorotetrafluoroethane may be shipped as dispersant gas, n. o. s. or refrigerant gas, n. o. s. in accordance with provisions of table (a).

7. In § 73.315 amend paragraph (a) (1) table; amend paragraph (h) table; amend paragraph (i) (2) table (18 F. R. 6780, Oct. 27, 1953) (21 F. R. 3012, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 73.315) as follows:

§ 73.315 *Compressed gases in cargo tanks and portable tank containers.* (a) • • •

(1) • • •

Kind of gas	Maximum permitted filling density		Specification container required	
	Percent by weight (see Note 1)	Percent by volume (see par. (f) of this section)	Type (see Note 2)	Minimum design working pressure (psig)
(.1dd)				
Dichlorodifluoromethane-dichlorotetrafluoroethane mixture.	119	See Note 7	ICC-51, MC-330	150

• • • • • •

(h) • • •

Kind of gas	Permitted gauging device
(.1dd)	
Dichlorodifluoromethane-dichlorotetrafluoroethane mixture	None

• • • • • •

(1) • • •

(2) • • •

Kind of gas	Minimum start-to-discharge pressure (psig)
(.1dd)	
Dichlorodifluoromethane-dichlorotetrafluoroethane mixture	150

• • • • • •

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. In § 73.353 amend paragraph (a) (4) (15 F. R. 8335, Dec. 2, 1950) (49 CFR 73.353, 1950 Rev.) to read as follows:

§ 73.353 *Methyl bromide or mixtures of methyl bromide and ethylene dibromide, liquid.* (a) • • •

(4) Spec. 4D300 or 4DA500 (§ 78.53 or § 78.58 of this chapter). Metal spheres for aircraft use only, must be equipped with approved safety devices and must be packed in strong boxes or crates (see § 73.25).

2. In § 73.354 amend paragraph (a) (4) (20 F. R. 8103, Oct. 28, 1955) (49 CFR 1950 Rev., 1955 Supp., 73.354) to read as follows:

§ 73.354 *Motor fuel antiknock compound or tetraethyl lead.* (a) • • •

(4) Spec. 105A300–W (§ 78.286 of this chapter). Tank cars. Stenciled on both sides of the tank "For Motor Fuel Antiknock Compound Only". Tank cars not authorized for tetraethyl lead.

3. In § 73.357 amend paragraph (b) (1) (19 F. R. 8528, Dec. 14, 1954) (49 CFR 1950 Rev., 1955 Supp., 73.357) to read as follows:

§ 73.357 *Chlorpicrin and chlorpicrin mixtures containing no compressed gas or poisonous liquid, class A.* • • •

(b) • • •

(1) Spec. 3A, 3AA, 3B, 3C, 3D, 3E, 4A, 4B, 4BA, or 4C (§ 78.36, § 78.37, § 78.38, § 78.40, § 78.41, § 78.42, § 78.49, § 78.50, § 78.51, or § 78.52 of this chapter). Metal cylinders of not over 250 pounds water capacity (nominal). Valves or other closing devices must be protected, to prevent injury in transit, by screw-on metal caps or by packing the cylinders in strong boxes or crates. Cylinders closed by means of solid plugs may have the plugs protected by metal collars. Cylinders having a wall thickness of less than 0.08 inch must be packed in boxes or crates (see § 73.25).

SUBPART I—SHIPPING INSTRUCTIONS

1. In § 73.429 amend paragraph (b) (15 F. R. 8343, Dec. 2, 1950) (49 CFR 73.429, 1950 Rev.) to read as follows:

§ 73.429 *Receipts; rail express shipments.* • • •

(b) Each receipt must show the proper and definite name of commodity, as listed in § 72.5 of this chapter, and the color or kind of label applied to the package if any is required. Abbreviations must not be used.

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART A—LOADING, UNLOADING, PLACARDING AND HANDLING CARS; LOADING PACKAGES INTO CARS

1. In § 74.532 amend paragraph (c) (18 F. R. 6780, Oct. 27, 1953) (49 CFR 1950 Rev., 1955 Supp., 74.532) to read as follows:

§ 74.532 *Loading other dangerous articles.* • • •

(c) Packages protected by labels or exempted from labels by § 73.402 (c) must be so loaded that they cannot fall and in such manner that other packages cannot fall onto or slide against them. Packages bearing marking "This Side Up" or "This End Up" must be so loaded. Dangerous articles for which red, yellow, green, or white (acid, alkaline caustic liquid, or corrosive liquid) labels are prescribed herein must not be loaded in the same car with explosives named in §§ 73.53 to 73.87 of this chapter. (See loading and storage chart, § 74.538.) Packages protected by yellow labels must not be loaded in the same end of a car with packages protected by "Acid", "Alkaline Caustic Liquid", or "Corrosive Liquid" labels, except that shippers loading carload shipments may load such articles together when it is known that the mixture of contents would not cause a dangerous evolution of heat or gas.

SUBPART B—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

1. In § 74.538 paragraph (a) chart, amend item b and item 2 vertical and horizontal columns; amend footnote b to paragraph (a) chart (17 F. R. 1563, Feb. 20, 1952) (21 F. R. 3013, May 5, 1956) (17 F. R. 4296, May 10, 1952) (49 CFR 1950 Rev., 1955 Supp., 74.538) to read as follows:

§ 74.538 *Loading and storage chart of explosives and other dangerous articles.* (a) • • •

"b" High explosives or propellant explosives, class A.

• • • • •

"2" Propellant explosives, class B, jet thrust units (jato), class B, igniters, jet thrust (jato), class B, or starter cartridges, jet engines, class B.

• • • • •

[b] Unless loaded in opposite ends of car, acids or other corrosive liquids, white label, must not be loaded with yellow label articles. ammunition for cannon with or without projectiles, or propellant explosives, except that shippers loading carload shipments of white label and yellow label articles may load such articles together when it is known that the mixture of contents would not cause a dangerous evolution of heat or gas.

• • • • •

SUBPART C—PLACARDS ON CARS

1. In § 74.549 amend paragraphs (f) and (h) (15 F. R. 8351, Dec. 2, 1950) (18 F. R. 6780, Oct. 27, 1953) (49 CFR 1950 Rev., 1955 Supp., 74.549) to read as follows:

§ 74.549 *Application of placards.* • • •

(f) Placards as required by §§ 74.540, 74.541, and 74.542 must be securely applied to both sides and both ends of a container car on which a container or containers loaded with explosives, class A or B, or with dangerous articles requiring labels, are placed; or placards must be securely applied to both ends of such a car and to both sides of a container loaded with such articles. Car certificates required by § 74.525 must be securely applied to both sides of a container car on which a container or containers loaded with class A explosives are placed.

• • • • •

(h) Placards as required by §§ 74.540, 74.541, and 74.542 must be securely applied to both sides and both ends of car, or to both sides and both ends of truck body or trailer loaded on flat cars, containing explosives or other dangerous articles. Car certificates as required by § 74.525 must be securely applied to both sides of such cars.

SUBPART E—HANDLING BY CARRIERS BY RAIL FREIGHT

1. In § 74.584 amend the introductory text of paragraph (a) (16 F. R. 11781, Nov. 21, 1951) (49 CFR 1950 Rev., 1955 Supp., 74.584) to read as follows:

§ 74.584 *Waybills, switching orders, or other billing.* (a) The revenue waybill, astray waybill, switching order or any other billing issued in lieu thereof, prepared from the shipping order or other shipping paper, or shipping orders used as waybills, must describe the article by shipping name as prescribed in § 72.5 of this chapter, and must show the color or kind of label notations for less-than-carload shipments or placard notations for carload shipments of explosives and other dangerous articles and placard indorsement as follows:

• • • • •

Dichlorodifluoromethane	Green gas label	In cylinders not exceeding 12 x 51 inches, and with pressure not exceeding 300 pounds at 70° F.
Dichlorodifluoromethane-dichlorotetrafluoroethane mixture	Green gas label	
Dichlorodifluoromethane-trichlorotrifluoroethane mixture	Green gas label	
Dichlorodifluoromethane-monochlorodifluoromethane mixture.	Green gas label	
Dichlorodifluoromethane - trichloromonofluoromethane - monochlorodifluoromethane mixture.	Green gas label	
Hydrogen	Red gas label	
Oxygen	Green gas label	
Anhydrous ammonia	Green gas label	In cylinders not exceeding 4½ by 22 inches.
Chlorine	Green gas label	
Ethylene	Red gas label	
Liquefied carbon dioxide	Green gas label	
Liquefied petroleum	Red gas label	
Methyl chloride	Red gas label	
Nitrous oxide	Green gas label	
Oxygen	Green gas label	
Sulfur dioxide	Green gas label	

• • • • •

PART 75—CARRIERS BY RAIL EXPRESS

1. In § 75.654 amend paragraph (b) (15 F. R. 8359, Dec. 2, 1950) (49 CFR 75.654, 1950 Rev.) to read as follows:

§ 75.654 *Receipts.* • • •

(b) Each receipt must show the proper and definite name of commodity, as listed in § 72.5 of this chapter, and the color or kind of label applied to the package if any is required. Abbreviations must not be used.

2. In § 75.657 amend paragraph (a) (17 F. R. 1563, Feb. 20, 1952) (49 CFR 75.657, 1950 Rev.) to read as follows:

§ 75.657 *Waybills.* (a) The waybill or delivery sheet when used as a waybill, or other billing issued in lieu thereof, and the transfer sheet, or interchange record used for transferring such shipments to a connecting carrier, must properly describe the articles by name as shown in § 72.5 of this chapter, and show color or kind of label applied. Abbreviations must not be used.

PART 76—RAIL CARRIERS IN BAGGAGE SERVICE

1. In § 76.703 amend the introductory text of paragraph (b) (15 F. R. 8360, Dec. 2, 1950) (49 CFR 76.703, 1950 Rev.) to read as follows:

§ 76.703 *Acceptable articles.* • • •

(b) Compressed gases:

• • • • •

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART A—GENERAL INFORMATION AND REGULATIONS

1. In § 77.814 paragraph (a), amend the 3d line of the report form now reading, "Bureau of Service" to read as follows: "Bureau of Safety and Service" (15 F. R. 8362, Dec. 2, 1950) (49 CFR 77.814, 1950 Rev.)

2. In § 77.818 amend paragraph (b) (15 F. R. 8363, Dec. 2, 1950) (49 CFR 77.818, 1950 Rev.) to read as follows:

§ 77.818 *Receipts.* • • •

(b) Each receipt must show the proper and definite name of commodity, as listed in § 72.5 of this chapter, and the color or kind of label applied to the package if any is required. Abbreviations must not be used.

SUBPART B—LOADING AND UNLOADING

1. In § 77.840 amend paragraph (c), (18 F. R. 3139, June 2, 1953) (49 CFR 1950 Rev., 1955 Supp., 77.840) to read as follows:

§ 77.840 *Compressed gases.* • • •

(c) Tanks complying with specification 106A500 or 106A500X (§ 78.275 of this chapter) containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., refrigerant gas, n. o. s., dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), dichlorodifluoromethane-monofluorotrichloromethane mixture, trifluorochloroethylene, dichlorodifluoromethane-dichlorotetrafluoroethane mixture, dichlorodifluoromethane-trichlorotrifluoroethane mixture, dichlorodifluoromethane-monochlorodifluoromethane mixture, or dichlorodifluoromethane - trichloromonofluoromethane - monochlorodifluoromethane mixture; tanks complying with specification 110A500W (§ 78.293 of this chapter), containing dichlorodifluoromethane, monochlorodifluoromethane, dichlorodifluoromethane-monofluorotrichloromethane mixture, dichlorodifluoromethane - dichlorotetrafluoroethane mixture, dichlorodifluoromethane-trichlorotrifluoroethane mixture, dichlorodifluoromethane - monochlorodifluoromethane mixture, dichlorodifluoromethane - trichloromonofluoroethane - monochlorodifluoromethane mixture, dispersant gas, n.o.s., or refrigerant gas, n.o.s.; tanks complying with specification 106A800 or 106A800X (§ 78.276 of this chapter), containing hydrogen sulfide; or tanks complying with specification 106A800NCI (§ 78.295 of this chapter), containing nitrosyl chloride, may be transported on trucks or semi-trailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 (b) (1) of this chapter.

2. In § 77.848 paragraph (a) chart, amend item b and item 2 vertical and horizontal columns; amend footnote b to paragraph (a) chart (17 F. R. 1564, Feb. 20, 1952) (21 F. R. 3013, May 5, 1956) (49 CFR 1950 Rev., 1955 Supp., 77.848) to read as follows:

§ 77.848 *Loading and storage chart of explosives and other dangerous articles.* (a) • • •

"b" High explosives or propellant explosives, class A.

• • • • •

"2" Propellant explosives, class B, jet thrust units (jato), class B, igniters, jet thrust (jato), class B, or starter cartridges, jet engines, class B.

• • • • •

[b] Acid or other corrosive liquids, white label, must not be loaded above or adjacent to flammable solids or oxidizing materials, yellow label, ammunition for cannon with or without projectiles, or propellant explosive, except that shippers loading truckload shipments of white label and yellow label packages may load such articles together when it is known that the mixture of contents would not cause a dangerous evolution of heat or gas.

• • • • •

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART C—SPECIFICATIONS FOR CYLINDERS

1. In § 78.50–14 amend entire paragraph (d) (15 F. R. 8404, Dec. 2, 1950) (49 CFR 78.50–14, 1950 Rev.) to read as follows:

§ 78.50 *Specification 4B; welded and brazed steel cylinders.*

§ 78.50–14 *Hydrostatic test.* • • •

(d) Cylinders must be tested as follows:

(1) At least one cylinder selected at random out of each lot of 200 or less shall be tested as outlined in paragraphs (a), (b), and (c) of this section to at least two times service pressure.

(2) All cylinders not tested as outlined in subparagraph (1) of this paragraph must be examined under pressure of at least two times service pressure and show no defect.

2. In § 78.51–14 amend entire paragraph (d) (15 F. R. 8406, Dec. 2, 1950)

(49 CFR 78.51–14, 1950 Rev.) to read as follows:

§ 78.51 *Specification 4BA; welded or brazed steel cylinders made of definitely prescribed steels.*

§ 78.51–14 *Hydrostatic test.* • • •

(d) Cylinders must be tested as follows:

(1) At least one cylinder selected at random out of each lot of 200 or less shall be tested as outlined in paragraphs (a), (b), and (c) of this section to at least two times service pressure.

(2) All cylinders not tested as outlined in subparagraph (1) of this paragraph must be examined under pressure of at least two times service pressure and show no defect.

3. Add § 78.57 (15 F. R. 8419, Dec. 2, 1950) (49 CFR 78.57, 1950 Rev.) to read as follows:

§ 78.57 *Specification 4L; welded cylinders insulated.*

§ 78.57–1 *Compliance.* (a) Required in all details.

§ 78.57–2 *Type, size, service pressure*[1] *and service temperature.*[2] (a) *Type and size.* Must be fusion welded; not over 1,000 pounds water capacity (nominal).

(b) The service pressure shall be at least 150 and not over 500 pounds per square inch.

(c) The service temperature shall be minus 320° F.

§ 78.57–3 *Inspection by whom and where.* (a) By competent inspector; chemical analyses and tests, as specified, to be made within limits of the United States. Interested inspectors are authorized.

§ 78.57–4 *Duties of inspector.* (a) Inspect all material and reject any not complying with requirements of this specification.

(b) Verify chemical analysis of each heat of material by analysis or by obtaining certified analysis: *Provided,* That a certificate from the manufacturer thereof, giving sufficient data to indicate compliance with requirements, is acceptable when verified by check analyses of samples taken from one cylinder out of each lot of 200 or less.

(c) Verify compliance with all specification requirements. Obtain samples for all tests. Obtain samples for check chemical analyses, where required. Witness all tests. Report volumetric capacity, tare weight (see report form), and minimum thickness of wall noted.

(d) Render complete report (§ 78.57–22) to purchaser, cylinder maker, and the Bureau of Explosives.

§ 78.57–5 *Material.* (a) Designations and limiting chemical compositions of steel authorized by this specification shall be as shown in § 78.57–21 (a), Table I.

§ 78.57–6 *Identification of material.* (a) Required; by any suitable method.

§ 78.57–7 *Defects.* (a) Material with seams, cracks, laminations, or other injurious defects, not authorized.

§ 78.57–8 *Manufacture.* (a) By best appliances and methods; dirt and scale to be removed as necessary to afford proper inspection; no defect acceptable that is likely to weaken the finished cylinder appreciably; reasonably smooth and uniform surface finish required. The shell portion must be a reasonably true cylinder.

(b) The heads must be seamless, concave side to the pressure, hemispherical or ellipsoidal in shape with the major diameter not more than twice the minor diameter. Minimum thickness of heads shall be not less than 90 percent of the required thickness of the sidewall. The heads must be reasonably true to shape, shall have no abrupt shape changes and the skirts must be reasonably true to round.

(c) The surface of the cylinder must be insulated. Any insulating material must be fire resistant. The insulation must be covered with a steel jacket of not less than 0.060 inch thickness so constructed that moisture cannot come in contact with the insulating material. The construction must be such that the total heat transfer from the atmosphere at ambient temperature to the contents of the cylinder shall not exceed 0.0005 B. t. u. per hour per degree F differential in temperature per pound of water capacity of the cylinder.

§ 78.57–9 *Welding.* (a) All seams of the cylinder must be fusion welded. Means must be provided for accomplishing complete penetration of the joint. Only butt or joggle butt joints for the cylinder seams are authorized. All joints in the cylinder must be in reasonably true alignment.

(b) All attachments to the sidewalls and heads of the cylinder must be by fusion welding and must be of a weldable material complying with the impact requirements of § 78.57–17 (d).

(c) For welding the cylinder, procedure and operators must be qualified in accordance with the sections that apply in the Compressed Gas Association's "Standards for Welding and Brazing on Thin Walled Containers" (CGA Pamphlet C–3–1954).[3]

(d) Brazing, soldering and threading are permitted only for joints not made directly to the cylinder body. Threads must comply with § 78.57–12.

§ 78.57–10 *Wall thickness.* (a) The minimum wall thickness of the cylinder shall be such that the calculated wall stress at minimum required test pressure shall not exceed the least value of the following:

(1) 45,000 pounds per square inch.

(2) One-half of the minimum tensile strength across the welded seam determined as required in § 78.57–17 (a).

(3) One-half of the minimum tensile strength of the base metal determined as required in § 78.57–15.

(4) The yield strength of the base metal determined as required in § 78.57–15.

(5) Further provided that wall for cylinders having longitudinal seams must not exceed 85 percent of the above value, whichever applies.

(b) Calculation must be made by the formula:

$$S=\frac{P(1.3D^2+0.4d^2)}{D^2-d^2}$$

where:

S = wall stress in pounds per square inch;
P = minimum test pressure prescribed for hydrostatic test;
D = outside diameter in inches;
d = inside diameter in inches.

§ 78.57–11 *Heat treatment*—(a) *Permissible.* If heat treatment is used each cylinder must be uniformly and properly heat treated as required in § 78.57–21 (a), Table I, after all forming and prior to test.

§ 78.57–12 *Openings in cylinder.* (a) Openings permitted in heads only. They must be circular and shall not exceed 3 inches diameter or ⅓ of the cylinder diameter, whichever is the smaller. Each opening in the cylinder must be provided with a fitting, boss or pad securely attached to the cylinder body by fusion welding. Attachments to a fitting, boss or pad may be made by welding, brazing, soldering or threading. Threads must comply with following:

(1) Threads must be clean cut, even, without checks and cut to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads must have at least 4 engaged threads and have tight fit and calculated shear strength at least 10 times the test pressure of the cylinder; gaskets required, inert to the commodity and adequate to prevent leakage.

§ 78.57–13 *Safety devices and pressure control valves.* (a) Must be as required by Interstate Commerce Commission Regulations that apply (§§ 73.34 (f), and 73.304 (f) of this chapter).

§ 78.57–14 *Hydrostatic test.* (a) Each cylinder before insulating and jacketing must be examined under a pressure of at least 2 times the service pressure, maintained for at least 30 seconds without evidence of leakage, visible distortion or other defect. Pressure gauge must permit reading to accuracy of 1 percent.

§ 78.57–15 *Physical test.* (a) Determine yield strength, tensile strength, and elongation on 2 specimens selected from material of each heat and in the same condition as that in the completed cylinder.

(b) Specimens must be: Gauge length 8 inches with width not over 1½ inches; or, gauge length 2 inches with width not over 1½ inches; or, gauge length at least 24 times thickness with width not over 6 times thickness (authorized when cylinder wall is not over 3/16 inch thick). The specimen, exclusive of grip ends, must not be flattened. Grip ends may be flattened to within one inch of each end of the reduced section. When size of cylinder does not permit securing straight specimens, the specimens may be taken in any location or direction and may be straightened or flattened cold, by pressure only, not by blows; when specimens are so taken and prepared, the inspector's report must show in connection with record of physical tests detailed information in regard to such specimens. Heating of specimen for any purpose is not authorized.

(c) The yield strength in tension shall be the stress corresponding to a permanent strain of 0.2 percent of the gauge length.

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

(2) In using the "extension under load" method, the total strain (or "extension under load"), corresponding to the stress at which the 0.2 percent permanent strain occurs may be determined with sufficient accuracy by calculating the elastic expansion of the gauge length under appropriate load and adding thereto 0.2 percent of the gauge length. Elastic extension calculations shall be based on the elastic modulus of the material used. In the event of controversy, the entire stress-strain diagram shall be plotted and the yield strength determined from the 0.2 percent offset.

(3) For the purpose of strain measurement, the initial strain reference shall be set while the specimen is under a stress of 12,000 pounds per square inch, the strain indicator reading being set at the calculated corresponding strain.

(4) Cross-head speed of the testing machine shall not exceed 1/8 inch per minute during yield strength determination.

§ 78.57–16 *Acceptable results for physical tests.* (a) Physical properties must meet the limits specified in § 78.57–21 (a), Table I, for the particular steel in the annealed condition. If heat treatment is not used, the specimens must show at least 20 percent elongation for 2-inch gauge length except that the percentage may be reduced numerically by 2 for each 75,000 pounds per square inch increment of tensile strength above 100,000 pounds per square inch to a maximum of 5 such increments. Yield strength and tensile strength must meet the requirements of § 78.57–21 (a), Table I.

§ 78.57–17 *Tests of welds*—(a) *Tensile test.* A specimen shall be cut from one cylinder of each lot of 200 or less, or welded test plate.[4] The specimen shall be taken across the major seam and shall be prepared and tested in accordance with and must meet the requirements of the Compressed Gas Association's "Standards for Welding and Brazing on Thin Walled Containers" (CGA Pamphlet C–3–1954). Should this specimen fail to meet the requirements, specimens may be taken from two additional cylinders or welded test plates from the same lot and tested. If either of the latter specimens fails to meet the requirements, the entire lot represented shall be rejected.

(b) *Guided bend test.* A "root" bend test specimen shall be cut from the cylinder or welded test plate, used for the tensile test specified in paragraph (a) of this section. Specimens shall be taken across the major seam and shall be prepared and tested in accordance with and shall meet the requirements of the Compressed Gas Association's "Standards for Welding and Brazing on Thin Walled Containers" (CGA Pamphlet C–3–1954). Should this specimen fail to meet the requirements, specimens may be taken from two additional cylinders or welded test plates from the same lot and tested. If either of the latter specimens fails to meet the requirements, the entire lot represented shall be rejected.

(c) *Alternate guided-bend test.* This test may be used and shall be as required by Compressed Gas Association's "Standards for Welding and Brazing on Thin Walled Containers" (CGA Pamphlet C–3–1954). The specimen shall be bent until the elongation at the outer surface, adjacent to the root of the weld, between the lightly scribed gage lines—a to b, shall be at least 20 percent, except that this percentage may be reduced for steels having a tensile strength in excess of 100,000 pounds per square inch, as provided in § 78.57–16 (a).

(d) *Impact tests.* Two sets of three Charpy impact specimens shall be cut from each cylinder or welded test plate used for the tensile test specified in paragraph (a) of this section. These two sets of specimens shall be used for determining the impact properties of the weld metal and heat affected area. One set of impact specimens shall be taken across the weld with the notch in the weld metal and one set shall be similarly taken with the notch in the adjacent metal in the heat-affected zone.

(1) The impact test specimens shall be of the Charpy type, keyhole or milled U-notch, and shall conform in all respects to Figure 3 in ASTM E–23–47T. The standard 10 mm x 10 mm specimen shall be used where the cylinder thickness is 7/16 inch or greater, and for thinner material, a similar specimen shall be used except that the dimension along the axis of the notch shall be reduced to the largest possible of 7.5 mm, 5 mm, or 2.5 mm. When the material in the cylinder is not of sufficient thickness to permit preparation of specimens to the smallest size provided for, specimens shall be prepared from the welded test plate.

(2) Impact test specimens shall be cooled in liquid nitrogen (−320° F.). The apparatus for testing the specimens must conform to the requirements of ASTM Standard E–23–47T. The test piece, as well as the handling tongs, shall be cooled for a length of time sufficient to reach the temperature of liquid nitrogen. The temperature of the cooling device shall be maintained within a range of plus or minus 3° F. The specimen shall be quickly transferred from the cooling device to the anvil of the testing machine and broken within a time lapse of not more than six seconds.

(3) The impact properties of each set of impact specimens shall be not less than the values in the following table:

Size of specimen	Minimum impact value required for average of each set of three specimens (ft-lb)	Minimum impact value permitted on one specimen only of a set of three (ft-lb)
10 mm x 10 mm	15	10
10 mm x 7.5 mm	12.5	8.5
10 mm x 5 mm	10	7.0
10 mm x 2.5 mm	5	3.5

(4) When the average value of the three specimens equals or exceeds the minimum value permitted for a single specimen and the value for more than one specimen is below the required average value, or when the value for one specimen is below the minimum value permitted for a single specimen, a retest of three additional specimens shall be made. The value of each of these retest specimens shall equal or exceed the required average value. When an erratic result is caused by a defective specimen, or there is uncertainty in test procedure, a retest is authorized.

§ 78.57–18 *Radiographic examination.* (a) The techniques and acceptability of radiographic inspection shall conform to the standards set forth in the Compressed Gas Association's "Standards for Welding and Brazing on Thin Walled Containers" (CGA Pamphlet C–3–1954).

(b) Cylinders must be examined as follows:

(1) One finished longitudinal seam shall be selected at random from each lot of 100 or less successively produced and be radiographed throughout its entire length. Should the radiographic examination fail to meet the requirements of paragraph (a) of this section, two additional seams of the same lot shall be examined, and if either of these fail to meet the requirements, each cylinder may be examined as outlined above; only those passing are acceptable.

§ 78.57–19 *Rejected cylinders.* Welds may be repaired by suitable methods of fusion welding; reheat treatment authorized; subsequent thereto, acceptable cylinders must pass all prescribed tests.

§ 78.57–20 *Marking.* (a) Marking required by stamping plainly and permanently on shoulder or top head of jacket or on a permanently attached plate or head protective ring as follows:

(1) ICC–4L followed by the service pressure (for example, ICC–4L200).

(2) Serial number and identifying symbol; location of number to be just below the ICC mark; location of symbol to be just below the number. The symbol and numbers must be those of the purchaser, user, or maker. The symbol must be registered with the Bureau of Explosives; duplications not authorized.

Example:

ICC–4L200
1234
XY

(3) Inspector's official mark, date of test (such as 10–55 for October 1955), near serial number.

[1] The service pressure limits the use of the cylinder. It is shown by marks on the cylinder; for example: ICC–4L200 indicates the service pressure as 200 pounds per square inch.

[2] The service temperature is the lowest temperature at which the cylinder may be used.

[3] Available from the Compressed Gas Association, Inc, 11 West 42d Street, New York 36, N. Y.

[4] The welded test plate shall be of one of the heats in the lot of 200 or less which it represents, in the same condition and approximately the same thickness as the cylinder wall except that in no case shall it be of lesser thickness than that required for a one-quarter size Charpy impact specimen. The weld must be made by the same procedure and subjected to the same heat treatment as the major weld on the cylinder.

(4) Size of markings at least ¼ inch high if space permits.

(b) Except for serial number, all markings prescribed in paragraph (a) of this section must be duplicated on each cylinder by any suitable means.

§ 78.57–21 *Authorized steels.* (a) Electric furnace steel of uniform quality. The following chemical analyses and physical properties are authorized.

TABLE I—AUTHORIZED MATERIALS

Designation	Chemical analysis, limits in percent; stainless steel; type 304 [1]
Carbon [2] (maximum)	0.08
Manganese (maximum)	2.50
Phosphorus (maximum)	0.035
Sulphur (maximum)	0.030
Silicon (maximum)	0.85
Nickel (minimum)	8.00
Chromium (minimum)	18.00
Molybdenum	-----
Titanium	-----
Columbium	-----
Physical properties (annealed)	
Tensile strength, p. s. i. (minimum)	75,000
Yield strength, p. s. i. (minimum)	30,000
Elongation in 2-inch (minimum) (percent)	30.0
Elongation other permissible gage lengths (percent)	15.0

[1] Identical to ASTM A–240, Grade S, type 304 modified.
[2] The carbon analysis shall be reported to the nearest hundredth of 1 percent.
[3] Heat treatment is authorized, and if used must be suitable and proper.

§ 78.57–22 *Inspector's report.* (a) Required to be clear, legible and in following form:

(Place) _____
(Date) _____

Steel gas cylinders.

Manufactured for _____
Location at _____
Manufactured by _____
Location at _____
Consigned to _____
Location at _____
Quantity _____
Size _____ inches outside diameter by _____ inches long.
Cylinders were hydrostatically tested at _____ pounds per square inch and found to be satisfactory.
Maximum and minimum weight _____
Maximum and minimum volumetric capacity _____
Marks stamped into the _____
(Location of marking)
of the cylinder are:
Specification ICC– _____
Serial numbers _____ to _____ inclusive.
Inspector's mark _____
Identifying symbol (registered) _____
Test date _____
Tare weights (yes or no) _____
Other marks _____

These cylinders were made by process of _____

The material used was authorized by § 78.57–21.

The material used was identified by the following _____
(Heat-purchase order)
numbers _____

The material used was verified as to chemical analysis and record thereof is attached hereto. The heat numbers _____
(Were—were not)
marked on the material.

All material was inspected and all that was accepted was found free from seams, cracks, laminations and other injurious defects.

The compliance of cylinders with specification requirements was verified including markings, condition of inside, tests, threads, etc. All cylinders with defects which might prove injurious were rejected. The processes of manufacture and heat treatment were supervised and found to be efficient and satisfactory.

The cylinder walls were measured and the minimum thickness noted was _____ inch. The outside diameter was determined by a close approximation to be _____ inches. The wall stress was calculated to be _____ pounds per square inch under an internal pressure of _____ pounds per square inch.

Hydrostatic tests, tensile tests of material, and other tests as prescribed in specification No. ICC–4L _____ were made in the presence of the inspector and all cylinders accepted were found to be in compliance with the requirements of that specification. Records thereof are attached hereto.

Each cylinder _____ been
(Has—has not)
equipped with safety devices as follows: _____

I hereby certify that all of these cylinders proved satisfactory in every way and comply with the requirements of Interstate Commerce Commission specification No. 4L except as follows:

Exceptions _____

4. Add § 78.58 (15 F. R. 8419, Dec. 2, 1950) (49 CFR 78.58, 1950 Rev.) to read as follows:

§ 78.58 *Specification 4DA; inside containers, welded steel for aircraft use.*

§ 78.58–1 *Compliance.* (a) Required in all details.

§ 78.58–2 *Type, size, and service pressure*—(a) *Type and size.* Welded steel spheres (two seamless hemispheres) or circumferentially welded cylinders (two seamless drawn shells) not over 100 pounds water capacity.

(b) *Service pressure.*[1] At least 500 to not over 900 pounds per square inch.

§ 78.58–3 *Inspection by whom and where.* (a) By competent and disinterested inspector acceptable to the Bureau of Explosives; chemical analyses and tests, as specified, to be made within the limits of the United States.

§ 78.58–4 *Duties of inspector.* (a) Inspect all material and reject any not complying with requirements.

(b) Verify chemical analysis of each heat of material by analysis or by obtaining certified analysis: *Provided,* That a certificate from the manufacturer thereof, giving sufficient data to indicate compliance with requirements, is acceptable when verified by check analyses of samples taken from one container out of each lot of 200 or less.

(c) Verify compliance of containers with all requirements including markings; inspect inside before closing; verify heat treatment and welding procedure as proper; obtain samples for all tests and check chemical analyses; witness all tests; verify threads by gauge; report volumetric capacity and tare weight and minimum thickness of wall noted.

(d) Render complete report to purchaser, container maker, and the Bureau of Explosives.

[1] The "service pressure" limits the use of the container. It is shown by marks on container; for example ICC–4DA500 indicates the service pressure as 500 pounds per square inch.

§ 78.58–5 *Steel.* (a) Open-hearth or electric steel of aircraft quality. The following chemical analyses are authorized (see Note 1):

4130

	Percent
Carbon	0.28/0.33.
Manganese	0.40/0.60.
Phosphorus	0.040 max.
Sulfur	0.040 max.
Silicon	0.20/0.35.
Chromium	0.80/1.10.
Molybdenum	0.15/0.25.

NOTE 1: A heat of steel made under any of the above specifications, chemical analysis of which is slightly out of the specified range, is acceptable, if satisfactory in all other respects provided the standard permissible variations from specified chemical ranges and limits published in the American Iron and Steel Institute Products Manual entitled "Alloy Steel; Semi-finished; Hot Rolled and Cold Finished Bars" dated July 1955, are not exceeded or are approved by the Bureau of Explosives.

§ 78.58–6 *Identification of material.* (a) Required; any suitable method except that plates and billets for hot-drawn containers shall be marked with heat number.

§ 78.58–7 *Defects.* (a) Material with seams, cracks, laminations, or other injurious defects, not authorized. Defects in welded joints shall not exceed the limits specified in § 78.58–17 covering radiographic inspection.

§ 78.58–8 *Manufacture.* (a) By best appliances and methods; dirt and scale to be removed as necessary to afford proper inspection; no defect acceptable that is likely to weaken the finished container appreciably, reasonably smooth and uniform surface finish required. No abrupt change in wall thickness permitted. Certification of welders and/or process required in accordance with the sections that apply of Compressed Gas Association Standards for Welding and Brazing on Thin Walled Containers (CGA Pamphlet C–3–1954).[2]

(b) All seams of the sphere or cylinders must be fusion welded. Seams shall be of the butt or joggle butt type and means must be provided for accomplishing complete penetration of the joint.

§ 78.58–9 *Welding.* (a) Attachments to the container are authorized by fusion welding provided that such attachments are made of weldable steel, the carbon content of which must not exceed 0.25 percent except in the case of 4130 steel.

§ 78.58–10 *Wall thickness.* (a) The minimum wall thickness shall be such that the wall stress at the minimum specified test pressure shall not exceed 67 percent of the minimum tensile strength of the steel as determined from the physical and burst tests required and shall not be over 70,000 psi. Minimum wall 0.060 inch for any diameter container.

(b) Calculation for a sphere must be made by the formula:

$$S=\frac{PD}{4tE}$$

where:
S = wall stress in pounds per square inch;
P = test pressure prescribed for water jacket test, i. e., at least 2 times service pressure, in pounds per square inch;
D = outside diameter in inches;
t = minimum wall thickness in inches;
E = 0.85 (provides 85 percent weld efficiency factor which must be applied in the girth weld area and heat affected zones which zone shall extend a distance of 6 times wall thickness from center line of weld);
E = 1.0 (for all other areas).

(c) Calculation for a cylinder must be made by the formula:

$$S=\frac{P(1.3D^2+0.4d^2)}{D^2-d^2}$$

where:
S = wall stress in pounds per square inch;
P = test pressure prescribed for water jacket test, i. e., at least 2 times service pressure, in pounds per square inch;
D = outside diameter in inches;
d = inside diameter in inches.

§ 78.58–11 *Heat treatment.* (a) The completed containers must be uniformly and properly heat-treated prior to tests. Heat-treatment of containers of the authorized analysis shall be as follows:

(1) All containers must be oil quenched except as noted in subparagraph (5) of this paragraph.

(2) The steel temperature on quenching shall be that recommended for the steel analysis, but in no case shall exceed 1,750° F.

(3) The steel shall be tempered at the temperature most suitable for the analysis except that in no case shall the tempering temperature be less than 1,000° F.

(4) The steel may be normalized at a temperature of 1,650° F. instead of being quenched, and containers so normalized need not be tempered.

(5) The steel coming under this specification may be quenched in molten salt bath maintained at a temperature not less than 375° F.

§ 78.58–12 *Openings in container.* (a) Each opening in the container must be provided with a fitting, boss, or pad of weldable steel securely attached to the container by fusion welding.

(b) Attachments to a fitting, boss, or pad must be adequate to prevent leakage. Threads must comply with the following:

(1) Threads must be clean cut, even, without checks, and tapped to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the container; gaskets required, adequate to prevent leakage.

§ 78.58–13 *Safety devices.* (a) Safety relief devices must be as required by the Interstate Commerce Commission's Regulations. (See § 73.34 (f) of this chapter.)

§ 78.58–14 *Hydrostatic test.* (a) By water-jacket, or other suitable method, operated so as to obtain accurate data. Pressure gauge must permit reading to accuracy of 1 percent. Expansion gauge must permit reading of total expansion to accuracy either of 1 percent or 0.1 cubic centimeter.

(b) Pressure must be maintained for 30 seconds and sufficiently longer to insure complete expansion. Any internal pressure applied after heat-treatment and previous to the official test must not exceed 90 percent of the test pressure. If, due to failure of the test apparatus, the test pressure cannot be maintained, the test may be repeated at a pressure increased by 10 percent or 100 pounds per square inch, whichever is the lower.

(c) Permanent volumetric expansion must not exceed 10 percent of total volumetric expansion at test pressure.

(d) Each container must be tested to at least 2 times service pressure.

§ 78.58–15 *Burst test.* (a) One container taken at random out of 200 or less shall be hydrostatically tested to destruction. Rupture pressure shall be included as part of the inspector's report.

§ 78.58–16 *Flattening test*—(a) *Flattening test for spheres.* At the weld between parallel steel plates on a press with welded seam at right angles to the plates, test one sphere taken at random out of each lot of 200 or less after hydrostatic test. Any projecting appurtenances may be cut off (by mechanical means only) prior to crushing.

(b) *Flattening test for cylinders.* Between knife edges, wedge shaped, 60° angle, rounded to ½ inch radius; test one cylinder taken at random out of each lot of 200 or less, after hydrostatic test.

§ 78.58–17 *Radiographic inspection.* (a) Required on all welded joints which are subjected to internal pressure, except that at the discretion of the disinterested inspector, openings less than 25 percent of the sphere diameter need not be subjected to radiographic inspection. Evidence of any defects likely to seriously weaken the container shall be cause for rejection.

§ 78.58–18 *Physical test and specimens for spheres and cylinders*—(a) *Physical test for spheres.* Required on 2 specimens cut from flat representative sample plate of the same heat taken at random from the steel used to produce the sphere. This flat steel from which the 2 specimens are to be cut must receive the same heat-treatment as the spheres themselves. Sample plates to be taken for each lot of 200 or less spheres.

(b) *Specimens for spheres.* Specimens must be gauge length 2 inches with width not over 1½ inches: *Provided,* That gauge length at least 24 times thickness with width not over 6 times thickness is authorized when wall of sphere is not over $^3/_{16}$ inch thick.

(c) *Physical test for cylinders.* Required on 2 specimens cut from 1 cylinder taken at random out of each lot of 200 or less.

(d) *Specimens for cylinders.* Specimens must be gauge length 8 inches with width not over 1½ inches; or gauge length 2 inches with width not over 1½ inches: *Provided,* That gauge length at

[2] Available from the Compressed Gas Association, Inc., 11 West 42d Street, New York 36, N. Y.

least 24 times thickness with width not over 6 times thickness is authorized when cylinder wall is not over 3/16 inch thick. The specimen, exclusive of grip ends, must not be flattened. Grip ends may be flattened to within 1 inch of each end of the reduced section. Heating of specimen for any purpose is not authorized.

(c) The yield strength in tension shall be the stress corresponding to a permanent strain of 0.2 percent of the gauge length.

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–42.

(2) In using the "extension under load" method, the total strain (or "extension under load") corresponding to the stress at which the 0.2 percent permanent strain occurs may be determined with sufficient accuracy by calculating the elastic extension of the gauge length under appropriate load and adding thereto 0.2 percent of the gauge length. Elastic extension calculations shall be based on an elastic modulus of 30,000,000. In the event of controversy, the entire stress-strain diagram shall be plotted and the yield strength determined from the 0.2 percent offset.

(3) For the purpose of strain measurement, the initial strain shall be set while the specimen is under a stress of 12,000 pounds per square inch, the strain indicator reading being set at the calculated corresponding strain.

(4) Cross-head speed of the testing machine shall not exceed 1/8 inch per minute during yield strength determination.

§ 78.58–19 *Acceptable results for physical, flattening, and burst tests.* (a) Elongation at least 20 percent for 2 inch gauge length or 10 percent in other cases.

(b) Flattening required to 50 percent of the original outside diameter without cracking.

(c) Burst pressure shall be at least 3 times service pressure.

§ 78.58–20 *Rejected containers.* (a) Reheat-treatment authorized; subsequent thereto, acceptable containers must pass all prescribed tests. Repair of welded seams by welding prior to reheat-treatment authorized.

§ 78.58–21 *Marking.* (a) Marking on each container by stamping plainly and permanently only on a permanent attachment or on a metal nameplate permanently secured to the container by means other than soft solder, as follows:

(1) ICC–4DA followed by the service pressure (for example, ICC–4DA900).

(2) A serial [3] number and an identifying symbol (letters); location of number to be just below the ICC mark; location [4] of symbol to be just below the number. The symbols and numbers must be those of purchaser, user, or maker. The symbol must be registered with the Bureau of Explosives; duplications unauthorized.

Example:

ICC–4DA900
1234
XY

(3) Inspector's official mark, near serial number, date of test (such as 8–50 for August 1950), so placed that dates of subsequent tests can be easily added.

§ 78.58–22 *Size of marks.* (a) Of sufficient size to be legible.

§ 78.58–23 *Inspector's report.* (a) Required to be clear, legible, and in the following form:

(Place) _____
(Date) _____

Gas _____
(Spheres-cylinders)
Manufactured for _____ Company.
Location at _____
Manufactured by _____ Company.
Location at _____
Consigned to _____ Company.
Location at _____
Quantity _____
Size _____ inches outside diameter by _____ inches long.
Marks stamped into the _____
(Shoulder-metal plate, § 78.58–21.)
Specification ICC _____
Serial numbers _____ to _____ inclusive.
Inspector's mark _____
Identifying symbol (registered) _____
Test date _____
Tare weights (yes or no) _____
Other marks (if any) _____

These containers were made by process of _____

The material used was identified by the following _____
(Heat-purchase order)
numbers _____

The material was verified as to chemical analysis and record thereof is attached hereto. The heat numbers _____
(Were—were not)
marked on the material.

All material, such as plates, billets and seamless tubing, was inspected and each container was inspected both before and after closing in the ends; all that was accepted was found free from seams, cracks, laminations, and other defects which might prove injurious to the strength of the container. The processes of manufacture and heat treatment of containers were supervised and found to be efficient and satisfactory.

The container walls were measured and the minimum thickness noted was _____ inch. The outside diameter was determined by a close approximation to be _____ inches. The wall stress was calculated to be _____ pounds per square inch under an internal pressure of _____ pounds per square inch.

Hydrostatic tests, flattening tests, tensile tests of material, and other tests, as prescribed in specification No. ICC–4DA were made in the presence of the inspector and all material and containers accepted were found to be in compliance with the requirements of that specification. Records thereof are attached hereto.

I hereby certify that all of these containers proved satisfactory in every way and comply with the requirements of Interstate Commerce Commission specification No. 4DA except as follows:

RECORD OF PHYSICAL TESTS OF MATERIAL FOR CONTAINERS

Numbered _____ to _____ inclusive.
Size _____ inches outside diameter by _____ inches long.
Made by _____ Company.
For _____ Company.

Test No.	Containers represented by test (Serial Nos.)	Yield strength (pounds per square inch)	Tensile strength (pounds per square inch)	Elongation (percent in 8 inches)	Reduction of area (percent)	Flattening test

(Signed) _____

[3] Lot numbers not over 500 cylinders in each lot, authorized for cylinders not over 2 inches outside diameter and for cylinders over 2 inches outside diameter when the volumetric capacity does not exceed 60 cubic inches.

[4] Symbol in front or following the number with ample space between is also authorized. Other variation in location authorized only when necessitated by lack of space.

(Place) _____
(Date) _____

RECORD OF HYDROSTATIC TESTS ON CONTAINERS

Numbered _____ to _____ inclusive.
Size _____ inches outside diameter by _____ inches long.
Made by _____ Company.
For _____ Company.

Serial numbers of containers tested arranged numerically	Actual test pressure (pounds per square inch)	Total expansion (cubic centimeters) [1]	Permanent expansion (cubic centimeters) [1]	Percent ratio of permanent expansion to total expansion [1]	Tare weight (pounds) [2]	Volumetric capacity

NOTE: When specifications require test for only 1 out of each lot of 200 or less containers, the check on the others must be indicated by a notation hereon reading "Each container was subjected to a pressure of _____ pounds per square inch and showed no defect."

[1] If the tests are made by a method involving the measurement of the amount of liquid forced into the container by the test pressure, then the basic data, on which the calculations are made, such as the pump factors, temperature of liquid, coefficient of compressibility of liquid, etc., must also be given.

[2] Do not include removable cap but state whether with or without valve. These weights must be accurate to a tolerance of 1 percent.

(Signed) _____

5. In § 78.67–17 amend the introductory text of paragraph (a) (21 F. R. 3015, May 5, 1956) (49 CFR 78.67–17, 1950 Rev.) to read as follows:

§ 78.67 *Specification 41; inside containers, non-refillable seamless or welded or brazed steel cylinders.*

§ 78.67–17 *Marking.* (a) Marking on each cylinder by embossing plainly and permanently on the valve end or footring of cylinder before heat-treatment, the marks ICC–41 and registered symbol of the manufacturer, except that stamping of all prescribed marks on the valve end of all cylinders having wall thickness of 0.042 inch or greater is authorized providing no stamping shall exceed 0.015 inch in depth.

* * * * *

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS AND BOXES

1. In § 78.100–5 paragraph (a) table, amend the 3d column heading, to read "Type of container [3]", and add footnote 3 to paragraph (a) table (15 F. R. 8445, Dec. 2, 1950) (49 CFR 78.100–5, 1950 Rev.) to read as follows:

[3] When drum is used in conjunction with an inside Spec. 2S (§ 78.35 of this chapter) polyethylene drum as a composite package, two 1/8-inch holes are permitted diametrically opposite each other in the drum body near the bottom chime.

§ 78.100 *Specification 6J; steel barrels and drums.*

§ 78.100–5 *Parts and dimensions.* (a) * * *

2. In § 78.117–6 amend paragraph (a); in § 78.117–8 amend paragraph (b) (15 F. R. 8449, Dec. 2, 1950) (49 CFR 78.117–6, 78.117–8, 1950 Rev.) to read as follows:

§ 78.117 *Specification 17F; steel drums.*

§ 78.117–6 *Chime reinforcement.* (a) Chime reinforcement required and to be not less than 12 gauge.

§ 78.117–8 *Rolling hoops and convex heads.* * * *

(b) *Convex heads.* Convex (crowned) heads; minimum convexity to be 3/8 inch, with minimum chime height of 7/8 inch.

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS, AND MAILING TUBES

1. In § 78.205–7 add paragraph (b); in § 78.205–17 amend the introductory text of paragraph (a), and add paragraph (a) (3) (15 F. R. 8475, Dec. 2, 1950) (18 F. R. 5277, Sept. 1, 1953) (49 CFR 1950 Rev., 1955 Supp., 78.205–7, –17) to read as follows:

§ 78.205 *Specification 12B; fiberboard boxes.*

§ 78.205–7 *Tape.* * * *

(b) Tape for closure of slotted containers complying with the following requirements is authorized when applied as prescribed in § 78.205–17 (a) (3):

(1) Tape must be not less than 3 inches wide and shall be made of two sheets of 100 percent sulfate Kraft each not less than 30 pounds basis weight, reinforced with glass, sisal, or rayon fiber, combined with a laminant of asphalt or other material not affected by temperature extremes any more than would standard 180° to 200° softening point asphalt.

(2) Tape must be reinforced by lengthwise fibers spaced not more than an average of 1/2 inch apart, and by crosswise fibers spaced not less than an average of 2 per inch except that when a diamond pattern is employed for crosswise reinforcement, the spacing between the parallel sides of the diamond measured in the machine direction must be not more than 1 inch.

(3) Glass or sisal reinforced tape must have a minimum tensile strength in the machine direction of 75 pounds per inch of width and a minimum tensile strength in the cross direction of 45 pounds per inch of width; rayon reinforced tape must have a minimum tensile strength in the machine direction of 57 pounds per inch of width and a minimum tensile strength in the cross direction of 27 pounds per inch of width with elongation not exceeding 15 percent. Tensile tests on the finished product shall be made on a 3-inch width sample.

§ 78.205–17 *Closing for shipment.* (a) Slotted container, by coating with adhesive the entire contact surfaces of closing flaps and fill-in pieces, or as prescribed in subparagraph (1), (2), or (3) of this paragraph.

* * * * *

(3) For slotted containers only, reinforced tape complying with the requirements of § 78.205–7 (b) is authorized for application over the center seam only. Tape must extend over the ends of box not less than 2 1/2 inches.

* * * * *

SUBPART I—SPECIFICATIONS FOR TANK CARS

1. In § 78.270–12 amend paragraph (d) (21 F. R. 4577, June 26, 1956) (49 CFR 78.270–12, 1950 Rev.) to read as follows:

§ 78.270 *Specification ICC–105A100; lagged riveted steel tanks to be mounted on or forming part of a car.*

§ 78.270–12 *Venting, loading and unloading, gauging and sampling devices and thermometer well.* * * *

(d) Tanks used in transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

2. In § 78.285–12 amend paragraph (d) (21 F. R. 4598, June 26, 1956) (49 CFR 78.285–12, 1950 Rev.) to read as follows:

§ 78.285 *Specification ICC–105A100–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78.285–12 *Venting, loading, and unloading, gauging and sampling devices and thermometer well.* * * *

(d) Tanks used for the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

3. In § 78.286–12 amend paragraph (d) (21 F. R. 4600, June 26, 1956) (49 CFR 78.286–12, 1950 Rev.) to read as follows:

§ 78.286 *Specification ICC–105A300–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78286–12 *Venting, loading and unloading valves, gauging and sampling device and thermometer well.* * * *

(d) Tanks for use in the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

4. In § 78.287–12 amend paragraph (d) (21 F. R. 4601, June 26, 1956) (49 CFR 78.287–12, 1950 Rev.) to read as follows:

§ 78.287 *Specification ICC–105A400–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78.287–12 *Venting, loading and unloading valves, gauging and sampling device and thermometer well.* • • •

(d) Tanks for use in the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

5. In § 78.288–12 amend paragraph (d) (21 F. R. 4603, June 26, 1956) (49 CFR 78.288–12, 1950 Rev.) to read as follows:

§ 78.288 *Specification ICC–105A500–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78.288–12 *Venting, loading and unloading valves, gauging and sampling device and thermometer well.* • • •

(d) Tanks for use in the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

6. In § 78.289–12 amend paragraph (d) (21 F. R. 4605, June 26, 1956) (49 CFR 78.289–12, 1950 Rev.) to read as follows:

§ 78.289 *Specification ICC–105A600–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78.289–12 *Venting, loading and unloading valves, gauging and sampling device and thermometer well.* • • •

(d) Tanks for use in the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

7. In § 78.294–12 amend paragraph (d) (21 F. R. 4614, June 26, 1956) (49 CFR 1950 Rev., 1955 Supp., 78.294–12) to read as follows:

§ 78.294 *Specification ICC–105A100–AL–W; lagged fusion-welded aluminum tanks to be mounted on or forming part of a car.*

§ 78.294–12 *Venting, loading and unloading, gauging and sampling devices.* • • •

(d) Tanks for use in the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with check valves of an approved design.

8. In § 78.300–12 amend paragraph (d) (21 F. R. 4626, June 26, 1956) (49 CFR 78.300–12, 1950 Rev.) to read as follows:

§ 78.300 *Specification ICC–105A300–AL–W; lagged fusion-welded aluminum tanks to be mounted on or forming part of a car.*

§ 78.300–12 *Venting, loading and unloading valves, gauging and sampling device and thermometer well.* • • •

(d) Tanks used for the transportation of liquefied hydrocarbon gas or liquefied petroleum gas must have the interior pipes of the loading and unloading valves, gauging device and sampling valve equipped with excess flow valves of an approved design.

SUBPART J—SPECIFICATIONS FOR CONTAINERS FOR MOTOR VEHICLE TRANSPORTATION

1. Amend § 78.321 heading; amend § 78.321–11 (b); amend the introductory text of § 78.321–12 (b); amend § 78.321–13; amend § 78.321–14 (a) (15 F. R. 8544, Dec. 2, 1950) (16 F. R. 11785, Nov. 21, 1951) (49 CFR 1950 Rev., 1955 Supp., 78.321, –11, –12, –13, –14) to read as follows:

§ 78.321 *Specification MC 300; cargo tanks constructed of mild (open hearth or blue annealed) steel or combination of mild steel with high-tensile steel or in combination with ferrous alloy steel.*

§ 78.321–11 *Properties of material.* • • •

(b) *Properties of ferrous alloy steel sheets.* All ferrous alloy steel sheets for such cargo tanks shall meet the following minimum requirements:

Yield point, minimum	30,000 lb. per sq. in.
Ultimate strength, minimum	65,000 lb. per sq. in.
Minimum elongation, standard 2-inch sample	20 percent.

§ 78.321–12 *Thickness of steel sheets.* • • •

(b) *Thickness of ferrous alloy steel sheets.* The minimum thickness of ferrous alloy steel tank sheets shall be limited by the volume capacity of the tank expressed in terms of gallons per inch of length; and by the distance between bulkheads, baffles, or other shell stiffeners, as well as by the radius of shell curvature in the case of shell sheets; as specified in Table III and Table IV:

• • • • •

§ 78.321–13 *Cargo tanks constructed of a combination of mild and ferrous alloy steels.* (a) Mild steel sheets as specified in § 78.321–12 (a) may be used in combination with ferrous alloy steel sheets as specified in § 78.321–12 (b) in the construction of a single tank, provided each material, where used, shall comply with the minimum requirements for the material used in the construction for that section of the tank.

§ 78.321–14 *Joints*—(a) *Method of joining.* Mild tank sheets, ferrous alloy steel tank sheets, or combination thereof shall be joined by fusion welding, riveting and fusion welding, brazing, or riveting and brazing at the option of the motor carrier.

• • • • •

2. Amend § 78.324 heading; amend § 78.324–11 (a) (15 F. R. 8551, 8552, Dec. 2, 1950) (49 CFR 78.324, –11, 1950 Rev.) to read as follows:

§ 78.324 *Specification MC 303; cargo tanks constructed of welded ferrous alloy steel.* To be mounted on and to form part of tank motor vehicles for transportation of flammable liquids, and poisonous liquids, class B.

§ 78.324–11 *Material.* (a) All sheets for such cargo tanks shall be of ferrous alloy steel, meeting the following minimum requirements:

Yield point	30,000 lb. per sq. in.
Ultimate strength	65,000 lb. per sq. in.
Elongation, 2-inch sample	20 percent.

3. In § 78.325–8 (d) amend the text following the second table and preceding the last table; amend the text following the last table in paragraph (d) (21 F. R. 3016, May 5, 1956) (20 F. R. 8114, Oct. 28, 1955) (49 CFR 1950 Rev., 1955 Supp., 78.325–8) to read as follows:

§ 78.325 *Specification MC 304 for cargo tanks for the transportation of flammable liquids and poisonous liquids class B having Reid (ASTM D–323) vapor pressures of 18 pounds per square inch absolute at 100° F.*

§ 78.325–8 *Minimum thickness of material.* • • •

(d) • • •

Minimum thicknesses of ferrous alloy steel tank sheets, in U. S. standard gauges, subject to the foregoing requirements in this section:

(NOTE: Table remains the same.)

• • • • •

All material used in accordance with this table of minimum thicknesses shall meet or exceed the following minimum requirements:

Yield point	30,000 p. s. i.
Ultimate strength	65,000 p. s. i.
Elongation, 2-inch sample	20 percent.

4. In § 78.330–14 amend paragraphs (b) and (c) (15 F. R. 8555, Dec. 2, 1950) (49 CFR 78.330–14, 1950 Rev.) to read as follows:

§ 78.330 *Specification MC 310; cargo tanks.* To be mounted on or to form part of tank motor vehicles for the transportation of corrosive liquids.

§ 78.330–14 *Tank outlets.* • • •

(b) *Bottom outlets.* Bottom outlets shall be of metal not subject to rapid deterioration by the lading, and each shall be provided with a valve or plug at its upper end and a liquid-tight closure at its lower end. Every such valve or plug shall be such as to insure against unseating due to stresses or shocks incident to transportation.

(c) *Bottom wash-out chambers.* Tanks may be equipped with bottom washout chambers. Bottom wash-out chambers shall be of metal not subject to rapid deterioration by the lading and shall be provided with a liquid-tight closure at its lower end. If used for loading or unloading, they shall be equipped with a valve or plug at the upper end.

5. In § 78.331–11 amend paragraphs (b) and (c) (18 F. R. 6784, Oct. 27, 1953) (49 CFR 78.331–11, 1950 Rev.) to read as follows:

§ 78.331 *Specification MC 311; cargo tanks.* To be mounted on or to form part of tank motor vehicles for the transportation of corrosive liquids.

§ 78.331–11 *Tank outlets.* • • •

(b) *Bottom wash-out chambers.* Tanks may be equipped with bottom washout chambers. Bottom wash-out chambers shall be of metal not subject to rapid deterioration by the lading and shall be provided with a liquid-tight closure at its lower end. If used for loading or unloading, they shall be equipped with a valve or plug at the upper end.

(c) *Bottom outlets.* Bottom outlets shall be of metal not subject to rapid deterioration by the lading, and each shall be provided with a valve or plug at its upper end and a liquid-tight closure at its lower end. Every such valve or plug shall be such as to insure against unseating due to stresses or shocks incident to transportation.

Section and Reason for Amendment	
73.119 (f) (3) Note 1	To refer to new designation for tank cars.
73.119 (j) (1), (2), (3)	To conform to the change made in section 73.115.
73.122 (a) (3)	To delete reference to obsolete specifications.
73.134, entire section	To provide for the transportation of pyroforic fuel.
73.135 (a) (7), (8), (9)	To provide for the transportation of certain flammable liquids in tank cars and tank motor vehicles.
73.136 (a) (6), (7)	To provide for the transportation of methyl dichloroslane and trichlorosilane in tank cars.
73.141 (a) (7)	To delete reference to obsolete specifications.
73.142, entire section	Pressurized flammable liquids considered no greater hazard than liquids under normal vapor pressure.
73.168, entire section	To provide an inside paper bag lined with polyethylene for certain peroxides.
73.202 (a) (1)	To authorize a greater weight of sodium or potassium liquid alloy to be shipped in one outside container.
73.206 (c) (1)	To delete reference to obsolete specification.
73.218 (a) (1)	To delete reference to an obsolete specification.
73.242 (a)	To clarify the provisions under which bottles of corrosive liquids may be packed in the same outside container with other articles.
73.247 (a) (6)	To delete reference to an obsolete specification.
73.249 (b) (1)	To authorize spec. 12B fiberboard box for the transportation of certain corrosive liquids by rail express.
73.253 (a) (5)	To provide spec. 5K, nickel drum, for the transportation of chloracetyl chloride.
73.257 (a) (6)	To provide spec. 12C fiberboard box for the transportation of electrolyte (acid) or corrosive battery fluid; to provide for the use of inside containers made of materials other than plastic.
73.258 (a)	To clarify that spec. 12B fiberboard box is authorized for the transportation of electrolyte, acid or alkaline corrosive battery fluid packed with storage batteries.
73.262 (a), (b) (1)	To provide for the transportation of hydrobromic acid greater than 49 percent but not over 63 percent strength.
73.264 (a) (3), (4), (5), (6), (a) (7) Note 5, (a) (8) Note 1, (a) (12), (a) (14) Note 1.	To align the requirements for shipping hydrofluoric acid with present day shipping practices.
73.264 (b) (2)	To delete reference to obsolete specifications.
73.272 (1) and (1) (6)	To authorize greater concentration of sulfuric acid to be shipped in spec. 6J steel containers having inside polyethylene drum.
73.280 (a) (7), (8)	To provide for the transportation of certain corrosive liquids in tank cards and tank motor vehicles.
73.289 (a) (2)	To provide spec. 103E–W tank car for formic acid.
73.302 (a) and (a) (9)	To provide exemptions for certain aerosol containers.
73.304 (f)	To provide for filling density of spec. 4L cylinder.
73.306 (d)	To provide exceptions to flashback and sustained flame restriction for shipping aerosols.
73.308 (a) table, and Note 1 thereto.	To provide for the transportation of certain pressurized liquids in spec. 4L cylinders; to authorize spec. 4DA500 cylinders for certain liquefied nonflammable gases.
73.312 (a) (7)	To provide spec. 2F, inside metal container, for liquefied petroleum gas.
73.314 (a) table; Notes 12 and 10.	To authorize the transportation of additional compressed gases (freons) in tank cars and to provide for the truck handling of these commodities; to authorize spec. 110A 500–W tank car for certain compressed gases.
73.314 (a) Note 9	To restore previous restrictions against certain flammable gases.
73.315 (a) (1), (h) table, (1) (2) table.	To provide for the transportation of dichlorodifluoromethane-dichlorotetrafluoroethane mixture in cargo and portable tanks.

APPENDIX

Section and Reason for Amendment	
72.5 (a), Commodity List	Provides additions, amendments and cancellations to keep commodity list on a current basis.
73.21 (b)	To clarify that all unstable materials are included, regardless of reason for instability.
73.25 (b)	To permit electrolyte acid or alkaline battery fluid packed in specification containers to be included in the same outside container with dry charged storage batteries.
73.34 (f)	Clarifies requirements pertaining to safety relief devices on cylinders.
73.34 (h)	To make applicable certain tests for spec. 4L cylinders, exposed to the action of fire, before reuse.
73.34 (k), table	To provide minimum retest pressure for spec. 4DA and 4L cylinders.
73.34 (k) (11)	To authorize decennial retesting of certain cylinders used in anhydrous dimethylamine, anhydrous monomethylamine, and anhydrous trimethylamine service.
73.53 (b), (c), (d), and (e)	To include certain high explosives as additional examples for classifying class A explosives.
73.56 (f)	To omit marking requirements on each bomb, mine, etc., exterior when palletized for shipment.
73.60 (b) (3)	To provide spec. 17E metal drum for the transportation of black powder.
73.63 (c) (2)	To provide additional type of inside container for high explosives with liquid explosive ingredient.
73.70, entire section	To provide for the transportation of lead mononitroresorcinate.
73.88 (e)	To properly describe the usage of jet thrust units (jato), class B, as a means of identification.
73.88 (e) (2)	To define starter cartridges, jet engine, and explain their function.
73.91 (a) (3)	To permit the transportation of fireworks shells in spec. 12B fiberboard box.
73.92 (a) (3)	To authorize spec. 23F fiberboard box for starter cartridges, jet engine, class B; to authorize the use of an inside fiberboard container.
73.92 (a) (4)	To restore a provision that was erroneously omitted in the revision of the entire section in Ord. 25.
73.100 (r), (r) (12), and (y)	To remove certain articles from the common fireworks category.
73.108 (a)	To provide specification packaging requirements for certain class C explosives transferred from the common fireworks category.
73.108 (d)	To provide marking requirements for outside packages of certain class C explosives.
73.115, entire section	To clarify the definition of flammable liquids and viscous flammable liquids.
73.118 (c) (35), (36)	To include methyl dichlorosilane and pyroforic fuel that are not exempt from the regulations, in any quantity.

Section and Reason for Amendment	
73.353 (a) (4)	To provide for the use of spec. 4DA500 cylinder for certain poisons.
73.354 (a) (4)	To delete reference to an obsolete specification.
73.357 (b) (1)	To authorize the use of cylinders closed with solid plugs protected by metal collars for chlorpicrin and mixtures thereof.
73.429 (b)	To stipulate that abbreviations must not be used on receipts for shipments by rail express.
74.532 (c)	To authorize mixed loading of yellow and white labeled articles under given conditions.
74.538 (a) chart, and footnote b	To correct an omission; to provide loading requirements for starter cartridges, jet engines, class B; to authorize mixed loading of yellow and white labeled articles under given conditions.
74.549 (f)	To provide for the transportation of class A explosives on container cars along with proper application of car certificates and placards.
74.549 (h)	To require certificates on car or truck body or trailer loaded on flat cars, containing class A explosives.
74.584 (a)	To make consistent with the requirements of section 73.428.
75.654 (b)	To permit color or kind of label and to prohibit abbreviations on receipts issued for express shipments.
75.657 (a)	To clarify that abbreviations must not be used on waybills.
76.703 (b)	To provide for the transportation of certain compressed gases in rail baggage service.
77.814 (a)	To show correct Bureau title.
77.818 (b)	To permit color or kind of label and to prohibit abbreviations on receipts issued for express shipments.
77.840 (c)	To provide for handling additional compressed gases (freons) by motor vehicles.
77.848 (a) chart, and footnote (b).	To correct an omission; to provide loading requirements for starter cartridges, jet engines, class B; to authorize mixed loading of yellow and white labeled articles under given conditions.
78.50–14 (b) (1), (2)	To reduce the test pressure to 480 psi when cylinders are tested in accordance with the modified test.
78.51–14 (d) (1), (2)	To reduce the test pressure to 480 psi when cylinders are tested in accordance with the modified test.
78.57, entire section	To provide for the construction of new spec. 4L cylinder.
78.58, entire section	To provide for the construction of new spec. 4DA container.
78.67–17 (a)	To authorize the application of prescribed markings on footrings of spec. 41 cylinders.
78.100–5 (a) table, and footnote 3.	To permit small holes in spec. 6J drum to facilitate insertion of spec. 2S polyethylene drum.
78.117–6 (a)	To allow reduction in chime reinforcement from 11 gauge to 12 gauge.
78.117–8 (b)	To allow reduction in convexity of heads and to proportionally reduce chime height.
78.205–7 (b)	To provide reinforced tape as additional method of closure for spec. 12B fiberboard box.
78.205–17 (a) and (a) (3)	To provide for additional method of closure.
78.270–12 (d)	To restore previous restrictions against certain flammable gases.
78.285–12 (d)	To restore previous restrictions against certain flammable gases.
78.286–12 (d)	To restore previous restrictions against certain flammable gases.
78.287–12 (d)	To restore previous restrictions against certain flammable gases.
78.288–12 (d)	To restore previous restrictions against certain flammable gases.
78.289–12 (d)	To restore previous restrictions against certain flammable gases.
78.294–12 (d)	To restore previous restrictions against certain flammable gases.
78.300–12 (d)	To restore previous restrictions against certain flammable gases.
78.321 heading, 78.321–11 (b), 78.321–12 (b), 78.321–13 (a), 78.321–14 (a).	To authorize the use of stainless steels in the construction of MC300 cargo tanks.
78.324 heading, 78.324–11 (a)	To authorize the use of stainless steels in the construction of MC303 cargo tanks.
78.325–8 (d)	To authorize the use of stainless steels in the construction of MC304 cargo tanks.
78.330–14 (b) and (c)	To clarify the necessity and application of a valve or plug at the upper end of bottom wash-out chambers.
78.331–11 (b) and (c)	To clarify the necessity and application of a valve or plug at the upper end of bottom wash-out chambers.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11793]

TELEVISION BROADCAST STATIONS; NADINE, N. MEX., AND MONAHANS, TEX.

EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of § 3.606 *Table of assignments*, Television Broadcast Stations, (Nadine, New Mexico—Monahans, Texas).

1. On July 24, 1956, the Commission issued a notice of proposed rule making in the above-entitled proceeding proposing to shift television Channel 9 from Monahans, Texas to Nadine, New Mexico and to substitute Channel 35 in Monahans. The notice specified that comments with respect to the proposal should be filed on or before August 22, 1956, with reply comments 10 days thereafter.

2. On August 15, 1956, Hobbs Television Company filed a request for an extension of time within which to file comments. Hobbs states that it is in the process of making studies in connection with technical questions related to the proposal and that additional time will be necessary for the preparation of various data. Hobbs requests that the time for filing comments be extended for 30 days. In addition, by telegram dated August 15, 1956, the Monahans Chamber of Commerce has requested a 30-day extension in order that it may prepare comments.

3. The Commission is of the view that the foregoing parties have set forth adequate reasons for extending the time for filing comments and that the public interest would be served by extending the time.

4. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended to September 24, 1956, with reply comments due 10 days thereafter.

Adopted: August 16, 1956.

Released: August 17, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] DEE W. PINCOCK,
Acting Secretary.

NOTICES

DEPARTMENT OF COMMERCE

Office of the Secretary

COMMISSIONER OF PUBLIC ROADS

DELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN DUTIES AND FUNCTIONS

Pursuant to the authority vested in the Secretary of Commerce by law, the Commissioner of Public Roads is hereby authorized to exercise all the authority, duties, and responsibilities vested in or delegated to the Commissioner of Public Roads under any law, order, or regulation in effect immediately prior to the enactment of Public Law 966, 84th Congress, approved August 3, 1956. The authority delegated herein shall remain in effect, unless otherwise amended or revoked, pending the appointment of the Federal Highway Administrator under said law and thereafter, subject to the direction of the Federal Highway Administrator, until such time as the functions and authorities of the Administrator and Commissioner are prescribed by the Secretary of Commerce as provided in the statute.

The authority delegated herein may be redelegated by the Commissioner of Public Roads to be exercised subject to the same conditions set forth above.

Dated: August 3, 1956.

SINCLAIR WEEKS,
Secretary of Commerce.

ST. PAUL MERCURY INSURANCE CO.

SURETY COMPANIES ACCEPTABLE ON FEDERAL BONDS; NOTICE OF CHANGE OF NAME

AUGUST 16, 1956.

Effective at 10:45 a. m. July 19, 1956, Mercury Insurance Company, St. Paul, Minnesota, formally changed its name to "St. Paul Mercury Insurance Company". A copy, certified by the Secretary of State of the State of Minnesota, of a Certificate of Amendment changing the name of Mercury Insurance Company to St. Paul Mercury Insurance Company has been received and filed in the Treasury.

The change in name of Mercury Insurance Company does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to its authority under the act of Congress approved July 30, 1947, (6 U. S. C. secs. 6–13), to qualify as sole surety on such obligations.

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Office of the Secretary

SECRETARIES OF THE MILITARY DEPARTMENTS

REDELEGATION OF AUTHORITY WITH RESPECT TO EXERCISE OF POWERS VESTED IN SECRETARY OF DEFENSE CONCERNING APPOINTMENT OF PERSONS FROM FOREIGN COUNTRIES TO MILITARY ACADEMIES

I. *Purpose.* The purpose of this notice is to redelegate to the Secretaries of the Military Departments the presidential authority now delegated to the Secretary of Defense by Executive Order No. 10661, dated February 27, 1956, with respect to appointment of persons from certain foreign countries to the military academies.

II. *Effect.* The powers delegated by the President to the Secretary of Defense under Executive Order 10661, February 27, 1956, are hereby redelegated to the Secretaries of the Military Departments as follows: (1) The Secretary of the Army is designated to exercise the powers vested in the Secretary of Defense under section 1 thereof; (2) the Secretary of the Navy is designated to exercise the powers vested in the Secretary of Defense under section 2 thereof; (3) the Secretary of the Air Force is designated to exercise the powers vested in the Secretary of Defense under section 3 thereof. In accordance with section 5 of Executive Order 10661, no person shall be designated under the authority of that order to receive instruction except after consultation by the designating officer with the Secretary of State.

C. E. WILSON,
Secretary of Defense.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Bureau Order 551, Amdt. 23]

FUNCTIONS RELATING TO INDIAN LAND AND MINERALS, CREDIT MATTERS AND FUNDS AND FISCAL MATTERS

REDELEGATION OF AUTHORITY

AUGUST 17, 1956.

Order 551 (16 F. R. 2939) as amended (16 F. R. 5456, 7467, 8252; 17 F. R. 3516, 7552; 18 F. R. 7305; 19 F. R. 1936, 3482, 3971, 4544, 4585, 7416; 20 F. R. 1562, 2694, 2894, 6590, 5442; 21 F. R. 222, 503, 1455, 1905, 2896) is further amended as hereinafter indicated;

1. Section 12 under the heading Functions Relating to Indian Lands and Minerals is amended and a new section 28 is added to read as follows:

SEC. 12. *Leases and permits.* The exercise of any and all the authorities of the Commissioner set forth in 25 CFR Part 171.

SEC. 28. *Roads.* The exercise of any and all of the authorities delegated to the Commissioner under 25 CFR 261.6, 261.8 and 261.9 and pursuant to section 28 of Secretarial Order 2508.

2. Sections 120 and 127 under the heading Functions Relating to Credit Matters are amended to read as follows:

SEC. 120. *Loan agreements.* The approval of applications pursuant to 25 CFR Part 21, subject to the availability of funds, where the total indebtedness of the applicant to the lender does not exceed:

(a) $100,000 in the case of loans by the United States to corporations, tribes, bands, and credit associations;

(b) $15,000 in the case of loans by the United States to cooperative associations and, except on loans for educational purposes, to individual Indians;

(c) $500 for a one-year course of studies or $2,000 for a four-year course of studies in the case of educational loans by the United States to individual Indians;

(d) $20,000 in the case of loans by corporations, tribes, and bands to cooperative associations and individual Indians, and loans by credit associations to individual Indians, or such lesser amount as may be agreed to by the lender and the Commissioner;

(e) $50,000 in the case of loans and advances by corporations, tribes, and bands to corporate and tribal enterprises.

SEC. 127. *Modifications of loan agreements.* The approval of modifications of loan agreements pursuant to 25 CFR Part 21 where the total indebtedness of the borrower to the lender does not exceed:

(a) $100,000 in the case of loans by the United States to corporations, tribes, bands, and credit associations, except modifications extending the repayment terms;

(b) $15,000 in the case of loans by the United States to cooperative associations and to individual Indians;

(c) $20,000 in the case of loans by corporations, tribes, and bands to cooperative associations and individual Indians, and loans by credit associations to individual Indians, or such lesser amount as may be agreed to by the lender and the Commissioner;

(d) $50,000 in the case of loans and advances by corporations, tribes, and bands to corporate and tribal enterprises, except modifications extending the repayment terms.

3. Section 261 under the heading Functions Relating to Funds and Fiscal Matters is amended to read as follows:

SEC. 261. *Investment of Osage funds.* The investment of funds of Osage Indians held in the accounts of the Indian Bureau for individual Indians and Indian associations in any public debt of the United States, bonds, notes, or other obligations, authorized under the Act of February 27, 1925 (Ch. 359, 43 Stat. 1008, 1009), provided the principal of any such investment is guaranteed by the United States.

4. Section 400 *Repeals* is amended by addition of the following:

SEC. 14. *Tribal fees.*
SEC. 128. *Loan agreements and modifications.*

W. BARTON GREENWOOD,
Acting Commissioner.

Bureau of Land Management

WYOMING

CLASSIFICATION ORDER NO. 4, WYOMING NO. 1, REVOKED IN PART

1. On May 16, 1941, the vacant public lands in the following described areas in the Cheyenne, Wyoming Land District, were classified by the Secretary of

the Interior as chiefly valuable for development under the five-acre tract act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), and opened for leasing under that act as cabin, health, convalescent and reacreational sites, but not home, camp, or business sites.

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 32 N., R. 79 W.,
Tract 43: Lots A and B;
Sec. 15: SW¼NW¼.

2. Pursuant to the authority delegated to me by the Director, Bureau of Land Management by section 2.9, Order No. 541, dated April 21, 1954 (19 F. R. 2473), I hereby rescind Small Tract Classification Order No. 4, Wyoming No. 1 as it applies to the following subdivisions:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 32 N., R. 79 W.
Tract 43: Lots 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25;
Sec. 15: S½SE¼SW¼NW¼.

LOWELL M. PUCKETT,
State Supervisor.

[W-042188]

WYOMING

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Forest Service, Department of Agriculture, has filed an application, Serial No. Wyoming 042188, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the United States mining laws and mineral leasing laws.

The applicant desires the land for the protection and preservation in public ownership of the "Medicine Wheel", an item of wide archaeological interest, and an access road to the site.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Post Office Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

MEDICINE WHEEL HISTORIC AREA

T. 56 N., R. 92 W.,
Sec. 15: SW¼SW¼;
Sec. 16: SE¼SE¼.

MEDICINE WHEEL ROAD, NO. 104 ROADSIDE ZONE

A strip of land 200 feet on each side of the center line of the Medicine Wheel Road, No. 104 through the following legal subdivisions:

T. 56 N., R. 92 W.,
Sec. 22: NE¼NW¼NW¼, NE¼NW¼, NE¼SE¼NW¼, N½S½NE¼;
Sec. 23: N½SW¼NW¼, SE¼NW¼, NE¼NE¼SW¼, NW¼SE¼, S½NE¼SE¼;
Sec. 24: SW¼NW¼SW¼, SW¼SW¼;
Sec. 25: NE¼NW¼NW¼, W½NE¼NW¼.

LOWELL M. PUCKETT,
State Supervisor.

[F. R. Doc. 56-6796; Filed, Aug. 22, 1956; 8:47 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Alaska Railroad has filed an application, Serial No. Anchorage 032727, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws.

The applicant desires the land for use in connection with trainship operation.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

A tract of land lying below the line of ordinary high tide on Passage Canal, Whittier, Alaska, and defined by metes and bounds as follows:

Beginning at Corner No. 2 of P. L. O. 1056, dated January 18, 1955, which bears N. 2° 293/4' E., 630.60 feet and thence N. 11° 09' E., 337.20 feet from U. S. Location Monument No. 2559, Whittier Townsite; thence, from the point of beginning, N. 11°.09' E., 375 feet; thence S. 68° 00' 17" E., 713.43 feet to Corner No. 4 of P. L. O. 1056; thence S. 56° 09' W., 500 feet to Corner No. 3 of P. L. O. 1056; thence N. 60° 51' W., 365.0 feet to Corner No. 2 of P. L. O. 1056, the point of beginning.

The above described tract contains 4.88 acres.

ROGER R. ROBINSON,
Operations Supervisor.

National Park Service

[Southwestern National Monuments, Order 2]

ASSISTANT GENERAL SUPERINTENDENT, ADMINISTRATIVE OFFICER, AND PROCUREMENT AND PROPERTY ASSISTANT

DELEGATION OF AUTHORITY TO EXECUTE AND APPROVE CERTAIN CONTRACTS

JULY 24, 1956.

SECTION 1. *Assistant General Superintendent.* The Assistant General Superintendent may execute and approve contracts not in excess of $200,000 for construction, supplies, equipment or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised by the Assistant General Superintendent in behalf of any area under the supervision of the General Superintendent of the Southwestern National Monuments.

SEC. 2. *The Administrative Officer.* The Administrative Officer may execute and approve contracts not in excess of $50,000 for supplies, equipment or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised by the Administrative Officer in behalf of any area under the supervision of the General Superintendent of the Southwestern National Monuments.

SEC. 3. *Procurement and Property Clerk.* The Procurement and Property Clerk may execute and approve contracts not in excess of $2,000 for supplies, equipment or services in conformity with applicable regulations and statutory authority and subject to availability of appropriations. This authority may be exercised by the Procurement and Property Clerk in behalf of any area under the supervision of the General Superintendent of the Southwestern National Monuments.

SEC. 4. *Revocation.* This order supersedes Southwestern National Monuments Order No. 1 dated August 15, 1955 (20 F. R. 6985), and amendment No. 1 to Order No. 1 dated January 10, 1956 (21 F. R. 1039).

(National Park Service Order No. 14 (19 F. R. 8824) and amendments thereto; 39 Stat. 535; 16 U. S. C., 1952 ed., sec. 2. Region Three, Order No. 3 (21 F. R. 1494))

[SEAL] JOHN M. DAVIS,
General Superintendent,
Southwestern National Monuments.

FEDERAL POWER COMMISSION

[Docket No. G-10928]

WELORI LUMBER CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Welori Lumber Company (Applicant) on July 19, 1956, tendered for filing a proposed change in the presently effective rate schedule for sales subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate is contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date [1]

Notice of change, undated; Louisiana-Nevada Transit Co.; Supplement No. 4 to Applicant's FPC Gas Rate Schedule No. 2; August 18, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Applicant, if later.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed change in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until January 18, 1957, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: August 17, 1956.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 56-6800; Filed, Aug. 22, 1956; 8:48 a. m.]

[Docket No. G-2864, etc.]

RAY LONDON ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 17, 1956.

In the matters of Ray London and or D. E. London, Docket No. G-2864; W. A. Stockard, Docket No. G-3835; Riley & Scott, Trustees for Homer Sowards and others as Assignees and Successors of Frank Scott, Docket No. G-3860; Puenticitas Oil Co., operating as Agent for D. H. Perry, et al., Docket No. G-3901; Charm Oil Co., Docket No. G-3935; La Gloria Oil & Gas Co., Docket No. G-3973; Wiltex Corporation, Docket No. G-3974; Irene Sheerin, Individually and as Independent Executrix of the Estate of John J. Sheerin, Docket No. G-3975; C. C. Small and Binford Arney, Trustees under Indentures dated May 17, 1941, Docket No. G-3976; Kerr-McGee Oil Industries, Inc., Docket No. G-3977; Jack C. Staley, Docket No. G-3989; The Nueces Co., Docket No. G-3999; C. P. Burton, Docket Nos. G-4001—G-4004, inclusive; Stanolind Oil & Gas Company, Docket Nos. G-4066—G-4068, inclusive, G-4756, G-4874, G-7484, G-7494, G-7499, G-7506, G-7514, G-7517, G-7519, G-7521, G-7523, G-7534; F. M. Lefforge and E. H. Klein d. b. a. Lefforge and Klein, Docket No. G-4081; Placid Oil Company, Docket Nos. G-4099, G-4100; The Zephyr Drilling Corporation, Docket Nos. G-4103, G-4206, G-4329; W. H. Hodnett & Company, Inc., Docket No. G-4106; Johnny E. Hines et al., Docket No. G-4109; Wasatch Corporation, Docket No. G-4132; Airfleets, Inc., Docket No. G-4135; Petro-Atlas Corporation,[1] Docket No. G-4136; W. A. Richardson Oil Company, W. A. Richardson et al., Docket No. G-4177; El Dorado Refining Company, Docket No. G-4182; H. C. Heldenfels, Trustee, Operator, Docket No. G-4196; Sohio Petroleum Company, Docket Nos. G-4208, G-4267; Phelps Dodge Corporation, Docket No. G-4219; W. D. Kennard, Docket No. G-4221; Standard Oil Company of Texas, Docket No. G-4269; Pan-American Production Company, Docket Nos. G-4297—G-4306, inclusive; Samedan Oil Corporation and A. A. Kemnitz, Docket No. G-4312; The Estate of N. V. Duncan et al., Docket No. G-4323; Nichols-Duncan Drilling Company, Docket No. G-4347; The Hortex Oil Company, Docket No. G-4415; H. F. Sears, Docket No. G-4440; Reynolds Mining Corporation, Docket No. G-4527; T. J. Ahern et al., Docket No. G-4528; W. M. Bevly, Docket No. G-4529; Bevly Oil and Developing Corporation et al., Docket No. G-4530; Consumers Gas Utility Company, Docket No. G-4566; Westheimer-Neustadt, Docket No. G-4672; Sinclair Oil and Gas Company, Docket No. G-4676; Bovaird, Inc., Docket No. G-4678; L. J. McHenry, Docket No. G-4694; Walter Van Norman, Docket No. G-4729; Mutual Investments, Inc., Docket No. G-4739; Southeast Improvement Company, Docket No. G-4740; Amerada Petroleum Corporation, Docket Nos. G-4770—G-4775, inclusive, G-4777—G-4779, inclusive; Carter Oil Company, Docket Nos. G-4801, G-4910, G-4985—G-4987, inclusive, G-4992; Hope Producing Company, Docket No. G-4802; C. D. Davis, Individually and as Agent for Carl Casey and Robert M. Bergstein, Docket No. G-4846; The Gilmer Oil Company, Docket No. G-4854; Texas Natural Gasoline Corporation and H. W. Bass and Sons, Inc., Docket No. G-4875; Ada Oil Company, Docket Nos. G-4888—G-4890, inclusive; E. J. Brindley, Docket No. G-4925; Barron Kidd, Docket No. G-4938; Jake L. Hamon, Docket Nos. G-7428—G-7430, inclusive; Pecos Petroleum Company, Docket No. G-9299; The Atlantic Refining Company, Docket No. G-9311.

Each of the above applicants has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing applicants to render services as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in their respective applications which are on file with the Commission and open for public inspection.

Applicants produce and sell natural gas for transportation in interstate commerce for resale as indicated below.

Docket No. G-; Location of Field; and Buyer

2864; Ridgeway Area, Jefferson and Stephens County, Okla.; Lone Star Gas Company.

9299; Tunstill and Mason Fields, Reeve and Loving Counties, Tex.; El Paso Natural Gas Company.
9311; Black 11 Field, Andrews County, Tex.; Martinpool Gasoline Company.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commisison's rules of practice and procedure, a hearing will be held on September 12, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 29, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3497]

NORWOOD GAS CO. AND NEW ENGLAND ELECTRIC SYSTEM

NOTICE OF PROPOSED RIGHTS OFFERING BY SUBSIDIARY, AND PROPOSAL OF PARENT COMPANY TO PURCHASE ALL SHARES UNSUBSCRIBED BY MINORITY STOCKHOLDERS AND TO OFFER TO PURCHASE ALL SHARES HELD BY MINORITY STOCKHOLDERS

AUGUST 17, 1956.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary Norwood Gas Company ("Norwood"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (a), 6 (b), 7 (e), 9 (a), and 10 of the act and Rule U-40 (a) (6) thereunder as applicable to the proposed transactions, which are summarized as follows:

The authorized capital stock of Norwood consists of 3,010 common shares (par value $100 per share), of which 2,810 shares are outstanding. Norwood proposes to reduce its authorized capital stock to the 2,810 shares presently outstanding, and thereupon increase its capital stock by the issue and sale of 1,405 additional shares, offering such shares to its stockholders at the price of $100 per share on the basis of one new share for each two shares held. Rights to subscribe will be evidenced by full and half-share warrants, exercisable during a subscription period of 21 days; but only full shares will be issued.

NEES, which now owns 2,791 shares (99.324 percent) of Norwood's outstanding stock, proposes to exercise its rights to subscribe for the 1,395 full shares of additional stock to which it will be entitled. The minority public holders (four in number, owning 19 shares) will be entitled to subscribe for 9 full shares. NEES also proposes, during the subscription period, to offer to purchase the present holdings of the minority stockholders, together with their rights to subscribe for additional shares, on the basis of $120 a share, and at the end of the subscription period to purchase from Norwood all unsubscribed shares at the subscription price. The price of $100 per share for the additional capital stock to be issued by Norwood and the price of $120 per share to be offered by NEES for the present minority holdings together with rights to subscribe for additional shares, are stated to have been determined by the directors of the respective companies after consideration of the earnings and book value of the Norwood stock and other comparable utility company stocks.

NEES will use treasury funds for its proposed acquisitions. Norwood will apply the proceeds from the sale of the additional capital stock, $140,500, to the discharge of a like amount of short-term notes payable to NEES, reducing its note indebtedness to NEES from $590,000 to $449,500. Such indebtedness was incurred by Norwood for extensions, enlargements and additions to its plant and property. Norwood and NEES desire to consummate the issue and sale of the additional capital stock in order to finance permanently a portion of the capitalizable additions to Norwood's plant through the issuance of equity securities. NEES also desires to invest funds not otherwise required in its business in acquiring the small minority interest in Norwood.

The Massachusetts Department of Public Utilities has authorized and approved the increase of Norwood's authorized capital stock from 2,810 to 4,215 shares, the issuance of 1,405 additional shares, the acquisition by NEES of any shares unsubscribed by the minority stockholders, and the application by Norwood of the proceeds of the sale.

The expenses to be incurred by Norwood and NEES herein are estimated to be $2,300 and $300 respectively.

It is requested that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than August 31, 1956, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 56-6804; Filed, Aug. 22, 1956; 8:48 a. m.]

[File No. 812-1024]

GIBCO, INC.

NOTICE OF FILING REQUESTING ORDER EXEMPTING TRANSACTION BETWEEN AFFILIATED PERSONS

AUGUST 17, 1956.

Notice is hereby given that certain affiliated persons of Gibco, Inc. ("Gibco"), a registered closed-end, nondiversified investment company, have filed an application pursuant to the provisions of section 17 (b) of the Investment Company Act of 1940 (the "act") for exemption from the provisions of section 17 (a) (2) of the participation by such affiliated persons of Gibco in a proposed exchange of securities.

On April 30, 1956, Gibco sold substantially all its assets to Hupp Corporation ("Hupp") in exchange for cash and securities of Hupp. Gibco has made an offer to permit its shareholders (at the shareholders' option and for a limited period of time) to tender their Gibco stock for Hupp securities and cash.

The only outstanding securities of Gibco are 600,000 shares of Common Stock, par value $1 per share. Hupp, which owns 359,200 shares of the Gibco stock, has advised Gibco that it will not accept the offer.

The present assets of Gibco consist of:

(1) 150,000 shares of 5 percent Series A Preferred Stock, par value $50 per share, of Hupp;

(2) 695,176 shares of Common Stock, par value $1 per share, of Hupp;

(3) A 5 percent Subordinated Promissory Note of Hupp, in the principal amount of $1,200,000, convertible (until maturity or prepayment) into shares of Hupp common stock at a conversion price of $10 per share and maturing April 30, 1961; and

(4) $378,900 in cash.

Gibco expects to file a claim for refund of Federal income taxes in the approximate amount of $300,000, said claim being based upon a tax loss resulting from the sale to Hupp of the assets of Gibco on April 30, 1956.

Gibco has offered to acquire from each holder of its common stock all shares of Gibco owned by such holder. All shareholders who tender all of their Gibco shares will receive for each share of Gibco: 1½ shares of Common Stock of Hupp; ¼ share of 5 percent Series A Preferred Stock of Hupp; and $1 in cash.

The offer will expire at 3:00 p. m., central daylight saving time, on September 4, 1956.

On July 31, 1956 the closing price on the New York Stock Exchange for the Common Stock of Hupp was $6⅛ and the closing price of the Preferred Stock of Hupp was $39¼. Valuing the Hupp stock at those prices and the Hupp Subordinated Promissory Note at its principal amount, the net asset value of a share of Gibco Common Stock on July 31, 1956, was $19.55, without allowing for the tax refund claim. If Gibco eventually receives the entire tax refund claim and if no deficiencies in its past income taxes are determined the net asset value per share would be increased by approximately 50 cents. On July 31, 1956, the closing price on the Midwest Stock Exchange for the Common Stock of Gibco was $16¾.

Valuing the Hupp Preferred Stock and Common Stock at their closing prices on the New York Stock Exchange on July 31, 1956, the value of the distribution offered on tenders was $20 per share of Gibco.

John F. Bolger, a director of Gibco, owns 100 shares of Gibco stock. H. E. Greene, a director of Gibco, is a trustee of and has a beneficial interest in a trust which is the holder of 100 shares of Gibco stock. Glenn G. Paxton, an assistant-secretary of Gibco is the holder of 100 shares of such stock. Under the provisions of section 2 (a) (3) of the act each of such persons is an "affiliated person" of Gibco.

Section 17 (a) (2) of the act prohibits, among other things, an affiliated person of a registered investment company from purchasing any security from such registered company, subject to certain exceptions not here material, unless the Commission, upon application pursuant to section 17 (b) of the act, grants an exemption from the provisions of section 17 (a). Under the terms of section 17 (b) an exemption shall be granted by the Commission if evidence establishes: that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act; and that the proposed transaction is consistent with the general purposes of the act. Applicants have requested that the Commission issue an order exempting the transaction from the provisions of section 17 (a) (2) to the extent applicable, pursuant to the provisions of section 17 (b) of the act.

Applicants represent that the terms of the proposed transaction are reasonable and fair; that the partial liquidation to be effected by the exchange is consistent with the policy stated by Gibco that its present intention is to continue to hold the Hupp securities not taken on tenders and it has no present intention of engaging in any other significant business transaction.

Notice is further given that any interested person may not later than August 30, 1956, at 5:30 p. m., submit to the

Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3500]

BLACKSTONE VALLEY GAS AND ELECTRIC CO.

NOTICE OF FILING OF DECLARATION REGARDING PROPOSAL TO AUTHORIZE, ISSUE AND SELL SHARES OF NEW SERIES OF PREFERRED

AUGUST 17, 1956.

Notice is hereby given that Blackstone Valley Gas and Electric Company ("Blackstone"), a public utility subsidiary of Eastern Utilities Associates ("EUA"), a registered holding company, has filed with this Commission a declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act"), regarding a proposal by it to authorize, issue and sell 25,000 shares of a new series of preferred stock, and to reduce its outstanding bank notes. Declarant has designated sections 6 (a) and 7 of the act and Rules U-42 (b) (2) and U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to the declaration on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Blackstone proposes, subject to appropriate approval of its stockholders, to authorize a new series of redeemable cumulative preferred stock ("new preferred stock"), consisting of 25,000 shares of $100 per value each, and ranking pari passu with the outstanding 4.25 percent preferred stock, except as to number of shares, rate of dividend, date from which such dividends commence to accumulate, and the redemption prices thereof.

Blackstone further proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, 25,000 shares of the new preferred stock, of which 1,430 shares will be subject to a subscription offer to be made, on a share for share basis, to the common stockholders other than EUA. EUA, the owner of 99.17 percent of Blackstone's outstanding common stock, has agreed to waive its right to subscribe for the new preferred stock. The dividend rate of the new preferred stock, and the price, exclusive of accumulated dividends, to be paid the company, and the subscription price (which shall be the initial offering price to the public) are to be fixed by the competitive bidding.

The proceeds from the proposed issue and sale of new preferred stock will be used to retire in part Blackstone's short-term bank notes outstanding in the aggregate principal amount of $3,050,000.

The declaration states that the proposed issue and sale of new preferred stock is subject to the jurisdiction of the Public Utility Administrator, Department of Business Regulation, of the State of Rhode Island, the State in which Blackstone is organized and doing business, and that an appropriate order of authorization from the Administrator will be obtained and filed as an exhibit in this proceeding.
